

HOW TO USE THIS BULLETIN

The information in this bulletin is current at the time of publication. If you are pursuing a degree, you are obligated to fulfill the requirements as they are listed in the bulletin for the semester in which you enroll in that program.

If the requirements change after you have enrolled in the program, you have the option of fulfilling either the old or new requirements. If you elect to fulfill the old requirements and find that necessary courses have been eliminated or substantially revised, you may substitute other courses with the approval of the dean of the college. If the revision is required by an external accreditation certification body, and this body submits a written statement to the University that the accreditation of a program or certification of its graduates is in jeopardy unless students fulfill the new requirements, the option of fulfilling the old requirements shall not apply.

If your study in the program or the University is interrupted for more than two semesters, your college dean will decide which program requirements must be fulfilled.

COMPLIANCE WITH REGULATIONS

The University of Kentucky is committed to a policy of providing educational opportunities to all qualified students regardless of economic or social status and will not discriminate on the basis of race, color, ethnic origin, national origin, creed, religion, political belief, sex, sexual orientation, marital status, age, veteran status, or physical or mental disability. Compliance with Title IX of the Educational Amendments of 1972, which prohibits sex discrimination, and with Title VI of the Civil Rights Act of 1964 is coordinated by the Office of Institutional Equity and Equal Opportunity, 13 Main Building, University of Kentucky, Lexington, KY 40506-0032, (859) 257-8927.

Efforts to comply with the laws and regulations applicable to people with disabilities are also coordinated by the Office of Institutional Equity and Equal Opportunity, as required by Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act of 1990.

Questions concerning compliance with regulations may be directed to UK's Office of Institutional Equity and Equal Opportunity, or to the Director of the Office for Civil Rights, U.S. Department of Education, Washington, D.C.

Qualified students with disabilities should contact the associate dean and director of the Disability Resource Center at (859) 257-2754 to request reasonable accommodation.

The University is in compliance with the Drug-Free Workplace Act of 1988 and the Drug-Free Schools and Communities Act Amendment of 1989. Questions may be directed to the Vice President for Student Affairs or the Office of the Associate Vice President for Human Resources.

Questions about admission to the University should be directed to the appropriate admissions office.

OAK RIDGE ASSOCIATED UNIVERSITIES (ORAU)

Since 1946, students and faculty of the University of Kentucky have benefited from its membership in Oak Ridge Associated Universities (ORAU). ORAU is a consortium of 100 colleges and universities and a contractor for the U.S. Department of Energy (DOE) located in Oak Ridge, Tennessee. ORAU works with its member institutions to help their students and faculty gain access to federal research facilities throughout the country; to keep its members informed about opportunities for fellowship, scholarship, and research appointments; and to organize research alliances among its members.

Through the Oak Ridge Institute for Science and Education (ORISE), the DOE facility that ORAU operates, undergraduates, graduates, postgraduates, as well as faculty enjoy access to a multitude of opportunities for study and research. Students can participate in programs covering a wide variety of disciplines including business, earth sciences, epidemiology, engineering, physics, geological sciences, pharmacology, ocean sciences, biomedical sciences, nuclear chemistry, and mathematics. Appointment and program length range from one month to four years. Many of these programs are especially designed to increase the numbers of underrepresented minority students pursuing degrees in science- and engineering-related disciplines. A comprehensive listing of these programs and other opportunities, their disciplines, and details on locations and benefits can be found in the *ORISE Catalog of Education and Training Programs*, which is available at www.ornl.gov/orise/educ.htm, or by calling either of the contacts below.

ORAU's Office of Partnership Development seeks opportunities for partnerships and alliances among ORAU's members, private industry, and major federal facilities. Activities include faculty development programs, such as the Ralph E. Powe Junior Faculty Enhancement Awards, the Visiting Industrial Scholars Program, consortium research funding initiatives, faculty research and support programs as well as services to chief research officers.

For more information about ORAU and its programs, contact:

Chuck Staben
Associate Vice President for Research
ORAU Councilor for University of Kentucky

Monnie E. Champion
ORAU Corporate Secretary (865-576-3306); or

2009 - 2010

UNDERGRADUATE

BULLETIN

STATEMENT OF VISION, MISSION AND VALUES

Adopted by the University Board of Trustees

October 10, 2006

VISION

The University of Kentucky will be one of the nation's 20 best public research universities, an institution recognized world-wide for excellence in teaching, research, and service and a catalyst for intellectual, social, cultural, and economic development.

MISSION

The University of Kentucky is a public, research-extensive, land grant university dedicated to improving people's lives through excellence in teaching, research, health care, cultural enrichment, and economic development.

The University of Kentucky:

- Facilitates learning, informed by scholarship and research.
- Expands knowledge through research, scholarship and creative activity.
- Serves a global community by disseminating, sharing and applying knowledge.

The University, as the flagship institution, plays a critical leadership role for the Commonwealth by contributing to the economic development and quality of life within Kentucky's borders and beyond. The University nurtures a diverse community characterized by fairness and equal opportunity.

VALUES

The values of the University guide its decisions and the behavior of its community. Its core values are:

- Integrity
- Academic excellence and academic freedom
- Mutual respect and human dignity
- Embracing diversity
- Personal and institutional responsibility and accountability
- Shared governance
- A sense of community
- Sensitivity to work-life concerns
- Civic responsibility
- Service to society

The University of Kentucky is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30033-4097: Telephone number 404-679-4501) to award undergraduate, graduate, and professional degrees.

An Equal Opportunity University

NOTIFICATION OF RIGHTS UNDER FERPA FOR POSTSECONDARY INSTITUTIONS

www.uky.edu/Registrar/ferpa.html

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. They are:

- (1) The right to inspect and review the student's education records within 45 days of the day the University receives a request for access. Students should submit to the registrar, dean, head of the academic department, or other appropriate official, written requests that identify the record(s) they wish to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.
- (2) The right to request the amendment of the student's education records that the student believes is inaccurate. Students may ask the University to amend a record that they believe is inaccurate. They should write the University official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate. If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
- (3) The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the University discloses education records without consent to officials of another school in which a student seeks or intends to enroll. [Note: FERPA requires an institution to make a reasonable attempt to notify the student of the records request unless the institution states in its annual notification that it intends to forward records on request.]

- (4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University of Kentucky to comply with the requirements of FERPA. The name and address of the office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C., 20202-4605.

The University may release information without the student's consent where the information is classified as "Directory information." The following categories of information have been designated by the University as directory information: name, address, telephone listing, e-mail address, place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, full-time/part-time status*, and the most recent previous educational institution attended by the student.

Direct questions concerning this law and the University's policy concerning release of academic information to the Student Records Office, (859) 257-7157. Students who do not wish such information released without their consent should notify the Student Records Office in writing. For complete information on (1) adding and removing a privacy flag to prevent the release of directory information; (2) the definition of education records; (3) the types of directory information that may be made available without the student's consent; and (4) the annual FERPA notification deadline for prevention of release of directory information, please visit: www.uky.edu/Registrar/ferpa.htm.

*For a description of full-time and part-time status, see Notes 1 and 2 under "Tuition and Fees" on page 25.

ANNUAL DISCLOSURE STATEMENT

Student Right-to-Know Act (P.L. 101-542) University of Kentucky 2009-2010

Section 103 of the Student Right-to-Know and Campus Security Act of 1990 (Public Law 101-542) as amended by the Higher Education Technical Amendments of 1991 (Public Law 102-26) requires public disclosure of relevant graduation rate information for students enrolled in colleges and universities receiving federal financial assistance annually beginning July 1, 1993. The following statement is the University of Kentucky's official disclosure statement in accordance with the requirements of P.L. 101-542 Section 103 for the 2009-2010 academic year.

Graduation Rate of Entering Freshmen

The graduation rate for all students entering the University of Kentucky as first-time freshmen during the 2002-2003 academic year* was **57.7 percent**. This graduation rate represents the percentage of students entering the University of Kentucky as first-time (i.e., new) full-time degree-seeking freshmen during the 2002 Summer and Fall terms who subsequently were awarded baccalaureate degrees by the University of Kentucky within six calendar years (i.e., through August 2008). This rate was calculated under definitions and procedures established by the National Collegiate Athletic Association (NCAA), and reported to the NCAA on the University's 2008 Graduation Rate Disclosure Form in March 2009.

Final regulations and guidelines for the calculation, reporting, and disclosure of graduation rate information required under the Student Right-to-Know Act have not yet been issued by the Department of Education. Definitions of the entering student cohort in the Department of Education's **proposed** regulations (*Federal Register*, July 10, 1992) and the NCAA Graduation Rate Disclosure Form differ slightly. However, the University has determined that the graduation rate information in the annual NCAA report is substantially comparable to the information required under the Student Right-to-Know Act, and is reporting that information at this time pending release of final federal regulations.

March 2009

*The information to be disclosed by July 1 of each year is "the graduation rate for the most recent cohort of entering students that all have had an opportunity to complete or graduate from their respective programs" in the specified completion period (which for the University of Kentucky is six years). The most recent entering cohort meeting this requirement is the 2002-2003 freshman class.

2009 -2010 Calendar

Check the **Academic Calendars** for any calendar changes that may have been approved after the publication of this Bulletin.

2009 Fall Semester

February 1 – Sunday - Deadline for international applications to be submitted to the Graduate School for the 2009 fall semester

February 1 – Sunday - Deadline for submission of all application materials, College of Medicine, for the 2009 Fall Semester

February 1 – Sunday - Deadline for submission of all application materials for the School of Interior Design

February 15 – Sunday - Priority deadline for freshman applicants seeking admission to the Fall Semester

February 15 – Sunday - Priority filing deadline for the 2009-2010 academic year for financial aid for entering freshmen

March 1 – Sunday - Deadline for all applicants to the School of Architecture (College of Design)

March 30-April 21 - Monday through Tuesday - Priority Registration for Fall 2009

April 1 – Wednesday - Priority filing deadline for the 2009-2010 academic year for financial aid for continuing and transfer students

April 1 – Wednesday - Deadline for NAAB Architecture transfer applicants

April 15 – Wednesday - Deadline for applying with college deans for reinstatement after a second academic suspension for the 2009 Fall Semester

April 28-June 11 – Tuesday through Thursday - Add/Drop for registered students

May 15 – Friday - Deadline for students to schedule an appointment for reinstatement in all colleges for the 2009 fall semester

May 15 – Friday - Deadline for undergraduate international applicants to submit 2009 Fall Semester application

June 15 – Monday - Earliest date to submit application for regular and Early Decision Program admission, College of Medicine, for the 2010 Fall Semester

June 15 – Monday - Deadline for international applications to be submitted to the Graduate School for the 2010 spring semester

June 22-July 23 – Monday-Thursday - Summer Advising Conferences for new freshmen, transfer, students, and readmitted students enrolling for the 2009 Fall Semester

June 30 – Tuesday-Last day for filing an application for a December 2009 undergraduate degree in college dean's office

July 16 – Thursday - Last day for students enrolled in an annualized program to officially withdraw from the University or reduce course load and receive an 80 percent refund

July 24-August 22 – Friday through Saturday - Add/Drop for registered students

July 24 – Friday - Deadline for applying for admission to the Graduate School for the 2009 Fall Semester

August 1 – Saturday - Final deadline for submission of all required documents to the Office of Admissions for undergraduate admission, for the 2009 Fall Semester, excluding freshmen who will be considered on a space-available basis

August 1 – Saturday - Deadline for application for Early Decision Program, College of Medicine, for the 2010 Fall Semester

August 5 – Wednesday - Last day for students in the Employee Educational Program registered through August 5 to submit EEP form to Human Resource Services to confirm 2009 Fall Semester registration and tuition waiver

August 18-24 – Tuesday through Monday - Fall registration for students who entered the University in either the 2009 Four-Week Intersession or Eight-Week Summer Session

August 18-24* – Tuesday through Monday - Registration for new program graduate students

August 20 – Thursday - Last day for students enrolled in an annualized program to officially withdraw from the University or reduce course load and receive a 50 percent refund

August 20-24* – Thursday through Monday - Fall registration for new post-baccalaureate students admitted for the First Summer Session, Second Summer Session or Fall Semester

August 21 – Friday - Advising Conference and Registration for new international students

August 22 – Saturday - Payment deadline of registration fees and/or housing and dining fees – if total amount due is not paid as indicated on the account statement, a late payment fee of 1.25 percent of the amount past due will be assessed

August 22-25 – Saturday through Tuesday - K Week for all new undergraduate students

August 24 – Monday - Advising Conference and Registration for new freshmen and transfer students including registration for Evening and Weekend

August 24-25 – Monday-Tuesday - Opening-of-term add/drop for registered students

August 25 – Tuesday - Advising Conference and Registration for readmission, and non-degree students including Evening and Weekend

August 25 – Tuesday - Last day a student may officially drop a course or cancel registration with the University Registrar for a full refund of fees

August 26 – Wednesday - First day of classes

August 26-September 1 – Wednesday through Tuesday - Late registration for returning students who did not priority register and new applicants cleared late for admission. A late fee is assessed students who register during this time period.

September 1 – Tuesday - Last day to add a class for the 2009 Fall Semester
September 1 – Tuesday - Last day to officially withdraw from the University or reduce course load and receive an 80 percent refund

September 1 – Tuesday - Last day for students in the Employee Educational Program who registered and/or changed schedules after August 5 to submit EEP form to Human Resource Services to confirm 2009 Fall Semester registration and tuition waiver

September 7 – Monday - Labor Day - Academic Holiday

September 16 – Wednesday - Last day to drop a course without it appearing on the student's transcript

2009-2010 Calendar

September 16 – Wednesday - Last day to change grading option (pass/fail to letter grade or letter grade to pass/fail; credit to audit or audit to credit)

September 23 – Wednesday - Last day to officially withdraw from the University or reduce course load and receive a 50 percent refund

September 24 – Thursday - Last day for filing an application for a December 2009 graduate degree in the Graduate School

September 24 – Thursday - Deadline for submission of application and all required documents to the Office of Undergraduate Admission and University Registrar for change of residency status for 2009 Fall Semester

October 5-November 25 – Monday through Wednesday - Students are prohibited from changing academic majors

October 8 – Thursday - Last day for doctoral candidates for a December degree to submit a Notification of Intent to schedule a final examination in The Graduate School

October 15 – Thursday - Deadline for submission of application and all required documents to the Office of Admissions for undergraduate applicants planning to attend November Advising Conference (including registration for spring classes)

October 19 – Monday - Midterm of 2009 Fall Semester

November 2 – Monday - Deadline for completed AMCAS application, College of Medicine, for the 2010 Fall Semester

November 2-24 – Monday through Tuesday - Priority registration for the 2010 Spring Semester

November 6 – Friday - Last day to withdraw from the University or reduce course load. Students can withdraw or reduce course load after this date only for urgent non-academic reasons.

November 19 – Thursday - Last day for candidates for a December degree to schedule a final examination in The Graduate School

November 20 – Friday - 2010 Spring Semester Advising Conference for new and readmitted undergraduate students

November 25-28 – Wednesday through Saturday - Thanksgiving - Academic Holidays

November 30 – Monday - Application deadline for undergraduate admission to the Spring 2010 term

November 30 – Monday - Last day for filing an application for a May 2010 undergraduate degree in college dean's office

December 1 – Tuesday - Deadline for submission of application and receipt of all materials for admission, readmission or transfer to the College of Law for the 2010 Spring Semester

December 2-21 – Wednesday through Monday - Add/Drop for registered students for the 2010 Spring Semester

December 3 – Thursday - Last day for candidates for a December graduate degree to sit for a final examination

December 7 – Monday - Deadline for applying for admission to the Graduate School for the 2010 Spring Semester

December 9 – Wednesday - Last day for students in the Employee Educational Program registered through December 9 to submit EEP form to Human Resource Services to confirm 2010 Spring Semester registration and tuition waiver

December 11 – Friday - Last day of classes

December 14-18 – Monday through Friday - Final Examinations

December 18 – Friday - Last day for candidates for a December degree to submit a thesis/dissertation to The Graduate School

December 18 – Friday - End of 2009 Fall Semester

December 21 – Monday - Final deadline for submission of grades to the Registrar's Office by 4 p.m.

**These dates are under review and are subject to change.*

2009-2010 Winter Intersession

October 15, 2009 – Thursday - Priority deadline for admission to the Winter Intersession

November 2-25, 2009 – Monday through Wednesday - Priority registration for Winter Intersession

November 20, 2009 – Friday - Winter Intersession registration for newly-admitted students

December 18, 2009 – Friday - Deadline for admission to the Winter Intersession

December 18, 2009 – Friday - Last day a student may drop a course or cancel registration with the University Registrar for a full refund of fees

December 21, 2009 – Monday - First day of class

December 21, 2009 – Monday - Last day to add a class for the 2009-2010 Winter Intersession

December 21, 2009 – Monday - Last day to officially withdraw from the University or reduce course load and receive an 80 percent refund

December 24, 2009 – Thursday - Last day to officially withdraw from the University or reduce course load and receive a 50 percent refund

December 24, 2009 – Thursday - Last day to drop a course without it appearing on the student's transcript

December 24, 2009 – Thursday - Last day to change a grading option (pass/fail to letter grade or letter grade to pass/fail; credit to audit or audit to credit)

December 25 – January 1 - Friday through Friday - Academic Holidays

January 6, 2010 – Wednesday - Last day to withdraw from the University or reduce course load. Students can withdraw or reduce course load after this date only for urgent non-academic reasons.

January 12, 2010 – Tuesday - Final Examinations

January 12, 2010 – Tuesday - End of 2009-2010 Winter Intersession

2010 Spring Semester

February 15, 2009 – Sunday - Priority filing deadline for the 2009-2010 academic year for financial aid for entering freshmen

April 1, 2009 – Wednesday - Priority filing deadline for the 2009-2010 academic year for financial aid for continuing and transfer students

June 15, 2009 – Monday - Deadline for international applications to be submitted to The Graduate School for the 2010 Spring Semester

September 15, 2009 – Tuesday - Deadline for applying with college deans for reinstatement after a second academic suspension for the 2010 Spring Semester

October 1, 2009 – Thursday - Deadline for students to schedule an appointment for reinstatement in all colleges for the 2010 spring semester

October 15, 2009 – Thursday - Deadline for submission of application and all 2009 required documents to the Office of Admissions for undergraduate applicants planning to attend November Advising Conference (including registration for spring classes)

October 15, 2009 – Thursday - Deadline for undergraduate international applicants to submit 2010 Spring Semester application

November 20, 2009 – Friday - 2010 Spring Semester Advising Conference for new and readmitted undergraduate students

November 30, 2009 – Monday - Last day for filing an application for a May degree in college dean's office

December 1, 2009 – Tuesday - Final deadline for submission of application and all required documents to the Office of Undergraduate Admission and University Registrar for the 2010 Spring Semester

December 2-21, 2009 – Wednesday through Monday - Add/Drop for registered students for the 2010 Spring Semester

December 7, 2009 – Monday - Deadline for applying for admission to the Graduate School for the 2010 Spring Semester

December 9, 2009 – Wednesday - Last day for students in the Employee Educational Program registered through December 9 to submit EEP form to Human Resource Services to confirm 2010 Spring Semester registration and tuition waiver

January 6-9 – Wednesday through Saturday - Add/Drop for registered students

2009-2010 Calendar

January 6-11* – Wednesday through Monday - Registration for new program graduate students

January 7-11* – Thursday through Monday - Registration for new post-baccalaureate students

January 8 – Friday - International Student Advising Conference

January 11 – Monday - Advising Conference and Registration for new freshmen and transfer students including registration for Evening and Weekend

January 11-12 – Monday and Tuesday - Opening-of-term add/drop for registered students

January 12 – Tuesday - Advising Conference and Registration for readmission and non-degree students including registration for Evening and Weekend

January 12 – Tuesday - Last day a student may officially drop a course or cancel registration with the University Registrar for a full refund of fees

January 13 – Wednesday - First day of classes

January 13-20 – Wednesday through Wednesday - Late registration for returning students who did not priority register and new applicants cleared late for admission. A late fee is assessed students who register during this time period.

January 14 – Thursday - Last day for students enrolled in an annualized program to officially withdraw from the University or reduce course load and receive an 80 percent refund

January 18 – Monday - Martin Luther King, Jr. Birthday - Academic Holiday

January 19 – Tuesday - Deadline for submission of all application materials, College of Medicine, for the Fall 2010 Semester

January 20 – Wednesday - Last day to add a class for the 2010 Spring Semester

January 20 – Wednesday - Last day to officially withdraw from the University or reduce course load and receive an 80 percent refund

January 20 – Wednesday - Last day for students in the Employee Educational Program who registered and/or changed schedules after December 9 to submit EEP form to Human Resource Services to confirm 2010 Spring Semester registration and tuition waiver

January 22 – Friday - Payment deadline of registration fees and/or housing and dining fees – if total amount due is not paid as indicated on the account statement, a late payment fee of 1.25 percent of the amount past due will be assessed

February 1 – Monday - Deadline for international applications to be submitted to The Graduate School for the 2010 Fall Semester

February 1 – Monday - Preferred deadline for submitting application for admission to the College of Dentistry for the 2010 Fall Semester

February 3 – Wednesday - Last day to drop a course without it appearing on the student's transcript

February 3 – Wednesday - Last day to change grading option (pass/fail to letter grade or letter grade to pass/fail; credit to audit or audit to credit)

February 10 – Wednesday - Last day to officially withdraw from the University or reduce course load and receive a 50 percent refund

February 11 – Thursday - Last day for filing an application for a May 2010 graduate degree in the Graduate School

February 11 – Thursday - Deadline for submission of application and all required documents to the Office of Undergraduate Admissions and University Registrar for change of residency status for 2010 Spring Semester

February 19 – Friday - Last day for students enrolled in an annualized program to officially withdraw from the University or reduce course load and receive a 50 percent refund

February 25 – Thursday - Last day for doctoral candidates for a May degree to submit a Notification of Intent to schedule a final examination in The Graduate School

February 28 – Sunday - Last day for filing an application for an August 2010 undergraduate degree in college dean's office

March 1 – Monday - Last day for submission of application for admission to the College of Law for the 2010 Fall Semester

March 1-April 21 – Monday-Wednesday - Students are prohibited from changing academic majors

March 8 – Monday - Midterm of 2010 Spring Semester

March 15-20 – Monday through Saturday - Spring Vacation - Academic Holidays

March 26 – Friday - Last day to withdraw from the University or reduce course load. Students can withdraw or reduce course load after this date only for urgent non-academic reasons.

March 29-April 20 – Monday through Tuesday - Priority registration for the 2010 Fall Semester and both 2010 Summer Sessions

April 8 – Thursday - Last day for candidates for a May degree to schedule a final examination in The Graduate School

April 12 – Monday - Deadline for applying for admission to the Graduate School for the 2010 four-week Summer Session.

April 22 – Thursday - Last day for candidates for a May graduate degree to sit for a final examination

April 30 – Friday - Last day of classes

May 3-7 – Monday through Friday - Final Examinations

May 4-10 – Tuesday through Monday - Four-Week Intersession registration and add/drop continue for students enrolled in the 2010 Spring Semester

May 4-June 9 – Tuesday through Wednesday - Eight-Week Summer Session registration and add/drop continues for students enrolled in the 2010 Spring Semester

May 4-June 19 – Tuesday through Saturday - Add/Drop for priority registered students for the 2010 Fall Semester

May 7 – Friday - Last day for candidates for a May degree to submit a thesis/dissertation to The Graduate School

May 7 – Friday - End of 2010 Spring Semester

May 8 – Saturday - Commencement

May 10 – Monday - Final deadline for submission of grades to the Registrar's Office by 4 P.M.

May 10-August 21 – Monday-Saturday - College of Pharmacy 15-Week Summer Term

**These dates are under review and are subject to change.*

2010 Four-Week – First Summer Session

March 1 – Monday - Applications available to apply for financial aid for the first summer session and/or the second summer session

March 15 – Monday - Priority filing deadline for financial aid for the first summer session and/or the second summer session

April 9 – Friday - Deadline for applying for admission to the Graduate School for the 2010 Four-Week Summer Intersession

April 15 – Thursday - Final deadline for submission of application and all required documents to the Office of Admissions for undergraduate admission for the 2010 first summer session

May 4-10 – Tuesday through Monday – First summer session registration and add/drop continue for students enrolled in the 2010 Spring Semester

May 10 – Monday - Beginning of College of Pharmacy 15-Week Summer Term

May 10 – Monday - Advising Conference and Registration for new and readmitted students

May 10 – Monday - Deadline for applying for admission to the Graduate School for the 2010 Eight-Week Summer Session

May 11 – Tuesday - Last day a student may officially drop a course or cancel registration with the University Registrar for a full refund of fees

May 11 – Tuesday - First day of classes

May 11-12 – Tuesday through Wednesday - Late registration for returning students not already registered and new applicants cleared late for admission. A late fee is assessed students who register late.

May 12 – Wednesday - Last day to add a class for the 2010 First summer session

May 12 – Wednesday - Last day to officially withdraw from the University or reduce course load and receive an 80 percent refund

May 12 – Wednesday - Last day for students in the Employee Educational Program to submit EEP form to Human Resource Services for tuition waiver for the 2010 First summer session

May 17 – Monday - Last day to drop a course without it appearing on the student's transcript

May 17 – Monday - Last day to change grading option (pass/fail to letter grade or letter grade to pass/fail; credit to audit or audit to credit)

May 18 – Tuesday - Last day to officially withdraw from the University or reduce course load and receive a 50 percent refund

May 19-June 9 – Wednesday through Wednesday - Second summer session registration and add/drop for students who entered the University in the 2010 first summer session

May 22 – Saturday - Payment deadline of registration fees and/or housing and dining fees – if total amount due is not paid as indicated on the account statement, a late payment fee of 1.25 percent of the amount past due will be assessed

May 24 – Monday - Midterm of 2010 Four-Week Intersession

May 26 – Wednesday - Last day to withdraw from the University or reduce course load. Students can withdraw or reduce course load after this date only for "urgent non-academic reasons."

May 31 – Monday - Memorial Day - Academic Holiday

June 2 – Wednesday - Last day for doctoral candidates for an August degree to submit a Notification of Intent to schedule a final examination in The Graduate School

June 8 – Tuesday - Final Examinations

June 8 – Tuesday - End of 2010 Four-Week Intersession

June 9 – Wednesday - Deadline for submission of application and all required documents to the Office of Undergraduate Admission and University Registrar for change of residency status for the Four-Week and the Eight-Week Summer Sessions

June 11 – Friday - Final deadline for submission of grades to the Registrar's Office by 12 noon

**These dates are under review and are subject to change.*

2010 Eight-Week – Second Summer Session

March 1 – Monday - Applications available to apply for financial aid for the 4 week and/or the 8 week summer term(s)

March 15 – Monday - Priority filing deadline for financial aid for the 4 week and/or the 8 week summer term(s)

May 4-June 10 – Tuesday through Thursday - Eight-Week Summer Session registration and add/drop continue for students enrolled in the 2010 Spring Semester

May 10 – Monday - Deadline for applying for admission to the Graduate School for the 2010 Eight-Week Summer Session

May 15 – Saturday - Final deadline for submission of application and all required documents to the Office of Admissions for undergraduate admission for the 2010 Eight-Week Summer Session

May 19-June 2 – Wednesday through Wednesday - Eight-Week registration and add/drop for students who entered the University in the 2010 Four-Week Intersession

June 2 – Wednesday - Last day for doctoral candidates for an August degree to submit a Notification of Intent to schedule a final examination in The Graduate School

June 8-9 – Tuesday and Wednesday - Registration for new graduate students

June 9 – Wednesday - Advising Conference and Registration for new and readmitted students including registration for Evening and Weekend

June 9 – Wednesday - Deadline for submission of application and all required documents to the Office of Undergraduate Admission and University Registrar for change of residency status for the Eight-Week Summer Session

June 10 – Thursday - Last day a student may officially drop a course or cancel registration with the University Registrar for a full refund of fees

June 10 – Thursday - First day of classes

June 10-11 – Thursday through Friday - Late registration for returning students not already registered and new applicants cleared late for admission. A late fee is assessed students who register late.

June 11 – Friday - Last day to enter an organized class for the 2010 Eight-Week Summer Session

June 11 – Friday - Last day to officially withdraw from the University or reduce course load and receive an 80 percent refund

June 11 – Friday - Last day for students in the Employee Educational Program to submit EEP form to Human Resource Services for tuition waiver for the 2010 Eight-Week Summer Session

June 15 – Tuesday - Deadline for international applications to be submitted to The Graduate School for the 2010 Spring Semester

June 21 – Monday - Last day to drop a course without it appearing on the student's transcript

June 21 – Monday - Last day to change grading option (pass/fail to letter grade or letter grade to pass/fail; credit to audit or audit to credit)

June 21-July 23 – Monday-Friday - Summer Advising Conferences for new freshmen, Community College transfers, advanced standing (transfer) students, auditors, non-degree and readmitted students enrolling for the 2010 Fall Semester

June 22 – Tuesday - Payment deadline of registration fees and/or housing and dining fees – if total amount due is not paid as indicated on the account statement, a late payment fee of 1.25 percent of the amount past due will be assessed

June 24 – Thursday - Last day to officially withdraw from the University or reduce course load and receive a 50 percent refund

June 25 – Friday - Last day for filing an application for an August degree in college dean's office

June 30 – Wednesday - Last day for filing an application for a December 2010 undergraduate degree in college dean's office

July 5 – Monday - Independence Day - Academic Holiday

July 8 – Thursday - Midterm of 2010 Eight-Week Summer Session

July 14 – Wednesday - Last day to withdraw from the University or reduce course load. Students can withdraw or reduce course load after this date only for "urgent non-academic reasons."

July 14 – Wednesday - Last day for candidates for an August degree to schedule a final examination in The Graduate School

July 19 – Monday - Deadline for applying for admission to the Graduate School for the 2010 Fall Semester

July 28 – Wednesday - Last day for candidates for an August graduate degree to sit for a final examination

August 4 – Wednesday - Last day for students in the Employee Educational Program who registered through August 4 to submit EEP form to Human Resource Services to confirm 2010 Fall Semester registration and tuition waiver

August 5 – Thursday - End of 2010 Eight-Week Summer Session

August 5 – Thursday - Last day for candidates for an August degree to submit a thesis/dissertation to The Graduate School

August 5 – Thursday - Final Examinations

August 9 – Monday - Final deadline for submission of grades to the Registrar's Office by 12 noon

August 21 – Saturday - End of College of Pharmacy 15-Week Summer Term

**These dates are under review and are subject to change.*

**College of Law
Academic Calendar**

Fall 2009

August 22 – Saturday - Payment deadline of registration fees and/or housing and dining fees – if total amount due is not paid as indicated on the account statement, a late payment fee of 1.25 percent of the amount past due will be assessed

August 25 – Tuesday - Class work begins

August 25 – Tuesday - Last day a student may officially drop a course or cancel registration with the University Registrar for a full refund

August 25 – Tuesday - Add/Drop

August 26 – Wednesday - Add/Drop

September 1 – Tuesday - Last day to add a class for the 2009 fall semester

September 1 – Tuesday - Last day to officially withdraw from the University or reduce course load and receive an 80 percent refund

September 7 – Monday - Labor Day - Academic Holiday

September 8 – Tuesday - Monday classes meet

September 16 – Wednesday - Last day to change grading option (credit to audit or audit to credit)

September 16 – Wednesday - Last day to drop a course without it appearing on student's transcript

September 23 – Wednesday - Last day to officially withdraw from the University or reduce course schedule and receive a 50 percent refund

September 24 – Thursday - Last day to file an application for a December degree

September 24 – Thursday - Deadline to apply for Kentucky residency for this semester

October 23 – Friday - Last day to withdraw from a course

October 23 – Friday - Last day to withdraw from the University or reduce course schedule. Students can withdraw or reduce course schedule after this date only for "urgent non-academic reasons."

November 2-24 – Monday through Tuesday - Priority Registration for the 2010 Spring Semester

November 25-28 – Wednesday through Saturday - Thanksgiving Holidays - Academic Holidays

December 4 – Friday - End of class work

December 5-7 – Saturday through Monday - Law Examination Reading Period

December 8-19 – Tuesday through Saturday - Law Final Examination Period

December 19 – Saturday - End of 2009 Fall Semester

Spring 2010

January 11 – Monday - Class work begins

January 11 – Monday - Add/Drop

January 12 – Tuesday - Last day a student may officially drop a course or cancel registration with the University Registrar for a full refund of fees

January 18 – Monday - Martin Luther King, Jr. Birthday - Academic Holiday

January 20 – Wednesday - Last day to add a class for the 2010 Spring Semester

January 20 – Wednesday - Last day to officially withdraw from the University or reduce course load and receive an 80 percent refund

January 22 – Friday - Payment deadline of registration fees and/or housing and dining fees – if total amount due is not paid as indicated on the account statement, a late payment fee of 1.25 percent of the amount past due will be assessed

February 3 – Wednesday - Last day to change grading option (credit to audit or audit to credit)

February 3 – Wednesday - Last day to drop a course without it appearing on student's transcript

February 10 – Wednesday - Last day to officially withdraw from the University or reduce course schedule and receive a 50 percent refund

February 11 – Thursday - Last day to file an application for a May degree

February 11 – Thursday - Deadline to apply for Kentucky residency for this semester

March 1 – Monday - Last day for submission of application for admission for 2010 Fall Semester

March 12 – Friday - Last day to withdraw from the University or reduce course schedule. Students can withdraw or reduce course schedule after this date for "urgent non-academic reasons."

March 15-20 – Monday through Saturday - Spring Vacation - Academic Holidays

March 29-April 20 – Monday through Tuesday - Priority Registration for the 2010 Summer Session and 2010 Fall Semester

April 23 – Friday - End of class work

April 24-26 – Saturday through Monday - Law Examination Reading Period

April 27-May 8 – Tuesday through Saturday - Law Final Examination Period

May 7 – Friday - Law Commencement

May 8 – Saturday - End of 2010 Spring Semester

Summer 2010

June 10 – Thursday - Class work begins

June 10 – Thursday - Last day a student may officially drop a course or cancel registration with the University Registrar for a full refund of fees

June 11 – Friday - Last day to officially withdraw from the University or reduce course load and receive an 80 percent refund

June 11 – Friday - Last day to enter an organized class for the 2010 eight week summer session

June 21 – Monday - Last day to change grading option (credit to audit or audit to credit)

June 21 – Monday - Last day to drop a course without it appearing on student's transcript

June 22 – Tuesday - Payment deadline of registration fees and /or housing and dining fees – if total amount due is not paid as indicated on the account statement, a late payment fee of 1.25 percent of the amount past due will be assessed

June 24 – Thursday - Last day to officially withdraw from the University or reduce course schedule and receive a 50 percent refund

June 25 – Friday - Last day to file an application for an August degree

July 5 – Monday - (Observed) Independence Day - Academic Holiday

July 14 – Wednesday - Last day to withdraw from a course

July 14 – Wednesday - Last day to withdraw from the University or reduce course schedule. Students can withdraw or reduce course schedule after this date for "urgent non-academic reasons."

July 30 – Friday - End of class work

July 31 – Saturday - Law Examination Reading Period

August 1 – Sunday - Law Examination Reading Period

August 2-5 – Monday through Thursday - Law Final Examination Period

August 5 – Thursday - End of 2010 Summer Session

**College of Medicine
Academic Calendar**

Fall 2009

July 30-31 – Thursday and Friday - Third-year general orientation
August 3 – Monday - Fourth-year rotations begin
August 3 – Monday - Last day for fourth-year students to withdraw from the College of Medicine for a full refund of tuition and fees
August 3 – Monday - First-year students begin classes
August 3 – Monday - Last day for first-year students to withdraw from the College of Medicine for a full refund of tuition and fees
August 3 – Monday - Third-year students begin rotations
August 3 – Monday - Last day for third-year students to withdraw from the College of Medicine for a full refund of tuition and fees
August 10 – Monday - Last day for first-, third-, and fourth-year students to withdraw from the College of Medicine and receive an 80 percent refund
August 10 – Second-year students begin classes
August 10 – Monday - Last day for second-year students to withdraw from the College of Medicine for a full refund of tuition and fees
August 17 – Monday - Last day for second-year students to withdraw from the College of Medicine and receive an 80 percent refund
August 22 – Friday - Tuition deadline for all students
September 7 – Monday - First- and second-year students – Labor Day Holiday
September 23 – Wednesday - Last day to withdraw from the College of Medicine and receive a 50 percent refund
November 1 – Last day for candidates applying to the College of Medicine to submit their application to AMCAS
November 25-29 – Wednesday through Sunday - First- and second-year students - Thanksgiving Holiday
December 19 – Saturday - Winter Break begins

Spring 2010

January 4 – Monday - All students register and return to class
January 4 – Monday - Last day to withdraw from the College of Medicine and receive a full refund
January 11 – Monday - Last day to withdraw from the College of Medicine and receive an 80 percent refund
January 15 – Last day for candidates applying to the College of Medicine to submit their supplemental application materials
January 18 – Monday - First- and second-year students - Martin Luther King, Jr. Birthday Holiday
January 22 – Thursday - Tuition deadline for all students
February 10 – Wednesday - Last day to withdraw from the College of Medicine and receive a 50 percent refund
March 1-5 – Monday through Friday - Spring Break for first-year students
March 15-19 – Monday through Friday - Spring Break for second-year students
April 29-30 – Thursday and Friday - Mini Break for first-year students
May 7 – Friday - End of academic year for second-year students
May 14 – Tuesday - End of academic year for fourth-year students
May 15 – Saturday - College of Medicine Graduation
May 31 – Monday - Memorial Day Holiday for first-year students
June 30 – Monday - Special graduation date
July 2 – Friday - End of academic year for first-year students
July 16 – Friday - End of academic year for third-year students
July 17, 19-24, 26-28 – CPX Exam

Enrollment Dates

First Year – 8/3/09 to 7/2/10

Second Year – 8/10/09 to 5/7/10
Third Year – 7/30/09 to 7/16/10
Fourth Year – 8/3/09 to 5/11/10
Winter Break – 12/18/09 to 1/3/10
Graduation – 5/15/10

**College of Dentistry
Academic Calendar**

**DMD, Orofacial Pain, Orthodontics, Pediatric Dentistry,
and Periodontics Programs**

Fall 2009

June 15 – Monday - Academic Year Begins for 4th Year Students (Externship)
July 1 – Tuesday - Academic Year Begins for 1st Year Pediatric Dentistry Residency and 1st Years promoted to 2nd Year
July 3 – Friday - Observed Independence Day July 4th, Saturday - Academic Holiday
July 6 – Monday - Academic Year Begins for Orofacial Pain and 1st Year Periodontics Students
July 20 – Monday - Academic Year Begins for 2nd and 3rd Year Periodontics Students
August 3 – Monday - Academic Year Begins for 1st, 2nd, and 3rd Year DMD and 1st, 2nd, 3rd Year Orthodontics Students (1st Years promoted to 2nd Year, 2nd Years promoted to 3rd Year)
August 10 – Monday - Clinical Year Begins for 4th Year DMD Students
September 7 – Monday - Labor Day - Academic Holiday
November 26-27 - Thursday and Friday - Thanksgiving Holidays - Academic Holidays
December 18 – Friday - Winter Break Begins after Last Class or Clinic for DMD, Orthodontics, and Periodontics Students
December 21-31 – Winter Break Begins for 2nd Year Pediatric Dentistry Residents
December 24 – Thursday - Winter Break begins for Orofacial Pain
December – 1st Year Pediatric Dentistry Residents May Use Bonus Days for Winter Break if Clinic Is Covered Adequately

Spring 2010

January 4 – Monday - Classes/Clinics Resume for All Students/Residents: DMD, Orofacial Pain, Orthodontics, Pediatric Dentistry, and Periodontics
January 18 – Monday - Martin Luther King, Jr. Birthday Observed - Academic Holiday
March 1-5 – Spring Break for DMD, Orthodontics, and Periodontics Students
April 28-30 – Spring Break for Orofacial Pain Students (national conference)
May 7 – Friday - Academic Year Ends for Graduating DMD Students
May 8 – Saturday - University Commencement, College of Dentistry Hooding Ceremony
May 28 – Friday - Academic Year Ends for 3rd Year Graduating Orthodontics Students
May 31 – Monday - Memorial Day: Academic Holiday
June 11 – Friday - Academic Year Ends for 3rd Year DMD Students
June 18 – Friday - Academic Year Ends for 2nd Year DMD Students
June 21-July 2 – Summer Break for 1st and 2nd Year Orthodontics Students
June 25 – Friday - Academic Year Ends for Orofacial Pain Students
June 30 – Wednesday - Academic Year Ends for 1st, 2nd, and 3rd Year Periodontics Students and Last Day of Residency for 2nd Year Pediatric Dentistry Residents
July 2 – Friday - Academic Year Ends for 1st Year DMD
July 5-23 – Summer Break for 2nd and 3rd Year Periodontics Students

A Message From President Lee T. Todd, Jr.

The singular strength of the University of Kentucky can be found in our people. Our faculty, staff, students, alumni, donors, and friends share a passion for this place – an enthusiasm that can be found in every corner of the Commonwealth. And that passion is best symbolized by the one symbol that connects every generation of the UK family – the color blue. To members of the UK family, Kentucky blue is more than just a color. It is a state of mind – a sense of pride, purpose, and excellence in all that we do. It means passion and purpose, leadership and ambition, innovation and creativity, challenge and opportunity.

The pursuit of academic excellence is at the heart of UK's mission to become one of the nation's Top 20 public research universities. Our journey to Top 20 will be led by our students, faculty, and staff, who continue to showcase their skills across a wide array of disciplines. UK's 16 academic and professional colleges boast more than 80 national rankings for academic excellence. The University already has 16 programs ranked in the Top 20 or top quartile, including the Martin School of Public Policy and Administration, which is ranked 4th in the category of Public Finance and Budgeting, the 5th-ranked College of Pharmacy, the College of Medicine's 17th-ranked Family Medicine program and 18th-ranked Rural Health program, and the Patterson School of Diplomacy's program in International Relations, which is ranked 16th.

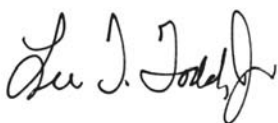

However, the true measure of a university is not solely found in rankings. The University of Kentucky takes great pride in programs that allow students to learn, grow, and become the leaders of tomorrow. At UK, students can find growth opportunities in more than 340 campus organizations and activities ranging from athletic events to debate teams to arts organizations. Since UK is a major research university, students have the opportunity to feel discovery and innovation from the moment they arrive on campus by participating in our nationally-acclaimed undergraduate research program.

A UK education also provides students with the skills they need to compete in an increasingly competitive global economy. With students from more than 115 foreign countries, all 50 states, and every county in Kentucky, you will have the opportunity to learn about the many cultures that populate our world. Through this diverse and enriching environment, students add another dimension to their education and become more equipped to excel in our rapidly changing world.

With its tradition of excellence and promise of continued growth, the University of Kentucky is a great place to be a student. Just ask the 215,000-plus alumni, among whom are Nobel and Pulitzer Prize winners, a U.S. ambassador, an astronaut, a Hollywood actress, a screenwriter, numerous governors, legislators, university presidents, business leaders, and best-selling authors.

Come to UK and see what blue can do for you!

Sincerely,

Lee T. Todd, Jr.

President

President Lee T. Todd, Jr.

University of Kentucky – A Place to Dream and Succeed

The innovation, creativity, quality teaching, and service under way at the University of Kentucky touch the lives of people throughout the state, the nation, and the world.

UK accomplishes this achievement through ground-breaking research, community outreach, and technological advances that contribute to the betterment of the Commonwealth while also fostering a cultural quality of life through our museums, libraries, and special events.

Founded in 1865 as a land-grant institution adjacent to downtown Lexington, UK is nestled in the scenic heart of the beautiful Bluegrass Region of Kentucky. From its early beginnings, with only 190 students and 10 professors, UK's campus now covers more than 716 acres and is home to more than 26,000 students and 13,500 employees.

UK is one of only a few universities in the country with a teaching and research campus and a medical center all in one central location. The state's flagship university consists of 16 academic and professional colleges where students can choose from some 200 majors and degree programs. The colleges are Agriculture, Arts and Sciences, Business and Economics, Communications and Information Studies, Dentistry, Design, Education, Engineering, Fine Arts, Health Sciences, Law, Medicine, Nursing, Pharmacy, Public Health, and Social Work.

The student body is diverse, representing 115 countries, every state in the nation, and every Kentucky county. The University continues to attract the best and brightest from Kentucky and beyond. The average ACT score for first-year students is four points above the national average. UK students compete successfully for prestigious scholarships and awards, such as the Fulbright, Truman, Goldwater, Marshall, Udall and Gates. UK had its 13th Truman Scholar named in 2008, and its first Gates Cambridge Scholar in 2008. Andrew Lynch, a 2008 UK chemical engineering graduate from Whitley County, became the only individual to receive all five of the following national scholarships – the Astronaut, Beckman, Gates Cambridge, Goldwater, and Udall.

Since 1997, the University has pursued an ambitious goal of becoming a Top 20 public research university by the year 2020. UK President Lee T. Todd, Jr. has embraced this goal in a way that promises an impact on every Kentucky resident.

“As the state’s flagship institution, the University of Kentucky is mindful of its responsibility to help all Kentuckians,” Todd says. “Our land-grant mission calls on us to make a positive impact across the state. We need to be an educational leader while remaining accessible to all Kentuckians. We need to be a cultural leader, sharing new ideas and opportunities across the state. And we need to be leading Kentucky’s charge into the new economy. We must be the catalyst for a new Commonwealth.”

The University is working aggressively to achieve its Top 20 goal. In December 2005, UK released its Top 20 Business Plan, a detailed financial analysis of the resources it will take to transform the University into a premier public research institution. The plan was widely supported by Kentucky legislators during the 2006 legislative session, as UK received full funding for the plan starting in 2007-08.

UK boasts over 80 national rankings for academic excellence. UK is currently ranked 34th among all public research universities for overall excellence, according to the Top 20 Business Plan. *U.S. News & World Report* ranked several of UK’s graduate programs among the nation’s best. The Martin School of Public Policy and Administration is ranked 4th in the category of public finance and budgeting and the College of Pharmacy is ranked 5th. The College of Medicine’s Family Medicine program is 17th and its Rural Health program is 18th. The Institute for the Theory and Practice of International Relations named the Patterson School of Diplomacy and International Commerce one of the world’s best 25 master’s degree programs in international affairs, ranking it 16th. The College of Health Sciences’ physician assistant studies program was ranked 25th and its physical therapy graduate program is ranked 35th, the College of Social Work’s master’s program is 36th, and the College of Law is ranked among the top 50 public institutions. In addition, a study, published in the *Southern Economic Journal*, ranks the Gatton College of Business and Economics’ Department of Economics 19th among public institutions in the U.S., and *U.S. News & World Report* ranked the College of Engineering’s undergraduate program 51st among the nation’s public schools that offer a doctorate in engineering.

In 2007, the University of Kentucky became the nation’s first university to raise a billion dollars in its first-ever capital campaign. Reaching its fundraising goal a full nine months ahead of schedule, UK is one of only 31 American universities – both public and private – that have successfully completed campaigns of \$1 billion-plus.

With its well-manicured landscape and landmark buildings, UK’s campus also offers great facilities that advance the scholarship of its students and the research endeavors of its faculty. At the heart of the campus is the iconic William T. Young Library, the most visible of the more than one dozen facilities that comprise UK Libraries. The stately architecture features a 93-foot-tall rotunda and a dramatic five-floor atrium allowing natural light to pour in from skylights. With the largest book endowment of all public universities, UK Libraries is among the world’s leading research libraries. Its broad scope of advanced technology offers students, faculty and Kentucky residents special access to current information online in addition to printed resources.

Research at the University of Kentucky is a dynamic enterprise encompassing both traditional scholarship and emerging technologies, and UK’s research faculty, staff, and students are establishing UK as one of the nation’s most prolific public research universities. Fiscal year 2008 was another record year for UK in the highly competitive arena of research grants and contracts. UK researchers attracted \$247.2 million in grants and contracts, with nearly 60 percent coming from federal agencies. During last fiscal year, research grants and contracts from out-of-state sources resulted in a nearly \$350 million contribution to the state’s economy, accounting for more than 8,800 jobs and \$182.9 million in personal income.

With more than 50 research centers and institutes, UK researchers are discovering new knowledge, providing a rich training ground for the next generation of researchers, and advancing the economic growth of the Commonwealth of Kentucky. Several centers excel in the services offered to the public. The Center for Manufacturing has assisted more than 500 small and mid-sized industrial firms throughout the state. The Gluck Equine Research Center is one of only three facilities of its kind in the world, conducting research into diseases of the horse.

Because UK is one of the few universities in the country with a research and teaching campus and a medical center in one central location, multidisciplinary research is particularly strong. The ASTeCC (Advanced Science and Technology Commercialization Center) building in the center of campus provides lab space for faculty affiliates who represent a variety of colleges and departments and is a hub for multidisciplinary research collaboration and commercialization. UK researchers engage in projects with professors at other public and private institutions across Kentucky, in other states and abroad.

The UK Chandler Medical Center was established in 1957 and is one of the nation’s finest academic medical centers. The faculty, students and staff of our dynamic Medical Center take pride in achieving excellence in education, patient care, research, and community service. The 473-bed UK Chandler Hospital and Kentucky Children’s Hospital are supported by a growing faculty and staff. The University is in the process of constructing a new \$450 million UK Chandler Hospital, which will serve as a cornerstone for the Commonwealth’s Medical Campus of the Future. UK HealthCare serves a unique role in the Commonwealth, as the only Level 1 Trauma Center in Central and Eastern Kentucky. UK Chandler Hospital and Kentucky Children’s Hospital care for the most critically injured and ill patients in this half of Kentucky.

UK has demonstrated its commitment to partnerships with business and other institutions of higher learning. In Lexington, UK is shaping a better relationship with the community by becoming more active in life throughout the city, especially downtown.

But UK contributes far beyond the borders of Fayette County. UK researchers are dedicated to conducting the type of research that will make an impact on Kentucky families. UK is working to help alleviate some of the nagging issues that have held Kentucky back through its Commonwealth Collaboratives initiative. The plan calls for the University to conduct research and participate in projects to solve some of Kentucky’s most pressing problems. UK faculty and researchers are leading efforts to battle conditions in these areas to improve educational, social, and economic conditions in all 120 Kentucky counties.

UK’s agenda aims to accelerate the University’s movement toward academic excellence in all areas and gaining worldwide recognition for its outstanding academic programs, its commitment to undergraduates, its success in building a diverse community, and its engagement with the larger society. It’s all part of the University’s strategy to help position Kentucky as a leader in American prosperity.

UK's Distinguished Alumni

University of Kentucky Alumni Association

The University of Kentucky Alumni Association is the official record keeper of alumni records. It is a joy to follow the success of UK alumni throughout the world. It is with respect and admiration that the UK Alumni Association established the Hall of Distinguished Alumni in 1965 in recognition of alumni achievement during the University's Centennial Year Celebration. The roster contains the names of Nobel laureates, artists, scientists, inventors, scientists, and leaders in business, industry and government. The next induction of honorees to the UK Alumni Hall of Distinguished Alumni will take place in 2010. You can read the biographies of these illustrious alumni and about other interesting alumni online at: www.ukalumni.net.

Undergraduate Admission

ADMISSION PHILOSOPHY

The Office of Undergraduate Admission and University Registrar supports the mission of the University of Kentucky. Consistent with the University's mission of research, service and teaching, the university seeks to enroll and retain an academically talented student body that enriches the learning community and is representative of the diverse society it serves. The following admission policies reflect this philosophy.

GENERAL INFORMATION

The Director of Undergraduate Admission and University Registrar authorizes the admission of all undergraduate students to the University. Students should direct all admissions inquiries to:

**Office of Undergraduate Admission
and University Registrar
100 W. D. Funkhouser Building
University of Kentucky
Lexington, KY 40506-0054
(859) 257-2000
www.applyuk.com**

Undergraduates at UK enroll in one of twelve colleges. Each college is supervised by an academic dean and is usually made up of several academic departments that offer different major fields of study.

The general University admission requirements and procedures for freshmen and transfer students are outlined below. **All applicants should be aware that certain colleges and some programs within colleges have additional admission standards and criteria beyond those for general University admission.** Refer to *Special Application Dates and Procedures* on page 19 for information on deadlines and procedures for particular colleges and programs. Detailed information on admission criteria is provided in the college sections of this Bulletin.

The University of Kentucky provides educational opportunities to all qualified students regardless of economic or social status. The University does not discriminate on the basis of race, color, religion, sex, marital status, beliefs, age, national origin, sexual orientation, or physical or mental disability.

FRESHMAN ADMISSION TO THE UNIVERSITY

The University of Kentucky subscribes to a selective admission policy. Admission for freshman applicants is based on: a) high school grades; b) national college admission test results; and c) successful completion of the required pre-college curriculum. Applicants may submit official scores from either the ACT Assessment or the SAT I: Reasoning Test. Official test scores must be sent directly from ACT or SAT testing headquarters.

MINIMUM ELIGIBILITY REQUIREMENT – All students who have completed the pre-college curriculum (see below) as prescribed by the Council on Postsecondary Education and have a 2.0 high school grade-point average are encouraged to apply to the freshman class at UK. Enrollment in the freshman class is limited. Within the limits of space availability, the Office of Undergraduate Admission and University Registrar will endeavor to accommodate all eligible applicants. However, the number of freshman applications far exceeds the number of spaces available in the entering class. For this reason, **the selective and competitive admission requirements often exceed the minimum eligibility requirement.**

Important Admission Deadlines*

- | | |
|--------------------|--|
| February 15 | Freshman application deadline for fall term. Freshman applicants who apply by this date are given full consideration for admission and Advising Conferences. Applications received after this date will be considered on a space-available basis. |
| June 1 | Summer Advising Conference deadline. All prospective students planning to attend a Summer Advising Conference (including registration for fall classes) should have transcripts and other required documents submitted to the Office of Undergraduate Admission. |
| August 1 | Credentials deadline for undergraduates entering in the fall term. For freshmen, this usually means a final high school transcript. For transfer students, final college transcripts are due. Failure to meet this deadline may result in a registration hold on the student's record. |

All applicants should be aware that some programs have application procedures and deadlines which differ from those for general University admission. Applicants should refer to *Special Application Dates and Procedures* at the end of this section for information on deadlines and procedures for selective admissions colleges and programs.

*International students – see page 17.

SELECTIVE ADMISSION – Selective admission criteria are established by faculty committee. Freshman applicants who have completed the pre-college curriculum and present grade-point averages and official test scores from either the ACT or SAT meeting the selective criteria are offered admission.

DEFERRED DECISIONS – Freshman applicants who have completed the pre-college curriculum, but do not have the requisite grade-point average, test scores or both for selective admission, may have their admission decisions deferred. A portion of the freshman class may be admitted from this group of applicants. If, after the application deadline, spaces in the class remain to be filled, admission will be offered to deferred-decision applicants on a competitive basis. Admission will be offered first to those applicants with the strongest records and offers will continue until the class is filled.

Strength of record is a relative term and refers to an applicant's record in comparison with those of all other freshman applicants. Strength of record may be determined by a number of different factors beyond selective admission criteria. While grades and test scores are important in this assessment, course selection, senior year schedule, honors and Advanced Placement courses, extracurricular and leadership activities and a student's potential to benefit from or contribute to the learning community may also be considered. The overriding concern will always be for the student's potential to be successful in meeting the academic expectations at the University.

Pre-College Curriculum

Incoming freshmen should have the high school preparation necessary for academic success at the college level. To be eligible for consideration at UK under the policy outlined above, an applicant must have successfully completed the following high school courses as a minimum:

English/Language Arts – 4 credits

English I, II, III, IV

Mathematics – 3 credits

Algebra I, Algebra II and Geometry (or more rigorous courses in mathematics)

Science – 3 credits

Biology I, Chemistry I, Physics I or life science, physical science, and earth/space science (at least one lab course)

Social Studies – 3 credits

From U.S. History, Economics, Government, World Geography and World Civilization (or comparable courses)

Foreign Language – 2 credits

Two credits in the same foreign language or demonstrated competency

Health – 1/2 credit

Physical Education – 1/2 credit

History and Appreciation of Visual, Performing Arts – 1 credit

History and appreciation of visual and performing arts or another arts course that incorporates such content

Electives – 5 credits

Recommended strongly: one or more courses that develop computer literacy

Additionally, high school students are encouraged to complete at least one year of mathematics beyond Algebra II.

A total of 22 credits or more must be completed in high school. Applicants should contact the Office of Undergraduate Admission and University Registrar for information concerning exceptions to this policy.

Special Admission Colleges and Programs

Some colleges and programs within colleges at UK have admission standards and criteria that are higher than those for general admission to the University. Also, some programs have deadlines and application procedures that differ from those for general University admission. Refer to *Special Application Dates and Procedures* on page 19 for information on procedures and deadlines for special admission programs. Detailed information on admission criteria is provided in the college sections of this Bulletin.

Matriculation Into a Degree-Granting College

All undergraduate degrees are conferred by the college offering the program of study (major). Upon admission to the University of Kentucky, all students will be enrolled either in a specific college or as undeclared students in Undergraduate Studies. With the help of academic advisors, students in Undergraduate Studies will work to select a major and gain access to one of the University's colleges.

APPLICATION PROCEDURES FOR FRESHMEN

Prospective freshmen are strongly encouraged to submit applications to the Office of Undergraduate Admission and University Registrar early in their senior year. While the deadline for application is February 15, early application can have a positive impact on housing, financial aid, institutionally administered merit-based scholarships, privately funded scholarships and other ancillary areas. All freshman applicants should submit the following:

1. the application form for undergraduate admission;
2. a non-refundable application processing fee;
3. official high school transcript; and
4. official test scores from either the American College Test (ACT) or the SAT I: Reasoning Test. "Official" scores are reported **directly** from the testing agency to the Office of Undergraduate Admission and University Registrar. Test scores appearing on the high school transcript are not considered "official" reports.

High school students are strongly encouraged to take the ACT or SAT I late in their junior year and again early in their senior year. When registering for the test, please request scores to be sent to UK. It is a mistake to withhold test scores as this can cause added expense and possible delay in the processing of the application. Please request scores from all test administrations so that the Office of Undergraduate Admission and University Registrar can work with the complete test history. High school guidance counselors can provide students with registration forms, information about registration deadlines, test dates and locations.

High School Students with Exceptional Ability

Through UK's Exceptional Ability program, highly motivated students can enroll in classes at UK before they graduate from high school. Exceptional high school students may be offered admission to UK after a thorough evaluation of their academic record. Students seeking such consideration must submit an application form, official scores from the ACT Assessment or SAT I: Reasoning Test, an official high school transcript and a letter from their high school principal or guidance counselor stating the benefit to the student of entering college prior to high school completion.

High School Equivalency Certificates

The University considers admission from freshman applicants who are not high school graduates but who present a valid High School Equivalency Certificate and General Education Development test scores. Applicants must also take the ACT Assessment (or SAT I: Reasoning Test) and have the results sent **directly** to the Office of Undergraduate Admission and University Registrar from the testing agency.

TRANSFER ADMISSION TO THE UNIVERSITY

Students at other colleges or universities, including community colleges, are eligible to transfer to UK if they:

1. would have been selectively admitted to UK when they entered the first institution attended provided they have a cumulative grade-point average of 2.0 or better for all college-level work attempted. Applicants must **also** have a cumulative grade-point average of 2.0 or better for all college-level work attempted at the last institution attended, provided at least 12 credit hours (or the equivalent thereof) was attempted there.
- or**
2. would not have been selectively admitted to UK but have completed 24 semester hours or more and achieved a cumulative grade-point average of 2.0 or better for all college and university work attempted. Applicants must **also** have a cumulative grade-point average of 2.0 or better for all work attempted at the last institution attended.

Please note that grade-point averages are computed by the Office of Undergraduate Admission and University Registrar and reflect the grade and credit for each course attempted, regardless of the practice of the offering institution of waiving the low grade for a repeated course.

Refer to the University Calendar on page 4 for general University admission deadlines.

Special Admission Colleges and Programs

Some colleges and programs within colleges at UK have additional admission standards and criteria beyond those for general admission to the University. Also, some programs have deadlines and application procedures that differ from those for general University admission. Refer to *Special Application Dates and Procedures* on page 19 for information on procedures and deadlines for special admission programs. Detailed information on admission criteria is provided in the college sections of this Bulletin.

APPLICATION PROCEDURES FOR TRANSFER STUDENTS

Transfer applicants from other colleges and universities should request an application packet from the Office of Undergraduate Admission and University Registrar. Applicants must submit the following to the Office of Undergraduate Admission and University Registrar:

1. an application for admission;
2. an official transcript from **each** college or university attended, containing a complete record of all courses completed at the time of application;
3. a roster of the courses in which the student is currently enrolled;
4. a final official transcript of any additional work completed before entering the University; and
5. a non-refundable application processing fee.

Refer to *Special Application Dates and Procedures* on page 19 for admissions process information. **Candidates tentatively admitted at the time of application should be aware that the University will cancel the admission and/or the early registration of an applicant whose final official record, after completion of a current semester, shows ineligibility because of suspension, dismissal, or a drop in grade-point average below the required 2.0.**

TRANSFER OF CREDIT

Kentucky Postsecondary Education Transfer Policy

The General Education Transfer Policy facilitates the transfer of credits earned in general education and twelve hours of course work in a major for students moving from one Kentucky public college or university to another Kentucky public college or university. The general education core transfer component reflects the distribution of discipline areas universally included in university-wide lower division general education requirements for the baccalaureate degree. Under this agreement, a student may satisfy the general education discipline requirements at their current college and have that requirement completion accepted at the university or college to which they may transfer. In addition, the Baccalaureate Program Transfer Frameworks identify 12 hours of course work in a major which may be successfully transferred. Each framework represents a specific guide to the exact courses a student needs; therefore, students who plan to transfer from one public institution to another to complete their Baccalaureate degree should work closely with their advisor to take full advantage of the Policy. For more specific information about the Policy, contact the Registrar's Office, 12 Funkhouser Building, (859) 257-9532.

Credit Earned at Kentucky Community and Technical Colleges and Other Institutions

The University accepts collegiate-level degree credits earned at a fully accredited college or university. "Fully accredited" means that the institution is a member in good standing of one of the six regional academic accrediting associations. Transfer work from institutions outside the United States is evaluated on an individual basis from the official transcripts.

The Office of Undergraduate Admission and University Registrar generally determines the transferability of completed course work. Then, the dean of the college in which the student enrolls will determine *how* the transferred course work applies toward degree requirements. When the student attends the Advising Conference, an advisor will explain how the transfer work has been applied. However, students may want to consult individual departments in advance, so they may become familiar with degree requirements in their prospective program.

The transferability of course credit earned at two-year institutions is limited to a total of 67 semester hours.

Transfer applicants should note that regardless of the number of transfer hours the University may accept, all candidates for a bachelor's degree must complete 30 of the last 36 hours of their program at UK.

OTHER CATEGORIES OF ADMISSION

Readmission

Former University students who have not been enrolled for one semester or more, and who are in good standing are required to apply for readmission.

Applications for readmission should be submitted to the Office of Undergraduate Admission and University Registrar, along with:

1. official transcripts from all colleges and universities attended since leaving UK; and
2. a non-refundable application processing fee.

In order to be eligible for readmission, former UK students must have been in good standing at the time they left the University. Those who have been enrolled elsewhere must be eligible as transfer students on the basis of grade-point average and be in good standing at the institution most recently attended. Students under suspension from UK are not eligible for readmission, regardless of their status at another institution, until they have been reinstated to the University. If the suspension is for academic reasons, reinstatement should be requested from the dean of the college in which they intend to enroll by the stated deadline; if the suspension is nonacademic, reinstatement should be requested from the appropriate University official. **Reinstated students also must file an application for readmission in**

the Office of Undergraduate Admission and University Registrar by the stated deadline.

Readmission candidates should submit an application as early as possible. This allows the Office of Undergraduate Admission and University Registrar adequate time to prepare the necessary forms for registration. Refer to the University Calendar on page 4 for general admission deadlines. Information on selective college and program deadlines and procedures appears at the end of this section.

Nondegree Students

The goal of the University of Kentucky policy for nondegree students is to provide appropriate access to academic courses for students desiring to continue their education without seeking a degree. Although degree-seeking students should have top priority with respect to University resources, the University does wish to provide access to these resources on a space-available basis to nondegree seeking students. This policy will provide reasonable access to a broader range of students without unnecessarily limiting University resources for degree-seeking students.

Nondegree status affords an opportunity for individuals to pursue lifelong learning without the structure of degree-seeking status and is consistent with the educational mission of the University.

Most nondegree students are considered “Lifelong Learners” and include the following groups: Donovan Scholars, students who have already earned degrees and non-traditional students who wish to begin their studies as nondegree students in order to be considered for degree-seeking status later. Other students eligible to enter the University in a nondegree status include visiting students from other colleges and universities, high school students of exceptional ability, and other students in special circumstances as determined by the Director of Admission. (See information about visiting students and high school students with exceptional ability earlier in this section.)

Rules Governing Admission of Nondegree Seeking Students

To be admitted as a nondegree student, an applicant must meet the following criteria:

1. The high school class of a nondegree applicant must have graduated at least two years prior to the applicant’s anticipated semester of enrollment, unless the applicant will be on active military duty during his/her tenure as a nondegree student.
2. Applicants who have been denied admission as degree-seeking students may **not** in turn be enrolled as nondegree seeking students.
3. Former University degree-seeking students generally will not be enrolled as nondegree students without having earned an undergraduate degree.
4. University students under academic or disciplinary suspension may not be enrolled as nondegree students.
5. Students currently under suspension at other institutions may not be enrolled as nondegree students at UK. Failure to disclose a current suspension may result in forfeiture of eligibility for future enrollment.
6. Students are strongly encouraged to submit transcripts of high school or prior colleges at the time of admission in order to facilitate advising about appropriate course work.

Rules Governing Enrollment of Nondegree Seeking Students

1. Nondegree students must meet course prerequisites or obtain the consent of the instructor to enroll in a course.
2. No student may continue to enroll as a nondegree student after earning 24 semester hours in this status without the special permission of the dean of the college in which the student is registered. Students who wish to continue course work are encouraged to apply for admission as a degree-seeking student.
3. Credit earned as a nondegree student will be evaluated for applicability toward a degree by the dean of the college in which the student will be enrolled. Most colleges provide administrative oversight of their nondegree students. Nondegree students whose registration status does not reflect affiliation with a particular college will come under the purview of the Dean of Undergraduate Studies. Successful completion of course work as a nondegree student does not ensure admission as a degree-seeking student. No graduate or professional credit is awarded for courses taken while a student is enrolled as an undergraduate nondegree student.

Procedures

1. Nondegree students who wish to take day classes must meet regular admission deadlines for each term. They are encouraged to participate in academic advising each semester. Advisors will be assigned to these students.
2. All nondegree students who wish to continue after their first semester are expected to participate in priority registration for the following semester.

Nondegree students may apply for degree-seeking status after meeting regular University and program admission criteria. Applicants who earned fewer than 24 semester credit hours at UK must meet the University’s standards for selective admission as first-time freshmen. Applicants who have earned 24 or more semester hours will be considered transfer students for admission purposes and transfer of credit policies will apply.

The dean of the college the degree-seeking student enrolls in determines how credit earned as a nondegree student is applied toward a degree.

Nondegree students applying for degree-seeking status must submit to the Office of Undergraduate Admission and University Registrar:

1. an application for admission;
2. a non-refundable application processing fee;
3. official scores from the ACT or SAT (if fewer than 24 semester hours earned); and
4. official transcripts from all previously attended institutions.

Refer to the University Calendar on page 4 for general admission deadlines.

Auditors

An **auditor** is a student who enrolls in a course but receives no grade or credit. Students in this category should indicate auditing status on their application for admission.

Auditors are charged the same tuition as students receiving credit. Auditors cannot change to credit status after the beginning of class work, and cannot be considered for admission to earn credit unless they are admitted to a degree program in the University as a regular student. To do this, the auditor must file the required documents by the deadline for a subsequent semester. A student under academic or disciplinary suspension may not enroll as an auditor.

Undergraduate Admission

Students who wish to apply as auditors must submit to the Office of Undergraduate Admission and University Registrar:

1. an application for admission; and
2. a non-refundable application processing fee.

Refer to the University Calendar on page 4 for general admission deadlines.

Transient Students

A **transient student** is a visiting nondegree student from another institution who intends to earn credit at UK that will be applied to degree requirements at his or her sponsoring institution. Transient students must meet the same admissions requirements as transfer students.

Transient applicants must submit to the Office of Undergraduate Admission and University Registrar:

1. an application for admission;
2. an official transcript or letter of good standing certifying grade-point average from the applicant's sponsoring institution; and
3. a non-refundable application processing fee.

Refer to the University Calendar on page 4 for general admission deadlines.

UK Students As Transients at Other Schools

UK students may earn a limited amount of credit toward a baccalaureate degree at another college or university, provided they have **prior** approval from their dean and advisor, and provided the other school is fully accredited and the course work meets the University specifications for credit acceptance. The student should consult with an advisor or dean before enrolling at another institution. Students enrolled at other institutions at the same time they are enrolled at UK must have the specific approval of the appropriate dean. Students are responsible for determining whether transfer course work is acceptable and how it applies to the degree program. The University Senate has established certain conditions for accepting credit earned at other schools; therefore, improper enrollment at other institutions will result in the loss of the credit earned there.

A University student who enrolls elsewhere for only a summer session between a spring enrollment at UK and the following fall semester does not need to reapply for admission for the fall semester. The student must arrange for transcripts of transfer work to be sent to the Office of Undergraduate Admission and University Registrar immediately following the summer session.

International Applicants

UK is authorized under federal law to enroll qualified nonimmigrant international applicants.

International applicants should apply and submit all required documents by May 15 for fall semester admission, October 15 for spring semester admission, and March 1 for summer session admission. International applicants must submit to the Office of Undergraduate Admission and University Registrar:

1. an international application for admission;
2. a non-refundable application processing fee.
3. a sponsor guarantee form;
4. *bank statement;
5. **official academic transcripts and English-translated course descriptions of all college-level work completed;
6. ***TOEFL/English Proficiency;
7. ACT or SAT results for freshmen applicants wishing to apply for academic scholarships; and,
8. additional information may be requested by admission officer.

Admission is competitive and preference is given to applicants who are best qualified academically. All documents relating to academic records, financial ability, and competency in the English language must be received before permission to enroll and the proper immigration form can be issued. All documents must be official or certified as such.

*All international applicants must show proof of at least \$27,800 for the first academic year. This amount covers present tuition, fees, health insurance, books and living expenses from the fall semester through the spring semester. This amount also includes room and board expenses for summer. Evidence of financial support may include bank letters verifying personal and family assets, government or private scholarships. An authorized bank official must sign the guarantee. All documents must be originals (faxes and photocopies are not accepted), dated and have appropriate seals and/or be notarized as official. **Fees are subject to change at any time.**

All international applicants are required to have university-approved health insurance.

**Official transcript from each institution attended (high school, college or university). Applicants from non-English speaking countries must provide an official literal English translation of their official school records. Students who wish to transfer credit to UK should submit course descriptions, course syllabi, old tests, papers, and any other materials that can help determine course equivalencies. It is recommended that applicants additionally have their transcripts evaluated by a professional evaluation agency, such as World Education Services.

***Students whose native language is other than English must score at least 527 (paper and pen), 197 (computer-based), or 71 (iBT) on the Test of English as a Foreign Language (TOEFL) to be eligible for general admission to UK. "Native language" is defined as an individual's first acquired language and the language of educational instruction. The TOEFL requirement may be waived for students who present an official transcript of satisfactory English work taken at an accredited American college, or a college in another country where English is the native language.

The Test of English as a Foreign Language (TOEFL) is offered by the Educational Testing Service and may be taken at various test centers throughout the world. Applicants must take the test early enough to ensure that the results are reported to the University by the required deadlines.

For students with marginal scores on the Test of English as a Foreign Language (TOEFL), the English Department at UK offers an intensive program in English as a Second Language, designed to improve both oral and written skills. **Completion of this program does not guarantee undergraduate admission.** For complete details about the program, write to: Center for English as a Second Language, English Department, 1235 Patterson Office Tower, University of Kentucky, Lexington, KY 40506-0027, (859) 257-7003.

The Office of Undergraduate Admission and University Registrar may require additional documents in order to process an application.

QUESTIONS CONCERNING ADMISSION DECISIONS

All applicants to the University of Kentucky have the right to question or appeal admission decisions. Applicants desiring to appeal a decision should contact the Office of Undergraduate Admission and University Registrar to obtain information on the appeal process as well as deadlines.

ADVISING CONFERENCES

New freshmen and transfer students are oriented to the University in two steps. The first step is the Advising Conference, part of orientation at UK for more than three decades. The informative conferences offer students and parents the opportunity to learn more about the University, student life and residence hall living. Participants attend sessions on academic expectations, University Health Service, student activities and organizations, student computing services, and many other student services. Students also meet with an academic advisor, plan their schedules, and register for classes.

First-year students admitted for fall attend a two-day conference. These popular conferences allow students more time to meet UK faculty, staff, and students. Participants get the chance to meet with their academic advisors, take placement exams, and register for classes.

Students receive complete information about the Advising Conference after they are admitted. Freshmen must confirm an Advising Conference date by May 1 to hold a space in the class.

Merit Weekends

The University invites academically talented students and their parents to attend special two-day advising conferences called Merit Weekends. Admitted students who have met various academic standards are invited to attend this event. The Merit Weekend program replaces the Summer Advising Conference and assures participants a higher priority in class selection. Merit Weekends are usually held in early spring. Freshmen must confirm an Advising Conference date by May 1 to hold a space in the class.

K WEEK

New students ease their transition to campus life through participation in K Week. This welcome week program begins the weekend before classes start during the fall semester and offers a variety of social activities, academic programs, and information sessions. Some activities, such as Big Blue U, We Are UK, off-campus student meetings, library tours, and college meetings, familiarize students with community expectations and opportunities. Other activities such as Campus Ruckus and other parties challenge students to expand their circle of friends and get involved on campus. UK FUSION, a city-wide day of community service, encourages students to form important connections with other new students, student leaders, faculty, and staff.

Students receive detailed information about K Week during the summer. All new students are expected to attend. K Week includes special programs for transfer students.

K Week is coordinated through the Office of New Student and Parent Programs. For more information, visit: www.uky.edu/KWeek.

UK 101, ACADEMIC ORIENTATION COURSE

UK 101 is a one-credit-hour, ten-week orientation course offered to first-year students. Former students overwhelmingly recommend this class to first-year students.

This course is designed to introduce first-year students to the intellectual life of the University and to help them:

1. Articulate the purpose and nature of a college education at a research university.
2. Articulate UK's expectations of its students.
3. Gain an appreciation of the University's mission, history, and traditions.
4. Develop skills for achieving academic success such as study strategies and library research skills.
5. Increase awareness and use of campus resources.
6. Reflect on personal and social issues (e.g., alcohol, diversity) that first-year students often face in a college environment.
7. Become involved in the total life of the University of Kentucky.
8. Form beneficial relationships with students, faculty, and staff.

Some UK 101 sections are targeted to specific student populations, such as students who have not declared a major. Students will learn more about the UK 101 course during their Advising Conference. For additional information, visit: www.uky.edu/UK101.

SPECIAL APPLICATION DATES AND PROCEDURES

For Admission To	Submit	By Deadlines For		
		Fall	Spring	Summer
COLLEGE OF AGRICULTURE				
Coordinated Program in Dietetics Upper Division Program Applicants (Students who have 71 semester hours of lower division courses)	Application, Transcript(s), Recommendations	February 1		
COLLEGE OF DESIGN				
School of Architecture Freshmen	ACT scores, Application Test	March 1 March 5		
Transfer Students	Application, Transcript(s), Test/Portfolio	April 1		
School of Interior Design Upper Division Program Applicants	Application, Transcript(s), Portfolio	February 1		
COLLEGE OF HEALTH SCIENCES				
<p>Students must request applications from the Office of Student Affairs in the College of Health Sciences. Applications for fall admission are available from September 1 to December 15; applications for spring admission are available from February 1 to April 30.</p> <p>Professional Program Applicants (Students who have completed 60 hours or more at UK or other accredited colleges or universities)</p>				
Clinical Laboratory Sciences	UK and Professional Program Applications, All supporting credentials			April 1
Clinical Leadership and Management	UK and Professional Program Applications, All supporting credentials	August 1	December 1	
Communication Disorders	UK, Professional Program Applications, All supporting credentials	February 1		
COLLEGE OF LAW[†]				
First-year Students	Law Application LSDAS Report	March 1 March 31		
Transfer Students	Law Application, Transcript(s), Credentials	June 1	December 1	May 15
COLLEGE OF NURSING				
Pre-Nursing	ACT scores, Application	May 1	May 1	May 1
RN-B.S.N.	Application Credentials	February 15 March 1	December 1 December 15	
Second Degree B.S.N.	Application, Transcript(s) Credentials	March 1 March 15	March 1 March 15	March 1 March 15
Professional Level B.S.N.	Application, Transcript(s)	March 1	March 1	March 1
COLLEGE OF PHARMACY				
Professional Program Applicants (Students who have completed 64 hours or more at UK or other accredited colleges or universities)	Application, Transcript(s), Other required credentials	January 1		

[†] Law school applications are processed in the College of Law. Send applications to College of Law, 209 Law Building, University of Kentucky, Lexington, KY 40506-0048.

FEES ARE SUBJECT TO CHANGE WITHOUT NOTICE AND INCREASES MAY BE NECESSARY IN SUBSEQUENT YEARS.

FEE PAYMENT POLICY

You become financially obligated to the University of Kentucky when you register for classes. This financial obligation can only be adjusted if you add/drop hours or officially withdraw from the University. It is your responsibility to comply with the policy and schedule for paying registration fees.

A student with unpaid tuition/fees who subsequently leaves or officially withdraws from school will be held liable for a percentage of those fees and will be declared delinquent subject to the penalties imposed by the institution for financial delinquency.

Students who late register will be assessed a \$40 late registration fee.

Monthly Account Statements

Account statements will be created at the end of each month itemizing that month's new charges and credits. The University must receive the **total** amount due (less estimated aid) on or before the **due date** indicated on the account statement. If full payment is not received by the due date, a late payment fee of 1.25 percent of the amount due will be assessed.

Late Registration Fee

All continuing students are expected to priority register each semester for the next semester. New students are assigned a specific date for registration. Any student who registers after the regular registration period will be charged a late registration fee of \$40.

Auditors

All auditors are charged the same fees they would pay for credit.

Internship Courses

Students taking internship courses (e.g., courses numbered 399) **must** register for the course during the term the internship is taken and pay all required semester fees. In no case shall students be allowed to defer registration and payment for summer internships to the following fall semester.

Zero-Credit Courses

Some University courses are offered for 0 credit hours. The fees for these courses are based on the number of hours per week the course meets, so that the cost of a 0-credit course which meets one hour per week is the same as the cost of a 1-credit course for a student in a particular classification (i.e., resident, nonresident, graduate, undergraduate). Zero-credit courses are counted as part of the student load for fee payment purposes and for purposes of issuing ID cards.

There is no fee for a course numbered 749, or 769, if the student is approved to take the 769 course for 0 credit hours. In a few departments zero-credit courses are actually laboratories which are a required part of another course. They are numbered separately for scheduling purposes, but no additional fee is charged.

Financial Delinquency

The University of Kentucky expects students to be responsible in their financial obligations to the University or any department or division thereof. The University assesses student fees for various services, fines, and materials. Students are to be properly notified of amounts to be paid and designated payment due dates. After unsuccessful collection efforts by the department or division, the student is classified delinquent and the following may occur: financial holds, class cancellations, late fees, collection agency efforts, and denial of access to student services.

FINANCIAL OMBUD SERVICES

The Financial Ombud provides a neutral and confidential setting for current and prospective students and their parents to discuss difficult or unusual financial problems affecting tuition and fee payment. The Financial Ombud resolves problems, counsels, and makes recommendations and referrals as needed.

The Office of the Financial Ombud Services is open from 8 A.M. to 4:30 P.M. and is located in 18 Funkhouser Building. For information, questions, or appointments, call (859) 257-3406.

HEALTHCARE

For the regular fall and spring semesters, payment of the mandatory registration fee by full-time students entitles them to medical and behavioral health care at University Health Service. Part-time students may pay the health fee or use the Health Service on a fee-for-service basis. The health fee is voluntary for all students for the summer sessions. Students are strongly advised to purchase health insurance to cover medical expenses incurred beyond those provided by the health fee. For more information on the health fee or the services provided, call (859) 323-5823; or visit us on the Web at: www.ukhealthcare.uky.edu/uhs.

WILDCARD STUDENT ID

All students admitted to the University (both full-time and part-time) are expected to obtain a WildCard student ID. This is a permanent card, which becomes valid each semester when fees are paid. The cost of the first WildCard is \$15.00. Payment may be made with cash, check, Plus Account, Visa or MasterCard. The following information will help you understand your responsibility and how to fully utilize your WildCard ID. After **August 24, 2007**, the WildCard v2.0 is the only valid student ID. For additional information, visit our Web site at: www.uky.edu/UKID.

- Your WildCard ID is the official identification for class attendance and tests, Student Employment Services, and student elections.
- The bar code on the front of your WildCard is your library account number.
- By opening a Plus Account you may make purchases from UK Dining Services, campus vending machines, campus laundry systems, the UK Bookstore, Kennedy Book Store, Wildcat Textbooks and ecampus.com Lexington retail stores. You may also use the Plus Account at other participating on-campus and off-campus businesses. You may buy tapes at the language lab, pay breakage fees in the chemistry labs, and print and make copies in campus computer labs.
- When you live in a residence hall, the WildCard ID will access your Meal and Flex Accounts. Off-campus students may also purchase a Dining Plan.
- It is your KEY in residence hall front doors.
- Present your WildCard ID at Health Services if you are a full-time student or a part-time student who has paid the health fee.
- Use your WildCard ID at the Student Center Ticket Office, Singletary Center for the Arts and the Cat's Den in the Student Center.
- Pick up football and basketball tickets and use your WildCard ID for entry to other UK campus events.
- Use the Johnson Center and campus swimming pools/recreational facilities.
- Use your WildCard ID for printing in the computer labs.

If you lose your WildCard ID, report the loss immediately to the WildCard U.K.I.D. Center at (859) 257-1378, The Dining & Plus Account Office at (859) 257-6159, or any UK Dining Services location. You can also cancel your card online at: www.uky.edu/PlusAccount. Any financial charges/transactions made with this card are the responsibility of the student. A replacement ID may be obtained for \$20.00 in 107 Student Center. Payment may be made with cash, check, Plus Account, Visa or MasterCard. The WildCard ID is the property of the University of Kentucky and must be surrendered upon request of authorized officials of the University.

PERSONAL EXPENSES (not payable to the University)

Books and Supplies. Range from \$350 up, depending on the student's major field of study and schedule of classes for the semester. Students may use

their Plus Account for purchases at the University of Kentucky Bookstore, Kennedy Book Store, WildCat Textbooks, and ecampus.com Lexington retail stores. Plus Account deposits may be made in any whole dollar amount at the following locations: online at www.uky.edu/PlusAccount; the Dining & Plus Account Office; Student Billing Services; or DART machines in campus computing labs. For more information about Plus Accounts, call (859) 257-6159.

Laundry. For students living in the residence halls and Greg Page apartments, laundry facilities for personal items are provided. Local cost for this laundry service is comparable to that in any city. Students activate the laundry machines using the Plus Account card access system. Plus Account deposits may be made in any whole dollar amount at the following locations: online at www.uky.edu/PlusAccount; the Dining & Plus Account Office; Student Billing Services; or DART machines in campus computing labs. For more information about Plus Accounts, call (859) 257-6159.

WITHDRAWAL FROM THE UNIVERSITY

You may cancel your registration before the first day of class by using myUK. See below for dropping a class with a **W** grade.

All students, including degree seeking, non-degree seeking, and visiting students, who wish to leave the university during a term (fall, spring or summer) must formally withdraw.

There are **four methods** of withdrawing from the University of Kentucky:

1. withdrawing in person at the Registrar's Office in 10 Funkhouser Building;
2. requesting withdrawal from course work via fax;
3. mailing your withdrawal request to the Registrar's Office; and
4. drop or withdraw from all courses using myUK.

In person: A student is required to come to 10 Funkhouser Building between 8 A.M. and 4:30 P.M., Monday through Friday and complete an *Authorization to Withdraw* card. Additional signatures may be required depending upon the student's enrollment status. The date noted on the *Authorization to Withdraw* card will serve as the student's official withdrawal date.

Fax request: There are circumstances in which a student cannot physically appear to withdraw. For these cases, the Registrar's Office will accept a faxed request for withdrawal. The date of the fax will serve as the official date of the withdrawal. The fax number is (859) 257-7160.

The information needed for the fax request is:

- **full name**
- **student number**
- **list of courses**
- **term**
- **date**
- **signature**
- **phone number**

Mail request: The student may mail a written request for withdrawal to the Registrar's Office. The address is:

**Student Records
10 Funkhouser Building
University of Kentucky
Lexington, KY 40506-0054**

The postmark will serve as the official date of the withdrawal. Information for withdrawal via mail is identical to that of the fax request.

NOTE: After the last official day to withdraw from a term, the student must start the withdrawal process beginning with the dean of the student's college. (Senate Rule, V.1.8.3). A student should contact his/her college's student services office for more details concerning this process.

REFUND and FEE LIABILITY POLICY

Tuition refunds or outstanding fee liabilities for students who officially withdraw through the Registrar's Office, or who change their status from full-time to part-time or further reduce their part-time status through Add/Drop, will be made according to the following schedule. All dates are those designated in the official University Calendar.

SEMESTER	STUDENTS WHO WITHDRAW BY:	WILL RECEIVE REFUND/REDUCTION	WILL CONTINUE TO OWE
Fall 2009	August 25, 2009	100%	0%
	September 1, 2009	80%	20%
	September 23, 2009	50%	50%
Fall 2009 Annualized Programs	July 6, 2009	100%	0%
	July 16, 2009	80%	20%
	August 20, 2009	50%	50%
Winter Intersession 2009-2010	December 18, 2009	100%	0%
	December 21, 2009	80%	20%
	December 24, 2009	50%	50%
Spring 2010	January 12, 2010	100%	0%
	January 20, 2010	80%	20%
	February 10, 2010	50%	50%
Spring 2010 Annualized Programs	January 4, 2010	100%	0%
	January 14, 2010	80%	20%
	February 19, 2010	50%	50%
First Summer Session 2010	May 11, 2010	100%	0%
	May 12, 2010	80%	20%
	May 18, 2010	50%	50%
Second Summer Session 2010	June 10, 2010	100%	0%
	June 11, 2010	80%	20%
	June 24, 2010	50%	50%

After last day to officially withdraw per University Calendar – No Refund

Refunds are based solely on the date of withdrawal, regardless of whether students attend any class(es). As required under section 484B of the Higher Education Act (HEA), to assure recovery of federal financial aid funds, a special refund schedule applies to those students receiving Title IV financial assistance who withdraw (officially or unofficially) during the academic term.

A student not paying tuition fees and subsequently leaving or officially withdrawing from school will be held liable for one-half of those fees. In the case of nonpayment, he or she will be declared delinquent subject to the penalties imposed by the institution for financial delinquency.

Questions concerning fee payment procedures may be directed to the Financial Ombud, 18 Funkhouser Building, (859) 257-3406. Questions concerning tuition refunds may be directed to the Registrar's Office, Funkhouser Building, (859) 257-8729.

TUITION AND FEES 2009-2010

Tuition Schedule		Semester Full-Time Fee ¹	Part-Time, Four-Week and Eight-Week Intersession Fee Per Credit Hour ²
UNDERGRADUATE STUDENTS			
<u>Students with 59 hours or less –</u>	Resident	\$4,061.50	\$322.50
	Nonresident	\$8,339.00	\$679.50
<u>Students with 60 hours or more –</u>	Resident	\$4,179.00	\$332.00
	Nonresident	\$8,450.50	\$689.00

Undergraduate students will be charged an additional **\$15** per credit hour for each **engineering course**.

Undergraduate **Physical Therapy** and **Communications Disorders majors** will be charged a program fee of **\$75** per semester (fall and spring) and **\$35** per summer term.

Undergraduate students who have declared a major in **Interior Design** or **Architecture** will be charged a program fee of **\$145** per semester (fall and spring).

Students will be charged an additional **\$15** per credit hour for all undergraduate **Business and Economics** courses, with the exception of ECO 101 and ECO 201.

Undergraduate Engineering students enrolled in the collaborative Chemical Engineering or Mechanical Engineering programs between Murray State, West Kentucky Community and Technical College (WKCTC), and the University of Kentucky will be charged tuition at the WKCTC tuition rate for all Paducah-based courses until such time Engineering status is attained. At such time students in this program reach Engineering status, tuition for Paducah-based courses will be billed at the University of Kentucky rate.

GRADUATE STUDENTS	Resident	\$4,389.00	\$459.00
	Nonresident	\$9,044.50	\$977.50

Communications Disorders and **Physical Therapy** graduate students will be charged a program fee of **\$75** per semester (fall and spring) and **\$35** per summer term.

Engineering graduate students will be charged a program fee of **\$400** per semester for full-time students and **\$45** per credit hour for part-time students.

Interior Design, Architecture, and Historic Preservation graduate majors will be charged a program fee of **\$145** per semester.

Master in Accounting students will be charged a **\$300** program fee per semester.

Master in Business Administration (MBA) Evening and part-time students	Resident	\$5,074.50	\$535.50
	Nonresident	\$10,794.00	\$1,171.00

Returning full-time **Master in Business Administration** students who were full-time in fall 2004 will be charged a program fee of **\$300** per semester.

All part-time and evening resident **MBA** students will be charged a program fee of **\$750** per semester.

All part-time and evening nonresident **MBA** students will be charged a program fee of **\$1,100** per semester.

Master of Arts in Diplomacy and International Commerce	Resident	\$4,603.00	\$483.00
	Nonresident	\$9,253.50	\$1,000.00
Master of Science in Physician Assistant Studies	Resident	\$4,729.00	\$497.00
	Nonresident	\$9,379.50	\$1,014.00
Master of Science in Radiological Medical Physics/ Master of Science in Health Physics	Resident	\$5,109.50	\$539.50
	Nonresident	\$9,733.50	\$1,053.00

Fees are subject to change without notice.

TUITION AND FEES – continued 2009-2010

Tuition Schedule		Semester Full-Time Fee ¹	Part-Time, Four-Week and Eight-Week Intersession Fee Per Credit Hour ²
COLLEGE OF LAW	Resident	\$8,010.50	\$777.00
	Nonresident	\$13,879.00	\$1,364.50
PHARM.D	Resident	\$10,172.50	\$831.50
	Nonresident	\$18,517.00	\$1,527.50
PROFESSIONAL DOCTORAL (includes clinical doctorates in Nursing and Public Health)	Resident	\$5,722.50	\$607.00
	Nonresident	\$12,491.00	\$1,359.50
COLLEGE OF MEDICINE ³ Students – entering class of fall 2004 and earlier	Resident	\$21,973.00	
	Nonresident	\$42,742.00	
Students – entering class of fall 2005	Resident	\$23,457.00	
	Nonresident	\$44,660.00	
Students – entering class of fall 2006	Resident	\$23,604.00	
	Nonresident	\$44,907.00	
Students – entering class of fall 2007	Resident	\$23,752.00	
	Nonresident	\$45,155.00	
Students – entering class of fall 2008	Resident	\$26,344.00	
	Nonresident	\$49,219.00	
Students – entering class of fall 2009	Resident	\$29,233.00	
	Nonresident	\$53,639.00	
COLLEGE OF DENTISTRY ⁴	Resident	\$23,910.00	
	Nonresident	\$48,789.00	
Master in Business Administration (MBA) Full-Time Students in the “Day” Program (Annual Charges)	Resident	\$9,386.50	
	Nonresident	\$18,688.50	

Students enrolled in the **collaborative MBA program** between the University of Kentucky and the Technological Education Institute of Piraeus of Greece will be charged tuition of \$9,000 to complete the required course work in 18 months.

Full-time, resident **MBA** students will be charged a program fee of **\$3,000** per semester.

Full-time, nonresident **MBA** students will be charged a program fee of **\$3,500** per semester.

**Doctorate of Physical Therapy
(Annual Charges)**

Resident	\$14,260.00
Nonresident	\$31,179.00

¹ The full-time rate is charged to undergraduate and pharmacy students enrolled for 12 credit hours or more, graduate and professional doctoral students enrolled for 9 hours or more, and law students enrolled for 10 hours or more.

² Part-time students and four-week and eight-week intersession students are charged on a per-credit hour basis.

³ **ANNUAL TUITION.** As a pilot program, beginning with Fall 2007, the College of Medicine tuition and mandatory fee rates are ‘locked in’ for each entering class cohort. The rates will not change while students are enrolled in the program. A half-time tuition and fee rate of \$15,161 for resident students and \$27,364 for non-residents is established for those medical students who have been approved by the College of Medicine Student Progress and Promotion Committee to take a reduced curriculum load.

⁴ **ANNUAL TUITION.** A half-time tuition and fee rate of \$12,500 for resident students and \$24,939 for non-resident students is established for those dental students who have been approved by the Dean of the College of Dentistry to take a reduced curriculum load.

Fees are subject to change without notice.

Applicants for University financial aid are given equal consideration, regardless of race, color, religion, sex, marital status, beliefs, age, national origin, sexual orientation, or disability.

The University of Kentucky offers three types of financial aid to students:

1. Financial aid **based on financial need** is awarded to undergraduate and graduate students by the Office of Student Financial Aid.
2. Direct unsubsidized loans not based on financial need are available to students through the Office of Student Financial Aid.
3. Financial aid **based on academic merit** is awarded by the Academic Scholarship Office, as well as by certain academic departments and colleges.

Graduate students should consult *The Graduate School Bulletin* for information about assistantships and fellowships.

Each year the amount of funds requested by eligible applicants falls short of the resources available. The Office of Student Financial Aid bases its

decisions on a) financial need, and b) the date of application. **Students should apply as early as possible. Entering freshmen should apply by February 15. Transfer and continuing students should apply by April 1.** Eligible students who apply after these dates will receive assistance, but will receive less because some funds will already be exhausted. **Students should not enroll in classes with the intent of obtaining financial aid after the semester is underway.**

For more information on financial aid, contact:

Office of Student Financial Aid
127 Funkhouser Building
University of Kentucky
Lexington, KY 40506-0054
(859) 257-3172

APPLYING FOR FINANCIAL ASSISTANCE

Entering Freshmen

Applicants should request financial aid forms from their high school or apply online at: www.fafsa.ed.gov. Online application is recommended.

Apply early. Application material for the fall semester is available in January.

Applicants will be considered for need-based scholarships awarded by the Office of Student Financial Aid, Pell Grants, CAP/Kentucky State Grants, Supplemental Education Opportunity Grants, Federal Academic Competitiveness Grants, Federal SMART Grants, Federal TEACH Grants, Federal Work-Study, Perkins Loans, Health Professions Loans, Federal Direct Stafford Loans, and Federal Direct PLUS Loans.

Follow the procedure listed below:

Submit the online or paper Free Application for Federal Student Aid (FAFSA) **no later than February 15**, designating UK to receive the analysis. UK's federal school code is **001989**.

A student must enroll in a degree program at UK in order to be awarded financial aid. The Office of Student Financial Aid informs students of financial aid decisions in April (or as soon thereafter as possible). Financial aid is credited directly to the student's University account at the beginning of each semester.

Aid recipients should plan to have enough money for initial expenses for books, meals, and incidentals for the first three weeks of the semester until their aid is processed. When the amount of financial aid credits exceed the student's billed charges, a residual (refund) check for the difference will be mailed to the student.

Federal regulations require a number of applicants to verify the information they report. Be as accurate as possible when filling out financial aid forms. Since some of the application deals with income, plan to prepare income tax returns early. (If you have not completed income tax returns, you may use estimated figures in order to meet the February 15 priority date.) Changes in federal regulations and methodology for determining financial need may produce results which differ from year to year.

Nondegree Students

Individuals admitted by the Office of Undergraduate Admission or by the Graduate School as nondegree students generally do not qualify for financial assistance. **Nondegree students must make an appointment to see a financial aid counselor to discuss their eligibility to apply for assis-**

tance. Nondegree students who receive and accept a financial aid award without **appropriate clearance** by their financial aid counselor will be required to repay any funds credited towards billed charges or released in a refund check. Students whose status changes to nondegree after the start of the term must notify their financial aid counselor and in most cases will be required to repay all funds disbursed during the term.

Continuing Students and Transfer Students

Continuing students and transfer students **must reapply** for financial aid (including scholarships) each year by submitting the Free Application for Federal Student Aid (FAFSA). This is required in order to track changes in student or family resources that could affect the amount of an award. Contact the Office of Student Financial Aid for application materials or apply online at: www.fafsa.ed.gov. The FAFSA must be completed and submitted to the federal processor as early as possible, preferably before April 1. Completing a FAFSA is also the first step in applying for a Federal Direct Stafford Loan.

The Office of Student Financial Aid informs students of financial aid decisions in June (or as soon thereafter as possible).

Medical and Dental Students

Medical students apply for financial aid through the Office of Education, College of Medicine, 138 Leader Avenue, (859) 257-1652. Dental students apply in the Office of Student Affairs, D-155 A. B. Chandler Medical Center, (859) 323-5280.

CONTINUED ELIGIBILITY FOR STUDENT FINANCIAL AID

Students must maintain satisfactory academic progress toward a degree to continue receiving financial aid. Students will be required to complete two-thirds (67 percent) of all cumulative credits attempted during their career at the University of Kentucky as expressed by the number of cumulative hours successfully completed divided by the number of cumulative hours attempted (with the result rounded up to the nearest whole percent). In addition to this credit-hour requirement, all financial aid students must maintain a cumulative grade-point average (GPA) that is consistent with the institution's requirements for graduation. Therefore, students with a "junior" standing or higher must have a cumulative "C" average or 2.0 GPA in order to remain eligible for financial aid. (**Note:** Students placed on academic probation by the Registrar's Office will automatically be placed on financial aid probation. Students in this category can continue to receive financial aid for up to one year. Students who have not been removed from academic probation at the end of one year will lose their eligibility for federal financial aid funding.) Satisfactory academic progress will be evaluated once each year at the end of the spring term. Students who fail to maintain satisfactory academic progress may reestablish their eligibility by enrolling at their own expense in a subsequent semester and meeting the standards according to the cumulative credit hours attempted/completed and cumulative grade-point averages stated above. Contact the Office of Student Financial Aid for details on maintaining and reestablishing satisfactory progress.

Audited classes, credits earned through CLEP testing, or non-credit courses are not considered in determining satisfactory academic progress. Hours for courses with grades of incomplete (I) will not be counted as hours earned until the credit is received, but will be counted as hours attempted. Hours earned on a pass-fail basis or paid through a consortium agreement, however, will be used in determining satisfactory academic progress. Credits assigned to developmental (remedial) courses will be counted in calculating hours attempted; however, these courses are not used in calculating the grade-point average. Repeat courses taken during the year will automatically be considered in the following spring review for progress.

Federal regulations limit the number of cumulative credit hours for which a student can receive federal financial aid funds. An undergraduate student enrolled at the University of Kentucky should be able to complete his or her program of study in no more than 120 credits of academic work, including

any transfer credits. Therefore, an undergraduate student typically may not receive federal financial aid after attempting 180 credit hours. The maximum time frame for students enrolled in programs of study requiring completion of more than 120 credits will be 150 percent of the credits required (e.g., programs requiring 130 credits will have a 195 credit maximum). A graduate student enrolled at the University of Kentucky should be able to complete his or her program of study in no more than 48 credits of academic work, including any transfer credits. Therefore, a graduate student typically may not receive federal financial aid after attempting 72 credit hours. The maximum time frame for graduate students enrolled in programs of study requiring completion of more or less than 48 credits will be 150 percent of the credits required (e.g., programs requiring 50 credits will have a 75 credit maximum).

GRANTS

A **grant** is a financial aid award that does not require repayment. Students can apply for all of the grant programs described below by completing a Free Application for Federal Student Aid (FAFSA).

Federal Pell Grants

The federally funded Federal Pell Grant Program provides grants to eligible undergraduate students working on their first baccalaureate degree. Federal Pell Grants currently range in value from \$609 to \$5,350 per school year and are based upon the student's enrollment status and the financial circumstances of the family and applicant.

The U.S. Department of Education determines eligibility according to financial need. Applicants will receive a Student Aid Report (SAR) four to six weeks after applying. Students who provide an e-mail address on the FAFSA will receive SAR information via e-mail.

Supplementary Educational Opportunity Grants (SEOG)

The Higher Education Act of 1980 provides Federal Supplementary Educational Opportunity Grants for undergraduate students who need financial aid to enter or remain in college. **The average SEOG award at the University is slightly more than \$1,000.** Larger awards are generally not possible, since there are more eligible applicants than available funds.

Academic Competitiveness Grant

An Academic Competitiveness Grant will provide up to \$750 for the first year of undergraduate study and up to \$1,300 for the second year of undergraduate study to students enrolled at least half-time who are eligible for a Federal Pell Grant and who had successfully completed a rigorous high school program, as determined by the state or local education agency and recognized by the Secretary of Education. Second-year students must maintain a cumulative grade-point average (GPA) of at least 3.0. To be eligible for each academic year, a student must be a U.S. citizen or eligible noncitizen; be a Federal Pell Grant recipient; be enrolled at least half-time in a degree program; be enrolled in the first or second academic year of his or her program of study at a two-year or four-year degree-granting institution; have completed a rigorous secondary school program of study (after January 1, 2006, if a first-year student, and after January 1, 2005, if a second-year student); if a first-year student, not have been previously enrolled in an undergraduate program; and if a second-year student, have at least a cumulative 3.0 grade-point average on a 4.0 scale for the first academic year.

The National Science and Mathematics Access to Retain Talent Grant (National SMART Grant)

The National Science and Mathematics Access to Retain Talent Grant, also known as the National SMART Grant, is available during the third and fourth years of undergraduate study to students enrolled at least half-time who are eligible for the Federal Pell Grant and who are majoring in physical, life, or computer sciences, mathematics, technology, or engineering or in a

foreign language determined critical to national security. The student must also be enrolled in the courses necessary to complete the degree program and to fulfill the requirements of the intended eligible major in addition to maintaining a cumulative grade-point average (GPA) of at least 3.0 in course work required for the major. The National SMART Grant award is in addition to the student's Pell Grant award. A National SMART Grant will provide up to \$4,000 for each of the third and fourth years of undergraduate study. The amount of the SMART Grant, when combined with a Pell Grant, may not exceed the student's cost of attendance. To be eligible for each academic year, a student must: be a U.S. citizen or eligible noncitizen; be a Federal Pell Grant recipient; be enrolled at least half-time in a degree program; be enrolled in a four-year degree-granting institution; major in physical, life or computer science, engineering, mathematics, technology, or a critical foreign language; and have at least a cumulative 3.0 grade-point average on a 4.0 scale.

Teach Grant Program

Through the College Cost Reduction and Access Act of 2007, Congress created the Teacher Education Assistance for College and Higher Education (TEACH) Grant Program that provides grants of up to \$4,000 per year to students who intend to teach in a public or private elementary or secondary school that serves students from low-income families. In exchange for receiving a TEACH Grant, you must agree to serve as a full-time teacher in a high-need field in a public or private elementary or secondary school that serves low-income. As a recipient of a TEACH Grant, you must teach at least four academic years within eight calendar years of completing the program of study for which you received a TEACH Grant. **Important:** If you fail to complete this service obligation, all amounts of the TEACH Grants that you received will be converted to a Federal Direct Unsubsidized Stafford Loan. You must then repay this loan to the U.S. Department of Education. You will be charged interest from the date the grant(s) was disbursed. To receive a TEACH Grant you must: complete the Free Application for Federal Student Aid (FAFSA), although you do not have to demonstrate financial need; be a U.S. citizen or eligible non-citizen; be enrolled as an undergraduate, post-baccalaureate, or graduate student in a postsecondary educational institution that has chosen to participate in the TEACH Grant Program; be enrolled in course work that is necessary to begin a career in teaching or plan to complete such course work. Such course work may include subject area courses (e.g., math courses for a student who intends to be a math teacher); meet certain academic achievement requirements (generally, scoring above the 75th percentile on a college admissions test or maintaining a cumulative GPA of at least 3.25); and sign a TEACH Grant Agreement to Serve.

Kentucky College Access Program Grants (KCAP)

The KCAP Grant Program was established by the Kentucky General Assembly in 1974 and is administered by the Kentucky Higher Education Assistance Authority. KCAP Grants are one-year monetary awards based on financial need. They may be renewed for a total of eight semesters if financial need is established. The current amount of the grant is \$1,900 annually for full-time attendance.

To be eligible for a KCAP Grant, a student must be an undergraduate, a U.S. citizen or permanent resident, a Kentucky resident, have an eligible expected family contribution (EFC), and must be enrolled at an eligible institution located within the Commonwealth of Kentucky.

KHEAA also offers assistance to students pursuing careers in education who plan to teach science or mathematics or who are Kentucky high school graduates with outstanding academic records. For more information, contact KHEAA, 1050 U.S. 127 South, Frankfort, KY 40601; or visit their Web site at: www.kheaa.com.

Kentucky Educational Excellence Scholarships (KEES)

The Kentucky Educational Excellence Scholarship Program (KEES) was established by the Kentucky General Assembly in 1998 and is administered by the Kentucky Higher Education Assistance Authority (KHEAA).

KEES Scholarships are available to students who graduate from a Kentucky high school at the end of the 1998-99 academic year and beyond. Kentucky residents who meet the eligibility criteria can earn up to \$2,500 per year. The amount of the scholarship is based on the student's high school performance and ACT scores. Students will generally be eligible to receive the scholarship for a maximum of eight academic terms in an undergraduate program. For most programs of study, the scholarship must be used within five years of high school graduation.

To receive the full award, students must be enrolled full-time. Students enrolling less than full-time (but at least half-time) will receive a proportionate award. To retain the maximum award for the second year, an eligible student must complete his or her first two academic terms with a cumulative 2.5 GPA. Following this adjustment period, a student must achieve and maintain at least a 3.0 cumulative GPA to retain the maximum scholarship. If the student has a 2.5 to 3.0 cumulative GPA for a subsequent term, the award will be reduced by 50 percent for the next term. If the cumulative GPA falls below a 2.5, the student will lose the award for the next award period. A student may, however, regain eligibility later by reestablishing at least a 2.5 cumulative GPA.

Eligible students will receive official notification of their KEES award from KHEAA. The student's enrollment must be verified prior to disbursement of the award. Therefore, funds will not be available until four weeks after the start of the semester. For more information, contact KHEAA at 1050 U.S. 127 South, Frankfort, KY 40601; or visit their Web site at: www.kheaa.com.

LOANS

Loans generally supplement a student's savings, earnings, or other financial assistance. Loan funds generally are not adequate to cover **all** expenses. When possible, loans are combined with other types of financial assistance to **reduce** the amount a student must borrow.

Federal Perkins Loans

Perkins Loans are made available on a fund-matching basis between the University and the federal government.

A student must demonstrate financial need to be eligible for a Perkins Loan. The amount of loan is determined by the Office of Student Financial Aid based on the needs and resources of the student and available funds. Annual loan limits are \$5,500 for each year of undergraduate study and \$8,000 for each year of graduate or professional study. The aggregate loan over a number of years cannot exceed \$27,500 for undergraduates and \$60,000 for graduate and professional students.

Payment is not required while the borrower is enrolled as a half-time student. Interest begins to accrue at a rate of 5 percent per year at the beginning of the ninth month after the borrower ceases to be a half-time student. In this context, "half-time" is defined as half a normal load or a minimum of six hours for undergraduate students or five hours for graduate students.

Health Professions Student Loans (HPSL)

Students in the Colleges of Dentistry and Pharmacy are eligible for Federal Health Professions Student Loans. Funds for the HPSL program are cooperative loan funds made available on the same basis as the Federal Perkins Loan Program described above.

The law requires that borrowers be enrolled as full-time students in good standing in the Colleges of Dentistry or Pharmacy and be in need of a loan to continue their professional education. **Parental information must be reported on the FAFSA** even if the student is considered independent. If required, the student must be registered with the Selective Service Administration.

The amount a student may borrow annually may not exceed the student's cost of attendance. Repayment of principal and interest begins one year after the student ceases full-time study, and must be completed within ten years. HPSL Loans carry a fixed interest rate of 5 percent.

Primary Care Loan (PCL) Program

The Primary Care Loan Program (PCL) assists students in the College of Medicine who intend to engage in primary care residency and/or practice upon graduation. *Primary health care* is defined as family medicine, general internal medicine, general pediatrics, preventive medicine, or osteopathic general practice.

Eligibility requirements for PCL are the same as those for HPSL, except that a recipient must commit to a three-year primary care residency and must practice in primary care until the loan is paid in full. Students who fail to fulfill this obligation must repay their PCL loans within three years from the date of their failure to comply, and for loans made prior to November 13, 1998 must repay interest at 12 percent, computed from the date the loans were issued, and compounded annually. For loans made on or after November 13, 1998, the annual interest rate is 18 percent beginning with the date of noncompliance.

The amount a student may borrow annually may not exceed the student's cost of attendance. Interest and repayment provisions are identical to those in the HPSL Program.

Federal Direct PLUS Loans and Graduate/Professional Federal Direct PLUS Loans

Parents can borrow a Federal Direct PLUS Loan to help pay their child's educational expenses if the student is a dependent undergraduate student enrolled at least half-time in an eligible program. The parent borrower must also have an acceptable credit history. Both the student and the parents must also meet other general eligibility requirements for federal student financial aid. The yearly limit for a PLUS Loan is equal to the student's cost of attendance minus any other financial aid received.

Graduate/Professional students enrolled at least half-time in an eligible program can borrow a Federal Direct Grad PLUS Loan to help meet their educational expenses. The yearly limit for a Grad PLUS Loan is equal to the student's cost of attendance minus any other financial aid received.

Applications for Federal Direct PLUS Loans and Grad PLUS Loans are available from the Office of Student Financial Aid. The interest rate for PLUS and Grad PLUS Loans is 7.9 percent. Interest is charged on a PLUS/Grad PLUS Loan from the date of the first disbursement until the loan is paid in full. A 4 percent origination fee is charged on all PLUS/Grad PLUS Loans. However, borrowers will receive a 1.5 percent origination fee rebate resulting in a net cost to the borrower of 2.5 percent.

Subsidized Federal Direct Stafford Loans

The University of Kentucky participates in the Federal Direct Stafford Loan Program through an agreement with the U.S. Department of Education. The University receives loan funds directly from the Department of Education and disburses them to eligible students. Undergraduate students with a freshman classification may borrow up to \$3,500 per academic year. Students with a sophomore classification may borrow up to \$4,500 per academic year. Students with a junior, senior, or fifth-year classification may borrow up to \$5,500 per academic year. Graduate students may borrow up to \$8,500 per academic year. The amount of the loan may not exceed the cost of attendance or the cost of attendance less other aid received minus family contribution, whichever is less.

The interest rate for **undergraduate subsidized** Federal Direct Stafford Loans is fixed at 5.6 percent for loans first disbursed between July 1, 2009 and June 30, 2010. The interest rate for **graduate subsidized** Federal Direct Stafford Loans is fixed at 6.8 percent for loans first disbursed on or after July 1, 2006. Borrowers pay an origination fee of 1.5 percent. The fee is withheld from the loan when the funds are disbursed. Under current law, students will receive an up-front interest rebate of 1.0 percent of the loan amount borrowed resulting in a net cost of 0.5 percent.

Interest will not be charged while the student is enrolled in school at least half-time, during a grace period, or during authorized periods of deferment. Interest will begin to accrue when the student enters repayment. Repayment begins six months after the borrower leaves school.

Students must complete a Free Application for Federal Student Aid (FAFSA) to apply for a Subsidized Federal Direct Stafford Loan.

Apply early. Allow a minimum of 4 to 8 weeks to process the loan.

Unsubsidized Federal Direct Stafford Loans

The Unsubsidized Federal Direct Stafford Loan program is open to students who may not qualify for subsidized Federal Direct Stafford Loans or who may qualify for only partial subsidized Federal Direct Stafford Loans. Borrowers may receive both subsidized and unsubsidized Federal Direct Stafford Loans totaling up to the applicable Stafford limit, if they do not qualify for the full amount permitted under the subsidized Federal Direct Stafford Loan Program. For undergraduate students, this includes eligibility to borrow up to an additional \$2,000 in unsubsidized Federal Direct Loan funds. Independent undergraduate and graduate students have increased loan eligibility.

Unsubsidized Federal Direct Stafford Loans have the same terms and conditions as Subsidized Federal Direct Stafford Loans with the exception of (1) an interest rate of 6.8 percent for undergraduate student borrowers and (2) the borrower is responsible for interest that accrues while the borrower is in school.

Borrowers pay an origination fee of 1.5 percent. The fee is withheld from the loan when the funds are disbursed. Under current law, students will receive an up-front interest rebate of 1.0 percent of the loan amount borrowed resulting in a net cost of 0.5 percent.

Short-term Loans

Students are eligible to receive short-term, interest-free loans for a documented emergency. A \$1 service fee is charged for each loan.

Up to four **working** days are required to process a short-term loan application. Short-term loans are not available during the first three weeks of a semester or immediately preceding the close of a semester. Only students who have paid their tuition and are in good financial standing with the University are eligible. Contact the Office of Student Financial Aid for more information.

THE FEDERAL WORK-STUDY PROGRAM (FWS)

The Federal Work-Study Program (FWS) provides jobs for financially needy students. Work-study assistance is usually combined with other kinds of financial aid, and preference is given to students with the greatest financial need.

A student must demonstrate financial need to be eligible and must be enrolled at least half-time during the academic year. Students who are not enrolled for the summer sessions may be eligible to work full-time during the summer. Students who work full-time in the summer are obligated to save from their earnings for their fall semester expenses. Summer work-study applications are available in the Office of Student Financial Aid after March 1.

Students are limited in how much they can earn on the FWS Program. Students are not permitted to earn more than the amount specified on their *Notice of Award*. Pay rates range from \$7.25 to \$10.85 per hour, based on factors such as campus, year in school, and job duties and responsibilities. Although referred to as a *work-study* job, students are **NOT** paid to study and must be engaged in work activities during all hours for which they receive an hourly wage.

SCHOLARSHIPS

Scholarship programs based primarily on **financial need** are administered by the Office of Student Financial Aid. Students with substantial financial need should read the preceding information and contact the Office of Student Financial Aid.

Scholarship programs based primarily on **academic merit** are administered by the Office of Academic Scholarships. To be eligible, entering freshmen

Financial Aid, Awards, and Benefits

must have a minimum unweighted grade-point average of 3.30 and an ACT composite score of at least 26 or an equivalent SAT total. The University also offers special academic scholarships to National Merit Finalists, Kentucky Governor's Scholars, and Governor's School for the Arts Alumni. For more information, contact the Office of Academic Scholarships.

Currently enrolled UK students who have demonstrated high academic achievement may apply for an Academic Excellence Scholarship. Applications are available during the spring semester and awards are made for the upcoming school year.

The deadline for new freshmen to apply for competitive academic scholarships is January 15. Continuing students apply by April 15. For more information, contact:

Office of Academic Scholarships
100H Funkhouser Building
University of Kentucky
Lexington, KY 40506-0054
(859) 257-4198
e-mail: academicsscholar@lsv.uky.edu
www.uky.edu/AcademicScholarships/

Many academic departments and colleges have funds of their own that are granted to deserving students. For more information, check with the individual college or department of interest.

2020 Scholars Program

The Office of Academic Scholarships also administers academic-based awards through the 2020 Scholars Program. This program includes the Flagship and Provost Scholarships. The Flagship Scholarship is available based on the UK admission application for entering first-time freshmen students with a 26 or 27 ACT and a 3.30 GPA. The award is for \$1,500 for one year. The Provost Scholarship is awarded based on the UK admission application for entering first-time freshmen students with a minimum 28 ACT and a 3.30 GPA. The four-year award is valued at \$1,500 per year. Students must be admitted by March 1 to be considered for the Flagship and Provost Scholarships.

The 2020 Scholars Program also includes the Trustees Scholars, an initiative designed to increase the number of students transferring to UK from the state's community and technical colleges. This program will offer a limited number of students who earn an associate in arts or associate in science degree and 3.5 GPAs the opportunity to transfer to UK and continue to pay Kentucky Community and Technical College System tuition rates for two years. Scholarships also will be offered to a limited number of community college students transferring with at least 48 hours of academic credit and 3.3 GPAs. All other transfer students with a minimum 3.30 cumulative GPA, that are currently enrolled at an accredited institution and will have 24 hours by the end of the spring term, are eligible to compete for a limited number of \$1,000 nonrenewable awards.

Applicants for a Trustees Scholarship are required to submit a scholarship application to the Office of Academic Scholarships by May 15.

William C. Parker Scholarship Program

The University of Kentucky has a mission and commitment to aggressively recruit and retain students from all segments of society, including African American, American Indian, Asian or Pacific Islander, Hispanic, and Alaskan Native students. Factors which are considered in the holistic evaluation of William C. Parker scholarship applications include test scores, grades, an essay, leadership experience, extracurricular activities, awards and recognition, community service and contribution to diversity.

The William C. Parker Scholarship Program is available for incoming freshmen, transfer, and continuing students. Students may receive only one award through the William C. Parker Scholarship Program.

For more information concerning the William C. Parker Scholarship Program, contact:

Joyce Beatty
Director
William C. Parker Scholarship Program
100 Funkhouser Building
Lexington, KY 40506-0054
(859) 323-6334

HUMAN RESOURCES STUDENT EMPLOYMENT

Human Resources Student Employment is a free referral service for UK students who are seeking part-time employment during the school year and part-time or full-time employment during academic breaks. Both on-campus and off-campus jobs in various fields with assorted required skills, pay rates, and flexible schedules are usually available.

To be considered for jobs available through HR Student Employment, UK students first complete an application through the Online Employment System (OES). Next, UK students can search the OES for available jobs and submit their application for specific jobs. After submitting an application, students who meet the minimum qualifications for specific jobs will receive instructions to visit Scovell Hall for a screening interview and possible referral. Interviews are conducted Monday through Friday between 12:30 P.M. and 4 P.M. or by appointment.

Students can access the Online Employment System and other useful information at the HR Student Employment Web site at: www.uky.edu/HR/studentjobs/. Feel free to call us at (859) 257-9542 or (859) 257-8894.

LEGACY TUITION PROGRAM

The University of Kentucky offers partial tuition awards to eligible non-resident undergraduate children of UK graduates. An eligible student is defined as a child whose mother, father, or step-parent has earned a bachelor, graduate, doctorate, or professional degree from the University of Kentucky, whose parent or step-parent is a member of the UK Alumni Association, and who would normally be subject to non-resident tuition rates. New first-time freshmen will be eligible for the Legacy Tuition Program for a total of eight semesters. Transfer students are eligible through the equivalent of their eighth semester of undergraduate study. Semesters of prior college enrollment at other institutions are considered in the total eight semesters. Automatic renewal each semester is contingent upon the student's full-time enrollment on the UK main campus while maintaining a good academic standing and the qualifying parent's active membership in the UK Alumni Association. Eligibility for continued enrollment in the program will be verified each semester. Students are required to complete the Legacy Tuition Program application in order to receive the benefits.

Students who are in approved 5-year programs, who participate in cooperative education programs, or who participate in Study Abroad programs should contact the Office of Academic Scholarships for information regarding eligibility during these additional semesters. Student athletes should contact the Athletics Office to ensure compliance with NCAA regulations.

Application Deadlines

Fall - March 1
Spring - December 1

SPECIAL AWARDS

The Herman L. Donovan Fellowship for Senior Citizens

The Donovan Fellowship, named in honor of the late Herman L. Donovan, University President from 1941-1956, is open to persons who are 65 years of age or older. Tuition is waived for Donovan Scholars. Students may work toward an undergraduate or graduate degree, audit classes for the joy of learning, or take individual courses for credit. The program is available at the Lexington campus. Scholars are responsible for books, supplies, parking and applicable taxes. Due to space limitations, classes rarely are available for instruction in music and voice. All state supported institutions of higher learning offer tuition-free classes for persons 65 years of age or older. For more information, contact Laura Lakes at (859) 257-2657; or e-mail LLake2@uky.edu.

Members of the Osher Lifelong Learning Institute (OLLI) at UK may participate in the many intellectual, social, and cultural programs which characterize the University. Special non-credit classes and events are available to Kentucky residents who are 50 years of age or older. These include a twice-weekly educational forum featuring topics of special interest, and classes including acting, art, computers, dance, exercise, history, international affairs, languages, music and writing. These classes cost \$10 per semester.

For more information, contact the OLLI at UK, Ligon House, 658 South Limestone, Lexington, KY 40506-0442; call (859) 257-2656; or e-mail: L.Neal@uky.edu.

Oswald Research and Creativity Program

The Oswald Research and Creativity Program began in 1964 with the express purpose of encouraging research and creative activities by undergraduate students at UK.

The objectives of the program are: (1) to stimulate creative work by undergraduate students, and (2) to recognize individuals who demonstrate outstanding achievement. This recognition emphasizes the importance the University places upon academic excellence.

The program has categories in Biological Sciences, Design (including architecture, landscape architecture, interior design), Fine Arts, Humanities/Creative, Humanities/Critical Research, Physical and Engineering Sciences, and Social Sciences. In the science categories and the Humanities/Critical Research category, students generally submit research papers done for class or on their own. For the Humanities/Creative category, students submit short stories, original plays, or poetry. The Fine Arts category is appropriate for musical compositions, paintings, sculpture, videos/films, or photographic essays. Many fine works of art and serious research papers are recognized by the program each year. This competition is unique to the University and provides an excellent opportunity for undergraduates to test their skills and to see their academic work in a serious, professional light.

Awards are \$350 for first place in each category, \$200 for second place. The Associate Provost for Undergraduate Education presents the awards and a certificate to each winner at the Annual Showcase of Undergraduate Scholars held each spring.

Any undergraduate (full- or part-time, enrolled for either semester) who does not already have a baccalaureate degree is eligible to enter. For information and applications, contact the Office of eUreKa!, 115 Bowman Hall, (859) 257-6420.

Undergraduate Summer Research and Creativity Grants

One of the strengths of research institutions like the University of Kentucky is the opportunity they provide for undergraduates to be involved in research projects. Engagement in educational activities outside the classroom is a key element in the learning process. Faculty members in many fields welcome the opportunity to share their expertise and assist students with research projects. Each year the Office of eUreKa! supports numerous independent research and creativity projects. Awardees receive up to \$2,000 to support these activities during the summer months. Awards are

given out at the end of the spring semester. Undergraduate students in all academic areas are eligible to compete for these grants.

For information and applications, contact the Office of eUreKa!, 115 Bowman Hall, (859) 257-6420; or visit our Web site: www.uky.edu/EUREKA.

Other Awards Programs

Many academic departments at UK give special awards and prizes to students each year. Generally, special awards are cash prizes and are given on the basis of academic achievement or outstanding scholarship.

VETERANS BENEFITS

Benefits for Veterans and Eligible Dependents

Federal and state benefit programs for veterans and eligible dependents are coordinated through Veteran Services, located in 10 Funkhouser Building.

Veterans or eligible dependents (widow, wife of totally and permanently disabled veteran, child of deceased or totally and permanently disabled veteran) should report to the Veteran Services office during priority registration or on the Advising Conference date and pick up information about enrolling for benefits.

Students who have already applied for federal or state benefit programs should bring certificates showing entitlement or eligibility.

Students who depend on these benefits to meet their living expenses should bring enough money to cover expenses for at least eight weeks while the first benefit check is processed.

For further information on V.A. educational benefit programs, contact the St. Louis VA Regional Office, P.O. Box 66830, St. Louis, MO 63166-6830, (888) 442-4551.

Children of Kentucky War Veterans Tuition Waiver Program

Under the provisions of KRS 164.505, 164.507, and 164.515 certain children and spouses of Kentucky war veterans are eligible for assistance from the Commonwealth of Kentucky. All persons eligible under this program must meet admissions requirements and submit all necessary documents establishing eligibility under the program to the Student Records Office, 10 Funkhouser Building, (859) 257-8725.

Generally, children of Kentuckians who were killed in military action or who were permanently and totally disabled in wartime military services are eligible to have their tuition waived. This waiver does not cover special fees or additional fees that are charged for certain courses.

For additional information on the provisions of KRS 164.505, 164.507, and 164.515, contact the Kentucky Department of Veterans Affairs, Room 123, 545 S. Third St., Louisville, KY 40202.

ROTC FINANCIAL ASSISTANCE

Army ROTC Scholarships

Two-year, three-year and four-year scholarships are available through the Army Reserve Officers' Training Corps program. These scholarships pay tuition, required university fees, \$1,200 per year for textbook costs, and \$300+ per month tax-free subsistence allowance while school is in session. Scholarship recipients will be commissioned as officers at the rank of Second Lieutenant in the United States Army upon graduation. Scholarship recipients will typically incur a four-year active duty commitment. Guaranteed Reserve Forces Duty Scholarships are also available.

Length of scholarship, application deadline, and where to apply:

1. Scholarship applications are accepted year-round. The address to request or submit an application is: Professor of Military Science,

ATTN: Admissions Officer, U.S. Army ROTC, 101 Barker Hall, University of Kentucky, Lexington, KY 40506-0028; or call (859) 257-6865.

- Four-year scholarships: Application deadline is December 1 of a student's high school senior year. High school juniors and seniors are eligible to apply. To receive an application, contact: United States Army Cadet Command, ATTN: Army ROTC Scholarship, Fort Monroe, VA 23651-1052; or call 1 (800) USA-ROTC; or apply online at: www.goarmy.com/rotc. Applications can also be obtained from: Professor of Military Science, ATTN: Admissions Officer, U.S. Army ROTC, 101 Barker Hall, University of Kentucky, Lexington, KY 40506-0028; or call (859) 257-6865. All applicants are evaluated by a board that considers the following criteria: ACT/SAT scores, high school academic record, extracurricular and/or athletic activities, and personal interview.

Advance Program (last two academic years of baccalaureate degree)

All contracted cadets (committed by signing an Army ROTC contract) receive a subsistence allowance of \$400+ per month while school is in session, whether or not they are scholarship recipients. Active duty commitments range from a 90-day Officer Basic Course for Reserve (Army National Guard or U.S. Army Reserve) officers to four years for active duty officers.

To be eligible for the Advance Program, students must have completed the first two academic years of the ROTC program (Basic Program) or training (Basic Training/AIT, JROTC experience, Leadership Training Course).

Basic Program (first two academic years of the four-year ROTC program)

All students are eligible and welcome to participate in military science 100- and 200-level classes **without obligation**. The Basic Program focuses on an introduction to the Army, tasks common to all soldiers, and adventure training.

Leadership Training Course and Leadership Development Assessment Course

These camps are held during the summer lasting five weeks and each pays the student approximately \$700.

Leadership Training Course is held at Fort Knox, Kentucky, and is attended by students who wish to participate in the Advanced Program. Completion of training qualifies students to enter the Advance Program and receive a two year scholarship.

Leadership Development Assessment Course is held at Fort Lewis, Washington, and is a requirement of the Advance Program for commissioning. Normally, students attend this Camp between the junior and senior years.

Simultaneous Membership Program

This program is open to students in the Advance Program. It enables them to remain a member of, or join a local Army National Guard unit or U.S. Army Reserve unit as officer trainees while attending college. Pay through either of these units is based on that of a Sergeant E5. See the admissions officer or call your local National Guard/Army Reserve recruiter for details. Students who attend or have attended Basic Training/AIT are eligible to receive 100 percent paid tuition reimbursement, Montgomery GI Bill, Kicker, plus over \$1,100 per month while serving in the Kentucky Army National Guard.

Air Force ROTC Scholarships

The types of financial assistance available through Air Force ROTC are briefly described below. For further details on eligibility and requirements, contact the Department of Aerospace Studies, 203 Barker Hall, University of Kentucky, Lexington, KY, 40506-0028, (859) 257-7115; or visit www.uky.edu/AS/Aerospace for more information. Additional information is also listed in this Bulletin under Aerospace Studies.

High School Scholarship Program (HSSP). Scholarships are available to those qualified and selected students who enroll in the Air Force ROTC program. These scholarships cover tuition and laboratory fees, provide an allowance for books, and provide a graduated nontaxable subsistence allowance ranging from \$300 to \$500 per month. Qualified high school students can apply for four-year Air Force ROTC scholarships. Applicants for four-year scholarships are evaluated on the basis of the following criteria: a composite score on the American College Test (ACT), or a composite score on the Scholastic Aptitude Test (SAT); the applicant's high school academic record; class ranking; extracurricular and athletic activities; personal interview; and ability to qualify on an Air Force medical examination.

High school students who meet the basic eligibility requirements for a four-year scholarship must submit an application by December 1 of the year prior to enrollment in the program (usually the senior year in high school). All selections for four-year scholarships are made at Air Force ROTC headquarters. Students meet regularly scheduled boards from September to February. High school students should apply online at: www.afrotc.com. For additional information, contact the Air Force ROTC detachment, 203 Barker Hall, University of Kentucky, Lexington, KY 40506-0028, or by phone at (859) 257-7115.

In College Scholarship Program. Scholarships are awarded to students enrolled as cadets in the Air Force ROTC program on a competitive basis. Depending on the particular scholarship program, selection may be made on campus by the Air Force ROTC detachment commander or at Air Force ROTC headquarters. Scholarships may be awarded for up to three and a half years of study. Students interested in these scholarships should call (859) 257-7115 for the latest information.

Furthermore, the **express scholarship program** is an in college scholarship program available to students pursuing a degree in a critical area. These scholarships can be up to three and a half years. Express scholarships are non-competitive for those who qualify. Express scholarships are currently available in electrical and computer engineering, nursing, and certain foreign area studies. Critical areas are updated every year and are subject to change without notice. For current information, call (859) 257-7115.

Active Duty Service Commitment. All students that accept an In College Scholarship incur a four-year active duty service commitment. High School Scholarship winners incur a four-year active duty service commitment upon entering their sophomore year. Information is current as of March 2009 and is subject to change. Please call (859) 257-7115; or visit: www.uky.edu/AS/Aerospace for more information.

APPLYING FOR HOUSING

The University's Campus Housing Office processes housing applications, assigns residence hall rooms and undergraduate apartments, and notifies students of assignments.

It is important to note that applying for admission to the University and applying for University housing are **two separate processes**. Acceptance for one does not guarantee acceptance for the other. Also, applying for housing does not guarantee that you will be assigned housing. Usually, beginning freshmen who apply for housing **prior to May 1** can be reasonably sure that housing will be available when they enter school the following fall.

Many students are disappointed when they do not obtain a University housing assignment due to late submission of the housing application. **It is recommended that students apply for a housing assignment as soon as they are accepted to UK.**

RESIDENCE HALLS

The University of Kentucky has 16 traditional residence halls and four premium residence halls designed as semi-suites, providing single and double occupancy rooms for 5,200 students, about one-fourth of the student population.

The residential setting at UK is intended to contribute to a student's education by providing a living/learning environment. There are several living/learning communities within undergraduate housing. For more information about each living-learning community, visit the Student Affairs Web site at: www.uky.edu/StudentAffairs/ResidenceLife/LivingLearning.html.

UK's residence halls are the foundation upon which a solid college experience is built. Many current students believe that living in a residence hall is the best way to make friends, meet new people, and become involved in campus life. Studies indicate that overall, students who live on campus tend to have higher grade-point averages than students living off campus.

UK's residence halls are staffed with professionally trained personnel, including resident advisors who live on each floor. The hall director and resident advisors assist in planning a variety of programs and in developing hall governments. Residents are encouraged to participate both within the hall and in the campus community.

All on-campus undergraduate residents are represented by the Resident Student Association, a group whose goal is to improve residence hall life by planning and directing social, educational and recreational programs, and by providing a unified voice for residents. The Resident Student Association is a member of the National Association of College and University Residence Halls (NACURAH, INC.), enabling interested residents to attend regional and national leadership conferences.

Room Assignments

Room assignments are determined by the date the completed housing application, deposit and housing contract are **all** received in the Campus Housing Office.

If housing demand exceeds capacity, the University **may** offer **limited, temporary** living arrangements until a permanent room assignment can be made. Each year, a number of housing recipients do not come to school, or come but do not stay, creating vacancies.

Roommates

Students may request roommates of the same gender on the housing application. Two students who wish to share a room must indicate each other as the preferred roommate, request the same residence halls, and submit applications at the same time.

RESIDENCE HALLS AND UNDERGRADUATE APARTMENTS

UK's residence halls have many attractive features. Housing rates include utilities, cable television, computer network connection and furniture. All residence halls are staffed by hall directors and resident advisors. Each front desk has a staff member monitoring the lobby area 24/7. Closed-circuit television systems are placed in many areas of the halls. Residence halls provide convenient access to laundry facilities, game and television rooms, vending machines, lounges, and study rooms. Dining facilities are close to all areas of campus. **Smoking is not allowed in Undergraduate Housing.** UK Housing policies and procedures apply to all residents who sign a contract and live in one of the residence halls or Greek facilities managed by the University.

UK's campus covers many acres. Students and faculty refer to the three major areas of campus as "north neighborhood," "central neighborhood" and "south neighborhood." UK's residence halls are located in all three areas.

Students should read about each hall and learn about the facilities and the various living-learning communities available.

North Neighborhood

The north neighborhood consists of five residence halls: Holmes, Keeneland, Patterson, Blazer, and North Hall. North neighborhood includes a dining facility and a convenience store within Blazer Hall. North neighborhood halls are close to many classrooms, Memorial Coliseum, Rupp Arena, downtown and many eclectic shops and restaurants.

Central Neighborhood

Donovan Hall and Haggin Hall are single-gender halls and make up the central neighborhood. These halls are considered centrally located because they are close to many classroom buildings, as well as the William T. Young Library and UK Hospital. The Underground Fitness Center is located in the lower level of Donovan Hall.

South Neighborhood

The south neighborhood is comprised of the Kirwan-Blanding Complex, plus three premium residence halls – Baldwin, Smith, and Ingels. These communities are located near the William T. Young Library, the E.J. Nutter Field House and Training Facility, the Hilary J. Boone Tennis Center, Lancaster Aquatic Center, Cliff Hagan Stadium, Bernard Johnson Student Recreation Center, and Commonwealth Stadium.

Women's Residence Halls

Blazer Hall, located in the north campus neighborhood, is home to 186 women. This air-conditioned residence hall has a dining facility and convenience store located on the first floor. The visitation policy is 24-weekend.

Donovan Hall, located in the central campus neighborhood, houses 338 women. The hall is carpeted and the bunk beds can be converted to twin beds. In addition, the furniture may be rearranged. Donovan is home to the Underground Fitness Center. The visitation policy is 24-weekend.

Men's Residence Halls

Haggin Hall, which houses 556 men, is located in the central campus neighborhood. Two dining facilities are located near Haggin: K-Lair Grill and OVID's, located in the William T. Young Library. Haggin has a central lounge and recreation room and is completely air-conditioned and carpeted. This facility has a large study room. Haggin is also next door to the Underground Fitness Center. The visitation policy is 24-weekend.

Kirwan I, part of the Kirwan-Blanding Complex in the south campus neighborhood, houses 167 men, is air-conditioned, and is fully carpeted. Guests of the opposite gender have standard visitation.

Co-Ed Residence Halls

In co-ed residence halls, men and women are assigned to separate floors in each hall and do not share common bathroom facilities. In the premium residence halls and Keeneland Hall, men and women are assigned to separate wings, and each pair of rooms shares a bathroom in a suite-style arrangement. Students are encouraged to consult with their parents prior to making their application for any residence hall.

Blanding Tower and **Kirwan Tower** are part of the Kirwan-Blanding Complex in the south campus neighborhood. The two towers are air-conditioned and carpeted and house 610 students each. Kirwan Tower is also home to the EXPLORE Community which serves students who are undecided and undeclared in their major. This community presents opportunities for students to be connected to resources across campus which may help them in their decision. The visitation policy for both towers is 24-weekend.

Blanding I, a three-story hall in the Kirwan-Blanding Complex, south campus neighborhood, is home to 167 co-ed students. It has a 24-weekend visitation policy.

Blanding II, a three-story hall in the Kirwan-Blanding Complex, south campus neighborhood, is home to 167 co-ed students. Blanding II has a 24-7 visitation policy.

Blanding III, located in the Kirwan-Blanding Complex, south campus neighborhood, is home to 164 residents and has a 24-7 visitation policy.

Blanding IV, a three-story hall in the Kirwan-Blanding Complex, south campus neighborhood, is home to 167 co-ed students. It has a 24-weekend visitation policy.

Holmes Hall, a four-story building in the north campus neighborhood, houses 304 students. A vending area, laundry room and study area are located on the ground floor. Rooms are carpeted and contain sinks. Holmes has all new furniture. Holmes is home to the new GREEN (Get real environmental experience now) Community. The visitation policy is 24-weekend.

Keeneland Hall, located in the north campus neighborhood, houses 306 students and has rooms arranged as semi-suites (double rooms connected by a full bath). The hall also has a formal reception area and corridor study rooms. Keeneland has a 24-7 visitation policy. Keeneland is home to the Civic Engagement Community. This community is offered to incoming first-year students who are interested in community service and leadership.

Kirwan II is UK's Wellness Hall. It is equipped with a weight room and offers special programming for students who are especially health conscious. Kirwan II has a 24-7 visitation policy. It is home to 165 residents.

Kirwan III offers the Multicultural Affairs Science Cohort Community. Students enrolled as a cohort in Chemistry 105 in the fall semester and Chemistry 107 in the spring semester participate in structured tutoring and study groups conducted in the residence hall. Participants meet regularly

Living Accommodations

with special guests to explore real-world chemistry and the role of science in daily life, and engage in fun, hands-on activities to enhance their classroom experience. Kirwan III has a 24-7 visitation policy and is home to 167 students.

Kirwan IV, a three-story hall in the Kirwan-Blanding Complex, south campus neighborhood, is home to 167 co-ed students. It has a 24-weekend visitation policy.

Patterson Hall, affiliated with the Honors Program Community, is located in the north campus neighborhood. Patterson is the oldest residence hall on campus. Patterson has been renovated, has all new furniture and is air-conditioned. Patterson is home to 136 residents and has a 24-7 visitation policy.

North Hall, located on the corner of Martin Luther King Jr. Boulevard and Euclid Avenue in the north campus neighborhood, is home to the Arts Community. Arts Community participants will usually be in a related academic major. The program provides speakers and performers from the community and also encourages students to participate in community outings to local arts performances. In addition, students may take advantage of regular cabaret and open-mike events in the hall's common area. Practice rooms and studio spaces for music and art students are also available.

North Hall is a nine-month hall that is open during academic breaks. In addition, students have the opportunity to sign a 12-month option. North Hall is home to 144 students. It has a 24-weekend visitation policy.

Baldwin Hall, located behind Kirwan III on south campus, is home to 174 co-ed residents. Women and men are assigned to rooms on alternating wings. Each of the premium halls on campus has classrooms and disability-accessible rooms throughout. The spacious, semi-suite style bedrooms have a sink in each room, interchangeable furniture, and a full bathroom between each room. Baldwin Hall has a 24-weekend visitation policy.

Ingels Hall, located behind Kirwan IV on south campus, is home to the New Economy Incubator Community. Students that are technological innovators and/or entrepreneurial-savvy will be drawn to this hall. Residents will explore how ideas come to the marketplace with UK faculty and regional leaders in this new economy community. This living-learning community also includes specialized programming for a cluster of female engineering students living in the Women in Engineering Wing. **For more information about Women in Engineering, contact livelrn@email.uky.edu.** Students from the general population may want to choose this hall for its semi-suite style bedrooms where two students in each room share a full bathroom between each room. The furniture in these rooms is interchangeable. The visitation policy is 24-weekend.

Smith Hall, located directly behind Kirwan II on south campus, is a nine-month hall open during academic recesses. Smith Hall is home to the Global Village Community. The Global Village is a living-learning community designed to build cross-cultural friendship and understanding. This community is made up of students from the U.S. and many other countries. Students live together and share cultural perspectives from around the world through the experiences of daily life and specialized programs. First-year students enroll in courses that have an international focus. Smith Hall houses 174 co-ed residents. It features two main entrances that open into a spacious lobby. There are balconies and classrooms in each of the premium campus halls and each hall offers semi-suite style, two double-occupancy rooms joined by a bathroom. Disability-accessible rooms are available throughout all the premium halls on campus. The furniture in all the premium halls is interchangeable. Smith Hall has a 24-weekend visitation policy.

Max Kade German House is a small community of students living together in a house on Maxwell Street. Students become immersed in German language and culture. Students who wish to live at Kade German House must specifically apply through the German Department. For more information, contact Professor Ted Fiedler at tfiedler@uky.edu; or Azhar Swanson at (859) 257-3761.

Office of Residence Life

The mission of the Office of Residence Life is to provide a residential living and learning experience that engages and supports students. We accomplish this in each of the facilities we manage by:

- promoting a safe and secure environment,
- creating and maintaining an effective learning environment with on-going educational programs and opportunities,
- promoting individual growth and a sense of belonging through the creation of inclusive communities, and
- providing a connection with UK and the larger community.

The Office of Residence Life hires and supervises the staff that live and work in the facilities, including hall directors, house directors, resident advisors, office assistants and desk clerks. Each of these staff members receives extensive training in the management of undergraduate housing facilities and can be a valuable resource in meeting any need that a student might have.

RATES

The cost for living in University Housing is listed in the *Fees* section of this Bulletin, page 23.

Rate Changes

Rates are subject to change at any time before the beginning of the academic year, upon action by the Board of Trustees. Rates are normally established in May for the succeeding academic year.

Housing Deposit

The housing deposit of \$50 and rental agreement must accompany the housing application. The deposit, as well as subsequent payments, must be made by mail to:

**Office of Student Billing Services
18 Funkhouser Building
University of Kentucky
Lexington, KY 40506-0054**

Students requesting a receipt should include a self-addressed, stamped envelope.

Cancellations and Refunds

Applicants must cancel the housing application in person, by fax, by letter, or by e-mail to the University Housing Assignment Office. Students who choose to cancel their Housing and Dining application will be charged:

- \$0 for cancelling prior to May 1
- \$50 for cancelling by June 1
- 20 percent of fall housing charges for cancelling by July 1
- 25 percent of fall housing charges for cancelling by August 1
- 50 percent of fall housing charges plus daily prorated usage for cancelling by September 1 – this includes students who apply for housing and never move in
- Full housing charges for cancelling after September 1

After the Semester Begins

If a student withdraws from the University during the semester, the student is charged the daily rate for the time which they were in the residence hall. Students are also charged the weekly rate for the dining plan which they are on or actual usage of that plan, whichever is greater.

Between Semesters

There is no penalty for withdrawing from the University between terms. The student is released from their Housing Rental Agreement because they are no longer eligible to live in Undergraduate Housing. Students are charged the daily rate for the room assignment and dining plan which they are in until they have withdrawn from all classes and properly checked out of Campus Housing.

Living Accommodations

Liquidating (offered for Spring Semester ONLY)

The Rental Agreement is for the entire academic year, fall and spring semesters. Students who remain enrolled and wish to leave Campus Housing between semesters may choose to liquidate their rental agreement for a significant financial penalty. Details of the Liquidation Policy are available online at: www.uky.edu/Housing.

DINING SERVICES

University of Kentucky Dining Services offers a variety of dining plans to fit your lifestyle with easy access to a variety of food options that are easy on your budget. Your dining plan lets you eat what, when, and where you want. Our facilities are conveniently located all across campus so it's easy to join your friends for coffee, a meal, or a late evening snack. Convenience, food, and value – all for you.

Dining Plans 101

Each dining plan has two components: **meals** and **flex dollars**.

Meals

Choose from weekly or block plan.

Weekly meals can be purchased for a specific number of meals each week during a semester. If you have a weekly dining plan –

- unused meals cannot be refunded, accumulated or carried over to the next week
- your weekly meal allowance begins on Sunday and ends on Saturday.

Block meals can be purchased for a specific number of meals each semester. If you have a block dining plan –

- unused meals cannot be refunded or carried over at the end of the semester
- plan is based on eight meals per week but you determine how many meals you want to use.

Both plans include –

- One meal is deducted from your meal total each time you purchase a meal through one of our participating Dining Services locations.
- Use your meals to enjoy all-you-care-to-eat at Commons Market and Blazer Café or build your own “Combo Meal” at K-Lair Grill and Ovid’s Café by choosing an entrée, adding side(s), and a drink.

Flex Dollars

Flex Dollars work like a debit card using your WildCard Student ID and can be used in all 21 Dining Services locations including:

- All-you-care-to-eat buffets at Commons Market and Blazer Café.
- National franchises: Starbucks®, Subway®, Chick-fil-A®, and Sbarro®.
- Dining locations in academic buildings including Erikson, Gattton, Ag North, Bluegrass Community and Technical College (BCTC), and Patterson Office Tower.
- Locations close to residence halls including Ovid’s Café, the Student Center Food Court, and K-Lair Grill.
- Three convenience stores: Blazer Xpress (Blazer Hall), The Corner Store (Commons Market), and Quick Stop (Student Center).

Flex Dollar purchases are subtracted from your account. Adding money to your Flex Account is easy at the Dining/Plus Accounts Office in 101 Student Center. Dining Services will contribute an additional ten percent to the account when the Plan is initiated and each time a minimum deposit of \$25 or more is made during the semester. Users may transfer \$100 in Flex Dollars from the fall to spring semesters; however, unused Flex Dollars at the end of the spring semester are non-refundable.

How to Sign Up

All Dining Plans are one year contracts for the fall and spring semester of the academic year. For terms and conditions, frequently asked questions, and to view a copy of the Dining Plan Contract, see the Dining Services Web site at: www.uky.edu/DiningServices.

Students

Students living in a residence hall are automatically enrolled in the **Minimum Plan** for the 2009-2010 academic year as part of the housing contract.

Choices for the dining plans include:

- **Minimum Plan** – 5 meals per week, \$300 Flex Dollars
- **Wildcat Plan** – 130 meal block, \$300 Flex Dollars
- **White Plan** – 10 meals per week, \$300 Flex Dollars
- **Comfort Plan** – 21 meals per week, \$300 Flex Dollars

Big Blue Community Plan

UK Dining Services also allows everyone who is part of the campus community but doesn't live in the residence halls (commuters, faculty/staff, administrators, upperclassmen, students in apartments or townhomes, Greeks, and Cooperstown/Shawneetown/Greg Page residents, etc.) the opportunity to save money with the Big Blue Community Plan.

The Big Blue Community Plan is a flex dollar only plan that works like a debit card with meal costs being deducted for each purchase. The Plan requires a \$100 initial deposit and Dining Services will contribute an additional ten percent to the account when the Plan is initiated and each time a minimum deposit of \$25 or more is made during the semester. Users may transfer \$100 from the fall to spring semesters; however, unused dollars at the end of the spring semester are non-refundable.

Community members also have the option of purchasing a Minimum, Wildcat, White or Comfort Plan. If a plan is purchased after the beginning of the semester, the cost will be pro-rated based on the type of plan selected.

Changing Your Dining Plan

Upgrades are available anytime during each semester (fall or spring). The charge for an upgrade will be due the following month.

Downgrades may only be made until **September 15** for the Fall 2009 semester and **February 2** for the Spring 2010 semester. Following a downgrade, credit will be issued to the billing account. If the billing account is paid in full, a refund check will be issued.

Dining plan modifications during the semester will take effect beginning the Sunday **after** you make the change, as meals are counted during the calendar week, Sunday through Saturday. Additional charges or credits will be pro-rated based on the type of changes requested.

Dining 4-1-1

UK Dining Services offers a variety of special services for students including:

- menu items for dietary and allergenic needs
- meals provided for pick-up and delivery to you when you're sick
- free food events
- themed showcase dinners
- international foods
- games and activities
- delivery services
- and much more

You will always find a variety of food on campus. We are open even when the university is closed.

Visit www.uky.edu/DiningServices for information on:

- dining plan pricing
- menus
- hours of operation
- current dining locations information
- dining plan contract
- frequently asked questions
- terms and conditions
- See Blue, Save Green

Questions / Need More Information?

Call the Dining Services Administrative Office at (859) 257-6161, or e-mail: ContactUKDining@lsv.uky.edu.

UK Dining Services is proud to purchase vegetables, fruits, meats, and milk from local and state farmers as part of our commitment to providing healthy and well balanced meals.

Saving you money and saving the planet for future generations is the goal of our See Blue, Save Green campaign. Visit our locations for special value menus and discounts that save money. Eating on campus helps protect the environment through recycling, using earth friendly products, and promoting awareness of "green" practices.

STUDENT PARKING AND CAMPUS BUS SERVICE

Students can access information on topics related to parking, permit application, motorist assistance, bicycle parking, bus schedules, and review our FAQ's on the Web at: www.uky.edu/Parking. Students can also subscribe to *Parking E-News* on this Web site to receive up-to-date parking and transportation news and information via e-mail. For questions or for information not found on the Web site, call Parking Services at (859) 257-5757 or (800) 441-0555; or call Transportation Services at (859) 257-7202.

Parking

When parking on campus, students should purchase and properly display a University of Kentucky parking permit. Application information is available online at: www.uky.edu/Parking. The temporary convenience of illegal parking is rarely worth the hassle and expense of paying fines and/or vehicle impoundment. All **R** and **C** student lots require a valid permit by the Monday before classes begin on Wednesday. Bus service is provided from the **K** lots to Central Campus. Permit control signs at the entrance to each parking lot display the hours when the lot is controlled for permits. Reserved spaces within these lots are controlled for valid permits during the hours indicated on the signs. Reserved parking includes spaces for residence hall directors and people with disabilities.

Renewing Permits

Students holding permits from the 2008-2009 academic year, and who qualify for the same category of permit, may renew permits May 1 through May 31. Other eligible students may apply for permits for the 2009-2010 academic year from June 1 through July 31, or until the supply of permits is exhausted. Any student who cannot obtain a **C** or **R** permit may obtain a **K** permit valid at Commonwealth Stadium. Freshmen and sophomores who commute are only eligible for **K** permits, while those who live on campus may apply for a **K** permit if the desired **R** permit is sold out. After August 1, applications for **K** permits will be accepted only online or via mail, until August 31, 2009. Permits purchased after August 31, 2009 must be purchased at the Parking Services office, located in Parking Structure #6, at the intersection of Press and Virginia Avenues.

Parking for Students with Disabilities

Parking privileges will be granted to qualified students upon completion, acceptance, and approval of an application. The Disability Resource Center, Room 2, Alumni Gym, (859) 257-2754, will assist students with disabilities with the application process. Office hours are 8 A.M. to 5 P.M., Monday through Friday.

Football Game Day Parking

Vehicles parked at Commonwealth Stadium or on University Drive must be removed from the area before 9 A.M. on days of home football games. This includes the **K** areas, the **E** areas in the Red and Blue lots, and the **C6** lot, as well as the **K/E** lot next to Greg Page and the spaces along University Drive. Failure to move any vehicle from the Stadium parking lots or University Drive could result in a citation and impoundment at the owner's expense. All vehicles may be moved to any **E** lot (except **C2/E** lot, Parking Structure #1, Parking Structure #7 and University Drive) after 3:30 P.M. on Friday, and should be returned to Commonwealth Stadium by 5 A.M. on Monday. **Vehicles may not be moved to R lots on football game weekends.**

Guest Parking

Family and friends visiting campus during the week may pay to park in Parking Structure #7 (near Kirwan-Blanding), in Parking Structure #5 (next to Kennedy Book Store), or at pay parking meters. Guests may also stop by Parking Services, located in Parking Structure #6 (721 Press Avenue), at the corner of Press and Virginia Avenues to obtain a temporary parking pass. After hours and on weekends, visitors can park in lots not controlled for permits. A permit control sign at the entrance to each parking lot displays the hours when the lot is being controlled for permits.

Short-Term Parking

Parking meters are available to allow temporary parking for visitors, employees and students. Parking meters are located near the UK Bookstore, Funkhouser Building, Seaton Center and behind Memorial Coliseum. UK parking meters have time limits of either 45 minutes or three hours displayed on the meter post and on the tag inside the meter. The intent of 45-minute meters is to provide short-term parking; they are not intended for students attending class. In addition, certain meters are reserved for specific uses. These meters are identified by signs attached to the meter posts or posted at the entrance to the parking lot.

Avoiding Parking Citations and Keeping Vehicles Safe

- be sure to read and understand the information provided with the permit;
- do not park in fire lanes (red curbs), service areas (yellow and white stripes), loading zones (black and yellow stripes), or reserved spaces;
- do not share the permit with anyone else;
- report lost or stolen permits promptly to Parking and Transportation Services;
- do not assume that because other cars are parked illegally you may do so;
- do not park in violation, (e.g., yellow lines and fire lanes) with hazard lights flashing;
- do not leave notes in vehicles for parking control officers;
- keep vehicles locked at all times.

AlterNetRides

AlterNetRides, an online ride sharing service, connects UK faculty, staff, students, and guests who wish to coordinate carpools, and, in the process, save gas and money and decrease their impact on the environment. The service can be used to find rides on a daily basis, a one-time ride or anything in between.

Users are able to search for those with similar transportation needs by time of day, frequency, and location. By communicating through the AlterNetRides Web site, personal information such as e-mail address and phone number remain confidential unless the user chooses to share them with another rider.

For more information, visit: www.uky.edu/parking/transportation-ridematch.html.

Campus Bus Service

Students do not pay a fare when riding the LexTran campus buses and the Campus Area Transit System (CATS) shuttle buses. (There is a fare for LexTran service off campus). Support for these bus services comes from parking permit fees. LexTran and CATS buses are all equipped with a wheelchair lift.

All commuter students and students living on campus may ride the LexTran campus buses to and from central campus, residence halls, and Commonwealth Stadium between 7 A.M. and 6:15 P.M., Monday through Friday, during the fall and spring semesters. LexTran bus service begins on Wednesday at the start of classes in August and January, and operates on weekdays when UK is in official session. The LexTran campus buses make approximately 120 trips each day to and from Commonwealth Stadium and central campus. LexTran buses run about five minutes apart during peak hours for classes, and about ten minutes apart during off-peak hours.

The University supplements the bus service by providing additional daytime and night shuttle buses to areas of campus not served by LexTran. The daytime CATS service operates three bus routes on Monday through

Friday when UK is in official session. One CATS bus runs on a limited route when class is not in session but the university is open. The night service operates on a fixed route on Monday through Thursday between 4:30 P.M. and 11 P.M. during fall and spring semesters. In addition, the night service operates on demand for students who need transportation around campus, such as between Commonwealth Stadium and the residence halls. Students may telephone the driver directly at (859) 221-RIDE (7433) to make pick-up requests. The bus driver will make every effort to accommodate reasonable requests. Calls must be received at least 30 minutes prior to the end of on-demand service. The schedule for on-demand service is:

Sunday	7 P.M. – 11:30 P.M.
Monday-Thursday	11 P.M. – 5 A.M.

Due to the high volume of riders on the weekends, Parking and Transportation Services has established the Green Route, an after-hours route to serve the campus community on Friday and Saturday nights. The fixed 30 minute loop will run between 7 P.M. and 3 A.M. during fall and spring semesters.

In addition to the Web site, you will find route and schedule information displayed at the major bus stops, or by visiting Parking Structure #5, located next to Kennedy Book Store, or Parking Services, located at 721 Press Avenue (at the corner of Press and Virginia Avenues).

Lexington Bus Service

Students who live off campus may find riding a LexTran city bus to and from campus is more convenient and less expensive than parking on campus. LexTran offers the Class Pass, a student pass providing unlimited LexTran rides throughout the city. Class Passes are \$75 for the school year or \$50 per semester (prices subject to change). For the convenience of students, Class Passes are available for sale at each of the Parking and Transportation Services offices. For more information on the Class Pass, LexTran routes and schedules, visit LexTran's Web site at: www.lextranonthemove.org or call (859) 255-7756.

TaxiCats

In an effort to provide low-cost taxi service to UK students, Parking and Transportation Services and All American Taxi have entered into an agreement to revitalize the TaxiCats program.

TaxiCats allows UK students with valid student IDs to ride within the boundaries of Chevy Chase, Broadway, Greg Page Apartments and Main Street for just \$2 per person per ride. Additionally, All American Taxi will provide a 10 percent discount on taxi service outside the boundaries to UK students with valid student IDs. The discounted services are available year-round. All American Taxi (859-381-TAXI) accepts UK Plus accounts, and has an average wait time of 15 to 20 minutes.

Bicycle Parking and Registration

The University of Kentucky recognizes the bicycle as a vehicle and encourages bicycling as a mode of transportation. In an effort to provide the campus community with a safe, secure, and efficient cycling environment, the University requires that all bikes used on campus be registered, and that bicyclists observe established regulations for operating and parking bicycles on campus. Visit www.uky.edu/Parking for more information.

Bike racks are located in front of most residence halls and classroom buildings, totaling nearly 2,500 bicycle spaces on campus. Bicycle racks should be used at all times; do not chain bikes to benches, trees, handrails or telephone poles. As with cars, bikes can be impounded if they are parked in violation.

All LexTran and some CATS buses are equipped with bicycle racks for your convenience.

Cultural Opportunities

Otis A. Singletary Center for the Arts

Located on the corner of Rose Street and Euclid Avenue, the Singletary Center for the Arts serves as the primary performance facility for the University, as well as for many community and regional events. The Center includes a 1500-seat Concert Hall and a 400-seat Recital Hall, both designed for acoustical excellence.

The Singletary Center opened in the fall of 1979 and has hosted an average of 400 events annually, with 123,000 patrons attending each year. In addition to presenting almost 175 annual performances by the School of Music faculty and students, the Center presents two concert series: the Corner on Classics Series and the Turning the Corner Series.

The Singletary Center is also the primary performance venue of the community arts organizations, such as the Lexington Philharmonic Orchestra, the Central Kentucky Youth Orchestra, the Chamber Music Society of Central Kentucky, and the Lexington Men's and Women's Choruses. In addition, the Center houses the Gallery at the President's Room, which showcases regional, local, and student art exhibits. Admission to the Gallery is free.

The Center offers discounts and/or free admission to numerous programs for students, faculty and staff with a valid UK ID. For more information, call (859) 257-1706; or visit online at: www.uky.edu/SCFA. For ticket information, call the Singletary Center Ticket Office at (859) 257-4929. To buy tickets online, visit: www.singletarytickets.com. The ticket office is open 10 A.M. to 5 P.M. Monday through Thursday, 10 A.M. to 6 P.M. on Friday, and 12 P.M. to 5 P.M. on Saturday if there is a ticketed performance.

Singletary Signature Series

For 28 years, the Singletary Center for the Arts has provided students with the best of the classical music world. The Singletary Signature Series, sponsored by the Singletary Center and the College of Fine Arts, offers audiences the highest standards of artistic excellence usually found in major metropolitan art centers. Each year, the series features five classical concerts by world-renowned musicians. Past performers include the Canadian Brass, the King's Singers, the Moscow State Radio Symphony Orchestra with Navah Perlman, Denyce Graves, Savion Glover, and Mark O'Connor.

Don't miss the opportunity to see some of the world's best performers right here on UK's campus. Ticket prices are based on seating location.

For more information about the Singletary Signature Series, performers, tickets and dates, call (859) 257-4929; or check out the Web site at: www.uky.edu/SCFA.

Theatre

The Department of Theatre offers a variety of productions each year, from classical to contemporary, from provocative to traditional. This range provides stimulating fare for the University and the community.

All University of Kentucky students are eligible to audition for plays. Students may also participate in other theatre-related activities such as wardrobe, scenic, and lighting crews. Students completing assignments on stage or backstage may receive credit through the departmental practicum program.

Auditions and crew assignments are generally made at the beginning of each semester. For more information, students may consult the bulletin board outside the theatre office in the Fine Arts Building; contact the theatre office

at (859) 257-3297; or visit the Web site at: www.uky.edu/FineArts/Theatre.

The Department of Theatre and members of its faculty participate in or are members in the Kentucky Theatre Association, the Southeastern Theatre Conference, the American Theatre in Higher Education, the Kennedy Center American College Theatre Festival (KCACTF), the American Society for Theatre Research, United States Institute for Theatre Technology, and United Scenic Artists.

University Concerts

The School of Music sponsors a variety of recitals and concerts throughout the year by faculty and students. Faculty musical ensembles include the Faculty Brass Quintet and the McCracken Wind Quintet. Student organizations include the Symphony Orchestra, the Wind Ensemble, Symphonic Band, the University Choristers and Chorale, the UK Jazz Ensembles, the Percussion Ensemble, the Trombone Choir, the Tuba Ensemble, Opera Theatre, Mega-Sax, Paws and Listen, and the AcoUstiKats.

Faculty recitals, faculty ensemble concerts, and concerts by student organizations are usually free to students, faculty, staff, and to the community.

Chamber Music Society of Central Kentucky

The Chamber Music Society of Central Kentucky offers a series of concerts featuring outstanding chamber music ensembles of national and international reputation. Most performances are held on campus at the Singletary Center for the Arts. Tickets are available individually or by subscription. A limited number of free tickets are available to students with a valid UK ID at the Singletary Center Ticket Office. For ticket information, call (859) 257-4929.

Lexington Philharmonic Orchestra

The Lexington Philharmonic Orchestra is conducted by George Zack and performs regularly in the Concert Hall of the Singletary Center for the Arts. The orchestra plays a varied repertoire and features outstanding guest soloists at each concert. Tickets are available individually or by subscription. A limited number of free tickets are available to students with a valid

UK ID at the Singletary Center Ticket Office beginning on the Wednesday prior to each concert. For ticket information, call (859) 233-4226.

Martin Luther King, Jr. Cultural Center

Since its establishment in 1987, the Martin Luther King, Jr. Cultural Center (MLKCC) has been a vital cultural/educational resource center on the University of Kentucky campus. Through its year-round calendar of programs and activities, the Center promotes the vital importance of cultural awareness and cross-cultural understanding. MLKCC-sponsored programs such as lectures, concerts, theatrical and dance performances, film and video, exhibits and workshops have broadened the university experience for thousands of students, faculty, staff, and members of the broader community. For more information, visit: www.uky.edu/MLKCC.

Mission

The mission of the MLKCC is to help advance the university's goal of achieving a genuinely diverse, inclusive campus environment which supports the development of students who are prepared to contribute to a highly complex, multicultural, global society. Our aim is to foster a richer understanding and appreciation for the cultural heritage of African American and Latino peoples of America while showing how diversity intersects, overlaps, and complements the cultures of all people.

Values

Education should strive to transcend what is learned in the conventional classroom setting. Learning and development are also achieved through our various social, cultural and interpersonal interactions. In all of its initiatives, programs, activities and sponsored events, the MLKCC values:

- **Truth and Integrity:** We seek the truth and promote honesty and integrity in all matters, from the information that we disseminate to the way that we transact our day-to-day business.
- **Creativity and Resourcefulness:** Our constant search for fresh ideas and innovative ways of doing things enables us to make full and productive use of available resources.
- **Respect and Acceptance:** The MLKCC is enriched by people who have different perspectives, experiences and worldviews. We respect these differences and strive to embrace them as we celebrate the vast diversity of the human experience.

The Martin Luther King, Jr. Cultural Center is located in 133 Student Center, across from the UK Bookstore. The Center is open Monday through Friday. For more information, call (859) 257-4130 or visit the MLKCC Web site at: www.uky.edu/MLKCC/.

University Art Galleries

The University has four main art galleries. The Department of Art sponsors **The Tuska Gallery**, the main exhibition space of the Tuska Center for Contemporary Art, located in the Fine Arts Building. The Tuska Center brings to campus a series of exhibitions of cutting-edge, provocative art in traditional and experimental media of regional and national importance. The gallery was dedicated to the late John Tuska, University of Kentucky faculty emeritus, in 1996. **The Raymond Barnhart Gallery** in the Reynolds Building houses B.A. and B.F.A. senior exhibitions as well as juried shows. The Barnhart is home to the Department's annual Open Studio held the first Friday in December. **The Rasdall Gallery** in the Student Center is run by a student board and features work by local, regional, and national artists in a variety of media. **The Pence Hall Gallery**, under the direction of the College of Design, combines exhibits of architectural interest featuring painting, drawing and sculpture.

The Art Museum at the University of Kentucky

The Art Museum at the University of Kentucky, accredited by the American Association of Museums, is the second largest in the state with an encyclopedic collection of more than 4,500 objects. Areas of strength include Italian Baroque and American Abstract Expressionist painting, photographs, prints, American and French art glass, decorative arts, and regional art. Non-Western objects include Iranian, pre-Columbian, and African works.

The Museum serves both a regional and national audience with a variety of permanent collection exhibitions as well as traveling exhibitions and educational programs. Prearranged group and class tours led by museum volunteers or staff are encouraged. The Museum offers students training opportunities for work-study and internships as well as a Museum Studies course in partnership with the Art Department. Students are eligible for free Museum membership, entitling them to e-mail information about exhibitions and events and a discount in the museum gift shop. For information on becoming a student member, visit our Web site at: www.uky.edu/ArtMuseum.

The Art Museum, located in the Singletary Center for the Arts at the corner of Rose Street and Euclid Avenue, is open noon to 5 P.M. Tuesday through Sunday, and noon to 8 P.M. on Friday. The Museum is closed on Mondays and University holidays. Admission to the permanent collection exhibitions is always free, and admission to special exhibitions is free for all students and UK faculty, staff, and alumni.

William S. Webb Museum of Anthropology

The William S. Webb Museum of Anthropology is the major curation facility for archaeological collections in the state. The Museum was founded in 1931 by William S. Webb, and houses many unique collections recovered from archaeological excavations all across the Commonwealth. Every year we welcome researchers from all parts of the world who come to study, photograph and interpret the material remains representing 12,000 years of Native American life in Kentucky, and the last 200 years or so of the Commonwealth. The museum library contains approximately 9,000 volumes on Kentucky prehistorical and historical archaeology. Researchers are welcome to apply to the Museum for collections access.

The University of Kentucky Libraries offer students many academic services at more than a dozen library locations across campus. Students may use any library, regardless of major. Once your WildCard 2.0 student ID is validated at a campus library, you can use it to check out materials at any location and access library resources online. All our libraries share access to the catalog and databases of electronic journals and articles. Knowledgeable staff members are ready to help you find the information you need in person or via e-mail, chat, or phone.

In addition, you can do library research from home, renew items on-line, and access course reserves at the most convenient library location. Check out the library's Web site and the numerous online resources available at: www.uky.edu/libraries.

The library employs several hundred students each year in a variety of different jobs. No experience is required and schedules can be early or late according to your needs. You can find an employment application at the Student Employment site: www.uky.edu/HR/studentjobs/.

A few things you can do at Young Library:

- Study late
- Get information resources for your paper or project
- Reserve a room to study with friends
- Check out a video or watch it in the library
- Get help writing your papers at the Writing Center
- Create a group study space with whiteboards and mobile furniture
- Read a newspaper from anywhere in Kentucky
- Edit a video on a Mac
- Take a food and drink break
- Check out a laptop for use in the library

DEAN OF STUDENTS OFFICE

The University of Kentucky Dean of Students Office provides both administrative and educational services that support the personal and academic success of students. The office provides extracurricular, non-academic educational programs and also collaborates with academic units to provide support for students in reaching their educational goals.

University Discipline

University of Kentucky students are citizens of two communities – the academic community and the city of Lexington. All students are subject to institutional disciplinary procedures when offenses are committed against the University or its community of scholars. *The Code of Student Conduct* adopted by the Board of Trustees, revised July 1, 2005, sets rules for student behavior that are consistent with the goals and purposes of this academic institution and establishes procedures which insure equality and fairness in dealing with all students. *The Code of Student Conduct: Rules, Procedures, Rights and Responsibilities Governing Non-Academic Relationships*, comprises Part I of **Student Rights and Responsibilities**. This publication also contains: Part II – “Selected Rules of the University Senate Governing Academic Relationships”; Part III – “Regulations Governing Time, Place, and Manner of Meetings, Demonstrations, and Other Assemblies”; Part IV – “Alcohol Policy”; and Part V – “Student Records.” A printed copy may be requested from the Dean of Students Office, 513 Patterson Office Tower, and it is available on the Web at: www.uky.edu/StudentAffairs/Code.

While the University is a place where the search for truth is carried on through free inquiry, it is not a sanctuary for those who seek freedom from moral, social and legal obligations. As residents of Lexington, students have the same rights and responsibilities as other citizens.

Fraternities and Sororities

The University of Kentucky hosts 25 national fraternities and 17 national sororities. The undergraduate members are primarily responsible for operating these groups, with the assistance of a house director, local alumni and University advisors. The advisors are concerned with all areas of fraternity and sorority operations – recruitment, pledging, scholarships, housing, finance, leadership, personal growth and University involvement.

Sororities affiliated with the National Panhellenic Council hold a formal recruitment period the week prior to school opening in the fall. This is followed by open membership selection throughout the year for candidates to fill available vacancies.

Fraternities affiliated with the North American Interfraternity Conference host a recruitment week at the beginning of both the fall and spring semesters. Open recruitment takes place throughout the remainder of the school year.

Sororities and fraternities affiliated with the National Pan-Hellenic Council will announce individually their membership intake process during the semester. Pledging is not a prerequisite for membership.

Sororities and fraternities at the University of Kentucky follow the dictates of *The Code of Student Conduct* which prohibits student organizations from discriminating against any person due to race, color, or religious affirmation or belief.

The governing bodies for Greek life are the Interfraternity Council, the Panhellenic Council and National Pan-Hellenic Council comprised of representatives from each group on campus. The Inter-Greek Programming Assembly coordinates Greek service activities and chapter recognition.

The Office of Fraternity and Sorority Affairs, the Interfraternity Council, the Panhellenic Council and the National Pan-Hellenic Council are located in 575 Patterson Office Tower. For more information, call (859) 257-3151; or, access the fraternity and sorority Web site at: www.uky.edu/StudentAffairs/Greek.

University Health Service

The University has a comprehensive health care program for all University of Kentucky students. Located in the Student Health Center on South Limestone next to the Wethington Building, University Health Service provides outpatient medical and behavioral health services. The **Medical Service** provides consultation and treatment for illnesses and injuries, incorporating a broad range of primary care and preventive medicine disciplines. The **Behavioral Health Service** assists students with personal and emotional problems. Student health records are strictly confidential and may be released only as permitted by applicable state and federal law.

The regular semester clinic hours are 8 A.M. to 6 P.M., Monday through Friday; and 9 A.M. to 11 A.M. on Saturday (fall and spring semesters). Summer hours and hours when school is not in session are 8 A.M. to 4:30 P.M. After hours, urgent care is available at the University Hospital Emergency Room or local urgent treatment centers. However, the University of Kentucky and University Health Service assume no responsibility for the cost of after-hours care.

Payment of the mandatory registration fee by full-time students entitles them to use the services provided by the Health Service during the regular fall and spring semester for reduced or no cost. Part-time students may use the health service on a fee-for-service basis or may pay a semester health fee. The summer health fee is voluntary for all students and must be pre-paid by the published deadline. Summer students may also choose to be seen on a fee-for-service basis.

University Health Service does **not** cover the expense of referrals, hospitalization, after-hours care, accident care, surgical, radiology, and most laboratory services. University of Kentucky Health Service, University Hospital and other UK HealthCare programs assume no responsibility or liability for medical expenses incurred by students beyond those covered by University Health Service. It is highly recommended that all students carry health insurance. Immunizations required or recommended by federal and state agencies, CDC, and ACHA are also required/recommended for UK students. (**NOTE:** All international students are required to have university-approved health insurance.) For more information about health insurance, contact University Health Service, University of Kentucky, 830 South Limestone, Lexington, KY, 40536-0582, (859) 218-3208.

For questions or further information, call (859) 323-5823; or visit us on the Web at: www.ukhealthcare.uky.edu/uhs.

Religious Affairs

While the University does not directly sponsor religious activities, it both welcomes and supports the diverse religious traditions and organizations on campus. A member of the Dean of Students staff assists religious groups through the Religious Advisors Staff, an organization of campus ministers and religion-based student organizations. The Religious Advisors Staff includes the following: Athletes in Action, Bahá'í Association, Baptist Campus Ministry, Campus Crusade for Christ, Catholic Newman Center, Chi Alpha Christian Fellowship, Christian Student Fellowship, Church of Christ/CATS for Christ, Disciples of Christ, Graduate Christian Fellowship, Inter-Varsity Christian Fellowship, Jewish Student Organization/Hillel Foundation, Lutheran & Episcopal Campus Ministry, Muslim Student Association, Orthodox Christian Student Association, Presbyterian Campus Ministry, Reformed University Fellowship, and United Methodist Center Wesley Foundation.

For more information or a list of the student organizations, contact the University Liaison, Dean of Students Office, 2 Alumni Gym, (859) 257-2754.

Alcohol and Health Education Office

The mission of the Alcohol and Health Education Office is to empower the University of Kentucky and Lexington communities to make healthful lifestyle choices, particularly as it relates to alcohol. We offer a variety of resources and environmental management strategies that encourage responsible decision-making (including abstinence) that is low-risk to our students and the surrounding community. The CAUSE (College Alcohol Use Student Educators) peer education group implements programs campus-wide to educate UK students about making low-risk decisions. For more information about The CAUSE or services the office provides, contact Andrew M. Smith, Director of Alcohol and Health Education, at (859) 257-9687, or visit: www.uky.edu/StudentAffairs/HealthAlcohol and www.q-authority.org.

UK Parent Association

The UK Parent Association welcomes all parents and guardians of UK undergraduate students to its membership. At no cost to its members, the Parent Association publishes the *Insider's Guide* handbook for families of new UK students and coordinates events for students and families during K Week and Family Weekend. The Parent Association provides regular campus updates in the *Cat Chat* e-mail newsletter and assists parents with questions and concerns related to their students and UK. The Parent Association is coordinated through the Office of New Student and Parent Programs.

Contact Nancy Stephens, the Parent Association Coordinator, at (859) 257-6597 or parents@lsv.uky.edu. More information is available online at: www.uky.edu/Parents.

Disability Resource Center

The mission of the Disability Resource Center is to provide and coordinate services that will allow students with disabilities equal access to the University's educational, social, and cultural opportunities. Students with temporary disabilities, documented physical or learning disabilities, or who want to learn more about disability concerns may receive assistance and support from this office. Services are tailored to meet the needs of individual students based on their specific disabilities. The services provided through the Disability Resource Center include, but are not limited to, determining needed classroom and exam accommodations, providing priority advance registration, assigning sign language interpreters, screening applicants for disability parking permits, assisting with campus arrangements, and providing information about other available campus resources.

Students with permanent disabilities include individuals with physical conditions, medical disorders, learning disabilities, attention deficit/hyperactivity disorder, and other psychological disorders. Students with temporary disabilities include those who are recovering from surgery or who are being treated for temporary medical conditions (sprained ankle, broken leg, etc.). All students must provide current documentation of their disability and the need for accommodations before services can be provided.

Students with cognitive disabilities frequently request classroom and exam accommodations. Eligibility for these accommodations is based on current documentation of the disability that validates the need for the requested services. A current psychological assessment using comprehensive adult cognitive measures (i.e., WAIS-III, WJ-Cognitive) and comprehensive achievement measures (i.e., WJ-Achievement, WIAT) is required for all students with learning disabilities. The psychological report must provide educational history, functional limitations, fully disclosed standard scores and percentiles for all normed measures, and need for accommodations. Students with ADHD or other psychological disorders must provide current medical or psychological documentation of their diagnosis that confirms their educational history, functional limitations, and need for accommodations.

All students with disabilities are urged to register with the Disability Resource Center and obtain information about the various types of assistance available to them. The office is located in 2 Alumni Gym. For more information, call (859) 257-2754 (voice/TDD); or visit online at: www.uky.edu/DRC/.

CAMPUS RECREATION

The Department of Campus Recreation offers wholesome physical activities and sports programs for students, faculty and staff. Activities include intramural sports, club sports, outdoor pursuits and adventure trips, leisure recreation, and fitness programs.

Bernard Johnson Student Recreation Center

The Bernard Johnson Student Recreation Center is an 87,000 square-foot state-of-the-art facility. The Center has the latest in equipment and amenities. Major spaces include basketball courts, racquetball courts, a fitness center, aerobics studios, a climbing wall and more. All students are encouraged to visit the Center and make positive, healthy use of leisure time.

Lancaster Aquatic Center

Lancaster Aquatic Center is available for recreational swimming during open hours. For information, call (859) 257-7946.

Intramural Sports

The Intramural Sports program provides competition between students at UK. Individual, dual, and team sports events are available. Teams are organized into the following divisions: residence halls, fraternities, sororities, independents, and faculty and staff.

Club Sports

The Club Sports program provides opportunities for UK students, faculty, and staff who desire a more in-depth sports experience than is provided in the Intramural and/or open recreation program. For a list of current club sports, contact the Department of Campus Recreation at (859) 257-3928.

Adventure Trips

The Outdoor Pursuits program offers a variety of adventure trips for UK students, faculty, and staff. The trips vary from day hiking in the beautiful wild regions of Kentucky, to a weekend of whitewater rafting in West Virginia, to snow skiing at one of the regional spots close to Lexington.

For More Information

For more information about recreational programs or facilities, contact the Department of Campus Recreation, 177 Johnson Center, (859) 257-3928. Visit us on the Web at: www.uky.edu/StudentAffairs/CampusRec.

STUDENT CENTER

The University of Kentucky Student Center is the “living room” of campus. Students are welcome to watch their favorite television program in the Cats Den, eat at one of our many dining venues, or just study in a relaxing atmosphere. Students, faculty and staff are also invited to check their e-mail on one of the available wireless laptops available in the Cats Den. Or enjoy sipping a cup of coffee at Starbucks. The Cats Den plays host weekly to the Comedy Caravan featuring national touring comedians, and offers many leisure, entertainment and recreational opportunities. Each year the Student Center hosts over 8,200 events with well over a million visitors. Come be a part of your Student Center.

Those interested in becoming active on campus can visit the Center for Student Involvement, Office of Student Involvement, or inquire about becoming a member of Student Government in the SGA office. Want to purchase a ticket to an upcoming concert or UK event? The Student Center has a Ticket Office with full Ticketmaster services. The Student Center is also the location of the official UK Bookstore and is home to one of the branches of the University of Kentucky Federal Credit Union.

Our professional and student staff aims to provide an atmosphere of social and intellectual interaction in an informal setting. There are many opportunities for students to gain experience in management, and marketing, as service representatives, and in public relations through employment opportunities at the Student Center. For more information or to reserve a room, call the Director's Office at (859) 257-5781.

Student Organizations

Student organizations are formed as a result of student interest and serve the needs of a variety of students. Many provide programs that supplement the classroom experience and extend into areas of service for the community. All provide learning and leadership training for participating students and also build relationships across the UK and local community.

There are over 350 registered student organizations on the UK campus. These include governmental, political, social sororities and fraternities, honors and leadership organizations, recognition societies, departmental/professional organizations, and special interest groups such as the Black Student Union, Cosmopolitan Club, and various religious, athletic, community service, media, and international groups.

For more information about student organizations and campus activities, contact the Student Organizations Center, 106 Student Center, (859) 257-1099. Or visit: www.uky.edu/GetInvolved/StudentOrgs/.

Leadership Development

The Division of Student Affairs sponsors a variety of leadership programs to complement the academic experience. The Emerging Leader Institute provides first- and second-year students the opportunity to develop leadership skills and expand their understanding of the principles of leadership. Course components include structured experiences in effective communication, ethical decision making, applied leadership styles, empowering others, visioning and project planning, and developing mentor relationships. The institutes are selective in admission and participating students earn academic credit. Applications and course schedules for the institute are available online at: www.uky.edu/GetInvolved/Leadership/ELI.

The University Leadership Summit is a year-long leadership experience for top student leaders at UK. This prestigious program starts with a three-day leadership conference in September, and continues throughout the year with a series of monthly leadership summits and a year-long leadership project. Participating in Summit will build unity among campus leaders, create a collaborative campus climate, provide basic leadership training, and increase Wildcat pride. More about the University Summit is available online at: www.uky.edu/GetInvolved/Leadership/academy.html. In order to participate in Summit, students must be nominated by a member of the UK faculty, staff, or current Summit Peer Facilitators.

The Leadership Library has been established to support and enhance the student leadership development programs of UK. All UK students, faculty, and staff who are interested in learning more about leadership may check out these reference materials by presenting their UKID cards. The Library houses material resources such as books, videos, workshops, tips, etc., that focus on leadership development issues including leadership skills; leadership theory; recruiting and motivating group members; leadership and gender; service; ethics; and personal development, just to name a few.

- Leadership Skills;
- Leadership in Student Organizations;
- Leadership Theory;
- Leadership and Gender Studies;
- Servant Leadership and Service;
- Ethics;
- Personal Development.

In addition, freshmen at UK can get a head start in leadership development by applying for the Leadership Development Program (LDP). Coordinated and facilitated through Student Government, the LDP attempts to build future leaders for the University as it helps participants get involved from the moment they set foot on campus. The Program brings together 40 selected freshmen from throughout campus, and meetings are held bi-weekly throughout the year. Each meeting focuses on a different leadership development topic, including networking, communication, ethics and diversity, just to name a few. Each semester, students also collaborate to complete a community leadership project.

Every year, the Office of Student Involvement hosts the annual Honors and Recognition Awards Program. This campus tradition seeks to recognize the best and brightest students from all across campus through various scholarships, departmental, campus, and community awards.

Established in 2008, The Peer Resource Team (PRT) is a new student leadership group who seeks to engage students and unite the campus community. They strive to promote involvement, encourage collaboration between organizations, and educate students about available resources. PRT students reach out to their peers by offering programs, one-on-one consulting, and by helping facilitate involvement sessions with UK 101 classes.

Leadership development at the University of Kentucky continues to grow, and we encourage all students, faculty and staff to learn more by visiting: www.uky.edu/GetInvolved/leadership; or by contacting the Office of Student Involvement at (859) 257-1099 or (859) 257-8867.

Center for Community Outreach

The UK Center for Community Outreach (CCO) is a student-run program that joins groups of students who are interested in enhancing their community, as well as their college experiences, by volunteering. With a student team and advisory staff, UK's Center for Community Outreach hosts a number of regular service events. These events include small- to medium-group projects in the areas of health and wellness, outdoor excursions, elderly companionship, hunger and homelessness, and youth activities. In addition, the CCO offers large-scale service projects. UK FUSION is a one-day service project that includes hundreds of students and staff members volunteering at over 50 community agencies in the Lexington area. UK Dance Blue is a 24-hour dance marathon hosted by the CCO to benefit the Pediatric Oncology Unit at University Hospital. Students who are interested in volunteering on an individual basis can attend the Center for Community Outreach's Volunteer Fair, which occurs each semester. Community agencies from Lexington and beyond send representatives to inform students about their agencies and volunteer opportunities. For more information, stop by 106C Student Center (in the Center for Student Involvement), call the CCO at (859) 257-9385, or visit: www.uky.edu/VolunteerCenter/

ACADEMIC OMBUD SERVICES

The Academic Ombud helps resolve academic disputes between students and faculty or administration. When students are unable to resolve grievances or complaints through usual means, the ombud may be able to expedite the process or advise the student about the proper procedures to follow. Problems include, but are not limited to, violation of students' academic rights, unfair teaching and grading practices, cheating and plagiarism, and discrimination and harassment. All cases are held in strict confidence.

The Office of Academic Ombud Services is open from 8 A.M. to 4:30 P.M. and is located in 109 Bradley Hall. For information, questions, or appointments, call (859) 257-3737.

FINANCIAL OMBUD SERVICES

The Financial Ombud provides a neutral and confidential setting for current and prospective students and their parents to discuss difficult or unusual financial problems affecting tuition and fee payment. The Financial Ombud resolves problems, counsels, and makes recommendations and referrals as needed.

The Office of the Financial Ombud Services is open from 8 A.M. to 4:30 P.M. and is located in 18 Funkhouser Building. For information, questions, or appointments, call (859) 257-3406.

ATHLETICS

The University of Kentucky sponsors 32 athletic teams in both men's and women's sports and is a member of the National Collegiate Athletic Association and the Southeastern Conference. The University fields representative teams in a variety of varsity sports: basketball, football, baseball, tennis, golf, track, cross-country, soccer, swimming, and rifle for men; and basketball, golf, gymnastics, rifle, soccer, swimming, tennis, track, cross-country, softball, and volleyball for women. These various teams provide wholesome entertainment for the student body, faculty, staff, alumni, and general public. Students interested in joining a team should contact the head coach's office in the sport of interest.

The Athletics Association helps support the band, cheerleaders, and the Student Athletic Committee; aids the Kentucky High School Athletic Association by supplying facilities for district, regional and state tournaments in all sports; provides athletic scholarships for approximately 370 student athletes; and provides grants to the University of Kentucky for academic scholarships.

INTERNATIONAL AFFAIRS

The Office of International Affairs (OIA) facilitates and increases international activities both on and off campus by providing leadership, coordination and service in various areas of international activity. OIA promotes international awareness and encourages cross-cultural learning.

Priorities include:

- serving international students, staff, faculty and scholars
- advising American students, staff, faculty and community members about opportunities abroad for teaching, study, work and travel
- obtaining international research contracts and grants to offer opportunities abroad for the University community
- encouraging the internationalization of the curriculum, campus and community

OIA SERVICES

International Student Advising

International Student Services coordinates a complete orientation program for arriving international students. Activities include Welcome Week, an overview of the U.S. educational system, counseling for non-academic concerns, the International Hospitality Program, and cross-cultural opportunities for international students and American students. The International Student Services staff also supports residence life in programming for the Smith Hall Global Village Living-Learning Community. For more information, call (859) 257-4067, ext. 237.

Immigration Specialists

Immigration Services provides advice for international students, researchers and faculty. Immigration specialists also assist academic departments with the hiring and retention of international personnel and faculty. For additional information, call (859) 257-4067, ext. 242.

Health Insurance Advising

Health Insurance Services provides information on the mandatory health insurance requirement for international students and scholars. For details, call (859) 257-4067, ext. 238.

Education Abroad at UK

Education Abroad at UK is the source for information, counseling and support services for students interested in working, traveling or studying abroad. Education Abroad programs are offered for a summer, semester or year in a variety of countries. Education Abroad advisers assist students with program selection and all facets of going abroad. This section also makes presentations encouraging study abroad and coordinates a number of scholarship programs that provide financial support to students interested in studying abroad. For example, advisers offer information on Fulbright and other grant programs to both faculty and students. Call (859) 257-4067, ext. 229 for information.

Community Relations

Community Relations staff organize opportunities for international students to interact with the Lexington community, particularly in schools. This section also fills requests for translators, resources and international programming, which includes Kentucky-Ecuador Partners of the Americas and Peace Corps. For details, call (859) 257-4067, ext. 226.

UK Asia Center

The Asia Center is an interdisciplinary center that works with all 16 colleges and the Graduate School at UK – as well as state agencies and communities across the Commonwealth – to foster understanding of Asia. The Asia Center coordinates new Asia-related courses and majors through 55 affili-

ated faculty, develops new education abroad opportunities and scholarships for undergraduates to study in Asia, sponsors numerous events about Asia that are open to the public (lectures, concerts, film screenings), and holds professional development seminars for K-12 teachers. To learn more, call (859) 257-7858.

For more information, contact:

OFFICE OF MULTICULTURAL STUDENT AFFAIRS

The University of Kentucky prepares students for meaningful and responsible engagement within and across diverse communities. Through its own example and engagement, the University strives to improve the climate for diversity throughout Kentucky, a commitment given special importance and emphasis by shared history. The composite effect of work with students in classrooms, residence halls, offices, laboratories, clinics, libraries, and public places should be to enable them to develop a more enlightened worldview; attain a deeper understanding of and commitment to authentic democratic values and social justice; embrace a greater commitment to service and leadership for the common good; exhibit greater cultural knowledge and competence; and facilitate Kentucky's success in the global economy.

The Office of Multicultural Student Affairs has a primary responsibility to advance the University's commitment to embracing difference and promoting increased knowledge of diversity and its significance as a fundamental value of the campus community. Of equal importance is its mission to provide academic support services to help ensure the academic success and personal development of all students, but especially those students from backgrounds that have been historically underrepresented on the University campus.

Martin Luther King Jr. Cultural Center

Since its establishment in 1987, the Martin Luther King, Jr. Cultural Center has been a vital cultural/educational resource center on the University of Kentucky campus. The King Cultural Center offers a relaxed but affirming atmosphere designed to enhance the recruitment and retention of students from diverse backgrounds. Through its year round calendar of high quality programs and activities, the Center promotes the vital importance of cultural awareness and cross-cultural understanding. King Cultural Center-sponsored programs have enriched the university experience for thousands of students, faculty, staff and members of the greater community. For more information, visit: www.uky.edu/MLKCC.

Learning Services Center

The Learning Services Center provides a comprehensive academic support system that consists of:

- Tutoring
- Organized Study Groups
- Academic Planning Assistance
- Learning Skills Assistance (note-taking, test-taking strategies, time management, study skills and writing assistance)
- Help with Personal Problems
- Peer Mentoring Program

- Freshman Summer Program (academic enrichment program)
- Career Fair
- Workshops
- Computer Lab

For more information, call (859) 323-6347, or stop by the Center at 660 South Limestone Street.

Student Support Services

Student Support Services (SSS) is a federally-funded TRIO program designed to provide comprehensive academic support to improve academic performance and increase retention and graduation rates. Participation in SSS requires that a student be a U.S. citizen and at least one of the following: (1) first-generation college – neither parent has a baccalaureate degree; (2) low income – according to federal guidelines; and (3) have a documented disability. When a student has been accepted into the program, all program services are free. Services offered include: individual and group tutoring (in any subject), academic planning, personal counseling, peer mentoring, career counseling, financial aid information, study skills instruction, writing assistance, graduate school preparation, technology assistance, cultural/social activities, and limited computers, calculators, and a small resource library for check-out and on-site use.

Students interested in becoming a part of the SSS program should stop by the office at 6 Alumni Gym to pick up an application; or call (859) 257-9797 to request an application be mailed to you, or for additional information.

Minority College Awareness Program

The Governor's Minority College Awareness Program at the University of Kentucky is comprised of several early intervention components focused on preparing African American and other underrepresented students for success in postsecondary education institutions. In addition to the component that meets at UK, components are also hosted at Winburn Middle School (RAP – Realizing Academic Potential) and YMCA Black Achievers Program/7th and 8th Grade Education Enhancement Cluster that meets at Lexington Traditional Magnet School.

Each component integrates a primary focus on mathematics with other disciplines such as science, African American history, language arts and communications. Student participants are identified for MCAP based upon referrals from schools, churches, parents and other sources. Parents are required to support their children through transportation and participation in parent workshops, seminars and other open house activities. For more information, contact the director at (859) 257-4098.

Professional Colleges Multicultural Student Affairs Office

This office provides support for the recruitment and retention of underrepresented students and University employees. To help accomplish this vital task, the Office provides leadership and academic support services to students seeking or enrolled in health professions degrees. Additionally, the Office provides social and cultural programs that affirm the social and cultural heritage of underrepresented students and encourages all students to embrace diversity. The office serves as a resource to Health Care College constituencies on diversity issues and sponsors health fairs in the community to promote health issues and help eradicate the disparities in health awareness across racial, ethnic and socio-economic groups.

PROFESSIONAL SERVICES

University Counseling & Testing Center

The University Counseling & Testing Center has a staff of trained psychologists and counselors whose primary function is to help UK students with personal concerns, career decision-making, and support for academic success. Individual counseling is available to assist students with concerns such as adjustment to college life, relationship difficulties, career exploration/decision-making, feelings of depression or anxiety, low self-esteem, life transitions, alcohol/substance use, problems in the family, and/or long-standing behavioral patterns such as procrastination. In addition, counseling groups led by trained therapists are organized each semester and address personal growth issues, interpersonal skills and a variety of other topics. All interviews are confidential. Individual testing and inventories of personality, career interests, and learning styles may be used to aid in self-understanding and to improve academic efficiency. Testing is available only upon referral by a Center staff clinician.

The Counseling & Testing Center maintains an active outreach program, offering workshops and lectures to students, faculty and staff on a variety of college life and mental health topics. The professional staff is also available to faculty, staff and departments for consultations regarding students, personnel or programs. There is no charge for consultations or outreach presentations.

UK Counseling & Testing Center services are available free of charge to students paying for at least six credit hours at the University of Kentucky during the current semester. To be eligible for our services in the summer, you must meet two criteria: be enrolled at UK during the previous spring semester **and** preregistered for the upcoming fall semester. Additionally, students enrolled for either summer session will be eligible for Center services. Students enrolled in graduate and professional programs at the University of Kentucky are also eligible.

Limitations for Treatment

The Counseling & Testing Center can offer an initial assessment to all students eligible for services. However, the Counseling & Testing Center does not have adequate resources to treat all types of psychological problems. Certain students will require more specialized or comprehensive treatment than we can offer. Those individuals will be referred to other treatment resources following an evaluation.

For information about making an appointment, call (859) 257-8701 between 8 A.M. and 5 P.M., Monday through Friday. Referral from another campus agency is not necessary. The Counseling & Testing Center is located in 201 Frazee Hall, next to the Student Center.

The Stuckert Career Center

The Stuckert Career Center is a comprehensive and centralized career center for all students enrolled at the University of Kentucky. The Center's programs are designed to help students, faculty and employers integrate occupational and employment information into educational experiences, extracurricular activities and work. Counselors at the Center work with students from their first-year experience through degree completion and beyond, helping them define goals, explore career possibilities, and obtain employment related to their education.

Through individual appointments and group workshops, career counselors assist students with assessment of individual interests, life/work values, skills and decision-making styles; career exploration; identifying part- and full-time job vacancies, internships and shadowing experiences; resume writing; interviewing preparation and practice; job search strategies; networking with potential employers; researching salary information; and preparing for a successful transition from campus to the community.

Career counselors encourage students to explore careers first-hand by taking part in the Shadowing and Mentoring Program. Shadowing gives students the opportunity to follow working professionals for all, or part, of a day to learn more about careers of interest. Obtaining a mentor allows students to develop on-going contacts with professionals in their fields of interest.

For a more in-depth experience, students may apply for internships, gaining experience and sometimes academic credit by working in businesses, agencies, or other settings pertinent to their academic majors or career goals. Positions are usually semester-based, beginning at the start of a semester and finishing at semester's end; therefore, they should be arranged prior to the semester in which the student wants to begin. Internships are available year-round, during fall, spring and summer semesters. Full-time or part-time internships may be arranged in Lexington and central Kentucky, as well as other locations. Internships may be planned for academic credit, in compliance with individual employers' specifications and faculty sponsorship. More than 35 percent of internships are paid positions.

The James W. Stuckert Career Center is also home to the Katherine Kemper Career Library, a 1,400 square-foot reference area which houses information in electronic and print formats to assist students in their career decisions and job searches. This library offers twelve computer work stations with Internet access as well as TV/VCR carrels for viewing company and occupational videos. For students and alumni seeking 24/7 career services from a distance, the Center offers password access to the Vault Online Career Library accessible from the Center's Web site at: www.uky.edu/CareerCenter.

For students ready to begin seeking full-time, career-related employment, the James W. Stuckert Career Center offers numerous career fairs, employer information sessions and networking receptions throughout the year. Students registering with the Center's Web-based service, Wildcat Career-Link, have access to thousands of job vacancies in addition to being able to apply for interviews with employers who come to campus to recruit UK graduates.

For more information, visit the Center's Web site at: www.uky.edu/CareerCenter. Currently enrolled UK students and alumni may schedule an appointment by calling (859) 257-2746. Students may also utilize the Katherine Kemper Career Library, Monday through Friday, 8 A.M. to 5 P.M. Drop-in hours are available to discuss quick questions with career counselors every weekday from 3 P.M. to 5 P.M. during the fall and spring semesters; summer hours may vary.

The Office of eUreKa!

The Office of eUreKa! (Experiences in Undergraduate Research and Kreative Activities) is one of the units that comprise the Chellgren Center for Undergraduate Excellence. Our purpose is to bring together under one umbrella all of the many scholarly opportunities for undergraduates. We encourage and support undergraduate research (both scholarly and creative) in all disciplines. We strive to engage undergraduate students to participate in activities that provide hands-on, mentored experiences with UK faculty.

Below is a list of programs we offer. Each of these programs provides students with special opportunities and support that extends beyond the classroom. Visit our Web site at: www.uky.edu/EUREKA/.

- UK Undergraduate Research Program (UKURP)
- Society of the Promotion of Undergraduate Research (SPUR), an undergraduate research club
- The NSF funded AMSTEMM Program that recruits, retains, and graduates Appalachian and Minority students majoring in science technology engineering and mathematics disciplines
- DSP 200, Research Skills Orientation Course
- The Annual Showcase for Undergraduate Scholars

- “Bucks for Brains” summer research mentorship
- *Kaleidoscope* (UK’s Journal of Undergraduate Scholarship) Publication
- The Oswald Research and Creativity Awards Program and competition
- The Summer Research and Creativity Awards Program
- The Undergraduate Research Support and Travel Fund
- The Beckman Scholars Program
- “Posters-at-the-Capitol” event
- Support for National Conference on Undergraduate Research attendees

For more information, contact the eUreKa Office at (859) 257-6420.

Adult Student Services

Adult Student Services is a centralized resource center assisting individuals starting or returning to college after several years and current adult students enrolled at the University of Kentucky.

The Center offers programs, scholarships, workshops, advocacy and support to adults. “Back to School” workshops are held two times a year for adults considering a return to school or starting school for the first time. Six scholarships, awarding over \$40,000 annually, are available to UK nontraditional-aged students and students enrolling nontraditionally. Resources, referral and limited academic advising are available with hours that extend into the evenings and on the weekend, Monday through Thursday, 9 A.M. to 7 P.M.; Friday, 9 A.M. to 6 P.M.; and Saturday by appointment.

Contact the center for more information or with questions, comments, or concerns:

Adult Student Services

TRANSCRIPT SERVICES

Students may purchase official copies of transcripts of their academic record in the Office of Student Records.

Effective July 1, 2009, the charge for transcripts is \$10.00 per copy for all UK students (two working days are required to process transcripts).

Students may view their transcript at no charge. Students must present proper identification, including a photo ID.

No transcript will be released without the proper written authorization from the student.

No transcript will be released if:

- no payment is received;
- the student has been declared financially delinquent to the University of Kentucky; or
- the student does not present the proper identification (see section on *Notification of Rights Under FERPA for Postsecondary Institutions* on page 2 of this Bulletin.)

The Office of Student Records is located in the Registrar’s Office and is open Monday through Friday, 8 A.M. to 4:30 P.M.. You may request transcripts in person, by mail or by fax. Transcript request forms are available online at: www.uky.edu/Registrar/Transcripts.htm. The form may be completed online but must be printed off and mailed or faxed to the address/phone below. E-mail requests for transcripts cannot be used as the office must have the student’s signature. Send transcript requests to:

University of Kentucky Registrar
10 Funkhouser Building

ACADEMIC ADVISING

Academic advising is an integral part of undergraduate education at the University of Kentucky. The goal of all academic advising is to assist students in taking responsibility for developing meaningful educational plans compatible with their potential and their career and life goals. Advising is more than the imparting of specialized information; it includes helping students formulate important questions about the nature and direction of their education and helping them find answers to those questions. Advisors will confer with students about course schedules and educational experiences, but students themselves are responsible for their academic program and for making progress toward an academic degree.

As students progress through their academic programs, their advising needs change. At the University of Kentucky, academic advisors help students meet these changing needs. Faculty advisors are key to understanding the nature of the academic program and how it can address student interests and goals. Professional advisors maintain up-to-date information on university requirements, academic policies, procedures, and deadlines; they can also provide guidance for the exploring student. Support offices such as the Central Advising Service and Transfer Center, Counseling and Testing, Student Support Services, the Career Center, and Multicultural Affairs can help students refine their academic interests and goals. Students should refer to specific college, school, and departmental advising materials for details on specific advising programs.

Some students have not selected a specific major. The majority of these students enter the university in Undergraduate Studies and are advised by professional advisors housed in the Central Advising Service and Transfer Center until they declare a major.

Academic Advising Mission Statement

The mission of academic advisors, both faculty and professional, is to:

- assist students in taking responsibility for developing meaningful education plans compatible with their potential and their career and life goals;
- help students formulate important questions about the nature and direction of their education and assist them in finding answers to those questions;
- assist students in acquiring accurate and timely information regarding academic policies, procedures, and requirements;

Within the advising system at the University of Kentucky, both students and advisors have responsibilities.

Students are responsible for:

- a. knowing the requirements of their particular academic program; selecting courses that meet those requirements in an appropriate time frame; and monitoring their progress toward graduation;
- b. consulting with appropriate advisors designated to handle the kind of questions or concerns they have;
- c. scheduling and keeping academic advising appointments in a timely manner throughout their academic career, so as to avoid seeking advising only during busy registration periods; and
- d. being prepared for advising sessions.

Advisors are responsible for:

- a. helping students clarify their options, goals and potential, and understand themselves better;
- b. helping students understand the nature and purpose of a college education;
- c. providing accurate information about educational options, requirements, policies and procedures; and
- d. helping students plan educational programs and monitor and evaluate their educational progress.

- facilitate the successful transition of prospective, continuing and nontraditional students to the academic and campus environment.

Central Advising Service and Transfer Center

The Central Advising Service and Transfer Center is a comprehensive advising center staffed with professional advisors and home to students in Undergraduate Studies, pre-professional advising to students interested in pre-law, pre-med, pre-optometry, pre-dental, and other health professions, advising to pre-engineering students who do not meet the College of Engineering's admission requirements, National Student Exchange, resources for students in academic transition, and advising for students interested in transferring to the University of Kentucky.

One-fourth to one-third of all freshmen and many transfer students enter the University of Kentucky as Undergraduate Studies students because there are many areas that interest them, they are considering a pre-professional field and have not selected an undergraduate major, or because they need to explore their options. Time as an Undergraduate Studies student provides an opportunity to investigate UK's majors while fulfilling the University Studies Program requirements. Students can remain in Undergraduate Studies until they have earned 60 credit hours.

Advisors in the Central Advising Service and Transfer Center work individually with students to help them clarify their professional goals, realistically assess their capabilities and limitations, explore majors of interest, and choose courses appropriate to those areas of study. Advisors also make referrals to other student support services on campus for career interest testing, personal counseling, help with study skills, tutoring, etc. The aim is to support students in making informed decisions about careers and choice of major, and to facilitate the process of entering that major. Visit the Central Advising Service and Transfer Center online at: www.uky.edu/UGS/centadv/ or schedule an appointment by calling (859) 257-3383.

Students interested in transferring to the University of Kentucky can utilize the services of the Transfer Center. The Transfer Center serves as a focal point for information concerning programs, resources, and services available to aid the transfer student's entry and continued success at the University of Kentucky. Advisors are available to answer questions about the transfer process, discuss course equivalencies, and provide pre-admission advising. There is a dedicated transfer advisor housed at Bluegrass Community and Technical College's Transfer Center on Cooper Campus. Contact this advisor at (859) 246-6348, or call the UK Transfer Center at (859) 257-3383.

Students attending the University of Kentucky can also attend one of over 180 colleges and universities in the United States and its territories while paying UK tuition and fees through the National Student Exchange. Students can visit for an academic year or a semester. Likewise, students attending other participating colleges and universities may come here. For more information about NSE, contact Kelly Crume at (859) 257-3044; or via e-mail at kelly.crume@uky.edu; or visit the NSE Web site at www.nse.org.

Departmental Advising

Students who have declared a major are advised by someone in that department, either a faculty member or a professional advisor. These advisors, with their in-depth knowledge of a particular field, can provide guidance toward completing degree requirements as well as information regarding careers and/or long-term educational goals. It is important for the student, as soon as he/she declares a major, to contact the department office and request assignment to an advisor.

Pre-Professional Advising

PRE-LAW STUDY – There is no specified undergraduate degree program required for entry into law school. Students are advised to obtain the bulletins and visit the Web sites of law schools in which they are interested and to familiarize themselves with admissions standards at those schools. In general, pre-law students should develop rigorous study habits, become skilled in clear and logical communication, and select courses toward a broad

general education. Students considering attending law school after completing an undergraduate degree can contact a pre-law advisor in the Central Advising Service and Transfer Center, 109 Miller Hall, (859) 257-3383. For more information, visit Central Advising online at: www.uky.edu/UGS/centadv/. Almost all law schools require students to take the Law School Admission Test (LSAT). Students can contact the Central Advising Service and Transfer Center for information concerning the test.

PRE-MEDICAL STUDY — The University of Kentucky offers preparatory work for the study of medicine in compliance with the minimum entrance requirements of the American Medical Association and the Association of American Medical Colleges. The minimum requirements for entrance to medical schools and in preparation for taking the Medical College Admissions Test (MCAT) include:

- 2 semesters of English with an emphasis in communication skills
- 2 semesters of biology with labs (BIO 150, BIO 151, BIO 152, BIO 153)
- 2 semesters of general chemistry with lab (CHE 105, CHE 107, CHE 111, CHE 113)
- 2 semesters of organic chemistry with labs (CHE 230, CHE 231, CHE 232, CHE 233)
- 2 semesters of physics with labs (PHY 211 and PHY 213) or (PHY 231, PHY 241, PHY 232, PHY 242)

Students who complete a four-year course of study and thereby obtain a degree will have time to meet the requirements for entrance to all medical schools. Opportunity is thus afforded for a broader background in the natural sciences, social sciences, and humanities, which will be of advantage both in medical school and in later life. Students may choose any major the University offers, provided the minimum requirements listed above are met. Some medical schools have additional requirements beyond the minimum. Check specific medical schools for admissions requirements.

The number of students applying annually for admission to medical colleges exceeds the number that can be admitted. Boards of admission consequently fill their quotas from those who are best prepared, as indicated by grade-point averages, MCAT scores, and other criteria.

There is no pre-medical major at UK. Students who are interested in pre-medical study should contact a pre-medical advisor in Central Advising Service and Transfer Center, 109 Miller Hall, (859) 257-3383.

PRE-DENTAL STUDY — In 1970 the American Dental Association abolished its traditional prerequisites for admission to dental school and left it to each school to establish those prerequisites which it deems necessary. The following courses are required to enter dental school in the state of Kentucky:

- *2 semesters of biology with labs (BIO 150, BIO 151, BIO 152, BIO 153)
- 2 semesters of general chemistry with lab (CHE 105, CHE 107, CHE 111, CHE 113)
- 2 semesters of organic chemistry with labs (CHE 230, CHE 231, CHE 232, CHE 233)
- 1 semester of physics with lab (PHY 211) or (PHY 231, PHY 241)
- 2 semesters of English with an emphasis in communication skills

**The University of Louisville Dental School has additional biology requirements.*

In addition, students are encouraged to take upper division courses in areas such as cell biology, microbiology, immunology, histology, biochemistry, genetics and/or comparative anatomy. Students should have a well-rounded curriculum.

Other dental schools in the country may have different required prerequisite courses. Specific information should be requested from each dental school in which the student has an interest.

Academic Advising

Students who are interested in pre-dental study should contact a pre-dental advisor in Central Advising Service and Transfer Center, 109 Miller Hall, (859) 257-3383, for further information and guidance.

PRE-OPTOMETRY STUDY – Although the Commonwealth of Kentucky does not have an optometry school, contract seats are available to legal Kentucky residents at the University of Alabama, Indiana University, and Southern College of Optometry through the Southern Regional Education Board (SREB). Students accepted for the SREB contract program are exempt from the out-of-state tuition. Students are competitively selected from the optometry school to receive a contract seat. Kentucky residency and acceptance into the Doctor of Optometry program does not guarantee a contract seat. Contract availability is subject to change as state legislatures annually review budget expenditures. For the number of contract seats available and more information, contact the specific optometry school.

Pre-optometry requirements differ, but generally include:

- 2 semesters of general chemistry with lab (CHE 105, CHE 107, CHE 111, CHE 113)
- 2 semesters of English
- 1 or 2 semesters of mathematics (MA 123) or (MA 113)
- 1 or 2 semesters of general biology or zoology with labs (BIO 150, BIO 151, BIO 152, BIO 153)
- 1 semester of microbiology with lab (BIO 208 or BIO 308) and (BIO 209)
- 2 semesters of general physics with labs (PHY 211, PHY 213) or (PHY 231, PHY 241, PHY 232, PHY 242)
- 1 or 2 semesters of organic chemistry (CHE 230, CHE 231, CHE 232, CHE 233)
- 1 semester of statistics (STA 291)
- 1 or 2 semesters of psychology (PSY 100)
- Some schools also require biochemistry, anatomy, and physiology

Science courses taken should be those designed for pre-professional students. Brief survey courses in the sciences will not prepare students for optometry school.

Additional course requirements vary among schools. All students interested in optometry should obtain college catalogs from the institutions they are considering. Students who are interested in pre-optometry study should contact a pre-optometry advisor in Central Advising Service and Transfer Center, 109 Miller Hall, (859) 257-3383.

PRE-PHARMACY STUDY — The equivalent of two years (70 semester credit hours) of college-level liberal arts and basic sciences is the minimum requirement for admission to the professional program. The minimum course requirements for admission to UK's College of Pharmacy are:

- 2 semesters of English*
- 1 semester of animal biology (with laboratory) (BIO 152) and (BIO 153 or BIO 151)
- 1 semester of microbiology (with laboratory) (BIO 208 or BIO 308) and (BIO 209)
- 1 semester of mathematics (Calculus I) or the combination of 1 semester of college algebra and 1 semester of elementary calculus (MA 113) or (MA 109 and MA 123)
- 1 semester of principles of microeconomics (ECO 201)
- 2 semesters of algebra-based physics (PHY 211 and PHY 213)
- 1 semester of human anatomy (ANA 209)

- 2 semesters of general chemistry (with laboratory) including qualitative analysis (CHE 105, CHE 111, CHE 107, CHE 113)
- 2 semesters of organic chemistry (with laboratory) (CHE 230, CHE 231, CHE 232, CHE 233)
- 1 semester of statistics (STA 291)

Plus, sufficient electives to raise the total hours of credit to at least 70.

***English requirement for UK and Non-UK students interested in pharmacy:** University of Kentucky students must take ENG 104, a first-year, 4-credit hour writing course, and an approved English 200-level, 3-credit hour English course for prepharmacy. Non-UK Students: two semesters of English writing/composition and/or English literature, will suffice. For questions about this requirement, contact the Pre-Pharmacy Advisor at (859) 323-2755.

Pre-pharmacy courses should be completed by the end of the spring semester prior to the desired fall enrollment, with one semester completed in a lecture and lab in organic chemistry, physics and either anatomy or microbiology by the end of the fall semester prior to the application deadline.

Students are encouraged to take elective courses that satisfy the UK University Studies Program requirements. Electives to consider are biochemistry, physiology, logic, health care ethics, general psychology, interpersonal communication, public speaking, medical terminology.

Admission to the college is competitive, based on a holistic review of the application, grade-point average, PCAT scores and interview.

For more information, contact the College of Pharmacy at:

University of Kentucky
College of Pharmacy
Academic Affairs
Lexington, KY 40536-0082
(859) 323-6163
www.mc.uky.edu/pharmacy/

PRE-PODIATRIC MEDICINE – The American Association of Podiatric Medicine (AACPM) represents six of the seven U.S. Colleges of Podiatric Medicine and Surgery (Barry University School of Graduate Medical Sciences, California School of Podiatric Medicine, College of Podiatric Medicine and Surgery at Des Moines University, Ohio College of Podiatric Medicine, Scholl College of Podiatric Medicine, and Temple University School of Podiatric Medicine). Admissions requirements include a minimum of three years (90 semester hours) of college course work. However, a baccalaureate degree is strongly recommended. The pre-podiatric medicine course work must include:

- 2 semesters of biology with lab (BIO 150, BIO 151, BIO 152, BIO 153)
- 2 semesters of general chemistry with labs (CHE 105, CHE 107, CHE 111, CHE 113)
- 2 semesters of physics with labs (PHY 211, PHY 213) or (PHY 231, PHY 241, PHY 232, PHY 242)
- 2 semesters of English
- 2 semesters of organic chemistry with labs (CHE 230, CHE 231, CHE 232, CHE 233)

Special Academic Programs

THE ACADEMIC COMMON MARKET

The Academic Common Market allows out-of-state students to pay in-state tuition while studying selected academic programs that are not available in their home states. The list of programs included in the Academic Common Market is revised periodically to reflect the changing needs and offerings of participating states. The 16 states that participate in the Academic Common Market are Alabama, Arkansas, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia, and West Virginia. For more information, contact the Academic Common Market Institutional Coordinator, 100 Funkhouser Building, University of Kentucky, Lexington, KY 40506-0054, (859) 257-3256.

ACCELERATED PROGRAMS

The University of Kentucky has a broad policy for accelerated programs. Among the opportunities available are special programs for high school students and a variety of credit-by-examination programs. Many students use these opportunities to earn degrees in less time. Others prefer to use the time gained to explore areas outside their majors or to do more work in their major fields.

Accelerated Programs for High School Students

High school students interested in earning college credit while still in high school should inquire about admission before graduating from high school. The High School Exceptional Ability program is described in greater detail in the *Undergraduate Admission* section of this Bulletin.

Students may also begin their college careers while still in high school by enrolling in independent study courses. The Independent Study Program is described in greater detail in the *Additional Learning Opportunities* section of this Bulletin.

Credit-by-Examination Programs

UK students may earn degree credit by successfully completing examinations described below.

Proficiency Examination Program (PEP)

The Proficiency Examination Program (PEP) of The American College Testing Program prepares tests in arts and sciences, business, criminal justice, education, and nursing. PEP tests may be recognized as appropriate credit for meeting degree requirements. Working with the Office of Undergraduate Admission, colleges and departments determine appropriate cutoff scores, as applicable. The academic departments also determine the amount of the awarded credit that will apply to the curricular requirements in each academic major.

For more information on PEP tests, contact the Counseling & Testing Center at (859) 257-8701.

Advanced Placement Program (AP)

The University of Kentucky recognizes examinations of the College Board Advanced Placement Program offered by high schools throughout the nation. Currently, UK ranks among the top 100 schools in the U.S. for receipt of AP test score results. A high school senior who wishes to have AP scores evaluated for academic credit or placement should have the results sent to the Office of Undergraduate Admission and University Registrar. UK's code is **1837**.

Students who receive Advanced Placement credit for a course may apply this credit the same way credit earned by passing a course is applied. UK does not recognize College Board SAT II Subject Tests for placement or credit purposes.

Academic departments have designated the current policy (see chart on pages 63-64) for students who score 3 or higher on the Advanced Placement examinations.

Please note that the University of Kentucky awards Advanced Placement credit based on the score of the exam that is in effect during the academic year that the student enrolls in UK. Students should refer to the AP chart in the *Bulletin* they received when they were admitted for the appropriate score.

UK does not award duplicate credit in the event that a student repeats an exam or if the credit award is the same for two or more exams. In the event a student takes the same exam more than once, credit is awarded for the best score only.

For more information on UK's Advanced Placement policy, contact:

Office of Undergraduate Admission and University Registrar
10 W. D. Funkhouser Building
University of Kentucky
Lexington, KY 40506-0054
(859) 257-2000

College Level Examination Program (CLEP)

UK participates in the national testing program of The College Board. CLEP Examinations cover specific material common to courses at many universities.

Credit for University courses is awarded to students who obtain the listed scores on the appropriate Examinations, as listed in the "Policy Guide for CLEP Examinations" on page 60.

The Registrar's Office is responsible for all official posting of credit to a student's record. For information regarding the CLEP program and posting of credit, call the Registrar's Office at (859) 257-8729. For information on CLEP exams in general, visit the College Board Web site at: www.collegeboard.com/clep/.

International Baccalaureate Program (IB)

The University of Kentucky recognizes course credit earned through the International Baccalaureate (IB) Program offered by high schools throughout the world.

Generally, course credit is awarded for scores of 5, 6, or 7 on either the Standard Level exam or the Higher Level exam. Please refer to the chart on page 59 for the actual course credit policy in each subject.

Any student desiring credit must request an IB transcript to be sent to the University. Course credit awarded through the IB program will apply toward degree requirements just as if the course had been taken on campus, except that there will not be a specific letter grade associated with the course. Instead, a designation of CR – credit – will be awarded and the grade-point average will not be affected.

In some cases, as noted on the chart on page 59, additional curriculum information must be supplied by the student's high school before credit will be awarded.

For more information, contact Will Fuller at (859) 257-1695; or at: will.fuller@uky.edu.

Special Departmental Examinations

Undergraduate students requesting a special examination must apply in writing to the chairperson of the department that offers the course. Graduate students should apply to the director of graduate studies in the department offering the course. Applicants should include evidence that they are reasonably prepared for the examination.

These examinations are prepared and administered by the offering department, and are usually equivalent to a final examination. Students must be enrolled in good standing at UK. The examinations are offered without charge.

Almost any course offered at the University is available for credit by special examination, regardless of whether a student has audited the course, is currently enrolled in it, or has studied it independently. Please note, most elementary and intermediate foreign language courses are not available on the basis of a special examination.

More information about special examination credit appears in the *Academic Requirements* section of this Bulletin.

English Examination: Students who have a standard score of 32 or above on the English section of the ACT Assessment or 700 or above on the SAT I Verbal score will receive exemption from ENG 104; students who have a standard score of 4-5 on the AP English Language exam will receive credit (grade of CR) for ENG 104. Students who earn a 3 on the AP English Language exam will earn credit for ENG 101 and may choose to take either ENG 102 or ENG 104 (recommended). There is no exemption by CLEP. Scores of 3-5 on the AP English Literature exam or the equivalent on the IB exam will continue to receive 3 units of credit for ENG 161, which does not satisfy either condition of the University Writing Requirement.

Program on Noncollegiate-Sponsored Instruction (PONSI)

Students, particularly those 25 years of age and older, may be eligible to receive credit for extra-institutional learning. The American Council on Education through its Program on Noncollegiate-Sponsored Instruction (PONSI) has evaluated over 2,000 courses sponsored by over 140 corporations, organizations, and agencies drawn from business, industry, and government. On the basis of PONSI evaluations, the University has established guidelines for awarding credit for college-level courses. The University recognizes these recommendations as appropriate credit for meeting degree requirements.

The University's colleges and departments determine the amount of credit that will apply to a student's curriculum.

Information on PONSI appears in *The National Guide to Educational Credit for Training Programs*. For more information, contact the Office of Undergraduate Admission.

Evaluation of Military Credit

The University of Kentucky does not automatically award military credit to students at the onset of enrollment. However, after a degree-seeking student has been enrolled at UK and earned 12 hours, he or she may request that the military record be sent to the Office of Admission for evaluation. Military Credit is awarded following the procedures below:

I. Procedures

- A. The student must submit a letter requesting evaluation, along with the necessary supportive documentation, to the Office of Admission.
- B. The letter should specify the types of educational experiences the student wishes to have evaluated.
 1. Military Schools should be listed by:
 - Name of school
 - Location

- Name of course
- Length of course in weeks
- Date course began
- Date course completed
- Final mark and/or standing in class

2. Military Occupational Specialties (MOS) should be listed by:
 - Complete MOS designation
 - MOS Title
 - Period of time MOS was held as a primary duty assignment
 - How MOS was awarded (School Attendance, OJT, etc.)
 - MOS evaluation score and date of evaluation

II. Documentation

- A. Official documentation is necessary to support the awarding of any credit based on military service. The supportive documentation required is as follows:
 1. Computerized transcript from the Army/American Council on Education Registry (request forms are available in the Office of Admission)
 2. Copies of Course Completion Certificates
 3. Enlisted Evaluation Data Report reflecting competency in any MOS submitted for evaluation
 4. DD Form 214 (Report of Transfer or Discharge) if no longer on Active Duty
- B. Required documentation may be obtained as follows:
 1. Active Duty Personnel: Custodian of individual's personnel records, Military installation to which assigned
 2. Retired Army Personnel or Reserve Personnel:
 - US Army Reserve Component & Administration Center (TAGO)
 - 9700 Page Boulevard
 - St. Louis, Missouri 63132
 3. Discharged Personnel (Veterans):
 - General Services Administration
 - National Personnel Records Center (Military Personnel Records)
 - 9700 Page Boulevard
 - St. Louis, Missouri 63132
 4. Discharged Personnel Now Members of Army National Guard:
 - National Guard unit to which assigned

III. Awarding of Credit

Credit is evaluated using the ACE Guide for evaluation of military credit (Army, Navy, Air Force, Coast Guard). ACE guide recommends hours to be awarded based on the length and content of each course. Evaluations are typed on appropriate form.

- A. A degree-seeking student must enroll and earn a minimum of 12 semester hours prior to any credit being awarded based on military service.
- B. Credit will be awarded on the student's official academic transcript.
- C. No credit will be awarded based on a Military Occupational Specialty (MOS) which has not been held as a primary duty assignment for a minimum duration of one (1) year or more.
- D. Copies of the Evaluation are forwarded to the college dean's office and to Student Records Office.

- E. One copy of the evaluation is maintained in the Office of Admission "Military Credit Evaluation" file.
- F. Each college determines how awarded hours may be used in the degree program.

THE HONORS PROGRAM

The University of Kentucky Honors Program offers outstanding students, especially those interested in developing independent and critical thinking, a special community and a special identity within the framework of the larger institution. The Honors Program is an important part of the University's commitment to academic excellence in undergraduate education.

The Honors curriculum includes seminars in the student's choice of tracks in the five following areas: Western Cultural Heritage; World Food Issues; Social Sciences; Space, Place and Culture; and Technological, Cultural and Social Implications of Nanotechnology. Juniors and seniors in the Honors Program enroll in the Honors Proseminars, which vary each semester and explore multidisciplinary topics. Upperclass students also complete an independent project of research or artistic expression in Honors or in their majors.

The Honors Program, its curriculum, and special features are described in detail in the *Honors Program* section of this Bulletin.

THE UNIVERSITY SCHOLARS PROGRAM

The University Scholars program offers students the opportunity and challenge of integrating their undergraduate and graduate or professional courses of study into a single, continuous program leading to both a baccalaureate and master's degree. The student's particular requirements will determine the amount of time needed to complete the program; however, the program can normally be completed in less time than that required in a conventional program.

Admission to the Program

Applicants for the University Scholars program must meet the following admissions requirements:

1. The applicant must have senior standing (completed at least 90 hours of course work) and have completed all University Studies requirements.
2. Students should apply at the end of their junior year.
3. The master's program should be in the field of the undergraduate major.
4. Applicants must have an undergraduate grade-point average of 3.5 or above in their major field and 3.2 or above overall.
5. Follow the current application procedures for the Graduate School, subject to the above conditions. Admission decisions will be made by the Graduate Dean or his/her appointee.

Degree Requirements and Curriculum

Students in the University Scholars program must meet these requirements:

1. The total number of credit hours completed for the combined program may be twelve (12) fewer than the total required for both the bachelor's and master's degrees. **(The requirements for the bachelor's degree are unchanged.)**
2. Students should take no more than 16 credit hours per semester, unless they have express permission from the appropriate director of graduate studies and the Dean of The Graduate School.

3. Students must complete at least 36 hours of graduate level courses in the combined program, 15 credit hours of which must be in the 600 level or above for a Plan B master's degree. Students pursuing Plan A must complete at least 30 hours of graduate level courses in the combined program of which 12 credit hours must be at the 600 level or above. (Consult The Graduate School *Bulletin* for detailed information concerning Plan A and Plan B for master's degrees.)
4. Students must have an undergraduate and a graduate advisor. A jointly planned program must be prepared for each student.
5. In order to participate in the University Scholars program, a department must submit to The Graduate School a plan and illustrative examples of typical programs.

DONOVAN SCHOLARS PROGRAM AND OSHER LIFELONG LEARNING INSTITUTE AT UK

The University of Kentucky has a long-standing interest in individuals of or nearing retirement age. In 1962, the Board of Trustees established the Council on Aging to serve as the focal point for programs for older persons. The Council is an integral part of the College of Public Health.

The Herman L. Donovan Senior Citizens Fellowship Program

The fellowship provides an opportunity for any Kentucky resident who is 65 years of age or older to enroll in academic courses without paying tuition or fees. The fellowship is available at the Lexington campus and at Bluegrass Community and Technical College. Donovan Scholars may take courses for credit or audit. All prerequisites and entrance requirements are waived for auditors. Donovan Scholars attend regular classes and participate in the many intellectual, social, and cultural programs which characterize the University. Scholars are responsible for books, supplies, parking and applicable taxes. Due to space limitations, classes rarely are available for instruction in music and voice.

For more information about the Donovan Scholars Program Fellowship, call (859) 257-2657; or e-mail: LLake2@uky.edu.

The Osher Lifelong Learning Institute (OLLI) at UK in Lexington

The Osher Lifelong Learning Institute (OLLI) at UK, named for Bernard Osher, offers special activities and non-academic self enrichment courses in convenient community locations for Kentucky residents who are 50 years of age or older. Classes include a twice-weekly Forum lecture series on a variety of topics and classes in acting, art, computers, history, international affairs, languages, music, exercise, dance and writing. Special events include monthly Forum receptions, annual luncheons, spring Ageless Art Exhibit and performances by the OLLI Chorus, Actors, Dulcimer Players and Line Dancers.

For more information about the OLLI at UK, call (859) 257-2656; or email: L.Neal@uky.edu.

Donovan Scholars and OLLI at UK Ligon House

658 South Limestone
Lexington, KY 40506-0442
(859) 257-2656

SYSTEMWIDE ASSESSMENT AND PLACEMENT POLICIES FOR THE UNIVERSITY OF KENTUCKY

In accordance with the Statewide Mandatory Assessment and Placement recommended Policy (13 KAR 2:020 Section 8. [1]), the University of Kentucky has adopted the following procedures in accordance with the Council on Postsecondary Education's policy on minimum admissions requirements.

Students with Less Than an 18 in English and/or Reading

First-time freshmen enrolled in a degree program who have less than an 18 in English or Reading portion on the ACT, will be placed in ENG 104, Writing: An Accelerated Foundational Course.

Additional support will be provided to these students via the University Writing Center.

Transfer students enrolled in a degree program who have not taken and successfully passed a college-level course in English will be placed in ENG 104, Writing: An Accelerated Foundational Course.

Additional support will be provided to these students via the University Writing Center.

Students with Less Than a 19 in Math

First-time freshmen enrolled in a degree program who have less than a 19 in the math portion on the ACT must take the University of Kentucky COMPASS Math Placement Exam.

If the first-time freshman needs to take MA 109 (College Algebra) for his or her major **and** the student earns an appropriate score on the COMPASS Algebra Exam, then the student **must also take** the University of Kentucky Algebra Placement Exam to determine if the student is prepared for MA 109. If appropriate scores are achieved on both the COMPASS Algebra Exam and the University of Kentucky Algebra Placement Exam, the student will be placed in MA 109. If appropriate scores are not achieved on both exams, then the student will work with their advisor in the Academic Readiness Program to determine a plan of study.

If the first-time freshman does not need to take MA 109 (College Algebra) for his or her major **and** the student earns an appropriate score on the COMPASS Algebra Exam, then the student will be placed in MA 111 (Introduction to Contemporary Mathematics). If an appropriate score is not achieved on the COMPASS Algebra Exam, then the student will work with their advisor in the Academic Readiness Program to determine a plan of study.

Transfer students enrolled in a degree program who have not taken and successfully passed a college-level course in math will be placed in MA 108R (Intermediate Algebra). Transfer students may choose to take one of our math placement exams if they desire to enroll in a higher-level math course than MA 108R. Transfer students may also provide ACT/SAT scores to demonstrate their eligibility to take higher level (above MA 108R) courses.

Additional Parameters

Additional student support will be provided (as appropriate) through existing campus resources: Center for Academic and Tutorial Service (CATS), Center for Academic Resources & and Enrichment Services, Central Advising Service and Transfer Center, The Study, and each academic college's advising support and referral system.

All students with less than an 18 in English, reading, and math will be identified in SAP for tracking purposes and feedback to CPE.

SAT equivalencies also will be subject to the above policies.

All UK students converting from non-degree status to degree status who have not yet taken and successfully passed a college-level course in math or English or can provide ACT/SAT scores above the minimum stated requirements, are subject to specified policies.

The goal for these policies will be to provide support and appropriate preparation in English, reading, and math to insure student academic success at the University of Kentucky.

ACADEMIC READINESS PROGRAM

The Academic Readiness Program at the University of Kentucky provides personalized services for selected first-year students working to improve their basic skills in writing, reading, and mathematics. Working with academic advising staff in the students' colleges, the Office of Retention and Student Success can help students achieve their maximum potential for academic success. The program includes:

- COMPASS Placement Testing specific to each student's academic needs;
- free online tutoring supported by a UK subject matter expert;
- supplemental instruction in certain courses that best match each student's preferred course of study;
- learning communities where students find close-knit and caring support to guide them through the new and exciting challenges of their first semester at UK.

For more information, contact the Office of Undergraduate Education at (859) 257-3027.

University of Kentucky International Baccalaureate Program

Credit Awarded Based on Standard Level (SL) or Higher Level (HL) Exam Scores of 5, 6, and 7

<u>Subject</u>	<u>Level</u>	<u>Credit Awarded</u>	<u>Credit Notes</u>
Anthropology	SL	ANT 160, 220	
	HL	ANT 220, 301	Credit may also be awarded for ANT 490 upon evaluation of appropriate fieldwork documentation
Arabic	SL	AIS 201, 202	
	HL	AIS 201, 202, 442, 443	
Biology	SL	BIO 102, 103	
	HL	BIO 150, 151, 152, 153	
Chemistry	SL	CHE 104	Credit will also be awarded for CHE 108 if curriculum options A, C or H are completed; documentation from school is required
	HL	CHE 105, 107	Students qualify to take CHE 111/113 laboratory bypass examination
English	SL/HL	ENG 161	
French	SL	FR 203, 204 (Scores of 5 or 6) FR 304, 305 (Score of 7)	
	HL	FR 304, 305	
Geography	SL	GEO 172 (Score of 5) GEO 130, 172 (Scores of 6 or 7)	
	HL	GEO 130, 172	
German	SL	GER 201, 202	
	HL	GER 205, 206, 307, 308	
History	SL	HIS 108, 109	
	HL	HIS 104, 105, 108, 109	
			<i>Note: For history majors, the premajor requirement is met with either SL or HL</i>
Islamic History	SL	HIS 247	
	HL	HIS 247, 248	
Latin	SL	CLA 101, 102 (Score of 5)	
	HL (Option A or B)	CLA 101, 102 (Score of 5)	
	SL	CLA 201, 202 (Scores of 6 or 7)	
	HL (Option A or B)	CLA 201, 202 (Scores of 6 or 7)	
	HL (Option C)	CLA 201, 202 (Score of 5)	
	HL (Option C)	CLA 301 (Scores of 6 or 7)	
Management	SL/HL	Three credits of elective credit (GEED 1 __)	
Mathematics	SL Math Studies	No credit awarded	
	SL Mathematics	MA 123	
	HL Mathematics	MA 113	
	SL Further Mathematics	MA 114	
Physics	SL/HL	PHY 211, 213	
Psychology	SL	PSY 11–	
	HL	PSY 100	
Spanish	SL	SPA 210, 211	
	HL	SPA 312, 314	
Theatre	SL	TA 126, 150	
Visual Arts	SL/HL	A-S 102	

University of Kentucky Policy Guide for CLEP Examinations

CLEP EXAMINATION	Scaled Score to Earn Credit	Equivalent UK Course	Credit Hours	Grade
COMPOSITION AND LITERATURE				
English Composition with Essay	50 or above	ENG 161	3	credit only
FOREIGN LANGUAGES				
College Level French Language	50-65	FR 201	3	credit only
	66 or above	FR 201, 202	6	credit only
College Level German Language	50-65	GER 201	3	credit only
	66 or above	GER 201, 202	6	credit only
College Level Spanish Language	50-65	SPA 201	3	credit only
	66 or above	SPA 201, 202	6	credit only
HISTORY AND SOCIAL SCIENCES				
American Government	50 or above	PS 101	3	credit only
History of the United States I	50 or above	HIS 108	3	credit only
History of the United States II	50 or above	HIS 109	3	credit only
Introductory Psychology	50 or above	PSY 100	4	credit only
Principles of Macroeconomics	50 or above	ECO 202	3	credit only
Principles of Microeconomics	50 or above	ECO 201	3	credit only
Introductory Sociology	50 or above	SOC 101	3	credit only
Western Civilization I: Ancient Near East to 1648	50 or above	HIS 104	3	credit only
Western Civilization II: 1648 to the Present	50 or above	HIS 105	3	credit only
SCIENCE AND MATHEMATICS				
Calculus with Elementary Functions	50 or above	MA 113	4	credit only
General Biology	55-59	BIO 103	3	credit only
	60-64	BIO 102, 103	6	credit only
	65-80	BIO 150, 152	6	credit only
General Chemistry	50 or above	CHE 105, 107	6	credit only
BUSINESS				
Principles of Management	50	MGT 301	3	credit only
Principles of Accounting	50	ACC 201	3	credit only
Introductory Business Law	50	MGT 341	3	credit only
Principles of Marketing	50	MKT 300	3	credit only

For additional information on credits awarded for CLEP examinations, contact the Registrar's Office, 10 Funkhouser Building, (859) 257-8729. For information on CLEP exams in general, visit the College Board Web site at: www.collegeboard.com/clep/.

Placement Information for Writing and Foreign Language Courses

Students entering UK must meet basic skills in the University Studies Program. The placement information outlined below plays an important role in determining specific options for meeting these requirements. Please carefully read the placement information below to determine which placement exam(s) or other exam(s) you may benefit from taking.

UNIVERSITY WRITING REQUIREMENT

All students must fulfill the University Writing Requirement. See “University Writing Requirement” on page 75 in the *Graduation Requirements* section of this Bulletin for more information. **Note:** Honors Program students satisfy both portions of the Writing Requirement through the Honors curriculum.

You have scored 32 or above on ACT English or 700 or above on SAT I Critical Reasoning	-----	Exempt from the first-year writing requirement Must enroll in 200+-level course after achieving sophomore status
You have scored 4 or 5 on AP English Language Exam	-----	4 credits awarded for ENG 104 with a grade of “CR” Must enroll in 200+-level course after achieving sophomore status
You have scored 3 on the AP English Language Exam	-----	3 credits awarded for ENG 101 with a grade of “CR” May enroll in ENG 102 or ENG 104 (recommended) Must enroll in 200+-level course after achieving sophomore status
You have scored 3, 4, or 5 on the AP English Literature Exam or scored 5, 6, or 7 on the SL or HL IB Exam	-----	3 credits awarded for ENG 161 with a grade of “CR” Must enroll in ENG 104 Must enroll in 200+-level course after achieving sophomore status
You have taken the CLEP Composition exam	-----	No credit awarded Must enroll into ENG 104 Must enroll in 200+-level course after achieving sophomore status
You have taken ENG 101 and 102 (or equivalent)	-----	First-year writing requirement satisfied Must enroll in 200+-level course after achieving sophomore status
You have taken a 3-unit first-year writing course	-----	May enroll in ENG 102 or ENG 104 (recommended) Must enroll in 200+-level course after achieving sophomore status
You are a transfer student who has completed ENG 101 and 102 (or equivalent), and have 3 or more hours of credit for a 200+-level English literature course	-----	First-year writing requirement satisfied Contact Janet Carey Eldred, Writing Initiative, 152 Bowman Hall, (859) 257-4831
You are a transfer student who has taken a 200-level writing-intensive course	-----	Contact Janet Carey Eldred, Writing Initiative, 152 Bowman Hall, (859) 257-4831

For More Information

First-Year Requirement Questions: (859) 257-7002.

Second-Tier Requirement Questions: (859) 257-4831.

FOREIGN LANGUAGE

You must complete two years of a foreign language in secondary school (as indicated on your official transcripts) or a two-semester sequence in college in the same language to satisfy the University Studies Program requirement in foreign language. Students who have had only high school French, German, or Spanish and plan to continue in the same language must take a Foreign Language Placement Exam.

Some degree programs at UK **only** require the completion of two years of a foreign language in a secondary school, while others (e.g., Arts and Sciences and Communications and Information Studies) have additional foreign language requirements beyond the two-semester sequence required by the University Studies Program. Please **ask your advisor** about your college and major requirements.

You have had one year or more of French, German, Japanese, Latin, Russian, or Spanish in high school and plan to take additional courses in this language at UK	Language placement exam required	Enroll in appropriate course determined by placement exam
You have did not take any foreign language in high school	-----	Enroll in first-semester language course (no language placement exam required)
You are planning to enroll in a new language at UK	-----	Enroll in first-semester language course (no language placement exam required)

Placement Information for Mathematics, Chemistry and Biology Courses

These prerequisites are in effect and will be applied to all students. Students should see their advisor before enrolling in any courses. **A math placement test is required for all students with a Math ACT score of 26 or below or a Math SAT of 610 or below.**

MATHEMATICS

You may satisfy the USP I Math requirement with one of the following: a score of 26 on the mathematics section of the ACT (or a 600 SAT math score); a bypass examination; MA 109 College Algebra; MA 110 Analytic Geometry and Trigonometry; MA 111 Introduction to Contemporary Mathematics; or any calculus course. The chart below will help determine the math course for which you are eligible.

If your ACT Math Score is:

Less than or equal to 18 (Math SAT: less than or equal to 450)	COMPASS math placement test required	Enrollment permitted in MA 108R (enrollment in MA 109, MA 111, MA 112 barred)
	and Appropriate score achieved on COMPASS math placement test	Enrollment permitted in MA 111
19-20 (Math SAT: 460-500)	Math placement test required	Enrollment permitted in MA 108R, MA 111 (enrollment in MA 109, MA 112 barred)
	and Appropriate score achieved on math placement test	Enrollment permitted in MA 109, MA 110, MA 112
21-22 (Math SAT: 510-530)	Math placement test required	Enrollment permitted in MA 109, MA 111, MA 112 (enrollment in MA 110 barred)
	and Appropriate score achieved on math placement test	Enrollment permitted in MA 110
23-25 (Math SAT: 540-590)	Math placement test required	Enrollment permitted in MA 109, MA 110, MA 111, MA 112 (enrollment in MA 113, MA 123 barred)
	and Appropriate score achieved on math placement test	Enrollment permitted in MA 113, MA 123
26 (Math SAT: 600-610)	Math placement test required	Enrollment permitted in MA 109, MA 110, MA 111, MA 112, MA 123 (enrollment in MA 113 barred)
	and Appropriate score achieved on math placement test	Enrollment permitted in MA 113
27 or greater (Math SAT: 620 or greater)	Math placement not required	Enrollment permitted in MA 113, MA 123

CHEMISTRY 105

Proficiency in chemistry and biology are options in the disciplinary requirements of the University Studies Program. If you plan to major in science, nursing, engineering, or a health profession, chemistry and biology may be important parts of your first year at UK. A strong math background is essential for success in chemistry, and a strong chemistry background is essential for success in biology. The chart below can help you determine what level of science you're eligible to take.

***If your ACT Math Score is:**

Less than or equal to 22 (Math SAT: less than or equal to 520)	and Appropriate score on math placement test not achieved and MA 109 or MA 110 not completed	Enrollment in CHE 105 barred
	or Appropriate score on math placement test achieved and enrollment permitted in MA 123	Enrollment permitted in CHE 105
	or MA 109 or MA 110 completed with passing grade	Enrollment permitted in CHE 105
23 or greater (Math SAT: 540 or greater)		Enrollment permitted in CHE 105

BIOLOGY 150, 152

If your ACT Math Score is:

Less than or equal to 25 (Math SAT: less than or equal to 580)	and CHE 105 not completed	Enrollment in BIO 150 and BIO 152 barred
	or Math placement exam placed in MA 113 or MA 123 and CHE 105 taken concurrently	Enrollment permitted in BIO 150 or BIO 152
	or CHE 105 completed with a passing grade	Enrollment permitted in BIO 150 or BIO 152
26 or greater (Math SAT: 600 or greater)	and CHE 105 taken concurrently	Enrollment permitted in BIO 150 or BIO 152

University of Kentucky Policy Guide for Advanced Placement

<u>AP Test</u>	<u>Score</u>	<u>Credit Awarded</u>	<u>Credit Statement</u>
Art History	3 - 5	A-H 106	3 credit hours for A-H 106 with a grade of CR.
Art Studio (Drawing)	3 - 5	A-S 102	3 credit hours for A-S 102 with a grade of CR.
Art Studio (2-D Design)	3 - 5	A-S 102	3 credit hours for A-S 102 with a grade of CR.
Art Studio (3-D Design)	3 - 5	A-S 103	4 credit hours for A-S 103 with a grade of CR.
Biology	3 4 or 5	BIO 102, 103 BIO 150, 152 BIO 151, 153	3 credit hours each for BIO 102, 103 with a grade of CR. 3 credit hours each for BIO 150, 152 with a grade of CR. 2 credit hours each for BIO 151, 153 with a grade of CR.
Calculus AB	3 - 5	MA 113	4 credit hours for MA 113 with a grade of CR.
Calculus BC	3 - 5	MA 113, 114	4 credit hours each for MA 113, 114 with a grade of CR.
Chemistry	3 - 5	CHE 105, 107, 111	3 credit hours each for CHE 105, 107 and 1 credit hour for CHE 111 with a grade of CR.
Chinese Language and Culture	3 4 5	CHI 201 CHI 202 CHI 301	4 credit hours for CHI 201 with a grade of CR. 4 credit hours for CHI 202 with a grade of CR. 3 credit hours for CHI 301 with a grade of CR.
Computer Science A	3 - 5	CS 115	3 credit hours for CS 115 with a grade of CR.
Computer Science AB	3 - 5	CS 115, 215	3 credit hours for CS 115 and 4 credit hours for CS 215 each with a grade of CR.
Economics (micro)	3 - 5	ECO 201	3 credit hours for ECO 201 with a grade of CR.
Economics (macro)	3 - 5	ECO 202	3 credit hours for ECO 202 with a grade of CR.
English Language/Composition	3 4 - 5	ENG 101 ENG 104	3 credit hours for ENG 101 with a grade of CR. Choose either ENG 102 or ENG 104 (recommended). 4 credit hours for ENG 104 with a grade of CR.
English Literature/Composition	3 - 5	ENG 161	3 credit hours for ENG 161 with a grade of CR. Does not satisfy University Writing Requirement.
Environmental Science	3 - 5	ENS 200	3 credit hours for ENS 200 with a grade of CR.
European History	3 - 5	HIS 104, 105	3 credit hours each for HIS 104, 105 with a grade of CR.
French Language	3 4 or 5	FR 201 FR 201, 202	3 credit hours for FR 201 with a grade of CR. 3 credit hours each for FR 201, 202 with a grade of CR.
French Literature	3 - 5	FR 304	3 credit hours for FR 304 with a grade of CR.
German Language	3 4 or 5	GER 201 GER 201, 202	3 credit hours for GER 201 with a grade of CR. 3 credit hours each for GER 201, 202 with a grade of CR.
Government and Politics, Comparative	3 - 5	PS 210	3 credit hours for PS 210 with a grade of CR.
Government and Politics, U.S.	3 - 5	PS 101	3 credit hours for PS 101 with a grade of CR.
Human Geography	3 - 5	GEO 172	3 credit hours for GEO 172 with a grade of CR.

University of Kentucky Policy Guide for Advanced Placement

<u>AP Test</u>	<u>Score</u>	<u>Credit Awarded</u>	<u>Credit Statement</u>
Japanese Language and Culture	3	JPN 201	3 credit hours for JPN 201 with a grade of CR.
	4	JPN 202	3 credit hours for JPN 202 with a grade of CR.
	5	JPN 301	3 credit hours for JPN 301 with a grade of CR.
Latin Literature	3	CLA 101, 102	4 credit hours each for CLA 101, 102 with a grade of CR.
	4	CLA 201, 202	3 credit hours each for CLA 201, 202 with a grade of CR.
	5	CLA 201, 202, 301	3 credit hours each for CLA 201, 202, 301 with a grade of CR.
Latin – Virgil	3	CLA 101, 102	4 credit hours each for CLA 101, 102 with a grade of CR.
	4	CLA 201, 202	3 credit hours each for CLA 201, 202 with a grade of CR.
	5	CLA 201, 202, 302	3 credit hours each for CLA 201, 202, 302 with a grade of CR.
Music Theory*	3	MUS 174	3 credit hours for MUS 174 (elective only) with a grade of CR.
	4	MUS 171	2 credit hours for MUS 171 with a grade of CR.
	5	MUS 171, 173	2 credit hours each for MUS 171, 173 with a grade of CR.
Music Theory* (with aural subscore)	4	MUS 170	2 credit hours for MUS 170 with a grade of CR.
	5	MUS 170, 172	2 credit hours each for MUS 170, 172 with a grade of CR.
Physics B	3 - 5	PHY 151, 152	3 credit hours each for PHY 151, 152 with a grade of CR. Credit will be replaced with 5 credit hours each for PHY 211, 213 with a grade of CR upon presentation of documentation of appropriate laboratory experience to the Instructional Laboratory Specialist in the Department of Physics and Astronomy.
Physics C** (mechanics)	3 - 5	PHY 231	4 credit hours for PHY 231 with a grade of CR.
Physics C** (electricity and magnetism)	3 - 5	PHY 232	4 credit hours for PHY 232 with a grade of CR.
Psychology	3	PY 110	3 credit hours for PY 110 with a grade of CR.
	4 or 5	PSY 100	4 credit hours for PSY 100 with a grade of CR.
Spanish Language	3	SPA 202	3 credit hours for SPA 202 with a grade of CR.
	4	SPA 210	3 credit hours for SPA 210 with a grade of CR.
	5	SPA 210, 211	3 credit hours each for SPA 210, 211 with a grade of CR.
Spanish Literature	3	SPA 202	3 credit hours for SPA 202 with a grade of CR.
	4	SPA 320	3 credit hours for SPA 320 with a grade of CR.
	5	SPA 320, 322	3 credit hours each for SPA 320, 322 with a grade of CR.
Statistics	3 - 5	STA 291	3 credit hours for STA 291 with a grade of CR.
U.S. History	3 - 5	HIS 108, 109	3 credit hours each for HIS 108, 109 with a grade of CR.
World History	3 - 5	HIS 104, 105	3 credit hours each for HIS 104, 105 with a grade of CR.

*A score of 3 will earn 3 hours elective credit, equivalent to MUS 174. However, this credit will not apply to music theory requirements for a major or minor in music.

Any subscore of 4 or 5 will earn credit towards music theory requirements for a major or minor in music as follows:

– A score of 4 on the written subscore (no aural stimulus) will earn 2 hours credit, equivalent to MUS 171, plus placement into MUS 173.

– A score of 5 on the written subscore will earn 4 hours credit, equivalent to MUS 171 and MUS 173, plus placement into MUS 271.

– A score of 4 on the aural subscore (with aural stimulus) will earn 2 hours credit, equivalent to MUS 170, plus placement into MUS 172.

– A score of 5 on the aural subscore (with aural stimulus) will earn 4 hours credit, equivalent to MUS 170 and MUS 172, plus placement into MUS 270.

** Upon presentation of documentation of appropriate laboratory experience, credit will also be given for the laboratories associated with these courses, PHY 241, 242 respectively.

Academic Requirements

Certain conditions concerning the number and level of courses required, the patterns they must follow, the amount of time to be spent as a full-time student, grades and conduct have been established by the University Senate for all University of Kentucky students who are pursuing a degree. Those which relate to academic requirements are listed below. Others will be found in the University Senate Rules, pertinent portions of which are printed in the booklet *Student Rights and Responsibilities*, which is available to all students through the Dean of Students Office.

STUDENT LOAD

With the exceptions noted below, the maximum load to be carried during any semester by an undergraduate student (including residence and correspondence courses and to courses taken on an audit basis) shall be 19 credit hours.

The maximum allowable load to be carried during any summer term/session for undergraduate students (including residence, correspondence or audit courses) shall be 9 credit hours in the eight-week summer session and 4 credits in the four-week term, but under no circumstances no more than 13 credits during the summer term and summer session.

Students may be enrolled in a maximum of nine credit hours of classes meeting concurrently during an eight week session. For this purpose, a course meeting for a four-week period during the eight-week session must be counted double. Thus a student may enroll in two consecutive four-week (three credit hours) classes plus one eight week class, or as many as three eight week (three credit hour) classes. A student would not, however, be able to enroll in two four-week (three credit hour) classes meeting concurrently.

A student may be permitted by the dean of his or her college to carry such extra credit hours as in the dean's judgment, based upon the student's past performance, the student can complete successfully.

A student on academic probation shall take no more than fifteen (15) credit hours in a semester, three (3) credit hours in a four-week term, or seven (7) credit hours in a six- or eight-week session. This rule may be waived by written permission from the student's academic dean or the dean's designee. The waiver and the rationale for the waiver must be documented in the student's record maintained by the college.

Students in the combined Bachelor's/Master's degree program (University Scholars) shall not take more than 16 credit hours per semester. Permission to exceed that number is subject to approval by the Director of Graduate Studies and the Dean of The Graduate School.

The professional colleges and The Graduate School may set lower maximum loads which are consistent with their degree requirements.

The maximum allowable load to be carried during any summer term for graduate students is 9 credit hours in the eight-week summer session and 4 credit hours in the four-week term. The maximum load for graduate students in any combination of the four- and eight-week sessions/terms is 12 credit hours.

A student may be registered simultaneously at the University of Kentucky and at another institution only with the approval of the dean of the college in which the student is registered at the University of Kentucky, the credit hours obtained at the other institution being considered a part of the student's maximum load. If the simultaneous registration has not been authorized, the transfer of credit from the other institution may be denied.

CLASSIFICATION

Any undergraduate student shall be classified by the Registrar as a freshman if less than 30 hours have been completed; as a sophomore upon completion of 30 credit hours; as a junior upon completion of 60 credit hours; and as a senior upon completion of 90 credit hours.

A Law student is classified as a second-year student upon completion of 24 credit hours and as a third-year student upon completion of 53 credit hours. However, a Law student is not classified as a second-year student until that student has been in residence for at least two semesters, nor as a third-year student until that student has been in residence for at least three semesters.

A pharmacy student is classified as a second-year student upon completion of 28 credit hours and as a third-year student upon completion of 56 credit hours.

Credit granted by examination is included in determining a student's classification.

GENERAL GRADING SYSTEM

The general grading system uses a series of letters, to which are assigned grade-point values. The system is based neither on an absolute numerical system nor on a distribution curve, but on the following descriptions:

Grade A represents exceptionally high achievement as a result of aptitude, effort, and intellectual initiative. It is valued at four (4) quality points for each credit hour.

Grade B represents a high achievement as a result of ability and effort. It is valued at three (3) quality points for each credit hour.

Grade C represents satisfactory achievement for undergraduates; represents unsatisfactory achievement for graduate students and is the minimum passing grade for which credit is conferred. It is valued at two (2) quality points for each credit hour.

Grade D represents unsatisfactory achievement for undergraduates and is the minimum grade for which credit is conferred; the grade is not to be used for graduate students. It is valued at one (1) quality point for each credit hour.

Grade E represents unsatisfactory performance and failure in the course. It is valued at zero (0) quality points and zero (0) credit hours. A student receiving this grade can obtain credit in the course only by repeating the entire work of the course in class, or by special examination in accordance with the procedures outlined under Special Examinations. In rare cases in which undue hardship is involved in repeating the work in class, the dean of the college in which the student is enrolled may approve repeating the work by correspondence.

Grade P represents a passing grade in a course taken on a Pass/Fail basis. It may also be assigned by the University Appeals Board in cases involving a violation of student academic rights. Credit hours successfully completed under this grade will count towards graduation but will not be used in calculating grade-point averages.

Grade F represents failure in a course taken on a Pass/Fail basis. It is valued at zero (0) quality points and zero (0) credit hours.

Grade AU represents a completion of a course attended on an audit basis. It is valued at zero (0) quality points and zero (0) credit hours.

Grade CR is a grade assigned to AP or CLEP scores indicating that credit has been assigned for a course. Credit hours will count towards graduation but will not be used in calculating grade-point averages.

Grade I—incomplete—means that part of the regularly assigned work of the course remains undone. It shall be conferred only when there is a reasonable possibility that the student can complete the work within the allowable period of time for removal of an **I** grade and that a passing grade will result from completion of the work. Except under exceptional circumstances, the student shall initiate the request for the **I** grade. An **I** grade shall not be conferred when the student's reason for incompleteness is unsatisfactory to the Instructor of Record.

A grade of **I** must be replaced by a regular final letter grade not later than 12 months from the end of the academic term in which the **I** grade was awarded or prior to the student's graduation, whichever occurs first. The Registrar's Office shall notify the Instructor of Record at least two months prior to expiration of the allowable period. The Instructor of Record can extend the allowable period for up to an additional 12 months by completing a grade assignment form. If the Instructor of Record is not available, the department chair or dean of the college in which the course is offered may complete a grade assignment form to extend the allowable period for up to 12 months. In the event the grade of **I** is not replaced by a regular final letter grade within the allowable period, the Registrar shall change the **I** grade to a grade of **E** on the student's permanent academic record and adjust the student's GPA accordingly. In the event that an **I** becomes an **E**, the Instructor of Record may submit a grade assignment form to replace the **E** within 12 months from the time the **E** was assigned. A graduate who had an **I** grade on his or her academic record at the time of graduation (and which grade was subsequently changed to an **E** by the Registrar) may be allowed a maximum of 12 months following the end of the semester, term or session in which the course was taken to satisfactorily complete the course and receive a grade change.

For each **I** grade assigned, the Instructor of Record shall complete an appropriate file record on a standard form provided by the Registrar, which shall include the following: (a) the name of the student; (b) the course number and hours of credit; (c) semester and year of enrollment; (d) signature of the Instructor of Record; (e) a brief statement of the reason(s) for recording the incomplete; (f) specific instructions on how alternate grades on the work to be completed will affect the final grade; (g) the specific time requirement (not to exceed 12 months) set by the Instructor of Record for removal of the **I** grade and consequences of not removing the **I** grade; and (h) signature of the student, if feasible.

The Instructor of Record shall provide a completed copy of this record to the student and the department chair at the time the **I** grade is reported. The term *student* in this context excludes only students in the Graduate School and the Colleges of Medicine and Dentistry.

Grade IP represents satisfactory work in progress in courses carrying no academic credit. It is valued at zero (0) quality points and zero (0) credit hours. The grade **IP** may be recorded for students in zero-credit courses of research, independent work, or seminar-type, if at the end of a semester the student, because of the nature or size of the project, has been unable to complete the course. The project must be substantially continuous in its progress. When the work is completed, a final grade will be substituted for the **IP**. This grade may not be conferred to a student who has done unsatisfactory work or to one who has failed to do a reasonable amount of work.

Grade N represents a temporary grade to be submitted for students who have been entered by the Registrar into official class rolls but have never attended class and who have not officially withdrawn. The Registrar shall remove their names from the official class roll and the student's enrollment in the class shall not be recorded in the student's official academic record. (As a temporary mark, **N** carries no credit hours or quality points).

Grade S represents a final grade in courses carrying no academic credit or in courses used for residency credit or dissertation/thesis credit. It is valued at zero (0) quality points.

Grade SI represents an interim grade in credit-bearing seminars, independent work courses, or research courses if these courses extend beyond the normal limits of a semester or summer term. All **SI** grades must be replaced by a regular final letter grade prior to the Qualifying Examination or Final Examination for doctoral students or prior to graduation in all other cases. As a temporary mark, **SI** carries no credit hours or quality points.

Grade UN represents a final grade in courses carrying no academic credit, in graduate residence courses, or as an interim grade in specific types of courses for which a student has done unsatisfactory work or has failed to do a reasonable amount of work. It is valued at zero (0) quality points and zero (0) credit hours.

Grade XE represents failure in a course due to an academic offense. It is valued at zero (0) quality points and zero (0) credit hours. The repeat option may not be exercised for any course in which the grade of **XE** was received. A grade of **XE** normally may not be changed to a **W** by retroactive withdrawal, except upon appeal to the University Appeals Board as prescribed by University Senate Rules.

Grade XF represents failure in a course taken on a Pass/Fail basis due to an academic offense. It is valued at zero (0) quality points and zero (0) credit hours. The repeat option may not be exercised for any course in which the grade of **XF** was received. A grade of **XF** may not be changed to a **W** by retroactive withdrawal, except upon appeal to the University Appeals Board as prescribed by University Senate Rules.

Grade W denotes withdrawal from class. It may be assigned by the University Appeals Board in cases involving a violation of student academic rights. It is valued at zero (0) quality points and zero (0) credit hours.

Grade X. Reenrollment recommended (developmental courses only). It has no value in computing grade point average.

Official Withdrawal from a Course: Any student may withdraw from any class (except for those used to meet the Writing Requirement) during the withdrawal period which is defined as the period prior to and including the:

- a. end of the eleventh week for fall or spring semester;
- b. third day of the fifth week for eight-week summer session/term;
- c. second day of the third week for four-week summer session/term.

Students who withdraw during the first three (3) weeks of the course in the fall or spring semester (or a proportionate amount of time in the summer term/session or other courses of less than a full semester's duration) shall be removed from the class roll, and no grade or record of enrollment shall appear on the student's transcript. Such withdrawal is also known as "dropping a course." Students who withdraw during the remaining portion of the withdrawal period will receive a grade of **W** which will appear on their transcripts.

A student may withdraw from a class or from the University during the latter half of the semester/session/term upon approval by the dean of the student's college of a petition certifying urgent nonacademic reasons including but not limited to: illness or injury of the student; serious personal or family problems; serious financial difficulties; or having excused absences in excess of one-fifth of the class contact hours in a course where attendance is required or is a criterion for a grade.

Before acting on such a petition, the dean will consult with the Instructor of Record of the class. The dean may not delegate the authority to approve or deny a petition to withdraw to the University Registrar or to any other agency external to his or her college. If such a petition is approved by the dean of the student's college, the dean shall inform in writing the Instructor of Record of the class of his/her action, and the student shall be assigned a grade of **W**.

Unilateral removal for failure to attend first two class periods. Students who miss the first two class periods of a course without notifying the department of their intention to attend may be reported by the department to the dean who shall remove the students from the class roll and notify the Registrar. The Registrar will inform such students that they have been removed. The students will have no record of the class appear on their transcripts.

Withdrawal to Enter Military Service: Students who withdraw (and within ten (10) days enter the Armed Services either mandatorily or voluntarily) after completing the twelfth week of the semester, the third week of the four week summer term, or the sixth week of the 8 week summer session, or later, shall be entitled to receive full credit and residence for the course. The grade report shall be that attained in the course up to the time of withdrawal. If, with the credit and residence time granted, the student has fulfilled all requirements for a degree, the student shall be recommended for that degree by the University Senate. If a comprehensive course examination is required for graduation, this requirement shall be waived.

Retroactive Withdrawal: Typically, a student may withdraw from a given semester only if the withdrawal is from all classes. A grade of **E**, **XE**, or **XF** assigned as a result of an academic offense may be changed to a **W** only by a petition to the University Appeals Board and only after a retroactive withdrawal for the semester in which the grade was assigned is granted. The student must demonstrate that the hardships enumerated in the request for the Retroactive Withdrawal also resulted in the academic offense in a manner that the student's culpability was severely diminished as a result.

Requests for retroactive withdrawals shall be made of the Dean of the college in which the student was enrolled at the time the classes were taken. The complete request shall be made before the student has graduated and no later than two calendar years from the last day of class for the semester for which the withdrawal is requested. This fully complete request shall be submitted using the University Senate Retroactive Withdrawal Application that includes a form on which an instructor can offer feedback, along with the documentation required by the University Senate as described on that form. Retroactive withdrawals may be granted only when the student has demonstrated satisfactory evidence that the student has incurred: (a) a serious injury or illness; (b) serious personal or family problems; (c) serious financial difficulties; or (d) permanent disability verified by the Disability Resource Center and diagnosed after the semester for which the withdrawal is requested.

Audit. Students who register for an audit do so for reasons other than fulfilling explicit requirements. They must come to individual agreements with the instructor as to what responsibilities they will be expected to perform. Normally, students who audit would be expected to do the readings and attend class; they may be required to enter more fully into the class work. In any case, they will receive no credit hours or grades. Any change from audit to credit or credit to audit by a student regularly enrolled in a college must be accomplished within three (3) weeks from the beginning of classes in the fall or spring semester (or a proportionate amount of time in the summer term/session or other courses of less than a full semester's duration). No credit can be conferred for a class audited nor is a student permitted to take an examination for credit except for the special examinations described on pages 70-71 under Special Examinations. A student who initially enrolls in a class as an auditor must attend at least 80 percent of the classes in the course (excluding excused absences). If a student changes her or his enrollment from credit to audit, s/he must attend at least 80 percent of the remaining classes (excluding excused absences). If an auditor fails to attend the requisite number of classes, the Instructor of Record may request that the Dean of the instructor's college award a grade of **W** for that course and the Dean shall report the grade to the Registrar. No instructor is authorized to admit anyone as an auditor to any classes unless the auditor has registered as such.

Repeat Option

An undergraduate student has the option to repeat once as many as three different completed courses (including special exams as described on pages 70-71) with only the grade, credit hours, and quality points for the second completion used in computing the student's academic standing and credit for graduation. The limit of three repeat options holds for a student's entire undergraduate career (including when academic bankruptcy is exercised as described on page 72), no matter how many degrees or programs are attempted. A student may not use the repeat option when retaking a course on a Pass/Fail basis if the course was originally taken for a letter grade.

A student may exercise a repeat option using a correspondence course taken at the University of Kentucky (UK). For students previously matriculated at UK but who are now enrolled solely in UK correspondence courses, the repeat option may be applied for and approved by the Dean of University Extension, in coordination with the student's prior UK college. For students whose sole UK enrollments have been in UK correspondence course work, the repeat option may be applied for and administered through the Dean of University Extension.

A student exercising the repeat option must consult the student's advisor and must notify the Office of the Registrar. A student may exercise the repeat option at any time prior to graduation and must be enrolled at UK.

If a student officially withdraws from the second attempt, then the grade, credit hours, and quality points for the first completion constitute the grade in that course for official purposes. Permission to attempt again the same course may only be granted by the Instructor of Record and the dean of the college in which the student is enrolled. (**Note:** The repeat option cannot be used to raise the student's standing for admission to the University of Kentucky Graduate School.)

The repeat option may be exercised only the second time a student takes a course for a letter grade, not a subsequent time (excluding audits).

The repeat option shall not be exercised for any course in which the grade of **XE** or **XF** was received.

Pass/Fail Option

Undergraduate students above the freshman level and not on academic probation may select a maximum of four (4) elective courses, with certain restrictions, to be taken on a Pass/Fail basis. Students in the Honors Program above the freshman level may, with advance written approval of the Director of the Honors Program, select additional elective courses to be taken on a Pass/Fail basis. Credit hours successfully completed under this option shall count toward graduation but shall not be used in calculating GPA.

Courses taken on a Pass/Fail basis (including transfer courses) shall be limited to those considered as elective in the student's program and such other courses or types of courses as might be specifically approved by the Senate Council for a college or department. Prerequisites for such courses may be waived with the consent of the Instructor of Record. Students are expected to participate fully in the course and take all examinations. Students may change their grading option (Pass/Fail to letter grade or letter grade to Pass/Fail; credit to audit or audit to credit within three (3) weeks from the beginning of classes in the fall or spring semester (or a proportionate amount of time in the summer term/session or other courses of less than a full semester's duration). After such time, a student may not change his or her grading option without the written approval of the student's academic dean or the dean's designee. The waiver and the rationale for the waiver must be documented in the student's record maintained by the college.

Courses offered only on a Pass/Fail basis shall not be included in the maximum number of elective courses which a student may take under these provisions.

The Instructor of Record shall not be notified by the Registrar's Office or by another office of the University of those students who are taking the course Pass/Fail. The Instructor of Record shall submit a regular letter grade

Academic Requirements

to the Registrar's Office which will take the appropriate action to change the grade into Pass/Fail grading track for records. Neither a grade of **P** nor a grade of **F** shall be taken into consideration in calculating a student's GPA, except as described in Senate Rule 5.1.2.1.

Giving a **P/F** credit for AP tests and for CLEP tests does not mean that students may elect to take a required course for **P/F**. If the student elects to take the course he or she must get a letter grade to satisfy the USP requirements.

Temporary Notations

Course in Progress. Three dashes (---) appear in a grade report prepared during the term in which the student is enrolled in the course. It is to be replaced by a final grade. The Registrar shall notify all unit or program heads at the end of each semester regarding "Course in Progress" notations (---) in all courses offered by that unit or program. The unit or program head shall have six weeks from the date of notification by the Registrar to assign a grade in the course. If no change is made by the unit or program head, the "Course in Progress" notation (---) will be replaced with a "Missing Grade" notation (***)

Missing Grades. Three asterisks (***) appear in a grade report when no grade has been reported to the Registrar. The Registrar shall notify all unit or program heads at the end of each semester or term regarding all "Missing Grade" notations (***) in all courses offered by that unit or program. If a missing grade notation can be replaced with a grade, it should be done as promptly as possible.

Procedures for Changing Temporary Notations. The unit or program head will consult, if possible, with the Instructor of Record for the course when assigning a grade. The Registrar shall notify the student at the student's address of record of any assignment of a grade. Appeals shall be taken to the Academic Ombud.

Grade Point Average (GPA)

GPA is the ratio of the number of quality points gained to the number of credit hours (whether earned or not) in courses for which the grades **A**, **B**, **C**, **D**, or **E** were conferred, excluding grades in developmental or remedial courses.

If a student repeats a course in which a grade of **B** or better has been received, any subsequent grades of **B** or better and credit hours earned for those courses (if any) shall be ignored in computing the student's grade-point average, unless the repeat option has been exercised according to Rule 5.3.1.1. A student does not repeat a course within the meaning of this rule if he or she only repeats the same course number where there are multiple topics, subtitles, independent study, or other courses allowed by the student's program using a common course number.

Credit hours are considered as earned only if a grade of **A**, **B**, **C**, **D**, **P**, or **S** was conferred.

EXCEPTIONS TO THE GRADING SYSTEM

College of Law

The College of Law uses a special letter grading system in which the following grades are conferred with the respective quality point values indicated:

A+ 4.3	B+ 3.3	C+ 2.3	D+ 1.3	E 0
A 4.0	B 3.0	C 2.0	D 1.0	
A- 3.7	B- 2.7	C- 1.7	D- 0.7	

A student's academic grade record is expressed as a grade-point average computed by multiplying the semester hours of credit for each course by the quality point value of the grade received in the course. These products are added together, and the sum is divided by the total semester hours attempted. The grade-point average thus derived is the basis for each

student's academic status as indicated in the published rules and policies of the College of Law Faculty.

Selected College of Law courses are graded on a pass/fail basis, and law students enrolled in courses offered by The Graduate School for which the College of Law grants credit toward graduation are treated by the College of Law as pass/fail courses. A failing grade (**F**) in any pass/fail course in the College of Law or any graduate school course in which a student in the College of Law enrolls for credit toward graduation from the College of Law will be taken into account at a quality point value of zero (0) in computing the student's grade-point average.

Pass/Fail Policy for College of Law

Students in the College of Law are bound by the following:

- No more than six hours of graduate courses outside of the College of Law, graded on a pass/fail basis, shall be counted.
- No more than six hours of courses in the College of Law that are offered only on a pass/fail basis shall be counted.
- No more than nine of the total number of pass/fail credit hours, whether earned for graduate school courses under (a) or for College of Law courses offered only on a pass/fail basis under (b), shall be counted.
- No more than one graduate school course outside the College of Law, graded on a pass/fail basis, may be credited in any one semester.

Students in joint degree programs may only take up to six pass/fail course credit hours in the law school courses and may take no courses outside the College of Law for credit toward the J.D. other than pursuant to the applicable joint degree program.

College of Dentistry

An **A**, **B+** or a **B** is within the expected range of performance. A **C** is a marginal level of performance. To remain in good academic standing and to graduate, a student must maintain a grade-point average (GPA) of 2.75 or more. Student performance will be reported to the University Registrar's Office as follows:

A represents exceptionally high level of performance; four (4) quality points are awarded to each credit hour.

B+ represents a high level of performance; three and one-half (3.5) quality points are awarded for each credit hour.

B represents the minimum expected level of performance; three (3) quality points are awarded for each credit hour.

C represents a marginal level of performance; two (2) quality points are awarded for each credit hour.

E represents an unacceptable level of performance; zero (0) quality points are awarded for each credit hour.

P represents a passing grade in courses taken on a pass/fail basis. It is not used in GPA calculations.

F represents an unacceptable level of performance in courses taught on a pass/fail basis. It is not used in GPA calculations.

I – incomplete – course objectives have not been completed during the allotted course time due to circumstances usually beyond the student's control. An **I** grade shall be conferred only when there is a reasonable possibility that a passing grade will result when work is completed. An **I** must be replaced by another grade within 12 months or before graduation, whichever occurs sooner. After this period, an **I** grade will automatically convert to an **E** or an **F** grade as appropriate.

W – withdrawn – this grade will be awarded to a student who withdraws from a course or from the college. It shall be awarded only after recommendation by the Academic Performance Committee and approval by the dean.

College of Medicine

A represents exceptionally high achievement in performance. It is valued at four (4) quality points for each credit hour.

B represents the expected level of achievement or performance in each course. This grade reflects student competence in all areas of course requirements. It is valued at three (3) quality points for each credit hour.

C represents marginal performance. It is valued at two (2) quality points for each credit hour.

E represents failure and unacceptable performance in a course. It is valued at zero (0) quality points for each credit hour.

P represents a passing grade in a course taken on a Pass/Fail basis. It is not used in quality point calculations.

W denotes withdrawal from the college or from an elective course. **W** must be approved or recommended by the Student Progress and Promotion Committee. Withdrawal from a required course is not permitted, except when a student withdraws from the college. A student may withdraw from an elective and the **W** will remain on the record.

U represents unsatisfactory performance in a specific area of course requirements. It is conferred instead of an **E** grade when evidence exists that the student might earn a passing grade upon completion of make-up work. In the interim the **U** will be valued at one quality point for each credit hour. A **U** grade must be made up before the student can be promoted to the next year of the curriculum. The quality point calculation will then be the average of the **U** and the grade conferred after the make-up.

I represents incomplete work at the time grades are submitted for courses. It is conferred only when there is a reasonable possibility that a grade of **C** or better will be earned upon completion of the work. All **I** grades in required courses must be removed by a passing grade before a student can be promoted to a subsequent year. If a student later withdraws from the college, an outstanding **I** grade can revert to a **W** grade at the discretion of the Student Progress and Promotion Committee.

Design and Landscape Architecture

Students enrolled in courses numbered 800 or higher in the College of Design or the Program in Landscape Architecture in the College of Agriculture shall be conferred the following grades with the respective quality point value indicated:

A 4.0	B+ 3.3	C+ 2.3	D+ 1.3	E 0
A- 3.7	B 3.0	C 2.0	D 1.0	
	B- 2.7	C- 1.7	D- 0.7	

The use of the plus-minus system does not change any college or university GPA requirement, nor the method by which GPAs are computed, nor the interpretations of other grades awarded, such as **F**, **I**, **P**, **W**, and **S**.

All students enrolled in courses using the plus/minus grading system will have the appropriate point value calculated into their GPA regardless of their college of origin.

For all studio work in the School of Architecture, the minimum passing grade from level to level in the studio sequence shall be a grade of **C**.

In the Program in Landscape Architecture, students must earn a **C** grade or better in major design studios in order to advance to the next level in the curriculum.

OTHER REGULATIONS

Definition of a Major

A major is a primary area of study defined by a set of course and/or credit hour requirements within specified disciplines. Within degree programs, majors may be further defined by requirements in an area of emphasis (also known as an “option”).

Undergraduate Major Requirements

Students at the University of Kentucky who have not chosen a major or been admitted to a selective admissions college and who have earned at least 45 credit hours should meet regularly with an advisor who will help the student to choose a major or seek admission to a selective admissions college. Students at the University of Kentucky who have not chosen a major or been admitted to a selective admissions college and who have earned at least 60 credit hours will not be permitted to register for classes, except registration will be permitted for the following students if they have earned no more than 75 credit hours:

1. Students lacking specific courses to gain admission to a college or to declare a particular major who have a written commitment from the college of their choice to accept them upon successful completion of specified courses;
2. Students who have been dropped from a college for academic reasons, or who have been readmitted or transferred to the University of Kentucky.

This rule may be waived by the dean of the college in which the student is currently enrolled or into which the student wishes to transfer or be readmitted.

Language Limitations for Foreign Students

Students whose native language is other than English and who have had formal instruction in schools of their own country shall not be permitted to take elementary, intermediate or conversation courses or examinations for credit in that language.

Late Registration

After the sixth day of classes for a 15-week semester term or a proportionate number of days for shorter terms as determined and published by the Registrar, no student may register for an organized class without written permission from the student’s academic dean (or dean’s designee) and the course instructor. The college in which the course is listed may require additional approval. The waiver and the rationale for the waiver must be documented in the student’s record in the college.

The Registrar may set a later date for final registration in classes that do not start on the first day of a semester or a summer session, or for the registration of a group of students who were not present at the regular registration time.

Participation in Intercollegiate Athletics

The University accepts the eligibility rules for intercollegiate athletics as set up by the Southeastern Conference, National Collegiate Athletics Association, Region II, the Association of Intercollegiate Athletics for Women, and the Kentucky Women’s Intercollegiate Conference.

Attendance and Completion of Assignments

For each course in which the student is enrolled, the student shall be expected to carry out all required work including laboratories and studios, and to take all examinations at the class period designated by the instructor.

Each instructor shall determine the policy regarding completion of assigned work, attendance in class, absences at announced or unannounced examinations, and excused absences in excess of one-fifth of class contact hours. This policy shall be presented in writing to each class at its first or second meeting. Students’ failure to comply with the announced policy may result in appropriate reductions in grade as determined by the Instructor of Record.

Excused Absences

A student shall not be penalized for an excused absence. The following are defined as excused absences:

1. Significant illness of the student or serious illness of a member of the student's household (permanent or campus) or immediate family. The Instructor of Record shall have the right to request appropriate verification.
2. The death of a member of the student's household (permanent or campus) or immediate family. The Instructor of Record shall have the right to request appropriate verification. For the purpose of this rule, immediate family is defined as spouse or child or parent (guardian) or sibling (all of the previous include steps, halves and in-laws of the same relationship); and grandchild or grandparent.
3. Trips for members of student organizations sponsored by an educational unit, trips for University classes, and trips for participation in intercollegiate athletic events, including club sports registered with the university as well as varsity sports. When feasible, the student must notify the Instructor of Record **prior to** the occurrence of such absences, but in no case shall such notification occur more than one week after the absence. Instructors of Record may request formal notification from appropriate University personnel to document the student's participation in such trips.
4. Major Religious Holidays. Students are responsible for notifying the Instructor of Record **in writing** of anticipated absences due to their observance of such holidays no later than the last day for adding a class.
5. Any other circumstance which the Instructor of Record finds reasonable cause for absence.

Students missing any graded work due to an excused absence bear the responsibility of informing the Instructor of Record about their excused absence within one week following the period of the excused absence (except where prior notification is required), and of making up the missed work. The Instructor of Record shall give the student an opportunity to make up the work and/or the exams missed due to an excused absence, and shall do so, if feasible, during the semester in which the absence occurred. The student shall be given the opportunity to make up exams missed due to an excused absence during the semester in which the absence occurred, if feasible. In those instances where the nature of the course is such that classroom participation by the student is essential for evaluation, the instructor shall, if feasible, give the student an opportunity to make up the work missed during the semester in which the absence occurred.

If attendance is required by the class policies elaborated in the syllabus or serves as a criterion for a grade in a course, and if a student has excused absences in excess of one-fifth of the class contact hours for that course, a student shall have the right to petition for a **W**, and the Instructor of Record may require the student to petition for a **W** or take an **I** in the course.

Dead Week

1. The last week of instruction of a regular semester is termed "Dead Week." This term also refers to the last three days of instruction of a summer session and a summer term.
2. In cases of "Take Home" final examinations, students shall not be required to return the completed examination before the regularly scheduled examination period for that course.
3. No written examinations, including final examinations, may be scheduled during Dead Week.
4. No quizzes may be given during Dead Week.
5. No project/lab practical/paper/presentation deadlines or oral/lis-

tening examinations may be scheduled to fall during Dead Week unless it was scheduled in the syllabus AND the course has no final examination (or assignment that acts as a final examination) scheduled during Finals Week. A course with a lab component may schedule the lab practical of the course during Dead Week if the lab portion does not also require a Final Examination during Finals Week.

6. Make-up exams and quizzes are allowed during Dead Week; these are exempt from the restrictions stated in 3, 4, and 5 above.
7. Class participation and attendance grades are permitted during Dead Week.

Final Examinations

If a final examination is given, it is to be administered during the examination period as scheduled by the Registrar for the semesters of the regular school year. These examination periods utilize the last five days of each semester, and are preceded by a study day or weekend on which no classes or examinations are scheduled.

Final examinations, where appropriate, are administered during the last class day of the intersession and the summer session/term.

Final examinations may be given at times other than the regularly schedule times in the following instances:

Faculty: In the case of conflicts or undue hardship for an individual instructor, a final examination may be rescheduled at another time during the final examination period upon the recommendation of the chairperson of the department and with the concurrence of the dean of the college.

Students: Any student with more than two final examinations scheduled on any one date is entitled to have the examination for the class with the highest catalog number rescheduled at another time during the final examination period. In case this highest number is shared by more than one course, the one whose departmental prefix is first alphabetically will be rescheduled. The option to reschedule must be exercised in writing to the appropriate Instructor of Record or his/her designee two weeks prior to the last class meeting.

If a conflict is created by rescheduling of an examination, the student is entitled to take the rescheduled examination at another time during the final examination period. In the case of undue hardship for an individual student, a final examination may be rescheduled by the instructor.

Common Examinations

A student enrolled in a course where a common exam is scheduled may also enroll in a class scheduled in the time slot of the common exam.

If a student has a course scheduled at the same time as a common exam and the student has given written notice of the conflict to the instructor at least two weeks prior to the common exam, the student shall be entitled to an excused absence from the conflicting common examination.

Common Examinations Scheduled for the Same Time

Any student for whom two examinations have been scheduled for the same time shall be entitled to have the examination for the class with the highest catalog number rescheduled. In case both classes have the same number, the one whose departmental prefix is first alphabetically will be rescheduled. The option to reschedule must be exercised in writing to the appropriate instructor two weeks prior to the scheduled exam.

Special Examinations

Any full-time or part-time student enrolled in the University, and in good academic standing, has the right to request a special examination for credit in many courses offered (check with the offering department), regardless of whether the student has audited the course, is currently enrolled in it, or has studied for it independently. Please note, most elementary and intermediate

foreign language courses are not available on the basis of a special examination.

Application for a special examination must be made in writing. (Students should obtain application forms in the Registrar's Office.) Undergraduates should address requests to the chair of the department in which the course is given, or to the office of the educational unit responsible; graduate students, to the director of graduate studies in the department in which the course is given. Approval of requests from undergraduate students rests with the department chairperson; from graduate students, with the Dean of The Graduate School, acting upon recommendation of the director of graduate studies.

The request for special examination may be denied by the department chair or the office of the educational unit responsible, or the Dean of The Graduate School, acting upon recommendation of the director of graduate studies, if it is decided that the student has not furnished evidence that he or she is reasonably prepared to take the examination, or that the course is of such a nature that credit by examination is inappropriate. (The fact that a student has failed the course within the last semester may be regarded as evidence that the student is unprepared to take a special examination.)

The examiner designated by the educational unit may schedule the examination at his or her convenience, but must offer it within a reasonable time after the student has submitted his or her request.

The examiner shall inform the Registrar of the student's grade in the course. A student currently enrolled in the class who successfully completes a special examination will be formally removed from the official roll by the Registrar, unless the student is dissatisfied with the results, in which case he or she may continue in the course and be graded in the usual manner. The examiner then may or may not include the results of the special examination in computing the final grade.

Credit earned by special examination may be counted as residence credit by the dean of the student's college. The limits on maximum loads are waived in cases where the excess is due to special examination credits.

The student, with the educational administrator's consent, may take the special examination on a Pass/Fail basis, including any course not otherwise available under the Pass/Fail option. Credit derived in this manner does not reduce the number of courses permitted under the Pass/Fail rules.

SCHOLASTIC PROBATION, ACADEMIC SUSPENSION AND REINSTATEMENT

General Regulations for Undergraduate Students

Academic Probation and Suspension

The academic probation and suspension standards that are used to determine a student's academic standing University-wide are based on grade-point average.

Individual colleges may establish policies regarding academic probation and suspension with regard to a student's academic standing within the college in addition to the University-wide policies prescribed in Senate Rule 5.3.1. If a college establishes such a policy, the policy must be approved by the University Senate and made available in writing to the students.

A student suspended from a college or program may transfer to another college or program which has a 2.0 grade-point average admission requirement for transfer students, even if the student has a GPA lower than 2.0, provided he or she is not subject to the provisions for suspension from the University. However, the student must meet all other admission criteria established by the college or program. If the student would have been placed on academic probation by the college to which he or she is transferring had he or she been previously enrolled in that college, then the college may place the student on probation at the time of admission.

Academic Probation

Students are placed on probation if:

1. Their cumulative Grade Point Average (GPA) falls below 2.0. Students on probation for this reason who achieve a cumulative 2.0 GPA or higher shall be removed from probation.
2. They have two consecutive UK academic terms with term GPAs below 2.0 regardless of their cumulative GPA. Students who achieve a 2.0 or better in the next term and have a cumulative GPA of 2.0 or higher will be removed from probation.
3. If the student has completed all the academic and procedural requirements for the degree while still maintaining an overall GPA of 2.0 or higher (or the minimum GPA established by a specific college), the degree shall be awarded and the student placed in good standing.
4. The Summer Session and Summer Term are considered two separate academic terms and are subject to the same probation and suspension provisions as Spring and Fall.

Removal from Probation

Except as provided for by specific college probation policy, an undergraduate student may be removed from probation by the dean of the college when the student on scholastic probation has earned 90 semester hours (senior standing), and at the end of a semester or session has a cumulative grade-point standing of 2.0.

Academic Suspension

Students are suspended if:

1. They fail to earn a 2.0 term GPA for any term while on probation;
 2. They have three consecutive UK terms in which their cumulative GPA remains below 2.0;
- or**
3. Their GPA is below 0.6 after their first term, if the semester's GPA is based on at least 9 hours of grades, A, B, C, D, or E.

Notwithstanding the provisions above, in the case of a student eligible for suspension, the dean of the student's college may continue a student on academic probation if the individual case so justifies with notification to the Director of Undergraduate Studies.

General Rules Pertaining to Students Under Academic Suspension

A student academically suspended from the University may not enroll in any courses (including courses taken through the Office of Independent Study) offered by the University nor take any special examination for University credit. Students already enrolled in correspondence course(s) will be allowed to complete the course work upon notification of his/her suspension.

A student academically suspended from the University a second time shall not be readmitted to the University except in unusual circumstances and then only upon recommendation of the dean of the college in which the student plans to enroll and approval of the University Senate Council.

Once reported to the Registrar, an academic suspension may be rescinded by the dean only in the event of an error in the determination of the student's eligibility for suspension, an official grade change that alters the student's suspension eligibility, or exceptional circumstances.

Reinstatement

After they have remained out of the University for at least a semester and a summer session (a semester for students academically suspended at the end of a summer session), students who have been academically suspended may only be reinstated by the dean of the college in which they plan to enroll when they present evidence that they are capable of performing at the level required to prevent being suspended a second time. After being reinstated, students must apply for readmission to the University.

General Rules for Reinstated Students

A student who has been academically suspended shall, upon reinstatement, be placed on scholastic probation and be subject to final academic suspension from the University if:

The student acquires any additional deficit during any semester or session while on academic probation;

The student has failed to meet the requirements for removal from academic probation by the end of the third semester following the reinstatement.

Once reinstated students have been removed from scholastic probation, they will be subject to the same conditions for subsequent academic suspension as students who have not previously been academically suspended.

Readmission After Two or More Years (Academic Bankruptcy)

Undergraduate students who have been readmitted through the usual channels after an interruption of two or more continuous years, and who have completed at least one semester or 12 hours with a GPA of 2.0 or better, beginning with the semester of readmission, may choose to have none of their previous University course work counted toward graduation and in the computation of their GPAs. Enrollment for a semester, when terminated by a withdrawal before completion of the semester (grades all **W**s), in the two years preceding readmission is not an interruption. Under this circumstance, a student **cannot** invoke the academic bankruptcy rule.

In addition, the dean of the student's college may permit such a readmitted student who has elected not to count past work to receive credit for selected courses without including those grades in the computation of the student's GPA (cumulate or otherwise).

Part-time as well as full-time students can take advantage of the academic bankruptcy rule. Students need not have been originally suspended from the University to qualify for this option.

In calculating the 2.0 GPA, a student must have taken all of the 12 hours necessary to apply for bankruptcy for a letter grade. Course numbers ending with a suffix of R, if taken for a letter grade, shall count toward the 12-hour minimum of eligibility for bankruptcy under this rule.

If a student has completed a degree and re-enrolls, he/she may not apply the academic bankruptcy rule to courses taken for the degree already completed.

The Academic Bankruptcy option may be used only once.

SPECIFIC PROBATION AND SUSPENSION POLICIES FOR INDIVIDUAL COLLEGES

College of Design

A student may be placed on probation in the College of Design or suspended from the College of Design, but not necessarily the University, according to the College of Design standards that follow.

A student enrolled in the College of Design who is placed on college probation may continue with studies in the college and university subject to general University regulations concerning academic standing. A student enrolled in the College of Design who is suspended from the college may not take classes offered in the College of Design until reinstated. A student who

is suspended from the College of Design may take classes outside the college subject to general University regulations concerning academic standing.

A grade of **C** or higher is required to advance to the next level of studio in the College of Design. A grade below **C** in an architectural design studio is considered unacceptable for majors in the College of Design. A student who earns a grade below **C** in a design studio will be placed on College probation. This probation will be removed when the student earns a grade of **C** or higher in the same studio.

A student will be suspended from the college for:

1. failing to earn a grade of **C** or higher in a particular architectural design studio for the second time or
2. failing to earn a grade of **C** or higher in a particular design studio in its first or second offering after the semester in which the student earned a grade below **C** in that studio, provided the student remains in the University, except that students are not required to enroll in summer sessions or
3. failing to earn a grade of **C** or higher in any design studio while the student is on University probation for two or more consecutive semesters.

Provision 3 does not apply to first year architectural design students.

College of Design rules on probation and suspension may be waived by the Dean of the College of Design under extraordinary circumstances, with notification to the Faculty.

A student who has been suspended from the College of Design may petition the Dean for reinstatement after a period of no less than 12 months.

College of Engineering

Probation and Academic Suspension

The following rules apply to the College of Engineering.

1. Any engineering student who has completed two or more semesters at UK and who fails to maintain a cumulative UK GPA of 2.0 or higher will be suspended from the College of Engineering and will not be readmitted until this GPA is 2.0 or higher.
2. Any student enrolled in the College of Engineering who earns a UK GPA of less than 2.0 in any semester will be placed on academic probation.
3. Any student on academic probation who fails to earn a 2.0 or higher semester GPA will be suspended from the College of Engineering and will not be readmitted until he or she has obtained a semester GPA of 2.0 or higher for one semester and the student's cumulative UK GPA is 2.0 or higher.
4. Students who are suspended twice from the College of Engineering will not be readmitted.

College of Health Sciences

Probation and Suspension Policy for Professional Program Students

The following standards apply to Health Sciences students in professional programs:

Professional Program Probation

A student will be placed on professional program probation when:

1. the semester grade-point average falls below 2.0 in courses required by the professional program, or
2. a failing grade is earned in any course required by the professional program.

Removal from Professional Program Probation

A student may satisfy the deficiency warranting probation and will be removed from professional program probation when:

1. in the semester following professional program probation, a 2.0 or above semester grade-point average is achieved in courses required by the professional program, and
2. a passing grade is earned in any previously failed courses required by the professional program.

Professional Program Suspension

A student will be suspended from the professional program when:

1. a 2.0 semester grade-point average in courses required by the professional program is not earned either at the end of the probationary semester, or in any subsequent semester, or
2. a course required by the professional program is failed a second time, or
3. two courses required by the professional program are failed, unless alternative action is recommended by the Program Director and approved by the Dean of the College of Health Sciences.

Clinical Laboratory Sciences

The following standards apply to undergraduate students in the Clinical Laboratory Science Professional Program (CLS):

Student Progress

Students admitted to the Clinical Laboratory Sciences (CLS) program may advance into the senior year and/or clinical rotation of the CLS program of study on the condition that each has

1. at least a grade-point average of 2.0 on all course work; and
2. has earned a minimum grade of C (2.0) in every course with the CLS prefix.

Undergraduate Professional Program Probation

Regardless of academic standing in the University, a student shall be placed on probation where the student:

1. earns a semester GPA less than 2.0 in all courses required by the CLS program, or
2. earns a grade less than C (2.0) for any course having the CLS prefix.

Removal from Undergraduate Professional Program Probation

A student will be removed from probation when:

1. in the semester following probation, the student earns a semester GPA of at least 2.0 in courses required by the CLS program, and
2. the student earns at least a grade of C (2.0) in any course with a CLS prefix in which previously the student earned a grade below C.

Undergraduate Professional Program Suspension

A student shall be suspended when the student:

1. earns less than a semester GPA of 2.0 in courses required by the CLS program at the end of the first probationary period or in any subsequent semester, or
2. earns less than a C in a course with a CLS prefix for the second time, or
3. earns less than a C in any two courses required in the CLS Program.

Removal from Undergraduate Professional Program Suspension

A student may be reinstated into the CLS program when the student meets the requirements for readmission as determined by the CLS Admissions and Progression Committee. These requirements will be communicated to the student at the time of suspension.

The Graduate School

When graduate students have completed 12 or more semester hours of graduate course work with an average of less than 3.0, they will be placed on academic probation. Students will have one semester to remove the scholastic probation by attaining a cumulative 3.0 average in graduate course work. If the probation is not removed, the student will be dismissed from The Graduate School.

A student who has been dismissed from The Graduate School for these reasons may reapply for admission to The Graduate School after two semesters or one semester and the eight-week summer term.

Exceptions to this policy can be made only by the Graduate Dean.

With the approval of the Graduate Dean, a student may repeat a graduate course and count only the second grade as part of the graduate grade-point average. This action will be initiated by petition of the Director of Graduate Studies and may be done only once in a particular degree program or in post-baccalaureate status.

PROFESSIONAL COLLEGES

NOTE: All students in the professional colleges are subject to the rights, rules and regulations governing University of Kentucky students in all matters not specifically covered in these rules.

College of Dentistry

The following academic disciplinary policies for students in the professional dental educational program are initiated upon unsatisfactory academic performance.

Academic Probation

Placement on Probation. A student will be placed on probation if he or she has:

- a. a grade-point average (GPA) for the academic year less than 2.75;
- b. received a failing grade (E or F); or,
- c. failed any section of either Part 1 or Part 2 of the National Dental Board Examination.

Terms of Probation. The terms of probation will be established by the Academic Performance Committee (APC). The duration of probation will be at least one semester. Passing a course that has been failed is a condition of all probations. Additional terms of probation may be established by the APC. Students on probation may be ineligible for certain curricular or extracurricular college activities.

If a student has failed the National Dental Board Examination, taking the examination the next time it is offered and passing it shall be among the terms of probation. The terms shall also include required activities to help the student prepare to pass the examination.

Removal from Probation. A student will be removed from probation by the Academic Performance Committee when he or she has at least a cumulative 2.75 GPA, has at least a 2.75 GPA in the current academic year, has passed any failed course, and has satisfied the terms of probation in the judgment of the Academic Performance Committee.

Academic Suspension

Placement on Academic Suspension. The Academic Performance Committee (APC) shall recommend to the Dean that a student be suspended if two conditions exist. The first condition is that the student has:

- a. received two or more failing (**E** or **F**) grades;
- b. received a failing grade (**E** or **F**) while on probation;
- c. failed to meet the terms of probation; **or**,
- d. after the second year of the curriculum, achieved a cumulative GPA of less than 2.75.

The second condition is that, based on the available evidence, the APC has determined that the student is capable of completing the curriculum after receiving counseling and/or completing work outside the College. The committee's recommendation shall include a description of any circumstances the Dean should consider in reaching a decision. It shall also include suggestions on what the student needs to accomplish to be considered for reinstatement.

Second Failure of Any Section of Part 1 of the National Dental Board Examination. If a student fails the National Dental Board Examination a second time, the APC shall recommend to the Dean that the student be suspended. The APC recommendation will include a description of any circumstances the Dean should consider in reaching a decision. It shall also include suggestions on what the student needs to accomplish to be considered for reinstatement.

Review. A student subject to suspension may ask the Dean for a review. Review procedures shall be determined by the Dean.

Reinstatement Following Suspension. A suspended student may not be reinstated before one semester has passed from the date of suspension. When the student demonstrates that he or she can perform at the level required to graduate from the College, the Dean may reinstate him or her. A reinstated student will be placed on probation, subject to terms recommended by the APC and approved by the Dean.

A student who has been suspended because of a second failure of any section of Part 1 of the National Dental Board Examination shall not be readmitted unless she or he takes and passes the examination.

Dismissal

Placement in Dismissal Status. The APC shall recommend to the Dean that a student be dismissed if two conditions exist. The first condition is that the student:

- a. received two or more failing (**E** or **F**) grades;
- b. received a failing grade (**E** or **F**) while on probation;
- c. failed to meet the terms of probation; **or**,
- d. after the second year of the curriculum, achieved a cumulative GPA of less than 2.75.

The second condition is that, based on the available evidence, the APC has determined that the student is not academically capable of completing the curriculum or is otherwise unsuitable for dentistry for reasons that include, but are not limited to: unacceptable personal hygiene, the inability to establish rapport with patients, the inability to work effectively with other health care team members, undependability, or lack of integrity, initiative or interest. The APC recommendation shall include a description of any circumstances the Dean should consider in reaching a decision.

Previously Suspended Students. If a student is subject to suspension and has been previously suspended, the APC shall recommend that she or he be dismissed.

Review. A student subject to dismissal may ask the Dean for a review. Review procedures shall be determined by the Dean.

Reinstatement Following Dismissal. The dismissed student shall not be reinstated.

Promotion

Students will be promoted when they have successfully completed all courses in an academic year.

Methods and Procedures. Promotion of first, second or third year students:

- a. All courses in an academic year must be completed with a grade of **C** or higher (or **P**, in the case of pass/fail courses) before promotion.
- b. Promotion shall usually occur no later than 15 working days after the last day of scheduled classes in each academic year.
- c. If a lack of resources or facilities at the University prevents a student from being able to complete a basic science course requirement prior to the beginning of the next academic year, permission may be granted by the APC, in consultation with the Instructor of Record, to complete an equivalent course either at the University or another accredited institution at a prescribed level of performance.

Graduation

A student shall be eligible for graduation when passing all courses and meeting all of these applicable requirements:

- a. a student has at least a 2.75 cumulative GPA;
- b. a student has passed Parts 1 and 2 of the National Dental Board Examination;
- c. a student has taken and passed a clinical mock board examination;
- d. advanced standing students must complete the curriculum within one year following the time period agreed to at admission;
- e. all terms of probation have been satisfied; and,
- f. all patient responsibilities and other obligations to the College of Dentistry or the University have been satisfied.

College of Law

1. All students in the College of Law must maintain a satisfactory cumulative GPA or be dropped from the college for poor scholarship. Any student who earns a GPA below 1.5 for his or her first semester of law study may be suspended by the Dean on recommendation of the Law Faculty Academic Status Committee for poor scholarship. Any student who fails to earn a 2.0 cumulative grade-point average at the end of the first two semesters will automatically be suspended for poor scholarship. In addition, any student whose cumulative GPA falls below a 2.0 at the end of any subsequent semester will also be suspended from the college.
2. Any student who earns a grade of **E** in a required course must reregister for the course and complete all its requirements thereof. When such a required course is retaken or when a student elects to repeat an elective course in which the student has earned a failing grade, both the initial and subsequent grade will be reflected on the student's record and counted in the computation of class standing, subject to readmission standards below.
3. Any student dropped for poor scholarship may petition the Law Faculty Academic Status Committee for readmission. A recommendation to the Dean for readmission is within the discretion of the Academic Status Committee; however, in most cases, the following policies will guide the Committee: a student suspended after the first semester will be required to petition the full Law Faculty for readmission; in the case of students suspended at the end of the second semester, a student with a cumulative GPA of 1.90

and above will normally be readmitted, a student with a cumulative GPA of 1.70 to 1.89 may be readmitted but will be carefully scrutinized, and a student with a cumulative GPA below 1.70 will normally not be readmitted; any student dropped at the end of the third semester or thereafter will be subject to case-by-case analysis.

4. Any student who is readmitted after being dropped at the end of the second semester and who fails to raise his or her cumulative GPA to 2.0 by the end of the third semester will be readmitted again at that time only if he or she has made material progress toward raising his or her cumulative GPA to 2.0. Material progress at a minimum shall mean obtaining a 2.0 GPA for the semester. Moreover, such a student must raise his or her cumulative GPA to 2.0 by the end of the fourth semester. In addition to the foregoing academic standards for readmission, the Academic Progress Committee may impose additional academic standards in individual cases, and in any case may impose other reasonable conditions of readmission including, but not limited to, limitation of outside work, specification of schedule of study (including specification of particular courses and limitation of hours), and the limitation of extracurricular activities. The Academic Progress Committee with the approval of the full Law Faculty may also require the repetition of courses either with or without substitution of the grades earned in the courses retaken. Failure to comply with the requirements and conditions of readmission will be suspended again from the College of Law, in which case he or she will not be readmitted without approval of the University Senate Council upon the recommendation of the Dean following action by the full Law Faculty. Any student aggrieved at any time by recommendation of the Academic Status Committee may petition the full Law Faculty for review.
5. A student who is required by the Academic Status Committee to repeat 14 or more hours of the freshman curriculum in his or her third and fourth semester will be considered as enrolled in his or her first and second semesters.
6. A student who has once been suspended for poor scholarship and who fails to have a 2.0 cumulative GPA at the end of the semester or summer session in which he or she completes the 90th hour of course work will not be allowed to graduate from the College of Law. Such student will not be allowed to enroll in additional hours of course work in an attempt to achieve a 2.0 cumulative GPA.

Withdrawal and Readmission

1. First-year students are expected to complete their first year of law study without interruption. If a student withdraws from the college and University during his or her first year of law study, readmission is not automatic. If a student withdraws during the first semester of law study, application for readmission will be referred to the Admissions Committee; if a first-year student withdraws during the second semester, application for readmission will be referred to the Academic Status Committee; provided that in either of the above withdrawal situations, the Dean's designee may grant a special leave of absence for the balance of the academic year for reasons relating to extended illness or equivalent distress.
2. After completion of all required first-year courses, a student who withdraws from the College of Law and the University is subject to the rules stated herein regarding readmission after a leave of absence and grades for students who withdraw. To officially withdraw from the College of Law, a student must obtain from Registrar's Office a withdrawal card; this card must be signed by the Dean of the College of Law or the Dean's designee. If a student plans to complete a semester, but not reenroll for the subsequent

semester, he or she must give the Dean's designee written notice of such intention.

3. If a student withdraws from the college and University or does not continue enrollment **and** has complied with paragraph 2 of this rule, the student will routinely be readmitted to the college provided that the student is in good standing and the absence was not longer than two semesters plus one summer term. No student will be readmitted pursuant to this paragraph more than one time.
4. A student who intends to remain away from the college for more than 2 semesters plus one summer term must request permission for a Leave of Absence. These requests are not routinely granted and will be referred to the Academic Status Committee for recommendation to the Dean.
5. Readmission for students who are not entitled to readmission pursuant to paragraphs 1-4 of this rule is not automatic. Applications for such readmission will be referred to the Academic Status Committee for a recommendation to the Dean. The Academic Status Committee may consider all relevant facts and circumstances, including the length of time out of the college and reasons for the absence. The Academic Status Committee and Dean will normally not approve readmission for any student who has been away from the college for six regular semesters. Reasonable conditions, including the repetition of courses for no credit, may be imposed if readmission is approved.
6. A second-year student, a third-year student, or a first-year student with special permission of the Dean's designee may withdraw from any course or seminar within the first half of a semester or summer session. To withdraw from a course or seminar within the first half of a semester or summer session, the student must submit a completed course withdrawal card to the Dean's designee. A student may withdraw from a course or seminar during the last half of a semester or summer session only on a petition certifying reasons relating to extended illness or equivalent distress. This petition must be approved by the instructor and the Dean's designate.

Limitation on Pass/fail Units Creditable for College of Law Students

1. No more than 6 hours of graduate courses outside of the College of Law, graded on a pass/fail basis, shall be counted.
2. No more than 6 hours of courses in the law school that are offered only on a pass/fail basis shall be counted.
3. No more than 9 of the total number of pass/fail credit hours, whether earned under 1. (above) or under 2. (above) shall be counted.
4. No more than one graduate course outside the College of Law, graded on a pass/fail basis, may be credited in any one semester.

Students in joint degree programs may only take up to six pass/fail course credit hours in the College of Law courses and may take no courses outside the College of Law for credit toward the J.D. other than pursuant to the applicable joint degree program.

College of Pharmacy

Academic Performance, Progress and Guidelines

The Academic Performance Committees (APC) are charged with monitoring students' progress through the curriculum. The Committees regularly review (during and at the end of each semester) the performance of each student based on course grades and on written comments on each student's performance, both of which are shared with the student and are part of the student record. The APC for students in a particular year will consist of the

course directors and laboratory instructors for that academic year plus a standing core of faculty. The APC will recommend an action appropriate to the particular student standing and record, i.e., proceed to the next series of courses, promotion to the next year, graduation, probation, probation with remedial action, removal from probation, academic leave, suspension, dismissal, or other action. Recommendations for graduation are made through the dean for approval by the Faculty. All other recommendations are to the Dean. Students must be promoted to subsequent year standing by action of the APC. Promotion is not automatic, but must be earned based on appropriate performance and satisfactory completion of course work. The APC may also recommend other remedies including but not limited to adjustment of academic load, repetition of curriculum segments and participation in counseling sessions. Although the APC considers the overall record of the student in making decisions, the APC will rely heavily on the following:

All students must maintain a minimum Pharmacy GPA of 2.0 and earn a minimum grade of **C** in each course taken during the time they are students in the College of Pharmacy. This includes all course work, including PHR and non-PHR electives, which comprise the first through fourth professional years of the Pharmacy program.

Further:

1. Any student with a GPA less than 2.0 in a single semester or with a cumulative GPA less than 2.0 will be placed on probation or may be suspended from the College.
2. Students who fail to earn a minimum of **C** in any one course may be placed on probation. The APC will determine the level of remediation required.
3. Students who fail to earn a minimum grade of **C** in two courses will be placed on probation and remediation may be required. The APC will determine the level of remediation required.
4. Students who fail to earn a minimum of **C** in three or more courses will be suspended from the College of Pharmacy, regardless of GPA.
5. A failure in a pass/fail course will be considered a grade less the **C**.
6. Students who satisfactorily complete the remediation requirements for probation will be removed from probation.
7. Students who are on probation and fail to meet the requirements for remediation or fail to meet the requirements needed to remove them from probation.
8. Students eligible for probation on a second occasion may be suspended from the College.

Probation

Students who are on academic probation may not be allowed:

1. To serve as officers or committee members in any campus organization.
2. To participate in any University extracurricular activities or in the activities of any University organization if the participation involves the expenditures of any appreciable amount of time.
3. To be employed by the University.

Students on probation may have a restricted academic schedule as dictated by the APC. Students placed on probation must meet the requirements dictated by the APC before being removed from probation.

Suspension

Students suspended from the college may petition the APC for reconsideration of their case and for permission to re-take College of Pharmacy courses to correct their academic deficiencies. That permission may or may not be granted by the APC. If a student is allowed to re-take required College of Pharmacy courses, and the academic deficiencies have been satisfactorily addressed, these students may re-enter the College of Pharmacy but will do so on probation status. If the student is judged after 2 semesters to be performing satisfactorily by the APC while taking normal academic course loads, their probation status may be removed by the College Faculty.

Special Considerations

1. Because of the demands of the Doctor of Pharmacy curriculum upon acceptance to the program of study students are expected to devote their energies to the academic program. The college actively discourages employment while courses are in session and cannot take outside employment or activities into account when scheduling classes, examinations, reviews, field trips or individual course functions or special projects.
2. Due to curricular requirements course functions and/or examinations outside the normal Monday through Friday, 8 A.M. to 5 P.M. business hours time frame will occur.
3. Clinical responsibilities include evening and weekend work.
4. All College of Pharmacy students are subject to the rights, rules and regulations governing University students in all matters not specifically covered in College of Pharmacy documents.

All Undergraduate and Professional Colleges

Each student has access to rules that deal with scholastic probation, academic suspension, and reinstatement through the printed class schedule, this Bulletin, and *Student Rights and Responsibilities*.

Graduation Requirements

GRADUATION REQUIREMENTS

To be eligible for any degree, a student must have completed the requirements as approved by the University Senate, except that curriculum substitutions may be made by the college affected if not inconsistent with these rules. Curriculum requirements must include, in addition to specified credits, a specified grade-point average both overall and in the student's major which may in no case be less than 2.0. Every baccalaureate degree program must include four divisions or components: (1) University Studies, (2) premajor or preprofessional, (3) general college requirements (if any), (4) major or professional, and (5) free electives.

To be eligible for an undergraduate degree, a student must file an application with the dean of the college from which the undergraduate degree is to be awarded: by November 30 for degrees to be awarded the following May, by February 28 for degrees to be awarded the following August, and by June 30 for degrees to be awarded the following December.

Inference Requirement

Each baccalaureate student must satisfy one of the following:

1. Any calculus course, or
2. STA 200 Statistics: A Force In Human Judgment, **PLUS** PHI 120 Introductory Logic, **OR** PHI 320 Symbolic Logic, or
3. the equivalent of one of the above.

University Writing Requirement

The University requires demonstrated competency in writing. The University Writing Requirement is a two-tiered requirement consisting of (1) the First Year Writing Requirement and (2) the Graduation Writing Requirement.

To complete the **First Year Writing Requirement**, students must complete either:

1. **ENG 104 Writing: An Accelerated Foundational Course.**
Full-time students must enroll in ENG 104 in either the fall or spring semester of their first year. They may drop the course during the first year, but beginning in their third semester, students enrolled in ENG 104 are not allowed to drop the course, and will be required to register for the course each semester until they have completed the First Year Writing Requirement.
2. Score **32** or above on the English component of the ACT; score **700** or above on SAT I Verbal; or score **4** or **5** on the Advance Placement (AP) English Language Exam.

Students who have earned credit for ENG 101 or equivalent, and students with a score of **3** on the AP English Language Exam may select either ENG 102 or ENG 104 (recommended) to complete the First Year Writing Requirement.

Graduation Requirements

The Graduation Writing Requirement establishes the minimum criteria for University of Kentucky undergraduate degrees. Individual majors may have additional writing requirements.

To complete the **Graduation Writing Requirement**, students must:

- Complete the First Year Writing Requirement;
- Attain sophomore status (30+ hours); and
- Complete an approved course or series of courses in the major, **or** complete one writing-intensive course from among the following:

ENG 203 Business Writing
ENG 230 Introduction to Literature
ENG 231 Literature and Genre
ENG 232 Literature and Place
ENG 233 Literature and Identities
ENG 234 Introduction to Women's Literature
ENG 261 Survey of Western Literature from the Greeks
Through the Renaissance
ENG 262 Survey of Western Literature from 1660 to the
Present
ENG 264 Major Black Writers
ENG 270 The Old Testament as Literature
ENG 271 The New Testament as Literature
ENG 281 Introduction to Film

Any other course on the Semester List of Approved Writing-Intensive Courses, published in the *Schedule of Classes*.

Students in some programs complete the Graduation Writing Requirement with courses required in the major. Also, some courses are approved to fulfill this requirement on a semester-by-semester basis. Consult with your advisor about courses that may be used to fulfill the Graduation Writing Requirement. Also, the Writing Initiative Office maintains a list of alternate courses that satisfy the Graduation Writing Requirement. Call (859) 257-4831; or visit the Writing Initiative Web site at: www.uky.edu/UGS/WritingInitiative/ for the most recent list of approved courses.

NOTE: Honors Program students satisfy both the First Year Writing Requirement and the Graduation Writing Requirement through that curriculum.

Change in Program Requirements

When requirements for an undergraduate degree program are changed after a student has enrolled in it, the student has the option of fulfilling either the old or the new requirements.

In fulfilling the old requirements, if a student finds that necessary courses have been eliminated or substantially revised, he or she may substitute other courses with the approval of the dean of the college. In this eventuality, however, the student shall not be forced to comply with the new requirements.

However, if a student interrupts work in the program or the University for more than two semesters, then the dean of the college shall determine which requirements the student shall fulfill.

If the curriculum revision is required by an external accreditation or certification body, and this body submits a written statement to the University that the accreditation of a program or certification of its graduates is in jeopardy unless students fulfill the new requirements, the option of fulfilling the old requirements shall not apply.

When The Graduate School or degree program requirements are changed after a student has begun a course of study, the student shall have the option of fulfilling either the old or new requirements.

If the student elects to fulfill the old requirements but finds that necessary resources (e.g., courses, instruction in particular skills) are no longer available, the student may make reasonable substitutes with the approval of The Graduate School Dean upon recommendation of the Director of Graduate Studies.

In the event that a student interrupts work on a graduate degree (i.e., is not enrolled) for one calendar year or more, The Graduate School Dean shall determine, upon recommendation of the Director of Graduate Studies, whether the old requirements or the new requirements shall apply. In the event a student has not completed the requirements for the graduate degree five years after the effective date of a change in degree requirements, the new requirements shall apply unless determined otherwise by The Graduate School Dean.

The colleges offering professional degrees (Law, Medicine, Dentistry, Pharmacy) reserve the right to change curriculum requirements provided the program change has gone through the University's approval process. Any such change in curriculum, however, shall not result in a longer tenure for students enrolled in the program who are making satisfactory academic progress.

Residence Requirement

Residence – a requirement for a degree which specifies the minimum period during which a student must be registered on the main campus – is intended to provide an adequate contact with the University and its faculty for each student who is awarded a degree.

For an undergraduate degree, regardless of the length of time the student has attended the University, a minimum of 30 of the last 36 credits presented for the degree must be taken from the University. Requests for waiver of this requirement for veterans or other students must be approved by the dean of the student's college.

Courses taken under the Study Abroad and National Exchange Student programs (and for which students pay their tuition to the University of Kentucky) are considered as courses taken at UK for purposes of both the residency requirement and for graduates to be conferred commencement honors at the time of award of their degrees.

Credit by Correspondence and Examination

No more than 30 credit hours of the total required for an undergraduate degree may be gained by correspondence. No more than one-third of the requirements for a major may be gained by correspondence.

No credit will be conferred in The Graduate School or in the professional colleges for courses done by correspondence.

No more than half of the credit toward an undergraduate degree may be earned by any combination of CLEP Examinations, PEP Examinations, PONS courses, Special Departmental Examinations, and Advanced Placement Examinations.

Undergraduate Application for Degrees

To be eligible for an undergraduate degree, a student must file an application with the dean of the college from which the undergraduate degree is to be awarded: by November 30 for degrees to be awarded the following May, by February 28 for degrees to be awarded the following August, and by June 30 for degrees to be awarded the following December.

Commencement Honors

Students who attain a grade-point average of 3.8 or higher for at least three years (90 hours) of work at the University (excepting correspondence study) shall be graduated "Summa Cum Laude."

Students who attain a grade-point average of 3.6 or higher for at least three years (90 hours) of work at the University (excepting correspondence study) shall be graduated "Magna Cum Laude."

Graduation Requirements

Students who attain a grade-point average of 3.4 or higher for at least three years (90 hours) of work at the University (excepting correspondence study) shall be graduated “Cum Laude.”

Students with a minimum of two (60 hours) but less than three years (90 hours) of work at the University will receive the appropriate commencement honors if they attain a grade-point average of 0.2 greater than those specified for three years of residence work.

The bachelor’s degree with honors in a student’s major or a degree with honors from a professional college will be conferred upon a student whom the faculty of the student’s department, or college, in the case of a professional college, and the dean of the student’s college recommend receive the degree. A student may be required to complete work in addition to that required for the bachelor’s or professional degree to receive a degree with honors.

The degree with honors from a professional college is based solely upon work done in the professional college.

All students in the Honors program of the University who do not have a grade-point standing of 3.5 or better but are in the top 10 percent of their college’s class are eligible to graduate in the Honors program if they satisfy the other requirements and have approval of the Honors Program Director.

Work done in the Kentucky Community and Technical College System shall not be counted as work at the University of Kentucky in calculating the grade-point average for honors.

A Double Major

An undergraduate student earns a double major when he or she completes all university, college, and departmental requirements in one department—the Primary Major—and all departmental requirements in a second department—the Secondary Major. If there is a generic relationship, work in the Primary Major may be applicable to the Secondary Major. The student must indicate the double major to the Registrar and to the student records office in his or her college(s). The student must have an advisor in each major. The student who completes the requirements for a double major receives a degree from the college of his or her Primary Major and has the successful completion of the Secondary Major entered on his or her transcript. A Secondary Major may be completed after the degree for the Primary Major has been awarded. A double major does not result in an additional degree.

Concurrent enrollment for degree purposes in more than one graduate program is permitted only with the approval of the student’s graduate advisor(s), Directors of Graduate Studies in the programs, and the Dean of The Graduate School.

Subsequent to the receipt of a doctoral degree, a student is not eligible to receive a master’s degree based on the work which led to the doctorate.

A Second Bachelor’s Degree

A student is eligible to qualify for a second bachelor’s degree in a different major. The student must complete all university, college, and departmental requirements for both degrees. Courses taken towards fulfilling one degree may also count towards fulfilling parallel requirements in the other, but the total credits in the two degree programs must be at least 144 hours. The student may elect to receive the degrees simultaneously, if college and departmental requirements can be met simultaneously.

A Second Master’s Degree

A student may receive two master’s degrees. However, simultaneous enrollment in two or more programs and the granting of two or more master’s degrees at the same time is not permitted, unless approved by the student’s advisors and the Directors of Graduate Studies in the programs.

The University Scholars Program

The University Scholars program enables gifted and highly motivated students to integrate their undergraduate and graduate or professional courses of study into a single, continuous program leading to both a baccalaureate and master’s degree. The admissions requirements for the University Scholars program and the curricular requirements are outlined in the *Special Academic Programs* section of this Bulletin.

Academic Minors

Many departments have designed academic minors for the convenience of undergraduate students. A minor is a structured group of courses that leads to considerable knowledge and understanding of a subject, although with less depth than a major. Some employers consider minors desirable, and the corresponding major requirements at the University may stipulate a minor. Some students choose to complement their major program with a minor in a related field or even in an entirely different field of interest. The minors that are available are described with the departmental listings and major programs in this Bulletin. Students interested in pursuing an academic minor should contact their college dean’s office and the department responsible for the minor program for guidance and advising. Please note that undergraduate students can only complete a minor *in addition to* and as a *complement to* a major. The University does not award stand-alone minors.

Interdisciplinary Programs

The College of Arts and Sciences offers students the opportunity to pursue studies in programs that are administered jointly by several departments within the College. Students may choose from several majors and/or minors or create a self-designed program that fulfills their individual educational requirements.

African American Studies

The African American Studies program seeks to promote the interest and knowledge of the African diaspora experience through quality teaching and research. Multidisciplinary in scope, African American Studies offers a selection of courses in English, history, geography, political science, sociology, philosophy, religion, and language. Courses affiliated with the Program are listed each fall and spring semester in the University *Schedule of Classes* under the AAS prefix.

African American Studies Minor

By completing 21 hours of course work students can earn a minor in African American Studies. This minor offers a cultural, historical, and literary base that can strengthen any major in the Humanities or the Social Sciences. For additional information on the minor, see the listing under the College of Arts and Sciences on page 152.

Visit the African American Studies Web site at: www.uky.edu/AS/AASRP/

American Studies

American studies draws together diverse disciplines to examine the historical and contemporary forms and issues of our national life. The program in American Studies takes as its field of study any peoples, cultural expressions and social institutions, however or whenever identified as “American.” Program curricula link faculty, courses, and students across a range of humanities, arts, and social science departments.

American Studies Minor

The minor centers on two interdisciplinary seminars on selected topics in American studies. Students electing the minor are also encouraged to take a range of elective courses to complement their major. The minor in American Studies prepares students for further graduate or professional training, or for work in education, government, or business. For additional information on the minor, see the listing under the College of Arts and Sciences on page 152.

Visit the American Studies Web site at: www.uky.edu/AS/AmericanCulture/.

Appalachian Studies

The Appalachian Studies minor offers students with serious interests in Appalachian regional studies an opportunity to pursue a minor concentration to complement a major in one of the University’s professional or liberal arts programs. This interdisciplinary program enables students to comprehend more fully the history, social structure, and culture of the region – its people, its problems, and its future. The Appalachian Studies Program Director serves as faculty advisor to undergraduate minors and as faculty sponsor of the Appalachian Student Council, an organization for students with an interest in or ties to the Appalachian region.

Faculty and students interested in Appalachian Studies work in cooperation with the Appalachian Center, which was created in 1977, to fulfill the University’s research and service missions in this region. For additional information on the minor, see the listing under the College of Arts and Sciences on pages 152-153

For more information, contact Dr. Ron Pen, (859) 257-8183; or e-mail: ron.pen@uky.edu. Visit the Appalachian Studies Web site at: www.research.uky.edu/appalcenter/.

Cognitive Science

Cognitive Science is an interdisciplinary field of study focusing on the mind as an intelligent (information-processing) system. Arising from Noam Chomsky’s seminal criticisms of Behaviorism in the 1950s, Cognitive Science has come to include such disparate disciplines as linguistics, computer science (artificial intelligence, knowledge representation, theory of computation and computational complexity, algorithms), psychology (concepts; memory; reasoning; developmental and cognitive psychology), biology (evolutionary theory, neurobiology), anatomy, neuroscience, the behavioral sciences, and philosophy (language, mind, and logic). The Cognitive Science program at UK offers an undergraduate minor, enabling students to study the mind in an interdisciplinary way. For additional information about the minor, see the listing under the College of Arts and Sciences on page 153.

For more information, visit the Cognitive Science Web site at: www.as.uky.edu/interProg/CogSci/; or contact Professor David Westneat, 101 Morgan Biological Sciences Building, Department of Biology, (859) 323-9499, biodfw@uky.edu.

Committee on Social Theory

Social theory considers the full range of our social practices, not only the taken-for-grantedness of our social institutions and cultural conditions but also the hidden aspects of our daily lives. Social theory is, as sociologist Charles Lemert puts it, a basic survival skill. It embraces substantive questions about the composition, structure and development of social phenomena, as well as the epistemological conditions that inform our ability to comprehend them. Today, it is one of the most significant and fastest-growing concerns in the humanities and the social sciences. It brings together scholars from a multitude of disciplines in investigations of such topics as the social construction of individuals in contemporary and historical contexts, the nature of the political, the structure of agency, the cultural and economic processes associated with globalization, and the constitution of public space and civil society.

Because many social theoretical issues refuse containment within extant disciplinary demarcations, they are best studied within a multidisciplinary framework. The Committee on Social Theory formed in 1989 to facilitate such theoretical teaching and research projects across disciplinary and college boundaries at the University of Kentucky. The program fosters practical communication through a range of pedagogical and research projects between the humanities and social sciences. The Committee on Social Theory’s events assist faculty and students in testing their own disciplinary understandings and enhancing their own empirical and archival research by building transdisciplinary dialogues. Today, the Committee includes some 50 faculty associates, spanning fourteen departments and five schools, and offers students and faculty an innovative opportunity to pursue social thought in a bracingly interdisciplinary dialogue. Its activities form a unique and exciting environment where students and faculty study the expanding and increasingly important field of social theory and cultural studies.

Visit the Committee on Social Theory Web site at: www.uky.edu/AS/SocTheo/.

Environmental Studies

Environmental considerations permeate almost every facet of modern life, and concern for “the environment” is practically universal as we approach the twenty-first century. The minor in Environmental Studies is designed to provide students with the opportunity to become conversant in a range of environmental topics, whether as private citizens in their daily lives or as professional members of corporate, government, legal, medical, and educational circles.

Environmental Studies Minor

The minor draws on topics and perspectives from the natural and physical sciences, the social sciences, and the humanities to underscore the interdisciplinary nature of environmental issues and problems. Students taking the minor are encouraged to integrate the program with their major study focus in order to gain a competitive advantage in grappling with environmental topics. For additional information on the minor, see the listing under the College of Arts and Sciences on page 153.

Visit the Environmental Studies Web site at: www.as.uky.edu/academics/departments_programs/EnvironmentalStudies/Pages/default.aspx.

Indian Culture

The minor in Indian Culture is designed to allow students to develop a more profound understanding of Indian culture. The curriculum is strongly interdisciplinary, encompassing courses in linguistics, anthropology, English, geography, mathematics, philosophy, political science, and sociology.

Students completing the minor will possess (1) an ability to read Sanskrit (vital for comprehending Indian culture); (2) a well-rounded, multidisciplinary understanding of the culture and geography of India and of contemporary Indian society and politics; and (3) a high degree of preparedness to pursue careers in business or teaching that require knowledge of Indian society and its traditions. For additional information on the minor, see the listing under the College of Arts and Sciences on pages 153-154. For further information, contact Professor Gregory Stump (English and Linguistics), 1253 Patterson Office Tower, (859) 257-1184; Professor Paul Karan (Geography), 1439 Patterson Office Tower, (859) 257-6953; or Professor Avinash Sathaye (Mathematics), 703 Patterson Office Tower, (859) 257-8832.

Islamic Studies

The interdisciplinary minor in Islamic Studies will provide the opportunity to study the culture, language, literature, religion, history and philosophy of Muslim peoples throughout the world from antiquity to the present. Students will acquire a rounded understanding of Islamic culture, the ability to interpret information and news from the Middle East and elsewhere in an independent way, with understanding of the issues from the perspective of the Muslim countries, and will be prepared to pursue careers that require a knowledge of Islamic civilization. For additional information on the minor, see the listing under the College of Arts and Sciences on page 154.

Japan Studies

The Japan Studies program supports a community of Japan area specialists who teach and pursue research in the University’s various departments (geography, history, English, political science, Russian and Eastern studies, sociology) and professional schools (architecture and communications). In addition to teaching and research responsibilities, the faculty lecture to outside groups, write extensively for both scholarly journals and popular media, author books on Japan, and participate in national professional associations. The program responds to and fosters growing American interest (particularly in Kentucky) in Japan.

The emphasis of the program is on social sciences and humanities, including Japanese cultural geography, history, languages and literature, films, society, and environment. In this sense the Japanese Studies program at the University of Kentucky is unique and has been well received nationally as well as by our students as reflected in growing enrollment figures.

Japan Studies Minor

The Japan Studies minor complements existing majors and prepares students with the skills that are required to work with Japan given its integral place in international business. Students will also become well-versed in the culture and geography of Japan, its history, arts, and environment. This background will prepare students for Japan-related careers in the United States and abroad. For additional information on the minor, see the listing under the College of Arts and Sciences on page 154.

Topical Major in Japan Studies

The topical major was created for students whose interests cut across traditional departmental and college lines and who want to be on the “cutting edge” of today’s job market. It allows students to satisfy a niche that could not be fulfilled in any of the college’s traditional departments. For additional information, see the listing on topical majors under the College of Arts and Sciences on pages 111-112.

Visit the Japan Studies Web site at: www.as.uky.edu/Japan/.

Judaic Studies

The interdisciplinary minor in Judaic Studies at the University of Kentucky provides students with the opportunity to become acquainted with the culture, language, literature, religion, history, and philosophy of the Jewish people from antiquity to the present. For additional information on the minor, see the listing under the College of Arts and Sciences on page 154.

Visit the Judaic Studies Web site at: www.uky.edu/AS/JudaicStudies/.

Latin American Studies

Latin American Studies is an interdisciplinary program bringing together scholars in the arts, humanities, social and environmental sciences who wish to understand Latin America as a major world region that continues to contribute unique and original understandings to the global community. By Latin America, we include South America, the Caribbean and North America. We are particularly focused on Latin American peoples, including those residents in the contemporary United States. Latin American Studies scholars celebrate diversity, recognizing the signal contributions of indigenous (first) peoples, African diaspora, European immigrants, women and other diverse communities. As such, Latin American scholars have developed such important intellectual contributions as dependency theory, magical realism, and critiques of ‘ecological neocolonialism’ among others.

Latin American Studies embraces the many missions of the University of Kentucky. We work to provide undergraduate education, study abroad opportunities, graduate and faculty scholarship and enrichment, and to engage the broader Latino community of Kentucky in accordance with the University’s ‘Land Grant’ mission to enrich the lives of all Kentuckians.

Latin American Studies Minor

Through an interdisciplinary approach, students pursuing a minor in Latin American Studies select from courses in anthropology, geography, history, and Spanish language, among others, in order to gain a cultural and geographic understanding of a specific region. Students also conduct senior research and interact heavily with faculty members.

For additional information on Latin American Studies, see the listing under the College of Arts and Sciences on page 154.

Linguistics

Linguistics is an interdisciplinary program combining resources from English, anthropology, psychology, philosophy, computer science, and the foreign languages, to develop an understanding of the nature and implications of human language. The Linguistics program provides solid foundations in phonological and grammatical analysis, as well as opportunities to investigate the social, cultural, psychological, and physical aspects of language use.

Linguistics Major

The Linguistics program offers an undergraduate major that includes courses in linguistics and related courses cross-listed with a variety of departments. Linguistics students frequently graduate with a double major in linguistics and one of the related departments, such as the foreign languages. For additional information on the major, see the listing under the College of Arts and Sciences on pages 135-136.

Linguistics Minor

The Linguistics program also offers an undergraduate minor that includes 18 hours of course work in linguistics and related courses in a variety of departments. As part of the linguistics major or minor, students may elect to complete the sequence of courses focusing on Teaching English as a Second language; this track within linguistics can open up a variety of avenues for English teaching positions in the U.S. and abroad. For additional information on the minor, see the listing under the College of Arts and Sciences on page 136.

Visit the Linguistics Program Web site at: www.as.uky.edu/linguistics/.

A university education truly worth the name must do more than prepare students for a job or a career. It must broaden their understanding of the world, of themselves, of their role in society, and of the ideals and aspirations which have motivated human thought and action throughout the ages. It must help individuals use their acquired knowledge to grow in maturity as they take responsibility for their lives by establishing their own individual goals and developing the habit of lifelong learning.

The broad goals of the University of Kentucky's general education program, called University Studies, make for mature, open, flexible individuals who can adapt to changing situations, learn new skills, and meet unforeseen challenges in their careers. At the same time, University Studies will help students to develop their own sense of values, to pursue their own goals, and to contribute to the political, moral, social, and cultural enrichment of society.

The University Studies Program is separated into ten areas of study: math, foreign language, inference-logic, written communication, oral communication, natural sciences, social sciences, humanities, cross-cultural, and electives.

Students are encouraged to work closely with their advisors in selecting courses that are appropriate for their own needs and aspirations.

USP CREDIT FOR STUDENTS IN THE HONORS PROGRAM: Honors students satisfy the Written Communication – First Year Writing Requirement by passing the first two colloquia in their chosen track. Honors students satisfy the Graduation Writing Requirement by passing the third colloquia in their chosen track. Depending on the track and the course, Honors colloquia may also satisfy additional USP requirements in inference-logic, natural sciences, social sciences, humanities, and USP electives. For more information on using Honors Program course work to satisfy University Studies Program requirements, contact the Honors Program at (859) 257-3111.

NOTE: A course taken to satisfy a requirement in one area of University Studies cannot be used to satisfy a requirement in another, with the exception that one calculus course will satisfy both *I. Math* and *III. Inference-Logic*.

I. MATH

Upon completion of the math requirement, students will be able to: (1) demonstrate skills in use and interpretation of definitions, notations, and formulas that employ words and numbers to represent and solve problems; and (2) use and interpret principles of mathematical reasoning.

To fulfill the math requirement, complete **one** of the following:

- A score of 26 or above on the mathematics section of the ACT, a score of 600 or above on the mathematics section of the SAT, bypass examination, or
- MA 109 College Algebra, or
- MA 110 Analytic Geometry and Trigonometry, or
- MA 111 Introduction to Contemporary Mathematics, or
- any calculus course (MA 113, MA 114, MA 123, MA 132, MA 213, MA 214).

II. FOREIGN LANGUAGE

Upon completion of the foreign language requirement, students will be able to: (1) communicate orally in simple terms using the language; (2) read, write, and translate simple passages in the language; and (3) describe some ways in which language is reflected in the culture in which it is used and also ways in which culture is reflected in its language.

To fulfill the foreign language requirement, complete **one** of the following:

- Two years of a foreign language in secondary school as indicated on transcripts, or
- any two-semester sequence (at least six hours) in a single foreign language at the college level.

III. INFERENCE-LOGIC (with Statistics or Calculus Options)

Upon completion of the inference-logic requirement, students will be able to: (1) draw reasonable inferences from data, observations, and logical premises; (2) evaluate the quality of an argument or solution; and (3) use principles of formal reasoning to solve problems.

To fulfill the inference-logic requirement, complete **one** of the following:

- Any calculus course (MA 113, MA 114, MA 123, MA 132, MA 213, MA 214), or
- STA 200 Statistics: A Force in Human Judgment, PLUS
- PHI 120 Introductory Logic, or PHI 320 Symbolic Logic I.

Note: Students must satisfy the math requirement before enrolling in STA 200.

IV. WRITTEN COMMUNICATION

Upon completion of the written communication requirement, students will be able to communicate ideas effectively through written work for various audiences.

To fulfill the University Studies Program written communication requirement, complete the First Year Writing Requirement (4 credit hours).

The University's writing requirement also has a second component – the Graduation Writing requirement – that is not part of the University Studies Program. See “University Writing Requirement” on pages 77-78 in the *Graduation Requirements* section of this Bulletin for details.

NOTE: Honors Program students satisfy both the First Year Writing Requirement and the Graduation Writing Requirement through that curriculum.

First Year Writing Requirement

Complete **one** of the following:

- ENG 104 Writing: An Accelerated Foundational Course*
- Score of 32 or above on the English component of the ACT; score of 700 or above on SAT I Verbal; or score of 4 or 5 on the AP English Language Exam.

*Full-time students must enroll in ENG 104 in either the fall or spring semester of their first year. They may drop the course during the first year, but beginning in their third semester, students enrolled in ENG 104 are not allowed to drop the course, and will be required to register for the course each semester until they have completed the First Year Writing Requirement.

NOTE: Students who have earned credit for ENG 101 or equivalent, and students with a score of 3 on the AP English Language Exam may select either ENG 102 or ENG 104 (recommended) to complete the First Year Writing Requirement. UK no longer offers ENG 101 but will continue to offer ENG 102 as needed.

V. ORAL COMMUNICATION

Suspension of Oral Communication Requirement

Students who enroll at the University of Kentucky **for the first time** in Fall 2004 through Fall 2009 are not required to complete the Oral Communication Requirement. **Students who enrolled for the first time prior to Fall 2004 must complete the Oral Communication Requirement.**

This suspension applies **only** to University Studies Requirements. Many programs are required by their accreditation to have an oral communication component; students in these programs are still required to fulfill that component.

Upon completion of the oral communication requirement, students will be able to communicate ideas effectively through oral communication for various audiences.

To fulfill the oral communication requirement, complete **one** of the following:

- **one** of the following courses:
 - COM 181 Basic Public Speaking
 - COM 252 Introduction to Interpersonal Communication
 - COM 281 Communication in Small Groups
 - COM 287 Persuasive Speaking
 - TA 225 Vocal Production for the Stage I
- bypass examination, or
- an alternate sequence in the student's major department*

***NOTE:** Some colleges or departments have approved an alternate route for satisfying the oral communication requirement. Discuss with your advisor how you should select courses to complete this requirement.

VI. NATURAL SCIENCES (six hours)

Upon completion of the natural sciences requirement – for each course taken – students will be able to: (1) demonstrate knowledge of major theories and phenomena associated with a field or discipline of natural science; (2) demonstrate an understanding of scientific reasoning; and (3) identify the methods and practices of inquiry associated with theoretical advances in a natural science discipline.

To fulfill the natural sciences requirement, complete **at least six hours** from the following courses:

Biology

BIO 102	Human Ecology
BIO 103	Basic Ideas of Biology
BIO 110	Introduction to Human Biology and Health
BIO 150	Principles of Biology I
BIO 151	Principles of Biology Laboratory I
BIO 152	Principles of Biology II
BIO 153	Principles of Biology Laboratory II
BIO 300	General Entomology
ENT 110	Insect Biology
ENT 300	General Entomology
PLS 104	Plants, Soils, and People: A Global Perspective

Chemistry

CHE 101	Molecular Science for Citizens
CHE 103	Chemistry for Health Professionals
CHE 104	Introductory General Chemistry
CHE 105	General College Chemistry I
CHE 106	Introduction to Inorganic, Organic and Biochemistry
CHE 107	General College Chemistry II
CHE 108	Introduction to Inorganic, Organic and Biochemistry Without Laboratory
CHE 111	Laboratory to Accompany General Chemistry I
CHE 113	Laboratory to Accompany General Chemistry II
CHE 115	General Chemistry Laboratory

Geography

GEO 130	Earth's Physical Environment
---------	------------------------------

Geology

GLY 110	Endangered Planet: An Introduction to Environmental Geology
GLY 120	Sustainable Planet: The Geology of Natural Resources
GLY 130	Dinosaurs and Disasters
GLY 150	Earthquakes and Volcanoes
GLY 160	Geology for Teachers
GLY 170	Blue Planet: Introduction to Oceanography
GLY 210	Habitable Planet: Evolution of the Earth System
GLY 220	Principles of Physical Geology
GLY 223	Introduction to Geology in the Rocky Mountains

Physics and Astronomy

AST 191	The Solar System
AST 192	Stars, Galaxies and the Universe
PHY 151	Introduction to Physics
PHY 152	Introduction to Physics
PHY 170	Black Holes and Time Travel
PHY 211	General Physics
PHY 213	General Physics
PHY 231	General University Physics
PHY 232	General University Physics
PHY 241	General University Physics Laboratory
PHY 242	General University Physics Laboratory

Physics and Geology

PHY 160	Physics and Astronomy for Teachers
GLY 160	Geology for Teachers

VII. SOCIAL SCIENCES (two courses in separate disciplines)

Upon completion of the social sciences requirement – for each course taken – students will be able to: (1) demonstrate knowledge of major theories and phenomena associated with two fields or disciplines of social science; (2) demonstrate an understanding of scientific reasoning; and (3) identify the methods and practices of inquiry associated with theoretical advances in a social science discipline.

To fulfill the social sciences requirement, select **two courses in separate disciplines** from the following courses: *Note that AEC 101 is in the Economics category and CLD 102 and GWS 200 are in the Sociology category.*

Anthropology

ANT 101	Introduction to Anthropology
ANT 241	Origins of Old World Civilization
ANT 242	Origins of New World Civilization

Communication

COM 101	Introduction to Communications
---------	--------------------------------

Economics

AEC 101	The Economics of Food and Agriculture
ECO 101	Contemporary Economic Issues
ECO 201	Principles of Economics I

Family Studies

FAM 252	Introduction to Family Science
FAM 253	Human Sexuality: Development, Behavior and Attitudes

Geography

GEO 152	Regional Geography of the World
GEO 172	Human Geography
GEO 222	Cities of the World
GEO 235	Environmental Management and Policy
GEO 240	Geography and Gender

Political Science

PS 101	American Government
PS 210	Introduction to Comparative Politics
PS 235	World Politics

Psychology

PSY 100	Introduction to Psychology
---------	----------------------------

Public Health

CPH 201	Introduction to Public Health
---------	-------------------------------

Sociology

†SOC 101	Introduction to Sociology
SOC 235	Inequalities in Society
SOC 335	Sociology of Gender
†CLD 102	The Dynamics of Rural Social Life
GWS 200	Introduction to Gender and Women's Studies in the Social Sciences

†Students may not receive credit for both SOC 101 and CLD 102.

VIII. HUMANITIES (six hours)

Upon completion of the humanities requirement – for each course taken – students will be able to: (1) demonstrate knowledge of major developments in Western culture, particularly the interrelationships between historical, aesthetic, and literary perspectives; (2) explain how cultural, historical, and intellectual forces are represented in artistic and literary works from the past and present; and (3) identify the methods and practices of inquiry associated with theoretical advances in a humanities discipline.

To fulfill the humanities requirement, complete **six hours** from the following courses:

Architecture

- ARC 212 History and Theory I: 15th-17th Centuries
ARC 213 History and Theory II: 18th-19th Centuries

Art

- A-H 105 Ancient Through Medieval Art
A-H 106 Renaissance Through Modern Art
A-H 312 Studies in Greek Art (Subtitle required)
A-H 313 Studies in Roman Art (Subtitle required)
A-H 323 Studies in Medieval Art (Subtitle required)
A-H 334 Studies in Renaissance Art (Subtitle required)
A-H 335 Studies in Early Modern Art, 1500-1700 (Subtitle required)
A-H 340 Studies in Art 1840-1914 (Subtitle required)
A-H 341 Studies in 20th Century Art (Subtitle required)
A-H 342 Studies in American Art (Subtitle required)

Chinese Culture and Language

- CHI 321 Introduction to Contemporary Chinese Film

Classics

- CLA 100 Ancient Stories in Modern Films
CLA 135 Greek and Roman Mythology
CLA 210 The Art of Greece and Rome
CLA 261 Literary Masterpieces of Greece and Rome
CLA 331 Gender and Sexuality in Antiquity
CLA 382 Greek and Roman Religion

English

IX. CROSS-CULTURAL (one course)

Upon completion of the cross-cultural requirement, students will be able to: (1) describe some of the major developments in at least one non-Western culture; and (2) demonstrate an understanding of the impact of cultural differences on social interactions.

To fulfill the cross-cultural requirement, complete **one** of the following courses:

A-H 102	Introduction to Asian Art	GEO 333	Geography of East Asia
A-H 103	World Art	GEO 334	Environment, Society and Economy of Japan
A-H 104	Introduction to African Art	GEO 336	Geography of Sub-Saharan Africa
A-H 307	Ancient Near Eastern and Egyptian Art	HIS 206	History of Colonial Latin America, 1492-1810
A-H 308	Studies in African Art (Subtitle required)	HIS 207	History of Modern Latin America, 1810 to Present
A-H 310	Studies in East Asian Art (Subtitle required)	HIS 247	History of Islam and Middle East Peoples, 500-1250 A.D.
AAS 254	History of Sub-Saharan Africa	HIS 248	History of Islam and Middle East Peoples, 1250 to the Present
AAS 263	African and Caribbean Literature and Culture of French Expression in Translation (Subtitle required)	HIS 254	History of Sub-Saharan Africa
AAS 264	Major Black Writers	HIS 295	East Asia to 1800
AAS 328	Geography of the Middle East and North Africa	HIS 296	East Asia Since 1800
AAS 336	Geography of Sub-Saharan Africa	HIS 536	Intellectual and Cultural History of Russia to 1800
AAS 417G	Survey of Sub-Saharan Politics	HIS 548	History of the Middle East: 1453-1920
AAS 431G	Cultures and Societies of Sub-Saharan Africa	HIS 549	History of the Middle East: 1952 to Present

		UK 301	Cross-Cultural Studies (Subtitle required)

X. ELECTIVES (six hours)

With the approval of the advisor, students must complete six hours of electives, three hours of which must be outside the student's major. Some colleges may have additional information on the selection of these electives, so contact your advisor for more information.

COMMUNITY COLLEGE TRANSFER WORK

UK participates in the General Education Transfer Agreement (GETA). Refer to the University *Bulletin* for information on GETA; or, visit the Council on Postsecondary Education Web site at: <http://cpe.ky.gov/policies/academicinit/Transfer/>.

The following courses from the Kentucky Community and Technical College System and Bluegrass Community and Technical College have been approved to apply toward completion of USP discipline requirements:

BIO 104	Animal Biology – VI. Natural Sciences	GLY 102	Historical Geology – VI. Natural Sciences
BIO 105	Animal Biology Laboratory – VI. Natural Sciences	GLY 111	Laboratory for Physical Geology – VI. Natural Sciences
BIO 106	Principles of Plant Biology – VI. Natural Sciences	HUM 135	Introduction to Native American Literature – IX. Cross Cultural
BSL 110	Human Anatomy and Physiology I – VI. Natural Sciences	HUM 230	Twentieth Century Japanese Literature – IX. Cross Cultural (credit available only at Somerset Community College)
BSL 111	Human Anatomy and Physiology II – VI. Natural Sciences	PY 110	General Psychology – VII. Social Sciences
CHM 105	General College Chemistry Laboratory I – VI. Natural Sciences	RS/ANT 130	Introduction to Comparative Religion – IX. Cross Cultural
CHM 107	General College Chemistry Laboratory II – VI. Natural Sciences		
GLY 101	Physical Geology – VI. Natural Sciences		

College of Agriculture and School of Human Environmental Sciences

M. Scott Smith, Ph.D., is Dean and Director of the College of Agriculture; Nancy M. Cox, Ph.D., is Associate Dean for Research; Jimmy C. Henning, Ph.D., is Associate Dean for Extension; Michael D. Mullen, Ph.D., is Associate Dean for Academic Programs; Linus R. Walton, Ph.D., is Associate Dean for Administration.

The research, teaching, extension, and regulatory functions of the College of Agriculture are combined into a coordinated, mutually supporting program of undergraduate and graduate education. Teaching in this college is closely related to the other functions thus providing the student with a unique opportunity to broaden his or her background in the areas of research and application of scientific findings to stakeholders.

Degree and study programs in the college run the entire range of the food, fiber, and agricultural system from farm production and marketing, manufacturing, processing and fabrication through nutrition, hospitality management, and consumer, community, and family studies.

On July 1, 2003, the School of Human Environmental Sciences joined the College of Agriculture. Degree requirements and information pertaining to these programs are listed beginning on page 101.

Admission

All students planning to study any phase of agriculture or human environmental sciences, including pre-veterinary medicine, are admitted directly into the College of Agriculture. Application for admission is made through the Office of Undergraduate Admissions.

Students interested in the Landscape Architecture program must meet all requirements for admission to the University. In addition, enrollment in the landscape architecture program is determined by a selective admission procedure. Applicants are selected on a competitive basis as determined by potential success in the program.

Accreditation

The undergraduate Forestry program at the University of Kentucky is accredited by the Society of American Foresters. The Landscape Architecture program is accredited by the American Society of Landscape Architects and meets all the requirements for licensing of landscape architects in Kentucky and other states. The Food Science program is accredited by the Institute of Food Technologists.

Accreditations for the School of Human Environmental Sciences are listed on page 101 of this Bulletin.

Undergraduate Programs in Agriculture

The University of Kentucky grants the following degrees in the College of Agriculture:

- Bachelor of Science in Agriculture
- Bachelor of Science in Agricultural Biotechnology
- Bachelor of Science in Agricultural Economics
- Bachelor of Science in Animal Sciences
- Bachelor of Science in Career and Technical Education
- Bachelor of Science in Community Communications and Leadership Development
- Bachelor of Science in Equine Science and Management
- Bachelor of Science in Food Science
- Bachelor of Science in Forestry
- Bachelor of Science in Horticulture, Plant and Soil Sciences
- Bachelor of Science in Landscape Architecture
- Bachelor of Science in Natural Resource Conservation and Management

Information on each major program (premajor, major, and specialty support course requirements) follows. Students may obtain additional information on programs and recommended plans of study from the Associate Dean for Academic Programs.

Also available to students are minors in agriculture, agricultural community communications and leadership development, economics, animal sciences, entomology, food science, pest management, plant and soil science, and rural sociology.*

Students majoring in biosystems engineering are enrolled in the College of Engineering. Degree requirements and curriculum are listed in the *College of Engineering* section of this Bulletin.

See page 101 of this Bulletin for the list of degrees offered through the School of Human Environmental Sciences.

**At the time of publication, the minor in rural sociology*

SPECIAL APPLICATION DEADLINE FOR SCHOOL OF HUMAN ENVIRONMENTAL SCIENCES

Coordinated Program in Dietetics Upper division program applicants (students who have 71 semester hours of lower division courses – special application, transcript(s), and recommendations are due by:

Fall Feb. 1

was in the process of being suspended. Consult your advisor for more information.

Undeclared Majors

Students who are interested in the College of Agriculture or School of Human Environmental Sciences but are undecided about a major should work closely with advisors in the College of Agriculture. With careful course selection, students can work toward fulfilling general requirements while exploring the various areas of study in agriculture, natural resources, and human environmental sciences.

Scholarships and Financial Aid

The College of Agriculture offers scholarship awards to students on the basis of academic accomplishment and involvement in extracurricular activities. Many of the departments in the college employ students in laboratories, greenhouses, barns, and field work in connection with the research program in agriculture. Information about scholarships and work opportunities is available in the Office of Academic Programs.

Academic Advising

Students in the College of Agriculture are advised by selected faculty in the department of the student's major. Each student's academic plan and records is maintained in the Office of Academic Programs, N6 Ag. Science Building – North, and in the Advising Resource Office, School of Human Environmental Sciences, 112 Erikson Hall. Students needing assistance selecting an advisor or general information about academics may come to the Office of Academic Programs or the School of Human Environmental Sciences Advising Resource Office.

Inquiries about programs or majors within the College of Agriculture may be directed to:

Office of Academic Programs
N6 Ag. Science Building – North
University of Kentucky
Lexington, KY 40546-0091
(859) 257-3468 or (859) 257-3469

Graduate Work

The College of Agriculture offers the Master of Science degree in all college departments.

Doctor of Philosophy degrees are offered in the following areas: agricultural economics, animal sciences, biosystems and agricultural engineering, crop science, entomology, family studies, plant pathology, plant physiology, sociology, soil science, and veterinary science. For more information, visit the Graduate School web site at: www.research.uky.edu/gsl/.

MINIMUM REQUIREMENTS FOR GRADUATION

NOTE: The following graduation requirements do not apply to degree programs in the School of Human Environmental Sciences; those requirements are described in the corresponding section of this Bulletin. Except where noted in specific degree programs, all students pursuing a Bachelor of Science degree in the College of Agriculture must complete:

1. the University Studies Program and University graduation requirements;
2. GEN 100: Issues in Agriculture;
3. a minimum of 120 credit hours with at least a 2.0 grade-point average. Some programs require more than the minimum 120 credit hours and have other grade-point average requirements. Remedial courses may **not** be counted toward the total hours required for the degree;
4. an Agriculture Major with a minimum of 24 hours including 3 hours in a 400-level capstone course;
5. a core of specialty or professional support courses outside the major department totaling at least 18 hours at the 200 level or above; and
6. a minimum of 45 credit hours from upper division courses (300 and above).

B.S. in Agriculture with a major in INDIVIDUALIZED PROGRAMS

Individualized program opportunities have been developed to assist students with academic goals that cross several disciplines. Students pursuing the Bachelor of Science in Agriculture may pursue an individualized program in agriculture such as Entomology.

The procedure for entering an individualized program is as follows:

1. Each student must apply to the Associate Dean for Academic Programs. The student will

receive an explanation of the program and its objectives, and the possible risks involved, including prospective employment and acceptance for advanced graduate degree work.

2. Students who continue their interest in the individualized program develop, with the assistance of an advisor, the plan which they propose to follow.

3. This plan must be submitted to the Associate Dean for consideration and possible approval.

4. Approval of the student’s program by the Associate Dean will admit the student to the individual program option.

For more information, contact:

Office of Academic Programs
N6 Ag. Science Building – North
University of Kentucky
Lexington, KY 40546-0091
(859) 257-3468 or (859) 257-3469

BACHELOR OF SCIENCE IN AGRICULTURAL BIOTECHNOLOGY

Agricultural biotechnology encompasses cellular and molecular approaches to the manipulation and improvement of agricultural plants, animals and microorganisms, and the control of agricultural pests and diseases. The primary purpose of the baccalaureate degree program in Agricultural Biotechnology is to train students in modern cellular and molecular biology and genetic engineering. Students will be provided with a firm foundation in the principles of genetics and molecular biology of both prokaryotic and eukaryotic organisms. Each student will then specialize in an area appropriate to his or her interest and career objectives, including: microbial, fungal, plant, insect and mammalian biotechnology.

Graduates will be prepared to assume government, university, and industry positions with research and technology applications to agriculture and food production. Employment opportunities include research scientists, laboratory technicians or managers in university, government, industrial, or clinical laboratories using biotechnological tools for research and production. Examples of research areas include: gene cloning, construction of novel pest and disease resistance genes, development of new immunological and nucleic acid types of diagnostic probes for plant and animal disease, genetic engineering of microorganisms for the production of important pharmaceutical agents, and development of new bioengineered strains of microorganisms for fermentation and food production services. Students will also be prepared to enter graduate programs in agriculture, molecular biology, and the biological sciences.

Graduation Requirements

To earn a Bachelor of Science in Agricultural Biotechnology the student must complete 132 semester hours with at least a 2.0 grade-point

standing. A minimum of 45 credit hours must be from upper division courses (300 and above). Remedial courses may **not** be counted toward the total hours required for the degree. In addition to the University Studies requirements, students must complete college, premajor, major, and specialty support requirements, including an independent research project relevant to the student’s interest in biotechnology.

Plan of Study

As an agricultural biotechnology major you are required to develop an acceptable **Plan of Study** during your sophomore year for your junior and senior years. The plan must be signed by your advisor and returned to the Office of Academic Programs.

If you are an upper division transfer student (from another university or from another UK college or department) then you will submit your plan during the first semester you are enrolled in the program.

Consult your academic advisor in developing your Plan of Study.

Subtotal: Specialty Support Hours 21

Electives

Electives should be selected to complete the 132 hours required for graduation.

Subtotal: Electives minimum of 15

TOTAL HOURS: 132

BACHELOR OF SCIENCE IN AGRICULTURAL ECONOMICS

The Agricultural Economics program enables graduates to pursue careers in agribusiness and food industries, international marketing and trade, or farm management and production. Opportunities are also available in public policy for agriculture and rural America and environmental economics. These career opportunities may be found in both the private and public sectors. Economic theory is applied to problems concerning the production, marketing, and distribution of agricultural and food products and also to public policy and natural resource and environmental issues facing rural communities.

Agricultural Economics students choose one of two options – Option A: Agricultural Economics, and Option B: Agribusiness Management and Food Marketing.

Graduation Requirements

To earn the Bachelor of Science in Agricultural Economics, the student must have a minimum of 120 credit hours with at least a 2.0 grade-point average in one of the two program options. A student must earn a minimum grade of C in each of the four agricultural economics courses required in the major. A minimum of 45 credit hours must be from upper division courses (300 and above). Remedial courses may **not** be counted toward the total hours required for the degree. In addition to University Studies requirements, students must complete college, departmental and support requirements.

Plan of Study

As an agricultural economics major you are required to develop an acceptable **Plan of Study** in your chosen area of emphasis for your junior and senior years. The plan must be signed by your advisor and returned to the Office of Academic Programs.

If you are an upper division transfer student (from another university or from another UK college or department) then you will submit your plan for approval during the first semester you are enrolled in the department.

Consult your academic advisor in developing your Plan of Study.

Electives	Hours
Electives should be selected by the student to lead to the minimum total of 120 hours required for graduation.	
Subtotal: Electives	minimum of 13
TOTAL HOURS:	120

BACHELOR OF SCIENCE IN ANIMAL SCIENCES

Animals have many important roles in human societies including the provision of food and fiber, draft power, recreational and athletic activities, and companionship. In addition, animals and their interactions with humans have environmental consequences. Processing, preservation, and quality of animal-derived foods significantly affect human health and economics. Animal Sciences involves studying and applying the basic principles of nutrition, reproduction, and genetics to the production and management of animals including horses, dairy and beef cattle, sheep,

swine, poultry, and other domesticated species. Additional course work provides information on production and handling of animal-derived foods.

No one program fits all Animal Sciences students. Students come from varied backgrounds and their interests range from livestock and poultry production and management to marketing and public relations; from public education and extension to graduate training in research and teaching and veterinary medicine. No matter what species you have an interest in, the Animal Sciences major will allow you to combine your interest with your desire for an exciting and rewarding career.

As an Animal Sciences major, students have the opportunity to pursue specific interests by selecting one of three study options: Animal Industry, Food Industry or Pre-Professional. The Animal Industry option is for those students interested in animal production and management and allows specialization in one of three areas: livestock, equine, or dairy. The Food Industry option is designed to provide an emphasis on aspects of food processing, chemistry, and safety. The Pre-Professional option is a rigorous study program for students with interests in veterinary sciences, human medicine, and graduate research. Students must consult the pre-professional advisor or graduate school advisor of the university to which they intend on applying for additional or specific requirements.

Career Opportunities

To keep pace with the food, fiber, and recreation requirements of a growing world population, Animal Sciences graduates are needed in the livestock industry and closely related fields. The Animal Sciences major offers considerable flexibility in fulfilling specific career objectives, whether you are interested in working directly with livestock or indirectly in closely related areas such as agribusiness, research, government, or education.

Graduation Requirements

To earn the Bachelor of Science in Animal Sciences, the student must have a minimum of 120 credit hours with at least a 2.0 grade-point standing. A minimum of 45 credit hours must be from upper division courses (300 and above). Remedial courses may **not** be counted toward the total hours required for the degree. In addition to University Studies requirements, students must complete college, departmental and specialty support requirements.

Plan of Study

As an animal sciences major you are required to develop an acceptable **Plan of Study** during your sophomore year for your junior and senior years. The plan must be signed by your advisor and returned to the Office of Academic Programs.

If you are an upper division transfer student (from another university or from another UK

college or department) then you will submit your plan during the first semester you are enrolled in the program. Consult your academic advisor in developing your Plan of Study.

Each student must complete the following:

College Required Hours

GEN 100 Issues in Agriculture	3
Subtotal: College Required Hours	3

University Studies Requirements Hours

See "University Studies Program" on pages 83-87 for the complete University Studies requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill University Studies areas. Students should work closely with their advisor to complete the University Studies Program requirements.

Courses marked with an asterisk (*) may also be used to satisfy University Studies requirements.

Inference-Logic

MA 123 Elementary Calculus and Its Applications	3
or	
MA 113 Calculus I	4

Natural Sciences

CHE 105 General College Chemistry I	3
CHE 107 General College Chemistry II	3

USPElectives

BIO 150 Principles of Biology I	3
BIO 152 Principles of Biology II	3

Premajor Requirements

*MA 123 Elementary Calculus and Its Applications	3
or	
*MA 113 Calculus I	4
*BIO 150 Principles of Biology I	3
*BIO 152 Principles of Biology II	3
*CHE 105 General College Chemistry I	3
*CHE 107 General College Chemistry II	3
*CHE 111 Laboratory to Accompany General Chemistry I	1
*CHE 113 Laboratory to Accompany General Chemistry II	2
**ENG 203 Business Writing	3
Subtotal: Premajor Hours	21-22

***Satisfies the Graduation Writing Requirement.*

Major Requirements

ASC 101 Domestic Animal Biology	3
ASC 102 Applications of Animal Science	3
ASC 205 Livestock, People and Their Interactions	1
ASC 325 Animal Physiology	3
ASC 362 Animal Genetics	4
ASC 364 Reproductive Physiology of Farm Animals	4
ASC 378 Animal Nutrition and Feeding	4
ASC 470 Capstone for Animal Agriculture	3

plus at least **three** of the following courses:

ASC 340 Poultry Production	2
ASC 404G Sheep Science	4
ASC 406 Beef Cattle Science	4
ASC 408G Swine Production	2
ASC 410G Equine Science	3
ASC 420G Dairy Cattle Science	3

Subtotal: Major Hours

In addition to the Major Requirements, students choose **one** of three options:

Option A: Animal Industry

Students fulfilling the Major Requirements are eligible for the Animal Industry Option by taking certain required Specialty Support Courses (see below). In addition, students with more specific interests may, but are not required to, choose from three specializations available within this Option.

No Specialization

(required Specialty Support only; see below) 0

Livestock Specialization

ASC 300 Meat Science 4
and at least two from:
ASC 340 Poultry Production 2
ASC 404G Sheep Science 4
ASC 406 Beef Cattle Science 4
ASC 408G Swine Production 2

Equine Specialization

ASC 310 Equine Anatomy and Conformation 2
ASC 320 Equine Management 3
ASC 410G Equine Science 3

Dairy Specialization

ASC 420G Dairy Cattle Science 3
ASC 564 Milk Secretion 3

Subtotal: Option A Hours 0-5

Option B: Food Industry

Students fulfilling the Major Requirements are eligible for the Food Industry Option by taking certain required Specialty Support Courses (see below) and:

ASC 300 Meat Science 4
FSC 107 Introduction to Food Science 3

Subtotal: Option B Hours 7

Option C: Pre-Professional

Students fulfilling the Major Requirements are eligible for the Pre-Professional Option by taking certain Specialty Support Courses (see below). Students must consult the pre-professional advisor or graduate school advisor of the university to which they intend on applying for additional or specific requirements.

Specialty Support

Animal Industry Option

CHE 230 Organic Chemistry I
or
CHE 236 Survey of Organic Chemistry 3
Depending on the student's area of interest and subject to the advisor's approval, additional courses at the 200-level or above may be selected from biochemistry, biology, chemistry, physics, statistics, or any agriculture-related area other than Animal Sciences 15

Food Industry Option

CHE 230 Organic Chemistry I
or
CHE 236 Survey of Organic Chemistry 3
FSC 304 Animal Derived Foods 5
Depending on the student's area of interest and subject to the advisor's approval, additional courses at the 200-level or above may be selected from biochemistry, biology, chemistry, physics, statistics, or any agriculture-related area other than Animal Sciences 12

Pre-Professional Option*

BIO 304 Principles of Genetics
or
ABT/ENT 360 Genetics 3-4
CHE 230/231 Organic Chemistry
and Laboratory I 5
CHE 232/233 Organic Chemistry
and Laboratory II 5

PHY 211 General Physics 5
PHY 213 General Physics 5

*Students must consult the pre-professional advisor or graduate school advisor of the university to which they will apply for additional or specific requirements.

Subtotal: Specialty Support 18-24

Electives

Electives should be selected to complete the 120 hours required for graduation.

Subtotal: Electives minimum of 17

TOTAL HOURS: 120

BACHELOR OF SCIENCE IN BIOSYSTEMS ENGINEERING

The Biosystems Engineering curriculum is administered jointly by the College of Agriculture and the College of Engineering. Biosystems Engineering provides an essential link between the biological sciences and the engineering profession. This linkage is necessary for the development of food and fiber production and processing systems which preserve our natural resource base. Students in the biosystems engineering program can pursue one of four areas of specialization: Bioenvironmental Engineering, Food and Bioprocess Engineering, Machine Systems Automation Engineering and Thermal Environmental Engineering.

The degree requirements and curriculum are listed in the *College of Engineering* section of this Bulletin.

BACHELOR OF SCIENCE IN CAREER AND TECHNICAL EDUCATION

The Career and Technical Education degree involves Agricultural Education and Family and Consumer Sciences Education. Students take courses in technical education and professional content.

Graduates of this degree pursue careers in both formal and informal education of agriculture or family and consumer sciences. Formal education opportunities include teaching in the middle school or high school classroom. Informal education opportunities include working in Extension and the public or private sectors of industry.

Students choose one of two options – Option A: Agricultural Education; or Option B: Family and Consumer Sciences Education. In addition to receiving the degree, graduates also attain Rank III teaching certification in Agricultural Education (Option A) or a Rank III teaching certification in Family and Consumer Sciences Education (Option B).

Both options lead to the Bachelor of Science in Career and Technical Education.

Teacher Certification

Besides receiving the B.S. in Career and Technical Education, students completing the requirements obtain a letter of endorsement to teach

agricultural or family and consumer sciences education.

Requirements for teacher certification are as follows:

You must be admitted to the teacher education program (TEP) after you have completed, or complete during the semester in which you apply, 60 semester hours of course work and AED/FCS 110 Introduction to Career and Technical Education and have at least a 2.5 grade-point standing (on a 4.0 scale). See a full description of “Admission, Retention, and Exit from Teacher Education Programs” on pages 177-178 of this Bulletin.

Applicants are evaluated on an interview, recommendations, scholastic achievement, demonstrated skills, and professional commitment and goals. A student's progress is continuously monitored, assessed, and reviewed throughout the teacher education program as described in the Teacher Education Programs section of this Bulletin. You must successfully complete assessment items and portfolio items as required. Further, you must successfully complete the Principles of Learning and Teaching Exam and a professional exam, scoring above cutoff scores specified by the State Board of Education for each exam. After completing these exams, students hired by Kentucky schools will complete a one-year paid internship as a first-year teacher and will be evaluated at least three times by a three-person committee before certification is completed.

Note: Because graduation and teacher certification requirements change frequently, students should obtain more complete information from their advisors.

Graduation Requirements

To earn the Bachelor of Science in Career and Technical Education, the student must have a minimum of 120 credit hours with at least a 2.5 grade-point average (required for Teacher Certification). A minimum of 45 credit hours must be from upper division courses (300 level and above). Remedial courses may **not** be counted toward the total hours required for the degree.

Plan of Study

As a career and technical education major you are required to develop an acceptable **Plan of Study** during your sophomore year for your junior and senior years. The plan must be signed by your advisor and returned to the Office of Academic Programs.

If you are an upper division transfer student (from another university or from another UK college or department) then you will submit your plan during the first semester you are enrolled in the program.

Students must complete the following:

College Required Hours

Agricultural Education option students complete the following:
GEN 100 Issues in Agriculture 3

Family and Consumer Sciences Education option students complete the following:

HES 100 An Introduction to Professions in Human Environmental Sciences	1
HES 400 Concepts in Human Environmental Sciences: Integration and Application	2
Subtotal: College Required Hours	3

University Studies Requirements

See “University Studies Program” on pages 83-87 for the complete University Studies requirements. Students should work closely with their advisor to complete the University Studies Program requirements.

Major Requirements Hours

AED/FCS 110 Introduction to Career and Technical Education	3
AED/FCS 362 Field Experiences in Career and Technical Education	3
AED/FCS 371 Advising a Career and Technical Student Organization	3
AED/FCS 580 Foundations of Teaching Career and Technical Education	3
AED/FCS 583 Designing Curriculum and Assessment in Career and Technical Education	3
AED/FCS 586 Methods of Teaching Career and Technical Education	3
AED/FCS 590 Teaching Experience in Career and Technical Education	12
EDP 203 Teaching Exceptional Learners in Classrooms	3
FAM 357 Contemporary Adolescence	3
Oral Communication for Family and Consumer Sciences Education Option	
COM 181 Basic Public Speaking or	
COM 252 Introduction to Interpersonal Communication	3
Subtotal: Major-Required Hours	36-39

In addition to the Major Requirements, students choose **one** of two options.

OPTIONS

Option A: Agricultural Education

Option Requirements Hours	
*AEC 302 Agricultural Management Principles	4
AEN 252 Farm Shop	3
ASC 101 Domestic Animal Biology	3
ASC 102 Applications of Animal Science	3
CLD 102 The Dynamics of Rural Social Life (or other Social Science elective)	3
ECO 201 Principles of Economics I	3
PLS 210 The Life Processes of Plants or	
PLS 386 Plant Production Systems	3-4
**PLS 366 Fundamentals of Soil Science	4
Subtotal: Option A Hours	26-27

*ECO 201 is a prerequisite for AEC 302.

**CHE 105 is a prerequisite for PLS 366.

Specialty Support Requirements

Students must complete one additional agricultural economics course, one additional animal sciences course, one additional agricultural engineering course, two additional plant and soil sciences courses, and three additional courses in the College of Agriculture in consultation with your advisor.

Subtotal: Option A Specialty Support 24

Other agriculture majors can also qualify to teach agricultural education provided they meet current certification requirements.

Option B: Family and Consumer Sciences Education

Option Requirements Hours	
FAM 251 Personal and Family Finance	3
*FAM 252 Introduction to Family Science	3
*FAM 253 Human Sexuality: Development, Behavior and Attitudes	3
IEC 255 Child Development	3
IEC 256 Guidance Strategies for Working with Young Children	3
FCS 350 Design Issues for Family and Consumer Sciences Educators	3
MAT 120 Textiles for Consumers	3
NFS 101 Human Nutrition and Wellness	3
NFS 241 Food Service Sanitation	1
NFS 302 Principles of Food Preparation	3
*PSY 100 Introduction to Psychology	4
Subtotal: Option B Hours	32

*Course can also be used to satisfy University Studies Program requirements.

Specialty Support Requirements

In consultation with their advisor, select **five** courses from the following list:

CLD 401 Principles of Cooperative Extension	3
FAM 360 Introduction to Family Intervention: Working with Families and Individuals	3
FAM 473 Family Life Education	3
FAM 544 Cultural Diversity in American Children and Families	3
FAM 553 Parent-Child Relationships Across the Lifecycle	3
FAM 554 Working with Parents	3
FAM 563 Families, Legislation and Public Policy	3
Subtotal: Option B Specialty Support	15

Electives

Electives should be selected by the student to lead to the minimum total of 120 hours required for graduation

Total Minimum Hours for Program 120

BACHELOR OF SCIENCE IN COMMUNITY COMMUNICATIONS AND LEADERSHIP DEVELOPMENT

Community Communications and Leadership Development is an interdisciplinary social science major. It provides students with the knowledge and skills to integrate communications, sociology, journalism, and community development theories and apply them to real-world situations involving local communities and agricultural organizations.

The major focuses on such skills as written and oral communication; strategic problem solving; critical thinking; understanding of group, organizational, and community dynamics; and ethical decision making.

The **agricultural communications option** is a writing-based curriculum that prepares graduates for careers as communications professionals with agricultural and community-based media outlets and organizations. The **public service and leadership option** prepares graduates for leadership positions in public and private organizations or government agencies. Students in both options are encouraged to participate in internship opportunities.

Graduation Requirements

To earn the Bachelor of Science in Community Communications and Leadership Development, the student must have a minimum of 120 credit hours with at least a 2.0 grade-point average. A minimum of 45 credit hours must be from upper division courses (300 level and above). Remedial courses may **not** be counted toward the total hours required for the degree.

Plan of Study

As a community communications and leadership development major you are required to develop an acceptable **Plan of Study** during your sophomore year for your junior and senior years. The plan must be signed by your advisor and returned to the Office of the Associate Dean for Academic Programs.

If you are an upper division transfer student (from another university or from another UK college or department) then you will submit your plan during the first semester you are enrolled in the program.

Students must complete the following:

College Required Hours

GEN 100 Issues in Agriculture	3
Subtotal: College Required Hours	3

University Studies Requirements

See “University Studies Program” on pages 83-87 for the complete University Studies requirements. Students should work closely with their advisor to complete the University Studies Program requirements.

Major Requirements Hours

*CLD 102 The Dynamics of Rural Social Life	3
**CLD 250 Reading Critically and Writing Well: Community Communications and Leadership Development	3
CLD 302 Leadership Studies	3
CLD 320 Survey of Agriculture and Consumer Media ...	3
CLD 340 Community Interaction	3
CLD 362 Field Experience in Community Communications and Leadership Development	3
CLD 405 Analytic Methods for Community Communications and Leadership Development	3
CLD 420 Sociology of Communities	3
CLD 490 Seminar in Community Communications and Leadership Development	3
Subtotal: Major Requirements	27

*Course can also be used to satisfy University Studies Program requirements.

**May be used to satisfy Graduation Writing Requirement.

In addition to the Major Requirements, students choose **one** of two options:

OPTIONS

Option A: Agricultural Communications

JOU 101 Introduction to Journalism	3
CLD 204 Writing for the Mass Media	3
CLD 301 News Reporting	3
CLD 400 Agricultural Communications Campaigns	3
CLD 440 Community Processes and Communication	3
CLD 485 Community Journalism	3
*AEC 101 The Economics of Food and Agriculture	3

Subtotal: Option A Hours 21

**Course can also be used to satisfy University Studies Program requirements.*

Specialty Support Requirements

Depending on the student's area of interest and subject to his/her academic advisor's approval, he/she will complete an additional 6 hours of courses in the College of Agriculture and 12 hours in communications, journalism and related areas; students may take CLD 401 as one of these courses. The majority of these courses must be at the 300+ level.

Subtotal: Option A Specialty Support 18

Option B: Public Service and Leadership

*PS 101 American Government	3
AEC 305 Food and Agricultural Marketing Principles	3
AEC 532 Agricultural and Food Policy	3
*ECO 201 Principles of Economics I	3

Choose **one** of the following:

CLD 400 Agricultural Communications Campaigns	3
CLD 440 Community Processes and Communication	3
CLD 485 Community Journalism	3

Plus 6 additional hours of courses at the 200 level or higher to fulfill the student's area of interest and selected with advisor's approval from the following departments: PS, ANT, COM or SOC.

Subtotal: Option B Hours 21

**Course can also be used to satisfy University Studies Program requirements.*

Specialty Support Requirements

Depending on the student's area of interest and subject to his/her academic advisor's approval, he/she will complete an additional 6 hours of courses in the College of Agriculture and 12 hours in related areas; students may take CLD 401 as one of these courses. The majority of these courses must be at the 300+ level.

Subtotal: Option B Specialty Support 18

Electives

Electives should be selected by the student to lead to the minimum total of 120 hours required for graduation

Total Minimum Hours for Program 120

BACHELOR OF SCIENCE IN EQUINE SCIENCE AND MANAGEMENT

The horse industry is a dynamic industry that encompasses not only the breeding, raising and training of horses but also the development of activities for the use of the horse in sports and recreation. The industry has a significant economic impact across the U.S. and world-wide.

Equine science and management involves the study and application of science and business concepts to the horse industry. Additional course work supports learning in areas that aid in breeding and raising horses and marketing the industry. Students come from varied equine backgrounds but have a common interest in the horse. Regardless of which breed of horse or activity focus students have, equine science and management majors will have the opportunity to combine their interest in the horse with a desire to become active participants in the horse industry by selecting either the equine science option or the equine management option.

The equine science option is for students who have a primary interest in horse production. The equine management option is designed for students who are interested in the business aspect of the horse industry. Students in equine science and management considering a career in veterinary medicine or graduate research can meet those goals in the degree program as well. Interested students need to consult with an advisor to ensure all specific academic requirements are met.

Career Opportunities

The horse industry is continually changing. Equine science and management graduates are needed in all aspects of the industry including production, business management and other related support industries.

Graduation Requirements

To earn the Bachelor of Science in Equine Science and Management, the student must have a minimum of 120 credit hours with at least a 2.0 grade-point average. A minimum of 45 credit hours must be from upper division courses (300 level and above). Remedial courses may **not** be counted toward the total hours required for the degree.

Plan of Study

As an equine science and management major you are required to develop an acceptable **Plan of Study** during your sophomore year for your junior and senior years. The plan must be signed by your advisor and returned to the Office of the Associate Dean for Academic Programs.

If you are an upper division transfer student (from another university or from another UK college or department) then you will submit your plan during the first semester you are enrolled in the program.

Students must complete the following:

College Required Hours

GEN 100 Issues in Agriculture	3
-------------------------------------	---

Subtotal: College Required Hours 3

University Studies Requirements

See "**University Studies Program**" on pages 83-87 for the complete University Studies requirements. Students should work closely with their advisor to complete the University Studies Program requirements.

Courses marked with an asterisk (*) may also be used to satisfy University Studies requirements.

Subtotal: Option B Specialty Support 18

Electives

Electives should be selected by the student to lead to the minimum total of 120 hours required for graduation minimum of 5-6

Total Minimum Hours for Program 120

BACHELOR OF SCIENCE IN FOOD SCIENCE

Food science is the study of the transformation of biological materials into food products acceptable for human consumption. This requires studying diverse scientific disciplines related to food, including chemistry, engineering, microbiology, biochemistry, toxicology, and management; and effectively applying the industrial and practical aspects to product development, food processing, preservation, and marketing. The program is administered by the Department of Animal and Food Sciences and offers training in the basic sciences and in the fundamentals of food science.

Career opportunities in food industries include: management, research and development of new food products and ingredients, process supervision, quality control, procurement, distribution, sales, and merchandising. Positions include sales and services in allied industries; consulting and trade association activities; and promotional and educational services. Governmental agencies employ food scientists whose work is directed towards research, regulatory control, and the development of food standards.

Graduation Requirements

To earn the Bachelor of Science in Food Science, the student must complete a minimum of 128 semester hours with at least 45 hours from courses at the 300 level and above. A 2.0 grade-point standing (on a 4.0 scale) is necessary and remedial courses may **not** be counted toward the total hours required for the degree.

The Food Science program meets the requirements for accreditation by the Institute of Food Technologists and the National Organization of Food Science Professionals.

Plan of Study

As a food science major you are required to develop an acceptable **Plan of Study** during your sophomore year for your junior and senior years. The plan must be signed by your advisor and returned to the Office of Academic Programs.

If you are an upper division transfer student (from another university or from another UK college or department) then you will submit your plan during the first semester you are enrolled in the program.

Consult your academic advisor in developing your Plan of Study.

Each student must complete the following:

College Required Hours

GEN 100 Issues in Agriculture	3
Subtotal: College Required Hours	3

University Studies Requirements Hours

See "University Studies Program" on pages 83-87 for the complete University Studies requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill University Studies areas. Students should work closely with their advisor to complete the University Studies Program requirements.

Courses marked with an asterisk (*) may also be used to satisfy University Studies requirements.

BACHELOR OF SCIENCE IN FORESTRY

Kentucky boasts many forested areas with famous reputations, such as Natural Bridge, Red River Gorge, Daniel Boone National Forest, and Robinson Forest. Robinson Forest is one of the largest research and educational forests in the eastern United States. It is managed by the Department of Forestry, and as a forestry student at the University of Kentucky all of its resources will be available to you as a unique outdoor laboratory.

The missions of the Department of Forestry are to identify and address the challenges and opportunities facing sustained management of our renewable natural resources, including forests, soils, water, and wildlife. These missions involve three interrelated functions: research, extension, and education. The research goal of the department is to obtain basic and applied information leading to wise and effective management of our natural resources. Forestry extension seeks to inform land owners and the general public about forest stewardship. Forestry education prepares students for careers as forestry and natural resource professionals. The objectives of the required courses in the forestry curriculum are to educate and train students in the communication, managerial, scientific, processing, and administrative skills and principles related to the stewardship and utilization of renewable natural resources. Accomplishment of these objectives will ensure a continuing supply of entry-level professionals for Kentucky and the nation.

The undergraduate (B.S.) program leading to the professional degree in forestry is accredited by the Society of American Foresters (SAF). SAF is the specialized accrediting body recognized by the Commission on Recognition of Postsecondary Accreditation as the accrediting agency for forestry in the United States. Additionally, you may become certified by The Wildlife Society if you choose appropriate elective courses.

Career Opportunities

Forestry graduates are employed as professional foresters in private forest industries and organizations, consulting companies, and public agencies, including the U.S. Forest Service, Soil Conservation Service, and state, county, or urban forestry programs. Graduates are also qualified to be research technicians in government, university, and private laboratories, or may continue their studies in specialized graduate programs.

The inclusion in the curriculum of management and processing principles makes UK forestry graduates attractive to the forest products industry; graduates are often employed as technical specialists, managers, and marketing and wood procurement personnel.

Graduation Requirements

To earn the Bachelor of Science in Forestry, the student must complete a minimum of 133 semester hours. Eight of these hours are earned while attending a Summer Camp between the third and fourth academic years. A 2.0 grade-point standing (on a 4.0 scale) is necessary and remedial courses may **not** be counted toward the total hours required for the degree.

The eight-week Summer Camp at Robinson Forest provides practical, in-the-field training and is required of all forestry students. The camp involves overnight travel and takes place at a number of field locations including but not necessarily limited to Robinson Forest.

The curriculum consists of University Studies program, preprofessional, professional, and specialty support components. Preprofessional, professional, and specialty support courses provide the skills and understanding to manage forest resources. Electives, chosen with the assistance of your advisor, strengthen your knowledge of basic principles in areas of special interest to you.

University Studies Requirements Hours

See “University Studies Program” on pages 83-87 for the complete University Studies requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill University Studies areas. Students should work closely with their advisor to complete the University Studies Program requirements.

Courses marked with an asterisk (*) may also be used to satisfy University Studies requirements.

BACHELOR OF SCIENCE IN HORTICULTURE, PLANT AND SOIL SCIENCES

The Horticulture, Plant and Soil Sciences degree program is designed to provide students with the knowledge and skills needed for a career in the production and management of plants and soils for food, fiber, forage, oil, recreation, landscaping and the enhancement of the human environment. Graduates have the technical and scientific skills as well as the communication, computational, leadership, and interpersonal capabilities necessary to function effectively as professionals. Careers are as diverse as they are challenging. Each Area of Emphasis prepares graduates for specific professional opportunities.

Areas of Emphasis

Students pursuing a Horticulture, Plant and Soil Sciences degree may choose from the following areas:

- Crops and Livestock
- Crops and Soils
- Horticulture Enterprise Management
- Horticultural Science
- Plant Pest Management
- Soil and Water Environmental Science
- Turfgrass Science

Graduation Requirements

Students must complete a minimum of 128 semester credit hours with at least 45 credit hours from courses at the 300 level or above. A 2.0 grade-point standing (on a 4.0 scale) is necessary and remedial courses may **not** be counted toward the total hours required for the degree. In addition to the University Studies and college requirements, students must select an Area of Emphasis with the assistance of an advisor and fulfill the area's program requirements.

Plan of Study

As a horticulture, plant and soil sciences major you are required to develop an acceptable **Plan of Study** during your sophomore year for your junior and senior years. The plan must be signed by your advisor and returned to the Office of Academic Programs.

If you are an upper division transfer student (from another university or from another UK college or department) then you will submit your plan during the first semester you are enrolled in the program.

Consult your academic advisor in developing your Plan of Study.

PLS 366 Fundamentals of Soil Science 4

PLS 386 Plant Production Systems 4

PLS 490 Topics in Plant and Soil Science 3

**Required in Horticulture, Plant and Soil Sciences curriculum and also satisfies University Studies or College of Agriculture requirements.*

Subtotal: Major Hours 26

Area of Emphasis (15-31 hours)

In addition to the 31 PLS and GEN credit hours listed above in Major Requirements, students will select an additional 15-31 credit hours from Plant and Soil Science (PLS) or Plant Pathology (PPA) courses. The total credit hours in the major depends upon the student's Area of Interest.

During the sophomore year each student will identify an Area of Emphasis and develop a Plan of Study that details the course work to be taken during the junior and senior years. Examples of Areas of Emphasis include Horticulture Enterprise Management, Crops and Livestock, Crops and Soils, Turfgrass Science, Soil and Water Environmental Science, Horticultural Science, and Plant Pest Management. The Plan of Study must be approved by the undergraduate curriculum committee in the Area of Emphasis.

Subtotal: Area of Emphasis 15-31

Specialty Support Requirements (21-39 hours)

To be selected from courses (other than PLS or PPA) offered by animal science, entomology, veterinary science, natural resource conservation, landscape architecture, agricultural engineering, chemistry, geology, geography, physics, biology, mathematics, statistics, agricultural economics, accounting, management, marketing, and economics. Selection of courses and total credit hours depends upon the student's Area of Emphasis.

Subtotal: Specialty Support 21-39

Electives

Elective courses should be selected by the student to lead to the minimum total of 128 hours required for graduation.

Subtotal: Electives minimum of 17

TOTAL HOURS: 128

BACHELOR OF SCIENCE IN LANDSCAPE ARCHITECTURE

The profession of landscape architecture has grown out of the tradition of the great garden designers of Italy, France, England, and China to encompass the art and science of design, planning, and management of the land. The *science* of landscape architecture is concerned with the conservation and management of natural resources. The *art* of landscape architecture is concerned with the creation of more enjoyable, comfortable, and safe outdoor areas where human use requires adaptation of the natural environment.

This five-year professional program is accredited by the American Society of Landscape Architects and meets all the requirements for licensing of landscape architects in Kentucky and other states. Landscape architecture employment opportunities may be found in the designing of urban communities, plazas, university campuses, institutional grounds, parks and recreational areas, commercial and industrial sites, and residential communities, as well as in the areas of historic preservation, regional planning, and mine reclamation.

Admission Requirements

Admission to the University of Kentucky and to the College of Agriculture does not guarantee admission to the Landscape Architecture program. All applicants must be reviewed by the Landscape Architecture Program Chairperson. The number of applicants ultimately admitted is determined by the resources available to provide high quality instruction. Applicants will be reviewed on a comparative basis. Determination of acceptability into the program is based on the following.

Entering freshmen and transfer students from degree programs other than Landscape Architecture must:

1. submit a formal application to the Undergraduate Admissions Office indicating Landscape Architecture as your major;
2. meet the minimum criteria for admission or readmission to the University as specified in this Bulletin (The Landscape Architecture program requires a minimum of a 2.0 grade-point average on a 4.0 scale for eligibility to transfer into the program.); and
3. successfully complete the aptitude testing designated by the Landscape Architecture program.

If a student transferring from another degree program has a background in related design fields, he or she may submit available work, such as a portfolio or other work examples, as an indication of potential success.

Transfer students from degree programs in Landscape Architecture at other accredited institutions must:

1. submit a formal application to the Office of Undergraduate Admissions indicating Landscape Architecture as your major;
2. meet the minimum criteria for admission to the University as specified in this Bulletin (The Landscape Architecture program requires a minimum of a 2.0 grade-point average on a 4.0 scale for eligibility to transfer into the program.); and
3. submit a portfolio for review which, combined with an evaluation of courses completed, will determine acceptance into the program as well as the level to which the student will be accepted.

Graduation Requirements

To earn a Bachelor of Science degree in Landscape Architecture, the student must have 145 semester hours with at least a 2.0 grade-point standing (on a 4.0 scale). Remedial courses may **not** be counted toward the total hours required for graduation. In addition to satisfying the University Studies Program requirements, each student must complete premajor, professional, and specialty support requirements. The Landscape Architecture program policy requires a student to achieve a C grade or better in major design studios in order to advance to the next level.

University Studies Requirements Hours
See "University Studies Program" on pages 83-87 for the complete University Studies requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill University Studies areas. Students should work closely with their advisor to complete the University Studies Program requirements.

Courses marked with an asterisk (*) may also be used to satisfy University Studies requirements.

One course in soil science from the following:
PLS 366 Fundamentals of Soil Science 4
FOR 205 Forest and Wildland Soils and Landscapes 4

Select one additional 400-500 level course from an area of study related to landscape architecture, such as GEO, HIS, SOC, PSY, PS, etc., with the approval of the student's advisor.

Subtotal: Specialty Support minimum of 20

Electives

Electives should be selected by the student to lead to the minimum total of 145 hours required for graduation.

Subtotal: Electives minimum of 3
TOTAL HOURS: 145

**BACHELOR OF SCIENCE IN
NATURAL RESOURCE
CONSERVATION AND
MANAGEMENT**

The program in Natural Resource Conservation and Management is designed to provide students with the knowledge and skills needed for a career in the rapidly growing fields of environmental science and policy. As the world population grows, and as nations are drawn closer together through technology and trade, the

conservation and management of natural resources will become increasingly important to the sustained well-being of all societies. The curriculum provides students with exposure to a broad array of key disciplines involved with natural resources. As a result, graduates have the capacity to integrate different perspectives and diverse bodies of knowledge in dealing with real resource management problems.

All students in the program share a common core of major requirements. This core is designed to provide the student with broad exposure to the technical and socioeconomic dimensions of natural resources and their management. Important components of this core of courses are a required three-week summer camp after the sophomore or junior year and a required internship or research experience. In addition to this core, all students must develop a Concentration Area consisting of at least 18 hours of course work. This Concentration Area allows the student to focus the degree on an area of interest in the technical or policy oriented aspects of natural resource management. These courses must be chosen in consultation with the academic advisor and must be approved by the advisor and the NRCM Steering Committee as part of the plan of study for the student.

Graduates of the Natural Resource Conservation and Management degree program are employed as professionals in both the public and private sectors. Industries which have an impact upon the environment maintain a staff of environmental scientists and technicians to ensure compliance with the standards of our society. Government agencies employ broadly trained natural resource scientists to serve in regulatory or management functions for the resources in their jurisdiction. Additional employment opportunities exist in environmental journalism and education, and with the many nonprofit organizations which have environmental concerns. In addition, students in either option are well prepared for graduate programs dealing with resource and environmental issues and in traditional academic disciplines.

Graduation Requirements

To earn a Bachelor of Science in Natural Resource Conservation and Management, the student must complete at least 120 semester hours with at least a 2.0 grade-point standing. A minimum of 45 credit hours must be from upper division courses (300 and above). Remedial courses may **not** be counted toward the total hours required for the degree. In addition to the University Studies Program requirements, the student must complete college, premajor, major and concentration requirements, including an internship or research experience. The student will construct their concentration area with the approval of a faculty advisor in the area of interest.

Plan of Study

As a Natural Resource Conservation and Management major, you are required to work with your advisor to develop a complete **Plan of Study** during your sophomore year for your junior and senior years. The plan will be signed by your advisor, approved by the NRCM Steering Committee, and placed in your file in the Office of the Associate Dean for Academic Programs. If you are an upper division transfer student (from another university or from another UK college or department) then you will submit your plan during the first semester you are enrolled in the program.

University Studies Requirements Hours

See "University Studies Program" on pages 83-87 for the complete University Studies requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill University Studies areas. Students should work closely with their advisor to complete the University Studies Program requirements.

Courses marked with an asterisk (*) may also be used to satisfy University Studies requirements.

**May be used to satisfy the University Writing Requirement.

***NRC 320 is a three-week summer camp field data collection experience. The student will attend this camp after the sophomore or junior year. This camp exposes the student to a wide range of natural resource techniques and concepts, including aquatic ecology, soil and plant sciences, wildlife and forestry, and waste management.

†All students must complete either an internship (NRC 399) or a supervised research project (NRC 395). This requirement is designed to give the student real world exposure to natural resource work in their area of interest.

Subtotal: Major Hours 40-41

Concentration Area

In addition to the major requirements, each student, in consultation with his or her academic advisor, will select a minimum of 18 hours in course work that will constitute the student's Concentration Area. At least 9 of these hours must be at the 300 level or above. This Concentration Area consists of a unique set of courses that allow specialization in a particular area. For example, a student might choose to develop a concentration in Natural Resource Policy, Wildlife Ecology, or Soil and Water Science. Alternatively, the student may wish to minor in another natural resources related program, for example Geology or Economics. If a minor is chosen, those hours will count towards the Concentration Area hours. In either case, the Concentration Area should represent a coherent theme.

The Concentration Area will be developed in the sophomore year as part of the required Plan of Study. This Plan of Study must be approved by the student's advisor, the NRCM Steering Committee, and then put on file in the Office of the Associate Dean for Academic Programs in the College of Agriculture.

Subtotal: Concentration Area 18

plus nine more hours of plant and soil science courses chosen from the following prefixes: PLS, PPA.	

Minor in Rural Sociology

NOTE: At the time of publication, the minor in rural sociology was in the process of being suspended. Consult your advisor for more information.

Prerequisites

Students must complete SOC 101 or CLD 102 **and** one other sociology course at the 100 or 200 level.

Any student wishing to minor in rural sociology should file an application with and be interviewed by the Director of Undergraduate Studies in sociology prior to entering the program.

Minor Requirements

Students must complete 15 hours in sociology, at least 12 of which must be at the 300 level or above, including one of the following six-hour blocks:

SOC 302 and SOC 303 or
SOC 304 and SOC 305 or
SOC 302 and SOC 304

Minor in Sustainable Agriculture

The minor in Sustainable Agriculture requires 21 to 23 hours as follows:

Minor Prerequisite **Hours**

ECO 201 Principles of Economics I	3
---	---

Minor Requirements

Required:	9
SAG 101 Introduction to Sustainable Agriculture	3
SAG 201 Cultural Perspectives on Sustainability	3
SAG 397 Apprenticeship in Sustainable Agriculture ...	3

Select **one** from:

GEO 235 Environmental Management and Policy	3
GLY 210 Habitable Planet:	

Evolution of the Earth System	3
*PLS 366 Fundamentals of Soil Science	4

Select **one** from:

AEC 302 Agricultural Management Principles	4
AEC 305 Food and Agricultural Marketing Principles	3
AEC 445G Introduction to Resource and Environmental Economics	3

Select **one** from:

**SOC 360 Environmental Sociology	3
GEN 501 Agricultural and Environmental Ethics	3

**Prerequisite: CHE 105.*

***Prerequisite: SOC 101.*

PRE-VETERINARY MEDICINE

Students interested in becoming veterinarians may enroll in the College of Agriculture at the University of Kentucky and complete their requirements for admission to veterinary school.

Although the Commonwealth of Kentucky does not have a school of veterinary medicine, it is a participating member of the Southern Regional Education Board plan, under which legal Kentucky residents may attend the Auburn University School of Veterinary Medicine. Each year 34 students are chosen from Kentucky to enter the Auburn program.

There is also a plan whereby two legal Kentucky residents may be accepted by the Tuskegee University School of Veterinary Medicine each year.

Under both of the above programs the students selected are exempt from the out-of-state tuition that would normally apply to a Kentucky resident. Admission is on a competitive basis with the final selection being made by a committee from each of the veterinary schools.

Pre-veterinary studies is not a degree program, but a pre-professional curriculum. It is strongly recommended that all pre-veterinary students choose a degree goal early in their college career. Although it is possible to complete pre-vet requirements in three years, the majority of students accepted to Auburn have a B.S. or B.A. degree.

A minimum of 72 semester hours with an overall grade-point average of 2.50 (on a 4.0 basis) is required prior to consideration for admission. Due to the high level of competition for admission to any veterinary school, a student should maintain at least a 3.0 academic standing on all college work. The average overall GPA for students accepted to veterinary schools is approximately 3.45. The student must have completed all of the required courses or acceptable substitutes by June 15 of the year of possible acceptance. Courses in certain advanced sciences must be taken within six years of entry to Auburn. All required courses must have a grade of "C" or greater.

Auburn applicants can use the Veterinary Medical College Application Service (VMCAS) application, available at: www.vmcas.org. The deadline for Auburn applications is October 1. Auburn requires the General Aptitude portion of the Graduate Record Examination (GRE). Tuskegee requires a separate application form and the GRE, taken within three years of application. Additional forms are required for both schools; forms are available from Dr. Dwyer after June 1.

The following curriculum is designed to meet the requirements for both Auburn and Tuskegee. However, some changes in the pre-veterinary curriculum may go into effect during the school year. *The student has the responsibility to work closely with his or her pre-veterinary advisor in making certain that all requirements are met for consideration for acceptance.*

All CLEP and advanced placement credit for required courses must have prior approval by Dr. Dwyer. Auburn does not accept correspondence credit for required courses, except for Animal Nutrition.

Pre-Veterinary Curriculum

	Hours
UK Written Communication requirement*	6-7
Literature (e.g. ENG 334)**	3 or 6
Fine Arts (e.g. MUS 100)**	3
Humanities/Fine Arts electives**	6
History (e.g. HIS 108/109)**	3 or 6
Social sciences electives** (e.g. USP Social Sciences plus anthropology [Cross-Cultural])	9
MA 123 Elementary Calculus and Its Applications	3
OR	
MA 113 Calculus I	4

The above courses are waived for students with a B.S. or B.A. degree.

BIO 150/152 Principles of Biology I and II	6
BIO 151/153 Principles of Biology Laboratory I and II	4
CHE 105 General College Chemistry I	3
CHE 107 General College Chemistry II	3
CHE 111 Laboratory to Accompany General Chemistry I	1
CHE 113 Laboratory to Accompany General Chemistry II	2
CHE 230 Organic Chemistry I	3
CHE 231 Organic Chemistry Laboratory I	2
CHE 232 Organic Chemistry II	3
CHE 233 Organic Chemistry Laboratory II	2
PHY 211 General Physics	5
PHY 213 General Physics	5
BCH 401G Fundamentals of Biochemistry	3
ASC 378 Animal Nutrition and Feeding	4
or	
ASC 380 Feeds and Feeding	3
Science Electives***	6

Tuskegee requires ASC 378, BCH 401G (Biochemistry), 6 hours of math, and ASC 101 and ASC 102.

*HON 101/102 can be used.

**Students should contact a UK pre-veterinary advisor regarding alternative courses.

***Science electives must be two of the following courses: BIO 304, BIO 350 or ASC 325, BIO 308, BIO 315, BIO 542, ASC 364, BIO 561 or BIO 563, BIO 529, Comparative Anatomy (not taught at UK).

Auburn strongly urges students to take organic chemistry and physics courses at a four-year college or university.

All pre-veterinary students who enter veterinary school without obtaining an Animal Science degree and petition UK for one later must fulfill the departmental requirements for an Animal Science degree. In order to be eligible for the B.S. in Animal Sciences, students must have completed all University Studies courses, all college requirements and all of the required core courses and production courses required in the Animal Sciences degree program.

SCHOOL OF HUMAN ENVIRONMENTAL SCIENCES

Human Environmental Sciences provides science-based programs concerned with the interactions of individuals and families within multiple environmental contexts, including social, cultural, economic, and political. The specialized areas of study prepare graduates for professional roles through academic work, practicum or field experience, and research with a focus on improving quality of life for individuals and families throughout the lifespan.

There are three departments in the School of Human Environmental Sciences – Family Studies; Merchandising, Apparel and Textiles; and Nutrition and Food Science. Each department offers both undergraduate and graduate study.

Undergraduate Programs in Human Environmental Sciences

The University of Kentucky grants the following degrees in the School of Human Environmental Sciences:

- Bachelor of Science in Career and Technical Education (see page 93).
- Bachelor of Science in Dietetics
- Bachelor of Science in Family Science
- Bachelor of Science in Hospitality Management
- Bachelor of Science in Human Nutrition
- Bachelor of Science in Merchandising, Apparel and Textiles

Minor Offered

The following minor is available:

- Family Science

Accreditations and Approvals

All undergraduate programs in the School of Human Environmental Sciences are accredited by the American Association of Family and Consumer Sciences.

Additionally, all programs and facilities which can be accredited or approved have achieved that recognition:

- Didactic and Coordinated Programs in Dietetics are both accredited by the Commission on Accreditation for Dietetic Education (CADE)
- National Council for Accreditation of Teacher Education has accredited the program in Family and Consumer Sciences Education

Unique Features of the College Facilities and Services

Research Center for Families and Children; Betty D. Eastin Historic Costume Collection; textiles quality research laboratory; The Family Center (personal and marriage counseling); The Lemon Tree Restaurant; and nutrition research laboratories.

Scholarships

Over fifty scholarships are awarded each year to undergraduate and graduate students enrolled in the School of Human Environmental Sciences. Information about scholarships is available from the Advising Resource Office, 112 Erikson Hall, and the College of Agriculture Scholarship Office, N-6 Ag Science Building.

Advising

All students are assigned a faculty advisor during their first semester in a program in the School of Human Environmental Sciences. For more information about programs or advising, contact:

**DEPARTMENT OF
FAMILY STUDIES**

The Department of Family Studies is committed to offering quality programs for students preparing to work with individuals and families in various settings including schools, private and public social agencies, and business. The focus is on enhancing the quality of life for families. Undergraduate programming is at an applied level using an interdisciplinary approach from the perspectives of individual and family development, family resource management, and family systems.

The department offers a major in family science. (The College also offers a Bachelor of Science in Career and Technical Education with an option in Family and Consumer Sciences Education; see page 93.) Students in the family sciences major earn the degree Bachelor of Science in Family Science. A minor in family science is available.

Family science prepares students to work with individuals and families in unique ways. Positions include coordinators of community education and outreach, crisis management, residential care, family financial management, research and planning, and social service workers. Students completing the program are eligible to

apply to become certified family life educators through the National Council on Family Relations. Contact the Department of Family Studies, 315 Funkhouser Building, (859) 257-7750, for more information about this optional credential.

Visit us on the Web at: www.ca.uky.edu/hes/?p=2.

**BACHELOR OF SCIENCE IN
FAMILY SCIENCE**

Each student must complete the following:

1. Complete University Studies requirements.
2. Complete the School requirements listed below.
3. Complete 120 credit hours with a minimum grade-point average of 2.0.
4. Complete the required curriculum in the major program.

School Requirements

HES 100 An Introduction to Professions in Human Environmental Sciences	1
HES 400 Concepts in Human Environmental Sciences: Integration and Application	2
NFS 101 Human Nutrition and Wellness	3
Subtotal: School Required Hours	6

University Studies Requirements

See "University Studies Program" on pages 83-87 of this Bulletin for the complete University Studies requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill University Studies areas. Students should work closely with their advisor to complete the University Studies Program requirements.

Inference-Logic	
STA 200 Statistics: A Force in Human Judgment	3
PHI 120 Introductory Logic	3
Oral Communication	
COM 252 Introduction to Interpersonal Communication	3
Written Communication	
ENG 104 Writing: An Accelerated Foundational Course	4
Natural Sciences	
Two courses in BIO, CHE, or PHY	6

Graduation Writing Requirement

Choose one of the following:	
ENG 203 Business Writing	3
ENG 230 Introduction to Literature	3
ENG 233 Literature and Identities	3
ENG 234 Introduction to Women's Literature	3
Graduation Writing Requirement Hours	3

Premajor Requirements Hours

COM 252 Introduction to Interpersonal Communication	3
*PHI 120 Introductory Logic	
or	
PHI 332 Professional Ethics	3
*PSY 100 Introduction to Psychology	4
*STA 200 Statistics: A Force in Human Judgment	3
*Two courses in BIO, CHE, or PHY	6

*SOC 101 Introduction to Sociology	3
ECO 201 Principles of Economics I	3

**These courses may also be used to fulfill University Studies requirements.*

Subtotal: Premajor Hours 25

Major Requirements

FAM 251 Personal and Family Finance	3
*FAM 252 Introduction to Family Science	3
*FAM 253 Human Sexuality: Development, Behavior and Attitudes	3
FAM 254 Life Course Human Development	3
FAM 360 Introduction to Family Intervention: Working With Families and Individuals	3
FAM 390 Introduction to Research in Family Studies ...	3
FAM 402 Issues in Family Resource Management	3
FAM 499 Internship in Family Science	3
FAM 544 Cultural Diversity in American Children and Families	
or	
FAM 354 The Family in Cross-Cultural Perspective	3
<i>*These courses may also be used to fulfill University Studies requirements.</i>	

Subtotal: Major Hours 27

Professional Support

In addition to the major requirements, each student in consultation with his or her academic advisor will select a minimum of 18-21 credits in course work in a university-recognized minor. At least 12 of these hours must be at the 300 level or above. A minor is a structured group of courses that leads to considerable knowledge and understanding of a subject. Suggested minors include Psychology, Sociology, Gender and Women's Studies, Anthropology, Economics, Political Science, Appalachian Studies, Business, Communication, Health Promotion, Human Nutrition, Community and Leadership Development, etc.

Students must contact the department responsible for the minor program for guidance and advising.

Subtotal: Professional Support Hours 18-21

Electives

Electives at the 300 level or above to reach 120 credits including sufficient credits to reach 45 hours at the 300 level or above. Work with an advisor to select additional FAM classes if available.

Subtotal: Electives 17-20
TOTAL HOURS: 120

**BACHELOR OF SCIENCE
IN CAREER AND
TECHNICAL EDUCATION
with an Option in Family and Consumer
Sciences Education**

The Family and Consumer Sciences Education option of the Bachelor of Science in Career and Technical Education prepares graduates for careers in teaching, extension services, adult education and related activities for consumer and family science programs. Professional education courses in teaching methods and supervised teaching in family and consumer sciences classes at the middle school and high school levels are included in the option. **See further information under Career and Technical Education on page 93.**

Minor in Family Science

Any student interested in a minor in family science should file an application with the department prior to entering the program.

Minor Requirements

FAM 251 Personal and Family Finance	3
FAM 252 Introduction to Family Science	3
FAM 254 Life Course Human Development	3

Plus twelve additional hours in family science with at least six hours at the 300-level or above.

**DEPARTMENT OF
MERCHANDISING, APPAREL, AND
TEXTILES**

The Department of Merchandising, Apparel, and Textiles is committed to excellence as it prepares students for merchandising, apparel, and textiles positions in an increasingly diverse and technological world. Teaching, research, and service programs support student development and contribute to the economic and social well-being of the Commonwealth, the nation, and the world. The department offers the Bachelor of Science in Merchandising, Apparel, and Textiles.

Visit us on the Web at: www.ca.uky.edu/hes/?p=3.

**BACHELOR OF SCIENCE IN
MERCHANDISING, APPAREL, AND
TEXTILES**

The Merchandising, Apparel, and Textiles program develops graduates who are consumer and technology focused with a global orientation. Students study concepts and develop skills necessary for understanding consumer and market trends, strategies, and industry structures that facilitate the development, sourcing, marketing, and merchandising of consumer goods and services in the domestic and international marketplace.

The curriculum challenges students to think creatively, to learn research and problem solving techniques, and to interact in team efforts, while gaining knowledge of the merchandising process. Students gain awareness of the interrelationships of people, technology, and materials in the dynamic social, economic, and global environment of the merchandising, apparel and textile industry. Course work includes a strong business component, interaction with professionals and field experience. Internships are a required component of the program, which can lead to permanent professional placement. Faculty encourage student participation in industry-sponsored projects related to merchandising and product development.

Each student must complete the following:

1. Complete University Studies requirements.*

2. Complete the School requirements listed below.

3. Complete 120 credit hours with a minimum grade-point average of 2.0.

4. Complete the required curriculum in the major program.

**For the Inference section under Inference and Communicative Skills, majors select Philosophy (PHI 120 or PHI 320) and Statistics (STA 200).*

School Requirements

HES 100 An Introduction to Professions in Human Environmental Sciences	1
HES 400 Concepts in Human Environmental Sciences: Integration and Application	2
One course in Human Environmental Sciences, outside the student's major prefix	3
Subtotal: School Required Hours	6

University Studies Requirements

See "University Studies Program" on pages 83-87 for the complete University Studies requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill University Studies areas. Students should work closely with their advisor to complete the University Studies Program requirements.

Program Entrance Requirements

The minimum grade-point average for entrance of all students into the Merchandising, Apparel and Textiles program is 2.0.

Graduation Requirements

MAT majors and transfer students must obtain or have received a **C** or better in ALL premajor, professional support and MAT major required courses. No letter grade of a **D** would be accepted in the premajor, professional support and MAT major required courses.

Premajor Requirements Hours

Writing course (200 level or above)	3
*COM 181 Basic Public Speaking	3
FAM 250 Consumer Issues	3
*PSY 100 Introduction to Psychology	4
*SOC 101 Introduction to Sociology	3
*ECO 201 Principles of Economics I	3
ECO 202 Principles of Economics II	3
*STA 200 Statistics: A Force in Human Judgment	
or	
**STA 291 Statistical Method	3

**These courses may also be used to fulfill University Studies requirements.*

***MA 123 is a prerequisite to STA 291.*

Subtotal: Premajor Hours 25

Major Requirements

MAT 114 Introduction to Merchandising	3
MAT 120 Textiles for Consumers	3
MAT 237 Aesthetic Experience in Retail	3
MAT 247 Dress and Culture	3
MAT 315 Merchandise Planning and Control	3
MAT 340 Professional Practice	1
MAT 350 Problem Solving in Merchandising	3
MAT 414 Merchandising Strategy Analysis	3
MAT 425 Economics of Merchandise Sourcing	3
MAT 470 International Merchandising	3
MAT 490 Internship	6

Choose **6** credits from:

MAT 359 Special Topics in Merchandising, Apparel and Textiles (Subtitle required)	3
---	---

MAT 395 Independent Study in Merchandising, Apparel and Textiles	3
MAT 480 Merchandising, Apparel and Textiles Study Tour	3
MAT 515 Specification and Evaluation of Textiles and Apparel	3
MAT 520 Textiles for Interiors	3
MAT 522 History of Textiles	3
MAT 533 History of Costume	3
MAT 547 Social and Psychological Aspects of Apparel	3
MAT 559 Special Topic in Merchandising, Apparel and Textiles (Subtitle required)	3
MAT 570 Electronic Retailing (E-Tailing)	3
MAT 595 Independent Study in Merchandising, Apparel and Textiles	3
Subtotal: Major Hours	40

Professional Support (21 hours)

ACC 201 Financial Accounting I	3
ACC 202 Managerial Uses of Accounting Information	3
MKT 300 Marketing Management	3
MKT 320 Retail and Distribution Management	3
MGT 301 Business Management	3

plus six hours at the 200 level or above to be chosen with approval of the academic advisor from such areas as business, communication and social sciences or additional MAT courses.

Subtotal: Professional Support 21

Electives

Electives should be selected to complete the minimum total of 120 hours required for graduation.

Subtotal: Minimum Elective Hours 6

TOTAL HOURS 120

**DEPARTMENT OF NUTRITION AND
FOOD SCIENCE**

The Department of Nutrition and Food Science provides sound undergraduate and graduate programs in foods and nutrition, and is concerned with research and extension services.

The department offers the Bachelor of Science in Dietetics, the Bachelor of Science in Hospitality Management, and the Bachelor of Science in Human Nutrition. A post-baccalaureate dietetic internship is also offered.

Visit us on the Web at: www.ca.uky.edu/hes/?p=4.

**BACHELOR OF SCIENCE IN
DIETETICS with a major in
Nutrition and Food Science**

Dietetics prepares professionals who are recognized for expertise in food and nutrition. Graduates of the University of Kentucky Dietetics Program are prepared to become Registered Dietitians to function as entry level professionals with opportunities for practice in medical nutrition therapy, community dietetics, food systems management, and/or the business of dietetics. Becoming a registered dietitian involves a combination of academic preparation, including a minimum of a baccalaureate degree, and a supervised practice component.

The UK NFS Dietetics Program offers two options to earn a bachelor's degree in dietetics. Option A is the Didactic Program in Dietetics (DPD) and Option B is the Coordinated Program in Dietetics (CP). Both options lead to the Bachelor of Science in Dietetics and fulfill the foundation knowledge and/or competencies established by the Commission on Accreditation for Dietetics Education, CADE, the accrediting agency for American Dietetic Association, ADA. The DPD and the CP are both fully accredited by CADE. Option B, CP, is a selective admission program to which students must apply prior to beginning the major course work in the third year of the dietetics program.

Option A, designated as the Didactic Program in Dietetics, DPD, focuses on the foundation knowledge requirements provided by the academic component of dietitian education. A student must be a declared dietetics major in the Department of Nutrition and Food Science to complete the DPD. Students must attain a grade-point average of **2.4** or above to progress into course work designated as major requirements.

Successful completion of the DPD curriculum enables graduates to apply to a CADE-accredited supervised practice program, SPP, in a post-baccalaureate Dietetic Internship.

Upon successful completion of the Dietetic Internship the individual is eligible to sit for the national registry exam administered by the Commission on Dietetic Registration, CDR, the credentialing agency of the ADA, which grants use of the nationally recognized credential "RD" Registered Dietitian.

Graduates of the UK NFS Option A may apply for placement in the Dietetic Internship program offered by the Department of Nutrition and Food Science, School of Human Environmental Sciences, or any other CADE-accredited dietetic internship outside the department. Students must consider the highly competitive scenario in competing for acceptance into a Dietetic Internship.

Option B, designated as the Coordinated Program in Dietetics, CP, provides the foundation knowledge requirements provided by the academic component of dietitian education (see DPD above) and a CADE-accredited supervised practice component. Students who have completed the premajor requirements and are interested in the Coordinated Program to attain the academic preparation and supervised practice program through the UK NFS Dietetics Program may apply for admission to Option B, the CP. Option B requires three additional semesters of didactic course work in the major requirements prior to beginning the 1,200 hour supervised practice program. Students in the CP must successfully complete the didactic and supervised practice component to receive the B.S. in Dietetics degree.

The CADE-accredited CP is a selective admission program. Admission to the University of

Kentucky NFS Dietetics Program does not guarantee admission to the Coordinated Program, CP. A limited number of students who have completed the required preprofessional courses will be admitted on the basis of cumulative grade-point average, potential qualities for becoming a successful dietitian, leadership potential and professional involvement and commitment.

The application deadline for the UK NFS CP is February 1, prior to potential fall admission in Year Three of the Dietetics Program. Year Three of the Dietetics Program is the beginning of the Major Requirements for completion of course work. Program application materials should include an application form, a letter of professional goals and qualifications, three letters of reference, and record of academic performance.

The CP Admissions Committee considers grade-point average, letter of application, work experience, honors and extracurricular activities and letters of recommendation. Students who apply to the UK NFS CP will be granted an interview where the applicant's goals, communication skills, knowledge of the profession, and organizational and leadership skills are evaluated.

Successful CP applicants will be notified of provisional acceptance into the CP before UK's priority registration dates for the ensuing fall semester. Final acceptance depends on successful completion of the work in progress at the time of the application and throughout the remaining didactic component prior to beginning the supervised practice component of the undergraduate dietetics program.

Transfer students are urged to contact the Advising Resource Office, 112 Erikson Hall, for a preliminary evaluation of credits well in advance of the application date. Year Three of the Dietetics Program is the beginning of the Major Requirements for completion of course work. CP applicants must be a declared major in the UK NFS dietetics program or if a transfer student, indicate intent to declare dietetics as their major. Students accepted into the CP must be majors in the UK NFS dietetics program.

Successful completion of Option B, the UK NFS CP, results in the Bachelor of Science in Dietetics degree. Graduates of Option B are eligible to sit for the national registry exam administered by the Commission on Dietetic Registration, CDR, the credentialing agency of the ADA, which grants use of the nationally recognized credential "RD" Registered Dietitian.

The UK NFS CADE-accredited Dietetic Internship, DI, is offered for students who have completed a Didactic Program in Dietetics at UK or other CADE-accredited institutions. Qualified graduates compete for a limited number of positions in the UK NFS DI. For information regarding the UK NFS Dietetic Internship, the application and/or screening procedures, please contact:

College of Agriculture and School of Human Environmental Sciences
Director, Dietetic Internship Program
Department of Nutrition and Food Science
203 Funkhouser Building
University of Kentucky
Lexington, KY 40506-0054

Degree Requirements

Each student must complete the following:

1. Complete University Studies requirements.
2. Complete the School requirements listed below.
3. Complete 128 credit hours with a minimum grade-point average of 2.0.
4. Complete the required curriculum in the major program.

School Requirements

HES 100 An Introduction to Professions in Human Environmental Sciences	1
HES 400 Concepts in Human Environmental Sciences: Integration and Application	2
One course in Human Environmental Sciences, outside the student's major prefix	3
Subtotal: School Required Hours	6

University Studies Requirements

See "University Studies Program" on pages 83-87 for the complete University Studies requirements. Students should work closely with their advisor to complete the University Studies Program requirements.

Progression Requirements

Students must attain a grade-point average of **2.4** or above to progress into course work designated as major requirements. In addition, students must achieve a grade of **C** or better in all course work designated as major requirements.

Students must complete the following requirements:

Premajor Requirements	Hours
BIO 152 Principles of Biology II	3
BIO 208 Principles of Microbiology	3
CHE 105 General College Chemistry I	3
CHE 107 General College Chemistry II	3
CHE 111 Laboratory to Accompany General Chemistry I	1
CHE 113 Laboratory to Accompany General Chemistry II	2
CHE 230 Organic Chemistry I or	
CHE 236 Survey of Organic Chemistry	3
CLA 131 Medical Terminology from Greek and Latin ...	3
ECO 201 Principles of Economics I	3
NFS 212 Introductory Nutrition	3
NFS 241 Food Service Sanitation	1
NFS 302 Principles of Food Preparation	3
PGY 206 Elementary Physiology	3
PSY 100 Introduction to Psychology	4
SOC 101 Introduction to Sociology	3
STA 200 Statistics: A Force in Human Judgment	3
Subtotal: Premajor Hours	44

Major Requirements Hours

Prior to beginning the major requirements, students should indicate a choice of Option A or Option B with the Advising Resources Office, 112 Erikson Hall, and the UK NFS Dietetics Program, 203 Funkhouser. Option B is a selective admissions program.

ACC 201 Financial Accounting I	3
NFS 301 Dietetics Practice	2
NFS 304 Experimental Foods	3
NFS 311 Nutritional Biochemistry	3
NFS 312 Nutrition and Wellness in the Life Cycle	3
NFS 340 Institutional Purchasing	3
NFS 342 Quantity Food Production	4
NFS 346 Human Resources Management for the Food and Hospitality Industries or	
MGT 301 Business Management	3
NFS 403 Community Nutrition and Wellness	3
NFS 408G Seminar in Food and Nutrition	1
NFS 510 Advanced Nutrition	3
NFS 514 Dietetics: Counseling and Communication Theories and Applications	3
NFS 515 Medical Nutrition Therapy	5

Subtotal: Major Hours 39

Option Requirements

One option must be completed concurrently with the major requirements stated above.

Option A – Didactic Program in Dietetics (DPD)

NFS 480 Dietetics Pre-Professional Practice	1-6
---	-----

Subtotal: Option A 1-6

Option B – Coordinated Program in Dietetics (CP)

Option B requires the student to apply to admission to the CP after completion of premajor requirements. See Bulletin for details.

NFS 800 Nutrition in the Life Cycle: Practicum*	1
NFS 808 Community Nutrition II: Supervised Practice*	2
NFS 810 Medical Nutrition Therapy I: Supervised Practice*	5
NFS 812 Food Service Systems Management: Supervised Practice*	5
NFS 814 Food Service Systems Management II: Supervised Practice*	3
NFS 816 Medical Nutrition Therapy II: Supervised Practice*	3
NFS 518 Evaluation of Dietetic Issues and Leadership	2

*800-level course requires admission to CP.

Subtotal: Option B 21

Electives

Electives should be selected by the student to lead to the minimum total hours required for graduation.

Subtotal: Minimum Elective Hours 1-15

TOTAL HOURS: Option A 128

TOTAL HOURS: Option B 137

Requests for applications or further information may be directed to:

**Director, Coordinated Program
Department of Nutrition
and Food Science
203 Funkhouser Building
University of Kentucky
Lexington, KY 40506-0054**

**BACHELOR OF SCIENCE IN
HOSPITALITY MANAGEMENT**

In the Hospitality Management and Tourism program option in Nutrition and Food Science, which leads to the B.S. in Hospitality Management, students acquire the specialized knowledge needed for careers in the hospitality industry. They also receive training in the basic functions, objectives, and techniques of management. The student is prepared for managerial positions in hotels, restaurants, non-commercial food service and tourism areas, as well as positions as purchasing agents, food service equipment specialists, food service planning specialists, and other careers.

Entrance Requirement

The minimum grade-point average for entrance of all students into the Hospitality Management and Tourism program is **2.30**.

Progression Requirement

In addition, students must have completed the following premajor courses with a grade of **C** or better in order to progress to courses which are major requirements: CS 101, ACC 201, ACC 202, ECO 201, ECO 202, HMT 120, HMT 210, NFS 241, and HMT 270.

Graduation Requirement

Students must fulfill all prerequisites and achieve a grade of **C** or better in all NFS and HMT courses which are major requirements.

Each student must complete the following:

1. Complete University Studies requirements.
2. Complete the School requirements listed below.
3. Complete 128 credit hours with a minimum grade-point average of 2.0.
4. Complete the required curriculum in the major program.

School Requirements

HES 100 An Introduction to Professions in Human Environmental Sciences	1
HES 400 Concepts in Human Environmental Sciences: Integration and Application	2
One course in Human Environmental Sciences, outside the student's major prefix	3

Subtotal: School Required Hours 6

University Studies Requirements Hours

See "University Studies Program" on pages 83-87 for the complete University Studies requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill University Studies areas. Students should work closely with their advisor to complete the University Studies Program requirements.

Math

MA 123 Elementary Calculus and Its Applications	3
---	---

Social Sciences

ECO 201 Principles of Economics I	3
plus one other course from University Studies Program social sciences list	3

Premajor Requirements Hours

Two semesters of a single foreign language	6-8
--	-----

Diversity Requirements

These courses will **NOT** satisfy the USP Cross-Cultural requirement for HMT majors:

ANT 160 Cultural Diversity in the Modern World plus one of the following courses: ANT 220 Introduction to Cultural Anthropology ANT 324 Contemporary Latin American Cultures ANT 327 Culture and Societies of India AAS 200 Introduction to African-American Studies GWS 200 Introduction to Gender and Women's Studies in the Social Sciences	6
CS 101 Introduction to Computing I	3
ACC 201 Financial Accounting I	3
ACC 202 Managerial Uses of Accounting Information	3
COM 181 Basic Public Speaking	3
ECO 201 Principles of Economics I	3
ECO 202 Principles of Economics II	3
ENG 203 Business Writing	3
HMT 120 Introduction to Hospitality Management and Tourism	3
HMT 210 Hotel Rooms Division Management	3
HMT 270 Principles of Travel and Tourism	3
MA 123 Elementary Calculus and Its Applications (prerequisite for STA 291)	3
STA 291 Statistical Method	3
NFS 241 Food Service Sanitation	1

Subtotal: Premajor Hours 49-51

Major Requirements Hours

Required:

HMT 308 Principles of Food and Beverage or NFS 302 Principles of Food Preparation	3
HMT 345 Information Technology in the Hospitality Industry	3
HMT 350 Hospitality Managerial Accounting	3
HMT 499 Hospitality and Tourism Internship	3
NFS 342 Quantity Food Production	4
FIN 300 Corporation Finance	3
MGT 301 Business Management	3
MKT 300 Marketing Management	3

Subtotal: Major Core Hours 25

Plus at least 15 hours selected from the following courses. Only three hours of HMT 395 may count for this requirement:

NFS 340 Institutional Purchasing	3
NFS 346 Human Resources Management for the Food and Hospitality Industries	3
HMT 320 Hospitality and Tourism Marketing	3
HMT 330 Meetings and Convention Management	3
HMT 360 Tourism Planning and Development	3
HMT 460 Advanced Seminar in Lodging and Tourism	3
HMT 470 Hospitality and Tourism Law and Ethics	3
HMT 480 Trends Analysis for the Hospitality Industry	3
HMT 488 Strategic Management in the Hospitality and Food Service Industry	3
HMT 359 Hospitality and Tourism Special Topics: (subtitle required)	1-3
HMT 395 Hospitality and Tourism Independent Study	1-3

Subtotal: Major Selection 15

Electives

Electives should be selected by the student to lead to the minimum total of 128 hours required for graduation.

Subtotal: Minimum Elective Hours 4

TOTAL HOURS: 128

**BACHELOR OF SCIENCE IN
HUMAN NUTRITION with a major in
Human Nutrition**

The Bachelor of Science in Human Nutrition offers appropriate preparation for further study in nutritional sciences and health-related sciences, particularly public health, preventive medicine, and nutrition research.

Each student must complete the following:

1. Complete University Studies requirements.
2. Complete the School requirements listed below.
3. Complete 120 credit hours with a minimum grade-point average of 2.0.
4. Complete the required curriculum in the major program.

School Requirements

HES 100 An Introduction to Professions in Human Environmental Sciences	1
HES 400 Concepts in Human Environmental Sciences: Integration and Application	2
One course in Human Environmental Sciences, outside the student's major prefix	3
Subtotal: School Required Hours	6

University Studies Requirements

See "University Studies Program" on pages 83-87 for the complete University Studies requirements. Students should work closely with their advisor to complete the University Studies Program requirements.

Premajor Requirements	Hours
*PSY 100 Introduction to Psychology	4
*MA 113 Calculus I or	
MA 123 Elementary Calculus and Its Applications	3-4
*CHE 105 General College Chemistry I	3
*CHE 107 General College Chemistry II	3
*CHE 111 Laboratory to Accompany General Chemistry I	1
*CHE 113 Laboratory to Accompany General Chemistry II	2
CHE 230 Organic Chemistry I	3
CHE 231 Organic Chemistry Laboratory I	2
CHE 232 Organic Chemistry II	3
CHE 233 Organic Chemistry Laboratory II	2
STA 291 Statistical Method	3
*BIO 150 Principles of Biology I	3
*BIO 151 Principles of Biology Laboratory I	2
*BIO 152 Principles of Biology II	3
*BIO 153 Principles of Biology Laboratory II	2
COM 181 Basic Public Speaking or	
COM 252 Introduction to Interpersonal Communication or	
COM 287 Persuasive Speaking	3
PGY 206 Elementary Physiology	3
ANA 209 Principles of Human Anatomy	3
Subtotal: Premajor Hours	48-49

**These courses may also be used to fulfill University Studies requirements.*

Major Requirements	Hours
NFS 212 Introductory Nutrition	3
NFS 241 Food Service Sanitation	1
NFS 302 Principles of Food Preparation	3
NFS 304 Experimental Foods or	
FSC 434G Food Chemistry	3-4
NFS 311 Nutritional Biochemistry	3
NFS 312 Nutrition and Wellness in the Life Cycle	3
NFS 315 Nutrition Issues in Physical Activity	3
NFS 403 Community Nutrition and Wellness	3
NFS 408G Seminar in Food and Nutrition	1
NFS 474 Research in Nutrition: Theory	3
NFS 475 Research in Nutrition: Application	3
NFS 510 Advanced Nutrition	3

At least 45 hours of course credit at the 300-level or above is required for graduation.

Subtotal: Major Hours **32-33**

Professional Support Electives

Select 18 hours in Professional Support Electives at the 200 level or above.

Subtotal: Professional Support Hours **18**

Electives

Electives should be selected by the student to complete the minimum total of 120 hours required for graduation.

Subtotal: Minimum Elective Hours **3**

TOTAL HOURS: **120**

Mark Kornbluh, Ph.D., is Dean of the College of Arts and Sciences; Theodore R. Schatzki, Ph.D., is Associate Dean of Faculty; Leonidas G. Bachas, Ph.D., is Associate Dean of Research and Academic Programs; John Pica, M.P.A., is Assistant Dean for Finance; Adrienne B. McMahan, M.S., is Assistant Dean for Undergraduate Affairs; JoLynn Noe, M.S., is Assistant Dean for Enrollment Management; Kirsten Turner, Ph.D., is Assistant Dean for Academic Planning and Analysis.

The College of Arts and Sciences embodies the liberal arts: the natural sciences and mathematics, the social sciences, and the humanities. Students augment their knowledge in all three areas by exploring the interconnections among them.

Study of the liberal arts opens to students the vast scope and excitement of human intellectual and cultural achievement. It enlarges the student's vision and enriches the student's life. Study of arts and sciences prepares students for life-long learning and vocational success. It also prepares them for a life of effective civic participation as informed and critical citizens of a diverse global society.

In essence, an Arts and Sciences education fosters the ability to think and learn independently. Arts and Sciences graduates are well prepared to meet future technological and cultural transformations.

Undergraduate Programs in Arts and Sciences

The University of Kentucky grants the following degrees in the College of Arts and Sciences:

- Bachelor of Arts
- Bachelor of Science

Students pursuing the Bachelor of Arts or the Bachelor of Science select from these majors: anthropology, biology, chemistry, classics, economics, English, French, geography, geology, German, history, international studies, linguistics, mathematical economics, mathematics, philosophy, physics, political science, psychology, Russian studies, sociology, Spanish, and topical studies. The College also offers a Bachelor of Arts in Gender and Women's Studies.

For more information on degree programs, visit: www.as.uky.edu/.

ADMISSION

Admission requirements are the same as those of the University, except for the topical studies major. Prospective students should see the college Web site: www.as.uky.edu/.

PROGRAMS AND SERVICES

Academic Advising

Academic advising in the College of Arts and Sciences is provided by professional advisors and graduate students in the department of the student's major during advising conferences and throughout the year, except junior and senior Economics majors.* A&S freshmen see a professional advisor located in the A&S Advising Center on the second floor of Patterson Office Tower. Students with 30 or more earned hours are advised by a professional advisor in the student's major department. Students may schedule an advising appointment at: www.as.uky.edu/advising/sasy/.

*Junior and senior economics majors are advised by selected faculty in the Department of Economics. To schedule an appointment, stop by 335 B&E or call (859) 257-3626.

All Arts and Sciences students have an advising hold placed on their record requiring the student to meet with their A&S academic advisor prior to registration each semester. Arts and Sciences students on academic probation will have an additional hold placed on their record. A&S students on probation are expected to meet with their academic advisor at the beginning of each semester and before the last day to withdraw from classes. For more information concerning these meetings, contact the A&S Advising Center at (859) 257-8712.

All Arts and Sciences students are expected to familiarize themselves with the degree requirements and keep track of requirements. The University has an online degree audit system called APEX (www.uky.edu/degreeaudit/). Students are expected to view their personalized degree audit prior to any advising session where scheduling for classes will be discussed.

Routine questions concerning USP, college, major and minor requirements, grade-point average, repeat or bankruptcy options, transient student forms, credit overload requests, transfer credit equivalencies, forms required for graduation, and changing majors should be addressed to the student's academic advisor. For more information, visit www.as.uky.edu.

Dean's List

A student who completes at least **12 credits** of "letter" grades with a **3.60** or higher grade-point average with no "I" grades listed for the fall or spring semester will be named to the Dean's

List in the College of Arts and Sciences. CLEP, AP, special exam, remedial course work (MA 108R) and Independent Study credits are **excluded**. The student's cumulative grade-point average is not considered; only the grade-point average for that particular semester is relevant. Exceptional circumstances including fewer than 12 credits will be considered for inclusion on the Dean's List; students should submit a petition to the A&S Advising Center, 257 Patterson Office Tower.

Commencement and Departmental Honors

Commencement honors are determined by University standards. A full explanation of these honors can be found in the *Graduation Requirements* section of this Bulletin (pages 78-79). Please note that if a student has not completed at least 90 hours at the University of Kentucky, but has completed at least 60 hours at the University of Kentucky, the student is eligible for commencement honors, but is held to a 0.2 point higher standard. If the student has not completed at least 60 hours, the student is not eligible for commencement honors. Commencement honors are indicated on the student's final transcript and announced at the College Baccalaureate Recognition Ceremony.

Departments in the College of Arts & Sciences award departmental honors to their outstanding graduates. The standards for departmental honors are not collectively established by the College, but determined by each department. For details on departmental honors, see *Guide to A&S Departmental Honors Requirements* on page 108. Address questions to the department awarding honors. Departmental honors are indicated on the student's final transcript.

Scholarships

For information on general scholarships in the College of Arts and Sciences, contact the A&S Advising Center, 257 Patterson Office Tower, (859) 257-8712, or www.as.uky.edu/. Students interested in scholarships in a specific major should contact the individual department.

College Policy on Learning Disabilities

The College of Arts and Sciences anticipates that virtually all of its students will satisfy all of its requirements. However, any student who believes that he or she can show evidence – by diagnostic testing and/or psychological evaluation – that he or she has a learning disability which

Guide to A&S Departmental Honors Requirements

Major	Cumulative GPA	Criteria
Anthropology	3.5	Senior honors thesis related to general issues within the topical sub-discipline; formation of a 3-person advisory committee (the DUS always serves as one of these three); a thesis defense. Normally, students enroll in ANT 581 to receive course credit for their Senior Honors Thesis preparation. (30 pages, double-spaced.)
Biology	3.5	6 credit hours of BIO 395, Research in Biology. A public presentation of one's research results. Such a presentation can be a journal article, a seminar given to a diverse group, a talk or poster at a professional meeting, a thesis, or some form of public presentation approved by the Director of Undergraduate Studies in Biology.
Chemistry	3.5	12 hours in CHE or BCH courses (other than CHE 440G, 441G, and 572) at or above the 300 level. At least 6 of those hours must be in CHE 395. 3.5 cumulative GPA and 3.5 major GPA or above.
Classics	3.5	3.5 cumulative GPA or above and the completion of 300-level course in Greek or Latin with a grade of B or above.
Economics	3.2	3.2 cumulative GPA or above and 3.2 major GPA.
English	3.75	1) 3.75 cumulative GPA or above in courses taken at UK which count or could count toward the English major and premajor. 2) At least 8 such courses taken at UK (i.e., not transferred).
French	3.5	3.5 cumulative GPA and a major GPA of 3.75 or above.
Geography	3.5	3.5 cumulative GPA and major GPA of 3.5 or above.
Geology	3.5	3.3 cumulative GPA and senior thesis or 3.5 cumulative GPA or above.
German	3.5	3.5 cumulative GPA or above.
Hispanic Studies	3.5	3.5 cumulative GPA or above in 300-500 level Spanish courses.
History	3.3	3.5 departmental GPA or above and successful completion of the HIS 470/471 sequence with grades of A or B in both courses.
Linguistics	3.75	3.75 cumulative GPA or above in courses taken at UK which count or could count toward the linguistics major and premajor. At least 8 such courses taken at UK (i.e., not transferred).
Mathematical Economics	3.2	3.2 cumulative GPA or above and 3.2 major GPA or above.
Mathematics	3.5	3.5 cumulative GPA or above.
Philosophy	3.5	3.5 cumulative GPA or above in PHI courses.
Physics	3.4	3.4 cumulative GPA or above and 3.4 major GPA or above in physics and astronomy. All students awarded department honors will have fully participated in independent study or research including the preparation of a final report; participation with a high grade in a three-credit-hour PHY 395 or participation in a summer research experience are ways of achieving this. Other factors such as citizenship, leadership in the Society of Physics Students, and other meritorious activity will be considered in the selection of seniors for graduation with honors.
Political Science	3.5	3.5 cumulative GPA or above, and successful completion of an honors thesis. Students normally fulfill the thesis requirement by taking PS 490, Honors in Political Science, offered during the spring semester. Should that option be unavailable, however, students might be able to arrange writing a thesis under faculty guidance as part of PA 395, the department's Independent Study course.
Psychology	3.5	3.6 major GPA or above and successful completion of PSY 495 and PSY 496.
Russian Studies	3.5	3.5 cumulative GPA and a 3.75 major GPA or above.
Sociology	3.5	3.5 cumulative GPA or above.
Topical	3.6	3.6 cumulative GPA or above and recommendation of the Associate Dean based on the final thesis.

warrants course substitution of any specific college requirement may request such an exception from the Assistant Dean of Undergraduate Affairs in the College. Students should begin their inquiries and/or discussions in the UK Disability Resource Center, 102 Alumni Gym.

Readmission After a Two-Year Absence

In accordance with the University Senate rules which allow the dean of each college to determine which degree requirements a returning student shall follow, students should note the following: Students enrolling in the College of Arts and Sciences after an absence from the University of Kentucky system of two or more years will be expected to satisfy the university, college, graduation, and department requirements in effect at the time of readmission.

Students with extenuating circumstances may petition the Assistant Dean of Undergraduate Affairs for permission to continue under the degree requirements that were in effect during their previous enrollment in the UK system.

ACADEMIC SUSPENSION AND REINSTATEMENT

The College of Arts and Sciences follows the general University rules for academic suspension and reinstatement, which are outlined in the *Academic Requirements* section of this Bulletin. Students placed on academic suspension **must be reinstated by the college in which they plan to enroll** before applying for readmission to the university. Students planning to pursue a degree program in the College of Arts and Sciences should arrange for reinstatement proceedings before **May 15** for any fall semester reinstatement, or **October 1** for any spring semester reinstatement by calling A&S Student Services, (859) 257-8712. Students who fail to request reinstatement prior to these deadlines will normally not be considered for reinstatement until the subsequent semester.

A student who has been suspended for a second time from the University of Kentucky will usually not be considered for reinstatement by the College of Arts and Sciences until **two years** have passed since the date of the second suspension.

THE BACHELOR OF ARTS AND BACHELOR OF SCIENCE DEGREES

Students must complete **four** areas of requirements to obtain a UK Arts and Sciences degree. The four areas are: University Studies Program (USP); major requirements; college requirements; and university graduation requirements. The following information outlines the specific degree requirements for the B.A. and the B.S. in Arts and Sciences. Please read them carefully and also note the *specific* differences in each degree program.

The B.S. degree requires **three hours** in college disciplinary requirements for the natural sciences, social sciences and humanities beyond those required for the University Studies Program and requires **60 hours of physical, biological and/or mathematical sciences**.

The B.A. degree requires **six hours** in college disciplinary requirements for the natural sciences, social sciences and humanities beyond those required for the University Studies Program and requires **39 hours in course work numbered at or above the 300 level**.

College Requirements for a Bachelor of Arts Degree

It is important to review the “NOTES” section that immediately follows the “College Requirements for a Bachelor of Science Degree” section.

To receive the Bachelor of Arts degree, students must:

1. Complete the University Studies program (USP).¹
2. Complete the following college requirements:

a. Foreign Language Requirement. Students must satisfy one of the following options:

1. satisfy the third and fourth semester of a college-level sequence in one language (including sign language) by successfully completing each semester course, or by demonstrating equivalent competency on a departmentally approved placement exam; **or**
2. successfully complete three college-level semester courses in one language and two college-level semester courses in a second language. (Two college-level semester courses are considered equal to two years of a foreign language in secondary school. No other equivalencies are given for more years of foreign language as indicated on transcripts), or demonstrate equivalent competency on a departmentally approved placement exam (all options include sign language); **or**
3. attain the Undergraduate German Studies Certificate (contact the Department of Modern and Classical Languages, Literatures and Cultures for more information);

Courses taken to satisfy options 1, 2 or 3 above may not be taken pass/fail or audit; **or**

4. To demonstrate your proficiency in a language not taught at UK, contact the Office of International Affairs with regard to taking a proficiency exam. You are responsible for any costs related to testing. All A&S students are encouraged to take a foreign language placement exam at the time of their initial enrollment at UK or during their advising conference; **or**

5. If you have a specific language-learning disability that is certified through the UK Disability Resource Center, you may petition the College for a substitution of course work in lieu of completing the language courses normally taken for the foreign language requirement; **or**
6. International students, excluding native speakers of English, automatically fulfill this requirement; **or**
7. International students who graduated from a U.S. high school and are unable to provide proficiency exam results may petition the Assistant Dean for a waiver of the College foreign language requirement; students must provide official documentation establishing that English is their second language.

When appropriate, courses used to satisfy **b** through **d** below also can be used to satisfy the USP Cross-Cultural and Electives requirements.†

- b. Students must take **six** college hours in disciplines in the natural sciences.†
- c. Students must take **six** college hours in disciplines in the social sciences.†
- d. Students must take **six** college hours in disciplines in the humanities.
3. Complete at least **120** credit hours in courses acceptable to the College of Arts and Sciences.²
4. Complete at least **90** credit hours in Arts and Sciences courses.³
5. Complete at least **39** credit hours in courses numbered at or above the 300 level.⁴
6. Complete at least **six** credit hours of pre-major courses in the departmental major. This is not required for the Topical Studies major or the International Studies – Foreign Language and International Economics major.
7. Complete at least **42** credit hours within the major and courses outside the major (excluding premajor course work). At least 24 of these hours must be at or above the 300 level.
8. Complete at least one course in disciplines from the natural sciences or social sciences that includes some laboratory or field experience. (See the description of the *College Laboratory or Field Experience Requirement* which follows.)
9. Attain an overall grade-point average of at least 2.0.
10. Attain a grade-point average of at least 2.0 in all major requirements courses (including all premajor courses).
11. Complete a minimum of **six** credit hours of free electives. These college electives cannot be counted towards University Studies Program or Arts and Sciences major requirements.
12. Complete University graduation requirements: Inference Requirement, University Writing Requirement (which includes the First Year Writing Requirement and the Graduation Writing Requirement), and the residence requirement.

†See *College Core Requirements for B.A. and B.S. Degrees* following the next section.

College Requirements for a Bachelor of Science Degree

It is important to review the “NOTES” section that immediately follows the “College Requirements for a Bachelor of Science Degree” section.

To receive the Bachelor of Science degree, students must:

1. Complete the University Studies program (USP) requirements.¹

2. Complete the following college requirements:

a. Foreign Language Requirement. Students must satisfy one of the following options:

1. satisfy the third and fourth semester of a college-level sequence in one language (including sign language) by successfully completing each semester course, or by demonstrating equivalent competency on a departmentally approved placement exam; **or**

2. successfully complete three college-level semester courses in one language and two college-level semester courses in a second language. (Two college-level semester courses are considered equal to two years of a foreign language in secondary school. No other equivalencies are given for more years of foreign language as indicated on transcripts), or demonstrate equivalent competency on a departmentally approved placement exam (all options include sign language); **or**

3. attain the Undergraduate German Studies Certificate (contact the Department of Modern and Classical Languages, Literatures and Cultures for more information);

Courses taken to satisfy options 1, 2 or 3 above may not be taken pass/fail or audit; **or**

4. To demonstrate your proficiency in a language not taught at UK, contact the Office of International Affairs with regard to taking a proficiency exam. You are responsible for any costs related to testing. All A&S students are encouraged to take a foreign language placement exam at the time of their initial enrollment at UK or during their advising conference; **or**

5. If you have a specific language-learning disability that is certified through the UK Disability Resource Center, you may petition the College for a substitution of course work in lieu of completing the language courses normally taken for the foreign language requirement; **or**

6. International students, excluding native speakers of English, automatically fulfill this requirement; **or**

7. International students who graduated from a U.S. high school and are unable to

provide proficiency exam results may petition the Assistant Dean for a waiver of the College foreign language requirement; students must provide official documentation establishing that English is their second language.

When appropriate, courses used to satisfy **b** through **d** below also can be used to satisfy the USPCross-Cultural and Electives requirements.†

b. Students must take **three** college hours in disciplines in the natural sciences.†

c. Students must take **three** college hours in disciplines in the social sciences.†

d. Students must take **three** college hours in disciplines in the humanities.

3. Complete at least **120** credit hours in courses acceptable to the College of Arts and Sciences.²

4. Complete at least **90** credit hours in Arts and Sciences courses.³

5. Complete at least **60** credit hours in the physical, biological and/or mathematical sciences.⁵

6. Complete at least **six** credit hours of pre-major courses in the departmental major. This is not required for the Topical Studies major or the International Studies – Foreign Language and International Economics major.

7. Complete at least **42** credit hours within the major and courses outside the major (excluding premajor course work). At least 24 of these hours must be at or above the 300 level.

8. Complete at least one course in disciplines from the natural sciences or social sciences that includes some laboratory or field experience. (See the description of the *College Laboratory or Field Experience Requirement* which follows.)

9. Attain an overall grade-point average of at least 2.0.

10. Attain a grade-point average of at least 2.0 in all major requirements courses (including all premajor requirements).

11. Complete a minimum of **six** credit hours of free electives. These college electives cannot be counted towards University Studies Program or any other Arts and Sciences major or college requirements.

12. Complete University graduation requirements: Inference Requirement, University Writing Requirement (which includes the First Year Writing Requirement and the Graduation Writing Requirement), and the residence requirement.

†See *College Core Requirements for B.A. and B.S. Degrees* following the next section.

NOTES

1. See the *University Studies Program* section of this Bulletin for a detailed explanation of the requirements.

With regard to the A&S departments which provide an alternate route for satisfying the USP Oral Communication Requirement, please use the following guide:

Aerospace Studies – AFS 311, 313, 411, 413 (complete all)

Anthropology – COM 199 plus ANT 582

Chemistry – COM 199 plus CHE 572 (taken twice in separate semesters)

Economics – COM 199 plus ECO 499

German – GER 206 plus GER 307

Military Science – AMS 301, 302, 341, 342 (complete all)

Russian and Eastern Studies – COM 199 plus RUS 499

2. a. a01-099 courses, or courses followed by an “R” designation **cannot** be counted as credit towards a bachelor’s degree.

b. Physical education one-hour service courses (KHP) **are** acceptable as electives only and may count toward the total 120 minimum hours needed to graduate. Only **one** successful completion of multiple completions of the same KHP course will count.

c. A maximum of 16 semester credit hours earned in military science (AMS) and aerospace studies (AFS) are acceptable towards fulfilling both the College 90-hour and 120-hour requirement for the B.A. or B.S. degree. AMS/HIS 320 is not included in this 16 hour limit.

d. A maximum of 12 semester credit hours earned in experiential education and internship courses (EXP 396, departmental 399 courses) will be accepted. For ANT 399, SOC 399 and SPA 399, a maximum of 15 semester credit hours can be earned. See *Experiential Education and Internship Course* section within the Arts and Sciences section of the Bulletin.

e. All courses offered by the College of Arts and Sciences are acceptable with the exception of MA 108R.

f. Courses transferred from other institutions and judged by the Assistant Dean of Undergraduate Affairs to be equivalent or comparable to Arts and Sciences courses are acceptable.

g. Usually the College will apply only six hours of technical course work taken at any institution.

h. The student is permitted to elect and count toward graduation courses in other colleges within the University of Kentucky or their equivalent from other institutions, not to exceed 30 hours. Hours taken in the other colleges at UK gained during the junior and senior years may, if at the 200-level or above, be counted towards the major requirements with approval from the faculty advisor and the Assistant Dean of Undergraduate Affairs.

i. A maximum of 30 semester credit hours taken through UK’s Independent Study Program.

j. Courses with an “S” grade designation or a “place holder” designation such as ISP (Study Abroad, 1 credit hour) or NSE (National Student Exchange, 1 credit hour) **cannot** be counted as credit toward a bachelor’s degree.

3. Courses classified as Arts and Sciences courses for purposes of the 90-hour requirement include all courses offered by the College of Arts and Sciences; all art history courses; all courses in music and theatre appreciation and ART 100 plus the history of music and theatre; ARC 820, ARC 822; KHP 290; all economics courses; all undergraduate courses in the Department of Computer Sciences (CS); all undergraduate courses in the Department of Communication (COM); and all American Sign Language courses officially transferred to the student’s UK record.

4. CHE 230, 231, 232, 233 and ARC 820 and 822 will count towards the 39 credit hours in courses numbered at or above the 300 level needed for degree requirements. Please note that courses numbered 800-899 cannot be counted as 300-level and above for the purpose of completing the 39 hours needed for the degree, with the exception of ARC 820 and 822.

5. The following courses will count toward the required 60 credit hours in the physical, biological and/or mathematical sciences hours for the Bachelor of Science degree: all courses with a MA prefix (except MA 108R); all courses listed under the USP Natural Sciences area; all anatomy courses; all physiology courses; all biochemistry courses; all statistics courses; all computer science courses; ECO 391; GEO 130, GEO 230, GEO 351, GEO 451G, and GEO 530; PHI 120 and PHI 320; NFS 101; PSY 215, PSY 216, PSY 312, PSY 456, and PSY 565; and ANT 230, 332, and 333.

College Core Requirements for B.A. and B.S. Degrees

To satisfy the Arts and Sciences college core requirement, students complete **three to six** college hours in the disciplines of the natural sciences, social sciences, and humanities.

Students may also use other courses taught at UK if they are listed within the approved sections of the University Studies Program. Please refer to the course listing under VI., VII. and VIII. of the University Studies Program in this Bulletin.

Natural Sciences

- All courses offered by Arts and Sciences departments or programs within the disciplines of the natural sciences including courses with the following departmental prefixes: **AST, BIO, CHE, GLY, PHY.**
- The following courses may also be used to satisfy the Arts and Sciences College requirement for course work within the discipline of natural sciences. However, if used to count as a Natural Science they cannot also be used for any Social Science requirement.
 - ANA 209
 - ANT 230, 332, 333
 - CGS 500
 - ENS 200, 400
 - ENT 110, 300
 - GEO 130, 230, 351, 451G, 530
 - NFS 101
 - PGY 206
 - PLS 104
 - PSY 312, 456, 565

Students may count any hours in excess of six (six being the requirement for completing the Natural Sciences area of the Disciplinary Requirement for the University Studies Program) toward fulfillment of the “college hours” required in Arts and Sciences in the Natural Sciences area of the USP Disciplinary Requirement. This will be on an “hours” basis rather than on a “course number” basis. Students may find themselves with one to four credits available for use in meeting the college hours requirement in Natural Sciences. This course work beyond the six hours of USP will apply to all Arts and Sciences students regardless of where the course work was completed, i.e., main campus or transfer credit. This rule applies **only** to the A&S Natural Sciences area.

Social Sciences

- All courses offered by Arts and Sciences departments or programs within the disciplines of the social sciences including courses with the following departmental prefixes: **AC, ANT, APP, ECO, GEO, GWS, PS, PSY, SOC** if content is designated as a social science; also, see #3 below.
- The following courses may also be used to satisfy the Arts and Sciences College requirement for course work within the discipline of social sciences:
 - AAS 200, 235, 328, 336, 417G, 432, 471
 - ANT/LIN 319
 - ANT/ENG/LIN 515
 - ANT/ENG/LIN 516
 - ANT/JPN 321
 - CGS 500
 - ENS 200, 400
 - GEO/JPN 334
 - GEO/JPN 551
- The following course **may NOT** be used in the social sciences area: GWS 201.

Humanities

- Excluding the courses listed below**, all courses offered by Arts and Sciences departments or programs within the disciplines of the humanities, including courses with the following prefixes: **A-H, AAS, CLA, ENG, FR, GER,**

HIS, JPN, LAS, LIN, PHI, RS, RUS, SPA, and **HON** courses designated as humanities. Note exceptions in #2 and #3 below.

- The following courses may NOT be used in the humanities area:**
 - AAS 200, 235, 328, 336, 417G, 431G, 432, 471
 - AIS 101, 102, 201, 202, 442, 443
 - CHI 101, 102, 201, 202
 - CLA 101, 102, 131, 151, 152, 201, 202, 251, 252
 - ENG 101, 102, 104, 105, 203, 204, 205, 207, 306, 405, 407, 507, 509
 - FR 011, 101, 102, 106, 201, 202, 203, 204, 300, 306, 307, 310, 312, 406, 412, 507, 516, 553, 570
 - GER 011, 101, 102, 201, 202, 205, 206, 211, 212, 307, 308, 310, 507, 553, 612
 - HJS 101, 102, 201, 202
 - ITA 101, 102, 201, 202
 - JPN 101, 102, 201, 202, 301, 302, JPN/GEO 334, JPN/GEO 551
 - LIN 520, 521
 - PHI 120, 320
 - RUS 101, 102, 201, 202, 301, 302, 403, 404, 501, 502
 - SPA 011, 101, 102, 103, 141, 142, 201, 202, 203, 210, 211, 241, 242, 302, 313, 413, 501, 506, 553
- The following courses may also be used to satisfy the Arts and Sciences College requirement for course work within the discipline of humanities:
 - AMS 201
 - ANT 319, 515, 516
 - ART 100
 - CGS 500
 - GWS 201, 506
 - MUS 203, 222, 301, 302, 303, 325

College Laboratory or Field Experience Requirement

The college requires its students to complete at least one course which includes some laboratory or field experience. In such courses the external world is observed in a controlled manner using systematic techniques and methods. A substantial portion of the course must include data collection, data analysis, and hypothetical testing under supervised conditions. The approved courses for the laboratory requirement are:

Natural Sciences

- Biology** – BIO 111, 151, 153, 209
- Chemistry** – CHE 106, 111, 113
- Physics** – PHY 211, 213, 241, 242
- Geological Sciences** – GLY 111, 115, 160, 220

Social and Behavioral Sciences

- Anthropology** – ANT 541, 585
- Geography** – GEO 300
- Political Science** – PS 372
- Psychology** – PSY 100, 215
- Sociology** – SOC 302, 303

When appropriate, other upper level courses may be used to satisfy this requirement by petition.

MAJOR REQUIREMENTS

A major in the College of Arts and Sciences is composed of premajor courses (except International Studies – Foreign Language and International Economics majors and Topical Studies majors) and a 42-hour program referred to as the “major requirements.” Each department has specified the requirements for their majors, which

includes a minimum of 18 hours of 200-level and above courses in that department, with the provision that this minimum may be set at 15 hours by a department with approval of the Arts and Sciences Educational Policy Committee and the Undergraduate Council if there are special reasons for a lower minimum. Specific requirements for each departmental major are listed in this Bulletin under each department heading and are outlined in APEX (the electronic degree audit system) at: www.uky.edu/degreeaudit/.

General requirements are as follows:

- A premajor of at least 6 credits in the department is required, except for Topical Studies majors and International Studies – Foreign Language and International Economics majors.
 - A total of 42 credits is required in the major requirements, excluding the premajor courses.
 - 100-level courses may not be counted in the major requirements except in the area of premajor.
 - Courses *electively* taken pass-fail will not be listed.
 - At least 24 credits must be in courses at the 300 level or above.
 - In addition to premajor requirements, a minimum of 18 credits in a department is required for a major.
 - At least 14 credits for the major requirements must be **outside** the major department.
 - An overall grade-point average of at least 2.0 in all courses listed for the major requirements, including all premajor courses. This includes all grade attempts except those used for which repeat options or academic bankruptcy has been approved.
- Students are expected to review and understand all degree requirements listed on the University’s online degree audit system, APEX. Students who have taken courses (200 level or above) outside the college should talk with their faculty advisor to see if these courses are applicable to their major requirements.

Topical Studies Majors

Students who have multiple interests or interests which do not fall into departmental areas may select a topic for concentration instead of a departmental major. Topical Studies offers academic flexibility and allows students to cut across departmental and college lines in constructing meaningful and imaginative programs. Courses in several departments might be selected to pursue special interests – Asian studies, for instance. Other examples might be African American studies, human studies, and gender and women’s studies.

Each topical studies major is designed and directed by the student in consultation with a faculty advisor in the general area of study, and in consultation with the topical studies advisor in the A&S Advising Center and an Arts and Sciences Associate Dean.

Topical Studies is the only selective admission program in the College of Arts and Sciences. The student must have a cumulative UK grade-point standing of at least 2.5 to be accepted to Topical Studies. The specific requirements of the topical studies major are that the student must meet University and College requirements, must enroll in and complete at least 30 credit hours after formal admission, and complete the 42-hour major requirements (see preceding section entitled "Major Requirements"). Except for electives, all of the student's work must be related to the topic. Additionally, in the senior year, the student must complete a comprehensive paper or project that serves to integrate his or her topical studies field. Frequently, it is advantageous to begin writing this paper or project in the context of an independent work course or a seminar, with the instructor's approval. The paper or project proposal must be approved by the faculty advisor, an Arts and Sciences Associate Dean, and the Topical Studies advisor before significant work has begun on the project. Students must submit the final paper or project for review and approval **no later than eight weeks** before finals during the semester the student intends to graduate. The paper should be submitted to the Associate Dean **no later than six weeks** before the final exam week during the semester the student intends to graduate. Departmental honors for topical studies majors are determined by the Associate Dean and the Topical Studies advisor. To be eligible for departmental honors, a student must have a cumulative GPA of at least 3.6 and a final paper or project that has been judged to be outstanding.

For more information, contact the Arts and Sciences Topical Studies advisor in the A&S Advising Center (257 Patterson Office Tower); or visit the Topical Studies major Web site at: www.as.uky.edu/Admin/.

A Second Major

A student may obtain a second major by meeting all requirements in two departments. Major work in one department can, if there is a generic relationship, serve as the outside field in the second major, and vice versa. However, the International Studies major limits a maximum of 15 hours of course work from overlapping between two majors. The student must indicate his or her second major to the A&S Advising Center, 257 Patterson Office Tower. He or she must have an advisor in both departments. If one of the majors is in another college, the student is still required to know the list of requirements from the other college. The student who completes requirements for a second major will receive only one degree, but his or her transcript and diploma will reflect the two majors.

For information on second majors (not the same as second degrees), consult the *Graduation Requirements* section of this Bulletin.

A Second Bachelor's Degree

A student may obtain a second bachelor's degree by completing all university requirements for one degree; by completing all the major requirements of both degrees; and by completing all college requirements of both degrees. Courses taken towards fulfilling one degree may also count towards fulfilling parallel requirements in the other, but the total credits in the two degree programs must be at least 144 hours. Major work in one department can, if there is a generic relationship, serve as the outside field in the second major and vice versa. However, the International Studies major limits a maximum of 15 hours of course work from overlapping between two majors. The student must indicate his/her double degree in his/her primary college. If both degrees are in Arts and Sciences, he or she must have an advisor in both departments. The student may elect to receive the degrees simultaneously, if college and departmental requirements can be met simultaneously. For information regarding double degrees (not the same as double majors), consult the *Graduation Requirements* section of this Bulletin. Students are expected to be knowledgeable of requirements for any major in Arts and Sciences by checking the University's online degree audit system, APEX.

Minors

The College of Arts and Sciences does not require minors. However, students can earn a minor in the following disciplines in the college:

- anthropology
- biological sciences
- chemistry
- classics
- economics
- English
- folklore and mythology
- French
- gender and women's studies
- geography
- geology
- German
- history
- international studies
- linguistics
- mathematics
- philosophy
- physics
- political science
- psychology
- Russian
- sociology
- Spanish
- statistics

Interdisciplinary minors are also available in:

- African American studies
- American studies
- Appalachian studies
- cognitive science
- environmental studies
- Indian culture
- Islamic studies
- Japan studies
- Judaic studies
- Latin American studies

Minors can only be awarded in conjunction with a UK undergraduate degree. Additionally, students cannot pursue a minor in the same discipline as their major. This includes the area of concentration for a Topical Studies major and International Studies major.

For more information about choosing or declaring a minor, students should review the requirements in APEX at: www.uky.edu/degree-audit/; contact the department where the minor is offered; and/or consult the departmental section of this Bulletin. To officially declare a minor, students must complete a Declaration/Change of Major or Minor form in the A&S Advising Center, 257 Patterson Office Tower.

Awarded minors appear on the student's final transcript but not on their diploma.

The Preparation of Teachers

Any Arts and Sciences student intending to seek teaching certification should so indicate to his or her academic advisor. The student should also contact the College of Education, 166 Taylor Education Building. As soon as the student has determined to seek certification he or she is assigned an advisor both in the College of Education and in the major department in the College of Arts and Sciences.

Students seeking certification should be sure to familiarize themselves with the requirements of both colleges. The sooner and the more thoroughly this is done, the greater the advantage to the student.

INFORMATION ON COURSES

Transfer of Kentucky Community and Technical College System (KCTCS) Courses

The college will usually apply up to six hours of technical course work taken at any accredited institution including KCTCS. Beyond these six credit hours, courses will be evaluated on an individual basis and as it applies to the student's baccalaureate degree program.

Independent Work Courses

A junior or senior may, with prior approval of his or her faculty advisor and the instructor who would direct the work, register for an independent work course in his or her major department.

Normally, a cumulative GPA of 3.0 in the major is required. In exceptional circumstances a non-major or topical studies major may be permitted to enroll in a departmental independent work course. Such a course is characterized by special assignments for study, regular conferences, reports, and usually involves preparation of a paper. The instructor in each case must file with the department evidence of the nature of the work achieved. Credit for such courses may be granted to undergraduates to an amount of not more than 12 hours.

Experiential Education and Internship Courses

The College of Arts and Sciences accepts experiential education and internship courses (such as EXP 396, departmental 399 courses,) on a pass-fail basis only, regardless of which college is offering the courses. A total of 12 credit hours in these courses may be counted toward the 120 credit hours required for graduation. For ANT 399 and SPA 399, a maximum of 15 semester credit hours can be earned. However, College of Arts and Sciences majors may only earn a maximum of six credit hours of experiential education credit (EXP) in one semester.

ROTC Program

A maximum of 16 semester credit hours earned in American Military Studies and Air Force Studies courses will be accepted towards fulfilling the 90 hours of A&S courses required and the 120 minimum number of hours needed for graduation with a baccalaureate degree in the College of Arts and Sciences, even though students typically enroll for more than 16 semester credit hours of AMS and AFS course work. However, credit received from taking AMS/HIS 320, American Military History, can apply in addition to the 16 credit hour limit earned in AMS or AFS course work. Additionally, AMS 350 (1 credit hour) can only be counted for a maximum of 4 credit hours. Please note that a maximum of **one** credit hour of KHP 107 will count toward degree requirements, regardless how many credits are earned.

AEROSPACE STUDIES (Air Force ROTC)

The Department of Aerospace Studies provides a campus education program through which qualified students can simultaneously earn an Air Force commission and a college degree. Faculty members are experienced, active duty Air Force officers with advanced degrees.

Admission to the Program

Non-scholarship freshmen and sophomores may register for Air Force Studies (AFS) courses without incurring a military commitment. Students with a minimum of four semesters of school

remaining in a graduate or undergraduate status may qualify for Air Force ROTC. For more information, call (859) 257-7115.

Requirements

An academic major in aerospace studies is not offered. However, by successfully completing the Air Force ROTC program, a qualified student may concurrently earn a commission as an active duty Air Force Second Lieutenant while completing requirements for a degree. Students may enroll in some Aerospace Studies courses without joining the Air Force ROTC cadet corps. For more information, call (859) 257-7115.

AFROTC Curriculum

The AFROTC curriculum consists of both academic classes and leadership laboratory or seminar classes. The General Military Course (GMC) is a two-year course normally taken during the freshman and sophomore years. The Professional Officer Course (POC) is a two-year course normally taken during the junior and senior years. Along with academic classes each semester, all cadets also take leadership laboratory classes.

In the GMC, there are four academic classes (AFS 111, AFS 113, AFS 211, and AFS 213). These cover two main themes – the development of air power and the contemporary Air Force in the context of the U.S. military organization. The GMC academic classes are open to any student.

In the POC, there are four academic classes (AFS 311, AFS 313, AFS 411, and AFS 413). These cover Air Force management and leadership and national security studies. Entry into the POC is competitive and is based on Air Force Officer Qualifying Test scores, grade-point average, and evaluation by the AFROTC Detachment Commander. Only physically qualified students in good academic standing may compete for entry into the POC.

Students enrolled as cadets are involved once a week in a one-credit-hour course in the cadet corps training program designed to simulate a typical Air Force organization and its associated functions. During the GMC, the courses are called leadership seminars and include AFS 112, AFS 114, AFS 212, and AFS 214. The POC leadership laboratory classes are AFS 312, AFS 314, AFS 412, and AFS 414. The leadership laboratories are largely cadet-planned and conducted under the concept that they provide leadership training experiences that will improve the cadets' capabilities as Air Force officers. This also involves two hours of physical training each week. Leadership laboratory is open to students who are members of the Air Force Reserve Officer Training Corps or are eligible to pursue a commission as determined by the Air Force ROTC Detachment Commander.

Field Training

Field training is offered at Maxwell Air Force Base in Alabama. Students receive officer training and leadership development with other students. Simultaneously, the Air Force has an opportunity to evaluate each student as a potential member of its officer corps. Field training courses include cadet orientation, survival training, officer training, aircraft and aircrew orientation, physical training, organizational and functional aspects of an Air Force base, career orientation, small arms familiarization, first aid, and other supplemental training. Students are paid for their time at field training.

Scholarships

Students interested in AFROTC scholarships should refer to the *Student Financial Aid, Awards, and Benefits* section of this Bulletin or call (859) 257-7115. Information is current as of March 2009 and is subject to change.

ANTHROPOLOGY

The Department of Anthropology offers opportunities to learn about the diverse people of today's world, as well as about their biological and cultural origins. This area of study deals with ecology, society, biology, culture, and language, among other aspects of human life. In addition, anthropologists study history and evolution in both a cultural and biological framework.

Anthropology provides an excellent foundation for careers in a variety of professions and occupations, including community health, public health policy, medicine and health services, planning and community development, international relations and development, private business, government, law, journalism, museum work, and university teaching and research.

Students can major or minor in anthropology. The major is structured to provide the student with a broad overview of the major subdisciplines: cultural anthropology, physical anthropology and archaeology. It also allows sufficient flexibility for a student to concentrate on a specific area of interest.

Visit our Web site at: www.uky.edu/AS/Anthropology.

Bachelor of Arts with a major in ANTHROPOLOGY

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 109.

University Studies Program Requirements

I. Math	0-3
II. Foreign Language	0-8
III. Inference–Logic	3-6
IV. Written Communication	0-4
VI. Natural Sciences	6

III. Laboratory or Field Work (<i>can be completed by Major Requirement</i>)	
IV. Electives	6

College Requirement Hours: 6-14

Premajor Requirements

*ANT 220 Introduction to Cultural Anthropology	3
*ANT 230 Introduction to Physical Anthropology	3
*ANT 240 Introduction to Archaeology	3

Subtotal: Premajor Hours: 9

Major Requirements

Course Work Required for the Major

From the Major Department:

Regional Focus 6
Choose two courses from the following: ANT 221*, 241*, 242*, 320*, 322*, 323*, 324*, 327*, 342, 431G*, 534, 555.

Subdisciplinary Breadth 9
Choose three courses from at least two of the following subdisciplines:

1. **Archaeology**
ANT 241*, 242*, 320*, 322*, 342, 541, 545, 555 and 585
2. **Cultural Anthropology**
ANT 338, 340, 401, 429, 433, 525, 526, 532 and 550
3. **Physical Anthropology**
ANT 332, 333

NOTE: ANT 350, 399, 580, 581 and other ANT courses not listed here may be used to fulfill the Regional Focus and/or Subdisciplinary Breadth requirements with the consent of the Director of Undergraduate Studies.

From Outside the Major Department

Choose 15 hours outside Anthropology at the 300+ level. 200+ level courses used to satisfy USP and College Requirements can also be counted here.

Subtotal: Other Major hours: 30

Major Core Requirements

ANT 301 History of Anthropological Theory	3
ANT course related to student's Focus of Concentration	3
ANT 490 Anthropological Research Methods	
or	
ANT 541 Archaeological Method and Theory	
or	
ANT 585 Field Laboratory in Archaeological Research	3
ANT 582 Senior Integrative Seminar	3
Subtotal: Major Core Hours:	12

Electives

Choose electives to lead to the minimum total of 120 hours required for graduation 4

Total Minimum Hours Required for Degree 120

**Course used towards completion of a USP or College Requirement.*

Bachelor of Science with a major in ANTHROPOLOGY

120 hours (minimum)

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. **Please note:** courses with an ANT prefix are generally *not* accepted towards fulfilling this 60-hour requirement. Therefore, be sure to keep this requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on page 110.

Choose electives to lead to the minimum total of 120 hours required for graduation 4

Total Minimum Hours Required for Degree 120

**Course used towards completion of a USP or College Requirement.*

Minor in Anthropology

Students must complete a total of 21 hours of course work:

Premajor Courses (9 hours)

Students must take ANT 220, 230, 240.

Additional Courses (12 hours)*

Students must take four ANT courses from at least two subdisciplines. Two courses must be at the 200 level or above and two courses must be at the 300 level or above.

*ANT 350, 399, 580, 581 and other ANT courses not listed here may be used to fulfill the Additional Courses requirement with the consent of the Director of Undergraduate Studies.

Courses taken to meet a requirement in one area cannot be used to meet a requirement in another area of the minor.

BIOLOGY

To address the breadth and depth essential to educating biologists, the biology major is structured to include both a broad foundation through core courses and opportunity for specialization within a biological subfield through biology electives. The major is designed to prepare the student for a post-baccalaureate profession in biology, for advanced professional training in the health sciences, or for graduate study in basic and applied areas of the biological sciences.

Bachelor of Arts with a major in BIOLOGY

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 109.

University Studies Program Requirements

- I. Math (completed by Premajor Requirement)

Total Minimum Hours Required for Degree 122

**Course used towards completion of a USP or College Requirement.*

Minor in Biological Sciences

A minimum of 21 semester hours is required for the minor in biological sciences, to be distributed as follows:

Premajor Requirements

BIO 150 Principles of Biology I	3
BIO 151 Principles of Biology Laboratory I	2
BIO 152 Principles of Biology II	3
BIO 153 Principles of Biology Laboratory II	2

Minor Requirements

Two courses from the following list:

BIO 304 Principles of Genetics	4
BIO 315 Introduction to Cell Biology	3
BIO 325 Introductory Ecology	4
*BIO 350 Animal Physiology	4
or BIO 430G Plant Physiology	4

**Biology minors with strong interests in plants may substitute BIO 430G for BIO 350 with advisor's approval.*

Minor Electives

Approved BIO or other courses at the 200 level or higher. Up to three hours of BIO 395, Research in Biology, may be counted here.

CHEMISTRY

The Department of Chemistry offers the Bachelor of Science degree for students who intend to become professional chemists or do graduate work in chemistry or a closely related discipline. There are two options in the B.S. program: a traditional version covering all the major areas of chemistry, and an option that emphasizes biochemistry. Both degree options are certified by the American Chemical Society. A Bachelor of Arts degree program also is offered for students who want greater flexibility in the selection of courses in other fields of science. The B.A. is designed particularly for students planning to enter the professional health fields, to teach in secondary schools, or to work in such varied areas as ecology, criminal justice, materials science, patent law, or technical service and sales. The Department also offers the Master of Science and the Doctor of Philosophy degrees.

Bachelor of Arts with a major in CHEMISTRY**120 hours (minimum)**

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. Please also note that the Organic Chemistry Sequence (CHE 230/231/232/233) will count towards completion of this requirement. See the complete description of College requirements for a Bachelor of Arts degree on page 109.

B.A. or B.S. with a major in CLASSICS

The requirements for the B.A. and B.S. with a major in Classics are listed in this A&S section under *Modern and Classical Languages, Literatures and Cultures*.

ECONOMICS

The Department of Economics offers theoretical and applied courses in diverse areas including microeconomics, macroeconomics, labor, money and banking, international economics, public economics, and industrial organization. It provides an opportunity for the student to pursue his or her interests within the framework of a liberal arts education.

The department offers programs leading to different undergraduate degrees – a Bachelor of Science in the Gatton College of Business and Economics, a Bachelor of Arts and a Bachelor of Science with a major in economics in the College of Arts and Sciences, a Bachelor of Arts and a Bachelor of Science with a major in foreign language and international economics, and a Bachelor of Arts and a Bachelor of Science with a major in mathematical economics. The distinctions among these degrees lie primarily in the required supporting courses in the various programs. (Foreign language and international economics majors and mathematical economics majors should refer directly to that section of the Bulletin.)

Bachelor of Arts with a major in ECONOMICS

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 109.

University Studies Program Requirements

Minor in Economics

Hours

The minor consists of eighteen hours to include:

- ECO 201 Principles of Economics I 3
- ECO 202 Principles of Economics II 3
- ECO 401 Intermediate Microeconomic Theory or
- ECO 402 Intermediate Macroeconomic Theory 3
- Three additional economics courses at the 300-level or above 9

ENGLISH

The Department of English offers a wide variety of courses in English and American literature as well as in comparative literature, linguistics, folklore, film, creative writing, and composition. Undergraduate majors may also choose a curriculum that leads to a teaching certificate.

Both majors and nonmajors will find many courses that offer opportunities to deepen their acquaintance with their own culture and its heritage, to enlarge their understanding of the human condition, and to develop their capacity to use and appreciate their own language.

Bachelor of Arts with a major in ENGLISH

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 109.

University Studies Program Requirements

- I. Math 0-3

Other Course Work Required for the Major

From the Major Department:

Language Module 3
Choose one of the following: ENG/LIN 210, 211, 310

Literature Module 12
Complete two of the following British literature courses: ENG 331, 332, 333, 340; and two of the following American literature courses: ENG 334, 335, 336. At least three of these must be chosen from the survey courses (ENG 331, 332, 334, 335).

Area Module 12
Complete four additional courses – at least two of which must be from the same area module. Note that some of the listed courses may be repeated under different subtitles.

Literature: ENG 340 (if not used in Literature Module), 481G, 482G, 483G, 484G, 485G, 570, 572

Imaginative Writing: ENG 207, 407, 507

Writing: ENG 301, 306, 401, 405, 509

Film and Media: ENG 283, 381, 382, 480G

Language Study: ENG/LIN 310, LIN/ANT 319, ENG/LIN 512, ENG/LIN/EDC 513, ENG/LIN/EDC 514, ENG/LIN/ANT 515, ENG/LIN/ANT 516, ENG 519

Theory: ENG 486G, 487G, 488G

English Education Emphasis: ENG 264 or 483G, 509, 572, and one additional writing module course

From Outside the Major Department

15 additional hours at the 200+ level outside English are required (courses 300+ recommended; note that 200+ -level courses used to satisfy USP and College Requirements may also be counted here.) 15

Major hours: 42

Electives

Choose electives to lead to the minimum total of 120 hours required for graduation 3

Minor in English

The minor consists of a total of 18 hours, of which at least 12 hours must be at or above the 300 level. The hours are to be distributed as follows:

1. Two of the following courses (six hours):

ENG 331 Survey of British Literature I

ENG 332 Survey of British Literature II

ENG 334 Survey of American Literature I

ENG 335 Survey of American Literature II

2. One course in Shakespeare (three hours)

3. Three more courses (nine hours) selected from the department’s offerings (excluding all 100-level courses and ENG 203, 204, 205, 261, 262).

B.A. or B.S. with a major in FRENCH

The requirements for the B.A. and B.S. with a major in French are listed in this A&S section under *Modern and Classical Languages, Literatures and Cultures*.

GENDER AND WOMEN’S STUDIES

The program in Gender and Women’s Studies provides students an opportunity to examine and integrate the contributions of established academic disciplines in understanding the historical and contemporary roles and status of women. Also, the program provides a framework for research and analyses which focus upon women’s issues.

Bachelor of Arts with a major in GENDER AND WOMEN’S STUDIES

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the

major. See the complete description of College requirements for a Bachelor of Arts degree on page 109.

GWS 595 Issues in Gender and Women’s Studies (Subtitle required)	3
Elective hours:	15

Total Major hours: 30

Other Course Work Required for the Major

Students must complete at least 27 credit hours of the major through upper-division course work (12 credit hours of core courses, 15 credit hours of electives).

From Outside the Major Department

Choose 12 hours outside GWS at the 300+ level. 200+ level courses used to satisfy USP and College requirements can also be counted here.

Other Major hours: 12

Total Minimum Hours Required for Degree 120

Minor in Gender and Women’s Studies

The minor requires 21 hours of course work, as outlined below:

GWS 200 Introduction to Gender and Women’s Studies in the Social Sciences	
or	
GWS 201 Introduction to Gender and Women’s Studies in the Arts and Humanities	3
GWS 250 Social Movements	3
GWS 340 History of Feminist Thought to 1985	3
GWS 350 Introduction to Feminist Theorizing	3

Plus an additional nine hours of electives to be selected with the approval of the Director of the Gender and Women’s Studies Program.

Courses used for the Gender and Women’s Studies topical major, minor or graduate certificate must be taught by a Gender and Women’s Studies Affiliated Faculty.

For further information, contact Betty Pasley, Administrative Assistant, Gender and Women’s Studies, 112 Breckinridge Hall, (859) 257-1388.

GEOGRAPHY

Geography analyzes and explains the location of and interrelationships between human and physical features of the earth’s environment. Geographers also examine how and why features and their locations change over time, with particular interest in the many impacts of these changes on both people and natural settings. Geography is, therefore, both a social and a physical science. Because its fundamental subject matter is people and their environments, the discipline serves as an effective bridge between the physical and cultural worlds.

Majors in geography build solid academic foundations that draw from and interrelate areas of study from the social and behavioral sciences, humanities, computer science and graphic communication, and the natural sciences. With developed analytical, critical thinking, and communication skills, geography is particularly useful for students wishing to enter such careers as economic development, environmental management, international trade, transportation analysis and planning, diplomacy, government administration from local to federal levels, market analysis,

urban and regional planning, research, teaching, cartography, Geographic Information Systems (GIS), and private business.

The Department of Geography has developed detailed major concentration tracks in three areas: earth environmental systems (physical geography), human geography, and geographic information techniques. For more information, contact the Department of Geography at (859) 257-2931, or on the Web at: www.uky.edu/AS/Geography/.

Bachelor of Arts with a major in GEOGRAPHY

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 109.

GEO 310 Quantitative Techniques in Geography	3
GEO 499 Senior Research Seminar	3

Major Core hours: 15

Other Course Work Required for the Major

From the Major Department:

Breadth Requirements 6

Choose one regional geography course and one thematic geography course at the 300+ level.

Geography Concentration Tracks 12

Choose at least 12 hours of additional geography courses (200 level or higher) to include no more than six hours of GEO 560 (Independent Work in Geography) and GEO 399 (Internship in Geography). The following three tracks (Earth Environmental Systems, Human Geography, and Geographic Information Techniques) represent major areas within Geography and are provided as guidelines. Most students will find it useful to concentrate their 12 hours within one of the three tracks but this is not a requirement. Consult with your advisor in making these selections.

Track 1: Earth Environmental Systems

(Physical Geography)

This concentration emphasizes the earth's physical environment, including soils and landscapes; fluvial and other hydrologic systems; weather and climate; and vegetation and animal life. Emphasis is on (a) the pattern of spatial variation these regimes exhibit; (b) the physical processes that underpin their historical and spatial development; and (c) the interactions between these regimes and human activity. Topical areas reflecting physical-human interactions include identification and analysis of pollution, mitigation of natural hazards, and the outcomes of environmental management strategies.

The Department strongly recommends that students in the Earth Environmental Systems Concentration pursue a Bachelor of Science degree.

GEO 230 Weather and Climate	3
[^] *GEO 235 Environmental Management and Policy	3
GEO 351 Physical Landscapes	3
*GEO 451G Fluvial Forms and Processes	3

[^]Course may be used towards fulfilling the University Studies Program requirements.

*Or other Physical Geography, GIS, Remote Sensing, Computer Cartography courses.

Track 2: Human Geography (HG)

Human Geography focuses on the identification, description, and analysis of: (a) human spatial behavior and cognition; (b) social, economic, and political processes as they are manifest locally and globally; and (c) the cultural impress of human activity on the landscape. Within these areas, students can focus on the socio-psychological aspects of space and place, including cultural differences in ways of knowing the world. They will learn about the processes that produce local-to-global distinctiveness in key problem areas including: poverty, injustice, and hunger; illness, disability, and disease; patriarchy, racism, and homophobia; and unequal access to natural resources, education, health, and safety. Students will also find an opportunity to learn how human practices and broader processes affect both our natural and built environments. Finally, students will learn practical tools to contribute to better world through their research, or professional participation in civil society, the private sector, or government agencies. The HG Track permits students to specialize in a particular region of interest, including East, South, Southwest (Middle East), and Southeast Asia, Eu-

rope, the Caribbean, and the United States, especially Appalachia and the South.

With the advice and consent of a faculty advisor, select from courses offered within the Department and other Departments, corresponding to a particular focus in HG.

Emphasis is on (a) the pattern of spatial variation these regimes exhibit; (b) the physical processes that underpin their historical and spatial development; and (c) the interactions between these regimes and human activity. Topical areas reflecting physical-human interactions include identification and analysis of pollution, mitigation of natural hazards, and the outcomes of environmental management strategies.

GEO 230 Weather and Climate 3
 ^*GEO 235 Environmental Management and Policy 3
 GEO 351 Physical Landscapes 3
 *GEO 451G Fluvial Forms and Processes 3
 *Or other Physical Geography, GIS, Remote Sensing, Computer Cartography courses.

Track 2: Human Geography (HG)

Human Geography focuses on the identification, description, and analysis of: (a) human spatial behavior and cognition; (b) social, economic, and political processes as they are manifest locally and globally; and (c) the cultural impress of human activity on the landscape. Within these areas, students can focus on the socio-psychological aspects of space and place, including cultural differences in ways of knowing the world. They will learn about the processes that produce local-to-global distinctiveness in key problem areas including: poverty, injustice, and hunger; illness, disability, and disease; patriarchy, racism, and homophobia; and unequal access to natural resources, education, health, and safety. Students will also find an opportunity to learn how human practices and broader processes affect both our natural and built environments. Finally, students will learn practical tools to contribute to better world through their research, or professional participation in civil society, the private sector, or government agencies. The HG Track permits students to specialize in a particular region of interest, including East, South, Southwest (Middle East), and Southeast Asia, Europe, the Caribbean, and the United States, especially Appalachia and the South.

With the advice and consent of a faculty advisor, select from courses offered within the Department and other Departments, corresponding to a particular focus in HG.

^GEO 240 Geography and Gender 3
 GEO 256 Behavior in Space and Time 3
 GEO 260 Third World Development 3
 GEO 285 Introduction to Planning 3

 GEO 547 Geography of Information and Communications 3
 GEO 550 Sustainable Resource Development and Environmental Management 3
 GEO 585 Aging and Environment 3

^Course may be used towards fulfilling the University Studies Program requirements.

Track 3: Geographic Information Techniques (GIT)

The Geographic Information Techniques Concentration is concerned with all aspects of geographical information/data, including identification of data sources, collection, storage/retrieval, manipulation, analysis, and visualization. The GIT Concentration encompasses geographical information science (GIS), cartography, remote sensing, and spatial analysis.

GEO 309 Digital Geographic Data: Sources, Characteristics, Problems, and Uses 3

 GEO 508 Geographic Interpretation of Aerial Photography 3

From Outside the Major Department

Choose 15 hours outside Geography at the 200+ level. Courses used to satisfy USP and College Requirements can also be counted here 15

Major hours: 48

Electives

Choose electives to lead to the minimum total of 120 hours required for graduation 10

Total Minimum Hours Required for Degree 120

^Course used towards completion of a USP Requirement.

Minor in Geography

The minor in geography requires a minimum of 21 hours taken within the department. Students must complete courses as follows:

1. GEO 130 Earth’s Physical Environment 3
 GEO 172 Human Geography 3
and
 GEO 152 Regional Geography of the World
or
 GEO 160 Lands and Peoples of the Non-Western World 3
2. GEO 300 Geographic Research
or
 GEO 305 Elements of Cartography
or
 GEO 310 Quantitative Techniques in Geography 3
3. Nine additional hours at the 200 level or above.

GEOLOGY

The earth and environmental sciences encompass a variety of types of studies of our planet, including considerations of composition, structure, prehistoric life, internal and surficial processes, and history. These studies have applications in the discovery and use of mineral resources, fuels, and water; in protection of the environment; and in planning for the impact of natural hazards (earthquakes, landslides, etc.) on societal development. Students undertake the study of earth and environmental sciences in the classroom, laboratory, and field.

Students in earth and environmental sciences earn the Bachelor of Science or Bachelor of Arts degree with a major in Geology. The B.S. program is designed for students who plan a career as a professional geologist or who plan to attend graduate school. The B.A. program is designed for students planning a career in government policy relating to earth science and environmental issues, earth-science education, business (environmental consulting), environmental law, or environmental medicine.

Bachelor of Arts with a major in GEOLOGY

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 109.

University Studies Program Requirements

- I. Math (completed by Premajor Requirement)
- II. Foreign Language (placement exam recommended) 0-8
- III. Inference–Logic (completed by Premajor Requirement)
- IV. Written Communication 0-4
- V. Oral Communication 3
- VI. Natural Sciences (completed by Premajor Requirement)
- VII. Social Sciences 6
- VIII. Humanities 6
- IX. Cross-Cultural (with your advisor choose a 300+ level GEO course) 3
- X. Electives (choose two Humanities courses) 6

USP hours: 24-36

Graduation Writing Requirement

After attaining sophomore status, students must complete a Graduation Writing Requirement course. See “University Writing Requirement” on pages 77-78 of this Bulletin.

Graduation Writing Requirement Hours: 3

College Requirements

- I. Foreign Language (placement exam recommended) 0-8
- II. Disciplinary Requirements
 - a. Natural Science (completed by Major Requirements)
 - b. Social Science (can be completed by USP Cross-Cultural and Major Requirements)
 - c. Humanities (completed by USP Elective Requirement)
- III. Laboratory or Field Work (completed by Premajor Requirement)
- IV. Electives 6

College Requirement hours: 6-14

Premajor Requirements

- *CHE 105 General College Chemistry I 3
 *CHE 111 Laboratory to Accompany General Chemistry I 1
 GLY 220 Principles of Physical Geology
or

**Course used towards completion of a USP Requirement.*

Minor in Geology

Hours

The minor consists of nineteen hours to include:

GLY 220 Principles of Physical Geology 4
 GLY 230 Fundamentals of Geology I 3
 GLY 235 Fundamentals of Geology II 3

Plus nine hours in GLY courses at the 300 level or higher 9

B.A. or B.S. with a major in GERMAN

The requirements for the B.A. and B.S. with a major in German are listed in this A&S section under *Modern and Classical Languages, Literatures and Cultures*.

HISPANIC STUDIES

The Department of Hispanic Studies aims to develop the student's language skills, to provide an understanding of the cultures and literatures of the Spanish-speaking world, and to enhance the student's career opportunities in a multicultural society. The department offers a major and a minor in Spanish.

Bachelor of Arts with a major in SPANISH

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 109.

Teacher Certification Requirements

The requirements for teacher certification in secondary foreign languages are outlined in the *College of Education* section of this Bulletin.

Minor in Spanish

The minor in Spanish requires a total of 21 hours based on the following distribution:

1. SPA 202 or SPA 242 or equivalent
2. SPA 210
3. SPA 211
4. Beyond the first six-semester sequence, twelve additional hours which must be taken at the 300 level or above. (At least one course, three hours, must be taken in Spanish or Spanish-American literature.)

Note: No courses taken in translation may be counted toward the minor in Spanish.

HISTORY

The Department of History's program seeks to expand understanding of human experience and enable students to learn about their world in light of its past. The department offers a wide range of courses. These courses, an essential part of a liberal arts education, are also designed to train students to be teachers of history and professional historians. Faculty and students in the department participate in many of the University's interdisciplinary programs such as African American studies, women's studies, Latin American studies, and Asian studies.

Bachelor of Arts with a major in HISTORY

Minor in History

A minor in history provides training in critical thinking and expression and a valuable perspective on the varieties of civilizations and modes of human behavior. The minor requires a minimum of 18 hours, to be distributed as follows:

1. A six-hour sequential introduction to the history of a civilization or a nation. This may be selected from:

- HIS 104/105 History of Europe
- HIS 106/107 Western Culture: Science and Technology I and II
- HIS 108/109 History of the United States
- HIS 202/203 History of the British People
- HIS 229/230 The Ancient World
- HIS 247/248 History of Islam and Middle East Peoples
- HIS 295/296 East Asia
- HIS 370/371 Middle Ages
- HIS 385/386 History of Russia

2. Twelve hours of course work at or above the 300 level, at least six hours of which must be at or above the 400 level. No more than 12 of the 18 hours required may be in any one of the subfields of American history, European history, or history of the non-Western world.

INTERNATIONAL STUDIES

International Studies is an interdisciplinary program that encourages students to explore global issues in disciplines such as anthropology, economics, history, political science, geography, foreign languages, English and the arts. Students will choose course work focused around a **central theme** and **geographical region**. Cultural knowledge will be developed further through expanded foreign language study. The program culminates in a capstone senior project. Study abroad is highly encouraged, although not required, for the International Studies major.

A degree in International Studies will prepare students for careers in business, government, non-government organizations, philanthropic agencies, or the arts. The major also prepares students for graduate study in the humanities, social sciences, international affairs, law, public health and communications.

Bachelor of Arts with a major in INTERNATIONAL STUDIES

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. A complete description of College requirements for a Bachelor of Arts degree can be found on page 109.

Major Requirements

Pathway Courses*

Complete **six** credit hours from the following list. Courses **must** be from **two** departments:

ANT 160 Cultural Diversity in the Modern World	3
GEO 152 Regional Geography of the World	3
GEO 160 Lands and Peoples of the Non-Western World	3
HIS 104 A History of Europe through the Mid-Seventeenth Century	3
HIS 105 A History of Europe from the Mid-Seventeenth Century to the Present	3
PS 210 Introduction to Comparative Politics	3
PS 212 Culture and Politics in the Third World	3
PS 235 World Politics	3

*Students choosing the *FLIE* concentration are not required to complete the Pathway courses.

Language Competency*

Complete the fourth semester in one language

AND

Two semesters in a second language 6-8

OR

Two additional semesters in the same language 6

*Students choosing the *FLIE* concentration will automatically meet the Language Competency requirement.

Capstone Senior Project

Complete the following course:

INT 495 International Studies Research Project	3
--	---

Thematic and Area Concentrations

Complete **one** of the following:

1. Fifteen credit hours with a thematic concentration and twelve credit hours with an area concentration 27
 2. Fifteen credit hours with an area concentration and twelve credit hours with a thematic concentration 27
- OR**
3. Foreign Languages and International Economics (FLIE) 39-41

Thematic Concentrations

(12 -15 credit hours in one theme and from at least two departments)

International Relations

The International Relations concentration focuses on how states and institutions interact in a global environment. Sources of global conflict, international non-government organizations, international crisis resolution, and national sovereignty are examined.

HIS 355 Topics in Non-Western History Since 1789	3
HIS 574 The Diplomacy and Foreign Policy of the United States to 1919	3
HIS 575 The Diplomacy and Foreign Policy of the United States Since 1919	3
PS 430G The Conduct of American Foreign Relations ..	3
PS 431G National Security Policy	3
PS 433G Politics of International Economic Relations	3
PS 436G International Organization	3
PS 437G Dynamics of International Law	3

PS 439G Special Topics in International Relations (Subtitle required)	3
---	---

Culture and the Arts

The Culture and the Arts concentration focuses on forms of cultural expression and representation (performing arts, film, philosophy, literature, folklore and myth, visual arts) from comparative and global perspectives. The role of language and the evolution of cultural identity are also explored.

Distribution Requirements

1. Students may not apply to their IS major more than 15 credit hours that have already been applied to another major or minor program.
2. Students must apply to their IS major at least one course from four different departments and/or academic programs.
3. Students must complete at least 24 of the major's total credit hours at the 300 level or above.

Bachelor of Science with a major in INTERNATIONAL STUDIES

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on page 110.

University Studies Program Requirements

I. Math 0-3
 II. Foreign Language 0-8
 III. Inference-Logic 3-6
 IV. Written Communication 0-4
 V. Oral Communication 3
 VI. Natural Sciences 6
 VII. Social Sciences (*can be partially completed with Pathway courses*) 6
 VIII. Humanities (*can be partially completed with Pathway courses*) 6
 IX. Cross-Cultural (*can be completed with Major Requirements*) 3
 X. Electives 6

USP hours: 36-51

Graduation Writing Requirement

After attaining sophomore status, students must complete a Graduation Writing Requirement course. See "University Writing Requirement" on pages 77-78 of this Bulletin.

Graduation Writing Requirement Hours: 3

College Requirements

I. Foreign Language (*placement exam recommended, completed by Major Requirements*) 0-8
 II. Disciplinary Requirements
 a. Natural Science 6
 b. Social Science (*can be completed with Major Requirements*) 6
 c. Humanities (*can be completed with Major Requirements*) 6
 III. Electives 6

Subtotal: College Hours: 24-32

Major Requirements

Pathway Courses*

Complete **six** credit hours from the following list. Courses **must** be from **two** departments:

ANT 160 Cultural Diversity in the Modern World 3
 GEO 152 Regional Geography of the World 3
 GEO 160 Lands and Peoples
 of the Non-Western World 3
 HIS 104 A History of Europe
 through the Mid-Seventeenth Century 3
 HIS 105 A History of Europe from the
 Mid-Seventeenth Century to the Present 3
 PS 210 Introduction to Comparative Politics 3
 PS 212 Culture and Politics in the Third World 3
 PS 235 World Politics 3

*Students choosing the FLIE concentration are not required to complete the Pathway courses.

Language Competency*

Complete the fourth semester in one language
AND
 Two semesters in a second language 6-8
OR
 Two additional semesters in the same language 6
 *Students choosing the FLIE concentration will automatically meet the Language Competency requirement.

Capstone Senior Project

Complete the following course:
 INT 495 International Studies Research Project 3

Thematic and Area Concentrations

Complete **one** of the following:
 1. Fifteen credit hours with a thematic concentration and twelve credit hours with an area concentration 27
 2. Fifteen credit hours with an area concentration and twelve credit hours with a thematic concentration 27
OR
 3. Foreign Languages and International Economics (FLIE) 39-41

Thematic Concentrations

(12 -15 credit hours in one theme and from at least two departments)

International Relations

The International Relations concentration focuses on how states and institutions interact in a global environment. Sources of global conflict, international non-government organizations, international crisis resolution, and national sovereignty are examined.

- HIS 355 Topics in Non-Western History Since 1789 3
- HIS 574 The Diplomacy and Foreign Policy of the United States to 1919 3
- HIS 575 The Diplomacy and Foreign Policy of the United States Since 1919 3
- PS 430G The Conduct of American Foreign Relations 3
- PS 431G National Security Policy 3
- PS 433G Politics of International Economic Relations 3
- PS 436G International Organization 3
- PS 437G Dynamics of International Law 3
- PS 439G Special Topics in International Relations (Subtitle required) 3

Culture and the Arts

The Culture and the Arts concentration focuses on forms of cultural expression and representation (performing arts, film, philosophy, literature, folklore and myth, visual arts) from comparative and global perspectives. The role of language and the evolution of cultural identity are also explored.

- AIS 328 Islamic Civilization I 3
- AIS 330 Islamic Civilization II 3

Foreign Language – International Economics (FLIE)

Foreign Language – International Economics is a program of study that combines foreign language proficiency with training in economics. The FLIE major prepares students for employment in economic positions internationally.

Students who choose the FLIE concentration are not required to complete the six hour Pathways requirement. The Language Competency requirement will also be complete with FLIE courses. Students will complete the Economics Core Requirement and **one** of the Language Core Concentrations.

Economics Core Requirement

STA 291 Statistical Method 3

ECO 201 Principles of Economics I 3

ECO 202 Principles of Economics II 3

ECO 391 Economic and Business Statistics 3

ECO 401 Intermediate Microeconomic Theory 3

ECO 402 Intermediate Macroeconomic Theory 3

ECO 300+ Any 300+ level ECO course 3

Plus two of the following:

ECO 471 International Trade 3

ECO 472 International Monetary Economics 3

ECO 473G Economic Development 3

Language Core Requirement

Choose **one** of the following language concentrations.

French

FR 203 Elementary French Conversation and Composition 3

FR 306 Intermediate French Composition 3

FR 307 French for Business and Economics 3

Plus 14 hours from the following list:

 SPA 300+ Any 300+ level SPA course 3
 SPA 300+ Any 300+ level SPA course 3

Distribution Requirements

1. Students may not apply to their IS major more than 15 credit hours that have already been applied to another major or minor program.
2. Students must apply to their IS major at least one course from four different departments and/or academic programs.
3. Students must complete at least 24 of the major's total credit hours at the 300 level or above.

Minor in International Studies

A minor in International Studies requires 18 credit hours, 12 of which must be at the 300 level or above. Nine of the 18 credit hours should be in either a thematic or area concentration. All 18 credit hours must be in approved International Studies courses.

LINGUISTICS

Linguistics is an interdisciplinary program combining resources from English, anthropology, psychology, philosophy, computer science, and the foreign languages, to develop an understanding of the nature and implications of human language. The Linguistics program provides solid foundations in phonological and grammatical analysis, as well as opportunities to investigate the social, cultural, psychological, and physical aspects of language use.

Bachelor of Arts with a major in LINGUISTICS

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 109.

University Studies Program Requirements

I. Math 0-3
 II. Foreign Language (*completed by Premajor Requirements*)
 III. Inference-Logic 3-6
 IV. Written Communication 0-4
 V. Oral Communication 3
 VI. Natural Sciences 6
 VII. Social Sciences 6
 VIII. Humanities 6
 IX. Cross-Cultural (*choose a 300+ level Social Science course*) 3
 X. Electives (*choose two Natural Science courses*) 6

USP hours: 33-43

Graduation Writing Requirement

After attaining sophomore status, students must complete a Graduation Writing Requirement course. See "University Writing Requirement" on pages 77-78 of this Bulletin.

Graduation Writing Requirement Hours: 3

College Requirements

I. Foreign Language (*completed by Premajor Requirements*)
 II. Disciplinary Requirements
 a. Natural Science (*completed by USP Elective Requirement*)
 b. Social Science (*partially completed by USP Cross-Cultural Requirement*) 3
 c. Humanities (*completed by Major Requirements*)
 III. Laboratory or Field Work 1
 IV. Electives 6

College Requirement hours: 10

Premajor Requirements

Complete the third and fourth semesters of a foreign language (or the equivalent) 6-8

Premajor hours: 6-8

Major Requirements

Major Core Requirements

LIN 211 Introduction to Linguistics I 3
 LIN 212 Introduction to Linguistics II 3
plus three of the following:
 LIN 318 Semantics and Pragmatics
 LIN 512 Analysis of English Syntax
 LIN 513 Teaching English as a Second Language
 LIN 515 Phonological Analysis
 LIN 516 Grammatical Typology 9

Major Core hours: 15

Other Course Work Required for the Major

For the Linguistics Component:

Choose 12 hours of linguistics courses 12

For the Related Component:

Choose 21 hours outside Linguistics at the 300+ level. Courses are generally chosen from such disciplines as anthropology, communications, computer science, languages, mathematics, philosophy, and psychology. 200+ level courses used to satisfy USP and College requirements can also be counted here 21

Other Major hours: 33

Electives

Choose electives to lead to the minimum total of 120 hours required for graduation 9

Total Minimum Hours Required for Degree 120

Note: Course used towards completion of a USP Requirement.

Bachelor of Science with a major in LINGUISTICS

120 hours (minimum)

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. Please note: courses with an LIN prefix are generally not accepted towards fulfilling this 60-hour requirement. Therefore, be sure to keep this requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on page 110.

University Studies Program Requirements

I. Math 0-3
 II. Foreign Language (*completed by Premajor Requirements*)

 LIN 515 Phonological Analysis
 LIN 516 Grammatical Typology 9
Major Core hours: **15**

Other Course Work Required for the Major

For the Linguistics Component:

Choose 12 hours of linguistics courses 12

For the Related Component:

Choose 21 hours outside Linguistics at the 300+ level. Courses are generally chosen from such disciplines as anthropology, communications, computer science, languages, mathematics, philosophy, and psychology. 200+ level courses used to satisfy USP and College requirements can also be counted here 21

Other Major hours: **33**

Electives

Choose electives to lead to the minimum total of 120 hours required for graduation 12

Total Minimum Hours

Required for Degree **120**

Note: Course used towards completion of a USP Requirement.

Minor in Linguistics

The minor in linguistics requires 18 hours of course work to be selected as follows:

1. ENG/LIN 211
2. ENG/LIN 212

Major Area Courses (6 hours):

Choose from: LIN 318, ENG/LIN 515, ENG/LIN 516, ENG/LIN 512, EDC/ENG/LIN 513.

To make up the total of 18 hours, choose two courses from among the remaining LIN courses, including any of those listed above.

MATHEMATICAL ECONOMICS

The mathematical economics major offers students a degree program that combines mathematics, statistics, and economics. In today's increasingly complicated international business world, a strong preparation in the fundamentals of both economics and mathematics is crucial to success. This degree program is designed to prepare a student to go directly into the business world with skills that are in high demand, or to go on to graduate study in economics or finance. A degree in mathematical economics would, for example, prepare a student for the beginning of a career in operations research or actuarial science.

In many ways, the mathematical economics program parallels the engineering philosophy. It combines the quantitative methods of mathematics with an applied science in order to solve real problems. As an example, operations research is used to optimize costs for extremely complicated systems such as airline scheduling. A major problem in business and economics is decision making under uncertainty. Efficient inventory control for large national retail chains can mean the difference between success and failure. A business will improve its bottom line if it can effectively control cost of inventory under the uncertainty of consumer demand. The solution of control problems of this type requires knowledge of relatively sophisticated mathematics and statistics as well as knowledge of basic economic principles.

There is currently a serious shortage of individuals who have sufficient training in mathematics and statistics as well as an understanding of business and economics. Companies that employ operations research analysts or actuaries cannot fill their positions. Mathematical economics and related areas have often been referred to as engineering for the service sector or "financial engineering." With the ever increasing importance of the service sector in our economy, the math-econ degree will prove to be a valuable asset. The program will give the student an opportunity to study a fascinating collection of ideas and it will also provide the student with very marketable skills.

Bachelor of Arts with a major in MATHEMATICAL ECONOMICS

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 109.

University Studies Program Requirements

- I. Math (completed by Premajor Requirement)
- II. Foreign Language (placement exam recommended) 0-8
- III. Inference-Logic (completed by Premajor Requirement)
- IV. Written Communication 0-4
- V. Oral Communication* (can be partially completed by Major Requirement) 1
- VI. Natural Sciences 6
- VII. Social Sciences (partially completed by Major Requirement) 3
- VIII. Humanities 6
- IX. Cross-Cultural (choose a 300+ level Humanities course) 3
- X. Electives (choose two Natural Science courses) 6

USP hours: **25-37**

Graduation Writing Requirement

After attaining sophomore status, students must complete a Graduation Writing Requirement course. See "University Writing Requirement" on pages 77-78 of this Bulletin.

MATHEMATICS

The department offers two programs leading to the B.A. or B.S. degree. Students may major in mathematics by completing the requirements for either: Option A, Mathematics or Option B, Mathematical Sciences.

The mathematics option consists of courses offered solely by the department of mathematics and is intended for those who wish to follow a traditional mathematics career path. The mathematical sciences option consists of courses offered by the departments of computer science, mathematics and statistics, and is intended for those who opt for a career that requires the application of mathematics. The requirements for these programs are outlined below.

Bachelor of Arts with a major in MATHEMATICS

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 109.

Mathematics Cooperative Education

Qualified students who major in mathematics may participate in the Mathematical Sciences Cooperative Education Program which provides the opportunity for alternate semesters of academic study and full-time employment in business or industry. Guidelines and application forms are available in the Engineering/Math Sciences Co-op Program Office, 320 Robotics Building.

Minor in Mathematics

Students who minor in mathematics must complete the following:

1. MA 113/114 Calculus I and II and 8
MA 213 Calculus III 4
 or equivalent
2. MA 322 Matrix Algebra and Its Applications 3
 or equivalent
3. Six additional hours of mathematics courses numbered greater than 213. Possible courses include: MA 214, MA 261, MA 320, MA 321, MA 330, MA 341, MA 351, MA 361, or any 400 level math course.

**MILITARY SCIENCE
AND LEADERSHIP
(Army Officer Commissioning)**

The Army Reserve Officers' Training program at the University of Kentucky is open to both men and women and follows a general military science curriculum that is normally completed in four years but which may be completed in two years. An academic major in military science is not offered. The program's primary objective is to commission the future leadership of the line branches of the Active Army, Army National Guard, and U.S. Army Reserve.

Scholarships

Students interested in Army ROTC scholarships should contact the Army ROTC Admissions Officer at (859) 257-6865; or visit 101 Barker Hall on campus. Additionally, students should refer to the *Student Financial Aid, Awards, and Benefits* section of this Bulletin.

Academic Program

Successful completion of 20 credit hours of military science courses while simultaneously completing undergraduate or graduate degree requirements qualifies a student to be commissioned as a Second Lieutenant in the U.S. Army. Required program courses are: AMS 101, AMS 102, AMS 211, AMS 212, AMS 301, AMS 302, AMS 341, AMS 342, an approved military history course, a computer science course, and continuous enrollment (or participation) in KHP 107 and AMS 250 or 350 once contracted in the ROTC program. Also, cadets attend a five-week Leadership Development Assessment Course, usually in the summer between the junior and senior years.

An alternative two-year program is available for students with at least two academic years remaining until graduation and who have not completed the AMS 100- and AMS 200-level courses. This program is particularly suited to community college students transferring to the University, or students who did not participate in the Basic Program during their freshman and sophomore years. Students should contact the Professor of Military Science about the five-week summer Leadership Training Course conducted each summer at Fort Knox, Kentucky. Successful completion of the camp enables students to take AMS 300-level courses and complete the precommissioning program in two years.

In certain cases, veterans or students who have completed Army basic training are also eligible to complete the program in two years. Members of the Army National Guard or U.S. Army Reserve may also directly enroll in the Leadership Development Assessment Course and participate in the Simultaneous Membership Program (SMP).

The Basic Course: (100 and 200 level) are orientational and deal with the Army's role in the U.S. government. American military history,

small unit organizations/operations, military geography/map reading and some adventure training are also addressed. **No military obligation** is incurred by completion of the courses.

The Advanced Course: (300 level) focus on leadership, management, and command/staff responsibilities within military organizations. All upper division Army ROTC students receive \$450+ per month tax-free subsistence pay during the academic year. During the summer, students receive about \$700 while attending Camp.

Leadership Lab periods, held weekly during the academic year, and on one Saturday per semester, focus on adventure-type training (e.g., orienteering, rappelling, survival training, and basic marksmanship). These activities are offered, subject to availability of equipment and facilities, to provide an opportunity to develop leadership, organizational abilities, and confidence.

Professional development and enrichment opportunities are also available through ROTC-sponsored university organizations – the Pershing Rifles and Kentucky Rangers.

Army ROTC incorporates the dimension of leadership into the academic curriculum and provides training and experience that can be valuable in any profession.

For more information, contact the Professor of Military Science, ATTN: Admissions Officer, U.S. Army ROTC, 101 Barker Hall, University of Kentucky, Lexington, KY 40506-0028; or call (859) 257-6864. Visit the Web site at: www.uky.edu/armyrotc/.

**MODERN AND CLASSICAL
LANGUAGES, LITERATURES
AND CULTURES**

The Department of Modern and Classical Languages, Literatures and Cultures is comprised of the Divisions of Classics, French and Italian, German Studies, and Russian and Eastern Studies.

CLASSICS

The Division of Classics offers a Bachelor of Arts and a Bachelor of Science degree in Classics. The division teaches a broad range of courses in the languages, literature, history, art, and thought of the Greco-Roman world. The minimum requirements for graduation with departmental honors in Classics are an overall grade-point average of 3.55 and the completion of a 300 level course in Greek or Latin with a grade of **B**. Access the division's Web site at: www.uky.edu/AS/Classics/ for more information.

**Bachelor of Arts with a major in
CLASSICS**

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 109.

University Studies Program Requirements

I. Math	0-3

IX. Cross-Cultural	3
X. Electives (<i>choose two Natural Science courses</i>)	6

USP hours: 27-37

Graduation Writing Requirement

After attaining sophomore status, students must complete a Graduation Writing Requirement course. See "University Writing Requirement" on pages 77-78 of this Bulletin.

Graduation Writing Requirement Hours: 3

College Requirements

I. Foreign Language (<i>completed by Major Requirements</i>)	
II. Disciplinary Requirements	
a. Natural Science (<i>completed by USP Elective Requirement</i>)	
b. Social Science (<i>partially completed by USP Cross-Cultural Requirement</i>)	3
c. Humanities (<i>completed by Major Requirements</i>)	
III. Laboratory or Field Work	1
IV. Electives	6

College Requirement hours: 10

Premajor Requirements

*CLA 101 and 102 Elementary Latin or equivalent	
OR	
*CLA 151 and 152 Elementary Greek or equivalent	8
Premajor hours: 8	

Major Requirements

Courses Within Classics
Complete study of Latin to at least the level of CLA 202 or Greek to at least the level of CLA 252 or the equivalent. Complete 18 hours in courses at the 200 level or above with a CLA prefix or cross-listed CLA. (CLA 201/202 and CLA 251/252 contribute to this total.)

Classics Courses hours: 18

Courses Outside of Classics

Complete 15 hours in courses appropriate to the field of study at the 200 level or above **not** prefixed CLA (courses cross-listed CLA also fulfill this requirement). A wide variety of courses are accepted; these are determined for each student in consultation with the Director of Undergraduate Studies.

Non-Classics Courses hours: 15

Additional Courses (Elective)
Complete an additional 9 hours in courses at the 200 level or above either inside or outside Classics.

Additional Courses hours: 9

Upper Level Requirement
At least 15 hours in the major must be in courses at the 300 level or above with either a CLA prefix, or with specific Classics content as determined by the Director of Undergraduate Studies. Of the 42 required major hours, at least 24 hours must be in courses at the 300 level or above.

Major hours: 42

Explanation of Major Requirements
At the discretion of the student's advisor, other courses may be substituted for the courses listed as Courses Within Classics. These courses must be either CLA courses or non-CLA courses that deal with the classical world. The acceptable non-CLA courses are normally in the areas of history, philosophy and art history.

- The Major requirements in Classics are fully satisfied if a student has:
1. Completed the Premajor Requirement.
 2. Completed either CLA 202 (Intermediate Latin) or CLA 252 (Intermediate Greek).
 3. Completed 15 hours in 300+ CLA and acceptable non-CLA courses.
 4. Completed 15 hours in 200+ courses outside the field of Classics that appropriately complement the Classics courses.
 5. Completed 9 additional hours in 200+ courses in the area of either Classics or complementary disciplines.
 6. Accumulated 24 hours in 300+ courses among the courses used to satisfy items 3, 4, and 5 above.

Electives
Choose electives to lead to the minimum total of 120 hours required for graduation 15

Total Minimum Hours Required for Degree 120

**Course used towards completion of a USP or College Requirement.*

Bachelor of Science with a major in CLASSICS

120 hours (minimum)

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. Please note: courses with a CLA prefix are generally not accepted towards fulfilling this 60-hour requirement. Therefore, be sure to keep this requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on page 110.

Explanation of Major Requirements
At the discretion of the student's advisor, other courses may be substituted for the courses listed as Courses Within Classics. These courses must be either CLA courses or non-CLA courses that deal with the classical world. The acceptable non-CLA courses are normally in the areas of history, philosophy and art history.

The Major requirements in Classics are fully satisfied if a student has:

1. Completed the Premajor Requirement.
2. Completed either CLA 202 (Intermediate Latin) or CLA 252 (Intermediate Greek).
3. Completed 15 hours in 300+ CLA and acceptable non-CLA courses.
4. Completed 15 hours in 200+ courses outside the field of Classics that appropriately complement the Classics courses.
5. Completed 9 additional hours in 200+ courses in the area of either Classics or complementary disciplines.
6. Accumulated 24 hours in 300+ courses among the courses used to satisfy items 3, 4, and 5 above.

Electives
Choose electives to lead to the minimum total of 120 hours required for graduation 18

Total Minimum Hours Required for Degree 120

**Course used towards completion of a USP or College Requirement.*

Teacher Certification Requirements
Students who wish to teach Latin in secondary school must also meet the certification requirements outlined in the *College of Education* section of this Bulletin.

Minor in Classics

The requirements for a classics minor are 18 credit hours, at least six of which must be at the 300 level or above, earned from among the following courses:

1. Greek and Latin courses at any level.
2. Non-language courses taught by the division that are numbered 200 or higher.

All courses may be chosen from category 1, all from category 2, or the two categories may be combined in any manner, as long as students earn the requisite 18 credit hours.

FRENCH AND ITALIAN

As a branch of the liberal arts curriculum, the Division of French and Italian has as one of its fundamental aims to broaden and deepen the student's acquaintance with the French- and Italian-speaking worlds through the medium of their language and literature.

Bachelor of Arts with a major in FRENCH

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 109.

Teacher Certification Requirements

The requirements for teacher certification in secondary foreign languages are outlined in the College of Education section of this Bulletin.

Minor in French

The minor in French consists of a minimum of 18 hours in French language and literature courses beyond FR 202 and excluding FR 553 and literature courses in translation.

FR 203 Elementary French Conversation and Composition 3
 FR 204 French Culture: Readings and Conversation 3
 FR 306 Intermediate French Composition 3
 Three courses at the 300, 400, or 500 level (excluding FR 553 and courses in translation).

GERMAN STUDIES

The primary aims of the Division of German Studies are to help students develop their German language skills and gain an understanding of the literature and culture of the German-speaking countries. Students majoring in German earn the Bachelor of Arts or Bachelor of Science degree. For more information, visit the Division of German Studies on the Web at: www.uky.edu/AS/German/.

Bachelor of Arts with a major in GERMAN

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 109.

Minor in German

The minor in German Studies consists of a minimum of 18 hours in German language, culture, and literature courses in addition to the proficiency level gained by completion of GER 202. This level may be documented either by completing the relevant sequence of courses or by placement exam.

Required courses include:

GER 206 Spoken Communication	3
and	
Course work at the 300 level or above, including GER 307/308	15

RUSSIAN AND EASTERN STUDIES

The Division of Russian and Eastern Studies offers language courses in Arabic, Chinese, Hebrew, Japanese and Russian, as well as related literature and culture courses.

Russian and Eastern Studies

The Division of Russian and Eastern Studies offers an undergraduate major in Russian Studies. The program is designed to produce an integrated knowledge of Russian language, literature, culture, history, politics, and society. This interdisciplinary major provides the broadest possible base for further study of the former Soviet Union.

Bachelor of Arts with a major in RUSSIAN STUDIES

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 109.

Minor in Russian

The minor in Russian consists of a minimum of 18 hours beyond second-year proficiency in Russian language (RUS 202) distributed as follows:

1. 6 hours of Russian language courses at the 300 level or above
- and**
2. 12 hours of additional course work in designated Russian area studies courses, of which at least 9 hours must be in RUS courses.

Note: RUS 395, Independent Work in Russian, may not be used for the minor.

Minor in Folklore and Mythology

The minor in folklore and mythology requires a minimum of 18 hours (plus 6 preminor) to include the following:

1. Minor Prerequisites

- CLA 100 Ancient Stories in Modern Films
- or**
- CLA 135 Greek and Roman Mythology 3
- GER 103 Fairy Tales in European Context 3

2. Minor Requirements

- CLA 331 Gender and Sexuality in Antiquity
- or**
- CLA 382 Greek and Roman Religion 3
- FR 263 African and Caribbean Literature and Culture of French Expression in Translation (Subtitle required) 3
- GER 363 Germanic Mythology 3
- MCL 270 Introduction to Folklore and Mythology 3
- RUS 370 Russian Folklore (in English) 3

3. Minor Electives

Three hours in elective courses in a variety of disciplines taken from a list provided by the advisor.

Students in this minor must satisfy the current A&S Language Requirement, regardless of their college. The minor is not restricted to A&S majors.

PHILOSOPHY

Philosophy encourages critical and systematic inquiry into fundamental questions of right and wrong, truth and falsehood, the meaning of life, and the nature of reality, knowledge, and society. More than any other discipline, philosophy explores the core issues of the Western intellectual tradition. With its emphasis on reason and argumentation, a philosophy major is an excellent preparation for a career in law or business.

Bachelor of Arts with a major in PHILOSOPHY

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College

requirements for a Bachelor of Arts degree on page 109.

Group A: PHI 503, 504, 506, 509, 513, 514, 515, 516, 517

Group B: PHI 519, 530, 531, 535, 537, 540, 545, 592

Group C: PHI 520, 550, 560, 561, 562, 565, 570, 575

Choose 3 hours from any of the group courses listed above or the following: PHI 305, 310, 317, 330, 332, 334, 335, 336, 337, 340, 343, 361, 380, 395 3

From Outside the Major Department

Choose 18 hours at the 200+ level; up to 4 hours may come from Philosophy courses 18

Other Major hours: 36

Electives

Choose electives to lead to the minimum total of 120 hours required for graduation 9

Total Minimum Hours Required for Degree 120

**Course used towards completion of a USP Requirement.*

^French or German is highly recommended to complete the USP and College foreign language requirements. Greek is recommended if the student plans to concentrate on ancient philosophy. Latin is recommended if the student plans to concentrate on medieval philosophy.

Minor in Philosophy

The minor in philosophy requires a minimum of 18 hours of course work to include the following:

- a. No more than two 100-level courses
- b. At least one course in logic (PHI 120, PHI 320, or PHI 520)
- c. At least one course in the history of philosophy (PHI 260, PHI 270, or any course from Group A of the undergraduate curriculum)
- d. At least three courses (nine hours) at the 300 level or above, excluding PHI 320 and PHI 399.

PHYSICS AND ASTRONOMY

The Department of Physics and Astronomy helps many students acquire a general understanding and appreciation of physics and astronomy. In the liberal arts tradition, the undergraduate curriculum is complete and flexible enough to allow a graduate with a major in physics to pursue a variety of careers. Many of our graduates continue their studies with graduate work in physics or other areas.

For the student interested in combining the study of physics with studies in other areas, the department can assist in the planning of an individual curriculum which meets **both** the minimum requirements of the Physics program and the student's needs and interests. Such planning is of particular value to students intending to pursue careers in engineering, computer science, applied physics, medicine, radiation medicine, biophysics, law, meteorology, oceanography, geophysics, environmental sciences, management, or the teaching of physics and/or physical science at the junior and senior high school levels. By working closely with an advisor, the student with special interests can take advantage of opportunities to take several other courses from one or more departments outside physics, or double major in physics and another area. For a description of suggested curricula, visit our Web site at: www.pa.uky.edu/undergrad/curricula.html.

Bachelor of Arts with a major in PHYSICS

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for the Bachelor of Arts degree on page 109.

University Studies Program Requirements

I. Math (*completed by Premajor Requirement*)
 II. Foreign Language (*placement exam recommended*) 0-8
 III. Inference-Logic (*completed by Premajor Requirement*)
 IV. Written Communication 0-4
 VI. Natural Sciences (*completed by Premajor Requirement*)
 VII. Social Sciences 6
 VIII. Humanities 6
 IX. Cross-Cultural (*choose a 300+ level PHI course*) 3
 X. Electives (*choose 300+ level Social Science courses*) 6

USP hours: 24-36

Graduation Writing Requirement

Students may satisfy the Graduation Writing Requirement by completing PHY 435.

Graduation Writing Requirement Hours: 3

College Requirements

I. Foreign Language (*placement exam recommended*) 0-8
 II. Disciplinary Requirements
 a. Natural Science (*completed by Premajor Requirements*)
 b. Social Science (*completed by USP Elective Requirement*)
 c. Humanities (*partially completed by USP Cross-Cultural Requirement*) 3
 III. Laboratory or Field Work (*completed by Premajor Requirement*)
 IV. Electives 6

College Requirement hours: 9-17

Premajor Requirements

*PHY 231/232/241/242 General University Physics and Laboratory 10
 or with permission of the Director of Undergraduate Studies:
 PHY 211/213 General Physics (10)
 PHY 228 Optics, Relativity and Thermal Physics 3
 CHE 105 General College Chemistry I 3
 CHE 107 General College Chemistry II 3
 *MA 113 Calculus I 4
 MA 114 Calculus II 4
Premajor hours: 27

Major Requirements

Major Core Requirements

PHY 306 Theoretical Methods of Physics 3
 PHY 361 Principles of Modern Physics 3
 PHY 404G Mechanics 3
 PHY 416G Electricity and Magnetism 3
 PHY 520 Introduction to Quantum Mechanics 3
 MA 213 Calculus III 4
 MA 214 Calculus IV 3

Major Core hours: 22

Other Course Work Required for the Major

From the Major Department:

Choose 3-6 hours at the 400+ level to include at least one of the following laboratory courses: PHY 402G, 422, 435, 535, 545 3-6

From Outside the Major Department

Choose 14-17 hours outside Physics at the 300+ level. Courses are generally chosen from computer science, engineering, mathematics, philosophy, or statistics. 200+ level courses used to satisfy USP and College requirements can also be counted here 14-17

Other Major hours: 20

Total Minimum Hours Required for Degree 121

**Course used towards completion of a USP Requirement.*

Suggested Curriculum for B.A. in Physics

As you plan your physics studies, please note that upper division physics courses, PHY 3XX and all higher numbered courses, are offered once per year in the semester indicated on the suggested curricula. For example, PHY 306 and PHY 361 are offered in the spring semester only. This suggested curriculum minimally meets the requirements for the B.A. in Physics.

Freshman Year

First Semester	Hours
PHY 231 General University Physics	4
PHY 241 General University Physics Laboratory	1
MA 113 Calculus I	4
ENG 104 Writing: An Accelerated Foundational Course	4
University Studies	3

Second Semester

PHY 228 Optics, Relativity and Thermal Physics	3
MA 114 Calculus II	4
CHE 105 General College Chemistry I	3
University Studies	6

Sophomore Year

First Semester	Hours
PHY 232 General University Physics	4
PHY 242 General University Physics Laboratory	1
*MA 213 Calculus III	4
CHE 107 General College Chemistry II	3
Foreign Language	4

Second Semester

PHY 306 Theoretical Methods of Physics	3
PHY 361 Principles of Modern Physics	3
*MA 214 Calculus IV	3
Foreign Language	4

Junior Year

First Semester	Hours
*CS 115 Introduction to Computer Programming	3
PHY 404G Mechanics	3
PHY 335 Data Analysis for Physicists	1
*MA 322 Matrix Algebra and Its Applications	3
**Humanities	3
Foreign Language	3

Second Semester

MA 432G Methods of Applied Mathematics I	3
PHY 520 Introduction to Quantum Mechanics	3
Foreign Language	3
**Social Science	3
**Humanities	3

Senior Year

First Semester	Hours
PHY 416G Electricity and Magnetism	3
PHY 554 Fundamentals of Atomic Physics	3
**Social Science	3
University Studies	6
*Elective	3

Second Semester

PHY 435 Intermediate Physics Laboratory	3
Foreign Language (if needed)	3
University Studies (if needed)	6
Elective	3

*A total of 14 credit hours in math, computer science, chemistry, engineering or other areas related to physics but outside the department must be completed to satisfy the college requirement. A total of 42 hours in physics and related areas must be taken to satisfy the major requirement.

**The Bachelor of Arts requires the completion of six additional hours in humanities and social sciences beyond those required for University Studies. It also requires the completion of 39 hours at or above the 300 level.

Bachelor of Science with a major in PHYSICS

120 hours (minimum)

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on page 110.

University Studies Program Requirements

- I. Math (completed by Premajor Requirement)
- II. Foreign Language (placement exam recommended) 0-8
- III. Inference-Logic (completed by Premajor Requirement)
- IV. Written Communication 0-4
- VI. Natural Sciences (completed by Premajor Requirement)
- VII. Social Sciences 6
- VIII. Humanities 6
- IX. Cross-Cultural (choose a Social Science course) 3
- X. Electives (choose a Humanities course) 3

USP hours: 21-33

Graduation Writing Requirement

Students may satisfy the Graduation Writing Requirement by completing PHY 435.

Graduation Writing Requirement Hours: 3

College Requirements

- I. Foreign Language (placement exam recommended) 0-8
- II. Disciplinary Requirements
 - a. Natural Science (completed by Premajor Requirements)
 - b. Social Science (completed by USP Cross-Cultural Requirement)
 - c. Humanities (completed by USP Elective Requirement)
- III. Laboratory or Field Work (completed by Premajor Requirement)
- IV. Electives 6

College Requirement hours: 6-14

Premajor Requirements

- *PHY 231/232/241/242 General University Physics and Laboratory 10
- or with permission of the Director of Undergraduate Studies:
- PHY 211/213 General Physics (10)
- PHY 228 Optics, Relativity and Thermal Physics 3
- CHE 105 General College Chemistry I 3
- CHE 107 General College Chemistry II 3
- *MA 113 Calculus I 4
- MA 114 Calculus II 4

Premajor hours: 27

Major Requirements

- Major Core Requirements**
- PHY 306 Theoretical Methods of Physics 3
- PHY 335 Data Analysis for Physicists 1
- PHY 361 Principles of Modern Physics 3
- PHY 404G Mechanics 3
- PHY 416G/417G Electricity and Magnetism 6
- PHY 520 Introduction to Quantum Mechanics 3

- PHY 535(2) Experimental Physics:
 - Advanced Physics Laboratory 2
 - MA 213 Calculus III 4
 - MA 214 Calculus IV 3

Major Core hours: 28

Other Course Work Required for the Major

From the Major Department:

Choose one of the following: PHY 522, 524, 554, 555, 556, 591, 592 3

Choose two lab courses from the following: AST/PHY 395, PHY 402G, 422, 535(1) 3-6

From Outside the Major Department

Choose seven hours outside Physics at the 200+ level. Courses are generally chosen from computer science, engineering, mathematics, or statistics. 200+ level courses used to satisfy USP and College requirements can also be counted here 7

Other Major hours: 13-16

Total Minimum Hours Required for Degree 120

*Course used towards completion of a USP Requirement.

Suggested Curriculum for B.S. in Physics

(NOTE: Students who have completed calculus or chemistry should visit our Web site at: www.pa.uky.edu/undergrad/curricula.html for suggested curriculum.)

As you plan your physics studies, please note that upper division physics courses, PHY 3XX and all higher numbered courses, are offered once per year in the semester indicated on the suggested curricula. For example, PHY 306 and PHY 361 are offered in the spring semester only. This suggested curriculum minimally meets the requirements for the B.S. in Physics.

Freshman Year

First Semester	Hours

PHY 554 Fundamentals of Atomic Physics 3
 Elective 3
 University Studies 3

Second Semester

PHY 535 Experimental Physics:

Advanced Physics Laboratory 2
 Humanities and Social Sciences 6
 Elective 3
 University Studies (if needed) 3

*A total of 14 credit hours in math, computer science, chemistry, engineering or other areas related to physics but outside the department must be completed to satisfy the college requirement. One-hundred-level freshman courses may not be counted for the major requirements except for CS 115 which may be counted.

Minor in Physics

MA 113, 114, and 213; or equivalent 12
 PHY 211/213 or PHY 231/232/241/242 10
 PHY 361 3

At least eight credits chosen from the following:

PHY 402G, 404G, 416G, 417G, 472G, 504, 520, 522, 524, 525, 535, 545, 546, 554, 555, 556, 567 and 591.

Astronomy Concentration

For students with an interest in astronomy, the Department offers the B.S. degree in physics with a concentration in astronomy. Among the major requirements, AST/PHY 591 Astrophysics I – Stars and AST/PHY 592, Astrophysics II – Galaxies and Interstellar Material are strongly recommended as courses within the area of concentration. AST 395, Independent Work in Astronomy, may be substituted for one of the laboratory courses of Requirement Three, subject to the work being done in astronomy and astrophysics. Students are encouraged, though not required, to enroll in AST 191, The Solar System, and AST 192, Stars, Galaxies and the Universe.

POLITICAL SCIENCE

The undergraduate program in Political Science allows students to pursue course work in four disciplinary fields:

- American Politics – study of the institutions, behavioral patterns, and public policies that define the American political system;
- Comparative Politics – study of the institutions, policies, and mass behaviors observed in political systems outside the United States, usually explored through comparison within or across regions of the world;
- International Relations – study of the international system as a whole, as well as of the actors

(such as nation-states, corporations, and international organizations) who participate in shaping diplomatic, military, and economic outcomes within that system;

- and
- Theory/Methodology – study of the values, concepts, and analytical methods that shape how people evaluate political life.

Degree recipients take introductory course work in each of these four areas, then pursue advanced studies in one or more of the fields as determined by their interests and/or career goals.

In addition to conveying information about politics and government – necessary background for pursuing graduate work in political science and related fields – Political Science courses at UK are designed to provide students with a broad liberal arts education. Graduates leave the program having cultivated their analytical abilities and having exercised their written and spoken communication skills. Such disciplinary training is particularly helpful in preparing students for careers such as law, policy analysis, governmental administration, diplomatic service, journalism, lobbying, and other sorts of political activity.

Currently the department offers two degrees: a Bachelor of Arts and a Bachelor of Science. Most majors choose to pursue the B.A. The primary difference is that B.A. students must complete a minimum of 39 hours at the 300+ level, a requirement that students can fulfill using courses already needed for the major. Earning the B.S. degree, on the other hand, requires completing a minimum of 60 hours in natural, physical, mathematical, and computer sciences. Little of that course work fulfills other degree requirements.

Bachelor of Arts with a major in POLITICAL SCIENCE

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 109.

University Studies Program Requirements

I. Math 0-3
 II. Foreign Language (*placement exam recommended*) 0-8
 III. Inference–Logic 3-6
 IV. Written Communication 0-4
 VI. Natural Sciences 6
 VII. Social Sciences (*partially completed by Premajor Requirement*) 3
 VIII. Humanities 6
 IX. Cross-Cultural (*may be completed by Major Requirements*) 6
 X. Electives (*choose two Natural Science courses*) 6

USP hours: 27-45

Graduation Writing Requirement

After attaining sophomore status, students must complete a Graduation Writing Requirement course. See “University Writing Requirement” on pages 77-78 of this Bulletin.

Graduation Writing Requirement Hours: 3

College Requirements

I. Foreign Language (*placement exam recommended*) 0-8
 II. Disciplinary Requirements

a. Natural Science (*completed by USP Elective requirement*)

b. Social Science (*completed by Premajor Requirements*)

c. Humanities (*choose 300+ level courses*) 6

III. Laboratory or Field Work (*completed by PS 372*)

IV. Electives 6

College Requirement hours: 12-20

Premajor/Introductory Requirements

Field One – American Politics

PS 101 American Government 3

Field Two – Comparative Politics

PS 210 Introduction to Comparative Politics

or

PS 212 Culture and Politics in the Third World 3

Field Three – International Relations

PS 235 World Politics 3

Field Four – Theory/Methodology

PS 240 Introduction to Political Theory

or

PS 372 Introduction to Political Analysis 3

Premajor/Intro hours: 12

Major/Core Requirements

After being introduced to each undergraduate field, Political Science majors must take an additional 39 hours of course work that combines both (1) courses within the discipline and (2) courses covering topics related to the discipline but offered by other programs. These 39 hours, of which 24 must be at the 300+ level, are divided as follows.

Disciplinary Courses

Students must take 18 additional credit hours of political science course work, of which at least 15 hours must be at the 300+ level. Note that PS 399 may not be counted toward this requirement. Eligible courses span all four undergraduate fields:

Field One – American Politics

General American Politics Courses
 PS 456G, 458, 470G, 471, 472G, 473G, 474G, 475G, 476G, 479, 480G, 484G, 489G, 557, 580

Courses on American Law and Courts
 PS 360, 461G, 463G, 465G, 566

Field Two – Comparative Politics

PS 210 or 212, 410, 415G, 417G, 419G, 420G, 427G, 428G, 429G, 538

Field Three – International Relations

PS 430G, 431G, 433G, 436G, 437G, 439G, 538

Field Four – Theory/Methodology

PS 240 or 372, 441G, 442G, 545, 572

Note: PS 391, 395, 490, and 492 also meet this disciplinary requirement, although the fields will vary depending on the topic.

Other Courses

Choose six hours of PS courses (including 1-6 hours of PS 399) or approved courses from outside political science (see list below) 6

From Outside the Major Department

Choose 15 hours outside political science from the list below. You must take at least 6 hours from one department and 6 hours from another department. Special topics courses and other offerings related to the concentration may be substituted, subject to the approval of the Director of Undergraduate Studies 15

- AAS 200, 420 (also acceptable are AAS courses cross-listed with courses eligible to serve as Major Requirements)
- ACC 407
- AEC 324, 471, 479, 510, 532
- AI 328, 330
- ANT – 220, 221, 324, 327, 340, 375, 401, 431G, 433, 435, 532, 534
- APP 200
- BSC – all 200+ level courses

Electives

Choose electives to lead to the minimum total of 120 hours required for graduation.

**Total Minimum Hours
Required for Degree 120**

Minor in Political Science

The minor in political science requires a prerequisite course (PS 101) and 18 hours of course work at the 200 level or above to be distributed as follows:

1. Six hours of 200 level courses, three hours of which must be either PS 210, PS 212, or PS 235.
2. Four other courses, at least three of which must be at the 400 or 500 level.

PSYCHOLOGY

The undergraduate curriculum in psychology includes courses in the major content areas of psychology. The program provides course work emphasizing the fundamental concepts and techniques of this basic behavioral science. In addition to course work, the program provides for experience in conducting and analyzing laboratory and field research.

**Bachelor of Arts with a major in
PSYCHOLOGY**

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 109.

University Studies Program Requirements

I. Math	0-3
II. Foreign Language (<i>placement exam recommended</i>)	0-8
III. Inference-Logic	3-6
IV. Written Communication	0-4
V. Oral Communication	3
VI. Natural Sciences	6
VII. Social Sciences (<i>partially completed by Premajor Requirement</i>)	3
VIII. Humanities	6
IX. Cross-Cultural (<i>choose a 300+ level Humanities course</i>)	3
X. Electives (<i>choose a 300+ level Humanities course</i>)	3
USP hours:	27-45

Graduation Writing Requirement

After attaining sophomore status, students must complete a Graduation Writing Requirement course. See "University Writing Requirement" on pages 77-78 of this Bulletin.

Graduation Writing Requirement Hours: 3

College Requirements

I. Foreign Language (<i>placement exam recommended</i>)	0-8
II. Disciplinary Requirements	
a. Natural Science (<i>partially completed by PSY 312; and to complete this requirement, consider either PSY 456 as the Advanced Lecture/Lab or PSY 565 as the Capstone Requirement</i>)	3
b. Social Science (<i>completed by Premajor and Major Requirements</i>)	
c. Humanities (<i>completed by USP Cross-Cultural and Elective Requirements</i>)	
III. Laboratory or Field Work (<i>completed by Premajor Requirement</i>)	6
IV. Electives	6
College Requirement hours:	9-17

Premajor Requirements

*PSY 100 Introduction to Psychology or ^PSY 11--	3
PSY 195 Orientation to Psychology	1
*PSY 215 Experimental Psychology	4
Premajor hours:	8-9

Major Requirements

Major Core Requirements	
*PSY 216 Applications of Statistics in Psychology	4
plus four of the following five courses:	
PSY 223 Developmental Psychology	3
PSY 311 Learning and Cognition	3
*PSY 312 Brain and Behavior	3
PSY 313 Personality and Individual Differences	3
PSY 314 Social Psychology and Cultural Processes	3
Major Core hours:	16

Other Course Work Required for the Major

From the Major Department:	
Advanced Lecture/Lab	4
Choose from: PSY 427, 430, 440, 450, *456, 460, 552	
Capstone Option	3-8
Choose from: PSY 495 and 496, 499, 500, 534, 535, 561, 562, 563, 564, *565, 566	
Electives	0-5
Choose from: PSY 223, 302, 331, 395, 399, 459, 533, 558	
From Outside the Major Department	
Choose 14 hours outside Psychology at the 300+ level. 200+ level courses used to satisfy USP and College requirements can also be counted here	14
Other Major hours:	26

Electives

Choose electives to lead to the minimum total of 120 hours required for graduation 5

**Total Minimum Hours
Required for Degree 120**

**Course used towards completion of a USP or College Requirement*

^This requirement is fulfilled for students who have completed a 3-credit introductory psychology course at an accredited college or university, or who have scored a 3 on the Advance Placement Psychology Test.

**Bachelor of Science with a major in
PSYCHOLOGY**

120 hours (minimum)

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. Please note: with the exception of PSY 215, PSY 216, PSY 312, PSY 456, and PSY 565, courses with a PSY prefix are generally not accepted towards fulfilling this 60-hour requirement. Therefore, be sure to keep this requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on page 110.

Total Minimum Hours Required for Degree 120

**Course used towards completion of a USP or College Requirement.*

^This requirement is fulfilled for students who have completed a 3-credit introductory psychology course at an accredited college or university, or who have scored a 3 on the Advance Placement Psychology Test.

Minor in Psychology

The minor in psychology requires a minimum of 20 hours to include the following:

1. Prerequisite courses

PSY 100 Introduction to Psychology 4

PSY 215 Experimental Psychology 4

2. All of the following courses:

PSY 311 Learning and Cognition 3

PSY 312 Brain and Behavior 3

PSY 313 Personality and Individual Differences 3

PSY 314 Social Psychology and Cultural Processes 3

B.A. or B.S. with a major in RUSSIAN STUDIES

The requirements for the B.A. and B.S. with a major in Russian Studies are listed under in this A&S section under *Modern and Classical Languages, Literatures and Cultures*.

SOCIOLOGY

Sociology emphasizes the study of human behavior and basic social processes. The discipline provides excellent preparation for careers in a variety of occupations and professions including planning and community development, law, public relations and advertising, personnel

administration, private business and government administration, health and human services, family relations, criminal justice fields, and others.

Students may major or minor in sociology. The department offers a Bachelor of Arts and a Bachelor of Science through the College of Arts and Sciences. Students may also complete a second major or minor in sociology even though they are enrolled in other colleges. In addition, students seeking certification in social studies education at the secondary level through the College of Education may also emphasize sociology in their programs.

Courses offered by the department cover a wide range of topics and issues. Areas such as social inequalities, work, organizations, economy, globalization, family, community, environment, crime, law and deviance comprise a large part of the curriculum. Students may also pursue special readings courses and experiential education placements or internships through the department.

Bachelor of Arts with a major in SOCIOLOGY

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 109.

**Total Minimum Hours
 Required for Degree 120**

*Course used towards completion of a USP Requirement.

Minor in Sociology

Hours

Prerequisites

SOC 101 Introduction to Sociology
 or
 CLD 102 The Dynamics of Rural Social Life 3
 and
 Any other 100- or 200-level sociology course 3

Premajor Hours 6

Minor Requirements

Students complete an additional 15 hours in sociology, at least 3 of which must be at the 400 level or above and must include one of the following six-hour blocks:

- SOC 302 (or PSY 215) and SOC 303 (or PSY 216)
- or
- SOC 304 and SOC 305
- or
- SOC 302 (or PSY 215) and SOC 304

Any student wishing to minor in sociology should file an application with the Director of Undergraduate Studies in Sociology prior to entering the program.

STATISTICS

The Department of Statistics at the University of Kentucky is concerned with three essential functions: teaching, research, and consulting in statistics.

The department does not offer an undergraduate degree, but students may elect to include statistics as part of a topical major or to minor in statistics. The program in mathematical sciences also includes several statistics courses. The Master of Science and the Doctor of Philosophy degrees are offered.

Research is being actively pursued in statistical theory and methods, both parametric and nonparametric, linear models, inference, stochastic processes, applied probability, and biostatistics.

Consultation on statistical analysis and interpretation of data is provided to research workers on and off the campus. Particular attention is paid to the consulting needs of graduate students.

Minor in Statistics

The minor in statistics is aimed specifically at social and life science students, as well as students in the traditional mathematical sciences. A minimum of 17 hours of course work is required to complete the minor, as follows:

Track 1

STA 291 Statistical Method 3
 STA 295 The Art and Practice of Probability 3
 STA 322 Statistical Methods in Nonparametric Inference and Survey Sampling 4
 STA 422 Basic Statistical Theory II 4

Track 2

STA 320 Introductory Probability 3
 STA 321 Basic Statistical Theory I 3
 STA 322 Statistical Methods in Nonparametric Inference and Survey Sampling 4
 STA 422 Basic Statistical Theory II 4

plus one relevant course from the student's area (3 credit hours) to be approved by the Department of Statistics.

INTERDISCIPLINARY MINORS

African American Studies

The minor in African American Studies provides students with an opportunity to examine the contributions of established academic disciplines towards the understanding of African peoples, particularly those peoples in the New World. It also provides a framework for research and analysis of issues which focus on African American experiences in artistic, literary, historical, and sociopolitical environments. The minor requires 21 hours of study as follows:

1. AAS 200 Introduction to African-American Studies
2. AAS 400 Special Topics in African-American Studies
3. AAS 401 Independent Reading and Research in African-American Studies
4. a. At least six hours of course work in the humanities (as approved by the African American Studies Committee). Among these are:

- ENG 264 Major Black Writers
- FR 504 Topics in French Literature and Culture (if appropriate)
- HIS 254 History of Sub-Saharan Africa
- HIS 260 African American History to 1865
- HIS 261 African American History 1865-Present
- HIS 360 Race and Sports in America
- HIS 585 The Age of Jim Crow, 1880-1930
- MUS 300 History of Jazz
- PHI 300 Undergraduate Seminar (if appropriate)
- SPA 468G Twentieth Century Spanish American Literature in Translation (if appropriate)

4. b. At least six hours in the social sciences (as approved by the African American Studies Committee). Among these are:

- AAS 432 Race and Ethnic Relations
- ANT 431G Cultures and Societies of Sub-Saharan Africa
- EDC 550 Education in a Culturally Diverse Society
- GEO 336 Geography of Sub-Saharan Africa
- PS 417G Survey of Sub-Saharan Politics
- PS 461G Civil Liberties
- PS 471 Race, Ethnicity and Politics
- SOC 235 Inequalities in Society

NOTE: Courses in English and history are strongly recommended.

For further information, contact Dr. Sonja Feist-Price, Professor and Director, 102 Breckinridge Hall, (859) 257-3593.

American Studies

American studies draws together diverse disciplines to examine the historical and contemporary forms and issues of our national life. The program in American Studies takes as its field of study any peoples, cultural expressions and social institutions, however or whenever identified as "American." Program curricula link faculty, courses, and students across a range of humanities, arts, and social science departments.

The minor centers on two interdisciplinary seminars on selected topics in American studies. Students electing the minor are also encouraged to take a range of elective courses to complement their major. The minor in American Studies prepares students for further graduate or professional training, or for work in education, government, or business.

The minor requires 18 hours of study as follows:

1. AC 301 Topics in American Culture
2. AC 401 Perspectives in American Culture
3. Four additional courses (12 hours) from the following list of approved courses. No more than two courses (or six hours) may be taken in any one discipline:

Art History: A-H 342

Anthropology: ANT 221, ANT 342, ANT 470G, ANT 527, ANT 534

English: ENG 310, ENG 480G

Geography: GEO 320, GEO 321, GEO 322, GEO 490G

History: HIS 260, HIS 261, HIS 265, HIS 350, HIS 351, HIS 460, HIS 461, HIS 463, HIS 464, HIS 465, HIS 466, HIS 467, HIS 572, HIS 573, HIS 574, HIS 575, HIS 576, HIS 577, HIS 578, HIS 579, HIS 580, HIS 581, HIS 582, HIS 584, HIS 585, HIS 586, HIS 596

Music: MUS 206, MUS 222, MUS 300, MUS 301, MUS 506

Philosophy: PHI 514

Political Science: PS 430G, PS 456G, PS 458, PS 461G, PS 463G, PS 465G, PS 470G, PS 475G, PS 479, PS 484G, PS 545

Sociology: SOC 340, SOC 534

For further information, contact Associate Professor Joanne Melish, 1727 Patterson Office Tower, (859) 257-1014.

Appalachian Studies

This minor offers the student with serious interests in Appalachian regional studies an opportunity to pursue a minor concentration to complement a major in one of the university's professional or liberal arts programs. This interdisciplinary program enables students to comprehend more fully the history, social structure, and culture of the region – its people, its problems, and its future.

The minor in Appalachian Studies requires 18 hours of course work to include the following:

1. APP 200 Introduction to Appalachian Studies

2. Choose fifteen hours of Appalachian Studies courses. These courses must be chosen from the list below, or approved by the Director of Appalachian Studies:

- APP 300 Topics in Appalachian Studies (Subtitle required)
- APP 395 Independent Study
- APP 399 Practicum
- ENG 232 Literature and Place (if appropriate)
- GEO 365 Special Topics in Regional Geography (Subtitle required) (if appropriate)
- HIS 579 History of the New South
- HIS 580 History of Appalachia
- MUS 301 Appalachian Music
- PS 456G Appalachian Politics
- SOC 343 Political Sociology (if appropriate)
- SOC 534 Sociology of Appalachia
- SOC 735 Topics in Social Inequalities (if appropriate)

Note: Introduction to Appalachian Studies (APP 200) is strongly recommended. Individually arranged courses in independent study and experiential education may be counted toward the minor if approved by an Appalachian Studies advisor. Special Topics courses offered by the various departments may also be counted, if appropriate.

For more information about a minor in Appalachian Studies, contact the Director of Appalachian Studies, Dr. Ron Pen, (859) 257-8183 or e-mail at: ron.pen@uky.edu. For general information about service and research in the region, contact the Appalachian Center, 624 Maxwellton Ct., Lexington, KY 40506-0347, (859) 257-4852.

Cognitive Science

The undergraduate minor in Cognitive Science is aimed to provide undergraduates with an introduction to cognitive science as a theory of the mind as an intelligent (information-processing) system. Our objectives are to ensure that each student (a) be able to articulate, at least in broad terms, some of the assumptions that have been thought to unify the various subfields within the domain of cognitive science; (b) explore more than one discipline's approach to matters pertaining to cognitive science; and (c) explore in some detail at least one of the five main disciplines contributing to cognitive science (biology, computer science, linguistics, philosophy, and psychology). CGS 500 (Cognitive Science in Theory and Practice) will be run with the aim in mind of getting students to satisfy (a); and distribution requirements aim to put students in a position to satisfy (b) and (c).

To receive an undergraduate minor in Cognitive Science, the student must successfully complete 18 credit hours to be distributed as follows:

1. CGS 500 Cognitive Science in Theory and Practice 3

2. **Fifteen credits** from among the following:

- *ANT 332 Human Evolution
- BIO 375 Behavioral Ecology and Sociobiology
- BIO 535 Comparative Neurobiology and Behavior
- BIO 550 Comparative Physiology
- BIO 556 Communication Biology
- COM 350 Language and Communication
- CS 375 Logic and the Theory of Computing (may not be combined with PHI 520)
- CS 463G Introduction to Artificial Intelligence
- *CS 521 Computational Sciences

- CS 536 Situated Computing
- CS 575 Models of Computation (may not be combined with PHI 520)
- LIN 210 History of the English Language
- LIN 211 Introduction to Linguistics I
- LIN 212 Introduction to Linguistics II
- LIN 318 Semantics and Pragmatics
- LIN 319 Historical Linguistics
- LIN 512 Analysis of English Syntax
- *LIN 513 Teaching English as a Second Language
- LIN 515 Phonological Analysis
- LIN 516 Grammatical Typology
- LIN 517 Special Topics in Linguistics (Subtitle required)
- PHI 320 Symbolic Logic I
- PHI 361 Biology and Society
- PHI 520 Symbolic Logic II (may not be combined with CS 375, 575, or 675)
- PHI 560 Philosophy of Scientific Method
- PHI 565 Philosophy of Language
- PHI 575 Philosophy of Mind
- *PSY 223 Developmental Psychology
- PSY 311 Learning and Cognition
- PSY 312 Brain and Behavior
- PSY 427 Cognitive Processes
- PSY 456 Behavioral Neuroscience
- PSY 552 Animal Behavior
- PSY 562 Advanced Topics in Cognitive Psychology (Subtitle required)
- PSY 564 Advanced Topics in Learning (Subtitle required)
- PSY 565 Advanced Topics in Neuroscience (Subtitle required)
- *PSY 566 Advanced Topics in Social Psychology (Subtitle required)

Of the fifteen credit hours of courses from this list, (1) at least six credit hours must be in the same core discipline, where core disciplines are biology, computer science, linguistics, philosophy, and psychology; and (2) no more than six credit hours from any single discipline will count towards satisfaction of the requirement.

**Only by approval of the Director of Cognitive Science. The main criterion for approval will be the extent to which the course, as taught during the semester for which the student seeks cognitive science credit, contains a sufficient amount of materials relevant to cognitive science. The Director will make this determination by consultation with relevant faculty from the department teaching the course (including the instructor of the course), in conjunction with the criteria for course inclusion outlined on the Cognitive Science Web page.*

For more information, visit the Cognitive Science Web site at: <http://web.as.uky.edu/cogsci/>; or contact Professor David Westneat, 101 Morgan Biological Sciences Building, Department of Biology, (859) 323-9499, biodfw@uky.edu.

Environmental Studies

Environmental considerations permeate almost every facet of modern life, and concern for "the environment" is practically universal as we approach the twenty-first century. The minor in Environmental Studies is designed to provide students with the opportunity to become conversant in a range of environmental topics, whether as private citizens in their daily lives or as professional members of corporate, government, legal, medical, and educational circles.

The minor draws on topics and perspectives from the natural and physical sciences, the social sciences, and the humanities to underscore the interdisciplinary nature of environmental issues

and problems. Students taking the minor are encouraged to integrate the program with their major study focus in order to gain a competitive advantage in grappling with environmental topics.

The minor in Environmental Studies requires 18 hours of course work including the following:

1. ENS 200 Introduction to Environmental Studies* 3
2. Six hours chosen from the following list of **sociocultural** perspectives:**
 - ANT 375 Ecology and Social Practice 3
 - GEO 235 Environmental Management and Policy 3
 - GEO 550 Sustainable Resource Development and Environmental Management 3
 - PS 391 Special Topics in Political Science (Subtitle required) 3
 - PS 456G Appalachian Politics 3
 - ENS 300 Special Topics (Subtitle required) 3
 - ENS 395 Independent Work 3
3. Six hours chosen from the following list of **science and technology** perspectives:**
 - FOR 205 Forest and Wildland Soils and Landscapes 4
 - FOR 340 Forest Ecology 3
 - FOR 350 Silviculture 4
 - GEO 230 Weather and Climate 3
 - GLY 341 Landforms 3
 - GLY 585 Hydrogeology 3
 - BIO 325 Introductory Ecology 4
 - ENS 300 Special Topics (Subtitle required) 3
 - ENS 395 Independent Work 3
4. ENS 400 Senior Seminar (Subtitle required)* 3

*ENS 200 and ENS 400 satisfy the University Studies cross-disciplinary requirement.

**For other acceptable courses, consult the Director of the Environmental Studies Program.

At least six of the twelve elective hours must be at the 300-level or above.

Elective courses must be drawn from outside the student's major.

Alternative elective courses may be approved by the Environmental Studies Program Director.

For further information, contact Professor Ernest J. Yanarella, 1659 Patterson Office Tower, (859) 257-2989, e-mail: ejyana@email.uky.edu.

Indian Culture

This minor is designed to allow students to develop a more profound understanding of Indian culture. The curriculum is strongly interdisciplinary, encompassing courses in linguistics, anthropology, English, geography, mathematics, philosophy, political science, and sociology.

Students completing the minor will possess: (1) an ability to read Sanskrit (vital for comprehending Indian culture); (2) a well-rounded, multidisciplinary understanding of the culture and geography of India and of contemporary Indian society and politics; and (3) a high degree of preparedness to pursue careers in business or teaching that require knowledge of Indian society and its traditions.

The minor in Indian Culture requires 18 hours of course work, as follows:

1. Sanskrit Language Courses (6 hours)
 LIN 520 Sanskrit I 3
 LIN 521 Sanskrit II 3

2. Twelve hours of courses on India from anthropology, English, geography, linguistics, mathematics, philosophy, political science, sociology, and independent studies in India. Students choose from the following courses:

*ANT 327 Culture and Societies of India 3
 *GEO 330 Geography of the Indian Subcontinent 3
 GEO 365 Special Topics in Regional Geography (Subtitle required) 3
 GEO 565 Topics in Geography 3
 LIN 395 Independent Work 3
 MA 330 History of Mathematics 3
 *PHI 343 Asian Philosophy 3
 *PS 420G Governments and Politics of South Asia 3
 *SOC 380 Globalization: A Cross-Cultural Perspective 3

**Also satisfies the USP cross-cultural requirement.*

Students in the Indian Culture minor program will be encouraged to participate in a study program in India in the course of their undergraduate education.

For further information, contact Professor Gregory Stump (English and linguistics), 1253 Patterson Office Tower, (859) 257-1184; Professor Paul Karan (geography), 1439 Patterson Office Tower, (859) 257-6953; or Professor Avinash Sathaye (mathematics), 703 Patterson Office Tower, (859) 257-8832.

Islamic Studies

The interdisciplinary minor in Islamic Studies provides the opportunity to study the culture, language, literature, religion, history and philosophy of Muslim peoples throughout the world from antiquity to the present. Students will acquire a rounded understanding of Islamic culture, the ability to interpret information and news from the Middle East and elsewhere in an independent way, with understanding of the issues from the perspective of the Muslim countries, and will be prepared to pursue careers that require a knowledge of Islamic civilization.

1. Minor Requirements (6 hours)

AIS 328 Islamic Civilization I 3
 AIS 330 Islamic Civilization II 3

2. Minor Electives (12 hours)

AIS 101 Elementary Modern Standard Arabic 4
 AIS 102 Elementary Modern Standard Arabic 4
 AIS 201 Intermediate Modern Standard Arabic 3
 AIS 202 Intermediate Modern Standard Arabic 3
 HIS 247 History of Islam and Middle East Peoples, 500-1250, A.D. 3
 HIS 248 History of Islam and Middle East Peoples, 1250 to the Present 3
 AIS 301 Colloquial Arabic I 3
 AIS 302 Colloquial Arabic II 3
 AIS 331 Classical Arabic Literature (in English) 3
 AIS 338 Women and Islam 3
 AIS 340 Fundamentalism and Reform in Islam 3
 AIS 395 Independent Work in Arabic/Islamic Studies 1-3
 AIS 440 Introduction to the Quran 3
 AIS 442 Arabic Reading I 3
 AIS 443 Arabic Reading II 3
 AIS 435 Topics in Islamic Studies: (Subtitle required) 3

AIS 495G Advanced Independent Work in Arabic/Islamic Studies 1-3
 PHI 504 Islamic and Jewish Philosophy and the Classical Tradition 3
 HIS 548 History of the Middle East: 1453-1920 3
 HIS 549 History of the Middle East: 1952 to the Present 3

Note: Other courses in the area may be elected with the approval of the chair of the department.

For further information, contact Professor Suleiman Darrat, 1073 Patterson Office Tower, (859) 257-7037; e-mail: sdarrat@uky.edu.

Japan Studies

The Japan Studies minor complements existing majors and prepares students with the skills that are required to work with Japan given its integral place in international business. Students will also become well-versed in the culture and geography of Japan, its history, arts, and environment. This background will prepare students for Japan-related careers in the United States and abroad.

This 23-hour program consists of (1) 14 hours of Japanese language courses, (2) 6 hours of Japanese cultural studies, and (3) 3 hours of elective courses on contemporary East Asian history, politics, and society.

The Japan Studies Program maintains a University of Kentucky Summer Field Station at Yatsushiro (Kyushu) on the campus of the IEC Kyushu International College for summer field research and instruction. Summer field seminars are offered at this site each year. Details at: www.uwplatt.edu/geography/japan.

1. Japanese Language Courses (14 hours)

JPN 101 Beginning Japanese I 4
 JPN 102 Beginning Japanese II 4
 JPN 201 Intermediate Japanese I 3
 JPN 202 Intermediate Japanese II 3

2. Japanese Cultural Studies (6 hours)

GEO/JPN 334 Environment, Society and Economy of Japan 3
 ENG 283 Japanese Film 3
 JPN 320 Introduction to Japanese Culture, Pre-Modern to 1868 3
 JPN 321 Introduction to Japanese Culture, Meiji (1868) to Present 3

3. Contemporary East Asian History, Politics, and Society (3 hours)

HIS 295 East Asia to 1800 3
 HIS 296 East Asia Since 1800 3
 HIS 597 Westerners in East Asia, 1839 to the Present 3
 ANT 326 Peoples of East Asia 3
 PS 419G The Governments and Politics of Eastern Asia 3
 GEO 333 Geography of East Asia 3
 COM 525 Organizational Communication 3
 JPN 395 Independent Work in Japanese 1-6
 JPN 405 Seminar in Japanese and Asian Studies (Subtitle required) 3
 JPN 421G Contemporary Literary and Visual Arts of Japan 3
 GEO/JPN 491G Japanese Landscapes 3
 GEO/JPN 551 Japanese Multinational Corporations 3

For further information, contact Professor Doug Slaymaker, Director, Japan Studies Program, (859) 257-7557 or (859) 257-3761; e-mail: jpn.stdy09@spamex.com.

Judaic Studies

The interdisciplinary minor in Judaic Studies provides students with the opportunity to become acquainted with the culture, language, literature, religion, history, and philosophy of the Jewish people from antiquity to the present.

The minor in Judaic Studies requires 18 hours of course work as follows:

1. Required Courses

HJS 324 Jewish Thought and Culture I: From Ancient Israel to the Middle Ages* 3
 HJS 325 Jewish Thought and Culture II: From the Expulsion from Spain to the Present* 3

2. Elective Courses

HJS 101 Elementary Hebrew 4
 HJS 102 Elementary Hebrew 4
 HJS 201 Intermediate Hebrew 3
 HJS 202 Intermediate Hebrew 3
 HJS 326 The Jewish Experience in America 3
 HJS 327 Women in Judaism 3
 HJS 495 Independent Study in Judaic Studies 3
 PHI 504 Islamic and Jewish Philosophy and the Classical Tradition 3
 CLA 390 Roman, Jew and Greek: Backgrounds to Christianity 3
 HIS 330 A History of Western Religious Thought (I) ... 3
 HIS 323 The Holocaust 3
 ENG 270 The Old Testament as Literature 3
 HJS 425 Topics in Judaic Studies (Subtitle required) 3

And other courses with significant Judaic studies content, as approved by the Director, to a maximum of six credit hours.

**HJS 324 and HJS 325 satisfy the University Studies humanities requirement.*

For further information, contact Professor Oliver Leaman, Director of Judaic Studies Program, 1415 Patterson Office Tower, (859) 323-2272; or e-mail: oliver.leaman@uky.edu.

Latin American Studies

The minor in Latin American Studies provides instruction and broad exposure to the society and culture of Latin America. The minor requires a minimum of 18 credit hours to be distributed as follows:

Premior Requirements

1. LAS 201 Introduction to Latin America 3
 2. plus one of the following courses:
 HIS 206 History of Colonial Latin America, 1492 to 1810 3
 HIS 207 History of Modern Latin America, 1810 to Present 3

Minor Requirements

A minimum of 12 credit hours distributed evenly over the following four subject areas:

1. Language Skills (three hours beyond second-year Spanish)
2. Prehistory and History (three hours)
3. Contemporary Latin American Societies (three hours)
4. Literature and the Arts of the Americas (three hours)

Gatton College of Business and Economics

Devanathan Sudharshan, Ph.D., is Dean of the College of Business and Economics; Merl Hackbart, Ph.D. and Nancy Johnson are Associate Deans.

The College of Business and Economics was established at the University of Kentucky in 1925 as the College of Commerce. The name was changed to College of Business and Economics in 1966. The name was changed again in 1996 to the Gatton College of Business and Economics.

The objective of the instructional programs in the Gatton College of Business and Economics is to prepare the student for a lifelong career in business, government, or research and teaching. The programs are structured to provide each student an opportunity to acquire a background in the basic areas of the arts and sciences, to obtain a broad knowledge of business and economics, and to study in depth one or more fields of special interest.

Accreditation

The Gatton College of Business and Economics is a member of the AACSB – the Association to Advance Collegiate Schools of Business, which accredits undergraduate programs in accounting, business administration, and economics as well as master’s programs in accounting and business administration. The programs of the college enjoy the Assembly’s full accreditation.

Undergraduate Programs in Business and Economics

The University of Kentucky grants the following degrees in the Gatton College of Business and Economics:

- Bachelor of Business Administration
- Bachelor of Science in Accounting
- Bachelor of Science in Business and Economics

Students pursuing the Bachelor of Business Administration may select from these majors: Decision Science and Information Systems, Finance, Management, and Marketing.

ADMISSION POLICY

Admission to the University is sufficient for lower-division admission to the Gatton College of Business and Economics for students with less than a junior standing. However, lower-division

admission to the college or any admission to the University does not guarantee upper-division admission to one of the degree programs in the Gatton College of Business and Economics. In general, admission depends upon the qualifications and preparation of the applicants, as well as the availability of the resources for maintaining quality instruction.

Upper-division admission into a degree program is necessary in order to be granted a baccalaureate degree from the Gatton College of Business and Economics. Students who have attained a 3.0 or higher cumulative grade-point average overall and in the premajor component required of all students in the Gatton College of Business and Economics and have completed 60 semester hours of college-level credit will be assured admission.

Annually the Gatton College of Business and Economics will review the admission requirements and determine the cumulative grade-point average (Annual Admission GPA), if any, that would be acceptable below the 3.0 standard. The Annual Admission GPA (both overall and in the premajor component) will be no lower than 2.5 (see “Appeal Process” below for special circumstances). This GPA will be made available in the Undergraduate Resource Center of the Gatton College of Business and Economics by October 15 of each year. This GPA will be effective the following May 1. The GPA would be effective for any student applying for upper-division admission to the Gatton College of Business and Economics, regardless of the time of his/her enrollment in the University.

To be considered for upper-division admission to any of the undergraduate degree programs offered by the Gatton College of Business and Economics, an applicant must fulfill the following requirements:

1. Enrollment in the University of Kentucky. (Students are considered for acceptance by the college only after acceptance by the University of Kentucky.);
2. Completion of 60 semester hours with a minimum cumulative grade-point average of 3.0 or the current Annual Admission GPA, whichever is lower;
3. Completion of the premajor component required of all students within the Gatton College of Business and Economics with

a minimum grade-point average of 3.0 or the minimum current Annual Admission GPA, whichever is lower. In addition, students must complete the Microsoft Office Certification requirements. B&E 102, B&E 103, and B&E 104 are fulfilled upon passing the Microsoft Office Certification Exams in Word, PowerPoint, and Excel. For more information about testing at the Gatton College, visit: <http://gatton.uky.edu/Undergraduates/MOS>. (The courses meeting the premajor requirements are listed under “Graduation Requirements” below.);

4. Submission of an application form to the Gatton College of Business and Economics. The application is available on the Web at: <http://gatton.uky.edu/undergraduates>.

Applications from students outside the University of Kentucky seeking admission to the Gatton College of Business and Economics, whether for upper-division or lower-division status, must be received by the University Admissions Office no later than April 15 (first summer session); May 15 (second summer session); August 1 (fall semester); and December 1 (spring semester).

Students enrolled in other UK colleges on campus should apply for admission **prior** to the priority registration period. (The appropriate deadlines are listed in the University calendar for approved times to change major).

Lower-division students enrolled in the Gatton College of Business and Economics should apply for upper-division admission to the college during the semester they are completing the premajor course work. The application for upper-division admission should be made before the priority registration period for the upcoming semester.

Lower-division students in the college who are missing no more than two premajor courses will be permitted to complete these courses simultaneously with enrollment in restricted course work if they are otherwise eligible. Eligibility is determined by attainment of junior standing and the minimum cumulative and premajor grade-point standings. This privilege will be granted for one semester only.

Students not admitted to an upper-division program in the Gatton College of Business and Economics should be aware that others may be given preference for enrollment in the restricted upper-division courses offered by the Gatton College of Business and Economics.

Enrollment in restricted Business and Economics courses number 300 or above will be limited to:

1. Upper-division Business and Economics students;
2. Lower-division Business and Economics students who are missing no more than two premajor courses and are otherwise eligible for upper-division status. (This privilege will be granted for one semester only.);
3. Non-Business and Economics students who are registered for specific programs requiring Business and Economics courses;
4. Other students or categories of students with specific permission of the department offering the course.

In the event of capacity limitations, enrollment preference would be made in the above order.

An applicant from a non-English speaking country is required to take the Test of English as a Foreign Language (TOEFL) and must have a minimum score of 550 in order to be considered for admission. (An equivalent score from another English proficiency test similar to TOEFL may be allowed upon request.)

Appeal Process

Students with a GPA below the Annual Admission GPA may appeal for admission into the Gatton College of Business and Economics. If the Appeals Committee feels that there is persuasive evidence that personal, academic or professional circumstances have affected a student's grades and if the Appeals Committee feels that the student shows promise for successful completion of a degree in the Gatton College of Business and Economics, acceptance may be granted. Materials and information necessary for the appeals process are available in the Undergraduate Resource Center. The deadline for the submission of the appeals is generally 45 days prior to the beginning of the semester; however, appeals materials are not accepted for the first summer session.

Dean's List

Students who have a term grade-point average of 3.4 or greater will appear on the Dean's List.

Probation and Academic Suspension

The following rules apply to students in the Gatton College of Business and Economics.

1. No student with a cumulative GPA of less than 2.0 will be enrolled in the Gatton College of Business and Economics. Any student who fails to maintain a cumulative GPA of 2.0 will be suspended from the Gatton College of Business and Economics and will not be readmitted until this GPA is 2.0 or greater. No probationary notice will be given.
2. Any student enrolled in the Gatton College of Business and Economics who achieves a GPA of less than 2.0 in any semester will be placed on probation.
3. Any student on probation who fails to achieve a 2.0 semester GPA will be dropped from the Gatton College of Business and Economics and will not be readmitted until he or she has obtained a semester GPA of 2.0 or greater for one semester and the student's cumulative GPA is 2.0 or greater.
4. Students who are suspended twice from the Gatton College of Business and Economics will not be readmitted.

Scholarships

The Gatton College of Business and Economics awards scholarships at the freshman and upper-division levels. A small number of scholarships are available to freshmen based upon merit. Most upper-division scholarships require application in the spring. The application is available at: <http://gatton.uky.edu/undergraduates>.

DIVISIONS

SCHOOL OF ACCOUNTANCY

The faculty in the School of Accountancy is committed to providing the best possible educational experience for students. The faculty has both breadth and depth of training and experience in public accounting, industry, government and regulated industries, and previous classroom experience.

DEPARTMENT OF ECONOMICS

The Department of Economics provides theoretical and applied courses in widely diverse areas including urban problems, labor, monetary economics, international economics, comparative economic systems, and economic history.

SCHOOL OF MANAGEMENT

Decision Science and Information Systems

This degree program focuses on Business Analytics, which involves an organization's integrated use of technological and quantitative methods to process data and gain insights in the course of making decisions. The objective of Business Analytics is to help an organization reach decisions leading to actions that yield strong performance and sustained competitiveness in the context of today's turbulent, fast-paced, global business environment. The major covers application areas such as information systems, operations, and supply chain management.

Finance

The Area of Finance offers a variety of courses, both to students who concentrate their studies in finance and to those who desire additional knowledge in various financial areas. Such areas include financial management, security analysis and portfolio management, capital market theory, banking and institutions, and real estate.

Management

The faculty in the Area of Management brings extensive academic and practical experience to the classroom. Course offerings cover an array of management areas such as human resources, organizational behavior, and strategic management policy.

Marketing

The faculty in the Area of Marketing has extensive experience in industry and government and includes individuals with interests and training in all areas of marketing. Aspects of marketing such as research, strategy and planning, and retail and sales management are covered in marketing course work.

GRADUATION REQUIREMENTS

All students in the Gatton College of Business and Economics must fulfill the University Studies requirements as outlined in the *University Studies* section of this Bulletin, the premajor requirements, the College core requirements, and major requirements. Additionally, students must fulfill the College requirements listed below.

College Requirements

To graduate from the Gatton College of Business and Economics, a student must have a total of 120 credit hours (exclusive of lower division military science courses, physical education service courses, and performance-type courses) with a 2.0 grade-point standing. Students are required to earn at least 50 percent of their business credit hours required for the business degree at the University of Kentucky. A minimum GPA of 2.00 is required in all courses taken

at the University of Kentucky used to satisfy the College core. Additionally, a minimum GPA of 2.00 is required in all courses taken at the University of Kentucky used to satisfy upper division departmental requirements.

In addition to fulfilling the First Year Writing Requirement (ENG 104), students must also complete ENG 203, Business Writing; ENG 203 may fulfill the Graduation Writing Requirement.

Each student's undergraduate curriculum must include at least 60 earned credit hours of courses outside the Gatton College of Business and Economics. Up to nine semester hours of economics and up to six semester hours of statistics may be counted as part of the general education curriculum.

Students enrolled in the Gatton College of Business and Economics may complete a maximum of nine credit hours of college core and major courses through the Independent Study Program (correspondence).

Premajor Requirements Hours

Students must complete 23-28 credit hours taken from the following courses:

University First Year Writing Requirement	4
ACC 201 Financial Accounting I	3
ACC 202 Managerial Uses of Accounting Information ..	3
*ECO 201 Principles of Economics I	3
ECO 202 Principles of Economics II	3
STA 291 Statistical Method	3
MA 123 Elementary Calculus and Its Applications and	
MA 162 Finite Mathematics and Its Applications	6
or	
MA 113 Calculus I	4
B&E 102 Microsoft Office Specialist – Word	0
B&E 103 Microsoft Office Specialist – PowerPoint	0
B&E 104 Microsoft Office Specialist – Excel	0
Subtotal: Premajor Hours	23-28

*May also be used toward partial fulfillment of USP Social Science Requirement.

Suggested Premajor Curriculum

Freshman Year

Fall Semester	Hours
ENG 104 Writing: An Accelerated Foundational Course	4
USP Social Science	3 or 4
MA 109 College Algebra	
or	
MA 123 Elementary Calculus and its Applications	
or	
MA 113 Calculus I	
plus	
MA 193 Supplementary Mathematics Workshop I	3 or 5
USP Natural Science	3

Total	15

College Core

The Core, a total of 18 credit hours, consists of the following courses:

MKT 300 Marketing Management	3
FIN 300 Corporation Finance	3
MGT 301 Business Management	3
MGT 340 Ethical and Regulatory Environment	3
DIS 300 Analyzing Business Operations	3
ECO 391 Economic and Business Statistics	3
Subtotal: College Core Hours	18

Other College Requirements Hours

ENG 203 Business Writing	3
--------------------------------	---

*Students must complete one of the following courses:

ANT 101 Introduction to Anthropology	
PSY 100 Introduction to Psychology	
SOC 101 Introduction to Sociology	3-4

Students must complete one of the following courses:

B&E 240 Intercultural Business Communication	
COM 181 Basic Public Speaking	
COM 252 Introduction to Interpersonal Communication	
COM 281 Communication in Small Groups	
COM 287 Persuasive Speaking	
TA 225 Vocal Production for the Stage I	
or	
complete a bypass examination	3

*This one course may be used toward the USP Social Science Requirement.

Subtotal: Other College Hours 9-10

Electives

Each of the degree programs affords the student considerable opportunity and freedom of choice to take elective courses. The number of electives will vary depending on the student and their major. Each student must meet the general minimum hours for graduation. Students pursuing a second degree must have a minimum of 144 hours. Military science (lower division), music performance, and KHP activity courses do not

count for electives. A maximum of six hours of technical courses can be counted for electives. A total of four electives may be taken on a pass/fail basis if they are not being used for any other type of requirement, nor taught through the student's major department(s).

Policy on Experiential Education

Gatton College of Business and Economics' faculty work with the Office of Experiential Education to provide students with the opportunity to intern in a business-related field. The College allows a student to apply toward graduation up to six credit hours (pass/fail option only) of EXP 396/internship credit earned at the University of Kentucky. The maximum credit hours each semester that can be applied toward graduation for EXP 396/internship credit is three. Credits earned for other internship courses throughout the University are included in the three hours per semester and the six hour maximum for graduation credit. For further information, contact the Office of Experiential Education at (859) 257-3632.

Advising

The Undergraduate Resource Center (235 Gatton B&E Building) coordinates the academic advising of business students. Generally, lower division students (first- and second-year students) are advised through the Center. Students who have been admitted to the upper division program (juniors and seniors) are advised by departmental faculty advisors.

The staff of the Undergraduate Resource Center can assist with general information, admission decisions, and the applicability of credit toward degree requirements.

Bachelor of Science in ACCOUNTING

MINORS

NOTE: In addition to completing the minor requirements, students must complete at least six hours in each minor with courses that are not counted for any other academic program in the College.

Minor Residency Requirement

At least half of all upper division classes used to complete each minor must be earned from the Gatton College.

Minor in Economics

	Hours
ECO 201 Principles of Economics I	3
ECO 202 Principles of Economics II	3
ECO 401 Intermediate Microeconomic Theory or	3
ECO 402 Intermediate Macroeconomic Theory	3
Three additional economics courses at the 300-level or above	9

Students must take at least six hours of upper-division classes from the Gatton College (50 percent of the upper-division requirement for a minor).

Minor in Business

NOTE: This minor is not available to students pursuing a major in the Gatton College of Business and Economics. **Students should note that some courses in the minor have CS 101 as a prerequisite. Further, MA 113 (or MA 123) is a prerequisite for STA 291, a preminor requirement. STA 291 is a prerequisite for FIN 300, a minor requirement. Students who choose DIS 300 must complete MA 113 or MA 123/162.**

Students wishing to complete a minor in Business must complete the following:

Preminor Requirements	Hours
ACC 201 Financial Accounting I	3
ACC 202 Managerial Uses of Accounting Information	3
ECO 201 Principles of Economics I	3
ECO 202 Principles of Economics II	3
STA 291 Statistical Method	3

Students must complete the preminor requirements prior to taking any course in the minor requirements.

Students must take at least six hours of upper-division classes from the Gatton College (50 percent of the upper-division requirement for a minor).

Minor Requirements	Hours
DIS 310 Business Computing Systems or DIS 300 Analyzing Business Operations	3
FIN 300 Corporate Finance	3
MGT 301 Business Management	3
MKT 300 Marketing Management	3

Minor in International Business

To earn the minor in International Business, complete the following:

Prerequisite

Complete the College premajor with a grade-point standing meeting the Annual Admission GPA, **plus**

FIN 300 Corporate Finance	3
MKT 300 Marketing Management	3

Course Component

Complete 15 hours of course work, including:

MGT 309 Introduction to International Business	3
*AEC/ECO 471 International Trade	3

FIN 423 International Finance	3
MKT 435 International Marketing	3

**ECO 401 is a prerequisite for AEC/ECO 471.*

plus one of the following: a USP cross-cultural course at the 200 level and above that is not used to satisfy University Studies Program requirements, at least three credit hours earned through an education abroad experience, or six hours of college-level foreign language.

Students must take at least nine hours of upper-division classes from the Gatton College (50 percent of the upper-division requirement for a minor).

GRADUATE PROGRAMS

The Gatton College of Business and Economics offers the following graduate degrees through the Graduate School at UK: (1) Master of Science in Accounting, (2) Master of Business Administration, (3) Ph. D. in Business Administration, (4) Master of Science in Economics, and (5) Ph.D. in Economics. Additional information may be obtained from the Associate Dean for Graduate Studies, Gatton College of Business and Economics, and from *The Graduate School Bulletin*.

College of Communications and Information Studies

H. Dan O'Hair, Ph.D., is Dean of the College of Communications and Information Studies.

The College of Communications and Information Studies consists of the Department of Communication, the School of Journalism and Telecommunications, and the School of Library and Information Science. The Department of Communication educates its students in interpersonal, small group, mass, health and organizational communication, and communication theory and research. Graduates pursue a variety of career paths in areas such as corporate communication, health communication, personnel, education, media, and government. The journalism area within the School of Journalism and Telecommunications educates its students for professional careers in the media as writers, editors, and broadcasters. The integrated strategic communication area within the School prepares students for careers as professionals in the allied areas of advertising, public relations, and direct response communication. The telecommunications area within the School of Journalism and Telecommunications educates its students in telecommunications technology, management, programming, research, audio-video production, and the societal consequences of electronic media. The School of Library and Information Science provides students with the basic knowledge and skills required to function effectively in beginning professional positions in various types of libraries and information-providing agencies.

Accreditation

Majors in the School of Journalism and Telecommunications have national accreditation from the Accrediting Council on Education in Journalism and Mass Communications (ACEJMC).

Undergraduate Programs in Communications and Information Studies

The University of Kentucky grants the following degrees in the College of Communications and Information Studies:

- Bachelor of Arts
- Bachelor of Science

Students pursuing either the Bachelor of Arts or the Bachelor of Science select from these majors: communication, integrated strategic communication, journalism, and telecommunications.

Students may also select a minor in communication and a minor in telecommunications. Students may not double-major within the School of Journalism and Telecommunications. University requirements for a double major stipulate that each major be in a separate department (see *Academic Requirements* section of this Bulletin). No student may take more than 40 hours within the School to complete a degree.

Scholarships and Financial Aid

The College of Communications and Information Studies has several opportunities for students to obtain scholarship funding. The college awards four scholarships to incoming freshmen and two scholarships each to rising juniors and seniors each academic year. The School of Journalism and Telecommunications awards nearly \$45,000 in aid from various scholarship funds annually. The Department of Communication also has funding available for students. Generally, the deadline for scholarship applications is early in the spring semester to award funding for the following academic year. For specific information on scholarships, contact the department office, or the Office of Student Services in 105 Grehan Building.

ADMISSION POLICY

Admission to the University is sufficient for admission to the College of Communications and Information Studies as a **premajor** for students who have completed less than 45 semester hours. **An application must be filed with the college in order for a student to be considered for admission as a premajor or major.** However, admission as a premajor does not guarantee admission as a **major** in one of the degree programs in the College of Communications and Information Studies. In general, admission as a major depends upon the qualifications and preparation of the applicant, as well as the availability of resources for maintaining quality instruction. Additionally, depending on the timing of admission into the major program, students may not have access to major classes until subsequent semesters.

Upper-division admission into a degree program is necessary in order to be granted a baccalaureate degree from the College of Communications and Information Studies.

Transfer Students

The School of Journalism and Telecommunications is accredited by the Accrediting Council on Education in Journalism and Mass Communication (ACEJMC). Under ACEJMC guidelines, no more than 12 hours of journalism and mass communications courses from a student's previous institution(s) may be counted toward a degree in journalism, integrated strategic communication or telecommunications at the University of Kentucky.

Admission to Degree Programs

In order to be admitted to any of the four undergraduate majors (communication, integrated strategic communication, journalism, and telecommunications) offered by the College of Communications and Information Studies, an applicant must fulfill the following requirements:

1. Enrollment in the University of Kentucky (Students are considered for acceptance by the college only after acceptance by the University.);
2. Completion of 45 semester hours of course work;
3. Minimum of 2.6 cumulative grade-point average;
4. Completion of premajor requirements of the program to which application is made. **Students majoring in Communication, Journalism, and Integrated Strategic Communication must attain a minimum grade-point average of 3.0 on all premajor courses. Telecommunication majors must attain a minimum grade-point average of 2.6 in the premajor.*;**
5. Completion of the University Studies Program requirements I (Math), II (Foreign Language), III (Inference), IV (Written Communication) and VII (Social Sciences), plus six more hours from VI (Natural Sciences) and/or VIII (Humanities);
6. Submission of an application form.

**For the journalism premajor requirements, the student's grade in JOU 204 counts double in figuring the premajor grade-point average.*

No student will be allowed to test out of any Journalism, Integrated Strategic Communication, or Telecommunication course. A student taking a similar course from another institution would

still be allowed credit should the course meet criteria similar to the University of Kentucky course.

Students meeting these requirements will be designated as **majors** or as students with **upper-division standing** in the program to which admission is granted. Any student not meeting one or more of these requirements may be granted premajor status.

In the admission considerations, when personal, academic, professional, or intellectual circumstances tend to discount lower academic scores, admission may be granted if there is other persuasive evidence of both the capability and motivation to undertake successfully a program in the College of Communications and Information Studies.

Annually, the College of Communications and Information Studies faculty will review the minimum standards required for admission to the college. Any change in requirements will be implemented at the beginning of the academic year (fall semester) and will be in effect for the entire academic year. If the standards are to be changed, the Dean of the College of Communications and Information Studies will submit the proposed change by February 1 to the University Senate Council for approval, with prior circulation to the University deans and directors.

Admissions Process

Applications from students outside the University of Kentucky seeking admission to the College of Communications and Information Studies, whether for lower-division or upper-division status, must be received by the University of Kentucky Admissions Office no later than **April 1** (for summer sessions), **August 1** (for fall semester) and **December 1** (for spring semester).

Students enrolled in other UK colleges on campus may apply for admission during the first week of fall and spring semesters, or **prior to** the priority registration period. The appropriate deadlines are listed in the University calendar as approved times to change majors.

Each applicant bears the responsibility to see that the application contains all the requested materials.

Automatic acceptance: Assuming all else is in order, applicants with a 2.6 or above undergraduate grade-point average will be accepted. Once accepted, each student will be assigned a major advisor by the appropriate department office.

Admission based upon departmental review: Students who do not meet one or more of the requirements for admission, but who feel that this is due to extenuating personal, academic, professional, or intellectual circumstances, must describe these circumstances in detail in a separate letter of appeal. These circumstances will be considered by the Admissions Committee of the appropriate program. The applicant will be informed in writing of the committee's decision, which also will be forwarded to the college's Office of Undergraduate Studies.

Enrollment in Upper Division Courses

Enrollment in College of Communications and Information Studies courses numbered 300-599 will be limited in order of priority to:

1. majors and minors in College of Communications and Information Studies degree programs;
2. non-College of Communications and Information Studies students who are registered for specific programs requiring College of Communications and Information Studies courses;
3. other students or categories of students with the express permission of the department offering the course (departments may choose to declare certain courses as open enrollment courses).

GRADUATION REQUIREMENTS

To earn either the Bachelor of Arts or the Bachelor of Science degree in the College of Communications and Information Studies, each student must (1) complete 120 hours of course work (excluding courses lower than the 100 level, courses with an **R** designation, physical education service courses, and/or EXP 396 credits) with a grade-point average of at least 2.0 and (2) complete at least 42 hours in upper division courses (300 or above). No more than 60 hours may be taken within the college.

Other requirements include University Studies, premajor requirements, field of concentration (24-27 hours of major work and 15-18 hours of cognate courses earned outside the college as defined by the units), and a minimum of six hours of free electives.

Bachelor of Arts Degree Requirements

Students who pursue the B.A. within the College of Communications and Information Studies must fulfill the following requirements.

University Studies: Students must complete all areas of the University Studies Program. (See *University Studies Program* section in this Bulletin for a detailed explanation of requirements.)

College B.A. Requirements

1. Language. Complete one of the following sequences:

Option A: Successful completion of the fourth college semester of one foreign language. (Note: This may be accomplished by scoring at this level on a placement test for previous work in the foreign language.)

Option B: Complete the University Studies Requirements in a foreign language and a set of two courses dealing with the nature and structure of language, language behavior, or comparative languages. This set shall be comprised of one course from Group I below, and one course from Group II. (Courses counted as meeting this option may not be counted in the major or field of concentration.)

Group I: LIN/ENG 211.

Group II: ENG 210, ENG/LIN 212, ENG/LIN 310, LIN 317, LIN 318, ANT/LIN 319, ENG/LIN 512, ANT/ENG/LIN 515, ANT/ENG/LIN 516, LIN 517.

2. Statistics. Complete one course in statistics (e.g., STA 200, 291, 370)

Major Requirements

Students must complete the departmental requirements for one of the four majors (communication, integrated strategic communication, journalism, and telecommunications).

Subtotal: College B.A. Hours 9-17

Bachelor of Science Degree Requirements

Students who pursue the B.S. within the College of Communications and Information Studies must fulfill the following requirements:

University Studies: Students must complete all areas of the University Studies Program. (See *University Studies Program* section in this Bulletin for a detailed explanation of requirements.)

College B.S. Requirements

1. Mathematics, statistics and computer science: Complete nine credits in mathematics and/or computer sciences beyond the University Studies requirement. At least three hours must be in statistics.

2. Science Courses. Complete a minimum of 60 hours of science courses, with not more than 12 hours within the College of Communications and Information Studies. These courses must be approved by an advisor in the College of Communications and Information Studies and may be from the areas of mathematics, statistics, computer science, physical sciences, biological sciences, social and behavioral sciences, as well as from appropriate professional fields.

Subtotal: College B.S. Hours 60

Academic Advising

Premajor (freshman and sophomore) advising in the College of Communications and Information Studies is under the jurisdiction of the Office of Student Services, 105 Grehan Building. Premajor advisors are Cathy Hunt, Director of Student Services, and the Assistant Director of Student Services. Either can be reached at (859) 257-4839.

During advance registration periods, the college will advise premajors through individual advising sessions with college and department staff. Between advance registration periods, including registration at the beginning of each term, one faculty or staff member from each academic unit will be available to advise premajors.

When students are admitted to the upper-division of the college, they are assigned a faculty advisor from their major program.

B.S. or B.A. with a major in COMMUNICATION

The major in communication provides students with the knowledge and skills necessary to design, manage, and evaluate communication processes involving individuals, groups, and the public. Graduates develop strong oral, written, and interpersonal communication skills as well as an advanced ability to analyze and critique messages, behaviors, and media.

Majors typically plan their upper-division course work around four identified career paths: corporate communication, health communication, interpersonal relationships, and mass communication. Students also can tailor their own unique program of study to meet specific needs. Careful planning with the student’s advisor is necessary.

Communication majors are encouraged to participate in educational activities beyond regular course offerings. The department has an excellent internship program which offers the opportunity for work with employers in corporate, government, and public service agencies. In addition, students may elect to do independent study work with individual faculty on special topics or projects. All majors are encouraged to participate in a variety of student organizations providing extracurricular activities designed to enhance the academic experience and career opportunities. For students who qualify, the department sponsors an Honors Society.

Degree Requirements

Each student completes the following:

College Requirements

See “College B.A. Requirements” or “College B.S. Requirements” on page 162.

University Studies Requirements Hours

See “University Studies Program” on pages 83-87 for the complete University Studies requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill University Studies areas. Students should work closely with their advisor to complete the University Studies Program requirements.

Courses marked with an asterisk (*) may also be used to satisfy University Studies requirements.

Inference – Logic

Meet USP requirement. A statistics course is required in the premajor.

Social Sciences

Meet USP requirement. COM 101 is required in the premajor.

Premajor Requirements Hours

*COM 101 Introduction to Communications 3

*COM 181 Basic Public Speaking or
COM 287 Persuasive Speaking 3

COM 252 Introduction to Interpersonal
Communication or

COM 281 Communication in Small Groups 3

COM 249 Mass Media and Mass Culture 3

*Any 3-credit course in statistics, such as
STA 200 or STA 291 3

Subtotal: Premajor Hours 15

Major Requirements

COM 351 Introduction to Communication Theory 3
COM 365 Introduction to Communication
Research Methods 3

Fifteen additional credits of COM courses at the 300-level or above, of which at least nine credits must be at the 400- and/ or 500-level.

Cognate (15 hours)

Students must complete fifteen hours in courses related to a Career Path (exclusive of COM courses) at the 300-level or above, as approved by student’s academic advisor.

Subtotal: Major Hours 42

TOTAL HOURS: minimum of 120

Suggested Career Paths

Corporate Communication

Recommended COM Electives

COM 325 Introduction to
Organizational Communication 3
COM 452 Studies in Interpersonal Communication 3
COM 525 Organizational Communication 3
COM 482 Studies in Persuasion 3
COM 581 Studies in Small Group Communication 3
COM 399 Internship in Communication 3

Cognate Area

Courses in sociology, marketing, management, journalism and telecommunications are often chosen for this cognate.

Health Communication

Recommended COM Electives

COM 325 Introduction to
Organizational Communication 3
COM 452 Studies in Interpersonal Communication 3
COM 525 Organizational Communication
or
COM 449 Social Processes and Effects of
Mass Communication 3
COM 482 Studies in Persuasion 3
COM 571 Health Communication 3
COM 399 Internship in Communication 3

Cognate Area

Courses in sociology, psychology, behavioral science, philosophy, journalism and telecommunications, marketing and management are often chosen for this cognate.

Interpersonal Communication

Recommended COM Electives

COM 350 Language and Communication 3
COM 452 Studies in Interpersonal Communication 3
COM 462 Intercultural Communication 3
COM 482 Studies in Persuasion 3
COM 581 Studies in Small Group Communication 3
COM 399 Internship in Communication 3

Cognate Area

Courses in sociology, psychology, family studies, journalism and telecommunications are often chosen for this cognate.

Mass Communication

Recommended COM Electives

COM 325 Introduction to
Organizational Communication 3

COM 449 Social Processes and Effects of
Mass Communication 3
COM 453 Mass Communication and Social Issues 3
COM 482 Studies in Persuasion 3
COM 399 Internship in Communication 3

Cognate Area

Courses in sociology, political science, journalism and telecommunications, marketing and management are often chosen for this cognate.

Minor in Communication

Any student wishing to minor in communication must meet college selective admission requirements (45 credits completed, 30 credits in USP courses, COM 101 and have a 2.6 cumulative grade-point average). The student must file an application for the minor in the Department of Communication Office and have approval from the department chair for COM courses selected to complete the minor.

1. COM 101 Introduction to Communications 3
2. COM 181 Basic Public Speaking
or
COM 287 Persuasive Speaking 3
3. Three courses (nine hours) from the following:
COM 249 Mass Media and Mass Culture 3
COM 252 Introduction to Interpersonal
Communication 3
COM 281 Communication in Small Groups 3
COM 325 Introduction to
Organizational Communication 3
COM 350 Language and Communication 3
4. Three courses (nine hours) from COM courses at the 400-level or above.

B.S. or B.A. with a major in INTEGRATED STRATEGIC COMMUNICATION

The Integrated Strategic Communication major offers students professional preparation for careers in the allied areas of advertising, public relations, and direct response communication. Through course work, students develop conceptual command of these allied areas and also build expertise in one area through the *PATH* option they select. The major stresses a strategic approach to communication initiatives and is designed to build analytical and critical thinking skills as well as writing and presentation skills.

ISC graduates enjoy highly diverse career destinations. Agencies specializing in advertising, public relations, and direct response along with the media and communication technology industries, corporations, nonprofit organizations, and regulatory/consumer protection agencies need employees who have the skills developed by the ISC graduate.

ISC students are encouraged to expand their course work with activities unique to the major. Grehan Associates is a student-run full-service communications agency where students meet clients’ advertising, public relations, and direct response needs. The American Advertising Federation and Public Relations Student Society of America chapters offer both leadership and networking opportunities. A dynamic, professionally-oriented internship program insures that students gain hands-on experience with commu-

nications, government, or nonprofit agencies or with corporations or the media. Students are also encouraged to work with *The Kentuckian*, the *Kernel*, WRFL and WUKY.

Degree Requirements

Each student completes the following:

College Requirements

See “College B.A. Requirements” or “College B.S. Requirements” on page 162.

University Studies Requirements Hours
See “University Studies Program” on pages 83-87 for the complete University Studies requirements.

The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill University Studies areas. Students should work closely with their advisor to complete the University Studies Program requirements.

Courses marked with an asterisk (*) may also be used to satisfy University Studies requirements.

Inference – Logic

PHI 120 Introductory Logic	3
STA 200 Statistics: A Force in Human Judgment	3
Recommended sequence. A statistics course is required in the premajor.	

Social Sciences

PSY 100 Introduction to Psychology	4
plus any other course listed in University Studies	
Program Social Sciences area	3
PSY 100 is required in the premajor.	

Premajor Requirements Hours

*PSY 100 Introduction to Psychology	4
ISC 161 Introduction to Integrated Strategic Communication	3
ISC 261 Strategic Planning and Writing	3
or	
JOU 204 Writing for the Mass Media	3
*Any 3-credit course in statistics, such as STA 200 or STA 291	
Subtotal: Premajor Hours	13

Major Requirements

ISC 311 Ethics and the Strategic Communicator	1
ISC 321 Research Methods for the Integrated Strategic Communication Professional	3
JAT 399 Internship (Subtitle required)	3
plus , complete one of the following two-course <i>PATHS</i> :	

Creative Path

ISC 331 Advertising Creative Strategy and Execution I	3
ISC 431 Advertising Creative Strategy and Execution II	3

Public Relations Path

ISC 341 Strategic Public Relations	3
ISC 441 Case Studies in Public Relations	3

ISC Account Management Path

ISC 351 ISC Account Management	3
ISC 451 Integrated Strategic Media Management	3

Direct Response Path

ISC 361 Direct Response Targeting: Media and Database Management	3
ISC 461 Direct Response Message Strategies	3

Portfolio

Portfolio required for graduation.

Capstone Requirement

ISC 491 Integrated Strategic Communication Campaigns	3
--	---

Major Electives

Nine hours of 300+ level undergraduate courses offered in the School of Journalism and Telecommunications. ISC majors are expected to work with their academic advisor to build a program of electives that supports and extends the courses in the Major *PATH*.

Minor

MKT 300 Marketing Management	3
A 300+ level course in the Department of Philosophy dealing with social or professional ethics, such as PHI 332.	

Plus, completion of an official UK minor from any area outside the School of Journalism and Telecommunications.

TOTALHOURS: minimum of 120

Note: Of a student’s total course work for a bachelor’s degree, 80 of the 120 hours required for graduation must be in courses other than professional media-based communications. Accreditation standards require that (of these 80 hours) at least 65 semester hours be in basic liberal arts and sciences.

B.S. or B.A. with a major in JOURNALISM

The journalism major prepares students for leadership roles in rapidly changing media by requiring a strong core of journalism courses within the rich context of a liberal arts education. Courses are designed to foster analytical and critical thinking skills and to teach students to communicate effectively with a mass audience.

Founded in 1914, the journalism program has full national accreditation by the Accrediting Council on Education in Journalism and Mass Communications. Alumni include Pulitzer Prize winners, Nieman fellows and nationally known journalists.

Journalism majors learn about media law, ethics and history, and about the media’s role in an increasingly diverse society. The program emphasizes hands-on learning. Students select either a print or electronic emphasis in their professional skills courses. Majors choosing a print emphasis have the opportunity to write for a daily newspaper. Students who select the electronic track gain on-air experience at the university radio station and report, anchor, videotape and produce a newscast aired on a local cable channel.

Graduates are prepared for jobs as reporters and editors for print, broadcast and online media, and for positions as assignment editors, producers, managing editors, publishers and new media entrepreneurs. Courses are also offered for students interested in specialized careers such as sports reporting, business writing, arts criticism or graphic design.

All majors are encouraged to supplement their course work with media experience at the *Kentucky Kernel*, the independent daily student newspaper; the *Kentuckian*, the student yearbook; WUKY, the university’s public radio station, or WRFL, the student-run radio station. In addition, students are expected to take advantage of the school’s internship and job placement programs.

Degree Requirements

Each student completes the following:

College Requirements

See “College B.A. Requirements” or “College B.S. Requirements” on page 162.

University Studies Requirements Hours

See “University Studies Program” on pages 83-87 for the complete University Studies requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill University Studies areas. Students should work closely with their advisor to complete the University Studies Program requirements.

Courses marked with an asterisk (*) may also be used to satisfy University Studies requirements.

Social Sciences

PS 101 American Government	
or	
PS 235 World Politics	3
plus any other course listed in University Studies	
Program Social Sciences area	3
A political science course is required in the premajor.	

Premajor Requirements Hours

JOU 101 Introduction to Journalism	3
JOU 204 Writing for the Mass Media	3
*Any political science course	3
Subtotal: Premajor Hours	9

Core Major Requirements

JOU 531 Media Law and Ethics	3
plus three hours from conceptual courses such as the following:	
JOU 455 Mass Media and Diversity (Subtitle required)	3
JOU 532 Ethics of Journalism and Mass Communication	3
JOU 535 History of Journalism	3

Options

One of the following options:

Print

JOU 301 News Reporting	3
JOU 303 News Editing	3
JOU 410 Publications Production	3

Broadcast

JOU 302 Radio and TV News Reporting	3
JOU 304 Broadcast News Decision Making	3
JOU 404 Advanced TV News: JAT News	3

Major Electives

Nine hours of upper division electives in JOU, ISC or TEL, including three hours from reporting/writing courses approved by student’s advisor.

Portfolio

Portfolio required for graduation.

Field of Concentration

Breadth will be ensured in students’ programs by at least 18 credit hours of upper division courses taken outside the School of Journalism and Telecommunications. These courses typically are chosen from areas such as economics, philosophy, history, languages, literature, political science, psychology, sociology, or the sciences. These 18 hours should involve concentrated study in one field. This does not mean that all such courses must be in a single department, but they should be united under a topic heading such as “international relations,” “American government,” or “political behavior.”

Subtotal: Major Hours **42**

TOTALHOURS: minimum of 120

Note: Of a student's total course work for a bachelor's degree, 80 of the 120 hours required for graduation must be in courses other than journalism or mass communications. (Accreditation standards require at least 65 semester hours in basic liberal arts and sciences.)

B.S. or B.A. with a major in TELECOMMUNICATIONS

The Telecommunications major offers students a liberal arts program covering a range of issues related to electronic mass communication and electronic personal communication. In addition, students interested in message production or telecommunications management can opt to integrate selected professional or skills-based courses into their program of study.

Conceptual courses address the historical, economic, political, social, organizational, and/or technological dimensions of telecommunications systems and the interrelations among these factors. These courses may center on mass communication issues, interactive communication issues, or both.

Application courses cover the traditional telecommunications areas of audio and video production and the more recent developments in multimedia and Web page design and production.

All telecommunications majors will take advantage of the experiential learning opportunity provided by a formal internship. The School of Journalism and Telecommunications has an excellent internship program which offers the opportunity to work with a wide variety of employers, including companies oriented to the provision of voice, data, and/or video products and services. In addition, students may pursue special interests in telecommunications through independent study with any of the telecommunications professors.

Degree Requirements

Each student completes the following:

College Requirements

See "College B.A. Requirements" or "College B.S. Requirements" on page 162.

University Studies Requirements Hours

See "University Studies Program" on pages 83-87 for the complete University Studies requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill University Studies areas. Students should work closely with their advisor to complete the University Studies Program requirements.

Courses marked with an asterisk (*) may also be used to satisfy University Studies requirements.

Inference – Logic

PHI 120 Introductory Logic	3
STA 200 Statistics: A Force in Human Judgment	3
Recommended sequence. A statistics course is required in the premajor.	

Premajor Requirements Hours

TEL 101 Introduction to Media and Culture	3
TEL 201 Communication Technologies and Society	3
*Any 3-credit course in statistics, such as	
STA 200 or STA 291	3

A combined GPA of 2.6 is required from the three courses above.

Subtotal: Premajor Hours 9

Major Requirements

TEL 300 Telecommunications Research Methods	3
TEL 310 Telecommunications Policy and Regulation	3
JAT 399 Internship (Subtitle required)	3

plus 21 hours, with a minimum of six hours focusing on the social impact of telecommunications, from the following:

Social Impact Courses (minimum of six hours)

TEL 319 World Media Systems	3
TEL 420 Electronic Media Criticism	3
TEL 453 Mass Communication and Social Issues	3
TEL 520 Social Effects of the Mass Media	3
TEL 525 Theory of Multimedia	3
TEL 530 Proseminar in Telecommunications	3
TEL 555 The Internet and Social Change	3
TEL 590 Special Topics in Socio-Cultural Media Studies (Subtitle required)	3
JAT 395 Independent Study	1-3

Management Courses (minimum of three hours)

TEL 355 Communication and Information Systems in Organizations	3
TEL 404 Media Organizations	3
TEL 482 Electronic Media Sales Management	3
TEL 490 Special Topics in Media Industry Studies (Subtitle required)	3
TEL 535 Telecommunications Network Management	3

Media Production Courses

TEL 312 Video Production I	3
TEL 322 Multimedia I	3
TEL 412 Video Production II	3
TEL 422 Multimedia II	3
TEL 432 Audio Production	3

Cognate Area: All majors must fulfill the field of concentration or cognate area requirement by taking a minimum of 12 hours outside the major at or above the 300 level in courses related to their telecommunications interest.

Subtotal: Major Hours 42

TOTAL HOURS: minimum of 120

Note: Of a student's total course work for a bachelor's degree, 80 of the 120 hours required for graduation must be in courses other than professional media-based communications. Accreditation standards require that (of these 80 hours) at least 65 semester hours be in basic liberal arts and sciences.

Minor in Telecommunications

Any student wishing to minor in telecommunications should file an application with the School of Journalism and Telecommunications after meeting the following requirements:

Complete either TEL 101 or TEL 201

Complete 45 hours of university course work with a cumulative grade-point average of 2.6

Students cannot register for upper-level telecommunications courses until they have met the above requirements and have been accepted into the telecommunications minor program. After a student has been accepted as a minor, he or she will be assigned a faculty advisor.

The minor in telecommunications requires a minimum of 21 hours to include the following:

1. TEL 101 Introduction to Media and Culture	3
--	---

TEL 201 Communication Technologies and Society	3
--	---

2. Fifteen credits of additional course work with TEL prefix; six of the credits must be from among social-cultural media studies group of courses.

Note: Students should recognize that most upper-division telecommunications courses have specific prerequisite courses that must be taken and plan their programs accordingly.

M.S. in LIBRARY SCIENCE

The School of Library and Information Science began in 1933 as the Department of Library Science within the College of Arts and Sciences. Sixty years later, in 1993, the College of Library and Information Science merged with the College of Communications to form the College of Communications and Information Studies. The college consists of a School of Library and Information Science, a School of Journalism and Telecommunications, and a Department of Communication. The school offers one of approximately 50 master's programs in library and information science in the United States and Canada that are accredited by the American Library Association.

The School of Library and Information Science provides students with the basic knowledge and skills required to function effectively in beginning professional positions in various types of libraries and information-providing agencies. It contributes to the advancement of both the theory and practice of librarianship through systematic and continuing research and publication and provides continuing public service to individuals, libraries, professional organizations and related institutions to the end of promoting effective and efficient information services.

The School of Library and Information Science maintains flexibility and openness to change through the participation of faculty, students, and administration in the decision-making process. The student body of about 220 has its own organization, LISSO, the Library and Information Science Student Organization, which represents students in school deliberations. Students sit on committees and share significantly in the development of the school. The student organization participates in orientation programs, publishes a blog, and sponsors social activities throughout the year. The diversity of the students, in terms of geography and interests and backgrounds, helps to create an atmosphere in which change and improvement in the program can take place.

The libraries of the University, William T. Young, M.I. King and the branch libraries, constitute the major "laboratory" facility for library and information science students. They are supplemented by other libraries in the area including those at the Lexington Theological Seminary, the Veterans Administration Medical Center, the Lexington Public Library, several nearby public libraries and the State Department for Libraries and Archives in Frankfort.

Accreditation

The master's program in library and information science is accredited by the American Library Association.

Graduate Program in Library and Information Science

The University of Kentucky grants the following degrees in the School of Library and Information Science:

- Master of Science in Library Science
- Master of Arts

ADMISSION REQUIREMENTS AND PROCEDURES FOR GRADUATE STUDY

The School of Library and Information Science offers graduate degrees only. For complete information on the M.A. and the M.S.L.S. degree programs and admissions procedures, consult *The Graduate School Bulletin* and the School of Library and Information Science Bulletin. The former can be found at www.rgs.uky.edu/gs/ and the latter can be found at www.uky.edu/CommInfoStudies/SLIS.

Admission

The admissions philosophy of the school is to admit students who are capable of satisfactory academic performance and who show promise of being able to function as competent and effective librarians and information managers. A basic requirement for admission is an undergraduate degree in any discipline (from an accredited institution) with a grade-point average of at least 2.75 on a 4.00 scale. In addition the applicant should present Graduate Record Examination

scores, (a) on the General Test taken before October 1, 2002, of 450 or higher on the verbal section *and* of 400 or higher on the quantitative section *or* on the analytical section; (b) on the General Test taken on or after October 1, 2002, of 450 or higher on the verbal section *and* of 400 or higher on the quantitative section *or* 4.0 on the analytical writing section.

While these admission standards are important, the school does try to remain flexible to account for individual developmental differences and strengths.

There are no specific library science prerequisites for admission into the School of Library and Information Science. Students are urged not to take a minor in library science as undergraduates but to concentrate on other subject area majors and minors and obtain a broad liberal arts background. Electives in computer science are often very helpful.

Application must be made both to the School of Library and Information Science and The Graduate School. For information about applying to The Graduate School, go to: www.research.uky.edu/gs/gsprospect.html. For information about applying to the School of Library and Information Science, go to: www.uky.edu/CIS/SLIS/admissions. An applicant to the school must submit all materials by the deadlines **set by the school**, which are included with the information at Admissions. Applicants may enter the program in the fall or summer, but not in the spring. Send questions or inquiries to: ukslis@uky.edu.

Previous students must apply for readmission if they were not enrolled during the semester prior to that for which admittance is sought.

Financial Aid

Financial aid and scholarship information specific to library and information science is limited to graduate students and is too detailed and changes too often to warrant inclusion in this Bulletin. Information is available in the school Bulletin, which can be found at the school's Web site.

Advising

Upon admission to the master's program, students are assigned a faculty advisor. Advisor assignments are based, when possible, on student interest and preference.

University of Kentucky Undergraduates

The School of Library and Information Science does not offer any formal program of study on the undergraduate level. Students who are registered as undergraduates (juniors or seniors) at the University of Kentucky may take courses at the 500 level as a general minor or as meeting the requirements for certification in Kentucky as a school librarian.

GRADUATE PROGRAMS

The College of Communications and Information Studies offers the following graduate degrees: (1) Master of Arts in Communication, (2) Ph.D. in Communication, (3) Master of Science in Library Science, and (4) Master of Arts (Library Science). Additional information may be obtained from the Associate Dean for Graduate Studies for the College of Communications and Information Studies and from *The Graduate School Bulletin*.

Sharon P. Turner, D.M.D., J.D., is Dean of the College of Dentistry.

The College of Dentistry offers the Doctor of Dental Medicine (D.M.D.) degree and six post-doctoral programs. The major College mission is to educate and prepare dental practitioners to meet the oral health needs of the people of the Commonwealth of Kentucky and beyond. The College is accredited by the Commission on Dental Accreditation.

For further information on the D.M.D. and post-doctoral programs, refer to the *College of Dentistry Bulletin* at: www.mc.uky.edu/Dentistry/.

Admission – Doctor of Dental Medicine (D.M.D.)

The College seeks to enroll students whose backgrounds, personalities, and motivations indicate that they will make capable future practitioners. The College gives preference to qualified applicants who are residents of Kentucky. However, highly qualified out-of-state applicants are considered each year and such candidates are encouraged to apply.

The College will consider for admission any applicant who can demonstrate the ability to perform the skills listed in the College's Technical Standards policy. The specific standards are included in the *College Bulletin* and *Student Handbook*. Applicants are not required to disclose the nature of any disability, but an applicant with questions about these technical requirements is strongly encouraged to discuss the issue with the Assistant Dean of Admissions and Student Affairs. If appropriate, and upon the request of the applicant, student or faculty, reasonable accommodations for a disability will be provided.

Predental Preparation

The College strongly recommends that applicants gain a broad liberal arts education with a solid foundation in the sciences. Information on prerequisite course work may be obtained from the College's Office of Admissions and Student Affairs. Gaining admission is a competitive process and completing a baccalaureate degree prior to matriculation is an expectation.

Prospective dental students should contact the Office of Admissions and Student Affairs early in their undergraduate careers for guidance. The College will work with students to advise them on ways to become competitive applicants. The College also works closely with the UK Pre-Dentistry Society. For more information, call (859) 323-6071.

Application

The College participates in the American Association of Dental Schools Application Service (AADSAS), a centralized electronic application service. The address is listed below.

AADSAS
1400 K Street NW
Suite 1100
Washington, D.C. 20005
(202) 289-8123
www.adea.org

Application for admission should be submitted to AADSAS between June 1 and November 1 of the year preceding the fall in which admission is desired. Candidates are advised to complete their applications early since interviews begin in September. Applicants are offered admission beginning December 1 of each year, and those applying near the application deadline are at a disadvantage due to the time required to fully process an application.

Letters of Evaluation

Applicants must submit three evaluation letters from individuals (or a college committee) who know the applicant well and can provide meaningful comments about the applicant's academic potential, sense of responsibility, social sensitivity, community orientation, and awareness of social problems. Two of the three letters should be from undergraduate faculty.

Dental Admission Test

The Dental Admission Test was developed and adopted by the Council on Dental Education of the American Dental Association (www.ada.org) as one means of determining an individual's potential for dentistry. It is a multiple-choice examination that includes the following sections: Survey of Natural Sciences (biology, general chemistry and organic chemistry), Perceptual Ability, Reading Comprehension and Quantitative Reasoning. The Dental Admission Test is administered at Prometric/Sylvan Technology Centers nationwide in a computerized format. The applicant should take the test the first time in the spring of the junior year. Many applicants will take the Dental Admission Test more than once. The college will recognize the highest set of scores.

Direct questions regarding admission or arranging a visit to the college to:

e-mail: mlock2@email.uky.edu

Michael Speaks, Ph.D., is Dean of the College of Design. David Biagi, M.Arch., is Director of the School of Architecture. Ann Whiteside-Dickson, M.S., is Director of the School of Interior Design. Clyde R. Carpenter, FAIA, M.Arch., is Chair of the Department of Historic Preservation.

The University of Kentucky College of Design is comprised of the School of Architecture, the School of Interior Design, and the Department of Historic Preservation.

The UK College of Design was established to create a cohesive culture among the design disciplines on campus. Design professions continue to become increasingly integrated with architects, interior designers, and historic preservationists working together in close collaboration. The College of Design seeks to offer a place where this integration can be fostered early on at the academic level and to create a stimulating environment for the exchange of ideas and perspectives and the free exploration of interdisciplinary connections between various practices of design.

SCHOOL OF ARCHITECTURE

Architecture is an act of design, which creates space and structure for human activity and establishes a poetic dialogue between the built domain and its inhabitants. Architecture serves as a durable contextual symbol of the lives of a people, their spirit and aspirations, and their history. The objective of the School of Architecture is to promote in students the development of creative exploration, professional skill, and social awareness that an architect must possess if his or her architecture is to enhance contemporary life and serve as an enduring and valid expression of our culture and time.

Accreditation

In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB) (www.naab.org/), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted a 6-year, 3-year, or 2-year term of accreditation, depending on the extent of its conformance with established educational standards.

Master's degree programs may consist of a pre-professional undergraduate degree and a professional graduate degree that, when earned sequentially, constitute an accredited professional education. However, the pre-professional degree is not, by itself, recognized as an accredited degree.

Degree Programs in Design

The University of Kentucky grants the following degrees in the College of Design:

- Bachelor of Arts in Architecture
- Bachelor of Arts in Interior Design
- Master of Architecture
- Master of Arts in Interior Design, Merchandising and Textiles (IDMT)
- Master of Historic Preservation

Architecture Program

The professional curriculum offered by the School of Architecture is comprised of two consecutively acquired degrees: a four-year Bachelor of Arts in Architecture degree and a two-year Master of Architecture professional degree. This curriculum is commonly referred to by schools of architecture as a 4+2 curriculum. The Master of Architecture degree must be earned in order for a student to continue the process of seeking professional licensure as an architect. There is an opportunity for students who hold a NAAB-accredited Bachelor of Architecture degree to receive admission with advanced standing to the Master of Architecture program.

The curriculum centers on an intense, design-oriented approach to architecture education. In addition to design studio, students study technical aspects of building technology including building materials and structural systems; the history, theory, and criticism of architecture; and the ethical and professional principles of successful architecture practice. At the graduate level, students pursue studies in specialized professional concentrations such as building design, town design, historic preservation, digital visualization, history and theory, etc.

Admission into the School of Architecture Bachelor of Arts in Architecture program is regulated through a selective admission procedure both for graduating high school students and for students transferring from another collegiate institution or major.

APPLICATION DEADLINES FOR COLLEGE OF DESIGN

School of Architecture

Freshmen and Transfer Students—
Application, ACT - March 1
Test - Late February

**Transfer Students from
NAAB Architecture Programs—**
Application, ACT,
Test/Portfolio - April 1

School of Interior Design

**Major in Interior Design Upper
division program applicants –**
Special application, transcript(s),
and portfolio - February 1

The most significant part of the admission procedure consists of the Architecture Admission Test, which is designed to identify an applicant's innate ability in regard to spatial perception, visual memory, creativity, and logic. The Architecture Admission Test is typically administered in late February for admission to the fall semester beginning in August of the same year. Candidates who live more than 200 miles from Lexington, and who would find it difficult to take the test on campus, may apply (additional form required) to take the test in their own locality.

Applications for admission to the UK College of Design School of Architecture may be obtained from:

**Admission Committee
School of Architecture
UK College of Design
117 Pence Hall
University of Kentucky
Lexington, KY 40506-0041**

Applications are also available on the College of Design Web site at: www.uky.edu/Design/architecture.htm.

Candidates not currently enrolled at the University of Kentucky must apply separately to the University in addition to submission of the test application for the School of Architecture.

Admissions Procedures

Freshman candidates are required to file a University application, with necessary supporting documents, with the Office of Undergraduate Admission and University Registrar by March 1, 2010, for 2010 Fall Semester admission.

Candidates will be admitted in order of priority on the basis of the following criteria:

1. A potential for general academic achievement as indicated by the high school grade-point average and national college admission test scores (ACT or SAT).

As a rule, freshmen applying to the School of Architecture must meet the minimum academic standards required for all freshmen applicants for admission to the University. However, if the Architecture Admission Committee finds clear indications of probable success in architecture from its review of the further evidence pertaining to a candidate who does not meet these minimum criteria, an exception may be made to this rule. Any such exception would require formal recommendation of the School of Architecture Admission Committee and approval of the Director of Admissions.

For fall admission, applicants must register for and take the American College Test (ACT) or the Scholastic Aptitude Test (SAT) on or before the December 2009 test date.

2. The probability of success in a professional program in architecture as predicted by "The Architecture Admission Test."

3. Comparative measures of aptitude and motivation derived by the Admission Committee from supplementary tests (e.g., a home project assignment and/or a controlled test taken by the candidate on the same day and at the same place as test in 2. above) and, in cases of uncertainty and circumstances permitting, personal interview.

These tests will be administered by the School of Architecture Admission Committee in the College of Design, Pence Hall, in late February 2010 for 2010 Fall Semester applicants.

Arrangements can be made for those candidates who are unable to attend the examination on campus, for test administration under proper controls prior to the February test date, at their local educational facility. Requests, which state the need for a local examination and the name and address of the individual who will administer the controlled test, should be made in writing to the School of Architecture Admission Committee on or before February 15 to ensure that the results of the examination are received by the committee by March 1, 2010.

Transfer candidates from educational programs other than those in architecture will be required to observe the same application deadlines and testing procedures (when applicable) as those set out above for freshmen. **Please note that this deadline is earlier than that for**

general admission of transfer students to the University.

Candidates will be considered in order of priority on the basis of the following criteria:

1. The indication of general academic performance as reflected by the cumulative collegiate grade-point average, and the indications of specific interests and aptitudes as reflected by grades in certain critical disciplines (e.g., art history, foreign languages, freehand drawing, history of ideas, mathematics, philosophy, social history).

As a rule, the minimum academic standard acceptable to the Admission Committee will be a cumulative grade-point average of 2.0 on a 4.0 scale, or an average of C in all previous college work. However, if the Architecture Admission Committee finds clear indications of probable success in architecture from its review of the further evidence pertaining to a candidate who does not meet these minimum criteria, an exception may be made to this rule. Any such exception would require formal recommendation of the School of Architecture Admission Committee and approval of the Director of Admissions.

2. The probability of success in a professional program in architecture as predicted by "The Architecture Admission Test." Any applicant who is successful on "The Architecture Admission Test" but who has a university grade-point average of less than 2.0 will not be accepted to begin work in the School of Architecture. However, a one-year deferment of admission may be granted pending grade improvement to at least 2.0. This requirement may be waived by the Dean of the College of Design under extraordinary circumstances.

3. Other indications of their aptitude and motivation as may be available (e.g., a portfolio of work, references, experiences in building construction or related fields).

4. Comparative measures of their aptitude and motivation derived by the Architecture Admission Committee from supplementary tests (e.g., a home project assignment and/or a controlled test taken by the candidate on the same day and at the same place as test in 2. above) and, in certain cases of indecision, and circumstances permitting, personal interviews. Students who have been admitted to and have completed some professional courses within the School of Architecture and have withdrawn from the university for a period of three years or more, or who have not taken professional courses within the School of Architecture but remain in the university for a period of two years or more, may not reenter the program without the consent of the Dean of the College of Design, which would be given only under extraordinary circumstances.

Transfer candidates from N.A.A.B. accredited programs in architecture are required to file application with the Office of Undergraduate

Admission and University Registrar by April 1, 2010, for 2010 Fall Semester admission. **Please note that this deadline is earlier than those for application to the University in general.**

Candidates will be considered in order of priority on the basis of the following criteria:

1. The indication of general academic success and success in a professional program in architecture as reflected by the cumulative collegiate grade-point average, and indications of specific aptitude and skill development as reflected by grades in architecture or environmental design courses.

As a rule, the minimum academic standard acceptable to the Admission Committee will be a cumulative grade-point average of 2.0 on a 4.0 scale, or a C average in all previous college work. However, if the Architecture Admission Committee finds clear indications of probable success in architecture from its review of the further evidence pertaining to a candidate who does not meet these minimum criteria, an exception may be made to this rule. Any such exception would require formal recommendation of the School of Architecture Admission Committee and approval of the Director of the School of Architecture.

2. The probability of success in a professional program in architecture as predicted by a review of their portfolio of work in architecture. The portfolio should be brought or mailed, *together with return postage and mailing labels directly to:*

**Admission Committee
School of Architecture
UK College of Design
117 Pence Hall
University of Kentucky
Lexington, KY 40506-0041**

3. A review of at least three letters of reference addressed to the Admission Committee from referees such as previous other teachers, architectural practitioners or related professionals for whom the candidate may have worked.

The candidate's portfolio and letters of reference should be received by the committee by April 1, 2010, for 2010 Fall Semester admission.

4. In cases of uncertainty, and circumstances permitting, personal interview. Based on the above criteria, the Admissions Committee will determine entering placement in the program. This placement may be at a level lower than the applicant had achieved at his or her previous institution.

Scholarships

The College of Design awards scholarships based on merit and need to architecture students throughout the six years of the program, including travel grants for semesters abroad. Scholarships totaling more than \$60,000 are awarded annually. Architecture majors from first through

sixth years are also eligible for all general University scholarships and financial aid. Architecture students are also employed in the business and student services offices, library, computer lab and workshop of the college, and serve as teaching assistants.

Advising

Advising in the School of Architecture is conducted formally through meetings with each student each semester to review progress in the program and formulate individual curricular plans. The Student Services Office maintains complete records and provides information on admission, class policies, scheduling and scholarships, graduation course registration, and grade issues. Informal advising is an on-going process during the studio and seminar components of the curriculum, where the student-to-teacher ratio is typically 10-12 to 1.

**BACHELOR OF ARTS
IN ARCHITECTURE**

The architecture program at the University of Kentucky has achieved a national reputation for excellence through the commitment of its faculty and the spirit, talents, and work of its students. The architecture program is fully accredited by the National Architectural Accrediting Board (NAAB).

The professional curriculum offered by the School of Architecture is comprised of two consecutively acquired degrees: a four-year Bachelor of Arts in Architecture degree and a two-year Master of Architecture professional degree (a.k.a. a 4+2 curriculum). The Master of Architecture degree must be earned in order for a student to continue the process of seeking professional licensure as an architect.

The professional program consists of an intensive regimen of architecture studio courses as well as courses in the history and theory of architecture, building technology, computer and digital technology, and professional practice. The architecture studio is the foundation of the program. Studios provide a social and curricular framework for the architecture student. In the studio, design problems range from developing highly abstract ideas into concrete forms to providing architectural solutions for specific problems arising from detailed building programs and defined sites. Representational skills such as drawing, model making, and computer modeling are practiced rigorously as essential skills for design. A secure personal studio workplace is available at all times for all students.

The intensive study of architectural history, theory, and criticism directs students to the historical and cultural contexts of design. An extensive sequence of core history, theory, and criticism courses concludes with a series of seminars with a wide range of topics. Students in these seminars are encouraged to pursue research in areas relative to their individual design interests.

A study of building materials begins in first-year studio and evolves into a technical analysis of structural planning and design, materials and methods of construction, and building systems as students advance through the curriculum. Environmental controls for buildings are also investigated to provide an understanding of the complex visual, acoustical, and thermal aspects of designed space. Professional and legal aspects of architecture practice are addressed in a series of electives and seminars including issues relating to professional registration, ethics, and social responsibility.

This broad core of architecture course work is complemented by the University Studies Program. This program is a specific offering of liberal arts and science courses required of all students at the University of Kentucky. Elective hours allow students the flexibility to obtain a minor or undergraduate area of concentration within or outside the architecture program.

CURRICULUM

The School of Architecture in the College of Design administers the program curriculum, and the University of Kentucky Board of Trustees grants degrees. The curriculum consists of 133 credits for the undergraduate degree and 57 credits for the graduate degree for a total of 190 credits in six years.

The curriculum conforms to the following outline:

	Hours
I. Undergraduate University Studies requirements	34
II. Core program requirements	76
III. Undergraduate elective courses	23
IV. Graduate core program requirements	33
V. Advanced elective courses	15
VI. Master's Project	9
TOTAL	190

The above distribution of credit assumes that the University Studies Program Basic Skills requirements in mathematics and a foreign language have already been met prior to admission to the program, an assumption supported by historical student data. It also assumes that the Humanities section is to be met by approved core program courses in the History and Theory of Architecture (ARC 212 and ARC 213).

Graduation Writing Requirement

Students satisfy the Graduation Writing Requirement with ARC 314, required in the Major Requirements.

Graduation Writing Requirement Hours: 3

**BACHELOR OF ARTS IN
ARCHITECTURE
(Four-Year Program)**

YEAR ONE

	Hours
ARC 101 Drawing I: Observational Freehand Drawing	2
ARC 102 Drawing II: Observational Freehand Drawing	2
ARC 111 Introduction to History and Theory	3
ARC 151 Design Studio I	6
ENG 104 Writing: An Accelerated Foundational Course	4
PHY 151 Introduction to Physics	3
University Studies requirements	9
Electives	6
TOTAL	35

YEAR TWO

	Hours
ARC 203 Digital Media Within Architecture	3
ARC 212 History and Theory I: 15th-17th Centuries ...	3
ARC 213 History and Theory II: 18th-19th Centuries ..	3
ARC 231 Structural and Material Concepts	3
ARC 252 Design Studio II	6
ARC 253 Design Studio III	6
University Studies requirements	12
TOTAL	36

YEAR THREE

	Hours
ARC 314 History and Theory III: 20th Century and Contemporary Architecture	3
ARC 315 History and Theory IV: Urban Forms	3
ARC 332 Environmental Controls I	3
ARC 333 Environmental Controls II	3
ARC 354 Design Studio IV	6
ARC 355 Design Studio V	6
Electives	6
TOTAL	30

YEAR FOUR

	Hours
ARC 434 Structural Design and Analysis I	3
ARC 435 Materials and Methods of Construction	3
ARC 456 Design Studio VI	6
ARC 511-515 History and Theory Seminar (only one required)	3
University Studies requirements	3
Electives	14
TOTAL	32

Off-campus studio is strongly recommended in the fourth year.

Four-Year Total Hours

University Studies requirements	34
Architecture Core requirements	73
Electives	26
Total Undergraduate	133

MASTER OF ARCHITECTURE (Two-Year Program)

YEAR FIVE

	Hours
ARC 511-515 History and Theory Seminar (only one required)	3
ARC 533 Structural Design and Analysis II	3
ARC 631 Building Systems Integration	3
ARC 641 Professional Practice	3
ARC 658 Design Studio VIII	6
ARC 659 Design Studio IX	6
*Elective in Chosen Concentration	6
TOTAL	30

SUMMER

	Hours
ARC 642 Professional Internship	3
TOTAL	3

YEAR SIX

	Hours
ARC 750 Design Studio X (Comprehensive Project)	6
*ARC Master's Project in Chosen Concentration (ARC 709, 719, 729, 759, 769 etc.)	9
*Electives in Chosen Concentration	9
TOTAL	24

*The curriculum for each graduate concentration is listed on the Web in Appendix B at: http://architecture.uky.edu/curriculumproposal/final/a/WebPages/Table_of_Contents.html. A complete list of undergraduate and graduate courses follows on page 12 and ff.

Two-Year Total Hours

Architecture Core requirements	33
Master's Project	9
Electives in Chosen Concentration	15
Total Graduate	57

For more information about the School of Architecture's Master of Architecture degree, consult the UK Graduate School *Bulletin*, or the College of Design Web site at: www.uky.edu/Design/architecture.htm.

SCHOOL OF INTERIOR DESIGN

The dramatic evolution of the interior design profession over the last two decades is reflected in the Interior Design program at UK. The curriculum emphasizes the design, technical, problem-solving, and management skills required to work with allied design professions and to provide exceptional environments for human use. A series of sequential design studios builds design and teamwork skills while courses in related disciplines expose students to art, architecture, digital media, landscape architecture, and business. This curriculum is fully accredited by the CIDA, Council of Interior Design Accreditation (formerly FIDER).

The School of Interior Design is home to approximately 120 students from Kentucky, the nation, and abroad. The Interior Design program was established in 1973 and received its first accreditation from FIDER in 1981. The School is

the premier interior design program in the state of Kentucky. Graduates of the program practice design across the United States and have been recognized at the highest level of the profession. The program challenges its students to engage in activities that move the interior design profession forward and that enhance the intellectual, social, and cultural development of design theory, research, and application.

The School of Interior Design prepares students to create poetic environments while addressing built-environment issues associated with influencing the experiential aspects of being in space. Students gain expertise in the elements and principles of design, problem solving, building systems, human issues, functional considerations, scientific and technical processes, and the art of creating space.

Through internships, study abroad experiences, lectures by noted speakers, and field experiences, students are provided an opportunity to interact with regional, national and international design professionals. Graduates from the School of Interior Design pursue careers in a variety of settings including interior design firms, architecture firms, corporations, and public institutions. Students may also pursue graduate post-professional education in specialized areas within the field.

BACHELOR OF ARTS IN INTERIOR DESIGN

In addition to University Studies requirements, Interior Design students must complete the following:

- 16 credit hours of premajor requirements
- 79 credit hours of major/field of concentration requirements
- 9-12 credit hours of professional support electives
- 12-15 credit hours of focused electives
- 6 hours of free electives
- electives required to meet minimum credit hour standard for graduation.

UNDERGRADUATE ADMISSION

Premajor Admission

Students who want to major in Interior Design must first be admitted into the premajor (first year of the five-year program).

Freshman Candidates

1. File a University application with the Office of Undergraduate Admission and the University Registrar by **February 1** for fall admission in the year which the student wants to begin the program. For fall admission, applicants must register for and take the American College Test (ACT) or Scholastic Aptitude Test (SAT) on or before the December test date.

2. Apply for premajor admission to the School of Interior Design. The *Premajor Admis-*

sion Application Form is available on line on the college Web site at: www.uky.edu/Design/interiordesignadmissions.html.

3. Write an essay as required by the *Premajor Admission Application Form*. The essay will require applicants to express the rationale for their interest in the Interior Design profession and what steps they have taken to make an informed decision regarding their choice for a major.

4. The *Premajor Admission Application Form* with essay must be received on or before **February 1** in the year the student wants to begin the program.

Submit application to:

**Premajor Admissions
School of Interior Design
117 Pence Hall
University of Kentucky
Lexington, KY 40506-0041**

Transfer Students

Transfer candidates from educational programs other than interior design will be required to observe the same application process and deadlines as outlined for premajors. **Please note that the deadline is earlier than that for general admission of transfer students to the University.**

Premajor Admission Selection Process

Candidates will be admitted to the premajor in order of priority based on demonstrated potential for academic achievement in the first year of the program as indicated by high school grade-point average, ACT/SAT scores, and the required essay. Additional consideration will be given to the student's demonstrated participation in extracurricular, service, or work activities that show evidence for potential development of characteristics that will assist them in succeeding in the profession. Acceptance will be on a comparative and competitive basis and limited to the number of students the School of Interior Design is able to accommodate in studio. Notification of acceptance in the premajor will permit registration into ID 171 fall semester of the same year. Admission will not be deferred.

Admission Into the Major

Premajor Students

Admission into the Interior Design major occurs after completing the first and second semester requirements and is dependent upon the qualifications and preparation of the applicant as demonstrated by their portfolio. Since the number of students admitted to the major will be limited beginning with the sophomore-level course work, applicants will be selected on a comparative and competitive basis. To be considered for admission into the interior design major, an applicant must fulfill the following requirements:

1. Make application by **April 1** for admission into the Interior Design major for the fall semester of the next academic year. The *Major Admission Application Form* for the School of Interior Design is available on the college Web site at: www.uky.edu/Design/interiordesignadmissions.html.

Submit application to:

**Major Admissions
School of Interior Design
117 Pence Hall
University of Kentucky
Lexington, KY 40506-0041**

2. Completed or currently enrolled in all required premajor Interior Design course work, including ARC 111, ID 142, ID 171 and ID 172.

3. Submit for blind review a portfolio of work completed in the freshman-level Interior Design studio courses. Requirements and the submission date for the Portfolio Review for a specific year will be available on the College of Design Web site by **December 1** for the following spring review.

Transfer Students with Design Credit

Students who have university credit in design course work from an accredited professional program (CIDA [formerly FIDER], NAAB, etc.) who want to transfer into the School of Interior Design must make application for admission to the major. The application process includes:

1. File a University application with the Office of Undergraduate Admission and the University Registrar to be received by **March 1** for fall admission. Request an official transcript of college course work to be received by University of Kentucky Admissions by **April 1**. **Please note that this deadline is earlier than those for application to the University in general.**

2. Apply for admission into the School of Interior Design. The *Major Admission Application Form* for the school is available on line on the college Web site at: www.uky.edu/Design/interiordesignadmissions.html.

3. Submit a portfolio of student work completed in the previous design program. If the applicant wants the portfolio returned, the portfolio should be submitted with return packaging and mailing labels provided. The School of Interior Design will return the portfolio by COD.

4. Request three letters of reference addressed to the Major Admissions Committee. At least one reference must be submitted from a previous design professor. Other references are the candidate’s choice. These letters of reference must be sealed and signed by the author across the seal.

5. The *Major Admission Application Form*, portfolio, and three letters of reference should be in one package, received by **May 1** for fall term admission in the same year, and delivered to:

**Major Admissions
School of Interior Design
117 Pence Hall
University of Kentucky
Lexington, KY 40506-0041**

Major Admission Selection Process

Admission into the Interior Design major will be dependent upon the applicant’s qualifications and preparation. Criteria for admission will include the student’s demonstration of success in the following areas: overall GPA; portfolio of required work; and potential for professional aptitude. Since the number of students admitted will be limited, applicants will be examined on a comparative and competitive basis. Candidates will be admitted in order of priority. Preference will be given to students completing the premajor requirements at the University of Kentucky. Admission for a specific semester will not be deferred.

University Studies Requirements Hours

See “University Studies Program” on pages 83-87 for the complete University Studies requirements. The courses listed below are (a) recommended by the School of Interior Design, or (b) required courses that also fulfill University Studies areas. Students should work closely with their advisor to complete the University Studies Program requirements.

Recommended USP Courses

Math:
MA 109 College Algebra 3

Inference:
MA 123 Elementary Calculus and Its Applications 3

Social Sciences:
PSY 100 Introduction to Psychology 4
SOC 101 Introduction to Sociology 3

Humanities:
A-H 105 Ancient Through Medieval Art 3
plus one other humanities course 3

Recommended Graduation Writing Requirement

ENG 203 Business Writing 3

Premajor Requirements

ARC 111 Introduction to History and Theory 3
ID 142 History and Theory of Interior Design 3
ID 171 Interior Design Problem Solving Fundamentals 5
ID 172 Interior Design Graphics and Theory: Designer as Problem Solver 5
Subtotal: Premajor hours: 16

Major Requirements

ID 272 Interior Design Studio I: Designer as Artist 6
ID 262 Interior Building Systems 3
ID 243 Design Theory in the Modern Era 3
ID 274 Interior Design Studio II: Designer as Humanist 5
ID 263 Introduction to Digital Media 3

ID 264 Color Theory 3
ID 234 Research, Behavior and Design Theory 3
ID 370 Vertical Studio (first) 5
ID 365 Interior Design Finish Materials 3
ID 366 Lighting Design and Theory 3
ID 370 Vertical Studio (second) 5
ID 326 Interior Design Experiential Preparation 1
ID 427 Interior Design Outreach Experience: Internship or
ID 428 Interior Design Outreach Experience: Travel Seminar 12
ID 370 Vertical Studio (third) 5
ID 470 Interior Design Advanced Problem Solving: Designer as Creator and Pragmatist 5
ID 466 Interior Design Professional Practice 3
ID 460 Comprehensive Research and Programming 3
ID 429 Interior Design Portfolio Preparation 2
ID 471 Comprehensive Interior Design Studio 6
Subtotal: Major hours: 79

Professional Support

MAT 120 Textiles for Consumers 3
MKT 300 Marketing Management 3
plus:
With the academic advisor’s approval, the student will choose professional support totaling 9-12 hours selected from art history, history of landscape architecture, architecture, architectural history, art studio or DMT 520 Textiles for Interiors. A total of 6 hours must be at the 300 level or above.
Subtotal: Professional Support: 9-12

Focused Electives

See “Focused Elective Options” below.
Subtotal: Focused Electives: 12-15
Total Minimum Hours Required for Degree 166

Interior Design Undergraduate Program Overview

Semester 1	Hours
ID 171 Interior Design Problem Solving Fundamentals	5

*ECO 201 is recommended for students interested in a Business minor. See "Focused Elective Options" below.

**Students may take COM 181, 252, 281 or 287.

***See "Focused Elective Options" below.

†Semesters 7 and 8 are reversible.

Focused Elective Options

The Focused Electives will complement the interior design course work requirements, and provide students with additional depth or breadth in an area that will enhance their education and preparation for the multidisciplinary nature of contemporary design practice. Students may first be introduced to a Focused Elective area through the Professional Support or USP requirement. Each Interior Design student will complete a minimum of 12-15 credit hours of Focused Electives. While there is opportunity for independent selection, suggested focused electives areas are as follows:

Psychology

Interested students would be able to complete a minor in Psychology (20 hours) by fulfilling the requirements described in the University *Bulletin*. Students choosing this option are recommended to take both PSY 100 and PSY 215 as part of their USP course work.

Business

With careful planning, students interested in this option would be able to complete a business minor (21 hours) provided they fulfill all the requirements described in the University *Bulletin* under the College of Business and Economics. Students selecting a business minor are recommended to take ECO 201 for 3 hours credit in the University Studies Program (USP) elective category. ECO 202 would be taken to fulfill 3 hours of free program electives. The remaining 15 hours required for the Business minor would count as Focused Electives. Students selecting the Business minor are encouraged to make this decision early in their college career in order to complete both major and minor requirements in a timely manner.

Historic Preservation

Focused Electives could be concentrated in the area of Historic Preservation. Students desiring this option would be required to take ID 589, Restoration Preservation I. In addition, students would take a minimum of 9 additional hours selected from: HP 501, Selected Topics in Historic Preservation (may be repeated for 9 hours); MAT 522, History of Textiles; and GEO 490G, American Landscapes.

Architecture

Students selecting this focus may take the Architecture Furniture Construction sequence as well as other architecture seminars or theory classes to complete 12-15 hours.

Fine Arts

Students may fulfill the fine arts focus in a number of ways. A minimum of four courses for a total of 12 hours must be taken. The four courses may be (1) all studio arts; (2) all art history; or (3) a combination of studio arts and art history. All courses must be above the 100 level. A minimum of three of the courses must be at the 300 level or above.

Studio Art

With careful planning, students can complete a minor in studio art provided they fulfill the requirements described in the University *Bulletin* under the College of Fine Arts. Students selecting art studio as a minor are encouraged to take A-H 105 to fulfill one of the USP Humanities requirements as well as fulfilling one of their ID Professional Support courses with a 300 level or above art studio course.

Art History

Students have opportunity to obtain an art history minor with careful planning and completing the requirements described in the University *Bulletin* under the College of Fine Arts, which includes a language requirement. Again, students choosing this option would be encouraged to take A-H 105 to fulfill one of the USP Humanities requirements as well as fulfilling one of their ID Professional Support courses with a 300 level or above Art Studio course. Depending upon individual foreign language competency, students selecting this option may require additional foreign language.

Digital Media

Students selecting this option may select 12 hours from the following digital media courses on campus: A-S 200, Studio I; A-S 345, Web Design; A-S 346, Digital Video; A-S 347, Multimedia (Subtitle required); A-S 385, Digital Methods for Photography; JOU 330, Web Publishing and Design; ARC 405, Digital Visualization I; and ARC 406, Digital Visualization II.

Design Your Own Focus

Students may propose a self-directed area of interest to expand their understanding of some field that is complementary to the interior design profession. Students will submit a petition proposing their focus to their faculty advisor. The self-directed option must have a defined focus. Their faculty Advisor and the Director of the School of Interior Design will review and approve/disapprove the proposal. At least 9 of the 12 total hours must be at the 300 level or above.

For information on graduate opportunities available to Interior Design students, please consult the UK Graduate School *Bulletin*; or visit the College of Design Web site at: www.uky.edu/Design/interiordesign.htm.

DEPARTMENT OF HISTORIC PRESERVATION

The Department of Historic Preservation offers a graduate program based on field study, research, and community activism, which leads to a Master's Degree in Historic Preservation. Drawing on an abundance of local historical sites, the program documents and interprets historic buildings and landscapes and advocates their restoration, preservation, reconstruction, and rehabilitation. The program adopts an interdisciplinary approach to the investigation of buildings and landscapes, drawing on the disciplines of architecture, interior design, engineering, anthropology, archaeology, geography, and history.

The Department also operates the Center for Historic Architecture and Preservation (CHAP), a graduate research center within the College. Applications are invited not only from those with degrees in design – architects, interior designers, and landscape architects – but also from those who hold degrees in other disciplines and wish to pursue studies in historic preservation.

For information on the Historic Preservation degree program, consult the UK Graduate School Bulletin; or visit the College of Design web site at: www.uky.edu/Design/historicpreservation.htm.

Mary John O'Hair, Ed.D., is Dean of the College of Education.

The College of Education prepares students for professional careers in the field of education and human services. In addition to producing excellent teachers, College of Education graduates have gone on to excel in numerous other professional fields.

Ninety-eight percent of the college faculty have attained the highest degrees possible in their fields. The College provides students with access to state-of-the-art technology. Each building is equipped with computer laboratories and new "smart" classrooms to keep students and faculty in pace with the latest technological advances in education.

Whether a student's interest is teaching, administration, school or counseling psychology, coaching, dance, or special education, a degree from the UK College of Education means that he/she will be prepared for a rewarding career and a lifetime of influence on the lives of others.

Educator Preparation at UK

The educator preparation unit of the University of Kentucky includes programs in the colleges of Agriculture, Communications and Information Studies, Education, Fine Arts, Health Sciences, and Social Work that prepare professionals for careers in public education. The dean of the College of Education is the chief educator preparation officer for the UK educator preparation unit.

The theme of the educator preparation unit is *Research and Reflection for Learning and Leading*. The vision of the unit is to become one of the nation's 20 best public professional education units with emphasis on research, reflection, learning and leading.

The mission for the UK educator preparation unit is as follows: the Educator Preparation Unit at the University of Kentucky endeavors to expand the knowledge of teaching and learning processes across a broad educational spectrum. The unit fosters a culture of reflective practice and inquiry within a diverse community of students, faculty, and staff. As part of a research-extensive university, the unit prepares professionals for a variety of roles in educational settings and community agencies and provides leadership in the improvement of the education, health, and well being of citizens in the Commonwealth, the nation, and the world.

Federal Title II Reporting

The Educator Preparation Unit of the University of Kentucky participates in federal reporting of student performance on PRAXIS examinations required for state educator licensure. For the 2007-2008 program completers, UK students had an overall pass rate on the required examinations for Kentucky educator licensure of 98 percent, compared with a statewide pass rate of 95 percent. For additional information about the performance of UK students on PRAXIS tests, go to www.title2.org and select the pages for Kentucky. For additional information about UK programs in relation to other educator preparation programs in Kentucky, go to the Kentucky Education Professional Standards Board Web site at: www.keppreportcard.org.

Accreditation

The Professional Education Unit for the University of Kentucky is accredited by the National Council for the Accreditation of Teacher Education (NCATE), and all professional educator programs are approved by the Kentucky Education Professional Standards Board (EPSB).

Relationship With the Kentucky EPSB

All University of Kentucky educator preparation programs, initial or advanced, have been approved by the Kentucky Education Professional Standards Board (EPSB), in accordance with Kentucky statutes and regulations. In addition to overseeing all educator preparation programs approved for operation in Kentucky, the EPSB also issues, renews and revokes all Kentucky educator licenses (certificates). Kentucky educator certification regulations are always in a state of change. For the most up-to-date information about educator certification, refer to the EPSB Web site at: www.kyepsb.net/.

Financial Aid/Scholarships

The College of Education awards scholarships to both undergraduate and graduate students. Information and application forms are available in 166 Taylor Education Building. The deadline for scholarship applications is February 15. Graduate students should also contact the Director of Graduate Studies in their department for information about any targeted scholarship funds. Kentucky residents who are enrolled in a teacher certification program may also apply for funds from the Kentucky Higher Education Assistance Authority Teacher Scholarship program (KHEAA). Students applying for funds through

the KHEAA teacher scholarship program must include a completed FAFSA need analysis data form with their applications. Funds are awarded first to students fully admitted to a teacher education program, in order of the greatest financial need. The College of Education also administers the Kentucky Minority Educator Recruitment and Retention scholarship program (MERR) for the Kentucky Department of Education. Minority students applying for MERR funds must be Kentucky residents. Both KHEAA and MERR teacher scholarships awards are forgivable on a semester by semester basis when the candidate teaches in Kentucky public schools. Award recipients who do not teach in Kentucky public schools must pay back the awards, with interest. KHEAA and MERR forms are available in 166 Taylor Education Building.

Undergraduate Programs in Education

The University of Kentucky grants the following degrees in the College of Education:

- Bachelor of Arts in Education
- Bachelor of Science in Education

Students pursuing one of the following majors earn a Bachelor of Arts in Education degree: early elementary education, middle school education, secondary education, or special education (learning and behavior disorders). Students selecting the major in secondary education may specialize in one of the following: English, mathematics, science (biology, chemistry, earth science, physical science or physics), or social studies.

Students pursuing health promotion, kinesiology (teacher certification or exercise science), special education (interdisciplinary early childhood education and moderate and severe disabilities) earn the Bachelor of Science in Education degree.

Persons holding a bachelor's degree from a regionally accredited institution, with a minimum overall GPA of at least 2.50 may pursue initial educator preparation at the undergraduate level by following any of the programs described in this Bulletin. If these persons also wish to earn a UK bachelor's degree, all UK degree requirements must be met. All educator preparation students at the University of Kentucky are expected to meet the requirements for "Admission, Retention and Exit from Teacher Education Programs" as described on pages 177-178 of this Bulletin.

Graduate Programs in Education

Graduate Degrees and Certificates

The University of Kentucky offers the following graduate degrees for education:

- Master of Arts in Education
- Master of Science (Kinesiology and Health Promotion)
- Master of Science in Education
- Master of Science in Family Studies (Early Childhood Education)
- Doctor of Education (Ed.D.)
- Doctor of Philosophy (Ph.D.)
- Interdisciplinary Doctor of Philosophy (Ph.D. in Education Sciences)
- Rank II (32 hour) and Rank I (30 hour) Programs in Professional Education

Graduate Programs Leading to Advanced Educator Licensure

The University of Kentucky offers graduate programs leading to advanced educator licensure in Reading and Writing, Computer Science in Instructional Systems Design, English as a Second Language, Library Science, Communication Disorders, School Psychology, and School Leadership.

UK Graduate Certificates

The University of Kentucky offers graduate certificates in Middle and Secondary Reading and in Distance Education. (Candidates must hold a valid teaching certificate to enter the Graduate Certificate Program in Middle and Secondary Reading.)

Graduate Programs Leading to Initial Educator Licensure

The following graduate level initial educator certification programs are available at the University of Kentucky: **1)** stand-alone certification program in special education/learning and behavior disorders, grades P-12; **2)** master of science program leading to certification in moderate/severe disabilities, grades P-12; **3)** master of arts in education with initial certification in secondary education, grades 8-12, English, mathematics, science (biology, chemistry, earth science, physical science or physics), social studies); **4)** master of arts in education with initial certification, grades 5-12 in business and marketing education; **5)** master of science in career and technical education with initial certification, grades 5-12 (options in agriculture education and family and consumer sciences education); **6)** master of science in communication disorders with initial certification, grades P-12; and **7)** certification program in school psychology, grades P-12.

For more information about programs, please visit the College of Education Web site at: www.uky.edu/education/.

Graduate Alternative Certification Programs Leading to Initial Educator Licensure

Graduate Alternative Certification Programs leading to initial educator licensure are offered in the areas of Moderate and Severe Disabilities P-12, Middle School Education 5-8, and Secondary Education 8-12. Students who wish to enroll in a Graduate Alternative Certification Program must be employed in one of the participating school districts, and must meet the College of Education Admission, Retention and Completion standards, and the standards of the UK Graduate School. Graduate Alternative Certification Programs are three-year programs, including the Kentucky Teacher Internship Program. Additional alternative certification programs are under development and may become available at any time. Contact the Office of the Associate Dean for Academic and Student Services for more information.

Special Facilities and Services

The **Education Library** provides a wide range of education materials, with over 400 journals and 100,000 books, plus children's literature and Kentucky state-approved textbook collections. In addition, major education databases are available through the library's Web site at: www.uky.edu/Libraries/educ/.

Center for Educator Preparation Information Systems provides database and information system support for the College of Education. In addition, persons associated with the center engage in projects to make information systems technology more accessible to educator preparation programs nationally and in the Commonwealth.

The **Instructional Technology Center** provides media services to students, faculty, and programs of the College of Education. Services include computer classrooms, computer hardware and software support, presentation technology, circulation of nonprint teaching materials and audiovisual equipment; a materials preparation laboratory; graphic, photographic, and recorded media; and facilities for working with films and electronic media. The staff is available to assist with a wide range of technology-related activities.

The **Literacy Clinic** provides diagnostic and instructional services. Reading and language arts materials, children's literature, professional texts and journals, and other reference materials are available. Tutors are recommended, based on availability.

The **Office of Diversity and Equity**, 128 Taylor Education Building, (859) 257-1229, serves to "teach" minority students currently enrolled in the College, to become aware of their concerns, to provide needed support, and to encourage participation in activities and pro-

grams of particular interest to education majors. The office also works with local and adjacent school districts to implement Future Educators of America clubs, collaborates with Bluegrass Community and Technical College in identifying students who are interested in teaching, participates in campus-wide minority recruitment and retention activities, and builds community awareness of the need for minority teachers through participation in various projects.

The **Institute on Education Reform** coordinates the efforts of the College of Education to implement the Kentucky Education Reform Act (KERA). The Institute has three major goals: to stimulate research related to the implementation and effectiveness of KERA initiatives; to serve as a clearinghouse for information related to education reform in Kentucky; to provide staff development for teachers and administrators; and to redesign College of Education professional preparation programs to prepare graduates for the restructured schools of Kentucky.

The **University of Kentucky Council on Economic Education** works with classroom teachers to identify graduate courses, in-service programming, and seminars to help teachers integrate economic concepts into the school curriculum.

The **Office of Educational Research and Development** provides technical support to faculty and staff involved in research and proposal development, particularly as these enhance the College's participation in the Kentucky Education Reform Act (KERA), assists in follow-up studies of graduates, and assists with internal studies and evaluations of programs.

The **Policy Analysis Center for Kentucky Education (PACKE)** conducts research on policy issues related to education and evaluates implemented policies and programs.

The **Office of Higher Education Research and Development** conducts research on questions on higher education that are important to Kentucky. Research results are shared with the Council on Postsecondary Education and other institutions in Kentucky.

The **Biodynamics Laboratory** is a multidisciplinary facility housed in the Center for Biomedical Engineering. Faculty and students from Kinesiology and Health Promotion, Biomedical Engineering, Sports Medicine, Athletic Training, Minimally Invasive Surgery, and other related fields use high-speed videography, electromyography, and force measures to understand human movement.

The **Pediatrics Exercise Physiology (PEP) Laboratory** is one of only a handful of facilities in the world designed specifically to serve the needs of pediatrics patients.

The **UK Body Composition Core Laboratory (BCCL)** is a human-based laboratory facil-

ity specifically designed to provide state-of-the-art body composition analysis for research and clinical investigations.

The **Collaborative Center for Literacy Development (CCLD)**, 120 Quinton Court, Suite 200, was established by the Kentucky General Assembly in 1998 to make available training in literacy for educators and to promote literacy development. The Center focuses on six requirements laid out in Senate Bill 186, to: provide professional development and coaching for classroom teachers to implement reliable research-based reading models; establish a demonstration and training site for early literacy at each of Kentucky's public universities; collaborate with public and private post-secondary institutions to provide quality pre-service and professional development in early reading instruction; assist districts located in areas with low reading skills to assess and address identified literacy needs; identify models of reading instruction supported by research; and develop and implement a clearinghouse for information about reading models. The CCLD works to improve achievement for students pre-school through adulthood.

The **School Psychology Clinic**, 641 Maxwellton Court, (859) 257-1381, provides diagnostic assessment, intervention and consultative services to assist children, adolescents, college students, and adult learners with psychological and educational concerns. The clinic is also organized to provide supervised training for graduate students in school psychology at the University of Kentucky. Referrals and requests for services are accepted from parents, teachers, counselors, and others, as well as from school systems, community agencies and organizations.

The **Counseling Psychology Services Clinic**, 251 Dickey Hall, (859) 257-4159, is operated by the Department of Educational, School, and Counseling Psychology. The CPS Clinic provides individual, couples, family, parent-child, and group counseling. Diverse populations are welcomed; personal, career, and interpersonal issues can be addressed. The CPS Clinic serves as a training facility for advanced-level masters and doctoral students who are supervised by licensed psychologists. Fees for the CPS Clinic operate on a sliding scale to allow the greatest number of individuals in Lexington and the surrounding counties to be served.

The **Center for Traumatic Stress Research**, 251 Dickey Hall, (859) 257-9338, is a multi-service psychological trauma center dedicated to providing specialized counseling services to trauma survivors. The Center offers short-term psychotherapy to individuals of all ages, critical incident stress debriefings, and assessment and evaluation of posttraumatic symptomatology for litigation and/or disability claims. The Center also serves as a training clinic for graduate students in Counseling Psychology.

General Information

Students who wish to be recommended for any state educator licensure (certification) must meet the requirements of the Kentucky Education Professional Standards Board, and the University of Kentucky Senate.

Students desiring to be recommended for initial certificates in a major must be admitted to the Teacher Education Program associated with that major. The number of students admitted to any UK teacher education program each year depends upon the availability of resources for maintaining quality instruction.

Admission to a teacher education program is highly selective and may be competitive. Meeting minimum requirements for application does not guarantee admission.

Students will be recommended for degrees only upon completion of approved degree programs. Students who have not been admitted to a teacher education program will not be permitted to enroll in courses requiring Teacher Education Program admittance.

ADMISSION, RETENTION AND EXIT FROM TEACHER EDUCATION PROGRAMS

A student must be admitted, retained in, and successfully exit from a state-approved teacher education program in order to receive a teaching certificate. The components of an approved teacher preparation program include: 1) an earned bachelor's degree from a regionally accredited institution of higher education, 2) completion of approved teaching subject matter field(s), 3) successful completion of state mandated testing, 4) completion of a teacher preparation program, including student teaching, 5) and verification by program faculty that all applicable standards have been met.

The College of Education Certification Program Faculties, the College of Education Director of Academic Services and Teacher Certification, and the University Registrar are charged with the responsibility to monitor a student's progress through the teacher preparation program, and to recommend to the Kentucky Education Professional Standards Board (EPSB) that a successful candidate be awarded a state teaching license (certificate).

Continuous Assessment in Teacher Education Programs

A student's progress through all teacher preparation programs is continuously monitored, assessed, and reviewed. In addition to typical evaluation processes that occur as part of their course work and field placements, students will be assessed a minimum of three times during their program by representatives of their respective program faculty.

The three assessments will occur upon entry into the Teacher Education Program, at a mid-point in the program (no later than the semester

prior to student teaching), and as students exit the program following student teaching. Assessments will include, but are not limited to: (a) appropriate scores on approved standardized tests, (b) review of grades via inspection of transcript, (c) personal and professional skills assessed during interviews with program faculty when taking campus based courses, and during field experiences, (d) portfolio documents, and (e) continued adherence to the Kentucky Professional Code of Ethics.

Following admission to a Teacher Education Program, if problems have been identified at any assessment point, program faculty will determine a plan for addressing the problems and implement the plan including feedback and direction to the student. In addition, if specific strengths are recognized during these assessments, the student will be commended.

Standards for Admission to a Teacher Education Program

1. Candidates for admission must have completed at least 60 semester hours, or, if pursuing initial certification as a post-baccalaureate graduate or graduate student, must have earned a bachelor's degree from a regionally accredited institution of higher education. Early Elementary Education majors may apply to the Teacher Education Program after completing 45 hours.
2. Candidates for admission must demonstrate academic achievement by earning a minimum overall GPA of 2.50. In addition, post-baccalaureate graduate and graduate level students must demonstrate a minimum 2.50 GPA in the teaching subject matter field(s). Students seeking admission to a Master's Degree initial certification program must also satisfy UK Graduate School admissions standards.
3. Candidates for admission must certify their knowledge of the Kentucky Professional Code of Ethics and must sign a state mandated character and fitness review.
4. Candidates for admission must demonstrate aptitude for teaching by presenting three letters of recommendation from individuals who can attest to the candidate's potential success in teaching.
5. Candidates must present an Admissions Portfolio. Although the contents of the portfolio will vary by program, it will include at least the following: "best piece" sample(s) of writing in the subject matter field(s); evidence of experience with students and/or community; and a written autobiography or resume.
6. Candidates for admission must demonstrate an acceptable level of skills in written communication. This will be assessed through an on-demand writing task at the

time of the interview. In lieu of an on-demand task, program faculty may require that the candidate demonstrate having earned a minimum grade of **B** in a college-level written composition course.

7. Candidates for admission must demonstrate an acceptable level of skills in oral communication. This will be assessed by the program faculty at the time of the admissions interview. In lieu of assessing oral communication skills at the time of the interview, the program faculty may require that students have earned at least a **B** in a college level public speaking course.
8. Candidates for admission must present acceptable scores on one of the following standardized tests:
 - **ACT** – with minimum composite score of 21.
 - **SAT** – minimum composite score of 1500 required for tests taken after March 2005. Prior to March 2005, 990 (combination of Verbal and Quantitative). A minimum grade of **B** on a college level written composition course must accompany the SAT scores. Composition courses normally used to fulfill this requirement include ENG 101, ENG 102, ENG 104, ENG 105, ENG 305, or an equivalent course from another institution. Advanced Placement English used to fulfill the USP writing requirement may also be used.
 - **GRE** – Applicants whose GRE scores reflect the new Analytic Writing test must have at least a combined score of 800 on the Verbal and Quantitative portions of the GRE, in conjunction with an Analytic Writing score of 4. For prior version of GRE, minimum composite score of 1200 (combination of Verbal, Quantitative, Analytic). A minimum grade of **B** on a college level written composition course must accompany the GRE scores. Composition courses normally used to fulfill this requirement include ENG 101, ENG 102, ENG 104, ENG 105, ENG 305, or an equivalent course from another institution. Advanced Placement English used to fulfill the USP writing requirement may also be used.
 - **PRAXIS I Reading Test** – (173 paper or 320 computer), **Mathematics** (173 paper, 318 computer), and **Writing** (172 paper, 318 computer).

Rules which accompany the standardized testing requirements are as follows:

- No standardized test scores older than eight years can be used to meet this requirement.
 - GRE scores may be used only by students who hold a bachelor's degree.
 - Students may retake subtests in multi-part tests.
 - Students seeking entrance to a graduate degree initial certification program must meet both the graduate school rules regarding the GRE, and College of Education rules for certificate program standardized testing.
9. For those programs requiring EDP 202 as a prerequisite for admission to teacher education, students must complete EDP 202 with a grade of **C** or better.

Retention of Candidates in Teacher Education Programs

The progress of candidates who have been admitted to a teacher education program is continuously monitored. Some of the items which are monitored are: (a) whether a student continues to earn grades of **C** or better in professional education classes, (b) whether a student continues to maintain 2.50 minimum GPAs overall, 2.50 in the professional education component as defined in the student's program description, and 2.50 in all required subject areas, (c) whether a student continues to demonstrate adherence to the EPSB Professional Code of Ethics, and (d) whether adequate progress is being made in building the Working Portfolio.

If problems are identified, program faculty will determine a plan for addressing the problems and implement the plan including feedback and direction to the student.

Prior to the student teaching semester, each candidate will be asked to provide evidence in the form of the Working Portfolio to demonstrate the acquisition of skills related to teaching in the chosen subject field, and to document progress in any identified problem areas. Each candidate's portfolio will be reviewed by the appropriate program faculty, and continued progress through the program will be contingent on the results of this midpoint review.

Admission to student teaching requires a successful retention review and recommendation by the program faculty that the candidate be allowed to student teach.

All teacher certification candidates are encouraged to complete the required state-mandated examinations prior to beginning student teaching.

Exit from Teacher Certification Programs

All candidates for completion of a teacher education program must continue to meet all standards for admission and retention at the time of exit.

At exit all teacher certification candidates must present an Exit Portfolio for review by the

appropriate program faculty. The exit portfolio will be organized by Kentucky New Teacher Standards and will include a mix of items selected by the candidate and required by the particular program faculty.

The program faculty must certify that a review of the Exit Portfolio, and other pertinent documents has demonstrated that the candidate has met all of the Kentucky New Teacher Standards as a prerequisite to recommending the candidate for a teaching license.

Prior to exit from the teacher certification program all candidates must achieve required cut-off scores on all Kentucky state mandated teacher certification tests.

State Mandated Testing and the Kentucky Teacher Internship

Successful completion of the examinations required by the Kentucky Education Professional Standards Board is a precondition for the granting of a teaching license (certificate).

Upon being recommended by the College of Education for a Kentucky Teaching License (Certificate), a candidate will be issued a Kentucky Letter of Eligibility for the Kentucky Teacher Internship Program. Upon employment in a Kentucky P-12 school, the candidate will receive a one-year license to practice as a fully qualified intern teacher. After successfully completing the internship year, the candidate will be eligible for a regular Kentucky Professional Teaching License (Certificate). An exception to this rule are the Kentucky Alternative Certification Programs. In these programs, the Kentucky Teacher Internship is part of the program, which allows candidates, upon completion of the program, to be recommended for a full professional educator license (certificate).

Information concerning licensure in other states is available from the College of Education office of Academic Services and Teacher Certification.

Admission and Graduation for Secondary Education Students Not Seeking Admission to a Teacher Certification Program

1. All students pursuing a secondary education major without teacher certification must be admitted to advanced standing as described in items 2 - 4 below.
2. To be admitted to advanced standing, a student must have completed at least 60 semester hours.
3. Students must demonstrate academic achievement by earning a minimum overall GPA of 2.50 at the time of applying for advanced standing. At the time of graduation, students must demonstrate not only a minimum overall GPA of 2.50, but also a minimum GPA of 2.50 in the teaching subject matter field(s).
4. All requests for admission to advanced standing must be reviewed by appropri-

ate faculty advisors. Students not recommended for advanced standing by an appropriate advisor are ineligible to continue or graduate from College of Education programs.

Calculation of GPAs for Admission to Initial Certification Programs

GPA Rules

All candidates for admission to a UK initial teacher certification program must have earned an undergraduate cumulative GPA of at least 2.50.

In addition, candidates for admission to a graduate level initial certification program, i.e., secondary programs, career and technical education, must have earned in their subject area fields a GPA of at least 2.50.

Master's degree initial certification programs require a cumulative GPA of 3.0 for all graduate work prior to admission to the program.

UK cumulative GPAs are figured using the rules of the UK Registrar.

Undergraduate initial certification programs require a UK cumulative GPA of 2.50 calculated after the completion of at least twelve semester credit hours.

All courses used to satisfy subject matter certification requirements are used to calculate subject matter GPAs. Verification of subject matter GPAs require the use of any applicable non-UK transcripts for information about grades, credit hours and quality points.

Master's degree initial certification programs require an undergraduate degree with an overall GPA of 2.50, but do not require a UK cumulative GPA prior to admission.

Post bachelor's degree initial certification programs require an undergraduate degree with an overall GPA of 2.50, but do not require a UK cumulative GPA prior to admission.

Determination of GPAs for Admission to Initial Certification Programs

If the initial certification program requires a UK GPA, the GPA would be calculated using the rules of the UK Registrar.

If the initial certification program does not require a UK GPA, the required cumulative GPA of at least 2.50 is taken directly from the transcript that shows the award of the Bachelor's degree.

If an initial program requires review of the graduate GPA, all graduate courses taken on all transcripts are used to calculate the graduate GPA of at least 3.0.

Candidates for admission to a post-baccalaureate graduate initial certification program with less than a 2.50 cumulative GPA may establish a UK undergraduate GPA for the purposes of admission to the program. The UK GPA calculated for this purpose must include at least 12 semester hours taken from four sections of the UK University Studies categories and approved courses lists.

Subject area GPAs are calculated using all courses included on the candidate's approved subject area course listing form.

Questions regarding the College of Education Admission/Retention/Exit policy should be directed to:

www.uky.edu/education/**

NOTE: The College of Education anticipates a substantial revision in the policy on admission, retention and completion of educator preparation programs. This revision will strengthen emphases on continuous assessment, requirements relating to the meeting of standards, and rules relating to basic standardized testing and GPA requirements.

General Rules for Student Teaching

A student may enroll in student teaching in one of the educator preparation programs provided he or she has:

1. been admitted to and retained in the appropriate teacher education program;
 2. maintained a grade-point standing of at least 2.50 in (a) subject matter area(s) as defined by the program, (b) professional education, (c) related studies, and (d) overall;
 3. completed all professional education courses except student teaching;
 4. completed a minimum of 75 percent of the required subject matter courses;
 5. applied and been accepted for student teaching two semesters prior to the one in which student teaching is to be done;
 6. completed the required national and state criminal background check with no criminal background identified;
 7. been accepted by the school system and supervising teacher where he or she plans to do student teaching;
 8. scheduled no more than 3 hours of college work to be carried during student teaching with no classes scheduled to interfere with the student teaching assignment; and,
 9. presented evidence of having had a specified physical examination.
10. P-12 certification programs require student teaching in more than one grade level.

Policy on Intensive Field Experiences

The University of Kentucky College of Education is committed to preparing candidates for the teaching profession who are effective, reflective decision makers. To that end, and in order to meet state certification regulations and national accreditation requirements, teacher candidates

complete an array of carefully planned field experiences. These experiences are systematically integrated into the teacher education program curriculum.

In order to ensure high quality experiences, the College has established a network of clinical sites where candidates complete field placements. These sites are part of the university's extended campus known as the university clinical/field network. Sites are selected at the program level (i.e., by the program faculty that governs the curriculum for the particular certification area). Selection decisions are made using specific criteria that are directly linked to program goals, accreditation standards, and certification requirements.

All teacher candidates are expected to complete their intensive field experiences (referred to as practicum and student teaching) in these approved clinical sites.

Character and Fitness Reviews

All students seeking admission to, retention in, or completion of a UK educator preparation program, must complete a state mandated character and fitness review. In addition, students with records of misconduct beyond simple traffic violations must provide complete documentation of this misconduct utilizing written procedures available in the office of Academic Services and Teacher Certification. Records of misconduct will be available for use by program faculties in making decisions about admission, retention and completion of the program. Students must also complete any state-mandated background checks, which may include a national check of FBI records. By Kentucky statute, persons with records of serious legal misconduct are ineligible for student teaching, state teaching licensure, or employment in the public schools. Students are responsible for completing all required background check procedures in a timely manner so that decisions about their movement through the program may be made.

Appeals

Candidates who are denied admission to an educator certification program, not retained in the program, or denied completion of the program, may appeal the decision of the program faculty.

The first appeal is for the program faculty to reconsider its initial decision. Candidates must request a reconsideration within 30 days of the date on the letter of denial. The request for reconsideration must be presented to the program faculty chair, who will call a meeting of the program faculty to review the original decision. The program faculty chair will notify the Director of Academic Services and Teacher Certification of the faculty's decision, and the Director will notify the candidate in writing.

If the program faculty does not alter its initial decision, the candidate may appeal to the College

of Education standing committee on Undergraduate Admissions and Standards or the College of Education standing committee on Graduate Admissions and Standards. Candidates wishing to appeal to one of these admissions and standards committees must present their request for committee review to either the Associate Dean for Academic and Student Services or the Associate Dean for Research and Graduate Studies. The Associate Dean will assemble the necessary materials, call the committee together to hear the appeal, and inform the candidate of the committee's decision. The Associate Dean will also notify the Director of Academic Services and Teacher Certification so that student records may be updated. For purposes of admission, retention or completion of educator certification programs, the decision of the admissions and standards committee is final.

Standards and Standards Sets in Educator Preparation Programs

All College of Education programs are standards-based, requiring candidates to meet these standards before completing an educator preparation program. Candidates are assessed on these standards at the three continuous assessment points: admission to the program, prior to final practicum experiences, and at program completion.

There are three core sets of standards required for completion of all College of Education educator preparation programs. They are: Interdisciplinary Early Childhood Education Standards (IECE), New Teacher Standards (IECE), or Administrator Standards (ISLLC) (whichever is appropriate for the candidate's program.) For brevity, only the IECE and NTS standards sets are included in this section. Candidates should see their program faculty chairpersons concerning the standards that are applicable to their particular program.

Interdisciplinary Early Childhood Education Birth to Primary Standards (IECE)

1. Designs/plans instruction
2. Creates/maintains environments
3. Implements instruction
4. Assesses and communicates learning results
5. Reflects/evaluates professional practices
6. Collaborates with colleagues/families/others
7. Engages in professional development
8. Supports families
9. Demonstrates implementation of technology

Beginning (New) Teacher Standards (NTS)

1. Designs/plans instruction
2. Creates/maintains learning climates
3. Implements/manages instruction

4. Assesses and communicates learning results
5. Reflects/evaluates teaching/learning
6. Collaborates with colleagues/parents/others
7. Engages in professional development
8. Knowledge of content
9. Demonstrates implementation of technology

College of Education Skills and Dispositions

1. Communicates appropriately and effectively
2. Demonstrates constructive attitudes
3. Demonstrates ability to conceptualize key subject matter ideas and relationships
4. Interacts appropriately and effectively with diverse groups of colleagues, administrators, students, and parents in educational settings
5. Demonstrates a commitment to professional ethics and behavior

College of Education Technology Standards

1. Integrates media and technology into instruction
2. Utilizes multiple technology applications to support student learning
3. Selects appropriate technology to enhance instruction
4. Integrates student use of technology into instruction
5. Addresses special learning needs through technology
6. Promotes ethical and legal use of technology disciplines

Applying for Kentucky Educator Licenses

The University of Kentucky offers programs for most initial and advanced professional educator licenses (certificates) issued by the Kentucky Education Professional Standards Board (EPSB). EPSB license requirements are subject to change by the EPSB at any time.

UK candidates for Kentucky professional educator licenses must submit all required application materials to Academic Services and Teacher Certification, 166 Taylor Education Building, Lexington, KY 40506-0001. Recommendations to the EPSB that an educator license be issued are based upon a final audit of all program completion requirements.

GRADUATION REQUIREMENTS

To graduate from the College of Education, a student must: **1)** complete all specific program requirements as listed in this Bulletin; **2)** meet all requirements of the College of Education admission/retention/exit policy; and **3)** complete a minimum of 128 hours.

Because most students are pursuing both a UK degree and a state educator license (certificate), it is extremely important that advisors are consulted frequently to be sure that the best selection of courses is made to meet both requirements.

Undergraduate Advising

Lower division advising (freshman and sophomore standing) is accomplished and coordinated through Academic Services and Teacher Certification, 166 Taylor Education Building. (Kinesiology and Health Promotion advising takes place in the Seaton Center.)

Upper division students (junior and senior standing) and students admitted to a teacher education program are assigned faculty advisors.

DEPARTMENTS IN THE COLLEGE OF EDUCATION

Curriculum and Instruction

The Department of Curriculum and Instruction offers both undergraduate and graduate programs. Undergraduate programs prepare teachers for elementary, middle school, and secondary levels. Graduate programs include: advanced degrees in teaching at elementary, middle, and secondary levels; preparation for teaching at the college/university level; and preparation for instructional design roles in business and industry.

Educational, School, and Counseling Psychology

The Department of Educational, School, and Counseling Psychology offers course work leading to provisional and standard certification and licensure in the Commonwealth of Kentucky, by the Education Professional Standards Board and the Kentucky Board of Psychology, respectively. The UK counseling and school psychology doctoral programs are fully accredited by the American Psychological Association (APA), and the doctoral and specialist degree programs in school psychology are approved by the National Association of School Psychologists (NASP) and the National Council for the Accreditation of Teacher Education (NCATE).

Educational Leadership Studies

The Department of Educational Leadership Studies seeks to improve the quality of American education through improved training and competence of administrators. The department is particularly mindful of its obligation to supply the

needs of Kentucky for high quality administrators in public schools and educational agencies. Advanced programs are offered to meet certification requirements for elementary, middle, and secondary principals, supervisors of instruction, and superintendents of schools.

Educational Policy Studies and Evaluation

The Department of Educational Policy Studies and Evaluation provides a unique opportunity for students who wish to develop the knowledge, judgment, and research skill required to address educational issues with flexibility and imagination. Students are offered the resources of historical, sociological, philosophical, and comparative analysis; knowledge of current educational issues; expertise in evaluation research; and the opportunity to learn skills necessary to evaluate the significance of studies that bear on policy. The department offers advanced degrees only.

Kinesiology and Health Promotion

The Department of Kinesiology and Health Promotion offers undergraduate courses and degree programs in kinesiology (physical education) and health promotion. Students are encouraged to take one 1-credit physical education class each semester during the first two years of college.

The Physical Education University Service program offers beginning instruction in both individual and team activities. Individual skill instruction is available in weight training, conditioning and fitness, golf, racquet sports, gymnastics, swimming, scuba diving, aerobic running and swimming, and dancing. Instruction in such team activities as basketball, soccer, volleyball, and softball is also available. In addition, intermediate and advanced courses in many of the activities are offered.

The kinesiology program is designed for students interested in teaching as well those interested in the application of knowledge and skills in kinesiology and health promotion in commercial settings. Students desiring teacher certification will complete one or more of the programs in kinesiology and health promotion described in this Bulletin. The department also offers a non-teacher certification kinesiology program in exercise science.

The purpose of health promotion is to promote quality of life for all people. This area of study is interdisciplinary, extending into biology, psychology, sociology, and medicine. Health promotion generally focuses on the whole individual, including social and emotional dimensions, not just the physical. The primary focus of course work in health promotion is on teacher certification. Opportunities for health educators exist in community agencies, adult fitness programs, and health education programs in industry and business. The department offers a minor in

health promotion that does not lead to teacher certification.

In addition to kinesiology and health promotion, the department also offers a minor in dance. Students are able to pursue a teaching certificate in dance education.

Special Education and Rehabilitation Counseling

The Department of Special Education and Rehabilitation Counseling offers three different programs of study at the undergraduate level: (1) interdisciplinary early childhood education; (2) learning and behavior disorders; and (3) moderate/severe disabilities.

The department offers graduate level programs leading to initial educator certification in learning and behavior disorders, moderate/severe disabilities, and interdisciplinary early childhood education. Students may also pursue the masters degree in rehabilitation counseling, and graduate advanced preparation in a variety of special education topics.

Business and Marketing Education

Information on Business and Marketing Education appears on page 196.

DEGREE PROGRAMS IN THE COLLEGE OF EDUCATION

NOTE: All College of Education undergraduate programs require a minimum of 128 hours for graduation. However, determining the exact number of hours will vary depending upon a student's chosen plan of study. Students are encouraged to review carefully each program and its components to determine the hours necessary for graduation.

B.A. in Education with a major in EARLY ELEMENTARY EDUCATION

Requirements for Program

The Early Elementary Education Program is aligned with the New Teacher Standards of the Kentucky Education Professional Standards Board, and the national standards for elementary education approved by the National Council for the Accreditation of Teacher Education.

The model for the early elementary education program presumes a collaborative relationship between school and university personnel focused on ensuring a high level of individual attention to the mentoring and socialization of teacher candidates. The faculty recognizes that this is a labor-intensive process, requiring sustained time and effort by all parties. Work in early elementary education must be guided by two principles: first, a commitment to continuous improvement based on reflection, evaluation, and on-going research; second, a commitment to peer collaboration as a source of professional

growth for teacher candidates as well as school and university faculty.

To receive the B.A. degree in Early Elementary Education, students must: (1) complete the University Studies Program; (2) complete at least 128 hours; (3) complete the program related studies courses; and (4) complete the professional education component.

Continuous Assessment

1. Admission to the program is based on a selective admission process that generally occurs after students have completed 60 hours of university course work. All students are expected to meet the standards and rules for Admission, Retention and Exit from the Teacher Education Program as set forth in the section "Admission, Retention and Exit from Teacher Education Programs" on pages 177-178.

2. **Assessment at the Point of Entry to the Early Elementary Education Program.** At the point of entry students must present an admission portfolio which includes the following: a) a "best piece" sample of writing which demonstrates ability to research a topic in some depth; b) evidence of multicultural/cross-cultural experience with written reflection on the experience; c) evidence of having completed 30 hours of community service with early elementary age children, including a written reflection on the experience; d) evidence of having completed 20 clock hours of field experience in an elementary school, supervised by a qualified person; and, e) a written autobiography. Also at the time of entry, students will be required to complete an on-demand writing task.

3. **On-Going Assessment: Assessment During the Professional Introduction Semester.** Assessment of progress in the Professional Introduction semester includes assessment strategies specific to individual courses, but also includes an overall "Professional Introduction Portfolio." This portfolio is intended to be an extension of the admissions portfolio, adding the following exhibits: a) philosophy of education statement (this will be modified as candidates move through the program); b) "best piece" samples from course work that show evidence of content knowledge, pedagogical content knowledge, and effective practice (given the students' level of experience); and c) evidence of competence in instructional applications of technology and systems of information management.

4. **Assessment of Progress in the Professional Block.** This includes assessment strategies specific to individual methods courses that confirm content as well as pedagogical knowledge. It also includes some additional assessments. At the beginning of the semester, students' Professional Introduction Portfolios are reviewed and placement needs are discussed. Once the semester begins, students are observed throughout the semester by their supervisor and

are assessed using an observation form which directly reflects the New Teacher Standards. Students also submit videotapes of themselves teaching and an analysis of these as well as other lessons they have taught. The supervisors provide feedback on these lessons as well. The faculty also reviews students' Professional Development Plans. Each student develops a Professional Development Plan (PDP) in cooperation with UK faculty and school-based faculty. The PDP includes reflections on the student's strengths and areas that need further work. This document serves as a planning tool for student teaching. Students also continue the development of their teaching portfolio, adding information that demonstrates competence on tasks related to the New Teacher Standards for each Professional Block course.

5. Assessment During the Student Teaching Semester. Students are assessed in a variety of ways during this semester. Student assignments include: observations reports, developing a thematic unit, critiquing their own teaching using videotapes, completing two solo weeks, and further developing their teaching portfolios.

Statement on Student Teaching

Students in the early elementary education program complete 16 weeks of student teaching, concentrating on the ages in grades P-5. (See the section on "Student Teaching" on page 179 for additional information on student teaching.) Students selecting Special Education/LBD as their area of specialization will do student teaching in early elementary education, P-5, and also in one of the Special Education/LBD approved grade levels, P-12.

University Studies Component (38-50 hours)

Basic Skills

- A. MA 109 or MA 110 or Math ACT 26 or UK by-pass exam or any calculus course 0-4
- B. Two semesters foreign language or two years high school foreign language 0-8

Inference and Communication Skills

- A. STA 200 plus PHI 120 or PHI 320 6
- B. ENG 104 4

Disciplinary Requirements

- A. Natural Sciences
BIO 102 and BIO 103 and BIO 111 7
- B. Social Sciences
Choose **one** course from **two** separate disciplines below:
ANT 101, ANT 241, ANT 242
ECO 101, ECO 201
GEO 152, GEO 172, GEO 222, GEO 240
GWS 200
PS 101, PS 235
SOC 235, SOC 335 6
- C. Humanities
HIS 104 and HIS 105
or
HIS 108 and HIS 109 6

Cross-Cultural

- Choose **one** course from the approved list of cross-cultural courses 3

Electives

- *Choose **one** course from the following:
ENG 230, ENG 231, ENG 232, ENG 233, ENG 234,
ENG 261, ENG 262, ENG 264, ENG 281 3

- Choose **one art, music or theatre arts** course from the USP Humanities listings 3

*Students must notify the English Department if used to fulfill the Graduation Writing Requirement.

NOTE: Students may use University Honors Program courses (HON) and/or Discovery Seminars (DSP) to fulfill some of the above USP requirements.

Program Related Studies (37 hours)

- A-E 200 Workshop in Design Education for Elementary Teachers 3
- MUS 266 Teaching Music in Elementary Grades 3
- MA 201 Mathematics for Elementary Teachers 3
- MA 202 Mathematics for Elementary Teachers 3
- PSY 100 Introduction to Psychology 4
- GLY 160 Geology for Teachers 3
- PHY 160 Physics and Astronomy for Teachers 3

Choose **one** of the following courses:

- HIS 580, PS 456G, APP 200, GEO 322,
HIS 240 3

- LIS 510 Children's Literature and Related Materials or alternative (e.g., lower-division equivalent from community college) 3

Select **two** courses from the following (must be different from courses used in USP Electives):

- MA 310, MA 241, EDC 334, ENG 205, ENG 207, ENG 211, ENG 230, ENG 231, ENG 232, ENG 233, ENG 234, ENG 261, ENG 262, ENG 264, ENG 281,
EDC/ENG 509 6
- Free Elective 3

Professional Education Requirements (48 hours)

All of the following courses require admission to the Teacher Education Program:

- *EDP 202 Human Development and Learning 3
- *EPE 301 Education in American Culture 3
- KHP 380 Health Education in the Elementary School 2
- KHP 382 Physical Education for Elementary School Teachers 2
- EDC 329 Teaching Reading and Language Arts 3
- EDP 303 Teaching Exceptional Learners in the Elementary Classroom 2
- EDC 323 Classroom Management and Discipline 3
- EDC 322 Elementary Practicum 3
- EDC 326 Teaching Social Studies in the Elementary School 3
- EDC 328 Teaching Science in the Elementary School 3
- EDC 337 Teaching Mathematics in Elementary Schools 3
- EDC 339 Designing a Reading and Language Arts Program for the Elementary School 3
- EDC 317 Introduction to Instructional Media 1
- EDS 447 Strategies for Including Students with Disabilities in the Elementary Classroom 2
- EDC 433 Student Teaching in the Elementary School 12

*Students beginning their work in a public Kentucky community college may complete EDP 202 and a lower-division equivalent of EPE 301 before applying for admission to the Teacher Education Program at UK.

B.S. in Education with a major in HEALTH PROMOTION (Teacher Certification Program)

Requirements for Program

The Department of Kinesiology and Health Promotion offers undergraduate courses and degree programs in kinesiology (physical education) and health promotion. These programs support the UK educator preparation unit's theme of Research and Reflection for Learning and Leading. The process of reflective decision-making is imbedded in the departmental philosophy that students learn best through experiencing. The Health Promotion Program is guided by the standards of the American Association of Health Education (AAHE) and the Kentucky New Teacher Standards.

The health promotion program ensures an understanding of and knowledge about the structure of the health promotion discipline through the content and methodology courses in sexuality education, drug education, human health and wellness, nutrition, and program planning in health education. The purpose of health promotion is to promote quality of life for all people. This area of study is interdisciplinary, extending into biology, psychology, sociology, and medicine. Health promotion generally focuses on the whole individual, including social and emotional dimensions, not just the physical.

The B.S. in Health Promotion requires completion of the following: (a) the University Studies Program; (b) specified course work in Program Related Studies and Professional Education; (c) the health promotion major; and (d) a minimum of 128 semester hours. Students wishing to pursue certification both in health and kinesiology must follow the kinesiology program description.

Continuous Assessment

1. All students in the health promotion program are expected to meet the standards and rules for Admission, Retention, and Exit from Teacher Education Programs as set forth in the section "Admission, Retention and Exit from Teacher Education Programs" on pages 177-178.

2. The health promotion program stimulates higher performance goals for high-performing students by offering several modes of performance. Examples are: (a) skills in performing physical activities; (b) skills in writing and oral presentations in theory courses; (c) computer technological skills in some courses; and (d) leadership skills demonstrated by high-performing students who serve as class leaders, peer tutors, and/or assistant instructors.

3. After admittance to the program, students not only must maintain a 2.50 GPA, they must continue to exhibit desirable professional characteristics to remain in the program. Students who demonstrate a lack of commitment,

effort, professional behavior, knowledge, or teaching skills may be removed from the program until these characteristics are demonstrated.

Statement on Student Teaching

Students who are majoring in Health Promotion will enroll in:

KHP 371 Student Teaching in Health Education 12

University Studies (39-53 hours)

*See *University Studies Program* section of this Bulletin for listing of allowable USP courses.

Program Related Studies Course Sequence (19 hours)

	Hours
*PSY 100 Introduction to Psychology	4
*SOC 101 Introduction to Sociology	3
*BIO 102 Human Ecology	3
*BIO 103 Basic Ideas of Biology	3
PGY 206 Elementary Physiology	3
ANA 209 Principles of Human Anatomy	3

*May be taken for USP credit.

Professional Education Course Sequence (25 hours)

	Hours
EDP 202 Human Development and Learning	3
EDP 203 Teaching Exceptional Learners in Regular Classrooms	3
EPE 301 Education in American Culture	3
*EDC 317 Introduction to Instructional Media	1
*KHP 430 Methods of Teaching Health Education	3
*KHP 371 Student Teaching in Health Education	12

*These courses require admission to the *Teacher Education Program*.

Majors and Minors (48-51 hours)

Plan 1

Health Promotion Major (30 hours) and one or more university approved minors (18-21 hours). **Note:** University-approved minors outside of the College of Education must be planned with an advisor in the appropriate college if the student wishes to have the minor appear on his/her transcript.

Students wishing to pursue certification in both Health Promotion and Kinesiology must follow the Kinesiology major program description.

Major in Health Promotion (30 hours)

	Hours
KHP 190 First Aid and Emergency Care	2
KHP 220 Sexuality Education	2
KHP 222 Drug Education	2
KHP 230 Human Health and Wellness	3
KHP 330 Planning and Implementing Health Education Programs	3
KHP 420G Physiology of Exercise	3
KHP 445 Introduction to Tests and Measurements	3
KHP 509 Workshop in Health and Safety (Experiential Health Education)	3
NFS 101 Human Nutrition and Wellness	3

Choose at least **six** hours from the following courses:

KHP 240 Nutrition and Physical Fitness	3
KHP 395 Independent Study in Kinesiology and Health Promotion	3
*KHP 509 Workshop in Health and Safety	1-3
BSC 331 Behavioral Factors in Health and Disease	3
FAM 252 Introduction to Family Science	3
HSM 250 Introductory Epidemiology	3

*May be repeated under different topic names for up to three credit hours.

Other health related elective courses than the above list may be selected with permission of the Health Promotion faculty and must be relevant to the student's professional preparation program.

**Minor in Health Promotion (24 hours)
(not for teacher certification)**

	Hours
KHP 190 First Aid and Emergency Care	2
KHP 220 Sexuality Education	2
KHP 222 Drug Education	2
KHP 230 Human Health and Wellness	3
KHP 330 Planning and Implementing Health Education Programs	3
KHP 445 Introduction to Tests and Measurements	3
NFS 101 Human Nutrition and Wellness	3

Choose at least six hours from the following electives:

KHP 395 Independent Study in Kinesiology and Health Promotion	3
KHP 509 Workshop in Health and Safety	1-3
KHP 535 School Health Dilemmas of Special Populations	3
BSC 331 Behavioral Factors in Health and Disease	3
FAM 252 Introduction to Family Science	3
HSM 250 Introductory Epidemiology	3

Other health related elective courses than the above list may be selected with permission of the Health Promotion faculty and must be relevant to the student's professional preparation program.

Minor in Dance

Requirements for Program

The Department of Kinesiology and Health Promotion offers undergraduate courses and degree programs in kinesiology (physical education) and health promotion. These programs support the College of Education's theme of teacher as reflective decision maker. The process of reflective decision-making is imbedded in the departmental philosophy that students learn best through experiencing.

The minor in dance is for persons interested in dance who may wish to do graduate work in dance, apply dance principles to teaching dance in K-12 school settings, or in private studio work in dance. Persons interested in the dance minor should anticipate that it will take between two and a half to three years to complete the full set of courses, as each course is not taught every semester.

Dance Minor Requirements (22-24 hours)

KHP 147 Dance Foundations I	1
KHP 155 Principles of Conditioning	1
KHP 181 Modern Dance I	2
or	
KHP 182 Modern Dance II	2
KHP 240 Nutrition and Physical Fitness	3
KHP 290 History and Philosophy of the Dance	3
KHP 390 Dance Activities in the Elementary School ...	2
KHP 393 Rhythmical Forms, Improvisation, and Analysis	3
KHP 592 Choreography	2

In consultation with the student's advisor and depending on academic and professional interests, the student shall select **four to six** hours of courses from the following:

KHP 293 Classical Ballet I	2
KHP 294 Classical Ballet II	2
KHP 391 Jazz Dance I	2
KHP 392 Jazz Dance II	2
KHP 395 Independent Study in Kinesiology and Health Promotion	3

**B.S. in Education with a major in
INTERDISCIPLINARY EARLY
CHILDHOOD EDUCATION**

Requirements for Program

Early Childhood Education is an interdisciplinary program which will prepare educators to work with children birth through age five, in public pre-primary classes and non-public institutions including day care, private preschool, and private kindergarten. The program is approved by the Kentucky Education Professional Standards Board to prepare graduates to seek a state teaching certificate in Interdisciplinary Early Childhood Education.

The faculty of the Interdisciplinary Early Childhood Education program are associated with the Department of Family Studies and the Department of Special Education and Rehabilitation Counseling. The faculty believe that teaching young children involves viewing children holistically, using structured behavioral approaches. They recognize that viewing children holistically requires considering all of the various settings of children's environment (e.g., home, school, and neighborhood) as well as the reciprocal relationship between any two of the following variables: the immediate context the child is active in, the individual child, and all aspects of the child's environment (including people). In the Interdisciplinary Early Childhood Education program, students will learn to apply behavioral principles for purposes of developing curricula, assessing child behavior, planning, implementing, and monitoring interventions, and assisting families. The program is guided by the standards of the National Association for the Education of Young Children, and the Division of Early Childhood of the Council For Exceptional Children.

To receive the B.S. degree in Education with a major in Interdisciplinary Early Childhood Education, students must: (1) complete University Studies Program; (2) complete the premajor requirements; and (3) complete requirements for the Interdisciplinary Early Childhood Education major, including required student teaching experiences and other practica. Completion of the program requires 128 credit hours. To be state-certified, candidates must also successfully complete all state-mandated testing requirements.

Continuous Assessment

1. All students in the interdisciplinary early childhood education program are expected to meet the standards and rules for Admission, Retention, and Exit from Teacher Education Programs as set forth in the section "Admission, Retention and Exit from Teacher Education Programs" on pages 177-178.

2. **Assessment at the Point of Entry to the IECE Program.** The admission process provides the first point for formal assessment of the competencies outlined in the Initial Certification Program Folio for the program. Students who apply for admission must (a) meet the requirements for admission to the Teacher Education Program, and (b) be able to articulate their philosophy of teaching and document their experiences with young children in an initial portfolio and an entrance interview.

3. **On-going Assessment.** Once a student is admitted to the program, he/she meets with an advisor to plan the remainder of the program. Prior to the student teaching semester, the student must present a portfolio that documents his/her progress toward meeting program competencies.

4. **Exit Assessment.** At the exit assessment, students must document that they have met all program competencies through a final review of their portfolio and the successful completion of student teaching in an appropriate school placement for young children with and without disabilities.

Statement on Student Teaching

Student teaching in the Interdisciplinary Early Childhood Education program is 16 weeks. Students will enroll in:

IEC 411 Student Teaching in Interdisciplinary Early Childhood Education	12
---	----

Degree Requirements

Students in Interdisciplinary Early Childhood Education must complete the following:

1. Complete University Studies requirements.
2. Complete 128 credit hours with a minimum grade-point average of 2.5 (required for teacher certification).
3. Complete the required curriculum in the major program.
4. All students majoring in Interdisciplinary Early Childhood Education must apply and be admitted to the professional Teacher Education Program in order to complete the program.

University Studies Requirements Hours
See “University Studies Program” on pages 83-87 for the complete University Studies requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill University Studies areas. Students should work closely with their advisor to complete the University Studies Program requirements.

Courses marked with an asterisk (*) may also be used to satisfy University Studies requirements.

Math	
MA 109 College Algebra	
or	
MA 110 Analytic Geometry and Trigonometry	
or	
Math ACT of 26 or above	0-4

Natural Sciences	
BIO 102 Human Ecology	3
BIO 103 Basic Ideas of Biology	3
BIO 111 General Biology Laboratory	1

Social Sciences	
PSY 100 Introduction to Psychology	4
SOC 101 Introduction to Sociology	3

Humanities	
HIS 104/105 A History of Europe through the Mid-Seventeenth Century/From the Mid-Seventeenth Century to the Present	
or	
HIS 108/109 History of the United States Through 1865/Since 1865	6

Premajor Requirements	Hours
*COM 181 Basic Public Speaking	3
*PSY 100 Introduction to Psychology	4
*SOC 101 Introduction to Sociology	3
IEC 120 Introduction to Early Childhood Education ...	3
*STA 200 Statistics: A Force in Human Judgment	3
Subtotal: Premajor Hours	16

All students in Interdisciplinary Early Childhood Education must apply, and be admitted to, and be retained in a Teacher Education Program (TEP), and complete a state approved university teacher training program in Early Childhood Education to be able to apply for certification. Students who are interested in certification in Early Childhood Education need to meet with a certification officer in the College of Education prior to completing 60 semester hours to discuss state certification and TEP requirements. A minimum 2.5 cumulative GPA is required to be eligible to apply for admission to TEP. TEP applications will be reviewed for students who have completed, or will complete during the semester in which they apply, 60 semester hours, including EDP 202, EDS 375, FAM 255, and FAM 256 with a grade of C or better.

Major Requirements	Hours
IEC 255 Child Development	3
IEC 256 Guidance Strategies for Working with Young Children	3
IEC 260 Curriculum Planning in Interdisciplinary Early Childhood Education	4
IEC 507 Assessment of Young Children	3
FAM 544 Cultural Diversity in American Children and Families	
or	
Cultural Diversity Course	3
EPE 301 Education in American Culture	3
IEC 552 Administration and Supervision in Interdisciplinary Early Childhood Education Programs	3
IEC 508 Advanced Curriculum Planning in Interdisciplinary Early Childhood Education	3
FAM/IEC 557 Infant Development	3
EDP 202 Human Development and Learning	3
EDC 317 Introduction to Instructional Media	1
EDS 375 Introduction to Education of Exceptional Children	3
IEC 509 Intervention Planning for Children With Special Needs	3

IEC 512 Language and Literacy for Young Children	3
IEC 510 Practicum in Interdisciplinary Early Childhood Education	3

EDS/IEC 546 Transdisciplinary Services for Young Children	3
EDS 522 Children and Families	3
Subtotal: Major Hours	71

Free Electives

Electives should be selected by the student to lead to the minimum total of 128 hours required for graduation.

Minimum Elective Hours	8
TOTAL HOURS	128

B.S. in Education with a major in KINESIOLOGY (Teacher Certification Program)

Requirements for Program

The Department of Kinesiology and Health Promotion offers undergraduate courses and degree programs in kinesiology (physical education) and health promotion. These programs support the UK educator preparation unit’s theme of Research and Reflection for Learning and Leading. The process of reflective decision-making is imbedded in the departmental philosophy that students learn best through experiencing. The kinesiology program is guided by the standards of the National Association for Sport and Physical Education (NASPE), and the Kentucky New Teacher Standards.

The kinesiology program ensures an understanding of and knowledge about the structure of the physical education and dance disciplines through the content courses of anatomy, physiology, kinesiology, exercise physiology, and nutrition. Application of this knowledge is demonstrated in physical education and dance activities to ensure discipline knowledge for teaching.

The B.S. in Kinesiology requires completion of: (a) the University Studies Program; (b) specified course work in Program Related Studies and Professional Education; (c) one of the kinesiology plans; and (d) a minimum of 128 semester hours. All kinesiology students are encouraged to complete Plan 1, which includes majors in kinesiology and health promotion, so that on graduating they will be qualified to pursue state teaching certification in physical education and health, grades P-12.

Continuous Assessment

1. All students in the kinesiology program are expected to meet the standards and rules for Admission, Retention, and Exit from Teacher Education Programs as set forth in the section “Admission, Retention and Exit from Teacher Education Programs” on pages 177-178.

2. The kinesiology program stimulates higher performance goals for high-performing students by offering several modes of performance. Examples are: (a) skills in performing physical activities; (b) skills in writing and oral presentations in theory courses; (c) computer technological skills in some courses; and (d)

leadership skills demonstrated by high-performing students who serve as class leaders, peer tutors, and/or assistant instructors.

3. After admittance to the program, students not only must maintain a 2.50 GPA, they must continue to exhibit desirable professional characteristics to remain in the program. Students who demonstrate a lack of commitment, effort, professional behavior, knowledge, or teaching skills may be removed from the program until these characteristics are demonstrated.

Statement on Student Teaching

Students who are majoring **only** in kinesiology will enroll in:

KHP 369 Student Teaching in Physical Education 12

Students who are completing a major in both kinesiology and health promotion will enroll in:

KHP 369 Student Teaching in Physical Education 6

and

KHP 371 Student Teaching in Health Education 6

In this situation, student teaching time will be divided between the high school, middle school, and elementary grades, with student teaching supervision occurring cooperatively between the kinesiology and health promotion faculty.

University Studies (39-53 hours)

*See *University Studies Program* section of this Bulletin for listing of allowable USP courses.

Program Related Studies Sequence (19 hours)

Hours

*BIO 102 Human Ecology 3

*BIO 103 Basic Ideas of Biology 3

*PSY 100 Introduction to Psychology 4

*SOC 101 Introduction to Sociology 3

ANA 209 Principles of Human Anatomy 3

PGY 206 Elementary Physiology 3

*May be taken for USP credit.

Professional Education Course Sequence (29 hours)

in the Elementary School 3

*KHP 361 Field Experiences 1

*KHP 369 Student Teaching in

Physical Education 6-12

*KHP 371 Student Teaching in Health Education 6

(if double-majoring in kinesiology and health promotion)

*These courses require admission to the Teacher Education Program.

Majors and Minors (52-68 hours)

Plan 1

Kinesiology Major (34-35 hours) and Health Promotion Major (33 hours)

Plan 2

Kinesiology Major (34-35 hours) and one or more university approved minors (18-21 hours). **Note:** University-approved minors outside of the College of Education must be planned with an advisor in the appropriate college if the student wishes to have the minor appear on his/her transcript.

Major in Kinesiology (34-35 hours)

Performance Area Courses (11-12 hours)

Hours

KHP 147 Dance Foundations I 1

KHP 154 Dance Foundations II 1

KHP 156 Educational Gymnastics 1

KHP 157 Track and Field 1

KHP 210 Introduction to Fitness (Subtitle required) 2

KHP 250 Team Sports (Subtitle required) 2

KHP 260 Individual Sports (Subtitle required) 2

KHP Service Program Elective – choose **one** of the following:

KHP 152 Techniques of Swimming 1

KHP 162 Outdoor Education Through Activities 1

KHP 252 Water Safety Leadership 2

Content Area Courses (24 hours)

Hours

KHP 200 The History and Philosophy of

Physical Education and Sport 3

KHP 300 Psychology and Sociology of

Physical Education and Sport 3

KHP 390 Dance Activities in the Elementary School ... 2

KHP 415 Biomechanics of Human Movement 4

KHP 420G Physiology of Exercise 3

KHP 445 Introduction to Tests and Measurements 3

KHP 560 Motor Development in Infants

and Young Children 3

KHP 579 Adapted Physical Education 3

Major in Health Promotion (33 hours)

Hours

KHP 430 Methods of Teaching Health Education 3

KHP 190 First Aid and Emergency Care 2

KHP 220 Sexuality Education 2

KHP 222 Drug Education 2

KHP 230 Human Health and Wellness 3

KHP 330 Planning and Implementing

Health Education Programs 3

KHP 445 Introduction to Tests and Measurements 3

NFS 101 Human Nutrition and Wellness 3

KHP 509 Workshop in Health and Safety

(Experiential Health Education) 3

Choose at least **nine** hours from the following courses:

KHP 240 Nutrition and Physical Fitness 3

KHP 395 Independent Study in Kinesiology

and Health Promotion 3

*KHP 509 Workshop in Health and Safety 1-3

BSC 331 Behavioral Factors in Health and Disease 3

FAM 252 Introduction to Family Science 3

HSM 250 Introductory Epidemiology 3

*May be repeated under different topic names for up to three credit hours.

B.S. in Education with a major in KINESIOLOGY (Non-Teacher Certification Program)

Requirements for Program

The Department of Kinesiology and Health Promotion offers undergraduate courses and degree programs in kinesiology (physical education) and health promotion. The kinesiology program (non-teacher certification) leads to employment opportunities in the athletics and sports industries. The kinesiology program is guided by the standards of the National Association for Sport and Physical Education (NASPE).

The B.S. in Kinesiology requires completion of: (a) the University Studies Program; (b) specified course work in program related studies, professional kinesiology requirements, education course requirements; (c) practicum in recreation; (d) specified course work in exercise science; and (e) a minimum of 128 semester hours.

Continuous Assessment

1. The kinesiology program stimulates higher performance goals for high-performing students by offering several modes of performance: (a) skills in performing physical activities; (b) skills in writing and oral presentations in theory courses; (c) computer technological skills in some courses; and (d) leadership skills by high-performing students are often used in classes through class leaders, peer tutors, and/or assistant instructors.

2. Students must maintain a 2.0 GPA for retention in and exit from the program with a bachelor’s degree. After 60 hours, students must be admitted to advanced standing. Students who demonstrate a lack of commitment, effort, professional behavior, knowledge, or disciplinary skills, or who have not maintained the necessary GPA overall and in the major courses may be removed from the program and the college.

University Studies (39-53 hours)

*See *University Studies Program* section of this Bulletin for listing of allowable USP courses.

NOTE: A calculus course is a prerequisite for STA 291 Statistical Method, which is a requirement in this program.

Program Related Course Requirements (17 hours)

*ANA 209 Principles of Human Anatomy 3

*PGY 206 Elementary Physiology 3

NFS 101 Human Nutrition and Wellness 3

**PSY 100 Introduction to Psychology 4

CS 101 Introduction to Computing I

or

CS 115 Introduction to Computer Programming 3

KHP 120 Service Course (Weight Training) 1

*Prerequisite: biology or zoology course(s)

**May be used for USP credit.

Professional Kinesiology Requirements (33 hours)

Professional Activity Courses

KHP 210 Introduction to Fitness (Subtitle required)	2
KHP 157 Track and Field	1

Complete **one** of the following:

KHP 250 Team Sports (Subtitle required)	2
KHP 260 Individual Sports (Subtitle required)	2

Theory Courses

KHP 190 First Aid and Emergency Care	2
KHP 200 The History and Philosophy of Physical Education and Sport	3
KHP 230 Human Health and Wellness	3
KHP 300 Psychology and Sociology of Physical Education and Sport	3
KHP 319 Sports Officiating	1
KHP 415 Biomechanics of Human Movement	4
KHP 420G Physiology of Exercise	3
KHP 445 Introduction to Tests and Measurements	3
KHP 573 Management of Sport	3
KHP 240 Nutrition and Physical Fitness	3

Exercise Science Courses (32 hours)

CHE 104 Introductory General Chemistry	3
CHE 108 Introduction to Inorganic, Organic and Biochemistry without Laboratory	3
PHY 211 General Physics	5
STA 291 Statistical Method	3
KHP 340 Athletic Training	2
PGY 412G Principles of Human Physiology Lectures	4
KHP 577 Practicum in Kinesiology and Health Promotion	6
plus six hours from the following courses:	
BAE 103 Energy in Biological Systems	2
CS 215 Introduction to Program Design, Abstraction, and Problem Solving	4
KHP 350 Strength and Conditioning for Sports	3
KHP 450 Introduction to Exercise Testing and Prescription	3
KHP 546 Physical Education Workshop	1-3
KHP 547 Psychology of Sport and Physical Activity ..	3
KHP 560 Motor Development in Infants and Young Children	3
KHP 579 Adapted Physical Education	3

Electives

Electives may vary to meet the 128 hour graduation requirement.

B.A. in Education with a major in LEARNING AND BEHAVIOR DISORDERS (LBD)

Requirements for Program

Two undergraduate programs are offered in special education: (1) learning and behavior disorders (LBD) and moderate and severe disabilities (MSD). Both of these programs support the UK educator preparation unit's theme of Research and Reflection for Learning and Leading. Special education teachers are prepared to assess, plan, and teach based on what they learn from their students and to conduct continuous self-reflection in order to improve their teaching. The standards and competencies on which the LBD and MSD programs are based are those prescribed by The Council for Exceptional Chil-

dren and The Kentucky New Teacher Standards.

The B.A. program in Learning Behavior Disorders, P-12, prepares students to teach individuals with disabilities (including learning disabilities, emotional/behavioral disorders, mild mental disabilities, other health impaired, and physical disabilities) in primary through twelfth grades. Advising early in the B.A. program is essential in order to complete the requirements in a timely fashion.

Continuous Assessment

1. All students in the LBD program are expected to meet the standards and rules for Admission, Retention and Exit from the Teacher Education Program (TEP) as set forth in the section "Admission, Retention and Exit from Teacher Education Programs" on pages 177-178.

2. **Assessment at the Point of Entry to the LBD Program.** The admission process provides the first point for formal assessment of the competencies outlined in the LBD program. Students applying for admission must: (a) meet the requirements for TEP admission; (b) be enrolled in or have successfully completed a special education survey course (EDS 375) and practicum (EDS 357); (c) be able to articulate, orally and in writing, their philosophy of teaching and their experiences with persons with disabilities; and (d) prepare an acceptable extemporaneous writing sample. Entry level assessments will be conducted by program faculty representatives through analysis of TEP application materials, portfolio entries, and an entrance interview.

3. **On-going Assessment.** Once a student is admitted to the TEP, he/she meets with an advisor from the LBD program faculty to plan the remainder of the program. Prior to the student-teaching semester, the student must present a portfolio that documents his/her progress toward meeting program competencies in the courses completed up to that point. Mid-point assessments will be conducted by program faculty representatives through analysis of transcripts, and portfolio entries, as well as performance in practica courses.

4. **Exit Assessment.** At the exit assessment, students must document that they have met all program competencies. Exit assessments will be conducted by program faculty representatives through a formal analysis of transcripts, student portfolios, and student teaching evaluations. In addition each student must earn passing scores on the required PRAXIS exams.

Statement on Student Teaching

Student teaching in the LBD program is sixteen weeks in LBD classrooms. Students split the sixteen weeks evenly between an elementary school placement and a secondary (middle school or high school) placement.

Special Education/LBD—Single Certification (P-12) Option

University Studies Component (34-53 hours)

See the *University Studies Program* section of this Bulletin for a listing of allowable courses in each area.

Electives

Variable for total program of 128 hours.

B.A. in Education with a major in MIDDLE SCHOOL EDUCATION

Program Description

The Middle School Teacher Education Program supports the UK educator preparation unit's theme of Research and Reflection for Learning and Leading. The program emphasizes the development of professionally trained specialists in teaching early adolescents. As such, the program models team teaching and collaborative learning. Active learning experiences are emphasized, as are real-world connections. Throughout the program, students are encouraged to consider

their present position and make plans for improvement. Students are urged to gather data continuously and to use this data in planning effective instruction. Students are required to provide questions for reflection when writing lessons they do not teach and to provide reflective summaries as part of lesson plans which are delivered to students. Students are provided time and resources to revise and improve curricular materials they develop within the program. Students assess their own progress through the program's curriculum, preparing them for the continuous self-assessment required of practicing professionals.

To receive the B.A. degree in Middle School Education, students must: (1) complete the University Studies Program; (2) complete all required program-related studies and the professional education course sequence; and (3) complete the content area requirements in each of two areas of specialization. Available content specialization areas are: English and Communication, Mathematics, Science, and Social Studies.

Continuous Assessment

1. All middle school education students are expected to meet the standards and rules for Admission, Retention and Exit from Teacher Education Programs as set forth in the section "Admission, Retention and Exit from Teacher Education Programs" on pages 177-178 of this Bulletin.

2. **Assessment at the Point of Entry to the Middle School Program.** The admission process provides the first point for formal assessment of the competencies outlined by the standards documents which guide the middle school education program. Basic skills standards must be met and students must be making satisfactory progress towards professional and content area proficiency in order for students to win admission

3. **On-going Assessment.** Once a student is admitted to the program, he/she meets with an advisor to plan the remainder of the program. The focus of this initial advising session is to begin a professional development plan which ensures that all standards will be met by program exit.

4. **Exit Assessment.** At the exit assessment, students must show competency in all relevant standard areas. This is done through a final review of the eligibility portfolio, review of information provided by the cooperating teacher and university supervisor, and documentation of remediation of any weaknesses noted at the formal review in the methods semester.

Statement on Student Teaching

Student teaching in middle school education is 16 weeks. Middle school certification requires students to be certifiable in two academic subject areas, which requires two student teaching placements. Students seeking Middle School certification will register for:

EDC 349 Student Teaching in the Middle School 12

University Studies Component (39-53 hours)

Note: See the *University Studies Program* section of this Bulletin for a listing of allowable courses in each area below.

Basic Skills

- A. MA 109 or Math ACT 26 or UK by-pass exam or any calculus course 0-4
- B. Two semesters foreign language or two years high school foreign language 0-8

Inference and Communication Skills

- A. Any calculus course or STA 200 and PHI 120 or 320 3-6
- B. ENG 104 4
- C. Oral Communication 3

Disciplinary Requirements

- A. **Natural Sciences** 6
- B. **Social Sciences** 6
- C. **Humanities** 6

Cross-Cultural Requirements 3

Electives 6

Program Related Studies (4 hours)

PSY 100 Introduction to Psychology 4

Professional Education Courses (40 hours)

The National Middle School Association (NMSA) describes six broad areas of competence for middle grades teachers. These are: (1) early adolescent development, (2) middle grades curriculum, (3) middle grades instruction, (4) middle grades school organization, (5) families and community relations, and (6) middle grades teaching roles. With the support of a liberal arts foundation provided by the University Studies requirements and the content area knowledge provided by the requirements detailed above, the professional education requirements of the program endeavor to provide a firm foundation in each of these six areas.

- *EDP 202 Human Development and Learning 3
- *EDP 203 Teaching Exceptional Learners in Regular Classrooms 3
- *EPE 301 Education in American Culture 3

All of the following courses require admission to the teacher education program:

- EDC 317 Introduction to Instructional Media 1
 - *EDC 329 Teaching Reading and Language Arts (EDC 329 is a prerequisite to EDC 330) 3
 - *EDC 341 Middle School Curriculum and Instruction (spring only) 3
 - *EDC 330 Designing a Reading and Language Arts Program for the Middle School (fall only) 3
 - *EDC 343 Early Adolescent Learner: Practicum (fall only) 3
 - *Special Methods Courses in TWO Areas of Specialization (fall only) 6
- Choose from:
- EDC 345 Teaching Mathematics in the Middle School
 - EDC 346 Teaching Social Studies in the Middle School
 - EDC 347 Teaching English and Communication in the Middle School
 - EDC 348 Teaching Science in the Middle School
 - EDC 349 Student Teaching in the Middle School ... 12

*These courses include clinical and/or field hours.

Note: EDC 330, EDC 343, and the two methods classes will be taken as a block in a fall semester.

Content Area Courses (24-34 hours)

Students wishing to become certified in middle school (grades 5-9) must select two of the following content areas of specialization. Course requirements, particularly in the areas of English and Communication and Mathematics, have been prioritized to reflect prerequisite knowledge. Students should plan course work in these areas with the assistance of an advisor.

English and Communication (29-30 hours)

Required (15 hours)

- COM 252 Introduction to Interpersonal Communication 3
- EDC/ENG 509 Composition for Teachers (fall only) 3
- LIS 514 Literature and Related Media for Young Adults or LIS 510 Children's Literature and Related Materials 3
- ENG/LIN 513 Teaching English as a Second Language (fall only) 3
- JOU 460 Journalism in Secondary Education (fall only) 3

Select **two** courses from the following section:

Focused Literary Studies (6 hours)

- CLA 261 Literary Masterpieces of Greece and Rome 3
- ENG 333 Studies in a British Author or Authors (Subtitle required) 3
- ENG 336 Studies in an American Author or Authors (Subtitle required – other than non-fiction) 3
- ENG 340 Shakespeare 3
- ENG 481G Studies in British Literature (Subtitle required) 3
- ENG 482G Studies in American Literature (Subtitle required) or ENG 483G Studies in African American or Diasporic Literature (Subtitle required) 3
- ENG 484G Comparative Studies in Literature (Subtitle required) 3

Select **one** course from **each** of the following sections:

Literature and Identity (3 hours)

- ENG 232 Literature and Place 3
- ENG 233 Literature and Identities 3
- ENG 234 Introduction to Women's Literature 3
- ENG 264 Major Black Writers 3

Language and Multilingual Society (2-3 hours)

- ENG 301 Style for Writers 3
- ENG/LIN 310 American English 3
- LIN 317 Language and Society (Subtitle required – any subtitle) 3
- ENG/LIN 211 Introduction to Linguistics I 3
- ENG/LIN 514 TESL Materials and Methods (prereq: ENG/LIN 513) 3
- CD 277 Introduction to Communication Disorders 3
- CD 520 Introduction to Manual Communication 2

Writing and Media (3 hours)

- ENG 207 Beginning Workshop in Imaginative Writing (Subtitle required) 3
- ENG 281 Introduction to Film 3
- ENG 336 Studies in an American Author or Authors (Subtitle required – non-fiction) 3
- ENG 401 Special Topics in Writing (Subtitle required) 3
- COM 249 Mass Media and Mass Culture 3

Performing Arts (3 hours)

Performance/Production:

- TA 126 Acting I: Fundamentals of Acting 3
- TA 150 Fundamentals of Design and Production 3
- TA 350 Topics in Theatre (performance-based topics) 3

TA 396 Summer Theatre	3
Or students can select one course from Theatre Studies:	
TA 350 Topics in Theatre (theatre studies-based topics)	3

Mathematics (24-25 hours)

The requirements for students choosing mathematics as a content area of specialization are based on standards developed by the National Council of Teachers of Mathematics, KERA Goals and Academic Expectations, and the Core Content for Assessment. The NCTM standards for middle grades include four common threads (reasoning, communication, problem solving, and connections) as well as content area standards of number, computation and estimation, probability, statistics, algebra, geometry, and measurement. Kentucky's Goals and Academic Expectations and the Core Content for Assessment focus mathematics instruction on seven core areas: number, mathematical procedures, mathematical structure, measurement, space and dimensionality, change, and data.

Required

MA 201 Mathematics for Elementary Teachers	3
MA 202 Mathematics for Elementary Teachers	3
CS 115 Introduction to Computer Programming	3
**STA 291 Statistical Method	3
MA 310 Mathematical Problem Solving for Teachers	3
MA 241 Geometry for Middle School Teachers	3
MA 162 Finite Mathematics and Its Applications	3

*MA 123 Elementary Calculus and Its Applications	3
or	
MA 113 Calculus I	4

**Up to six credits may be counted from University Studies.*

***If STA 200 was taken to fulfill Inference and Communication Skills of University Studies, STA 291 is still required.*

Science (32-34 hours)

The content area preparation required for students in the middle school education program is based on the standards adopted by the National Science Teacher's Association as well as Kentucky's Core Content for Science Assessment and the New Teacher Standards. It is important that science teachers have strong content preparation in the sciences. This is needed to communicate modes of scientific inquiry, select appropriate learning experiences, guide students in their early scientific efforts, and help students apply scientific knowledge and skills in their daily lives.

Required: (32-34 hours)

BIO 102 Human Ecology	3
BIO 103 Basic Ideas of Biology	3
BIO 111 General Biology Laboratory	1
PHY 160 Physics and Astronomy for Teachers	3
PHY 120 How Things Work	3
CHE 104 Introductory General Chemistry	3
CHE 105 General College Chemistry I	3
CHE 111 Laboratory to Accompany General Chemistry I	1
GLY 160 Geology for Teachers	3
GLY 210 Habitable Planet: Evolution of the Earth System	3

Select **two** lecture courses from the following (6-10 hours):

BIO 150 Principles of Biology I	3
BIO 152 Principles of Biology II	3
BIO 208 Principles of Microbiology	3
*CHE 107 General College Chemistry II	3
*CHE 113 Laboratory to Accompany General Chemistry II	2
CHE 108 Introduction to Inorganic, Organic and Biochemistry Without Laboratory	3

GLY 150 Earthquakes and Volcanoes	3
GLY 130 Dinosaurs and Disasters	3
AST 191 The Solar System	3
PHY 211 General Physics	5
PHY 213 General Physics	5

**Taken concurrently; if taken, one additional course still needed.*

Social Studies (33 hours)

The middle school social studies content area teacher preparation program is guided by two principles: first, a commitment to continuous improvement based on reflection, evaluation, and on-going research; second, a commitment to peer collaboration as a source of professional growth. The program is guided by the National Council for Social Studies document, *Expectations of Excellence*, and the Kentucky *New Teacher Standards*.

B.S. in Education with major in MODERATE/SEVERE DISABILITIES

Requirements for Program

Two undergraduate programs are offered in special education: (1) learning and behavior disorders (LBD) and moderate and severe disabilities (MSD). Both of these programs support the UK educator preparation unit's theme of Research and Reflection for Learning and Leading. Special education teachers are prepared to assess, plan, and teach based on what they learn from their students and to conduct continuous self-reflection in order to improve their teaching. The standards and competencies on which the LBD and MSD programs are based are those prescribed by The Council for Exceptional Children and The Kentucky New Teacher Standards.

The B.S. in Education program in Moderate/Severe Disabilities (MSD) requires completion of: (a) the University Studies Program; (b) specified course work in Related Studies and Professional Education; and (c) specified course work in the special education and MSD area of specialization. Students graduating from the certification program the program obtain a single Kentucky teacher certificate in MSD (grades P-12). Graduates are qualified to teach in classes for students with functional mental disabilities (grades P-12). Students are required to complete a mini-

mum of 128 hours for graduation. It is possible to complete this certificate in four years. In addition to the undergraduate program, an initial certificate in MSD (grades P-12) is offered at the graduate level (See the University of Kentucky *Graduate School Bulletin*).

Continuous Assessment

1. All students in the MSD program are expected to meet the standards and rules for Admission, Retention, and Exit from Teacher Education Programs as set forth in the section “Admission, Retention and Exit from Teacher Education Programs” on pages 177-178.

2. **Assessment at the Point of Entry to the MSD Program.** The admission process provides the first point for formal assessment of the competencies outlined in the Initial Certification Program Folio for the program. Students who apply for admission must: (a) meet the requirement for admission to the Teacher Education Program; (b) have successfully completed a special education survey course and practicum; and (c) be able to articulate their philosophy of teaching and document their experiences with persons with disabilities in an initial portfolio and an entrance interview.

3. **On-going Assessment.** Once a student is admitted to the program, he/she meets with an advisor to plan the remainder of the program. Prior to the student teaching semester, the student must present a portfolio that documents his/her progress toward meeting program competencies in the courses completed.

4. **Exit Assessment.** At the exit assessment, students must document that they have met all program competencies through a final review of their portfolio and the successful completion of student teaching in a public school placement for students with MSD.

Statement on Student Teaching

Student teaching in the MSD program is 16 weeks and consists of eight weeks in an elementary placement and eight weeks in a middle or secondary placement for students with MSD.

University Studies Component (39-51 hours)

See the *University Studies Program* section of this Bulletin for a listing of allowable courses in each area.

Program Related Studies (22-24 hours)

PSY 100 Introduction to Psychology	4
MA 201 Mathematics for Elementary Teachers	3
MA 202 Mathematics for Elementary Teachers	3
*Biological or Physical Science Sequence	6-8
*If biological science was taken in University studies, take physical science, six to eight credit hours. If physical science was taken University Studies, take biological science, six hours.	
ENG 204 Technical Writing	3
LIS 510 Children’s Literature and Related Materials	
or	
IEC 512 Language and Literacy for Young Children	3

Professional Education Courses (13-14 hours)

All of the following courses require admission to the Teacher Education Program.

EDC 329 Teaching Reading and Language Arts	3
EDC 339 Designing a Reading and Language Arts Program for the Elementary School	3
EDC 337 Teaching Mathematics in the Elementary Schools	3
KHP 382 Physical Education for Elementary School Teachers	2
MUS 266 Teaching Music in Elementary Grades	3
or	
A-E 200 Workshop in Design Education for Elementary Teachers	3
or	
KHP 390 Dance Activities in the Elementary School	2

Area of Specialization: Special Education Requirements (47 hours)

Special Education Core Requirements

EDS 357 Initial Practicum in Special Education	1
EDS 375 Introduction to Education of Exceptional Children	3
All of the following courses require admission to the Teacher Education Program.	
EDS 513 Legal Issues in Special Education	3
EDS 514 Instructional Technology in Special Education	3
EDS 516 Principles of Behavior Management and Instruction	3
EDS 517 Assistive Technology in Special Education	3
EDS 522 Children and Families	3

Moderate/Severe Disabilities Areas Requirements

All of the following courses require admission to the Teacher Education Program.

EDS 530 Moderate and Severe Disabilities	3
EDS 547 Collaboration and Inclusion in School and Community Settings	3
EDS 548 Curriculum Design for Students with Moderate and Severe Disabilities	3
EDS 549 Methods for Students with Moderate and Severe Disabilities	4
EDS 550 Student Teaching: Moderate and Severe Disabilities	12

Students must complete all special education courses with a GPA of 2.5 or better before they can student teach.

Electives	0-9
-----------------	-----

**B.A. in Education with a major in SECONDARY EDUCATION
Option: English Education**

Requirements for Program

This B.A. includes completion of an approved plan in the academic specialty teaching of English. **The approved major in the academic specialties for teaching is entitled “English major for secondary education,” to distinguish it from the A&S major and minor. No certification is awarded with the B.A.** Students desiring to go on to Master’s with initial certification must apply to The Graduate School and apply to the Secondary English Program Faculty in the spring of their senior year.

To receive the B.A. degree, students must: (1) complete the University Studies Program; (2) complete at least 128 semester hours; (3) complete the requirements for one of the content area plans for secondary English education; (4) attain a grade-point average of at least 2.5 overall, in major, in minor, and in support area; and (5) complete 100 hours of fieldwork with-adolescents through the **required** three hour course:

EDC 362 Field Experiences in Secondary Education	3
---	---

In 1996, the National Council of Teachers of English and the International Reading Association published *Standards for the English Language Arts*. This document identified six English language arts: reading, writing, speaking, listening, viewing, and visually representing. In addition, it presented an expanded definition of literacy, which reflects the ways technology and society have changed and will continue to change the ways in which we use language to communicate and to think. In order to prepare students for the literacy demands of today and tomorrow, English language arts education will need to address many different types and uses of language, including those that have traditionally been given limited attention in the curriculum. One such example is spoken language. Being literate in contemporary society means being active, critical, and creative users not only of print and spoken language but also of the visual language of film, television, photography and other media. Therefore, the content model should reflect the study of language and literacy through speech, theater, writing, and media. The English education program prepares its pre-service teachers with such a model so that their students will succeed as effective language learners and users, equipped with the skills they need to become critically literate citizens, workers, members of society, and lifelong learners.

Continuous Assessment

1. All secondary education majors must be admitted to advanced standing after completing 60 hours. Advanced standing requires a 2.50 minimum GPA overall and review by the program faculty advisor for Secondary English Education.

2. Because certification occurs through the Masters in Education including certification (MIC), students should be aware that they will need to be formally admitted to the MIC program. Admission/Retention/Exit regulations for all teacher certification programs are specified in the section “Admission, Retention and Exit from Teacher Education Programs” on pages 177-178.

3. Oral and written communication skills of applicants for the MIC program in English Education will be assessed at the time of the interview, and through the entrance portfolio.

4. At the time of application to the English Education program at the Master’s degree level,

applicants are evaluated according to the following criteria: grade-point average, quality of work in the subject content area, Graduate Record Examination scores, graded and on-site writing tasks, verbal communication, quality of references, commitment to teaching, social awareness, educational experiences with diverse learners 14-18 years old, and multicultural experiences.

Statement on Student Teaching

There is no student teaching required for completion of the Secondary English Education major. Student teaching occurs as part of the Masters in Education with initial certification.

University Studies Requirements

See “University Studies Program” on pages 83-87 for the complete University Studies requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill University Studies areas. Students should work closely with their advisor to complete the University Studies Program requirements.

Courses marked with two asterisks (**) are highly recommended.

Foreign Language

**SPA 101 Elementary Spanish I (spoken approach) 4

**SPA 102 Elementary Spanish II (spoken approach) 4

SPA 103 High Beginner Spanish 3

SPA 211 Intermediate Spanish Conversation 3

Social Sciences

**COM 101 Introduction to Communications 3

English Major for Secondary Education (42 hours)

Courses with two asterisks (**) are highly recommended.

Prerequisites (6 hours)

Required:

ENG 230 Introduction to Literature 3

plus one of the following:

ENG 231 Literature and Genre 3

ENG 232 Literature and Place 3

ENG 233 Literature and Identities 3

**ENG 234 Introduction to Women’s Literature 3

**ENG 264 Major Black Writers 3

**ENG 483G Studies in African American or Diasporic Literature: (Subtitle required) 3

**ENG 572 Studies in English for Teachers (Subtitle required) 3

Literary Criticism Component (3 hours)

ENG 330 Text and Context: (Subtitle required) 3

Literature Component (18 hours)

Required:

ENG 331 Survey of British Literature I 3

ENG 332 Survey of British Literature II 3

ENG 334 Survey of American Literature I 3

ENG 335 Survey of American Literature II 3

ENG 480G Studies in Film (Subtitle required) 3

plus one of the following:

ENG 333 Studies in a British Author or Authors: (Shakespeare subtitle required) 3

ENG 336 Studies in an American Author or Authors: (Subtitle required) 3

ENG 481G Studies in British Literature: (Subtitle required) 3

ENG 482G Studies in American Literature: (Subtitle required) 3

**ENG 483G Studies in African American or Diasporic Literature: (Subtitle required) 3

ENG 484G Comparative Studies in Literature: (Subtitle required) 3

**ENG 485G Studies in Literature and Gender: (Subtitle required) 3

ENG 570 Selected Topics for Advanced Studies in Literature (Subtitle required) 3

Writing Component (9 hours)

ENG 401 Special Topics in Writing (Subtitle required) [two sections, different subtitles] 6

EDC/ENG 509 Composition for Teachers 3

Language Study Component (6 hours)

ENG/LIN 211 Introduction to Linguistics I 3

plus one of the following:

ENG 301 Style for Writers 3

ENG 310 American English 3

Support Area (18 hours)

A minimum of three hours credit is required in each of the four areas: journalism, theatre, speech and fine arts, which English teachers will be qualified to teach in Kentucky. In one of the areas, to be selected with the aid of an advisor, a minimum of nine hours is required.

The following courses are recommended; courses with two asterisks (**) are highly recommended:

Journalism

**JOU 101 Introduction to Journalism 3

JOU 204 Writing for the Mass Media 3

**JOU 303 News Editing 3

**JOU 330 Web Publishing and Design 3

JOU 387 Photojournalism I 3

JOU 455 Mass Media and Diversity (Subtitle required) 3

**JOU 460 Journalism in Secondary Education 3

Theatre

**TA 126 Acting I: Fundamentals of Acting 3

**TA 150 Fundamentals of Design and Production 3

TA 171 World Theatre I 3

TA 267 Lighting and Sound Technology 3

TA 271 World Theatre II 3

**TA 330 Theatre Directing I 3

TA 365 Costume Design 3

TA 367 Lighting Design 3

TA 371 World Theatre III, 1800-1950 3

TA 374 Scene Design 3

TA 471 World Theatre IV, 1950-Present 3

Communications

**COM 181 Basic Public Speaking 3

COM 249 Mass Media and Culture 3

COM 252 Introduction to Interpersonal Communication 3

**COM 281 Communication in Small Groups 3

A-H 350 Contemporary Art 3

A-S 380 Photography I 3

A-S 381 Photography II 3

**B.A. in Education with a major in
SECONDARY EDUCATION
Option: Mathematics Education**

Requirements for Program

This B.A. includes completion of an approved plan in the academic specialty teaching of mathematics, grades 8-12. **The approved major in the academic specialties for teaching is entitled “Mathematics major for secondary education,” to distinguish it from the Arts & Sciences major. No certification is awarded with the B.A.** Students desiring to go on to Masters in Education with Initial Certification must apply to The Graduate School and apply to the Secondary Mathematics Program Faculty in the spring of their senior year.

To receive the B.A. degree, students must: (1) complete the University Studies Program; (2) complete at least 128 semester hours; (3) complete the secondary mathematics major and a university-approved minor; (4) attain a grade-point average of at least 2.50 overall and in the chosen major/minor/support areas; and (5) complete 100 hours of fieldwork with adolescents through the **required** three hour course:

EDC 362 Field Experiences in Secondary Education 3

The certification program in secondary mathematics education, grades 8-12, extends and enhances the conceptual framework of the College of Education by providing the opportunities and experiences necessary for beginning teachers to reflect on the perspective of the schools and the profession. Indeed, the National Council of Teachers of Mathematics (NCTM), the principal professional organization for the mathematics education program, has for the past decade promoted teaching that fosters the development of students’ abilities to explore, conjecture, and reason logically, as well as the ability to use a variety of mathematical methods to solve non-routine problems. Teaching to meet this goal requires a great deal of reflective decision making, because what students learn depends to a large extent on how it has been learned. This certification program strives to blend the learning of mathematics with the learning of pedagogy.

Continuous Assessment

1. All secondary education majors must be admitted to advanced standing after completing 60 hours. Advanced standing requires (a) 2.50 minimum GPA overall, and (b) review by a program faculty advisor for secondary mathematics education.

2. Because certification occurs through the Masters in Education including certification (MIC), students should be aware that they will need to be formally admitted to the MIC program. Admission/Retention/Exit regulations for all teacher certification programs are specified in the section “Admission, Retention and Exit from Teacher Education Programs” on pages 177-178.

3. Oral and written communication skills of applicants for the MIC program in mathematics education will be assessed at the time of the interview, and through the entrance portfolio.

4. At exit from the secondary mathematics education major, grades 8-12, students will:

- a. demonstrate understanding of mathematical concepts and procedures and the connections among them;
- b. use multiple representations of mathematical concepts and procedures;
- c. reason mathematically and solve mathematical problems;
- d. communicate mathematics effectively at different levels of formality; and
- e. use historical, cultural, and contemporary perspectives in mathematics discourse.

Statement on Student Teaching

There is no student teaching required for completion of the secondary mathematics education, grades 8-12, major. Student teaching occurs as part of the Masters in Education with certification.

University Studies Requirements

University Studies may be met by following the courses listed in the *University Studies* section of this Bulletin, with the exception that PSY 100 (Introduction to Psychology) must be taken in the social sciences component, and MA 113 is also required.

MA 416G Principles of Operations Research I	3
Electives	3-8

**B.A. in Education with a major in
SECONDARY EDUCATION Option:
Science Education (Biology, Physics,
Chemistry, or Earth Science)**

Requirements for Program

This B.A. includes completion of an approved plan in the academic specialty teaching of Secondary Physical Science or Biological Science. **The approved majors and minors in the academic specialties for teaching are entitled physical science major for secondary education or biological science major for secondary education to distinguish them from the Arts & Sciences majors and minors. No certification is awarded with the B.A.** Students desiring to go on to Masters with initial certification must apply to The Graduate School and apply to the Secondary Science Program Faculty in the spring of their senior year.

To receive the B.A. degree, students must: (1) complete the University Studies Program, and Program Related Studies; (2) complete at least 128 semester hours; (3) complete one of the Secondary Science Education plans; (4) attain grade-point average of at least 2.50, overall and in the chosen major/minor/support areas; and (5) complete 100 hours of fieldwork with adolescents through the **required** three hour course:

EDC 362 Field Experiences in Secondary Education 3

The Secondary Science Education program addresses the content area requirements of Kentucky’s *New Teacher Standards*, National Research Council’s *National Science Education Standards*, and the National Science Teachers Association *Guidelines*. The program encourages the understanding and development of major concepts within a specialty area as well as an understanding of the interconnectedness of the sciences. Students are encouraged to apply mathematics to investigations of science, including analyses of data. It is intended that students relate the concepts of science to contemporary, historical, technological and societal issues. As future science teachers, students will need to locate resources, design and conduct inquiry-based and open-ended investigations, interpret findings, communicate results and make judgments based upon evidence. Specifically, the program encourages the teaching of science through a problem-solving, inquiry-based approach.

Continuous Assessment

1. All secondary education majors must be admitted to advanced standing after completing 60 hours. Advanced standing requires (a) 2.50

minimum GPA overall, and (b) review by program faculty advisor for Secondary Science Education.

2. Because certification occurs through the Masters in Education including certification (MIC), students should be aware that they will need to be formally admitted to the MIC program. Admission/Retention/Exit regulations for all teacher certification programs are specified in the section "Admission, Retention and Exit from Teacher Education Programs" on pages 177-178.

3. Oral and written communication skills of applicants for the MIC program in secondary science education will be assessed at the time of the interview, and through the entrance portfolio.

4. Admission to the Masters in Education with certification is competitive. At the time of application to the science education program, applicants will be evaluated on the basis of GPA, GRE scores, graded and on-site writing tasks, verbal communication, quality of references, commitment to teaching, social awareness, educational experiences with diverse learners, 14-18 year olds, and multicultural experiences, and quality of work in the sciences.

Statement on Student Teaching

There is no student teaching required for completion of the secondary science education major. Student teaching occurs as part of the Masters in Education with initial certification.

University Studies (39-53 hours)

EDC 362 Field Experiences in Secondary Education 3
CS 101 Introduction to Computing I 3

Majors and Minors (54-72 hours)

Plans for Majors, Minors, and Supporting Subjects

Candidates may choose to be certified in one of two science areas, 1) biological science, or 2) physical science. Biological science candidates must have a biological science major for secondary education and follow one of the biological science plans. Physical science candidates must have a chemistry major for secondary education, earth science major for secondary education, physical science major for secondary education, or physics major for secondary education and follow one of the physical science plans.

Plans for Biological Science Candidates

Plan 1

Major (33 hours in biological science) plus: (A) a supporting **non-certifiable** minor of (21 hours) in mathematics, OR (B) a supporting **non-certifiable** minor in one of the other sciences. The science fields from which the minor may be chosen include chemistry, earth science, and physics.

Plan 2

Major (33 hours in biological science) with two 12-hour supporting subjects. The 12-hour blocks of support-subjects may be chosen from two of the following fields: chemistry, earth science, physics, or mathematics.

Plan 3

Major (33 hours in biological science) and four supporting subjects. Students selecting Plan 3 will complete a major in biology and take a total of 24 semester hours from chemistry, earth science, physics, and mathematics, with a minimum of three semester hours in each field.

Plans for Physical Science Candidates

Plan 1

Major (33 hours in either chemistry, earth science, or physics) plus: (A) a supporting **non-certifiable** minor of (21 hours) in mathematics, OR (B) a supporting minor in one of the other sciences. The science fields from which the minor may be chosen include biology (non-certifiable), chemistry, earth science, and physics, and mathematics (non-certifiable).

Plan 2

Major (33 hours in either chemistry, earth science, or physics) with two 12-hour supporting subjects. The 12-hour blocks of support-subjects may be chosen from two of the following fields: biology, chemistry, earth science, physics, or mathematics. Courses from the major may not be applied to the support-subjects requirement.

Plan 3

Major (33 hours in either chemistry, earth science, or physics) and four supporting subjects. Students selecting Plan 3 will complete a total of 24 semester hours from biology, chemistry, earth science, physics, and mathematics, with a minimum of three semester hours in each field. Courses from the major may not be applied to the support-subjects requirement.

Plan 4

Students will complete a physical science for secondary education major. The physical science major consists of 21 hour minors in chemistry, earth science, and physics. Minors from each field must be included in the physical science major.

Major Requirements

All majors for secondary science education require a minimum of 33 hours.

Biological Science Major for Secondary Education (33 hours)

 and Evolution 3-4

Recommended for Major

The following list contains courses that are normally applied to the major.

AST 192 Stars, Galaxies and the Universe 3
 GLY 360 Mineralogy (if not taken above) 4
 GLY 401G Invertebrate Paleobiology and
 Evolution (if not taken above) 3
 GLY 341 Landforms 3
 PLS 366 Fundamentals of Soil Science 4
 Oceanography course (if transferred from
 another university) 3
 Earth Science electives to be selected with the aid of advisor.

**Note: Students should note that earth science is generally taught in Kentucky at the eighth grade level. In many states it is taught at the ninth grade level; therefore, secondary OR middle school certification could be required. You must decide the level of certification that fits your needs. If you plan to teach in Kentucky, you may want to follow either of the following options: 1) obtain science certification through the middle school program or 2) obtain earth science certification through the secondary education program. Currently, the Kentucky Department of Education is allowing secondary science teachers to teach science in the 7th and 8th grades without having middle school certification. The option for secondary certification provides more extensive content preparation in earth science.*

Physical Science Major for Secondary Education (33 hours)

Required Support Courses

MA 113 Calculus I 4
 MA 114 Calculus II 4
 BIO 150 Principles of Biology I 3
 BIO 151 Principles of Biology Laboratory I 2

Recommended Support Courses for Major

MA 213 Calculus III 4
 *MA 214 Calculus IV 3

**Note mathematics requirements for upper-level chemistry and physics courses.*

Required for Physical Science Major

Chemistry:

CHE 105 General College Chemistry I 3
 CHE 107 General College Chemistry II 3
 CHE 115 General Chemistry Laboratory 3
 CHE 230 Organic Chemistry I 3
 CHE 231 Organic Chemistry Laboratory I 2
 CHE 226 Analytical Chemistry 3-4
 CHE electives (chosen with aid of advisor)

Physics:

AST 191 The Solar System 3
 AST 192 Stars, Galaxies and the Universe 3
or
 PHY 211/213 General Physics 10
and
 PHY 231/232 General University Physics
 and
 PHY 241/242 General University
 Physics Laboratory 10
 PHY 361 Principles of Modern Physics 3
 PHY electives (chosen with aid of advisor)

Earth Science:

AST 191 The Solar System 3
 AST 192 Stars, Galaxies and the Universe 3
 GLY 220 Principles of Physical Geology 4
or
 GLY 223 Introduction to Geology
 in the Rocky Mountains 6
 GLY 230 Fundamentals of Geology I 3
 GLY 235 Fundamentals of Geology II 3

GLY 360 Mineralogy

or
 GLY 401G Invertebrate Paleobiology
 and Evolution 3-4
 Earth Science Electives (chosen with aid of advisor)

Recommended Courses for Physical Science Major

CHE 232 Organic Chemistry II 3
 CHE 233 Organic Chemistry Laboratory II 2
 BCH 401G Fundamentals of Biochemistry 3
 CHE 440G Introductory Physical Chemistry 3
 GLY 360 Mineralogy
or
 GLY 401G Invertebrate Paleobiology
 and Evolution 3-4
 GEO 130 Earth's Physical Environment
or
 GEO 230 Weather and Climate 3
 PHY 404G Mechanics 3
 PHY 417G Electricity and Magnetism 3

Physics Major for Secondary Education (33 hours)

Required Support Courses

CHE 105 General College Chemistry I 3
 CHE 107 General College Chemistry II 3
 CHE 115 General Chemistry Laboratory 3
 MA 113 Calculus I 4
 MA 114 Calculus II 4
 GLY 220 Principles of Physical Geology 4
 BIO 150 Principles of Biology I 3
 BIO 151 Principles of Biology Laboratory I 2

Recommended Support Courses

MA 213 Calculus III 4
 *MA 214 Calculus IV 3

**Note mathematics requirements for upper-level physics courses.*

Required for Major

PHY 231/232 General University Physics 5
 PHY 241/242 General University
 Physics Laboratory 5
 PHY 361 Principles of Modern Physics 3
 PHY electives (chosen with aid of advisor)

Recommended for Major

AST 191 The Solar System
or
 *PHY 151 Introduction to Physics 3
 AST 192 Stars, Galaxies and the Universe
or
 *PHY 152 Introduction to Physics 3

**Note: A maximum of nine hours of astronomy may be counted toward the 33 hour physics requirement. A student may not count both the AST 191, 192 and PHY 151, 152 sequences toward the physics major for secondary education. If PHY 151 and PHY 152 are applied to the major, they must be completed prior to taking the PHY 231, 241, 232, 242 sequence.*

MINOR REQUIREMENTS

A minor in one of the sciences or mathematics is required for Plans 1 of the biological science and physical science certification areas. See plans for details. Students are not certified to teach in a minor area. However, physical science for secondary education majors are certified to teach chemistry, earth science, and physics. All minors for secondary education require a minimum of 21 hours.

Biological Science Minor for Secondary Education (21 hours)

Required Support Courses

CHE 105 General College Chemistry I 3
 CHE 107 General College Chemistry II 3
 CHE 115 General Chemistry Laboratory 3

Required for Minor

BIO 150 Principles of Biology I 3
 BIO 151 Principles of Biology Laboratory I 2
 BIO 152 Principles of Biology II 3
 BIO 153 Principles of Biology Laboratory II 2
 BIO 325 Introductory Ecology 4
 BIO 304 Principles of Genetics
or
 ABT 360 Genetics 3-4

Recommended for Minor

Additional courses selected with aid of advisor.

Chemistry Minor for Secondary Education

Required for Minor

CHE 105 General College Chemistry I 3
 CHE 107 General College Chemistry II 3
 CHE 115 General Chemistry Laboratory 3

Recommended for Minor

CHE 230 Organic Chemistry I 3
 CHE 231 Organic Chemistry Laboratory I 2
 CHE 232 Organic Chemistry II 3
 CHE 233 Organic Chemistry Laboratory II 2
 CHE 226 Analytical Chemistry 3-4

or

BCH 401G Fundamentals of Biochemistry 3

Additional courses selected with aid of advisor.

Earth Science Minor for Secondary Education*

Required for Minor

AST 191 The Solar System 3
 GEO 130 Earth's Physical Environment
or
 GEO 230 Weather and Climate 3
 GLY 220 Principles of Physical Geology 4

or

GLY 223 Introduction to Geology
 in the Rocky Mountains 6
 GLY 230 Fundamentals of Geology I 3
 GLY 235 Fundamentals of Geology II 3

GLY 360 Mineralogy

or

GLY 401G Invertebrate Paleobiology and
 Evolution 3-4

Recommended for Minor

The following list contains courses that are normally applied to the minor.

AST 192 Stars, Galaxies and the Universe 3
 GLY 360 Mineralogy (if not taken above) 4
 GLY 401G Invertebrate Paleobiology and
 Evolution (if not taken above) 3
 GLY 341 Landforms 3
 PLS 366 Fundamentals of Soil Science 4

Oceanography course (if transferred from another university) 3

Mathematics Minor for Secondary Education

Required for Minor

MA 113 Calculus I 4
 MA 114 Calculus II 4
 MA 213 Calculus III 4

Recommended for Minor

Additional courses chosen with aid of advisor. In most cases courses will be selected from the following list.

MA 341 Topics in Geometry 3
 MA 310 Mathematical Problem Solving for Teachers 3
 MA 261 Introduction to Number Theory 3
 MA 320 Introductory Probability 3
 MA 322 Matrix Algebra and Its Applications 3
 MA 330 History of Mathematics 3
 MA 214 Calculus IV 3

Physics Minor for Secondary Education

Required Support Course

MA 113 Calculus I 4

Recommended Support Courses

CHE 105 General College Chemistry I 3
 CHE 107 General College Chemistry II 3
 CHE 115 General Chemistry Laboratory 3
 MA 114 Calculus II 4

Note mathematics requirements for taking upper-level physics courses.

Required for Minor

PHY 211/213 General Physics 10
 or
 PHY 231/232 General University Physics
 and
 PHY 241/242 General University
 Physics Laboratory 10
 PHY 361 Principles of Modern Physics 3

Recommended for Minor

AST 191 The Solar System
 or
 *PHY 151 Introduction to Physics 3
 AST 192 Stars, Galaxies and the Universe
 or
 *PHY 152 Introduction to Physics 3

**Note: A maximum of six hours of astronomy may be counted toward the 21 hour physics requirement. A student may not count both the AST 191, 192 and PHY 151, 152 sequences toward the minor. If PHY 151 and PHY 152 are applied to the major, they must be completed prior to taking the PHY 231, 241, 232, 242 sequence.*

**B.A. in Education with a major in SECONDARY EDUCATION
 Option: Social Studies Education**

Requirements for Program

This B.A. includes completion of an approved plan in the academic specialty teaching social studies. **The approved majors and minors in the academic specialties for teaching are entitled “history major for secondary education,” etc., to distinguish them from the Arts & Sciences majors and minors. No certification is awarded with the B.A.** Students desiring to go on to Master’s with Initial Certification must apply to The Graduate School and apply to the Secondary Social Studies Education Program Faculty in the spring of their senior year.

To receive the B.A. degree, students must: (1) complete the University Studies Program; (2) complete at least 128 semester hours; (3) complete one of the secondary social studies education plans; (4) attain a grade-point average of at least 2.50 overall and in the major/minor/support areas; and (5) complete 100 hours of fieldwork with adolescents through the **required** three hour course:

EDC 362 Field Experiences in Secondary Education 3

Following completion of the secondary social studies major, students will demonstrate the following: (1) a reflective understanding of American society, its past and contemporary situation, and its place in the larger world; (2) an ability to apply social science concepts and use inquiry and interpretive skills; (3) a historical perspective; (4) a multicultural and global perspective; and (5) an ability to learn from participation in the community (from local to global) affairs and service. Students should consider experiences such as study abroad and internships in government and social agencies, as well as course work, in preparation for social studies teaching.

Continuous Assessment

1. All secondary education majors must be admitted to advanced standing after completing 60 hours. Advanced standing requires: (A) 2.50 minimum GPA overall; (B) 2.50 minimum GPA in course work leading to completion of Plan 1 or Plan 2; and (C) review by program faculty advisor for secondary social studies education.

2. Because certification occurs through the Masters in Education including certification (MIC), students should be aware that they will need to be formally admitted to the MIC program. Admission/Retention/Exit regulations for all teacher certification programs are specified in the section “Admission, Retention and Exit from Teacher Education Programs” on pages 177-178.

3. Oral and written communication skills of applicants for the MIC program in social studies education will be assessed at the time of the interview, and through the entrance portfolio.

4. Admission to the Masters in Education with initial certification is competitive.

- a. Students are reminded that they will be teaching about the whole world; somewhere in the 66 hours they should have at least one course about each world region. Students are strongly urged to complete the 12-hour campus-wide International Studies Concentration or one of the 12-hour plus foreign language World Regional/Foreign Language Concentrations.
- b. Students also need to be prepared to teach U.S. history from an interdisciplinary perspective and a multicultural perspective. Students are strongly urged to take 12 hours as an American Studies

Emphasis, with at least one course in the humanities and at least two courses dealing with diversity in the U.S.

- c. Students need breadth **and** depth. Students are strongly urged to take nine hours in two of the subjects in their support area. Courses may double-count in University Studies in Plan 1 or 2 and in the 12-hour blocks.

Statement on Student Teaching

There is no student teaching required for completion of the secondary social studies education major. Student teaching occurs as part of the Masters in Education with certification.

University Studies (39-53 hours)

*See *University Studies Program* section of this Bulletin for listing of allowable USP courses.

Program Related Studies (3 hours)

EDC 362 Field Experiences in Secondary Education 3

Majors and Minors (66-72 hours)

Students must complete Plan 1 or 2 in history and social sciences for secondary education.

Plan 1

Major in history (36 hours) with a minor (21 hours) in anthropology, economics, geography, political science, psychology, or sociology, and a support area (15 hours) which includes one course from each of the social sciences not chosen as minor.

Plan 2

Major (at least 30 hours) in anthropology, economics, geography, political science, psychology, or sociology, with a minor (21 hours) in history and a support area (15 hours) which includes one course from each of the social sciences not chosen as major.

History Major for Secondary Education (36 hours)

Required (18 hours)

HIS 104 A History of Europe Through the Mid-Seventeenth Century 3
 HIS 105 A History of Europe From the Mid-Seventeenth Century to the Present 3
 HIS 108 History of the United States Through 1865 3
 HIS 109 History of the United States Since 1865 3
 HIS 301 History Workshop:
 Introduction to the Study of History 3
 HIS 499 Senior Seminar for History Majors
 (Subtitle required) 3
 Twelve of the other 18 credits must be history courses numbered 300 to 599. There must be some chronological diversity, with at least six hours of U.S. history above the 100 level and at least nine hours in history of other regions of the world, which will give the student the broad background necessary to teach World Civilization 18

History Minor for Secondary Education (21 hours)

Required (12 hours)

HIS 104 A History of Europe Through the Mid-Seventeenth Century 3
 HIS 105 A History of Europe From the Mid-Seventeenth Century to the Present 3
 HIS 108 History of the United States Through 1865 3
 HIS 109 History of the United States Since 1865 3

Plus nine hours which will give students a broad preparation for teaching U.S. History and World Civilization. At least six hours should be at the 300 level or above 9

Anthropology Major for Secondary Education (33 hours)

Required (6 hours)
 ANT 220 Introduction to Cultural Anthropology 3
 ANT 230 Introduction to Physical Anthropology 3

Anthropological Theory (9 hours)
 ANT 301 History of Anthropological Theory 3
 ANT 433 Social Organization 3
 One of the following: ANT 429, 430G, 525, 526, 532, 538, 550 3

Research Methodology (3 hours)
 ANT 490 Anthropological Research Methods 3

Option 1 – Regional Specialization (6 hours)
 Two courses from the same culture area, one ethnology and one culture history.
 Ethnology courses are: ANT 221, 324, 428G, 431G, 534.
 Culture history courses are: ANT 241, 242, 320, 322, 342, 555.

Option 2 – Cross-Cultural Comparison (6 hours)
 Two ethnology courses, each representing a contrasting area.
 Ethnology courses are: ANT 221, 428G, 431G, 534.

Subdisciplinary Breadth (6 hours)
 One course in archaeology and one in physical anthropology.

Senior Tutorial Seminar
 ANT 582 Senior Integrative Seminar 3

Anthropology Minor for Secondary Education (21 hours)

Required (6 hours)
 ANT 220 Introduction to Cultural Anthropology 3
 ANT 230 Introduction to Physical Anthropology 3
 Select **one** course from each of the four areas and one elective (15 hours)

1. Archaeology
 ANT 240 Introduction to Archaeology 3
 ANT 242 Origins of New World Civilization 3
 ANT 320 Andean Civilization 3
 ANT 322 Ancient Mexican Civilizations 3

2. Area Studies
 ANT 221 Native People of North America 3
 ANT 324 Contemporary Latin American Cultures 3
 ANT 327 Culture and Societies of India 3
 ANT 428G Contemporary Cultures and Societies in Southeast Asia 3
 ANT 431G Cultures and Societies of Sub-Saharan Africa 3

3. Physical Anthropology
 ANT 332 Human Evolution 3
 ANT 333 Contemporary Human Variation 3

4. Social and Cultural Anthropology
 ANT 301 History of Anthropological Theory 3
 ANT 338 Economic Anthropology 3
 ANT 401 Gender Roles in Cross-Cultural Perspective 3
 ANT 433 Social Organization 3
 ANT 525 Applied Anthropology 3
 ANT 526 Psychological Anthropology 3
 ANT 532 Anthropology of the State 3

Economics Major for Secondary Education (30 hours)

Required (12 hours)
 ECO 201 Principles of Economics I 3
 ECO 202 Principles of Economics II 3
 ECO 401 Intermediate Microeconomic Theory 3
 ECO 402 Intermediate Macroeconomic Theory 3

For breadth, select five from the following list and, for depth, ECO 499, Seminar in Economics (Subtitle required) for three credits (18 hours)

ECO 412 Monetary Economics 3
 ECO 463 Analysis of Business Conditions 3
 ECO 465G Comparative Economic Systems 3
 ECO 467 American Economic History 3
 ECO 471 International Trade 3
 ECO 473G Economic Development 3
 ECO 477 Labor Economics 3
 ECO 479 Public Economics 3
 ECO 499 Seminar in Economics (Subtitle required) 3

Economics Minor for Secondary Education (21 hours)

Required (6 hours)
 ECO 201 Principles of Economics I 3
 ECO 202 Principles of Economics II 3
 Select for breadth any five of the courses listed for the major, excluding ECO 401 and 402 (15 hours)

Geography Major for Secondary Education (36 hours)

GEO 130 Earth's Physical Environment 3
 GEO 172 Human Geography 3
 GEO 152 Regional Geography of the World
 or
 GEO 160 Lands and Peoples of the Non-Western World 3
 GEO 300 Geographic Research 3
 GEO 305 Elements of Cartography 3
 GEO 310 Quantitative Techniques in Geography 3

For breadth take at least one regional course and one thematic course in geography numbered at the 300 level or above (six hours)

Core Requirements
 Select a minimum of 12 hours of courses within geography numbered at the 200 level or above (12 hours)

Geography Minor for Secondary Education (21 hours)

GEO 130 Earth's Physical Environment 3
 GEO 172 Human Geography 3
 GEO 152 Regional Geography of the World
 or
 GEO 160 Lands and Peoples of the Non-Western World 3
 GEO 300 Geographic Research
 or
 GEO 305 Elements of Cartography
 or
 GEO 310 Quantitative Techniques in Geography 3

Nine additional hours in geography at the 200 level or above (nine hours)

Political Science Major for Secondary Education (30 hours)

Required
 PS 101 American Government 3
Select two (six hours)
 PS 210 Introduction to Comparative Politics 3
 PS 212 Culture and Politics in the Third World 3

PS 235 World Politics 3
 PS 240 Introduction to Political Theory 3
 PS 372 Introduction to Political Analysis 3

Plus a minimum of 21 additional semester hours, of which at least 15 must be at the 300 level or above. In order to expose the student to the various subfields of political science, the combination of courses selected must include at least one course in each of the subfields 1, 2, and 3 below, as well as one course in another subfield (21 hours)

1. Theory and Methodology
 PS 240 Introduction to Political Theory 3
 PS 372 Introduction to Political Analysis 3
 PS 441G Early Political Theory 3
 PS 442G Modern Political Theory 3
 PS 545 American Political Thought 3

2. Comparative Government
 PS 210 Introduction to Comparative Politics 3
 PS 212 Culture and Politics in the Third World 3
 PS 411G Comparative Government–Parliamentary Democracies I 3
 PS 412G Comparative Government–Parliamentary Democracies II 3
 PS 417G Survey of Sub-Saharan Politics 3
 PS 419G The Governments and Politics of Eastern Asia 3
 PS 427G East European Politics 3
 PS 428G Latin American Government and Politics 3
 PS 429G Government and Politics in Russia and the Post-Soviet States 3

3. International Relations
 PS 235 World Politics 3
 PS 431G National Security Policy 3
 PS 433G Politics of International Economic Relations 3
 PS 436G International Organization 3
 PS 437G Dynamics of International Law 3
 PS 439G Special Topics in International Relations (Subtitle required) 3
 PS 538 Conflict and Cooperation in Latin American Relations 3

4. Political Process
 PS 470G American Political Parties 3
 PS 472G Political Campaigns and Elections 3
 PS 473G Public Opinion 3
 PS 474G Political Psychology 3
 PS 475G Politics and the Mass Media 3
 PS 476G Legislative Process 3
 PS 479 Women and Politics 3
 PS 480G Government and the Economy 3
 PS 484G The American Presidency 3
 PS 571 Interest Groups 3

5. Public Administration
 PS 489G The Analysis of Public Policy 3
 PS 580 The Budgetary Process 3

6. Public Law and Judicial Behavior
 PS 461G Civil Liberties 3
 PS 463G Judicial Politics 3
 PS 465G Constitutional Law 3

7. State and Local Government
 PS 456G Appalachian Politics 3
 PS 458 State Government 3
 PS 557 Kentucky Government and Politics 3

Note: The subfield designation for PS 391, PS 395, and PS 492 varies with the topic covered. Check with the department for current offerings relevant to social studies.

Political Science Minor for Secondary Education (21 hours)

Required

PS 101 American Government 3

Select two (six hours)

PS 210 Introduction to Comparative Politics 3
 PS 212 Culture and Politics in the Third World 3
 PS 235 World Politics 3
 PS 240 Introduction to Political Theory 3
 PS 372 Introduction to Political Analysis 3

Twelve additional hours, of which at least nine must be at the 300 level or above.

Breadth requirement: same as for major; select one course each from subfields listed for the major (12 hours)

Psychology Major for Secondary Education (30 hours)

Required (13 hours)

PSY 100 Introduction to Psychology 4
 PSY 313 Personality and Individual Differences 3
 PSY 314 Social Psychology and Cultural Processes 3
 PSY 533 Abnormal Psychology 3

Select one (3 hours)

PSY 331 The Psychology of Adjustment 3
 PSY 448 Applied Social Psychology 3
 PSY 449 Interpersonal Processes 3

Select one (4 hours)

PSY 215 Experimental Psychology 4
 PSY 430 Research in Personality 4
 PSY 440 Research in Social Psychology 4
 PSY 460 Processes of Psychological Development 4

The remaining hours are elective (10 hours)

Psychology Minor for Secondary Education (19-20 hours)

The required courses are the same as for the major (13 hours)

Select one (3 hours)

PSY 331 The Psychology of Adjustment 3
 PSY 448 Applied Social Psychology 3
 PSY 449 Interpersonal Processes 3

Select one (3-4 hours)

PSY 215 Experimental Psychology 4
 PSY 311 Learning and Cognition 3
 PSY 312 Brain and Behavior 3
 PSY 430 Research in Personality 4
 PSY 440 Research in Social Psychology 4
 PSY 460 Processes of Psychological Development 4

Sociology Major for Secondary Education (30 hours)

Required (6 hours)

SOC 101 Introduction to Sociology 3
 One additional SOC course chosen in consultation with your academic advisor 3

Select one (6 hours)

SOC 302 Sociological Research Methods
and
 SOC 303 Quantitative Sociological Analysis 6
OR

SOC 304 Classical Sociological Theory
and

SOC 305 Contemporary Sociological Theory 6
 Electives 18

At least six of the remaining 18 hours must be at the 300 level or higher.

Sociology Minor for Secondary Education (21 hours)

Required (6 hours)

SOC 101 Introduction to Sociology 3
 One additional SOC course chosen in consultation with your academic advisor 3

Select one (6 hours)

SOC 302 Sociological Research Methods
and
 SOC 303 Quantitative Sociological Analysis 6
OR

SOC 304 Classical Sociological Theory
and
 SOC 305 Contemporary Sociological Theory 6

Electives 9

At least six of the nine hours must be at the 300 level or higher.

Electives: Variable, to meet 128 hours Total Program Requirement.

DEGREE PROGRAMS OUTSIDE THE COLLEGE OF EDUCATION

B.A. with a major in ARTEducation

The requirements for K-12 art education are listed in the *Fine Arts* section of this Bulletin.

COMMUNICATION DISORDERS

The undergraduate and graduate programs in communication disorders are now part of the Department of Rehabilitation Sciences in the College of Health Sciences. Prospective students should refer to the *Health Sciences* section of this Bulletin.

B.M.M.E. with a major in MUSIC EDUCATION

The requirements for K-12 music education are listed in the *Fine Arts* section of this Bulletin.

BACHELOR OF SCIENCE IN CAREER AND TECHNICAL EDUCATION

Requirements are listed in the *College of Agriculture and School of Human Environmental Sciences* section of this Bulletin.

Undergraduate Initial Educator Licensure Programs for Persons Already Holding a Bachelor's Degree

The College of Education offers undergraduate programs leading to initial certification in early elementary education and middle school education for candidates who already hold a bachelor's degree from a regionally accredited institution of higher education. These expedited programs are designed to take advantage of candidates' age and life experiences and to shorten the time required for program completion. They do not lead to a UK bachelor's degree. Documents describing these programs are available from Academic Services and Teacher Certification, 166 Taylor Education Building, or from the Department of Curriculum and Instruction, 335 Dickey Hall. All College of Education Admission, Retention and Exit to Teacher Education Programs rules apply to these programs. In addition, candidates must adhere to policies relating to field placements and character and fitness reviews. Interested persons are encouraged to see an advisor before enrolling in any courses associated with these programs.

Business and Marketing Education

Teacher certification in business and marketing education is available at UK through the masters of arts in education with initial certification. Students completing a degree in an area of business may seek admission to the program by contacting Dr. Douglas Smith, Chair, Program Faculty in Business and Marketing Education, Department of Curriculum and Instruction.

Thomas W. Lester, Ph. D., is Dean of the College of Engineering; Richard J. Sweigard, Ph.D., is Associate Dean for Administration and Academic Affairs; Eric A. Grulke, Ph.D., is Associate Dean for Research and Graduate Studies; G.T. Lineberry, Ph.D., is Associate Dean for Commonwealth and International Programs; Bruce L. Walcott is Associate Dean for Economic Development and Innovations Management.

The College of Engineering offers programs leading to undergraduate and graduate degrees in computer science and the following engineering disciplines – biosystems, chemical, civil, computer, electrical, materials, mechanical, and mining. Graduate training in biomedical engineering is also offered through the Colleges of Engineering and Medicine. The College also offers a highly multidisciplinary master of science in manufacturing systems engineering to address the growing need for enhancing manufacturing productivity and quality.

Creative accomplishment in the career of an engineer or computer scientist depends upon an education that stresses major ideas and fundamental concepts of engineering rather than specific technologies. The academic programs in engineering provide a sound background in the mathematical, physical and engineering sciences blended with the social sciences and humanities to ensure both a thorough education in engineering and a liberal education. Such an approach provides the best preparation for the engineer or computer scientist who must envisage and develop the technologies of the future and deal with scientific advances at present unknown.

The various curricula in the College of Engineering are broad, so that no student is limited to a narrow field of specialized knowledge but receives sufficient technical depth to provide a sound preparation for a professional career.

The first engineering degree from the University of Kentucky was granted in 1890. Since that time over 21,000 degrees have been awarded in the various fields of engineering. Among the alumni of the College of Engineering are those who have distinguished themselves in the major fields of industry, government and education.

Concern for the individual is a most important feature of education in the College of Engineering. Close faculty-student relationships are necessarily a meaningful part of the educational process. The faculty, in addition to their duties related to instruction and research, serve as advisors to the student in the preparation of the academic program best matched to the student's needs and intellectual capabilities.

Accreditation

The undergraduate program in Computer Science is accredited by the Computing Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012 – telephone: (410) 347-7700.

The undergraduate programs in Biosystems Engineering, Chemical Engineering, Civil Engineering, Electrical Engineering, Materials Engineering, Mechanical Engineering and Mining Engineering are accredited by the Engineering Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012 – telephone: (410) 347-7700.

Undergraduate Programs in Engineering

The University of Kentucky grants the following degrees in the College of Engineering:

- Bachelor of Science in Biosystems Engineering
- Bachelor of Science in Chemical Engineering
- Bachelor of Science in Civil Engineering
- Bachelor of Science in Computer Engineering
- Bachelor of Science in Computer Science
- Bachelor of Science in Electrical Engineering
- Bachelor of Science in Materials Engineering
- Bachelor of Science in Mechanical Engineering
- Bachelor of Science in Mining Engineering

While these are the official degrees granted at the bachelor's level in the college, the prospective student is encouraged to study the wide variety of options available through technical electives, some of which are listed following the degree requirements of each department. Technical electives are included in each curriculum to allow the student to apply the fundamentals of a particular discipline to an area of special interest during the senior year.

Students in any department interested in biomedical engineering may make special arrangements to include a limited amount of such studies in the undergraduate program. The Department of Biosystems Engineering and the Center for

Biomedical Engineering have approved an optional program in pre-biomedical engineering. Biomedical engineering is primarily the application of engineering principles to the solution of medical problems.

The Department of Chemical Engineering has approved an optional program in premedicine or pre dentistry. Students majoring in chemical engineering may arrange through their advisor to take courses that will satisfy the degree requirements for this program.

In response to industry requests, the College of Engineering and the Gatton College of Business and Economics have joined to offer a coordinated Bachelor of Science in Engineering and Masters of Business Administration. The intense five-year program may require summer courses to remain on track to complete the engineering part in four years. The MBA will be taken during a student's fifth year of study beginning in July and finishing the following June. In addition, students in the program will be required to complete a study abroad program designed specifically for the engineering/business student. This program will be conducted immediately upon completion of the MBA course requirements and the majority of costs will be paid by the program. Students earning a 3.25 or better GPA and having completed their junior year will be identified and will receive a letter asking them to apply for the program. Admission is highly competitive and is limited to 15 students. Selection is based on past academic performance, communication skills, and commitment to the program.

For engineering students interested in manufacturing, the University offers a dual-degree program. This program allows students pursuing a B.S. in Electrical Engineering or Mechanical Engineering to concurrently enroll in the M.S. in Manufacturing Systems Engineering. The BSEE/MSMSE or BSME/MSMSE dual-degree programs can be completed in five years. Students in the program can participate in intensive summer courses in Lean Manufacturing. Students in the program are strongly encouraged to be Co-op students or to do industry internships to supplement their course work with industry experience. During their junior year, students should apply to the Graduate School for admittance into the dual-degree program.

Graduate programs in the engineering fields of study are listed in *The Graduate School* section of this Bulletin.

ADMISSION POLICY

The minimum entry requirement for admission into the College of Engineering is:

- ACT math score of **23** or higher, or the SAT equivalent.

Four alternative admission routes include:

1. **3** or above on the Calculus AB portion of the Advanced Placement Exam;
2. Eligibility to enter **MA 110** based on the UK Math Department Placement Exam;
3. Completion of *or* the equivalent of **MA 110** with a grade of **C** or higher;
4. Completion of *or* the equivalent of **MA 109 and MA 112** with a grade of **C** or higher.

Newly admitted pre-engineering or pre-computer science students are allowed to choose an open major for one semester (12 credit minimum) called General Engineering. All students must select a program before the end of their first semester, preferably when they register for classes for their second semester.

Application must be made for admission to a specific pre-engineering program. However, subsequent transfer between programs will be permitted and may be accomplished by applying and satisfying the appropriate specified criteria.

All undergraduate degree programs are divided into pre-engineering and engineering. Pre-engineering is broadly defined as the first two years of a program, while engineering is broadly defined as the last two years of the program. Every student must be admitted to engineering standing in a specific program prior to graduation.

Engineering Standing Admission

Admission to engineering standing in a degree program is necessary in order to be granted a baccalaureate degree in engineering or computer science. Specific departmental requirements for admission to engineering standing are noted below. The same criteria are applied to transfer students with the equivalence of courses determined by the Director of Undergraduate Studies. A student must apply to the specific department for admission to engineering standing. **Note:** The cumulative grade-point average includes all listed college-level work taken at the University of Kentucky or elsewhere.

Students can request qualification for engineering standing after completing the required set of standing courses in the first three semesters of the published curriculum in their chosen program. Each program can specify its engineering standing requirements, but no program may specify a GPA higher than 2.50 for engineering standing.

Requirements by a program for engineering standing may include many items, such as courses counted in first three semesters, repeat options allowed, number of applications for engineering

standing allowed, restrictions on taking upper-level courses, minimum course grades, etc. A student should refer to the UK *Bulletin* and the undergraduate advisor in their program of choice to identify the specific requirements.

Biosystems Engineering: Completion of a minimum of 35 semester hours acceptable towards the degree in biosystems engineering with a minimum cumulative grade-point average of 2.50. Completion of ENG 104, MA 113, MA 114, MA 213, CHE 105 and PHY 231 with a minimum cumulative GPA of 2.5 in these courses. University repeat options may be utilized as appropriate. Students who do not meet these GPA requirements may request consideration based upon departmental review if both of these GPA values are 2.25 or greater.

Chemical Engineering: Completion of CHE 105, CHE 107, CHE 111, CHE 113, MA 113, MA 114, MA 213, PHY 231, PHY 241, ENG 104 with a minimum cumulative grade-point average of 2.50 in these courses. Completion of CME 199 and CME 200 with grades of **C** or better. University repeat options may be applied as appropriate.

Civil Engineering: Completion of CE 106, CE 120, CE 211, CHE 105, CHE 107, EM 221, ENG 104, MA 113, MA 114, MA 213, PHY 231, PHY 241 with a minimum cumulative grade-point average (GPA) of 2.50 in these classes and a **C** or better in each of them as well as 45 or more semester credit hours. University repeat options may be utilized. Students who do not meet this GPA requirement may request consideration based upon departmental review if this core GPA is 2.25 or greater. Students are limited to two applications for engineering standing.

Computer Engineering: Completion of a minimum of 35 semester hours acceptable towards the degree in engineering with a minimum cumulative grade-point average of 2.50. Completion of MA 113, MA 114, MA 213, PHY 231, CHE 105, and ENG 104 with a minimum cumulative GPA of 2.50 in these courses. Completion of EE 211, EE 280, CS 115 and CS 215 with a minimum cumulative GPA of 2.50 in these courses. University repeat options may be utilized as appropriate. In addition, the Electrical and Computer Engineering Department will not permit a third admission into any of these courses. Students who do not meet these GPA requirements may request consideration based upon departmental review if the first two GPAs are 2.25 or greater and they receive a **C** or better in EE 211, EE 280, CS 115 and CS 215.

Computer Science: In order to graduate and take most of the 300 level and above computer science courses, a student must attain engineering standing. To attain engineering standing a student must complete the following courses with a grade-point average of at least 2.50: ENG 104, MA 113, MA 114, CS 100, CS 115, CS 215, CS 275, PHY 231, PHY 241.

Electrical Engineering: Completion of a

minimum of 35 semester hours acceptable towards the degree in engineering with a minimum cumulative grade-point average of 2.50. Completion of MA 113, MA 114, MA 213, PHY 231, CHE 105, and ENG 104 with a minimum cumulative GPA of 2.50 in these courses. Completion of EE 211 and EE 280 with passing grades. University repeat options may be utilized as appropriate. In addition, the Electrical and Computer Engineering Department will not permit a third admission into any of these courses. Students who do not meet these GPA requirements may request consideration based upon departmental review if the first two GPAs are 2.25 or greater and they receive a **C** or better in both EE 211 and EE 280.

Materials Engineering: Completion of CHE 105, CHE 107, CHE 111, CHE 113, MA 113, MA 114, MA 213, PHY 231, PHY 241, ENG 104 with a minimum cumulative grade-point average of 2.50 in these courses. Completion of MSE 201 with a grade of **C** or better. University repeat options may be applied as appropriate.

Mechanical Engineering: Mechanical Engineering students must have completed at least 35 semester credit hours applicable to the degree program with a minimum cumulative GPA of 2.50. In addition, completion of ME 101, ENG 104 (or ENG 101 and ENG 102), CHE 105, MA 113, MA 114, MA 213, PHY 231 and PHY 241 with a minimum cumulative GPA of 2.50 in these courses. Transfer students who have received more than 35 hours transfer credit in the degree program will be considered without the inclusion of ME 101. A student may exercise one of his/her official University repeat options to improve this grade-point average. Written request for exception to the allowed number of repeats should be submitted to the Director of Undergraduate Studies. In no case will there be an exception made to the minimum acceptable grade-point averages listed above.

Mining Engineering: Completion of a minimum of 35 semester hours acceptable towards the degree in mining engineering with a minimum cumulative grade-point average of 2.50. Completion of ENG, 104, MA 113, MA 114, MA 213, CHE 105 and PHY 231 with a minimum cumulative GPA of 2.50 in these courses. University repeat options may be utilized as appropriate. Students who do not meet these GPA requirements may request consideration based upon departmental review if both of these GPA values are 2.25 or greater.

COMBINED DEGREE PROGRAM

The College of Engineering has transfer agreements with several institutions throughout the state. Some of these institutions offer a "3/2" year dual degree program. Other academic institutions choose to offer this option to their students without benefit of a formal agreement. These programs enable students to enroll in a pre-engineering curriculum for the first three years at

their respective schools and then transfer to the College of Engineering for the final two years. Upon completion, they receive two degrees, one from the school at which they originally enrolled and the other a Bachelor of Science in the appropriate field of engineering from the University of Kentucky.

COOPERATIVE EDUCATION PROGRAM

The nationally recognized engineering co-op program provides students the opportunity to gain practical work experience before graduation. By alternating semesters of academic study with semesters of salaried, full-time career-related employment, a full year of engineering work experience can be presented on a graduate resume. Students who wish to participate in the Cooperative Education program in the College of Engineering should contact the Director of Cooperative Education.

To be eligible for this program, students should have a minimum grade-point average of 2.5. In addition, they should complete all the courses in the first two semesters of the degree program prior to the first work tour. Students will remain on a full-time, continuing student status while they are at work by registering for a one-hour, pass/fail course. The grade, assigned by the director, is based on both a work report written by the student and an evaluation completed by the immediate supervisor. Six months of the year's co-op experience counts toward total experience required to sit for the Professional Engineer exam in Kentucky.

The Cooperative Education program contributes significantly to the student's academic motivation, career preparation, and success with job offers upon graduation. One-third of our students and nearly 100 employers nationwide participate in the UK program.

CONTINUING EDUCATION AND EXTENSION

The College of Engineering recognizes the rapid changes occurring in modern engineering technology. Students in engineering are made aware of the need to continue their studies after graduation. One of the ways to keep abreast of advances in engineering is for graduates and other engineering practitioners to participate in continuing education programs now available through the engineering colleges throughout the country.

The responsibilities of the Technology Exchange Program within the Kentucky Transportation Center, the Lean Manufacturing Program within the Center for Manufacturing at the University of Kentucky and the staff of the former Office for Informational Services and Technical Liaison (OISTL), now administratively housed in the Department of Mining Engineering, are to:

1. create and manage appropriate intensive noncredit technical courses of interest to and needed by practicing engineers;

2. develop appropriate video-based courses and materials to be of interest to practicing engineers. Such activity includes taping, live satellite uplinking, and two-way video/audio of engineering-related courses and activities, Web-based instruction; and,

3. provide assistance in extension activities with other college and University units to be of assistance to engineers throughout the state.

SCHOLARSHIPS

The College of Engineering awards merit-based scholarships to incoming freshman and transfer students as well as to students already enrolled in the College. Freshman scholarship applications are due January 15; transfer scholarship applications are due March 15; and continuing student applications are due April 15. Awards are made for the upcoming academic year; no new awards are made for the spring semester.

For further information, contact the College of Engineering Office of Student Services.

ENGINEERING DEAN'S LIST

Students enrolled in the College of Engineering can make the Engineering Dean's List for a fall or spring semester by meeting the following requirements during the semester:

- 3.6 or better semester GPA;
- 12 or more credit hours;
- no **E**, **I** or **F** grades;
- no grades out; and
- no more than 3 hours pass/fail.

MINIMUM REQUIREMENTS FOR GRADUATION

NOTE: The following graduation requirements apply to engineering programs only. Separate graduation requirements currently apply to the Computer Science program as described in the corresponding section.

To be awarded a Bachelor of Science degree in any field of engineering, a student must:

1. complete the University and College requirements relating to writing and University Studies.

2. complete a minimum of 128 hours, exclusive of those earned in freshman college algebra and freshman college trigonometry, with a cumulative standing of not less than 2.0 on a 4.0 scale. In all departments the course requirements exceed this 128 hour minimum.

3. be admitted to engineering standing in an engineering program for at least the final semester, and complete the requirements of that program.

4. complete a minimum of 24 credit hours of departmental courses at or above the 300 level.

5. complete all departmental courses and technical electives with a cumulative standing of 2.0 or higher.

6. complete any additional departmental graduation requirements that may be listed below.

Additional Departmental Graduation Requirements

In the B.S. program in Civil Engineering, the student must earn a **C** or better in each CE prefix course, except that a maximum of one **D** is permitted in a CE prefix course numbered 400 or higher. In addition, a **C** or better must be earned in EM 221 and EM 302.

In the Mining Engineering Department, the student must have earned a grade of **C** or better in the following courses that are valuable for safe operation of mines: MNG 341, Mine Ventilation; MNG 551, Rock Mechanics; MNG 591, Mine Design Project I; and MNG 592, Mine Design Project II.

Second Bachelor's Degree Requirements

A student who has earned a bachelor's degree in the College of Engineering may earn a second bachelor's degree by meeting the following three conditions on the work applicable to the second degree:

1. The student must have been admitted to engineering standing in the program leading to the second degree at least for the final semester, or equivalent terms, prior to the completion of the degree requirements, and must be enrolled as a student in that degree program during the final semester or term.

2. The student must complete a minimum of 15 credit hours of departmentally approved courses at or above the 300 level.

3. To earn a second degree, a student must complete all degree requirements in that program.

ACADEMIC ADVISING

Sophomores, juniors, and seniors are advised by faculty in the department of the student's major. Professional staff provide academic advising and support services to entering freshman students through the Freshman Advising Center.

It is the students' responsibility to satisfy University and College requirements with consultation from their advisor.

PROBATION AND ACADEMIC SUSPENSION

Students should refer to the *Academic Requirements* section of this Bulletin for information concerning the College of Engineering's probation and academic suspension rules.

BACHELOR OF SCIENCE IN BIOSYSTEMS ENGINEERING

Biosystems engineering provides an essential link between the biological sciences and the engineering profession. This linkage is essential for the development of production and processing systems involving biological materials that preserve our natural resource base. Students have the latitude to develop an area of specialization relating to bioenvironmental engineering, food and bioprocessing, machine systems, or controlled environment engineering. The curriculum is also ideal preparation for those students wanting to pursue a graduate or professional degree in biomedical engineering or veterinary medicine through pre-biomedical engineering and pre-veterinary medicine options.

Engineers completing this program of study find employment in industries related to the production and processing of biological products. Opportunities include placement with manufacturers, consulting firms, or state and federal regulatory agencies. Biosystems engineers may work in the areas of biomedical/biotechnology engineering; environmental engineering; agricultural equipment; heating, ventilation and refrigeration equipment; food processing industries; livestock equipment and housing or greenhouse structures; and bioenergy.

The educational objectives for the biosystems engineering program are as follows:

- educate engineers to design components and/or processes for advancement of agricultural, biological, or environmental systems; and
- prepare engineers for successful careers in industry, government, consulting firms, or academia. Successful careers begin with employment in their chosen field or admission to graduate and professional programs, continue with steady achievement, and include professional development.

Degree Requirements

Each student must complete the following:

University Studies Requirements Hours
See "University Studies Program" on pages 83-87 for the complete University Studies requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill University Studies areas. Students should work closely with their advisor to complete the University Studies Program requirements.

Math
MA 113 Calculus I 4

Communication and Writing
ENG 104 Writing: An Accelerated Foundational Course 4
COM 199 Presentational Communication Skills 1
BAE 400 Senior Seminar 1
BAE 402 Biosystems and Agricultural Engineering Design I (25 percent of 2-credit course) 1/2
BAE 403 Biosystems and Agricultural Engineering Design II (25 percent of 2-credit course) 1/2

Natural Sciences
PHY 231 General University Physics 4
PHY 232 General University Physics 4

Premajor Requirements Hours
ENG 104 Writing: An Accelerated Foundational Course 4
ENG 2XX Writing Intensive Course 3
CHE 105 General College Chemistry I 3
CHE 107 General College Chemistry II 3
MA 113 Calculus I 4
MA 114 Calculus II 4
MA 213 Calculus III 4
MA 214 Calculus IV 3
PHY 231 General University Physics 4
PHY 241 General University Physics Laboratory 1
PHY 232 General University Physics 4
PHY 242 General University Physics Laboratory 1
CS 221 First Course in Computer Science for Engineers 2
EM 221 Statics 3

Second Semester

BAE 403 Biosystems and Agricultural Engineering Design II 2
Core** or Technical Elective*** 3
Technical Electives*** 6
University Studies* 6

**To be selected from University Studies areas in Social Sciences, Humanities, Cross-Cultural and Electives in consultation with the academic advisor. A minimum of 15 credits in the humanities and social sciences are required.*

***A minimum of 9 hours are required from the biosystems engineering core courses: BAE 417 Design of Machine Systems, BAE 427 Structures and Environment Engineering, BAE 437 Land and Water Resources Engineering, and BAE 447 Bioprocess Engineering Fundamentals.*

****A minimum of 12 hours are to be taken in addition to the 9 core hours selected by the student. The technical electives allow the student an opportunity to concentrate or gain depth in one or more of the various specialty areas of*

biosystems engineering. The technical electives must be selected from the courses listed below and approved by the student's academic advisor. Other courses may be considered, each on its individual merit. In selecting technical electives students must concentrate their work in one or more of the professional areas of biosystems engineering. These areas include: bio-environmental engineering, food and bioprocess engineering, machine systems/automation engineering and controlled environment engineering. Interested students are encouraged to contact the Department of Biosystems Engineering to discuss technical elective sequences.

Approved technical electives: BAE 435G, 438G, 450, 513, 515, 517, 532, 536, 537, 538, 549, 580, 599; BCH 401G; BME 481G, 501, 530; CE 351, 451, 471G; CME 599; EE 402G; FSC 434G, 530, 536, 538; ME 321, 344, 406, 440, 501, 503, 513, 532; PGY 412G.

†Free electives are any University course excluding more elementary versions of required courses such as pre-calculus math or PHY 211.

BACHELOR OF SCIENCE IN CHEMICAL ENGINEERING

A foundation in mathematics, chemistry, and physics is required for the study of chemical engineering. Fundamental principles related to the transformations of matter and energy are developed in areas such as thermodynamics, mass transfer, reactor design, and chemical process design. Undergraduate elective options are available in polymers and environmental protection. A program is also available to fulfill pre-medical and predoctoral requirements simultaneously with requirements for the B.S. in chemical engineering.

The education outcomes of the undergraduate education program are as follows:

- prepare students for successful chemical engineering practice and/or academic pursuits;
- provide a broad education as a foundation for life-long learning; and
- equip students with the ability to carry out in-depth solution strategies to chemical engineering problems.

Degree Requirements

The following curriculum meets requirements for the B.S. in chemical engineering, provided the student satisfies the graduation requirements listed earlier.

Each student must complete the following:

University Studies Requirements Hours

See "University Studies Program" on pages 83-87 for the complete University Studies requirements. Students should work closely with their advisor to complete the University Studies Program requirements.

Courses marked with an asterisk (*) may also be used to satisfy University Studies requirements.

Premajor Requirements Hours

*ENG 104 Writing: An Accelerated Foundational Course	4
*CHE 105 General College Chemistry I	3
*CHE 107 General College Chemistry II	3
*CHE 111 Laboratory to Accompany General Chemistry I	1
*CHE 113 Laboratory to Accompany General Chemistry II	2
*CME 200 Process Principles	3

CME 199 Computational Tools in Chemical Engineering	3
*MA 113 Calculus I	4
*MA 114 Calculus II	4
*MA 213 Calculus III	4
*MA 214 Calculus IV	3
*PHY 231 General University Physics	4
*PHY 232 General University Physics	4
*PHY 241 General University Physics Laboratory	1

Subtotal: Premajor Requirements: 43

Major Requirements Hours

CME 101 Introduction to Chemical Engineering	1
*COM 199 Presentational Communication Skills	1
CHE 230 Organic Chemistry I	3
CHE 231 Organic Chemistry Laboratory I	3
CHE 232 Organic Chemistry II	3
CHE 446G Physical Chemistry for Engineers	3
MSE 201 Materials Science	3
CME 320 Engineering Thermodynamics	3
CME 415 Separation Processes	3

CME 420 Process Modeling in Chemical Engineering	3
CME 425 Heat and Mass Transfer	4
CME 432 Chemical Engineering Laboratory I	2
CME 433 Chemical Engineering Laboratory II	3
CME 455 Chemical Engineering Process Design I	3
CME 550 Chemical Reactor Design	3
CME 456 Chemical Engineering Process Design II	4
CME 462 Process Control	3

Subtotal: Major Hours 56

In addition to the premajor and major requirements, students must complete the following:

Chemical Engineering Electives Hours

Total of 6 credit hours must be chosen. Courses recommended are listed below. Other courses may be considered, each on its individual merit.

CME 395 Special Problems in Chemical Engineering	3
CME 404G Polymeric Materials	3
CME 505 Analysis of Chemical Engineering Problems	3
CME 515 Air Pollution Control	3
CME 554 Chemical and Physical Processing of Polymer Systems	3
CME 580 Design of Rate and Equilibrium Processes for Water Pollution Control	3
CME 599 Topics in Chemical Engineering	3

Technical Electives

Select one (must be a 3 or more credit hour course) from the following:

CME 395, 404G, 505, 515, 554, 580, 583; CHE 226 and all above 441; CS 320 and above; MA 321, 322, 416G, 432G, 433G, 471G, 481G; PHY any above 241; STA 381 and higher; BCH 401G, 501; MSE 401G, 402G, 403G, 462, 550; any BIO 150 and above; any Engineering course above that required, e.g. above ME 330.	
---	--

Chemistry Elective (must total 3 credits)
CHE 226 and above (if not taken as technical elective).

Supportive Elective (must total 3 credits)

The supportive elective can be any course that carries college credit and is not a more elementary version of a required course. For example, college algebra would not be satisfactory because it is more elementary than the required calculus courses. The student completing 3 co-op tours (EGR 399) may count the co-op experience toward the supportive elective.

†CHE elective (must total 3 credits): CHE 226 and above (if not taken as technical elective).

**BACHELOR OF SCIENCE IN
CHEMICAL ENGINEERING—
PADUCAH**

In addition to the program on the Lexington campus, students can pursue a B.S. degree in chemical engineering through the College’s Extended Campus Program in Paducah, Kentucky. The Paducah program uses the same curriculum as the main campus, but provides the opportunity for students to complete all B.S. degree requirements without having to relocate to Lexington.

Consistent with the Vision and Mission statements of the University of Kentucky, the chemical engineering program at the UK Extended Campus in Paducah strives to meet the following specific educational objectives:

- Prepare our students for successful chemical engineering practice and/or academic pursuits with a broad education as a foundation for life-long learning and with the ability to carry out in-depth solution strategies to chemical engineering problems,
- Offer a program that complies with ABET 2000 Engineering Criteria and set educational objectives that are consistent with the College of Engineering’s Vision and Mission statements using input from constituencies (students, faculty, alumni, and employers), and

- Develop a process for ongoing evaluation and review of the objectives to ensure the program curriculum and processes achieve education objectives.

The Paducah chemical engineering program collaborates with West Kentucky Community and Technical College to provide the basic math and science courses, as well as the general studies course requirements. Murray State University faculty members teach upper-level non-engineering courses on the Paducah campus. On-site UK chemical engineering faculty members and jointly-appointed Murray engineering faculty members teach the upper-division engineering courses. Program admission, course registration, student advising and other student services all can be completed at the Paducah site.

Degree Requirements

The curriculum requirements for the B.S. degree in chemical engineering in Paducah are identical to those on the Lexington campus. Refer to those degree requirements for the Paducah degree program. Not all the technical electives listed for the Lexington program will be available in Paducah. The student must satisfy the College graduation requirements listed earlier.

**BACHELOR OF SCIENCE IN
CIVIL ENGINEERING**

The student of civil engineering has a broad field of study to provide a strong foundation for entry into the profession or graduate school. Major areas include construction engineering, environmental engineering, geotechnical engineering, materials engineering, structural engineering, transportation engineering, and water resources engineering.

The civil engineering program at the University of Kentucky strives to meet the following educational objectives:

- advise our students in their pursuit of academic success and monitor their progress;
- prepare our graduates for scholarly pursuits and successful civil engineering careers; and
- provide our graduates with a broad education that will serve as the foundation for professional licensure and life-long learning.

Degree Requirements

The following curriculum meets the requirements for a B.S. in civil engineering, provided the student satisfies the graduation requirements listed earlier.

Each student must complete the following:

University Studies Requirements Hours
See “University Studies Program” on pages 83-87 for the complete University Studies requirements. The courses listed below are (a) recommended by the college, or (b)

required courses that also fulfill University Studies areas. Students should work closely with their advisor to complete the University Studies Program requirements.

Math
MA 113 Calculus I 4

Inference - Logic
MA 113 Calculus I 4

Oral Communication
COM 252 Introduction to Interpersonal Communication
or
COM 281 Communication in Small Groups 3

Natural Sciences
CHE 105 General College Chemistry I 3
CHE 107 General College Chemistry II 3

Social Sciences
ECO 201 Principles of Economics I 3
plus one other course from USP listing 3

Humanities
HIS 107 Western Culture: Science and
Technology II 3
plus one other course from USP listing 3

USP Electives
ME 220 Engineering Thermodynamics I
or

Supportive Elective [7]	3
Technical Elective***	3
USP Cross-Cultural Elective [5]	3

[R] Recommended University Studies course.

**CE communication throughout the curriculum component.

***Technical Electives are to be chosen from any of the courses at the 300-level or above that carry a CE prefix and in which a student is qualified to enroll, exclusive of required courses. Engineering elective courses are typically taught once per year.

[1] To be chosen from COM 252 or COM 281.

[2] To be chosen from ME 220 or EM 313.

[3] Math or Science Elective Options: MA 321, MA 322, MA 416G, MA 432G, BIO 208, CHE 230, CHE 236, EE 305, GEO 409G, GLY 430, GLY 560, MNG 551, or the other half of the Engineering Science Elective in [2].

[4] To be selected from: CE 482 (non-structural option) or CE 486G and CE 487G (technical elective).

[5] Either the Humanities or Cross-Cultural Elective can be used to simultaneously satisfy the second-tier University Writing requirement. In the Humanities area, choosing from the ENG 200-level humanities courses satisfies both. In the Cross-Cultural area, ENG 264 satisfies both. Only one second-tier writing course is required to meet the graduation writing requirements. Completion of the second-tier course must be in the sophomore year or later and after ENG 104.

[6] Choose from: CE 403, 451, 505, 533, 539, 549, 579, or 589. (NOTE: CE 579 is a co-requisite for CE 589.)

[7] Supportive elective is to be chosen from any University course, excluding a more elementary version of a required course, such as precalculus mathematics or PHY 211. However, each CE area has at least one recommendation for the supportive elective. Please review the Optional Specialization section in the Civil Engineering Undergraduate Handbook. The supportive elective can be taken pass-fail.

BACHELOR OF SCIENCE IN CIVIL ENGINEERING

Joint-Degree Program Offered by Western Kentucky University (WKU) and the University of Kentucky (UK)

As part of the “Strategy for Statewide Engineering Education in Kentucky,” adopted July 17, 2000 by all the chief executive officers of Kentucky universities and endorsed by the Kentucky Council on Postsecondary Education (CPE), the vision was expressed that “access to undergraduate engineering education will expand primarily through the creation of joint programs managed by multiple postsecondary institutions.” In response, WKU and UK now jointly offer an ABET-accredited baccalaureate degree in civil engineering on the WKU campus in Bowling Green, Kentucky. By CPE definition, a joint-degree program is “a program that is mutually sponsored by two or more institutions leading to a single credential or degree, which is conferred by both or all participating institutions. All institutions share responsibility for all aspects of the program’s delivery and quality.”

The joint civil engineering program is one of only four such joint-degree programs in Kentucky; the others include a joint-degree program between WKU and UK in mechanical engineering, between WKU and the University of Louisville (UL) in electrical engineering, and between Murray State University and UL in electrical and telecommunications engineering.

The WKU/UK joint programs emphasize a project-oriented educational approach. Courses are provided by both WKU and UK faculty. Students are required to complete a minimum of 16 credit hours of engineering course work taught by UK engineering faculty. At present, the UK contribution is provided primarily by distance delivery via interactive television. The curriculum of the joint civil engineering program is under the direction of a joint program faculty, with equal representation from each participating institution. The curriculum for entering students requires 135.5 credit hours, with the General Studies component based on the requirements of WKU. Students who complete the program will receive a B.S. degree conferred jointly by WKU and UK. Under the terms of the agreements between the degree-awarding institutions, WKU provides basic administrative support for students in the joint-degree program, including admission services, registration, and student financial aid. In addition, academic advising, laboratory and equipment support, and library and media resources are supplied by WKU.

The civil engineering curriculum approved within UK is listed below. The joint program faculty are responsible for on-going review of the curricular requirements.

Degree Requirements

Freshman Year

Fall Semester	Hours
CE 175 Freshman Experience	2
AMS 163 CADD for Architecture	3

CE Technical Elective (Typical Offerings)

Fall Semester	Hours
CE 490 UK - CE Selected Topics	
CE 360/361 Estimating & Bidding/Lab	4
CE 380/381 Surveying II & Lab	4
CE 384 Reinforced Concrete Design	3
CE 482 Elem. Structural Design	3

Spring Semester

CE 491 UK - CE Selected Topics	
CE 383 Structural Steel Design	3
CE 416 Construction Administration	3
CE 426 Adv. Construction Materials	3
CE 476 Highway Construction	3
CE 480/481 Surveying III & Lab	3

[1] EM 221 UK - Statistics may be substituted for EM 222 with written permission from the student's advisor.

[2] SFTY 171 Safety and First Aid is recommended. However, students may take any course in category F.

[3] CE 373 UK - Structural Analysis may be taken to complete this requirement.

[4] Students must have "major" status to enroll. Students with "premajor" status will not be able to enroll.

[5] Structures design elective may be fulfilled by completing one of the following options:

- (a) CE 482 WKU - Elementary Structural Design or CE 483 UK - Elementary Structural Design;

or

- (b) CE 384 Reinforced Concrete Design.

If option (b) is chosen, CE 383 Structural Steel Design must also be taken, which counts as a technical elective.

[6] ECON 202E (Microeconomics for Engineers) is recommended. However, any section of ECON 202 may be taken.

[7] A 2-course sequence in 4 different Civil Engineering areas is required. The curriculum already includes a 2-course sequence in Structures, Geotechnical Engineering, and Construction. Therefore, each student must select one of their technical electives to cover an additional area such as Surveying, Materials, Environmental Engineering, Hydrology, or Transportation. See section "2-Course Sequence Requirement" in the CE Student Handbook for more information.

BACHELOR OF SCIENCE IN COMPUTER ENGINEERING

Program Educational Objectives

Computer engineering involves modeling, design, implementation, testing, evaluation and integration of computer hardware and software to create computing systems. Computer engineers use both hardware concepts from electrical engineering and system software concepts from computer science. Graduates will be well prepared to work in areas such as digital logic design, computer organization/architecture and design, algorithm design and analysis, embedded systems, compilers, and operating systems. Elective options in the curriculum offer preparation in software engineering, databases, dependable systems, networking and communications, VLSI, graphics, image processing, visualization, artificial intelligence, and control systems. The program is offered through a partnership between the Department of Electrical and Computer Engineering and the Department of Computer Science.

The program educational objectives related to expectations of program graduates include the following:

- Graduates of the program employed in industry will demonstrate, within five years after graduation, professional advancements, such as technical accomplishments, supervisory responsibilities, or other recognitions of their contributions.
- Graduates of the program who continue their formal education will, within five years after graduation, receive advanced degrees, complete specialized training, or receive professional certifications.
- Graduates of the program will appreciate the preparation received in the program as it relates to their careers and their roles in society.

Degree Requirements

Each student must complete the following:

University Studies Requirements

See "University Studies Program" on pages 83-87 for the complete University Studies requirements. Students should work closely with their advisor to complete the University Studies Program requirements.

CS 485G Topics in Computer Science (Subtitle required)	
EE 581 Advanced Logical Design	
EE 582 Hardware Description Languages	

and Programmable Logic
 EE 584 Introduction of VLSI Design and Testing
 EE 585 Fault Tolerant Computing
 EE 586 Communication and Switching Networks
 EE 587 Microcomputer Systems Design
 EE 599 Topics in Electrical Engineering (Subtitle required)

BACHELOR OF SCIENCE IN
 COMPUTER SCIENCE

The Computer Science program includes courses dealing with the design, implementation, analysis, and software-engineering issues related to algorithms and computer programs. A foundation in continuous and discrete mathematics is used to study numerical problems and to analyze algorithms. Through required and elective courses students are exposed to the fundamentals of computing theory and algorithms, programming languages, language translation and compiling, graphics, scientific computing, artificial intelligence, networks, databases, and operating systems.

The educational objectives of the computer science undergraduate program are: Graduates will be equipped to succeed in their chosen career path. Specifically, within three to five years after graduation:

- Those employed in industry or entrepreneurial endeavors will demonstrate professional advancement through expanded leadership responsibility, significant technical accomplishment, or other recognition of their contributions.
- Those who continue their formal education will achieve an advanced degree or other technical certification.

Graduates will appreciate the preparation received in the program as it relates to their chosen careers, to their role as educated citizens in a global society, and to continued learning.

Degree Requirements

Each student must complete the following:

University Studies Requirements

See "University Studies Program" on pages 83-87 for the complete University Studies requirements. Students should work closely with their advisor to complete the University Studies Program requirements.

Courses marked with an asterisk (*) may also be used to satisfy University Studies requirements.

Premajor Requirements Hours

CS 100 The Computer Science Profession	1
CS 115 Introduction to Computer Programming	3
CS 215 Introduction to Program Design, Abstraction, and Problem Solving	4
CS 216 Introduction to Software Engineering	3
CS 275 Discrete Mathematics	4
ENG 104 Writing: An Accelerated Foundational Course	4

[U] To be selected from University Studies areas in Social Sciences, Humanities, Cross-Cultural, and Electives in conjunction with the academic advisor.

[N] Any natural science course excluding more elementary versions of completed required courses.

[C] Computer Science electives include 300-level and above computer science courses with two to be selected from: CS 335, CS 405G, CS 441G, CS 450G, and CS 463G.

[T] Technical electives include any 300-level and above courses in computer science, electrical engineering, mathematics, and business and economics. MA 214 is also an acceptable technical elective.

[E] Two of the electives (6 credits) cannot be mathematics, computer science, science or engineering courses; these two courses can be used to satisfy the University Studies elective requirement.

Minor in Computer Science

CS 100 The Computer Science Profession	1
CS 115 Introduction to Computer Programming	3
CS 215 Introduction to Program Design, Abstraction, and Problem Solving	4
CS 216 Introduction to Software Engineering	3
CS 275 Discrete Mathematics	4
CS 315 Algorithm Design and Analysis	3
plus three additional hours in computer science	3

BACHELOR OF SCIENCE IN ELECTRICAL ENGINEERING

The undergraduate electrical engineering degree program seeks to produce graduates who are trained in the theory and practice of electrical and computer engineering and are well prepared to handle the professional and leadership challenges of their careers. The program allows students to specialize in high performance and embedded computing, microelectronics and nanotechnology, power and energy, signal processing and communications, high frequency circuits and fields, and control systems, among others.

The following objectives relate to expectations for program graduates while in the early stages of their careers. The EE program objectives are:

- Graduates of the program employed in industry will demonstrate, within five years after graduation, professional advancements, such as technical accomplishments, supervisory responsibilities, or other recognitions of their contributions.
- Graduates of the program who continue their formal education will, within five years after graduation, receive advanced degrees, complete specialized training, or receive professional certifications.
- Graduates of the program will appreciate the preparation received in the program as it relates to their careers and their roles in society.

Degree Requirements

Each student must complete the following:

University Studies Requirements

See "University Studies Program" on pages 83-87 for the complete University Studies requirements. Students should work closely with their advisor to complete the University Studies Program requirements.

EE 582 Hardware Description Languages and Programmable Logic
EE 584 Introduction of VLSI Testing and Design
EE 585 Fault Tolerant Computing
EE 586 Communication and Switching Networks
EE 587 Microcomputer Systems Design
EE 589 Advanced VLSI
EE 599 Topics in Electrical Engineering (Subtitle required)

BACHELOR OF SCIENCE IN MATERIALS ENGINEERING

The materials engineer is responsible for the preparation, fabrication, selection, use and reuse of existing materials and for the development of new and improved materials. The professional in this field is often called on to consider metals, ceramics and polymers. The engineer considers chemical, electronic, magnetic, optical, and mechanical properties of materials.

The goals of the undergraduate program are as follows:

- Produce graduates with an understanding of materials, who can function independently as professionals in the practice of engineering or as successful members of related graduate and professional programs.
- Produce graduates who can use their materials educations to continue their careers with steady advancement and professional development.

Degree Requirements

Each student must complete the following:

Premajor Requirements	Hours
ENG 104 Writing: An Accelerated Foundational Course	4
CHE 105 General College Chemistry I	3
CHE 107 General College Chemistry II	3
CHE 111 Laboratory to Accompany General Chemistry I	1

***Choose from the list of Technical Electives above.

BACHELOR OF SCIENCE IN MECHANICAL ENGINEERING

The training of the mechanical engineer is the broadest among the several fields of engineering. The mechanical engineer uses the techniques of mathematics combined with a specialized knowledge of the thermal and energy sciences, solid and fluid mechanics, and the properties of materials. This information is supplemented by an understanding of manufacturing processes, the design and control of systems, and the economics of the technological community.

Our graduates will be able to apply knowledge of mathematics, science and mechanical engineering to the solution of problems, particularly in the areas of thermodynamics and energy systems; heat transfer; fluid mechanics; mechanical systems and controls; mechanical design; finite element methods and computer-aided graphics; manufacturing; instrumentation; and experimental method.

Consistent with the Vision and Mission statements of the University of Kentucky, the undergraduate programs in mechanical engineering strive to meet the following educational objectives:

1. Mechanical Engineering programs will prepare our students for successful practice or academic pursuits in mechanical engineering.
2. Our graduates will have the knowledge in analytical, computational, and experimental methods to begin engineering practice or continue their education. This will include the ability to design components and systems and to solve engineering problems using current analysis and computational methods.
3. Our graduates will have a broad education and communication skills needed for a variety of career options and an appreciation of the need for life-long learning.
4. Our graduates will have an understanding of the societal, environmental and ethical responsibilities of engineers.

Degree Requirements

Each student must complete the following:

University Studies Requirements Hours
See "University Studies Program" on pages 83-87 for the complete University Studies requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill University Studies areas. Students should work closely with their advisor to complete the University Studies Program requirements.

Courses marked with an asterisk (*) may also be used to satisfy University Studies requirements.

*To be selected from University Studies areas in Social Sciences, Humanities and Cross-Cultural in conjunction with the academic advisor.

**To be selected in consultation with the academic advisor from acceptable courses as provided in the University of Kentucky Bulletin.

***Mathematics elective must meet two criteria: (1) be offered by the department of mathematics or statistics; and (2) be higher course content than required mathematics courses. See see list above for suggested courses.

†Technical Electives – see list above.

††The supportive elective is to be chosen from any University course, excluding more elementary versions of required courses, such as precalculus mathematics or PHY 211.

BACHELOR OF SCIENCE IN MECHANICAL ENGINEERING – PADUCAH

In addition to the program on the Lexington campus, students can pursue a B.S. degree in mechanical engineering through the College’s Extended Campus Program in Paducah, Kentucky. The Paducah program uses the same curriculum as the main campus, but provides the opportunity for students to complete all B.S. degree requirements without having to relocate to Lexington.

Consistent with the Vision and Mission statements of the University of Kentucky, the mechanical engineering program at the UK Extended Campus in Paducah strives to meet the following educational objectives:

- The Mechanical Engineering program will prepare our students for successful practice or academic pursuits in mechanical engineering.
- Our graduates will have the technical skills needed to begin engineering practice or to continue their education. These will

include the knowledge of how to design and conduct experiments, mathematics and analytical skills, principles for the design of components and systems, as well as a familiarity with software tools common to the field.

- Our graduates will have the broad education and communication skills needed for a variety of career options, and an appreciation of the need for life-long learning to maintain their competency.
- Our graduates will have an understanding of the social and ethical responsibilities of engineers, and the impact that engineers have in environmental and societal issues.

The Paducah mechanical engineering program collaborates with West Kentucky Community and Technical College to provide the basic math and science courses, as well as the general studies course requirements. Murray State University faculty members teach upper-level non-engineering courses on the Paducah campus. On-site UK mechanical engineering faculty members and jointly-appointed Murray engineering faculty members teach the upper-division engineering courses. Program admission, course registration, student advising and other student services all can be completed at the Paducah site.

Degree Requirements

The curriculum requirements for the B.S. degree in mechanical engineering in Paducah are identical to those on the Lexington campus. Refer to those degree requirements for the Paducah degree program. Not all the technical electives listed for the Lexington program will be available in Paducah. The student must satisfy the College graduation requirements listed earlier.

BACHELOR OF SCIENCE IN MECHANICAL ENGINEERING

Joint-Degree Program Offered by Western Kentucky University (WKU) and the University of Kentucky (UK)

As part of the “Strategy for Statewide Engineering Education in Kentucky,” adopted July 17, 2000 by all the chief executive officers of Kentucky universities and endorsed by the Kentucky Council on Postsecondary Education (CPE), the vision was expressed that “access to undergraduate engineering education will expand primarily through the creation of joint programs managed by multiple postsecondary institutions.” In response, WKU and UK now jointly offer an ABET-accredited baccalaureate degree in mechanical engineering on the WKU campus in Bowling Green, Kentucky. By CPE definition, a joint-degree program is “a program that is mutually sponsored by two or more institutions leading to a single credential or degree, which is conferred by both or all participating institu-

tions. All institutions share responsibility for all aspects of the program’s delivery and quality.”

The joint mechanical engineering program is one of only four such joint-degree programs in Kentucky; the others include a joint-degree program between WKU and UK in civil engineering, between WKU and the University of Louisville (UL) in electrical engineering, and between Murray State University and UL in electrical and telecommunications engineering.

The WKU/UK joint programs emphasize a project-oriented educational approach. Courses are provided by both WKU and UK faculty. Students are required to complete a minimum of 16 credit hours of engineering course work taught by UK engineering faculty. At present, the UK contribution is provided primarily by distance delivery via interactive television. The curriculum of the joint mechanical engineering program is under the direction of a joint program faculty, with equal representation from each participating institution. The curriculum for entering students requires 135 credit hours, with the General Studies component based on the requirements of WKU. Students who complete the program will receive a B.S. degree conferred jointly by WKU and UK. Under the terms of the agreements between the degree-awarding institutions, WKU provides basic administrative support for students in the joint-degree program, including admission services, registration, and student financial aid. In addition, academic advising, laboratory and equipment support, and library and media resources are supplied by WKU.

The mechanical engineering curriculum of the joint program is listed below. The joint program faculty are responsible for on-going review of the curricular requirements.

TOTAL HOURS 135

Each student’s transcript must have at least 16 hours of credit in the major taught by a UK faculty member.

UK faculty are scheduled to deliver the following courses to the ME Joint Program: EM 221, EM 313, ME 321, ME 344, ME 416, and a range of technical electives: ME 498 (Fa) or 499 (Sp).

Check the ME Student Handbook for the latest institutional course offering plan, including technical electives and a list of suitable Mathematics electives.

**Review the WKU Undergraduate Catalog for the current policies concerning the foreign language course.*

Consult the WKU Undergraduate Catalog and ICAP for category B, C, E, and F electives. Categories A and D are covered by the plan of study shown.

BACHELOR OF SCIENCE IN MINING ENGINEERING

Mining engineering requires the broadest knowledge of sciences and other fields of engineering in its practice after graduation. The curriculum below prepares the student for a career in the field of mining.

The objectives of the undergraduate program in mining engineering take into consideration the intellectual and personal development of students so that after graduation they will be able to:

- Advance in their careers, adapting to new situations and emerging problems, through the application of general purpose engineering skills and the core technical disciplines, analytical procedures, and design practices of the mining engineering profession.
- Function ethically in a variety of professional roles such as mine planner, designer, production manager, mineral processing engineer, consultant, technical support representative and regulatory specialist with emphasis on the mineral industries of Kentucky and the surrounding region.
- Pursue advanced degrees in mineral-related fields and also those fields that support the mineral industries such as business and law.
- Utilize professional skills such as effective communication, teamwork, and leadership.
- Demonstrate an understanding of the critical role mining engineers play in society with respect to health, safety, and the environment in tangible ways such as achieving professional licensure.

University Studies*	3

*To be selected from University Studies areas in Social Sciences (6 credits), Humanities (6 credits), and Cross-Cultural (3 credits) in consultation with the academic advisor. Of these totals, 3 credits of Social Sciences are fulfilled by ECO 201. A minimum of 15 credits in the humanities and social sciences are required.

**The supportive elective is to be chosen from any University course outside the student's major excluding more elementary versions of required courses such as precalculus mathematics.

***The Mineral Processing Technical Elective is to be chosen between MNG 575, Coal Preparation Design, and MNG 580, Mineral Processing Plant Design.

†The course selected to fulfill the Graduation Writing Requirement can also be used to satisfy the Cross-Cultural requirement or 3 credits of the Humanities requirement. Selection of ENG 264 will satisfy the Graduation Writing Requirement and the Cross-Cultural requirement. Alternatively, selection of one course from among ENG 230, ENG 231, ENG 232, ENG 233, ENG 234, ENG 261, ENG 262, ENG 270, or ENG 271 will satisfy the Graduation Writing requirement and 3 credits of the Humanities requirement. Please consult the Schedule of Classes for updates to the list of courses.

††Courses recommended as technical electives are listed below. These courses must be chosen with the approval of the student's advisor to ensure that the curriculum includes sufficient engineering design content.

Technical Electives: Of the two technical electives in the undergraduate program, students are required to select at least one from departmental courses. The remaining course, chosen with the approval of the student's advisor, can be used to fulfill specific educational goals.

- MNG 511 Mine Power System Design
- MNG 561 Mine Construction Engineering I
- MNG 563 Simulation of Industrial Production Systems
- MNG 572 Advanced Coal Preparation
- MNG 575 Coal Preparation Design
- MNG 580 Mineral Processing Plant Design
- MNG 581 Geostatistics
- MNG 599 Topic in Mining Engineering
- BAE 438G Fundamentals of Groundwater Hydrology
- CE 471G Soil Mechanics
- CE 541 Intermediate Fluid Mechanics
- GLY 450G Sedimentary Geology
- GLY 585 Hydrogeology
- PLS 501 Reclamation of Disturbed Land

Robert Shay, M.F.A., is Dean of the College of Fine Arts.

The College of Fine Arts was established in September 1976 and includes the Department of Art, the Department of Theatre, the School of Music, and the Otis A. Singletary Center for the Arts.

Accreditation

School of Music

The School of Music is accredited by the National Association of Schools of Music (NASM).

Undergraduate Programs in Fine Arts

The University of Kentucky grants the following degrees in the College of Fine Arts:

- Bachelor of Arts
- Bachelor of Fine Arts
- Bachelor of Music
- Bachelor of Music in Music Education

Students pursuing the Bachelor of Arts may select from these majors: art education, art history, art studio, music, theatre, or arts administration.

Students pursuing the Bachelor of Fine Arts select art studio.

Students pursuing a music degree select the Bachelor of Music with a major in music performance or the Bachelor of Music in Music Education.

The college also offers several graduate programs, which are described in *The Graduate School Bulletin*.

Departmental Minors

Students from any college may choose to have an interdisciplinary minor in the arts, or to minor in art history, art studio, music (music theory and history or performance), or theatre. Requirements for these minors may be found under the departmental listings.

Financial Aid

Department of Art

The University of Kentucky Department of Art and the Office of Minority Affairs will award the Isaac Hathaway Scholarship in the Visual Arts to an incoming African-American freshman student majoring in art studio, art education, art history, or arts administration. For more information on this four-year scholarship and other smaller departmental scholarships, contact the

Art Department, 207 Fine Arts Building, University of Kentucky, Lexington, KY 40506-0022. Or call (859) 257-8151.

School of Music

The School of Music has a number of performance based grants-in-aid and scholarships. Talented singers and instrumentalists should contact the School of Music, Office of Outreach and Recruiting for further information. Call (859) 257-1808 or write c/o 105 Fine Arts Building, University of Kentucky, Lexington, KY 40506-0022.

Department of Theatre

A modest number of scholarships are available from the Department of Theatre. For further information, call (859) 257-3297. Or visit the Web at: www.uky.edu/FineArts/Theatre/.

Requirements for the Bachelor of Arts Degree

Students who wish to pursue the Bachelor of Arts degree within the College of Fine Arts must fulfill the following requirements:

University Requirements

All students must fulfill University Studies requirements. Students should work closely with advisors in selecting courses in each area.

College Requirements

1. Students must complete at least 120 hours of course work or its equivalent with a grade-point average of at least 2.0. Of these hours, 39 must be at or above the 300 level.
2. In addition to the Basic Skills requirement for foreign language in University Studies, students in music and students in art history (major or minor) must 1) satisfy a four-semester sequence in one language by passing the fourth semester or by demonstrating equivalent competence, or 2) pass the third semester course in one language and the second semester course in a second language or demonstrate equivalent competence.
3. Students must complete a major program.

Requirements for a Major

The major – selected from art education, art history, art studio, music, theatre, or arts administration – must include at least 45 credit hours. Among these 45 hours students must include the following:

1. At least six hours of premajor work.

2. At least 18 hours at or above the 200 level in a departmental or school program.

3. At least 9 hours in work related to but outside the major department. Courses which are used to fulfill University Studies requirements may also be used to fulfill this related work, when appropriate.

In addition, students must complete the departmental or school requirements that have been established. Specific major requirements are outlined in detail under the appropriate department and school sections which follow.

Requirements for the Bachelor of Fine Arts Degree

The University and College requirements for the B.F.A. are the same as the B.A. requirements outlined above.

Requirements for the Bachelor of Music in Music Performance and in Music Education

These requirements are outlined with other program requirements under the School of Music.

Advising

Department of Art

Academic advising is provided by selected faculty in the area of the student's major (art education, art history, or art studio). Upon declaring a major, the student should contact the Department of Art and request an advisor.

School of Music

The School of Music has a personalized, faculty-based advising system. Each music major is assigned a faculty advisor who is particularly familiar with the student's undergraduate music degree. That faculty member serves as advisor/counselor through the student's final semester and graduation.

Department of Theatre

All theatre students in the B.A. degree program must meet with the Director of Undergraduate Studies for advising and scheduling information.

Arts Administration Program

All students are assigned an academic advisor when they enter the program. Advisors not only help students choose courses to complete their degree requirements, but also assist students in finding internships.

DEPARTMENT OF ART

Requirements for the B.A. with a major in ART EDUCATION

Art Education majors who wish to be recommended for a state teaching certificate must complete the requirements for the major in Art Education and the requirements for admission, retention, and completion of a UK educator preparation program (see pages 177-178 of this Bulletin).

The Art Education Program Faculty, the College of Education Director of Academic Services and Teacher Certification, the University Registrar, and in the case of graduate level programs, the UK Graduate School Dean, are charged with the responsibility of monitoring a student's progress through educator preparation programs. The Director of Academic Services and Teacher Certification recommends to the Kentucky Education Professional Standards Board (EPSB) that a successful candidate be awarded a state educator license (certificate).

Continuous Assessment in the Art Education Program

Students' progress through the art education programs is continuously monitored, assessed, and reviewed. In addition to regular evaluation in conjunction with their program course work and field placements, students will be assessed three times in their art education program:

1. Entry into the Teacher Education Program (TEP). Students must apply to the TEP program and demonstrate that they have earned at least 60 credit hours and meet the criteria put forth by the College of Education by filling out the College of Education TEP application form. Upon meeting those criteria, applicants then have a portfolio review and interview with art education faculty to determine entry into the program.

2. Mid-Level review. No later than the semester prior to student teaching, students will demonstrate that they meet the criteria put forth by the art education faculty by submitting the materials required for review by the art education faculty.

3. Final assessment upon completion of student teaching. The final assessment is made by the two cooperating public school teachers who supervise the student, and by the observation assessments of the University student teaching supervisor.

College Requirements

plus 39 hours at 300-level or above

Subtotal: College Required Hours 6

University Studies Requirements Hours
See "University Studies Program" on pages 83-87 for the complete University Studies requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill University Studies areas. Students should work closely with their advisor to complete the University Studies Program requirements.

Social Sciences*

Two courses in separate disciplines
as specified in USP 6

Cross Cultural**

A-H 307 Ancient Near Eastern and Egyptian Art 3

or

A-H 308 Studies in African Art (Subtitle required) 3

*Students must complete six hours of Social Sciences in addition to PSY 100.

**Recommended.

All students applying for admission to the Art Teacher Education Program are required to submit samples of their writing to the Art Education Program Faculty. Honors Program students should refer to the University Studies Program, Humanities, Option 2 for alternatives for fulfilling the University writing requirement.

Some students might be able to satisfy the University Studies requirement in as few as 37 hours. However, if total university studies hours are less than 45, one or more courses will be needed to bring the total up to 45 hours.

Subtotal: Professional and

Art Education Hours 39-41

Area of Concentration in Art

Area A. Art History and Appreciation

1. Lower Division (select two of the following courses: ART 100, A-H 105, A-H 106) 6

2. Upper Division (two 300-level or above A-H courses) 6

3. ART 191 Art Professions 4

Subtotal: Area A Hours 16

Area B. Art Studio

1. Lower Division (all of the following courses):

A-S 102 Visual Exploration I 3

A-S 103 Visual Exploration II 4

A-S 200 Studio I 3

A-S 215 Studio II 3

A-S 255 Studio III 3

2. Upper Division (all of the following courses):

A-S 310 Painting I 3

A-S 320 Printmaking I or

A-S 321 Printmaking II 3

A-S 370 Ceramics I 3

3. Studio Electives (Need not be upper division. Regular and/or independent course work may be selected from one or from several studio areas.) 7

Subtotal: Area B Hours 32

Area of Concentration Hours 48

Some students may be able to satisfy University Studies requirements, Professional and Art Education requirements, and Area of Concentration requirements with less than the minimum hours required for graduation from the college in which they are enrolled. In that event, they must take additional hours of elected course work to meet their college's requirement. Minimum hours required for graduation from the College of Fine Arts: 120.

TOTAL HOURS: 120

State Mandated Testing and the Kentucky Teacher Internship

Successful completion of the examinations required by the Kentucky Education Professional Standards Board is a precondition for the granting of a teaching license (certificate). See www.kyepsb.net/ for the current list of PRAXIS examination requirements for P-12 Art certification.

Upon being recommended for a Kentucky Teaching License (certificate), a candidate will be issued a Kentucky Letter of Eligibility for the Kentucky Teacher Internship Program. Upon employment in a Kentucky P-12 school, the candidate will receive a one-year license to practice as a fully qualified intern Art teacher. After successfully completing the internship year, the candidate will be eligible for a regular Kentucky Professional Teaching License (certificate).

Information concerning licensure in other states is available from the office of Academic Services and Teacher Certification in the College of Education.

Requirements for the B.A. with a major in ART HISTORY

The B.A. offers art history majors courses in the Western tradition, African and Asian art, methodology and theory, and advanced courses with more focused topics that present differing approaches to the discipline. A major in art history focuses on the development of the visual arts within a broad liberal arts tradition. The program equips majors with skills in visual analysis, art historical research, problem solving, critical thinking, and writing, as well as with direct experience with the art object.

Graduates with a B.A. in art history will have received a solid liberal arts education with a strong emphasis on writing, the acquisition of at least one foreign language, and critical thinking, useful for virtually any career path. The degree helps prepare majors for arts-related careers in gallery and museum work or arts organizations at the community or state level. Majors may choose to pursue further post-graduate studies, leading to careers in research and/or field work, teaching, arts administration, and curatorial work in a museum.

The major in art history must include the following:

College Requirements

Music, Theatre and/or Arts Administration 6
plus 39 hours at 300-level or above

Subtotal: College Required Hours 6

University Studies Requirements Hours

See “University Studies Program” on pages 83-87 for the complete University Studies requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill University Studies areas. Students should work closely with their advisor to complete the University Studies Program requirements.

Humanities

A-H 105 Ancient Through Medieval Art 3
A-H 106 Renaissance Through Modern Art 3

Premajor Requirements Hours

Select **two** of the following A-H courses:

A-H 103 World Art 3
A-H 105 Ancient Through Medieval Art 3
A-H 106 Renaissance Through Modern Art 3

plus

A-S 102 Visual Exploration I 3

or

A-S 103 Visual Exploration II 4

ART 191 Art Professions 1

Subtotal: Premajor Hours 10-11

Major Requirements

Performance Review

When majors have completed nine hours of art history at the 300 level or above, their performance is reviewed by the art history faculty for purposes of undergraduate and career advising. Students with a grade-point average below 2.5 in the major will confer with their advisor and together develop a strategy for improving and completing successfully their degree work.

Foreign Language

To satisfy the requirement students must: 1) satisfy a four-semester sequence in one language pertinent to primary or secondary sources for art historical scholarship (German or French recommended) by passing the fourth semester, or 2) pass the third semester course in one language and the second semester course in a second language, or 3) demonstrate equivalent competence.

Subtotal: Foreign Language 12-19

Art History

Twenty-four hours of art history are required beyond the premajor requirements. Of these, the following are specified:

At least **one** course from **four of the five** following groups 12

The four courses from these groups are designed to introduce students to major developments in the history of art. Students will develop skills in art historical analysis, research methods, writing, and problem solving.

Non-Western Art

A-H 307 Ancient Near Eastern and Egyptian Art 3
A-H 308 Studies in African Art (Subtitle required) 3

Ancient and Medieval Art

A-H 312 Studies in Greek Art (Subtitle required) 3
A-H 313 Studies in Roman Art (Subtitle required) 3
A-H 323 Studies in Medieval Art (Subtitle required) 3

Renaissance and Early Modern Art

A-H 334 Studies in Renaissance Art
(Subtitle required) 3
A-H 335 Studies in Early Modern Art,
1500-1700 (Subtitle required) 3

18th and 19th Century Art

A-H 339 Studies in Art 1700-1840
(Subtitle required) 3
A-H 340 Studies in Art 1840-1914
(Subtitle required) 3
*A-H 342 Studies in American Art
(Subtitle required) 3

Modern Art

A-H 341 Studies in 20th Century Art
(Subtitle required) 3
A-H 342 Studies in American Art
(Subtitle required)* 3
A-H 343 History of Photography 3
A-H 350 Contemporary Art 3

*Depending on subtitle, and as indicated on the syllabus, this course may satisfy this area requirement.

Plus at least **one** of the following:

These courses are designed to provide students with direct experience with the art object through either a museum practicum or organized course.

A-H 399 Experiential Education in Art History 3
A-H 501 Museum Studies I: Introduction 3
A-H 502 Museum Studies II: Internship 3
A-H 503 Art History Through the Art Object
(Subtitle required) 3

Plus at least **two** of the following seminar areas:

These courses provide students with differing perspectives and approaches to the study of the visual arts. Courses may explore interdisciplinary aspects of art historical study, concentrate on an in-depth study of a specialized topic or period, or provide other frameworks beyond the traditional canon. To fulfill the requirement, students must select two different seminar numbers, not the same number with different subtitles.

A-H 525 Studies in Genres and Media
(Subtitle required) 3
A-H 526 Art and the Artist in Society
(Subtitle required) 3
A-H 527 Art Within Its Interdisciplinary Framework
(Subtitle required) 3
A-H 528 Topical Seminar in Art History
(Subtitle required) 3

Plus:

A-H 555 Methods in Art History 3

The art history program also offers a topical course offered on a variety of subjects:

A-H 415G Topical Studies in Art History
(Subtitle required) 3

Subtotal: Major Hours 24

Electives

Successful completion of nine hours in work related to, but outside, the Art Department. With the approval of an advisor, students are encouraged to select courses in aesthetics (PHI 592), anthropology, architectural history, art studio, arts administration, art professions, classics, history, history of film, history of interior design, history of theatre, literature, music, philosophy, and most particularly foreign language – especially German, French, or other languages relevant to special program or regional studies.

In addition, students must choose six hours of free electives.

Subtotal: Electives 15

TOTAL HOURS: 120

Minor in Art History

Students from any college may choose to minor in art history. This minor requires at least 18 hours of course work.

1. Select **two** of the following A-H courses:
A-H 103 World Art
A-H 105 Ancient Through Medieval Art
A-H 106 Renaissance Through Modern Art
2. At least nine hours of work in art history at the 300 level or above
3. At least one course in art studio

Requirements for the B.A. with a major in ART STUDIO

This degree is available to students wishing to focus on a single medium from the following: ceramics, digital media, drawing, fiber, painting, photography, printmaking, and sculpture.

The major in art studio must include the following:

College Requirements

Music, Theatre and/or Arts Administration 6
plus 39 hours at 300-level or above

Subtotal: College Required Hours 6

University Studies Requirements Hours

See “University Studies Program” on pages 83-87 for the complete University Studies requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill University Studies areas. Students should work closely with their advisor to complete the University Studies Program requirements.

Humanities

A-H 105 Ancient Through Medieval Art 3
A-H 106 Renaissance Through Modern Art 3

Premajor Requirements

1. A-S 101 Art Studio Foundation Seminar
(taken first semester) 1
2. Choose **two** of the following:
A-H 104 Introduction to African Art 3
A-H 105 Ancient Through Medieval Art 3
A-H 106 Renaissance Through Modern Art 3
3. A-S 102 Visual Exploration I 3
A-S 103 Visual Exploration II 4
A-S 200 Studio I 3
A-S 215 Studio II 3

Subtotal: Premajor Hours 20

Premajor Foundation Exhibition

Each first-year student in the Foundation Program must participate in an annual exhibition to occur late each spring semester. Students will submit one work of their own selection from the first year’s work for the exhibition, present it professionally, and provide an accompanying artist’s statement.

Major Requirements

Entrance Portfolio

Students who desire to declare an Art Studio major will demonstrate their progress in the Foundations Program and commitment to advanced undergraduate study through a mandatory portfolio review. The portfolio is to include up to twelve works of art, selected to include examples from each of the premajor foundation courses and to also include art works that can be varied according to the student’s current

proposed direction. These should be presented in a professional format and include a CD of properly identified images, an artist's statement, a résumé, and a self-evaluation of student's progress. Students will deliver the portfolio to the art department office (207 Fine Arts Building) on the stipulated deadline and collect it (207 Fine Arts Building) with the faculty assessment on the deadline stipulated.

1. ART 191 Art Professions (two credit hours required)
 2. A-S 201 Art Studio Foundation Seminar (one credit hour)
 3. Twenty-four hours of studio courses at or above the 300 level, twelve hours of which must be in a single discipline (e.g., painting, sculpture, printmaking). In addition majors are to complete **one** course from **each** of the three following categories:
 - 2-D Category Options** (3 credit hours)
 - A-S 310 Painting I
 - A-S 320 Printmaking I
 - A-S 350 Fiber I (*subtitled Surface Design*)
 - 3-D Category Options** (3 credit hours)
 - A-S 255 Studio III
 - A-S 370 Ceramics I
 - A-S 350 Fiber I (*subtitled Structures and Mixed Media*)
 - Photography/New Media Options** (3 credit hours)
 - A-S 380 Photography I
 - A-S 345 Web Design
 - A-S 346 Digital Video
 - A-S 347 Multimedia (Subtitle required)
 4. At least six hours of art history at or above the 300 level
 5. A-S 490 Senior Seminar (one credit hour, taken during the final semester of study)
 6. Participation in a Graduating Seniors' Exhibition
 7. At least nine hours in work related to but outside the major department
- Subtotal: Major Hours 43**

Electives

Students must complete 6 hours of free electives.

- Subtotal: Electives 6**
TOTAL HOURS: 120

Requirements for the B.F.A. with a major in ART STUDIO

This degree is available to students who have demonstrated special abilities through a portfolio review of work in the visual arts no earlier than the student's fourth semester of college art study, and completion of all art studio premajor requirements.

The plan may focus on a single medium from the following: ceramics, digital media, drawing, fiber, painting, photography, printmaking, and sculpture, or any combination of those media.

Students seeking the Bachelor of Fine Arts in art studio must complete the following:

College Requirements

Music, Theatre and/or Arts Administration 6
 plus 39 hours at 300-level or above

- Subtotal: College Required Hours 6**

University Studies Requirements Hours

See "University Studies Program" on pages 83-87 for the complete University Studies requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill University Studies areas. Students should work closely with their advisor to complete the University Studies Program requirements.

Humanities

- A-H 105 Ancient Through Medieval Art 3
 A-H 106 Renaissance Through Modern Art 3

Premajor Requirements

1. A-S 101 Art Studio Foundation Seminar (taken first semester) 1
 2. Choose **two** of the following:
 - A-H 104 Introduction to African Art 3
 - A-H 105 Ancient Through Medieval Art 3
 - A-H 106 Renaissance Through Modern Art 3
 3. A-S 102 Visual Exploration I 3
 A-S 103 Visual Exploration II 4
 A-S 200 Studio I 3
 A-S 215 Studio II 3
- Subtotal: Premajor Hours 20**

Premajor Foundation Exhibition

Each first-year student in the Foundation Program must participate in an annual exhibition to occur late each spring semester. Students will submit one work of their own selection from the first year's work for the exhibition, present it professionally, and provide an accompanying artist's statement.

Major Requirements

Entrance Portfolio

Students who desire to declare an Art Studio major will demonstrate their progress in the Foundations Program and commitment to advanced undergraduate study through a mandatory portfolio review. The portfolio is to include up to twelve works of art, selected to include examples from each of the premajor foundation courses and to also include art works that can be varied according to the student's current proposed direction. These should be presented in a professional format and include a CD of properly identified images, an artist's statement, a résumé, and a self-evaluation of student's progress. Students will deliver the portfolio to the art department office (207 Fine Arts Building) on the stipulated deadline and collect it (207 Fine Arts Building) with the faculty assessment on the deadline stipulated.

1. ART 191 Art Professions (two credit hours required)
2. ART 291 B.F.A. Practicum (two credit hours required)
3. A-S 201 Art Studio Foundation Seminar (one credit hour)
4. Thirty-six hours of studio courses at or above the 300 level, according to the student's committee-approved plan of study. As part of this thirty-six hour requirement, majors are to complete **one** course from **each** of the three following categories during the sophomore year (or equivalent):
 - 2-D Category Options** (3 credit hours)
 - A-S 310 Painting I
 - A-S 320 Printmaking I
 - A-S 350 Fiber I (*subtitled Surface Design*)
 - 3-D Category Options** (3 credit hours)
 - A-S 255 Studio III
 - A-S 370 Ceramics I
 - A-S 350 Fiber I (*subtitled Structures and Mixed Media*)

Photography/New Media Options (3 credit hours)

- A-S 380 Photography I
- A-S 345 Web Design
- A-S 346 Digital Video
- A-S 347 Multimedia (Subtitle required)

5. At least nine hours of art history at or above the 300 level
6. A-S 490 Senior Seminar (one credit hour, taken during the final semester of study)
7. Presentation of a one-person senior exhibition for final approval by a studio faculty review committee.
8. At least nine hours in work related to but outside the major program. Choice of this related work must be approved by the student's advisor. Courses which are used to fulfill University Studies requirements may also be used to fulfill this related work, when appropriate.

- Subtotal: Major Hours 60**

Electives

Students must complete 6 hours of free electives.

- Subtotal: Electives 6**
TOTAL HOURS: 120

Minor in Art Studio

Students from any college may choose to minor in art studio. The minor requirements are as follows:

Hours

1. ART 191 Art Professions 2
2. One course chosen from the following:
 - A-S 102 Visual Exploration I 3
 - A-S 103 Visual Exploration II 4
3. One course chosen from the following:
 - A-S 200 Studio I 3
 - A-S 215 Studio II 3
 - A-S 255 Studio III 3
4. At least nine hours in studio at the 300 level or above
5. One course chosen from the following:
 - ART 100 Introduction to Art 3
 - A-H 105 Ancient Through Medieval Art 3
 - A-H 106 Renaissance Through Modern Art 3

SCHOOL OF MUSIC

Requirements for the B.A. with a major in MUSIC

Admission to the B.A. program in music is granted only after the successful completion of an audition in the student's performance area.

The major in music must include the following:

College Requirements

Art, Theatre and/or Arts Administration 6
 plus 39 hours at 300-level or above

- Subtotal: College Required Hours 6**

University Studies Requirements

See "University Studies Program" on pages 83-87 for the complete University Studies requirements. Students should work closely with their advisor to complete the University Studies Program requirements.

Lower Division Major Requirements	Hours
1. Music Theory: MUS 170, 171, 172, 173, 270, 271, 272, 273	16
2. Music History: MUS 203	3
3. Major musical instrument or voice performance course of two hours each semester	8
4. Ensemble	4
5. All music majors must pass a piano proficiency examination and should schedule, in consultation with their advisor, a suitable course each semester until this requirement is completed. Students with little or no prior piano study should normally expect to complete the piano proficiency examination by the end of four semesters of study	4 or as needed
6. MUS 001 Recital Attendance (four courses – zero credit – completed satisfactorily)	0
Subtotal: Lower Division Hours	31-35

Foreign Language

To satisfy the requirement students must: 1) satisfy a four-semester sequence in one language by passing the fourth semester, or 2) pass the third semester course in one language and the second semester course in a second language, or 3) demonstrate equivalent competence.

Subtotal: Foreign Language 12-19

Upper Division Major Requirements	Hours
1. Continuation of major musical instrument or voice performance courses above the sophomore level	4
2. MUS 372 Musical Analysis	2
3. MUS 302 and 303	6
4. Ensemble	2
5. Music courses chosen from upper division courses appropriate to the areas of music history, theory, composition, and literature	10
6. Electives: To include 12 hours in courses related to the major but outside the School of Music. The student's advisor must approve choice of this related work. Courses used to fulfill University Studies may be used to fulfill this related work, when appropriate.	12
Subtotal: Upper Division Hours	38
TOTAL HOURS:	120

Requirements for the BACHELOR OF MUSIC

with a major in Music Performance

Admission to the Bachelor of Music program in music performance is granted only after the successful completion of an audition in the student's performance area.

To earn a Bachelor of Music degree in music performance, a student must complete 120 credit hours and have at least a 2.0 grade-point standing. At the conclusion of the sophomore year and before continuing in music performance at the upper division level, each student must perform before the music performance faculty for approval. Each student must also present a full recital during the senior year.

Students in music performance must complete the following:

University Studies Requirements

See "University Studies Program" on pages 83-87 for the complete University Studies requirements. Students should work closely with their advisor to complete the University Studies Program requirements.

Major Requirements	Hours
Music Theory	
MUS 170, 171, 172, 173, 270, 271, 272, 273	16
Major Instrument Study	
Choose option from Instrument, Piano, Organ or Voice (see below)	24
Recital Attendance	
MUS 001 Recital Attendance (four courses – zero credit – completed satisfactorily)	0
Music History	
MUS 203, 302, 303, plus one course elected from MUS 500, 501, 502, 503, 504, 505 or 506	12
Appropriate Music Ensemble	
Each semester	8
Subtotal: Major Hours	60

Students in music performance must choose one of the following concentrations:

Concentration in an Instrument

1. All music majors must pass a piano proficiency examination and should schedule, in consultation with their advisor, a suitable course each semester until this requirement is completed. Students with little or no prior piano study should normally expect to complete the piano proficiency examination by the end of four semesters of study	4 or as needed
2. Music Theory: 370, 371, 372, and choice of MUS 572 or 573	9
3. Conducting: MUS 358	2
4. Electives	13
5. Senior Recital: the successful completion of a solo recital must be completed for graduation.	1
Subtotal: Instrument Concentration	28

Concentration in Piano

1. All music majors must pass a piano proficiency examination. Piano majors work toward this goal as part of their keyboard study	0
2. Music Theory: MUS 370, 372, and choice of MUS 572 or 573	7
3. Piano Literature: MUS 522	3
4. Piano Pedagogy: MUS 566	3
5. Conducting: MUS 358	2
6. Electives	15
7. Senior Recital: the successful completion of a solo recital must be completed for graduation.	1
Subtotal: Piano Concentration	30

Concentration in Organ

1. All music majors must pass a piano proficiency examination. Organ majors work toward this goal as part of their keyboard study	0
2. Piano – one credit course MUP 101, MUP 201, each repeated once	4
3. Music Theory: MUS 370, 372, and choice of MUS 572 or 573	7
4. Organ Literature: MUS 521	3
5. Conducting: MUS 358	2
6. Electives	14
7. Senior Recital: the successful completion of a solo recital must be completed for graduation.	1
Subtotal: Organ Concentration	30

Concentration in Voice

1. All music majors must pass a piano proficiency examination and should schedule, in consultation with their advisor, a suitable course each semester until this requirement is completed. Students with little or no prior piano study should normally expect to complete the piano proficiency examination by the end of four semesters of study	4 or as needed
---	----------------

2. Music Theory: MUS 370, 372, and choice of MUS 572 or 573	7
3. Foreign Language – Select two languages from Italian, French, or German and pass the third semester course of one language (or demonstrate equivalent competence) and the second semester course of another language (or demonstrate equivalent competence); or from these same three languages, pass the second semester course of one language (or demonstrate equivalent competence), the second semester course of a second language (or demonstrate equivalent competence) and the first semester of a third language (or demonstrate equivalent competence)	0-19
4. Foreign Language Vocal Diction: MUS 120 (two semesters)	2
5. Vocal Solo Literature: MUS 520	3
6. Conducting: MUS 358	2
7. Opera Workshop: MUC 196 (two semesters)	2
8. Movement for Singers: MUC 197	1
9. Opera Practicum: MUC 198 (two semesters)	2
10. Electives	6-8
11. Senior Recital: the successful completion of a solo recital must be completed for graduation.	1
Subtotal: Voice Concentration	20-48
TOTAL HOURS:	120

Requirements for the BACHELOR OF MUSIC IN MUSIC EDUCATION

The major in music education is the joint concern of the School of Music in the College of Fine Arts and the Department of Curriculum and Instruction in the College of Education. Admission to the program is granted only after the successful completion of an audition in the student's performance area. In addition to completing the required courses, the student must present a half-recital or the equivalent on the major instrument or in voice during or after the sixth semester of study.

Music education majors who wish to receive a teaching certificate must meet the certification requirements of the College of Education, as well as the requirements for the College of Fine Arts. To qualify for student teaching and state teacher certification, a student must be officially admitted into the Teacher Education Program. Certification also requires successful completion of the NTE/Praxis II and a one-year paid internship. Additional information on TEP, NTE/Praxis II, certification and internship is outlined in the *College of Education* section of this Bulletin.

University Studies Requirements Hours

See "University Studies Program" on pages 83-87 for the complete University Studies requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill University Studies areas. Students should work closely with their advisor to complete the University Studies Program requirements.

Oral Communication

MUS 262 and 264	
or	
MUS 263 and 265	6

Social Sciences

*PSY 100 plus one other course in a separate discipline as required by University Studies	7
---	---

Humanities

HIS 104/105 6
 *PSY 100 required for certification.

Professional Education Requirements

Hours

EDP 202 Human Development and Learning 3
 EDP 203 Teaching Exceptional Learners
 in Regular Classrooms 3
 EPE 301 Education in American Culture 3
 EDC 377 Student Teaching in Music 12
 Computer Competency: EDC 317 or equivalent 0-1

Subtotal: Professional Education 21-22

Music Requirements – General

Hours

Recital Attendance: (four courses – zero credit –
 completed satisfactorily) 0
 Music Theory: MUS 170, 171, 172, 173, 270, 271,
 272, 273, 371, 372 20
 Music History: MUS 203, 302, 303 9
 Performance: MUP in major performance area 12
 Senior Recital: the successful completion of one half
 a solo recital must be completed for graduation.
 Ensembles (one of which must be
 a chamber music ensemble): 6
 Electives (excluding ensemble): 6

Subtotal: General Major Requirements 53

**Music Requirements –
 Major Performance Areas**

Depending on the area of interest, the student must select one of the major performance areas below:

Major Performance Area – Vocal

Hours

A. Diction: MUS 120 (two semesters) 2
 B. All music majors must pass a piano proficiency examination and should schedule, in consultation with their advisor, a suitable course each semester until this requirement is completed. Students with little or no prior piano study should normally expect to complete the piano proficiency examination by the end of four semesters of study. Music Education majors should pass the piano proficiency examination at least two semesters before student teaching. 4 or as needed
 C. Music Education: MUS 262, 264, 360,
 361, 362 15
 D. Secondary Instruments—choose **three** of the following:
 MUC 157, MUC 158, MUC 161,
 MUC 163 3

Subtotal: Vocal Performance Area 24

Major Performance Area – Keyboard

Hours

A. All music majors must pass a piano proficiency examination. Keyboard majors work towards this goal as part of their keyboard study. Music education majors should pass the piano proficiency exam at least two semesters before student teaching.
 B. Minor Performance: MUP 102, 202 3
 A voice proficiency test must be passed prior to student teaching.
 C. Pedagogy and Literature—select **one** of the following: MUS 522, 523, 566 3
 D. Music Education: MUS 262, 264, 360,
 361, 362 15
 E. Secondary Instruments—choose **three** of the following:
 MUC 157, MUC 158, MUC 161,
 MUC 163 3

Subtotal: Keyboard Performance Area 24

**Major Performance Area – Woodwinds,
 Brass, Strings, Percussion**

Hours

A. All music majors must pass a piano proficiency examination and should schedule, in consultation with their advisor, a suitable course each semester until this requirement is completed. Students with little or no prior piano study should normally expect to complete the piano proficiency examination by the end of four semesters of study. Music Education majors should pass the piano proficiency examination at least two semesters before student teaching. 4 or as needed
 B. Secondary Instruments
Brass, Woodwind and String majors: Choose five hours from MUC 158, 161, and 163, **plus** one hour of MUC 157, 161, and 163 6
Percussion majors: Take two hours each of MUC 158, 161, and 163 6
 C. Music Education: MUS 263, 265, 360,
 363, 365 15
**Subtotal: Woodwinds, Brass, Strings,
 Percussion Performance Area 25**
TOTAL HOURS: 120

Minor in Music

Students from any college may complete a minor in music, selecting either an emphasis in theory/history or performance. Such a minor consists of at least 18 hours of course work in music. In the theory/history emphasis, six to nine hours of music theory, six to nine hours of music history, and three hours of music performance are required. In the performance emphasis, eight hours of performance instruction, four hours of appropriate ensemble, and six hours of music history or theory are required. A successful audition is required for private performance study in the designated area (level of performance expectation is that of entering freshman music major). The course requirements are as follows:

Minor in Music: Music Theory and History

1. **Music Theory** (six to nine hours)
 Students should choose from:
 MUS 174 Theory for Non-Music Majors 3
 MUS 170/171 Theory I: Elementary Aural
 and Written Theory 4
 (Theory placement examination or MUS 174 is a prerequisite)
 MUS 172/173 Theory I: Elementary Aural
 and Written Theory 4
 (MUS 170/171 are prerequisites)
 2. **Music History** (six to nine hours)
 Students should choose from:
 MUS 100 Introduction to Music 3
 MUS 201 Music in Western Culture to 1700 3
 MUS 202 Music in Western Culture, 1700 to Present ... 3
 MUS 203 History of Music I 3
 MUS 206 American Music 3
 MUS 220 Symphonic Music 3
 MUS 221 Survey of Vocal Music:
 Opera, Art Song, Choral Music 3
 MUS 300 History of Jazz 3

MUS 301 Appalachian Music 3
 MUS 302 History of Music II 3
 MUS 303 History of Music III 3
 MUS 330 Music in the World (Subtitle required) 3

3. Performance (three hours)

Students may choose class or private performance instruction (one to two hours) or ensemble (one to two hours).

Minor in Music: Performance

1. **Performance Study** (12 hours)
 Performance instruction (eight hours) – four semesters, sequential enrollment in MUP courses at appropriate level; two hours per semester.
 Ensemble (four hours) in appropriate ensemble.
 2. **Music History and Theory** (six hours)
 Courses to be chosen from the following:
 MUS 174 Theory for Non-Music Majors 3
 MUS 170/171 Theory I: Elementary Aural
 and Written Theory 4
 (Theory placement examination or MUS 174 is a prerequisite)
 MUS 172/173 Theory I: Elementary Aural
 and Written Theory 4
 (MUS 170/171 are prerequisites)
 MUS 100 Introduction to Music 3
 MUS 201 Music in Western Culture to 1700 3
 MUS 202 Music in Western Culture, 1700 to Present ... 3
 MUS 203 History of Music I 3
 MUS 206 American Music 3
 MUS 220 Symphonic Music 3
 MUS 221 Survey of Vocal Music:
 Opera, Art Song, Choral Music 3
 MUS 300 History of Jazz 3
 MUS 301 Appalachian Music 3
 MUS 302 History of Music II 3
 MUS 303 History of Music III 3
 MUS 330 Music in the World (Subtitle required) 3

Note: Some variation in the above courses is possible, with written approval from the Director of Undergraduate Studies, School of Music. The availability of the minor in music performance is dependent on sufficient time within the appropriate instructor's designated teaching load.

DEPARTMENT OF THEATRE

The Department of Theatre envisions itself as a community of artists and scholars working collectively toward the study, practice, and development of theatre art. Our agenda is to promote the idea of theatre as social microcosm, as a civilizing and collaborative venture dedicated to bringing out the best in each participant. While curricular and cocurricular activities extend across the whole range of theatre, special opportunities exist for those interested in acting, directing, design or technical theatre, and management.

**Requirements for the B.A. with a major
 in THEATRE**

The major in theatre must include the following:

College Requirements

Art, Music and/or Arts Administration 6
 plus 39 hours at 300-level or above
Subtotal: College Required Hours 6

University Studies Requirements Hours
See “University Studies Program” on pages 83-87 for the complete University Studies requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill University Studies areas. Students should work closely with their advisor to complete the University Studies Program requirements.

Progression Requirements

Students must receive 3.0 or higher in the premajor classes to progress from provisional major status.

Premajor Requirements	Hours
TA 115 Freshman Studio	8
TA 171 World Theatre I	3
Subtotal: Premajor Hours	11

Major Requirements

TA 215 Sophomore Studio	3
TA 260 Stagecraft	3
TA 265 Costume Construction	3
TA 267 Lighting and Sound Technology	3
TA 271 World Theatre II	3
TA 275 Stage Management	3
TA 315 Junior Studio: Acting Intensive or	
TA 316 Junior Studio: Design Intensive	3
TA 371 World Theatre III, 1800-1950	3
TA 387 Seminar in Dramatic Literature (Subtitle required)	3
TA 390 Theatre Practicum (repeat five times)	5
TA 415 Senior Studio	3
Subtotal: Major Hours	35

Electives

Students must choose at least one course from each category below. A total of 24 credits are required for graduation.

Practice and Performance

TA 300 Special Projects in Theatre (Subtitle required)	1-3
TA 326 Advanced Acting (Subtitle required)	3
TA 330 Theatre Directing I	3
TA 516 Playwriting	3
TA 526 Playwriting II	3
TA 530 Experiment in Directing (repeatable once)	3

Design and Technology

TA 361 Graphics for Theatre	3
TA 365 Costume Design	3
TA 367 Lighting Design	3
TA 368 Visual Storytelling	3
TA 374 Scene Design	3
TA 470 Advanced Project in Design (repeatable)	3

Theory and History

TA 384 Black Theatre Workshop	3
TA 471 World Theatre IV, 1950-Present	3
TA 485 French Theatre: Culture, Text and Performance	3
TA 486 Social Action Theatre	3
TA 584 Asian Theatre	3
TA 587 Gender and Performance (Subtitle required)	3

Related Experience/Electives

Students must complete nine hours of course credit related to but outside the College of Fine Arts. Courses used to fulfill University Studies Program electives may also be used to fulfill this requirement.

Subtotal: Related Experience/ Electives	6
TOTAL HOURS:	120

Minor in Theatre

Students from any college may choose to minor in theatre. This minor requires at least 21 hours of course work arranged as follows:

1. Prerequisites	Hours
TA 150 Fundamentals of Design and Production	3
TA 126 Acting I: Fundamentals of Acting	3
When appropriate, upper level courses may be substituted with the approval of the student’s advisor and the chairperson of the Department of Theatre.	

2. Performance/Production Experience	
TA 390 Theatre Practicum (repeat three times)	3

3. Elected Theatre courses (12 hours)	
Of these 12 hours, at least three hours must be at the 300 level or above.	

INTERDISCIPLINARY PROGRAMS

Requirements for the B.A. with a major in ARTS ADMINISTRATION

With the increase in the number of performing and visual arts facilities, arts councils and arts advocacy groups, there is a growing need for individuals with both artistic sensibilities and business acumen to work in these organizations. Through the arts administration program, students take classes in the disciplines of art, dance, music, and theatre, plus a wide range of courses related to the business management of nonprofit arts organizations. The program prepares students for entry-level management positions in arts organizations and for graduate study.

Admission

To be admitted into the Arts Administration Program as a major, an applicant must first:

1. be enrolled in the University of Kentucky;
2. complete 45 semester hours of course work;
3. have a minimum 2.8 cumulative grade-point average;
4. complete premajor core requirements (AAD 200 and 202, and one of the following: COM 181, COM 287, TA 225), plus ACC 201 and ECO 201 with a cumulative grade-point average of 3.0; and
5. submit an application form.

Students meeting these requirements will be accepted as majors in the program. Applications for admission must be submitted before the end of the semester prior to a student taking an upper division Arts Administration course.

Students who want to be a major, but have not met one or more of the above requirements will be designated as “premajors.” There is no application procedure for students to become Arts Administration premajors. Upon their request, premajors will be assigned Arts Administration advisors and folders will be created for them.

Students in arts administration must complete the following program requirements:

College Requirements

Art, Music or Theatre outside of AAD arts discipline	6
plus 39 hours at 300-level or above	

Subtotal: College Required Hours 6

University Studies Requirements Hours
See “University Studies Program” on pages 83-87 for the complete University Studies requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill University Studies areas. Students should work closely with their advisor to complete the University Studies Program requirements.

Courses marked with an asterisk (*) in the premajor, major and disciplinary track requirements may also be used to satisfy University Studies requirements.

Inference – Logic

STA 200 Statistics: A Force in Human Judgement	3
PHI 120 Introductory Logic	3

Oral Communication

COM 181 Basic Public Speaking or	
COM 287 Persuasive Speaking or	
TA 225 Vocal Production for the Stage I	3

Social Sciences

ECO 201 Principles of Economics I	3
plus one other USP offering	
	3

Humanities

Students are strongly recommended to choose from courses in arts disciplines complementary to their arts discipline.

Cross-Cultural

Students are strongly recommended to choose from courses in arts disciplines complementary to their arts discipline.

USP Electives

Students are strongly recommended to choose from courses in arts disciplines complementary to their arts discipline.

Premajor Requirements Hours

AAD 200 Arts Administration Communications	3
(prereq: completion of USP English requirements)	
AAD 202 Arts Administration Technologies I	3
ACC 201 Financial Accounting I	3
*ECO 201 Principles of Economics I	3
plus one of the following:	
*COM 181 Basic Public Speaking	3
*COM 287 Persuasive Speaking	3
*TA 225 Vocal Production for the Stage I	3

Subtotal: Premajor Hours 15

Major Requirements Hours

AAD 101 Arts Administration Professions	2
(2 semesters completed satisfactorily required)	
ACC 202 Managerial Uses of Accounting Information ...	3
ECO 202 Principles of Economics II	3
†AAD 310 Marketing the Arts	3

†AAD 399 Arts Administration Practicum	1
**AAD 402 Topics in Arts Administration (Subtitle required)	3
†AAD 499 Internship in Arts Administration	6
(A-H 502 Museum Studies II: Internship may substitute for 3 credits of AAD 499.)	

†Prereq: Completion of AAD 200, AAD 202 and one of the following: COM 181, COM 287, TA 225, or consent of instructor.

**Additional AAD 402 courses may be taken under

different subtitles as Directed Electives; may be repeated up to 12 credits.

Subtotal: Major Hours 30

In addition to the Major Requirements, majors must fulfill the requirements of one of the following arts discipline tracks: Art History, Art Studio, Music History, Music Performance, or Theatre.

Art History Track

Hours

- A-S 102 Visual Exploration I **or**
- A-S 103 Visual Exploration II 3-4

- Two of the following courses:
- A-H 104 Introduction to African Art
 - *A-H 105 Ancient Through Medieval Art
 - *A-H 106 Renaissance Through Modern Art 6
 - ART 191 Art Professions 1

At least **one** course from four of the five following groups:

Non-Western Art

- A-H 307 Ancient Near Eastern and Egyptian Art 3
- A-H 308 Studies in African Art
(Subtitle required) 3

Ancient and Medieval Art

- A-H 312 Studies in Greek Art
(Subtitle required) 3
- A-H 313 Studies in Roman Art
(Subtitle required) 3
- A-H 323 Studies in Medieval Art
(Subtitle required) 3

Renaissance and Early Modern Art

- A-H 334 Studies in Renaissance Art
(Subtitle required) 3
- A-H 335 Studies in Early Modern Art,
1500-1700 (Subtitle required) 3

18th and 19th Century Art

- A-H 339 Studies in Art 1700-1840
(Subtitle required) 3
- A-H 340 Studies in Art 1840-1914
(Subtitle required) 3
- A-H 342 Studies in American Art
(Subtitle required) 3

Modern Art

- A-H 341 Studies in 20th Century Art
(Subtitle required) 3
- A-H 342 Studies in American Art
(Subtitle required) 3
- A-H 343 History of Photography 3
- A-H 350 Contemporary Art 3

- plus:**
- A-H 501 Museum Studies I: Introduction 3
 - Art Education Elective (must be at the 500 level) 2-3

- plus** two of the following:
- A-H 525 Studies in Genres and Media
(Subtitle required) 3
 - A-H 526 Art and the Artist in Society
(Subtitle required) 3
 - A-H 527 Art Within Its Interdisciplinary Framework
(Subtitle required) 3
 - A-H 528 Topical Seminar in Art History
(Subtitle required) 3
 - A-H 555 Methods in Art History 3

Subtotal: Art History Hours 33-35

Art Studio Track

Hours

- A-S 102 Visual Exploration I 3
 - A-S 103 Visual Exploration II 4
- Two of the following courses:
- A-H 104 Introduction to African Art
 - *A-H 105 Ancient Through Medieval Art
 - *A-H 106 Renaissance Through Modern Art 6
 - ART 191 Art Professions 1
 - A-S 200 Studio I 3
 - A-S 215 Studio II 3
 - Two A-S 300-level studio courses 6
 - A-H 501 Museum Studies I: Introduction 3
 - One art history course at the 300 level or above 3
 - Art Education Elective
(must be 500 level or above) 2-3

Subtotal: Art Studio Hours 34-35

Music History Track

Hours

A placement test is required before students enroll in MUS 170 and MUS 171; those students who do not pass the placement test must first take MUS 174.

- MUS 170 Theory I – Elementary Aural Theory 2
- MUS 171 Theory I – Elementary Written Theory 2
- MUS 172 Theory I – Elementary Aural Theory 2
- MUS 173 Theory I – Elementary Written Theory 2
- MUS 001 Recital Attendance
(four semesters required) 0
- Performance 3
- Students may choose class or private performance instruction (one to two hours) or ensemble (one to two hours)
- MUS 540 Applications of Music Technology 3

Complete **either** Option A or Option B:

Option A

- Permission of instructor is required to enroll in MUS 203, MUS 302, MUS 303.
- MUS 203 History of Music I 3
 - MUS 302 History of Music II 3
 - MUS 303 History of Music III 3

- plus **nine** hours from:
- MUS 206 American Music 3
 - MUS 220 Symphonic Music 3
 - MUS 221 Survey of Vocal Music:
Opera, Art Song, Choral Music 3
 - MUS 222 History and Sociology of Rock Music 3
 - MUS 300 History of Jazz 3
 - MUS 301 Appalachian Music 3
 - MUS 330 Music in the World (Subtitle required) 3

Option B

- Choose **eighteen** hours from:
- MUS 206 American Music 3
 - MUS 220 Symphonic Music 3
 - MUS 221 Survey of Vocal Music:
Opera, Art Song, Choral Music 3
 - MUS 222 History and Sociology of Rock Music 3
 - MUS 300 History of Jazz 3
 - MUS 301 Appalachian Music 3
 - MUS 330 Music in the World (Subtitle required) 3

Subtotal: Music History Hours 32

Music Performance Track

Hours

A placement test is required before students enroll in MUS 170 and MUS 171; those students who do not pass the placement test must first take MUS 174.

- MUS 170 Theory I – Elementary Aural Theory 2

- MUS 171 Theory I – Elementary Written Theory 2
- MUS 172 Theory I – Elementary Aural Theory 2
- MUS 173 Theory I – Elementary Written Theory 2
- MUC Vocal or Instrumental Ensemble 4
- MUP Vocal or Instrumental Lessons
(four semesters, two hours per semester) 8
- MUS 001 Recital Attendance
(four semesters required) 0
- MUS 540 Applications of Music Technology 3

Complete **either** Option A or Option B:

Option A

- Permission of instructor is required to enroll in MUS 203, MUS 302, MUS 303.
- MUS 203 History of Music I 3
 - MUS 302 History of Music II 3
 - MUS 303 History of Music III 3

Option B

- Choose **nine** hours from:
- MUS 206 American Music 3
 - MUS 220 Symphonic Music 3
 - MUS 221 Survey of Vocal Music:
Opera, Art Song, Choral Music 3
 - MUS 222 History and Sociology of Rock Music 3
 - MUS 300 History of Jazz 3
 - MUS 301 Appalachian Music 3
 - MUS 330 Music in the World (Subtitle required) 3

Subtotal: Music Performance Hours 32

Theatre Track

Hours

Option A

- TA 126 Acting I: Fundamentals of Acting 3
- TA 150 Fundamentals of Design and Production 3
- TA 225 Vocal Production for the Stage I 3
- TA 387 Seminar in Dramatic Literature
(Subtitle required) 3
- TA 390 Theatre Practicum 2

Option A Hours 14

Option B

- TA 115 Freshman Studio 8
- TA 215 Sophomore Studio 3
- TA 390 Theatre Practicum 3

Option B Hours 14

Students in **both** Options complete the following courses:

- TA 275 Stage Management 3
- plus** two of the following:
- TA 171 World Theatre I 3
 - TA 271 World Theatre II 3
 - TA 371 World Theatre III, 1800-1950 3
 - TA 471 World Theatre IV, 1950-Present 3

- plus** one of the following:
- TA 260 Stagecraft 3
 - TA 265 Costume Construction 3
 - TA 267 Lighting and Sound Technology 3

- plus** one of the following Practice and Performance courses:
- TA 300 Special Projects in Theatre
(Subtitle required) 3
 - TA 315 Junior Studio: Acting Intensive 3
 - TA 326 Advanced Acting (Subtitle required) 3
 - TA 330 Theatre Directing I 3
 - TA 516 Playwriting 3
 - TA 526 Playwriting II 3
 - TA 530 Experiment in Directing 3

plus one of the following Design and Technology courses:

TA 316 Junior Studio: Design Intensive	3
TA 361 Graphics for Theatre	3
TA 365 Costume Design	3
TA 367 Lighting Design	3
TA 368 Visual Storytelling	3
TA 374 Scene Design	3
TA 470 Advanced Project in Design	3

plus one of the following Theory and History courses:

TA 384 Black Theatre Workshop	3
TA 471 World Theatre IV, 1950-Present	3
TA 485 French Theatre: Culture, Text and Performance	3
TA 486 Social Action Theatre	3
TA 584 Asian Theatre	3
TA 587 Gender and Performance (Subtitle required)	3
Subtotal: Theatre Hours	35

Directed Electives **Hours**
 Nine credits chosen in consultation with the student's academic advisor from the following areas:

1. AAD 402 Topics in Arts Administration
(Subtitle required) 3
 May be repeated to a maximum of 12 credit hours when identified by different subtitles. Must be different subtitle than that used to meet Arts Administration Core Requirement.
2. Courses from the College of Business and Economics.
3. Courses from the College of Communications and Information Studies.
4. Courses from an arts disciplines, such as architecture, art history, art studio, dance, English, music history, music performance, and theatre, outside of the student's arts discipline track.

Directed electives may not be used to meet University Studies requirements.

Subtotal: Directed Electives **9**

Free Electives

In addition to meeting their University Studies and major requirements, students must earn 6 credits in any area(s) of their choosing.

Subtotal: Free Electives **6**

TOTAL HOURS: **121**

Interdisciplinary Minor in the Arts

For Students outside the College

Any student whose major concentration is outside the College of Fine Arts may choose to minor in the arts, an academic program that cuts across disciplinary lines. This minor requires at least 24 hours of course work, arranged as follows:

Prerequisites (9 hours)	Hours
ART 100 Introduction to Art	3
MUS 100 Introduction to Music	3

Note: When appropriate, upper level courses may be substituted with the approval of the student's advisor and the Dean of the College of Fine Arts.

Elected Courses (15 hours)

Of these 15 hours, students must take at least six hours in each of two different disciplines (art, music, or theatre).

Performance and/or Studio Experience

Students must have performance and/or studio experience within the college in at least one of the arts, whether or not for academic credit.

For Students within the College

Any student whose major emphasis lies within the College of Fine Arts may choose to minor in the arts by selecting at least 24 hours of course work in the College of Fine Arts (art, music, or theatre) outside the major. The minor must include at least nine hours of credit in each of the disciplines outside the major department or school. No more than six hours of course work used as "related work" for the major may be used toward the minor.

Robert J. Rabel, Ph.D., is Director of the Gaines Center for the Humanities.

The Gaines Center for the Humanities is distinctive among special programs at state universities. Designed to enrich the upper levels of undergraduate study and thereby to offer exceptional opportunities for dedicated students, the programs of the center are open on a competitive basis to any student interested in the humanities, regardless of particular major or intended profession.

Activities of the Gaines Center are developed to encourage participation by a large segment of the university population. Conferences and lectures, informal seminars and discussions are open to all those interested. While the center's principal purpose is to enhance an appreciation of the humanities, its programs are arranged to stimulate inquiry about the relationship of the humanities to other broad areas of investigation, such as the sciences, the arts, and the professions.

The John R. and Joan B. Gaines Fellowships in the Humanities

A major feature of the Gaines Center for the Humanities is the Gaines Fellowship Program. The Gaines Fellowships are given in recognition of outstanding academic performance, demonstrated independent study, an interest in public issues, and a desire to enhance understanding of the human condition.

The fellowships are awarded in the student's sophomore year for tenure in the junior and senior years. Renewal in the senior year is contingent upon satisfactory academic performance.

All Gaines Fellows are required to take a specially-designed, four-credit-hour seminar in the humanities (HMN 301 and HMN 302) during both semesters of the junior year. Moreover, each Fellow in the senior year completes an undergraduate thesis (HMN 497) under the supervision of three faculty members and with a credit of six to fifteen hours.

The completion of this program satisfies the University Studies requirement in cross-disciplinary work.

Gaines Fellows also participate in all social and cultural activities sponsored by the Gaines Center.

Eligibility

Any student enrolled at the University of Kentucky, or any student enrolled in a community college who intends to transfer to the University of Kentucky, is eligible to apply.

The Thomas D. Clark Lectureship in the Humanities

Created to bring eminent scholars and authors to the campus for an extended residency, the Thomas D. Clark Lectureship stipulates that the recipient will offer two or three public lectures to be published by the University Press of Kentucky, and will lead several sessions of a special humanities seminar related to the Lecturer's professional field of interest. Juniors and seniors, selected on the basis of written application, participate in this seminar.

The Mary C. Bingham Seminar in the Humanities

Offered every other year and open on a competitive basis to any student in the third year of study, this seminar combines course work with a special four-week field trip either in this country or abroad (three credit hours). The seminar is concerned with the comparative study of a humanities subject that benefits from site analysis (e.g., cities, landscape). Conducted by a faculty member whose proposal has been selected in competition, the seminar offers up to a \$1,000 summer travel scholarship to each student participant.

Edward T. Breathitt Undergraduate Lectureship in the Humanities

The Edward T. Breathitt Lectureship is the first undergraduate lectureship established at an American university. It is named in honor of an eminent Kentuckian and an outstanding alumnus of the University of Kentucky whose interest in higher education has been exceptional.

The lectureship is awarded to an undergraduate student whose qualities of mind and spirit have been expressed eloquently on one or more of the basic characteristics that distinguish the humanities as fields of study. They are: form, value, memory.

Any university faculty member may nominate a qualified upper level student from any discipline. Each nominee must submit a two-page prospectus describing the lecture topic (to be of the candidate's own choice) and a brief, tentative biography, as well as a personal resume and an additional letter of recommendation. The recipient receives a special award and an honorarium.

How to Apply

Students interested in any of these special educational opportunities should write or telephone:

**Gaines Center for the Humanities
232 East Maxwell Street
University of Kentucky
Lexington, KY 40506-0344
(859) 257-1537**

Jeannine Blackwell, Ph.D., is Dean of the Graduate School.

The University of Kentucky began offering graduate work in 1870, and awarding degrees in 1876. The Graduate School was organized as a distinct unit in 1912.

The Graduate School is concerned with advanced study and research carried on by the faculty and students of all colleges and departments. Under it, the total graduate resources of the University are merged in order to promote the achievement of knowledge in an atmosphere of free and lively inquiry.

More information is available on the Web at: www.gradschool.uky.edu/.

GRADUATE DEGREES

Graduate work is offered in most colleges in the University. The following advanced degrees are conferred:

DOCTOR OF EDUCATION
DOCTOR OF MUSICAL ARTS
DOCTOR OF PHILOSOPHY
DOCTOR OF SCIENCE
MASTER OF ARCHITECTURE
MASTER OF ARTS
MASTER OF ARTS IN EDUCATION
MASTER OF ARTS IN INTERIOR DESIGN,
MERCHANDISING AND TEXTILES
MASTER OF ARTS IN TEACHING WORLD LANGUAGES
MASTER OF BUSINESS ADMINISTRATION
MASTER OF CIVIL ENGINEERING
MASTER OF EDUCATION
MASTER OF ENGINEERING
MASTER OF FINE ARTS
MASTER OF HEALTH ADMINISTRATION
MASTER OF HISTORIC PRESERVATION
MASTER OF MINING ENGINEERING
MASTER OF MUSIC
MASTER OF PUBLIC ADMINISTRATION
MASTER OF PUBLIC HEALTH
MASTER OF PUBLIC POLICY
MASTER OF REHABILITATION COUNSELING
MASTER OF SCIENCE
MASTER OF SCIENCE IN ACCOUNTING
MASTER OF SCIENCE IN AGRICULTURE
MASTER OF SCIENCE IN ATHLETIC TRAINING
MASTER OF SCIENCE IN BIOMEDICAL ENGINEERING
MASTER OF SCIENCE IN BIOSYSTEMS AND
AGRICULTURAL ENGINEERING
MASTER OF SCIENCE IN CAREER, TECHNICAL, AND
LEADERSHIP EDUCATION
MASTER OF SCIENCE IN CHEMICAL ENGINEERING
MASTER OF SCIENCE IN CIVIL ENGINEERING
MASTER OF SCIENCE IN COMMUNICATION
DISORDERS
MASTER OF SCIENCE IN EDUCATION
MASTER OF SCIENCE IN ELECTRICAL ENGINEERING
MASTER OF SCIENCE IN FAMILY STUDIES
MASTER OF SCIENCE IN FORESTRY
MASTER OF SCIENCE IN HEALTH PHYSICS
MASTER OF SCIENCE IN INTERIOR DESIGN,
MERCHANDISING AND TEXTILES

MASTER OF SCIENCE IN LIBRARY SCIENCE
MASTER OF SCIENCE IN MANUFACTURING
SYSTEMS ENGINEERING
MASTER OF SCIENCE IN MATERIALS
SCIENCE AND ENGINEERING
MASTER OF SCIENCE IN MECHANICAL
ENGINEERING
MASTER OF SCIENCE IN MINING ENGINEERING
MASTER OF SCIENCE IN NURSING
MASTER OF SCIENCE IN NUTRITIONAL SCIENCES
MASTER OF SCIENCE IN PHYSICAL THERAPY
MASTER OF SCIENCE IN PHYSICIAN ASSISTANT
STUDIES
MASTER OF SCIENCE IN RADIOLOGICAL
MEDICAL PHYSICS
MASTER OF SOCIAL WORK
PROFESSIONAL MASTER OF BIOMEDICAL
ENGINEERING
SPECIALIST IN EDUCATION

The degree of Doctor of Philosophy is offered with major work in the following fields: agricultural economics, anatomy and neurobiology, animal sciences, anthropology, biology, biomedical engineering, biosystems and agricultural engineering, business administration, chemical engineering, chemistry, civil engineering, communication, computer science, crop science, economics, educational and counseling psychology, electrical engineering, English, entomology, family studies, geography, geology, gerontology, studies in higher education, history, materials science and engineering, mathematics, mechanical engineering, microbiology, mining engineering, molecular and biomedical pharmacology, molecular and cellular biochemistry, music, nursing, nutritional sciences, pharmaceutical sciences, philosophy, physics and astronomy, physiology, plant pathology, plant physiology, political science, psychology, public administration, rehabilitation sciences, social work, sociology, soil science, Spanish, statistics, toxicology, and veterinary science.

Multidisciplinary Graduate Degree Programs

There are three multidisciplinary graduate degree programs administered in the Graduate School: Biomedical Engineering, Diplomacy and International Commerce, and Public Administration. Students interested in information on these programs should contact the program directors at the addresses listed below.

**Dr. David Puleo, Director
Biomedical Engineering
207 Rose Street
University of Kentucky
Lexington, KY 40506-0070**

**Carey Cavanaugh, Ambassador (ret.)
The Patterson School of Diplomacy
and International Commerce
455 Patterson Office Tower
University of Kentucky
Lexington, KY 40506-0027**

**Dr. Ed Jennings, Director
James W. Martin School
of Public Policy and Administration
Public Administration/
Health Administration
419 Patterson Office Tower
University of Kentucky
Lexington, KY 40506-0027**

ORGANIZATION OF THE GRADUATE SCHOOL

The Graduate Faculty consists of the Dean of the Graduate School and all persons appointed thereto by the President of the University. As the chief University agency for the promotion of the ideals of graduate study, it determines the policies of the Graduate School and makes recommendations to the University Senate on such matters as require the approval of that body. All rules affecting graduate work and the inauguration of new graduate programs must be approved by the Graduate Faculty.

The Dean. The Dean of the Graduate School is charged with the administration of the policies adopted by the Graduate Faculty and the University Senate relating to graduate studies.

The Graduate Council is composed of 18 members and the Dean of the Graduate School, who serves as chair. There are 16 faculty representatives and two student representatives. Associate deans serve in a nonvoting, ex officio capacity.

The Graduate Council approves or disapproves proposals concerning courses offered for graduate credit, and advises and lends assistance to the Dean of the Graduate School in his execution of policies and regulations determined by the Graduate Faculty.

Directors of Graduate Studies. A Director of Graduate Studies is appointed for each program of graduate study. Among other duties, each director serves as advisor to students majoring in his or her area.

ADMISSION

Students seeking admission to a degree program in the Graduate School must hold a baccalaureate degree from a fully accredited institution of higher learning. An overall undergraduate grade-point average of 2.75 and 3.0 on all graduate work is required by the Graduate School. Individual departments may require higher grade-point averages.

All applicants for admission to degree programs in the Graduate School must submit official scores on the verbal, quantitative and analytical writing portions of the Graduate Record Examination, except programs with approved alternate requirements (Accounting, Business Administration, Health Administration, and Public Health may substitute the GMAT).

New students applying for admission must have official transcripts sent directly to the Graduate School by each institution of higher learning previously attended. A second set of transcripts should be sent to the applicant's program of interest.

International applicants must meet the requirements listed above, as well as the English proficiency requirement; additional details are available in *The Graduate School Bulletin*.

Domestic applicants (U.S. citizens or resident aliens) must pay a \$50 application fee; for international applicants, the fee is \$65. The preferred method of payment is by credit card. Go to www.gradschool.uky.edu/gsappplication.html and click on "Pay the Application Fee." If necessary, you may pay by check or money order made payable to The University of Kentucky. The mailing address is:

**The Graduate School
Office of Admissions
The Gillis Building
University of Kentucky
Lexington, KY 40506-0033**

Complete applications must be submitted no later than one month before the beginning of the term the applicant intends to begin graduate work (six months for international applicants). Students should refer to the *University Calendar* in the front of this Bulletin for important dates.

University Scholars Program (Combined Doctoral or Master's/ Bachelor's Degree Program)

At the University of Kentucky there are some particularly gifted and highly motivated students whose well-defined academic and career plans include graduate study. The University Scholars program offers these students the opportunity and the challenge of integrating their undergraduate and graduate courses of study in a single continuous program culminating in both a baccalaureate and doctoral or master's degree.

Requirements for this program are listed in the *Special Academic Programs* section of this Bulletin.

Graduating Seniors as Part-Time Graduate Students

A senior at the University of Kentucky lacking no more than six credit hours for graduation and having an undergraduate grade-point average of at least 2.75 on all work attempted may register in a degree program in the Graduate School with the consent of his or her college dean, the Director of Graduate Studies, and the Dean of the Graduate School.

The total load of such a student may not exceed 12 credit hours. Graduate credit will be allowed for each credit hour of graduate work beyond the six or fewer credit hours needed to complete undergraduate requirements. Requirements for the undergraduate degree must be completed during the semester in which the student is allowed to register for part-time graduate work. A student applying for admission to the Graduate School under these conditions must fill out a petition form listing the course or courses to be taken in order to complete the undergraduate requirements. Petition forms are available in the Graduate School.

Conditional Admission

Students wishing to pursue a higher degree who are temporarily ineligible for regular graduate admission status may be recommended by the Director of Graduate Studies for conditional admission status for a maximum of one full-time semester. Students should refer to *The Graduate School Bulletin* for further information.

Post-Baccalaureate Graduate Students (Nondegree-Seeking Students)

Students who hold a baccalaureate degree and who wish to pursue graduate study **without a degree objective** may apply for admission as post-baccalaureate graduate students. An overall undergraduate grade-point average of 2.5 or better and 3.0 on all previous graduate work is required by the Graduate School for admission to post-baccalaureate status. Refer to *The Graduate School Bulletin* for further information.

Advanced Degrees for Faculty Members

Members of the faculty, except those in the Community College System, having a rank higher than that of instructor may not be considered as candidates for degrees in the discipline in which they are employed and hold academic rank.

DUAL DEGREE PROGRAMS

The University of Kentucky offers a number of dual degree programs; such programs require separate admission to each discipline involved. Dual degree programs currently in place are: J.D./M.B.A., J.D./M.P.A., M.D./M.B.A., M.D./M.P.H., Pharm.D./M.B.A., Pharm.D./M.P.A., Pharm.D./M.P.H., Pharm.D./M.S. in Economics, B.S. in Engineering/M.B.A., and B.S. in Engineering/M.P.A. Combined study leading to both the M.D. and Ph.D. is also available. For

more information on the dual degree programs, see *The Graduate School Bulletin*.

JOINT AND COOPERATIVE DOCTORAL PROGRAMS

Cooperative doctoral programs in education are offered between the University of Kentucky and other state universities: Eastern Kentucky University, Morehead State University, Murray State University, and Western Kentucky University. These programs permit qualified candidates to complete approximately one year of graduate work above the master's degree at the cooperating university, and the work of each candidate is directed by a joint faculty committee from both institutions.

Cooperative doctoral programs in musicology, physics, and higher education are offered between the University of Kentucky and the University of Louisville; a cooperative program in geology between the University of Kentucky and Eastern Kentucky University; and a cooperative program in history between the University of Kentucky and Western Kentucky University. A cooperative doctoral program in rehabilitation sciences is offered between the University of Kentucky, Eastern Kentucky University, Murray State University, and Western Kentucky University. The University of Kentucky and the University of Louisville share a joint Ph.D. program in Social Work.

For more information on joint and cooperative programs, see *The Graduate School Bulletin*.

INDEPENDENT STUDY PROGRAMS (Correspondence Courses)

No graduate credit is given for courses taken by correspondence.

REGISTRATION AND CLASSIFICATION

All students expecting graduate credit must be enrolled in the Graduate School. Graduate students will conform to the general registration schedule of the University and may not enter later than the last allowable date set by the University Registrar.

Before registering, a graduate student must obtain his or her advisor's approval of the proposed program.

ASSISTANTSHIPS, FELLOWSHIPS, STUDENT SUPPORT

Financial assistance is available in the form of assistantships and fellowships. An **assistantship** is an appointment to specified teaching or research duties. A **fellowship** is a non-service award made to superior students to assist in the pursuit of an advanced degree.

Assistantships

More than 1,500 teaching and research assistantships are available from departments and other units of the University. In addition to an assistantship stipend, full or partial tuition scholarships are available for most assistantship holders. University-provided health insurance is offered for full-time assistantships.

The majority of assistantships are awarded for the academic year. Students interested in an assistantship should notify the appropriate Director of Graduate Studies by January for the next academic year; later applicants have a reduced chance of obtaining an assistantship. Most assistantship decisions are made by April for the coming academic year.

Notification of an assistantship comes from the program. Contact the Director of Graduate Studies in the program you seek to enter regarding the availability of positions or the status of assistantship offers. For more information on assistantships, visit the Web at: www.gradschool.uky.edu/fellowship/assistantships.html.

Fellowships

Non-service fellowships are available in all areas of graduate work. The majority of these fellowships include a stipend as well as a tuition scholarship and university-provided student

health insurance. Duration may be from one to three years, depending on fellowship type. While many fellowships are formally awarded by the Graduate School, nominations for most fellowships are made by the program in which a student seeks to enroll.

Fellowships are awarded for the academic year. Departments make fellowship nominations by February for the next academic year, so students interested in a fellowship are strongly urged to contact the appropriate Director of Graduate Studies no later than January 15 for the next academic year. Notification of fellowship awards generally comes from the Graduate School before April 15.

Awards are sometimes offered before an applicant is officially admitted to the Graduate School; all awards offered are contingent upon admission. Post-baccalaureate (nondegree) students are not eligible for fellowship consideration, or for those tuition scholarships that accompany most assistantships.

Student Support

Funds are available to students enrolled in graduate programs for assistance with expenses relating to dissertation or thesis research, as well as for travel to present research at professional meetings. Application materials are available on the Web at: www.gradschool.uky.edu/fellowship/supportfunding.html.

Lori Gonzales, Ph.D., is Dean of the College of Health Sciences. Sharon Stewart, Ed.D., is Associate Dean for Research. Peter Berres is Assistant Dean for Student Affairs.

The College of Health Sciences is one of the six health professions colleges which, with the University Hospital, constitute the health science campus of the University of Kentucky.

The College of Health Sciences is composed of the Department of Clinical Sciences and the Department of Rehabilitation Sciences.

Today health science professionals are assuming greatly expanded and increasingly complex duties and responsibilities as essential members of the health care team. They work in a variety of delivery settings and have key responsibilities for the care and health of patients, clients, and communities. The UK College of Health Sciences, established in 1966, was among the first colleges to offer programs for students interested in these rapidly developing health professions. The college strives continually to revise its offerings in keeping with society's evolving expectations and health care needs.

Undergraduate Programs in Health Sciences

The University of Kentucky grants the following degree in the College of Health Sciences:

- Bachelor of Health Sciences

Students pursuing the Bachelor of Health Sciences may select from these majors: clinical laboratory sciences, clinical leadership and management, and communication disorders.

ADMISSIONS PROCEDURES

Baccalaureate Programs

Baccalaureate programs in the College of Health Sciences are divided into preprofessional and professional programs. A **preprofessional program** is comprised of courses prerequisite to professional program content as well as University Studies requirements. Freshman and transfer students who have initially not completed prerequisites for entrance into a professional program complete only the first step of the application process – application to the University of Kentucky. Freshman applicants to the college will be admitted if they meet University entrance requirements.

A **professional program** is comprised of all courses and clinical experiences required for students who have applied for and have been accepted into professional programs. Consider-

ation for admission to the college's professional programs requires completion of prerequisite course work and completion of the professional application procedure.

Therefore, the admissions procedure for all undergraduate programs within the College of Health Sciences is a **two-step process**. Applicants must **first** be accepted by the University of Kentucky and **second** must apply for admission to a professional program approximately two semesters prior to completing prerequisites.

This selection procedure is necessary because of the limited space in the professional years of the health sciences programs.

Requirements for the first several years (pre-professional program) may be completed at the University of Kentucky, a community college, or another fully accredited college or university.

At the time of application to the professional program, the student should have completed the **prerequisites required for application** to the program he or she plans to enter, and have plans to complete **all prerequisites before actual enrollment** in the professional program.

It is essential that complete, accurate information be furnished on the application. Individuals seeking entry into the professional programs or those admitted to the programs through falsified or misleading information may be dropped from consideration or dismissed from the programs.

Persons not enrolled at the University of Kentucky must complete applications to both the University of Kentucky **and the professional program**. Application materials are available from:

Clinical Laboratory Sciences

www.mc.uky.edu/cls/

Clinical Leadership and Management

www.mc.uky.edu/clm/

Communication Disorders

www.mc.uky.edu/commdisorders/

Deadlines and specific application instructions are listed for each program in the descriptions which follow. Additional information for each program is available on their respective Web sites.

Graduate Programs

Students who want to earn advanced degrees in health sciences fields must be admitted to the University of Kentucky Graduate School. For complete information, students should refer to *The Graduate School Bulletin* or contact:

Graduate School Admissions

201 Gillis Building
University of Kentucky
Lexington, KY 40506-0033
(859) 257-4613
fax: (859) 323-5986
www.research.uky.edu/gs/

The College of Health Sciences offers graduate programs in the following areas: athletic training, clinical nutrition, communication disorders, health physics, physical therapy, physician assistant studies, radiological medical physics, and rehabilitation sciences.

APPLICATION DEADLINES FOR UNDERGRADUATE PROGRAMS IN HEALTH SCIENCES

Professional Program Applicants (Students who have completed prerequisites at UK, community colleges, or other accredited colleges or universities)

Applications are available on the program Web site (see below):

	Fall	Spring	Summer
Clinical Laboratory Sciences www.mc.uky.edu/cls/			April 1
Clinical Leadership and Management www.mc.uky.edu/clm/	Aug. 1	Dec. 1	
Communication Disorders www.mc.uky.edu/commdisorders/	Feb. 1		

PROBATION AND SUSPENSION

The probation and suspension rules for professional students in the College of Health Sciences appear under *Academic Requirements* in the front section of this Bulletin.

NOTICE TO ALL APPLICANTS

Some courses will require a period of training off campus in community facilities outside of Lexington.

ACADEMIC ADVISING

Academic advising is available from the College of Health Sciences. Students should report to the Office of Student Affairs to be assigned an advisor. Detailed information on each program is detailed on each program's Web site.

For academic advising, contact:

Corrie Scott
Academic Advisor
(859) 323-1100 ext. 8-0546
cyscot1@uky.edu

BACCALAUREATE PROGRAMS

College Graduation Requirements

To graduate with a **Bachelor of Health Sciences** degree from the College of Health Sciences, a student must (1) satisfy University Studies requirements and (2) complete a minimum of 120 semester hours, including required courses in both the preprofessional and professional programs.

DEPARTMENT OF CLINICAL SCIENCES

B.H.S. with a major in CLINICAL LABORATORY SCIENCES

The mission of the Division of Clinical and Reproductive Sciences is to help the College of Health Sciences achieve its mission through creative leadership and productivity in clinical laboratory science education, research, and service.

The undergraduate Clinical Laboratory Sciences (CLS) program at the University of Kentucky prepares Clinical Laboratory Scientists who perform laboratory tests that aid in the prevention, diagnosis and treatment of disease. CLS graduates receive training in four major disciplines of the clinical laboratory: immunohematology (blood-banking), clinical chemistry, hematology, and microbiology. Additional course work includes phlebotomy, CLS education or clinical education, and laboratory management. CLS graduates are employed in a variety of health care settings including hospital and private laboratories, clinics, pharmaceutical companies, research institutions, the armed forces, public health

centers, and veterinary clinics. In addition to performing clinical laboratory tests, CLS graduates also serve as consultants, managers, sales and technical representatives, and educators.

Admission

Admission into the Clinical Laboratory Sciences professional program requires:

- minimum cumulative grade-point average of 2.75 for all courses taken at institutions of higher education;
- three professional letters of recommendation;
- personal interview scores based on interviews with two CLS faculty members. The interview will focus on identifying the applicant's strengths, commitment to, and knowledge of the profession;
- completion of the preprofessional requirements.

The **application deadline** for the 3 + 1 Program is April 1.

Preprofessional Requirements

The preprofessional program consists of (1) courses that fulfill the University Studies Program and (2) prerequisite courses required by the CLS professional program. The University Studies Program (USP) is a program of required subjects that all students enrolled at the University of Kentucky must complete in order to receive a baccalaureate degree. See "University Studies Program" on pages 83-87 for the complete University Studies requirements.

Prerequisite Course Requirements

- 2 semesters of general chemistry with laboratory
- 1 semester general microbiology with laboratory
- 1 semester of human physiology (or combined course in physiology and anatomy)
- 1 semester of statistical methods
- 1 semester of biochemistry (may take CLS 822 to fulfill this requirement)
- 1 semester of immunology (may take CLS 835 to fulfill this requirement)

Professional Course Requirements

CLS 832 Basic Clinical Chemistry	1
CLS 833 Basic Hematology	1
CLS 836 Laboratory Organization and Management	3
CLS 838 Basic Immunohematology	1
CLS 843 Advanced Clinical Hematology and Body Fluid Analysis	3
CLS 844 Advanced Clinical Chemistry	3
CLS 848 Molecular Techniques and Advanced Immunohematology	3
CLS 851 Basic Clinical Microbiology	1
CLS 856 Advanced Clinical Microbiology	4
CLS 860 Blood Collection	1
CLS 881 Immunohematology Practicum	5
CLS 882 Practicum in Clinical Chemistry	5
CLS 883 Practicum in Clinical Hematology	5
CLS 884 Practicum in Clinical Microbiology	5
CLS 890 Laboratory Investigation	3
CSC 528 Laboratory Techniques for Clinical Sciences Students	2
Subtotal: Professional Course Hours	46

3 + 1 Program

The 10-month CLS professional program is offered on the Lexington campus of the University of Kentucky and encompasses the fourth year of study in the baccalaureate degree program. The program provides sequential instruction in laboratory medicine for the student who has been well prepared in science and mathematics during the first three years of university study. Through lecture, laboratory, demonstrations and clinical practica, students are prepared for clinical practice in the modern, automated laboratory. Graduates are eligible to take national certification examinations as Clinical Laboratory Scientists/Medical Technologists.

The program begins in the summer prior to the final year of study. During the summer session, students are introduced to the clinical laboratory, and practice basic level clinical laboratory techniques in student laboratories. Students complete intense courses in the principles and practices of basic hematology and clinical chemistry. Students then complete practica in clinical chemistry and hematology laboratories while supported by faculty lectures and demonstrations in advanced topics in these disciplines. Clinical practica are structured to sequentially present increasingly complex tasks. Students take a management course in the fall that introduces them to laboratory structure and regulations.

Following winter break, students complete intense courses in the principles and practices of immunohematology and clinical microbiology. After completing lectures which cover basic practice in immunohematology and clinical microbiology, students complete practica in microbiology and immunohematology laboratories while supported by CLS faculty lectures and demonstrations. Concurrent with presentation of didactic materials and skills instruction, students integrate the knowledge that has been gained throughout the professional year by participating in an exploration of critical pathways and evidenced-based decision-making in the clinical laboratory.

Clinical practica may be completed at the University of Kentucky Hospital clinical laboratories and/or clinical laboratories throughout the state that have a current clinical affiliation agreement with the CRS Division in the College of Health Sciences. Throughout the year, students must attend classes on the Lexington campus, including all basic level instruction. Web courses for advanced level didactic courses that coincide with the clinical practica may also include some on-campus meetings.

Students holding baccalaureate degrees in a health-related science including biology, chemistry, biochemistry, medical biology, immunology, anatomy, physiology, nutritional sciences or health sciences education may enroll in the CLS professional program and earn a CHS certificate of completion. The required prerequisites must be completed before applying for admis-

sion. Upon successful completion of the 10-month professional program the student will receive a CHS Certificate of Completion in CLS and be eligible for a national registry examination.

Graduate Degrees in Clinical Sciences

The Clinical Sciences graduate programs offer a unique multidisciplinary masters and doctorate programs that address the rapidly changing health care environment and selected evolving clinical science disciplines. This program of study provides the opportunity for advanced education and career enhancement for health professionals in the clinical sciences. The master’s degree provides a foundation in advanced clinical sciences. Students may specialize in Reproductive Laboratory Sciences.

**B.H.S. with a major in
 CLINICAL LEADERSHIP AND
 MANAGEMENT**

Graduates of the Clinical Leadership and Management program earn a Bachelor of Health Sciences (B.H.S.) degree. The purpose of the program is to provide health care professionals with formal academic education and skills training needed to prepare them for leadership and management roles and responsibilities. The program offers a career ladder for professional advancement in the health sciences. Program graduates will be prepared to assume greater responsibilities at their current jobs, be better qualified for job promotions, and be positioned for graduate studies.

This program is intended for health care professionals who have an associate degree in a health-related discipline.

Historically, there have been limited educational options for associate degree trained health professionals who are interested in pursuing a baccalaureate degree in Kentucky. This degree completion program accommodates transfer students for many allied health disciplines including, but not limited to: radiological technology, respiratory therapy, dental hygiene, clinical labora-

tory technicians, and nursing. The program provides accessible course offerings for non-traditional students who may require evening and part-time classes. It is anticipated that graduates of the B.H.S. program in Clinical Leadership and Management will benefit from advanced knowledge and skills which will enhance their job/career, work environment and quality of life. Program graduates may also benefit their employers, health care facility, and patients.

For additional information, go to: www.mc.uky.edu/clm/.

Application Process and Requirements

The admissions process begins with an application to the University of Kentucky by December 1 for spring enrollment and August 1 for fall enrollment. Application must also be made directly to the CLM program. The CLM program uses rolling admissions once applicants are accepted by the University as a degree seeking student. Criteria for admission to the program includes: an Associate Degree, 2.0 GPA, and one year of work experience in a health related area. Academic advising and information about admissions is available from:

Corrie Scott
Office of Student Affairs
College of Health Sciences
University of Kentucky
111 Charles T. Wethington Building
Lexington, KY 40536-0200
cyscot1@uky.edu

All transfer credits to meet CLM program core courses and electives must receive prior approval by the CLM Program Director. For additional information about program content, e-mail: elizabethschulman@uky.edu.

The Curriculum

A total of 120 credits (including 39 program credits as listed below, University Studies Program and graduation requirements) are required to receive the Bachelor of Health Sciences degree from the University of Kentucky. The core curriculum of 39 credits includes:

CLM 241 Health and Medical Care Delivery Systems ...	3
CLM 405 Epidemiology and Biostatistics	3
CLM 350 Health Policy and Politics	3
CLM 351 Health Services Administration	3
CLM 354 Health Law	3
CLM 355 Financial Management of Health Care Institutions	3
CLM 452 Community and Institutional Planning for Health Services Delivery	3
CLM 840 Ethics in Health Practice	2
CLM 444 Leadership and Human Resource Management	3
CLM 445 Quality and Productivity Improvement and Evaluation	3
*CLM 595 Directed Studies	4
Upper Division Electives	6

**Capstone Project*

 REHABILITATION SCIENCES**

**B.H.S. with a major in
 COMMUNICATION DISORDERS**

In keeping with the standards of the American Speech-Language-Hearing Association, the undergraduate program in communication disorders is considered to be a preprofessional degree program. In order to meet Kentucky licensure and American Speech-Language-Hearing Association certification requirements, it is necessary to complete the master’s degree. Students pursuing this program should plan on six years to complete both the Bachelor of Health Science and Master of Science programs.

Admission to the Professional Program

The Communication Disorders program has selective admissions. Applicants must have completed a minimum of 42 credit hours at the time of application. Students are admitted to the professional program on a competitive basis. Admission is based on cumulative grade-point average, ACT or SAT scores, and relevant experiences. Applicants must submit a letter of application and three references. New students are admitted only for the fall semester. The application deadline is February 1.

University Studies Requirements Hours

See “University Studies Program” on pages 83-87 for the complete University Studies requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill University Studies areas. Students should work closely with their advisor to complete the University Studies Program requirements.

Social Sciences

PSY 100 Introduction to Psychology	4
plus one other course from University Studies social sciences listing	3

Premajor Requirements Hours

PSY 100 Introduction to Psychology	4
plus completion of 42 credit hours or more at time of applica- tion	

Subtotal: Premajor Hours minimum of 46

Related Studies Requirement Hours

Choose **one** of the following:

LIN 211 Introduction to Linguistics I	
LIN 212 Introduction to Linguistics II	
LIN 310 American English	
LIN 317 Language and Society (Subtitle required)	
LIN 318 Semantics and Pragmatics	
LIN 319 Historical Linguistics	

Subtotal: Related Studies Hours 3

Major Requirements Hours

CD 277 Introduction to Communication Disorders	3

**May be taken as a pre-Communication Disorders course prior to the junior year.*

***Half of senior students take CD 481 during fall semester; the remaining half take course during spring semester.*

Certification and the Master's Degree

Upon completion of the undergraduate degree and with admission to the master's program, students complete the following courses for certification and the master's degree.

Course Requirements Hours

CD 621 Alternative and Augmentative	
Communication	3
CD 647 Language Disorders in Developmentally	
Young Individuals	3
CD 648 Language Disorders in	
School-Age Populations	3
CD 661 Phonological Development and Disorders	3
CD 670 Voice Disorders	3
CD 674 Disorders of Fluency	3
CD 677 Aphasia and Related Disorders	3
CD 701 Research Methods in	
Communication Disorders	3
CD 710 Cognitive Communication Disorders	3
CD 744 Adult Swallowing and	
Motor Speech Disorders	3
CD 745 Pediatric Feeding and	
Motor Speech Disorders	3

Total Credit Hours 30

The M.S. in Communication Disorders consists of 30 didactic hours plus optional thesis or comprehensive examinations.

ASHA Certification

Applicants wishing to meet American Speech-Language-Hearing Association certification requirements must also complete the following additional clinical orientation, clinical practicum and clinical rotation experiences plus 2 hours of graduate-level electives, and optional 1-6 hours in thesis or comprehensive exams:

CD 654 Clinical Orientation in	
Communication Disorders	3
CD 657 Clinical Practicum in	
Speech-Language Pathology	6
CD 659 Clinical Rotation in	
Speech-Language Pathology	21-30

Students completing the thesis option also complete the following:

CD 748 Master's Thesis Research	0
CD 768 Residence Credit for the Master's Degree	1-6

Physical Therapy – Doctor of Physical Therapy

The Physical Therapy Program at the University of Kentucky offers the professional (entry level) Doctor of Physical Therapy (DPT) degree. The program is conducted at the Lexington campus and at the Center for Excellence in Rural Health campus in Hazard, Kentucky. Once accepted, the PT Program requires three successful years to completion (121 course credits) and results in the awarding of the DPT.

The PT Program has selective admissions. To be eligible for application, the student must complete a bachelor's degree prior to the start of the PT program, or complete (by no later than the end of the spring semester of application) the junior year requirements in a declared major and meet the University of Kentucky's University Scholars Program criteria which include:

- Ninety semester hours working toward a degree;
- An overall GPA of ≥ 3.2 ;

- A science GPA and major course GPA of ≥ 3.5 ;
- A combined verbal and quantitative GRE score of 1000 is recommended by the Physical Therapy Division.

For additional requirements for application, including the application form, go to: www.mc.uky.edu/PT/

For more information about the Physical Therapy Program at the Lexington campus, contact:

**Physical Therapy Program
 900 South Limestone Street

GRADUATE DEGREES IN HEALTH SCIENCES

Master of Science in Athletic Training

The Master of Science in Athletic Training (AT) is designed to accommodate both NATA certified athletic trainers and NATA "certification eligible" athletic trainers. Course work and clinical experiences are designed to develop skills necessary to conduct research and increase proficiency in sports injury prevention, treatment, and rehabilitation. It is a goal that graduates become: critical consumers of research and accepted clinical practices, advanced health care providers, and leaders in the clinical, educational, and research endeavors of the profession.

For more information, contact:

Carl Mattacola, Ph.D., ATC, Director
Division of Athletic Training
900 S. Limestone St., Room 206
210E CTW Building
University of Kentucky
Lexington, KY 40536-0200
(859) 323-1100 ext. 8-0860
e-mail: carlmat@uky.edu
www.mc.uky.edu/Athletic_training

Graduate Certificate in Reproductive Laboratory Science

The College offers a Graduate Certificate in Reproductive Laboratory Science. For more information, contact:

Doris J. Baker, Ph.D., Director
Reproductive Laboratory Sciences
900 S. Limestone St., Room 126E
University of Kentucky
Lexington, KY 40536-0200

e-mail: dbake0@uky.edu
www.mc.uky.edu/cls/rls/certificate.html

Master of Science in Communication Disorders

The Master of Science in Communication Disorders is designed for students seeking entry-level professional preparation in speech-language pathology. Any student without an undergraduate major or equivalent in Communication Disorders should apply as a prerequisite student to complete the prerequisite course work. The curriculum incorporates course work and intensive clinical practicum experiences designed to prepare students to meet state licensure and national certification requirements. For further information, contact:

Director of Graduate Studies
Division of Communication Disorders
900 S. Limestone St., Room 120
University of Kentucky
Lexington, KY 40536-0200
(859) 323-1100 ext. 8-0557

Master of Science in Nutritional Sciences

The program is designed to develop nutrition specialists, knowledgeable in the metabolic changes that occur in normal exercise and various pathophysiological states. Opportunities for specialization are available in the areas of clinical nutrition/medical nutrition therapy, wellness and sports nutrition, and community nutrition. Continued graduate study in Clinical Nutrition is possible through the Graduate Center for Nutritional Sciences.

The courses provide the student with in-depth knowledge of the role of nutrition in metabolism, the physiology of organ systems, and the pathophysiology of specific disease states. Elective course selections provide program focus while

allowing maximum flexibility to meet individual needs. A minimum of 30 credit hours of course work is required for graduation.

For further information, contact:

Clinical Nutrition
900 S. Limestone St., Room 209
University of Kentucky
Lexington, KY 40536-0200
(859) 323-1100 ext. 8-0859

Master of Science in Physician Assistant Studies

Criteria for Admission

All applicants must have taken the Graduate Record Examination (GRE) within the last five years. Official scores of the verbal, quantitative and analytical portions of the GRE must be submitted with application.

All applicants must hold a baccalaureate degree with a minimum GPA of 3.0 from an accredited college or university. Applicants must have earned a C grade or better in the following prerequisite courses:

Prerequisite Courses

1 semester of general chemistry with laboratory
1 semester of organic chemistry with laboratory
1 semester of general psychology
1 semester of developmental psychology
1 semester of biology/zoology with laboratory
1 semester of microbiology (lab recommended)
1 semester of sociology/anthropology
1 semester of human anatomy
1 semester of human physiology
1 semester of medical terminology

Letters of Recommendation

Three (3) letters of recommendation (from academic and/or health care professionals) must be submitted from persons familiar with the applicant (for at least one year) and his/her professional goals.

Commitment

Applicants must demonstrate an understanding of and commitment to the role and responsibilities of a physician assistant.

Admission Essays

Applicants must submit an Admissions Essay according to the directions of the application for admission. The writing sample must be of graduate level quality and reflect the applicant's commitment to primary care.

Basic Life Support

Proof of current **American Heart Association** certification of basic life support must be submitted at the time of interview and certification must be maintained throughout the program.

Technical Standards

All applicants must comply with the Technical Standards of the Physician Assistant Studies Program as established by the College of Health Sciences.

Interview

Competitive applicants who have complete files and who meet the minimum entrance requirements as set forth above will be granted an interview.

Health Care Experience

Health care experience is preferred, but not required.

Physician Assistant Program – Morehead, Kentucky

The College of Health Sciences offers an extension of the UK Physician Assistant Studies Program in Morehead, Kentucky. This professional program conducts selective admissions during the summer semester each year. The program selectively admits students from the 22 counties of eastern Kentucky, or students with a special interest in rural health. For information on eligibility requirements and applications, please contact:

Staci Mynhier
Student Affairs Officer
Physician Assistant Program
Reed Hall 430
Box 1340
Morehead, KY 40351-1689
(606) 783-2636

Master of Science in Radiological Medical Physics

This program option trains professionals involved with the application of ionizing and nonionizing radiation to the diagnosis and treatment of disease. Such individuals plan radiation treatments for cancer patients, measure output from radiation sources, calibrate and evaluate instrumentation, design radiation facilities, and control medical radiation hazards.

For further information about this program option, contact:

Division of Radiation Sciences
900 S. Limestone St., Room 208
University of Kentucky
Lexington, KY 40536-0200
(859) 323-1100 ext. 8-0847
e-mail: rcchr1@email.uky.edu

Honors Program

The Honors Program at UK serves an important function in the University's commitment to excellence in undergraduate education. Through its special curriculum and related academic activities, the Program provides an unusual course of instruction for outstanding, highly motivated students.

Selection of Honors Students

Because the Honors Program seeks students of demonstrated high academic promise, admission to Honors is competitive. A student must complete the application form for the Honors Program. Entering students ideally have an outstanding high school grade-point average (3.5 unweighted GPA or better, as demonstrated by transcript of through at least the first half of senior year) and a documented composite score of 28 or above on the ACT or 1250 or above on the SAT. The Admissions Committee considers all aspects of an applicant's record; a student's test scores and GPA are only two of the factors considered. The Admissions Committee also considers the academic rigor of high school courses the applicant has taken. In addition, the Admissions Committee places great weight on the strength of the application essays, as well as the evidence they provide of motivation to accept the challenges of Honors and contribute to the program.

Students whose academic performance may vary (high GPA and lower test scores, for example) or who have talents and motivation that are not reflected in standardized testing procedures are invited to make their best case for admission to the Honors Program and to solicit recommendations from supportive teachers or supervisors.

Upper-division students at UK or transfer students with one semester or more of academic study at a college or university may apply to the Honors Program. They submit a copy of their college transcripts along with the materials requested of first-year students. All applicants must demonstrate strong academic performance at the college level (3.0 GPA or better).

The Honors Curriculum

The Honors curriculum is designed to acquaint students with major ideas and intellectual developments which have shaped the world around them. The five multi-disciplinary tracks allow students the opportunity to intellectually explore everything from Plato's *Republic* to the problem of hunger to the ethical issues raised by the use of nanotechnology to the nature of violence.

The colloquia are taught as interdisciplinary, small-format seminars. Faculty emphasize class discussion, special projects, and regular writing (free-writing, quizzes, essays, exams, and journals) to develop students' critical thinking and written and oral communication skills and encourage participatory learning styles.

Honors students are expected to maintain good academic standing to continue in the program; normally this is a cumulative GPA of 3.0 or better. In circumstances when academic performance drops below this level, the Academic Coordinator of the Honors Program will consult with the student to determine whether and by what means the student may restore performance to an acceptable level and may institute a period of probation and review.

During the junior or senior years students complete an independent project – a work of research or artistic expression, in collaboration with a faculty scholar/researcher – affording them the chance to identify a challenging topic and to design, carry out, and present their individual work. Upperclass students may also enroll in a highly specialized colloquium called a proseminar, which is taught by award-winning UK faculty in a variety of disciplines.

University Studies Requirements

The Honors colloquia offer a special means of meeting the University Writing Requirement and University Studies Program Requirements. Students who complete two colloquia satisfy the USP Writing Requirement. Students who complete a third colloquium satisfy the Graduation Writing Requirement. Each Honors course also fulfills a USP humanities, social science, natural science, or inference credit requirement, which depend on the particular course and section.

Graduating with Honors in the Program

To graduate with a Certificate of Honors in the Honors Program and have this designation on the final UK transcript and diploma, students must complete fifteen credit hours of Honors courses, completing one of the tracks and, as needed, one or two upper-division courses from HON 301, 395, 398, a department or college honors track, the Gaines Program, the Undergraduate Research Program or another independent research project or independent study. Students must also maintain a cumulative GPA of 3.0 or better.

Special Opportunities

Students in the Honors Program have many opportunities, both in and out of the classroom, to develop and demonstrate academic excellence.

The small class size and method of instruction in the colloquia foster active learning. Informal conferences, special speakers, trips, and workshops allow students to explore topics and issues not regularly considered within University departmental offerings.

Students in the program may elect to live in Patterson Hall, a study and community oriented, co-ed Honors residence hall equipped with seminar rooms and library.

Other social, service, and cultural activities organized by and for Honors students include the Honors Program Student Advisory Council or HPSC (social and service activities), and *JAR*, the campus literary magazine published by Honors Program students. Students may also participate in the Journal Project, for which they keep a journal during their undergraduate career, sharing the journal with a staff member, administrator, or faculty member who volunteers as an advisor.

Honors students in good standing are eligible for a number of special grants and scholarships during and at the conclusion of their undergraduate career. These include scholarships based on financial need, grants to support independent research conducted in the U.S. or abroad, scholarships to support study-travel for members of the Journal Project, the Diachun Award for students continuing studies in graduate school, and several other literary, service, and book awards.

Benefits

The greatest benefits Honors Program students enjoy are intensified intellectual development and a heightened personal awareness of the individual's place in his or her culture. A high percentage of graduates of the Honors Program enter graduate or professional schools, and move on to successful careers.

How To Apply

For an application, contact:

Director, Honors Program
1153 Patterson Office Tower
University of Kentucky
Lexington, KY 40506-0027
(859) 257-3111
e-mail: HONPROG@uky.edu
www.uky.edu/Honors/
fax: (859) 257-6428

The application deadline is January 15. Contact the Honors Program for more information.

David A. Brennen, J.D., LL.M., is Dean of the College of Law; Douglas C. Michael, J.D., Mary J. Davis, J.D., Susan Bybee Steele, J.D., and Drusilla Vansant Bakert, J.D., are Associate Deans.

Since its establishment in 1908, the College of Law has provided programs of legal instruction, research, and service to the state and to the bar. The College of Law program is designed so that its graduates can practice their profession on a local, regional, or national level. The college is accredited by all agencies which establish standards for law schools, including the Association of American Law Schools, the American Bar Association and the bar admission authorities in all states.

The instructional program consists of a three-year general law curriculum designed to be completed in six consecutive 16-week semesters or in five semesters and two summer sessions. The program is arranged to assist each student in acquiring the skills required for the solution of modern legal problems; to make certain that he or she has an appreciation for and understanding of the legal, social, and political institutions on which the administration of justice rests; and to prepare him or her for the policy and ethical decisions which must be made in practicing law.

The Faculty

The program of the college is conducted by a full-time faculty and staff composed of 31 professors and 25 library and support personnel. They are assisted by a number of part-time and adjunct professors.

The Library

The college maintains a carefully selected law library collection of over 350,000 volumes, one of the larger law libraries in the South. It is housed in the Law Building and includes a comprehensive collection of American case and statutory materials. It contains more than 40,000 treatises and textbooks, all major legal reference works, and over 3,400 annual legal publications.

The Law Building

The College of Law occupies a handsome building of contemporary design located on the central campus. The building was planned to provide all of the special physical facilities required for a modern legal education. Facilities include “smart” classrooms; a model courtroom-auditorium; the Law Library; faculty and staff offices; offices for the *Journal of Natural Resources and Environmental Law*, the *Kentucky Law Journal*, the Moot Court Board, the Trial

Advocacy Board, the Student Bar Association and other law student organizations; and offices for visiting scholars who come to the College of Law for research and study.

Other Facilities and Information

Since 1912 the college has published the *Kentucky Law Journal*, a quarterly periodical and the tenth oldest American law review. This journal is published by a student staff, and election to the staff is based on high academic achievement and proven ability to write and conduct research. Articles, notes, and comments written by legal scholars, attorneys, and students are published. The *Kentucky Law Journal* is subscribed to by members of the bar as well as all leading domestic and foreign libraries.

The student-run *Journal of Natural Resources and Environmental Law* has been published since 1983.

Practical training in trial and appellate advocacy is provided in litigation skills and clinical courses, and in co-curricular moot court and trial and appellate advocacy programs. Teams representing the college compete annually in various trial advocacy and appellate advocacy competitions.

Instruction in legal research and writing is available to all students, not only in required courses designed for this purpose, but also in a program of seminars, drafting projects and opportunities for independent study. The college operates an externship program to provide students with a variety of clinical learning experiences. In 1997, the College of Law opened a Civil Law Clinic across Limestone Street from the College, giving students the opportunity to represent low-income individuals on a variety of legal matters.

REQUIREMENTS FOR ADMISSION

In addition to the general requirements for admission to the University, an applicant for admission to the College of Law must meet the following requirements:

1. The applicant must have received a bachelor’s degree from an accredited institution.
2. The applicant must have taken the Law School Admission Test.
3. The applicant must have registered with the Law School Data Assembly Service and furnished the necessary transcripts which such registration requires.

APPLICATION DEADLINES FOR COLLEGE OF LAW

First-Year Students

Law Application:
Fall March 1

LSDAS Report:
Fall March 31

Transfer Students

Law Application, transcript(s), credentials:
Fall June 1 **Spring** Dec. 1 **Summer** May 15

In addition, the College of Law requires that applicants have taken the Law School Admission Test within three (3) years of the date he or she will matriculate.

Admissions Committee Consideration

The College of Law Admissions Committee considers and makes recommendations to the Dean of the College of Law on an applicant’s undergraduate grade record, the Law School Admission Test Score, writing ability, and other factors indicative of the applicant’s aptitude for law study. The Committee examines with particular care the grade average for the most recent semesters of undergraduate study, recommendations of faculty, the nature and difficulty of course work attempted in prelaw study, undergraduate extracurricular activities, and work experience. The Committee also considers post-baccalaureate experiences where such experiences, in the Committee’s determination, indicate a development of aptitude for the study of law. The Committee will review the file of an applicant to determine whether personal, academic, professional, or intellectual circumstances tend to discount low academic or LSAT scores and give evidence of both the capability and motivation to do successful law school work. The Committee may also consider factors which bear on the provision of adequate legal services to all segments of Kentucky.

In its decision making, the Committee works with written materials in the applicant’s file. There is no interview and applicants are urged to provide in writing whatever they want the Committee to consider. The Committee welcomes letters of recommendation which speak to ability, and the Committee will consider any other material the applicant thinks important enough to include.

Admission of Transfer Students

At a minimum, applicants for transfer from a law school should present a 2.7 average on at least 25 hours of law school work at a school accredited by the American Bar Association or the Association of American Law Schools. The Admissions Committee will consider the applicant's law school record as well as all factors the Committee considers in an application for the entering class.

Procedure for Application

Application for admission is initiated by submitting the following to the Office of the Dean, College of Law: a completed UK law application form, which may be obtained from that office or from the College of Law Web site at: www.uky.edu/Law, and a \$50 check made payable to the University of Kentucky College of Law. Candidates also may apply on-line, paying the application fee by credit card.

The Law School Admissions Test (LSAT), administered by the Law School Admission Council (LSAC), is given four times each year at testing centers throughout the country according to a schedule of dates and places published by the LSAC.

In addition to administering the LSAT, LSAC provides a transcript analysis and report for applicants, known as the Law School Data Assembly Service (LSDAS). All applicants are required to register directly with LSAC for this service, which is done at the time one applies to take the LSAT. Transcripts of prelaw work should be sent to LSAC rather than the University.

The LSAT and the LSDAS registration forms are available from the LSAC Web site at: www.LSAC.org.

Submission Dates and Deadlines

Because the Admissions Committee considers applications as they are completed, all students are urged to apply as early as possible. March 1 of the year in which an applicant expects to enter law school for the fall semester is the **final deadline** for receipt of the application form. March 31 is the **final deadline** for receipt of all supplementary materials, including LSAT scores and the LSDAS report. Applicants are urged to take the LSAT in June, October or December. The LSAT given in February is the last examination which will be accepted by the Admissions Committee. Applicants are urged to send transcripts to LSDAS no later than January 1. If transcripts are not on file with LSDAS by February 1, there is a substantial possibility that an LSDAS report will not arrive at the Office of Admissions before the March 31 deadline for receipt for materials.

College of Law Withdrawal Policy

All students enrolled in the College of Law are expected to complete their degree requirements without interruption other than for regularly

scheduled vacation periods. It is expected that students will complete all courses or seminars in which they are enrolled. Rules specific to withdrawal from the College of Law exist. Contact the College of Law for complete information.

PRELEGAL STUDY

While a broad, liberal arts education is generally considered to be an excellent preparation for law school, there is no fixed, comprehensive prelaw curriculum prescribed by this or any other American law school.

This fact is very important, and its implications should not be misunderstood. American legal education is not a graduate program of advanced work in a specialized course of study beginning in college; it is not a technical or scientific training that builds upon a specific preparation in basic techniques and knowledge acquired in undergraduate school. Legal education is a professional education which requires that each student develop three fundamental capacities (described below) in the prelegal experience. These accomplishments may be obtained in a variety of learning ways and academic disciplines.

First, because the basic working tools of lawyers are written and spoken words, the beginning law student must have thorough preparation in the use of the language. The importance of this requirement cannot be overstated. A fundamental knowledge of grammar and syntax, a good vocabulary, an ability to read rapidly with insight and understanding, and a facility for expressing ideas with clarity and order are all essential to success in the study and practice of law. Any prelaw student who is deficient in these abilities should immediately take additional courses in English literature and composition, seek specialized remedial assistance, and exert all efforts towards language mastery.

Second, because the primary working arenas of lawyers are social, economic, and political communities, the beginning law student must obtain a comprehensive, exploratory undergraduate experience. The law student should have a good knowledge of history (especially English and American traditions), of governmental and political processes, of social and cultural patterns and the interactions that create them, and of the ethical and spiritual credos by which men and women live.

Third, because the fundamental techniques of legally trained persons are careful ordering of facts and events, conceptual analysis and synthesis, and effective advocacy, the prelaw student should pursue a degree program in which he or she will learn to think clearly, will form sound study habits, and will have the opportunity to master the methodology and knowledge of a particular field under the guidance of experienced instructors. Generally, any undergraduate program can satisfy this requirement and help meet

the other two needs outlined above. Prewlaw students with definite career objectives in mind may wish to prepare for those objectives by majoring in appropriate subjects, for example: business or economics, government or political science, English literature, engineering, or the natural sciences.

Experience indicates that the poorest preparation for legal study lies in inadequate development of language skills, lack of historical and social awareness and appreciation, and failure to achieve the mastery of any academic discipline that overcomes the shallowness of vague generalization. Therefore, the prescription from this law school to the prelaw student is that he or she should invest in the broadest, deepest undergraduate education open to him or her rather than in some predetermined curriculum.

For additional information, students should obtain the current *Official Guide to U.S. Law Schools*, published and prepared by the Law School Admission Council and the Association of American Law Schools. This yearly publication contains material on the law and lawyers, prelaw preparation, applying to law schools, and the study of law, together with information on most American law schools. Students may order this when they register for the LSAT and LSDAS.

THE DEGREE OF JURIS DOCTOR

Students admitted to the College of Law are eligible for the degree of Juris Doctor (J.D.) upon completion of a minimum of three academic years (six full-time semesters or equivalent) of residence and 90 semester hours of courses in the College of Law with a grade-point average of at least 2.0.

All courses in the first year of law study are required as is a course in professional responsibility and an upper division writing course.

Because the study of law at the University of Kentucky is a full-time pursuit, all law students are expected to carry a full academic program (15 semester hours) and to devote their full time to the study of law. Second and third year students may work 15 hours per week for local legal employers.

For the *College of Law Overview*, interested students may stop by the Dean's Office, 209 College of Law, University of Kentucky, Lexington, KY 40506-0048; or order the *Overview* online at: www.uky.edu/Law/. For specific information about the courses and policies of the College of Law, students should refer to the college's Web site or contact the Associate Dean for Academic Affairs at the College of Law, (859) 257-1678. Candidates may contact the Associate Dean for Admissions at (859) 257-1678; e-mail: dbakert@email.uky.edu.

Jay A. Perman, M.D., is Dean of the College of Medicine.

The College of Medicine offers a four-year curriculum leading to a degree of Doctor of Medicine (M.D.) and training for postdoctoral and research fellows. The University of Kentucky Hospital offers accredited postdoctoral training for interns and residents.

A curriculum in medicine has been part of the University of Kentucky since 1960. The College of Medicine is responsible for providing its students with training in related basic sciences and with clinical experience under supervision in the University of Kentucky Hospital and other affiliated facilities.

As part of the Medical Center – which also includes the University of Kentucky Hospital and the Colleges of Dentistry, Health Sciences, Nursing, Pharmacy, and Public Health – the College of Medicine strives for programs of the highest possible quality. This means selecting the best possible student body, creating an environment which fosters learning, investigation, and clinical excellence, and acquiring and keeping talented faculty and administrative staffs.

ACADEMIC PREPARATION FOR THE STUDY OF MEDICINE

Medical science and practice involve complex relationships between physical, biological, psychological, cultural, and environmental aspects of human behavior. In the preparation for medical school, fundamental undergraduate college training in biology, chemistry, physics and English is essential. Minimal requirements are satisfied with the equivalent of two semesters of studies in physics; two semesters in the biological sciences; four semesters in chemistry, including organic chemistry; and at least one year of English with emphasis on communication skills such as reading, writing, and speaking.

Courses in each of the science areas must include laboratory work. Students are encouraged to follow special interests which they may have in philosophy, psychology, literature, social sciences, or the fine arts.

Students are urged to demonstrate a capacity for advanced work through concentrated study of at least one subject in a major area by completing courses beyond the introductory level.

REQUIREMENTS FOR ADMISSION

Applicants for admission to the College of Medicine, in addition to meeting general Univer-

sity requirements, must meet the prerequisite requirements of the College of Medicine and be accepted by the Medical College Admissions Committee. Applicants will be required to have taken the Medical College Admission Test (MCAT) and are encouraged to have completed a baccalaureate degree program at an accredited college or university.

SELECTION CRITERIA

In admitting students to the College of Medicine, the University endeavors to select students who show promise of becoming excellent future physicians. Applicants are judged on the basis of their total qualifications and in comparison with other applicants.

As a state-supported school, the College of Medicine gives preference to qualified residents of Kentucky. Although well-qualified nonresidents may apply, preference is given to candidates with Kentucky ties.

Selection from among applicants who meet the general premedical educational requirements of the College of Medicine is based on a number of criteria. A high level of academic performance at the undergraduate level is extremely important. It is recognized, however, that a meaningful evaluation of student performance must consider many factors in addition to grades. For example, exposure to the health care profession is considered essential.

Scholastic aptitude as measured by the Medical College Admission Test also is considered.

Since the practice of medicine involves the physician in continual relationships with people – with patients, and with other members of the health care team – applicants are also judged according to premedical evaluations, the degree of their participation in campus and community activities and organizations, and the personal characteristics that they demonstrate. Friendliness, warmth, compassion, integrity, and commitment are all essential traits of the physician.

Often the physician's ability to communicate effectively will determine the degree of success in the diagnosis and management of a patient's health problem and in other professional activities. Thus, consideration is given to the communication skills demonstrated by each applicant. Communication is a two-way process and involves the ability to listen perceptively, as well as to speak and write clearly.

Because the practice of medicine and the life of the medical student require a great investment of

effort and demand both time and energy, it is essential that a prospective medical student meet the Technical Standards of the College of Medicine detailed in the *College of Medicine Bulletin* or online at: www.mc.uky.edu/meded/admissions. Further, prospective applicants should be able to demonstrate that their motivation to study medicine is sufficiently strong to sustain him or her in the face of difficulties. Accepted applicants are subject to a criminal background check prior to matriculation.

STUDENT PROGRESS

The Student Progress and Promotion Committee is charged with monitoring student progress through the curriculum. The committee regularly reviews each student's performance and makes recommendations on such actions as graduation, promotion, remediation, dismissal, and leaves of absence. Final authority on all matters of student progress and promotion is vested in the Dean of the College of Medicine.

Students are responsible for conforming to all rules and regulations specified by the *Behavioral Standards in Patient Care, Health Science Student Professional Behavior Code*, the College of Medicine Honor Code, the "Technical Standards Related to Applicant Admission and Student Performance" detailed in the *College of Medicine Bulletin*, the academic standards established in the Student Promotion rules, and the Code of Student Rights and Responsibilities for all University of Kentucky students.

COURSE DESCRIPTIONS

Course listings for the College of Medicine may be found under the college according to departmental and area headings.

For specific information about programs in the College of Medicine, students should refer to *The Graduate School Bulletin* or the *College of Medicine Bulletin*.

COMBINED MEDICAL AND GRADUATE STUDIES

A medical student who wishes to work toward a combined medical and graduate degree (master's or doctoral) may do so by enrolling both as a graduate student and as a medical student. Details of the combined degrees are available from basic science department chairpersons, the Associate Dean for Research and Basic Sciences, or the Office of Medical Education, College of Medicine.

Jane M. Kirschling, R.N., D.N.S., is Dean of the College of Nursing; Lynne A. Hall, R.N., Dr.P.H., is Associate Dean for Research and Scholarship; Patricia V. Burkhart, R.N., Ph.D., is Director of the Undergraduate Program; Patricia B. Howard, R.N., Ph.D., C.N.A.A., is Director of the M.S.N. and D.N.P. Programs; Terry A. Lennie, R.N., Ph.D., is Director of the Ph.D. Program.

Accreditation

The College of Nursing has had continuous accreditation since 1967. The baccalaureate degree curriculum offered by the College of Nursing is accredited by the Commission on Collegiate Nursing Education and approved by the Kentucky Board of Nursing.

Undergraduate Program in Nursing

The University of Kentucky grants the following degree in the College of Nursing:

- Bachelor of Science in Nursing

ADMISSION REQUIREMENTS

The College of Nursing enrollment is composed of four-year students, associate degree nursing graduates, and diploma nursing school graduates. Admission to the University does not guarantee admission to the College of Nursing. Preference is given to Kentucky residents.

Applicants must be in a state of good health enabling them to carry out the functions of the professional nurse. Routinely, each student will be required to obtain a rubella and rubeola titers, hepatitis B immunizations, and have an annual tuberculin test or chest x-ray. (Other immunizations may be required. Check with the College of Nursing for a current list.)

The University of Kentucky will consider for admission any applicant who demonstrates the ability to perform or to learn to perform the skills listed below. Applicants are *not* required to disclose the nature of any disability, but an applicant with questions about these technical requirements is strongly encouraged to discuss the issue with the dean for the particular program of study. If appropriate, and upon the request of the applicant, student or faculty, reasonable accommodations for a disability will be provided.

Students must possess aptitude, abilities, and skills in five areas:

- observation;
- communication;
- sensory and motor coordination and function;

- conceptualization, integration, and quantification; and,
- behavioral and social skills, abilities and aptitude.

Full details on these standards are available by contacting the College of Nursing.

Progression to upper-division is regulated so that the total number of full-time equivalents at the beginning of the junior year does not exceed 120.

Admission Criteria

Criteria for admission to the 4-year BSN program include:

1. Freshman Student:

Students will be admitted as freshmen to a **pre-nursing** curriculum based on the following criteria:

- a) high school grade-point average of 2.5 or above on a 4.0 scale;
- b) meeting criteria for selective admission to the University of Kentucky (see the *Undergraduate Admission* section of this Bulletin for more information).

Selection for admission to the **nursing** curriculum will occur at the sophomore level for all students based on the following criteria:

- a) a minimum cumulative grade-point average of 2.5;
- b) a grade of **C** or better in **all** required pre-nursing courses;
- c) completion of an approved Medicaid Nurse Aide training program;

In addition, any or all of the following information may be requested as part of the application:

- d) a writing exercise based on the criteria established by the College of Nursing;
- e) two letters of reference from individuals who can assess potential for success (e.g., teacher, employer). Reference forms are available by calling (859) 323-5108.
- f) an interview with members of the Admissions and Progression Committee, or their designees.

Early Admission

Early provisional admission to the Professional Nursing Curriculum will be granted to graduating high school seniors who meet the criteria of a high school GPA of 3.5 or higher and an ACT composite of 26 or higher (or the equivalent SAT combined score). Students will be

APPLICATION DEADLINE FOR COLLEGE OF NURSING

Traditional and Second Degree applicants:

March 1

RN-BSN Program:

March 1 preferred, until **August 1** on space-available basis for fall semester

December 1 for spring semester

DNP Program:

February 15

required to maintain a 3.0 GPA in *each* semester during the freshman year and a 2.75 GPA in the prerequisite science courses. Students who meet these requirements will be granted full admission in either the fall or spring of the student's sophomore year to the Professional Nursing Curriculum. Students not meeting those requirements will be grouped with other applicants who are considered for admission after completion of the prerequisites.

2. Transfer Student:

- a) **for transfer students with less than 24 hours of college credit**, meeting the criteria for entering freshmen and a minimum grade-point average of **2.5** on all college work attempted as computed by the Office of Admissions;
- b) **for transfer students with more than 24 hours of college credit**, maintaining grade-point average of **2.5** on all college work attempted as computed by the Office of Admissions;
- c) grades of **C** or better in all courses required for CON curriculum;

In addition, any or all of the following information may be requested as part of the application:

- d) a writing exercise based on the criteria established by the College of Nursing;
- e) two letters of reference from individuals who can assess potential for success (e.g., teacher, employer). Reference forms are available by calling (859) 323-5108.

Seeking licensure as a Registered Nurse requires that applicants have no criminal history. In Kentucky, applicants who are convicted felons may be denied licensure. Cases are reviewed individually, upon application. Additionally, some clinical agencies require criminal background checks for students who might be placed there for a learning activity. The agency reserves the right to deny a student permission to meet clients, based on the results of the criminal background check.

If you have a criminal history, we urge you to contact the board of nursing in any state where you may seek licensure prior to enrolling in a nursing program. The regulations vary from state to state.

- f) completion of an approved Medicaid Nurse Aide training program;
- g) an interview with members of the Admission and Progression Committee or their designees.

3. Students will be eligible to apply for readmission to the College of Nursing after suspension from the College when they meet criteria as stated in **Section 2 a** and **b** of this policy.

4. A student who is a registered nurse will be considered for admission to **upper-division** courses in the UK Professional Nursing program based on the following criteria:

- a)
 - i. For Associate Degree Nurses:**
The registered nurse with an associate degree in nursing from a college accredited by one of the six regional academic accrediting associations will be considered for admission with a minimum GPA of 2.5 on a scale of 4.0 in all course work attempted as computed by the Office of Admissions. **NOTE: RN licensure is required to progress to the second semester of the curriculum or prior to beginning clinical experiences.**

- ii. For Diploma Prepared Nurses:**
The registered nurse who is a graduate of a diploma program will be considered for admission after earning a minimum of 60 college credits which include:

- English – 6 semester credits
- Natural Sciences – 6 semester credits
- Social Sciences – 6 semester credits
- Humanities – 6 semester credits
- Nursing* – 28 semester credits

*Nursing credits may be earned from regionally accredited colleges by taking the courses or by submission of a portfolio of RN licensure and experience to the RN-BSN Option Coordinator.

All nursing courses taken in associate degree or diploma programs are considered lower-division courses and are not equivalent to upper-division courses in this program. The applicant must have at least a GPA of 2.5 on a scale of 4.0 in all college course work attempted as computed by the Office of Admissions.

- b) a statement of academic and professional goals.

Application Deadline

The preferred application deadline is March 1; however, applicants will be considered on a space-available basis until August 1 for the fall semester. For spring semester, applications must be received by December 1.

Application for Admission

All applications and transcripts for admission must be submitted to the Office of Admissions according to the deadlines listed in the box above (page 233). Transfer applicants will be evaluated for fall and spring admission, according to the deadlines listed. Those accepted for admission must notify the college within 30 days, in writing, of their intent to enroll. Late applicants will be considered for admission on a space-available basis.

Part-Time Study

Students who are working toward the completion of the B.S.N. degree on a part-time basis must plan a course of study with the appropriate College of Nursing personnel or committee and may not alter that plan without prior approval from the College of Nursing.

Candidates for the degree who do not complete all requirements within a seven-year period (five years for R.N. students) after admission will have their records reevaluated and may be required to repeat or take selected courses.

Financial Aid

The college has a few scholarships designated for Nursing students. Inquiries should be directed to the Office of Student Services, College of Nursing.

Students may also wish to pursue funds available through hospitals and other agencies that offer financial assistance in return for a work commitment.

Academic Advising

Students who are admitted to the College of Nursing are assigned to an advisor within the college. Curriculum plans are determined in the first semester of enrollment in the college and updated each semester. Questions regarding progression through the program may be directed to the Office of Student Services, College of Nursing.

DEGREE REQUIREMENTS

BACHELOR OF SCIENCE IN NURSING

To obtain a Bachelor of Science in Nursing, students must satisfy the University requirements for graduation, including University Studies, and obtain a 2.0 grade-point average in nursing in the courses listed below. A grade of C or better must be attained in all courses required in the nursing curriculum in order to proceed to the next clinical course or to graduate. A minimum of 120 credit hours is required for graduation.

University Studies Requirements Hours
See “University Studies Program” on pages 83-87 for the complete University Studies requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill University Studies areas. Students should work closely with their advisor to complete the University Studies Program requirements.

Curriculum Policies

Students are expected to be familiar with the requirements for the degree of Bachelor of Science in Nursing and to confer with advisors in the College of Nursing when selecting courses.

Since the health needs of the nation are constantly changing, an effective curriculum requires continuous review and evaluation, which may necessitate revision of courses and requirements. Thus, there can be no guarantee that course content will be identical in each subsequent academic year. Furthermore, to continue to meet the changing emphasis in nursing education, some courses will require educational experiences for students in community facilities outside of Lexington.

Outcome Objectives

1. Exemplifies a personal philosophy of nursing that is consistent with professional standards.
2. Applies the nursing process as a method of providing professional nursing care to prevent illness; promote, maintain, restore client health; and/or assist clients to a peaceful death.
3. Practices critical thinking skills to make independent and collaborative decisions.
4. Incorporates research findings into professional nursing practice.

5. Provides professional nursing care to clients with actual and potential health problems in diverse settings.
6. Collaborates in planning, delivering, and evaluating nursing services in a changing society.
7. Demonstrates responsibility and accountability for professional behavior.
8. Employs theories of leadership and management in providing professional nursing care.
9. Demonstrates leadership in addressing professional nursing and health issues.
10. Provides professional nursing care based on an evaluation of internal and external forces affecting client systems.

**SECOND DEGREE OPTION
 B.S.N. PROGRAM**

The College of Nursing is offering a new option to earn a nursing degree – the Second Degree B.S.N. (Bachelor of Science in Nursing). This option is for people who have a bachelor’s degree in a field other than nursing.

Prerequisites for Second Degree B.S.N. Option

Students who have earned a degree in another field may apply to complete a B.S.N. The admission requirements/prerequisites include:

- a bachelor’s degree;
- cumulative 2.50 GPA on a 4.0 scale for all college work;
- grade of C or higher in ANA 209 (Principles of Human Anatomy) or equivalent;
- grade of C or higher in PGY 206 (Elementary Physiology) or equivalent;
- grade of C or higher in CHE 108 (Introduction to Inorganic, Organic, and Biochemistry – Without Laboratory) or equivalent;
- grade of C or higher in PSY 100 (Introduction to Psychology) or equivalent; and
- a written statement.

It is strongly recommended that students complete the following courses with a grade of C or higher before beginning the Second Degree B.S.N. Program (they are required for graduation):

- BIO 208 (Principles of Microbiology) or equivalent; and
- STA 200 (Statistics: A Force in Human Judgment) or equivalent.

By the time of enrollment in the first course, students must have also completed a CNA course and all immunizations as listed above under “Admissions Requirements.”

Graduate Study

The Doctor of Nursing Practice (D.N.P.) program is a professional clinical doctorate program which focuses on development of advanced competencies for complex practice, and research utilization for the improvement of clinical care delivery, patient outcomes, and system management. Graduates will be expert in designing, implementing, managing, and evaluating health care delivery systems and will be prepared to lead at the highest clinical and executive ranks.

There are two entry points to the D.N.P. program: the post-Master of Science in Nursing (M.S.N.) entry option for those with an awarded master's degree in nursing that are already prepared in the role of the Advanced Practice Registered Nurse (A.P.R.N.); and beginning fall 2009, the post-Baccalaureate of Science in Nursing (B.S.N.) entry option. This option builds on the B.S.N. degree and prepares individuals for the A.P.R.N. role. Both options culminate with the D.N.P. degree.

Application Deadline

Application materials are due by **February 15** for fall admission. Applications received after this date will be considered if space is available. For additional requirements for application, including the application forms, go to: www.mc.uky.edu/Nursing/academic/dnp/default.html

M.S.N. - D.N.P. in Nursing

Graduates are expected to be experts in designing, implementing, managing and evaluating healthcare delivery systems. Simultaneously, they will know how to manage the complex balance between quality of care, access and fiscal responsibilities.

Admission Criteria

- Master's degree in nursing from a nationally accredited program
- Graduate grade-point average of 3.3 on a 4.0 grading scale
- Satisfactory scores on the Graduate Record Examination (minimum scores of 500 on the Verbal and Quantitative portions are preferred. Analytical Writing scores are evaluated individually.)
- Three references
- Personal interview(s)
- Licensure as a registered nurse in the state in which clinical will occur
- Clinical practice hours as demonstrated by certification in an advance practice nursing specialty, or previous graduate level course work (applicants who cannot demonstrate a minimum of 460 clinical clock hours of practice will be expected to complete clinical course work beyond the proposed curriculum)
- Written goal statement

B.S.N. - D.N.P. in Nursing

The post-B.S.N. entry option builds on a student's undergraduate degree, and experience as a registered nurse and prepares the individual for the advanced practice registered nurse role in a chosen specialty. Students apply to and are admitted to a particular specialty. Admission decisions are made on a competitive basis by specialty.

Admission Criteria

- Baccalaureate degree in nursing from a CCNE or NLN accredited program
- Undergraduate grade-point average of 3.3 on a 4.0 grading scale
- Satisfactory scores on the Graduate Record Examination (minimum scores of 500 on the Verbal and Quantitative portions are preferred. Analytical Writing scores are evaluated individually.)
- Three letters of reference
- Personal interview(s)
- Licensure as a registered nurse in the state in which clinical will occur
- Clinical nursing experience prior to the first DNP clinical course
- Written goal statement

**Sample Curriculum
B.S.N. - D.N.P. Program**

FIRST YEAR

Hours

Fall Semester

STA 570 Basic Statistical Analysis*	4
NUR 921 Pathophysiology or NUR XXX Specialty Science**	3
NUR 924 Concepts, Theories, and Models for Advanced Practice Nursing	3
NUR 900 Process of Nursing Leadership	3

Spring Semester

NUR 927 Special Topics in Pharmacology	1
NUR 922 Pharmacologic Applications in Primary Care or NUR XXX Specialty Science**	3
NUR 923 Applications of Advanced Health Assessment or NUR 926 Systems Application of Advanced Health Assessment**	3
NUR 925 Research Methods in Advanced Practice Nursing	3
NUR XXX Advanced Practice Registered Nurse I or Systems Management I (actual course numbers vary by specialty/track)	3

Summer

Elective	3
----------------	---

SECOND YEAR

Hours

Fall Semester

NUR 778 Proseminar in Contemporary Health and Nursing Policy Issues	3
NUR 902 Nursing Leadership in Health Care Systems	3
NUR 915 Foundations of Evidence-Based Practice and Program Plan	4
NUR XXX Advanced Practice Registered Nurse II or Systems Management II (actual course numbers vary by specialty/track)	5

Spring Semester

NUR 903 Applied Biostatistics for Outcomes Evaluation	4
NUR 904 Epidemiology Applied to the Design and Evaluation of Nursing and Health Services	3
NUR 916 Evaluation for Improvement of Clinical Practice and Outcomes	3
NUR XXX Advance Practice Registered Nurse III or Systems Management III (actual course numbers vary by specialty track)	5

Summer

NUR 917 Technology for Transforming Nursing and Healthcare	3
NUR 918 Protection of Human Subjects	1
NUR 930 Problems in Advanced Practice Nursing (Subtitle required)	2

THIRD YEAR

Hours

Fall Semester

NUR 914 Economic and Financial Aspects of Clinical and Population-Based Health Care Delivery Systems	4
NUR 919 Strategic Analysis for Quality Improvement in Nursing and Health Care	3
NUR 920 Advanced Nursing Practice in Dynamic Health Care Systems	3

Spring Semester

NUR 910 Clinical Residency	3
----------------------------------	---

Summer

NUR 910 Clinical Residency	3
----------------------------------	---

**STA 570 or comparable graduate-level course within the past five years is a prerequisite to the program or can be taken during the fall of the first year; statistics is a required course prerequisite for NUR 903 (Applied Biostatistics for Outcomes Evaluation).*

***Related specialty science courses to be completed by nurse practitioner and clinical nurse specialist students for direct patient care.*

D.N.P. Student Outcomes

Graduates will be prepared to:

- Integrate clinical expertise with population-focused care management, research, and health care policy to provide leadership in health care.
- Design, implement, manage, and evaluate care delivery systems to meet the needs of populations.
- Apply clinical, political, organization, and economic theories to care delivery systems to improve health outcomes for populations.
- Develop networks and manage constituencies in complex health systems.

- Plan, manage, evaluate and redirect continuous personal and professional self-development.
- Solve problems that affect health and health care delivery through clinical leadership.
- Create environments that foster innovation and risk-taking.
- Create practice environments in which decisions are based on critical analysis of levels of evidence.

The College of Nursing also offers the terminal academic degree program leading to the Doctor of Philosophy in Nursing. For more information on this program, refer to *The Graduate School Bulletin* at: www.rgs.uky.edu/gsl

For further information, contact:

www.mc.uky.edu/Nursing/

Patrick McNamara, Ph.D., is Interim Dean of the College of Pharmacy.

The College of Pharmacy offers a professional degree program, a four year curriculum leading to the Doctor of Pharmacy (Pharm.D.). The Pharm.D. degree allows one to sit for the national licensing exam to become a licensed, practicing pharmacist. The College of Pharmacy also offers training for postdoctoral and research fellows, residency programs and graduate training (Ph.D.) in all areas of the pharmaceutical sciences through the Graduate School. The professional program is fully accredited by the American Council on Pharmaceutical Education and satisfies all educational requirements for licensure. The residency programs are accredited by the American Society of Health Systems Pharmacists (ASHP) or by ASHP in conjunction with the American Pharmacists Association.

The major goal of the College of Pharmacy is the education of competent and contemporary pharmacy practitioners who assume responsibility for achieving optimum therapeutic outcomes through the provision of rational drug therapy and who, in cooperation with other health care professionals, can favorably influence both overall health care and the individual patient's quality of life.

ADMISSIONS OVERVIEW – PHARM.D. PROGRAM

The University of Kentucky is a public institution, and its primary mission is to educate residents of Kentucky and produce professionals who provide pharmaceutical care for its citizens. The College recognizes that a geographically and culturally diverse student body also contributes to more robust exchange of creative ideas and experiences, one that benefits all students. The UK College of Pharmacy, therefore, strives to admit a talented and diverse student body that enhances the educational process while serving the needs of the Commonwealth and the pharmacy profession.

Admission to the professional program is competitive. The number of students admitted to the Doctor of Pharmacy program depends upon the availability of resources such as faculty, clinical facilities and space for implementation of a quality educational program. Consideration for admission will be based on a holistic review of the applicant's previous academic record, potential for academic achievement, standardized admis-

sion test scores, assessment of communication skills, contribution to diversity, integrity, commitment, motivation, character, maturity and emotional stability. Each applicant must have the physical, mental and emotional ability to learn and accomplish those competencies required of a pharmacy practitioner, as well as the character and thought processes necessary to make professional judgments that benefit the patient.

The Admissions Committee believes the applicant should base a decision to enter the pharmacy profession on more solid reasoning than merely an interest in science courses. The applicant should research opportunities available to pharmacy graduates, services provided by pharmacists and obligations of pharmacy practitioners to the people they serve.

Work experience is not a requirement for admission. However, applicants are strongly advised to shadow a pharmacist and volunteer in a pharmacy or health care environment prior to entering a pharmacy program. Students who have prior work, shadowing or volunteer experience in a pharmacy setting generally enhance their performance during the admissions interview process and in the Pharm.D. program if later admitted.

The Admissions Committee cannot consider applications from students in other colleges of pharmacy when the applicant has previously been denied admission to the UK professional program or when the maximum number of students is already enrolled in the program.

Individuals who have been dropped for academic or other reasons applying for reinstatement in the College will have their application considered through the Academic Performance Committee, but on a competitive basis with new applicants. Students applying for admission should be able to meet the technical standards for students in the College. These standards should be reviewed in the College Bulletin, under "Academic Progress and Promotion."

Any student may be denied admission or permission to continue enrollment in the College of Pharmacy if, in the opinion of the faculty, the moral or ethical character of the student casts grave doubts upon his or her potential capabilities as a pharmacist. Any type of involvement in the illegal use of drugs or other illegal or unethical acts relating to the practice of pharmacy are examples of incidents which would provide cause for considering denying admission or for dismissal of a student from the College.

ACADEMIC PREPARATION – PHARM.D. ADMISSION REQUIREMENTS

A minimum of 70 semester credit hours of prepharmacy course work is required for admission. Approximately 50-60 of those hours are in required subjects; the remaining credit hours can be elective courses of your choice. Elective courses to consider are physiology, biochemistry, psychology, public speaking, interpersonal communications, medical terminology, logic, health care ethics, foreign languages, as well as courses that meet the UK general education requirements.

Prepharmacy courses should be completed by the end of the spring semester prior to the desired fall enrollment. Prior approval must be obtained by students wishing to take required course work after the spring semester. See the chart on page 239 for the number of semester credit hours required in each prepharmacy subject area and the exact courses as offered at UK. Students may complete the prepharmacy course work at another accredited college or university.

English Requirement for UK and Non-UK Students Interested in Pharmacy

UK students must take ENG 104, a first-year, 4-credit hour writing course, and an approved English 200-level, 3-credit hour English course for prepharmacy. Non-UK students must take two semesters of English writing/composition and/or English literature. For questions about this requirement, contact the Prepharmacy Advisor at (859) 323-2755.

Pharm.D. Admission Requirements: Suggested Prepharmacy Schedule

Below is a suggested two-year schedule for UK students on a prepharmacy track. For a three-year, less aggressive prepharmacy schedule, contact the Prepharmacy Advisor at (859) 323-2755.

FIRST PREPHARMACY YEAR

Fall Semester

BIO 152 Principles of Biology II	3
BIO 151 Principles of Biology Laboratory I	
or	
BIO 153 Principles of Biology Laboratory II	2
CHE 105 General College Chemistry I	3
CHE 111 Laboratory to Accompany	
General Chemistry I	1
*MA 113 Calculus I	4
Electives	3
TOTAL	16

Spring Semester

BIO 208 Principles of Microbiology 3
 BIO 209 Introductory Microbiology Laboratory 2
 CHE 107 General College Chemistry II 3
 CHE 113 Laboratory to Accompany
 General Chemistry II 2
 ENG 104 Writing: An Accelerated
 Foundational Course 4
 STA 291 Statistical Method 3
 TOTAL 17

SECOND PREPHARMACY YEAR

Fall Semester

CHE 230 Organic Chemistry I 3
 CHE 231 Organic Chemistry Laboratory I 2
 PHY 211 General Physics 5
 ANA 209 Principles of Human Anatomy 3
 ENG 2XX Writing Intensive Course 3
 Elective 3
 TOTAL 19

Spring Semester

CHE 232 Organic Chemistry II 3
 CHE 233 Organic Chemistry Laboratory II 2

PHY 213 General Physics 5
 ECO 201 Principles of Economics I 3
 Electives 5
 TOTAL 18
**Students not prepared to take MA 113 (Calculus I) may substitute both MA 109 (College Algebra) and MA 123 (Elementary Calculus and Its Applications) during the fall/spring for a total of six hours of mathematics.*

Grades/Pharmacy College Admissions Test (PCAT)

Grades: Please note that a grade of **C** or higher is required in all prepharmacy courses.

Grades below C: If prior to conditional acceptance, applicants are advised to repeat prepharmacy courses to earn a **C** average and improve their chances for admission. Most applicants will still be completing prepharmacy courses at the time admission decisions are made, however. In such cases, applicants should be advised that grades below **C** in any required course after acceptance will result in a review by the Admis-

sion Committee and could cause rescinding of admission.

Pharmacy College Admission Test (PCAT)

In addition to completing the required prepharmacy course work, prospective students must take and submit at least one set of PCAT scores for admission consideration. The highest composite percentile score reported will be considered in the admissions process. There is no limit on the number of times the PCAT can be taken. However, the College does **not** consider PCAT scores over three years old or test scores from a PCAT taken in January of the year in which the applicant wishes to enter the College.

The PCAT is a standardized test designed to measure general ability and scientific knowledge in five areas: verbal reasoning, reading comprehension, biology, chemistry and quantitative ability. There is also a critical thinking essay. The

Prepharmacy Required Subjects	Number of Semester Credit Hours Required in Each Subject	UK Prepharmacy Courses
English	2 semesters (6-7 semester credit hours)	ENG 104 and ENG 200+
Animal biology and lab	1 semester plus lab (4-5 semester credit hours)	BIO 152 and either BIO 151 or BIO 153 (BIO labs)
Microbiology and lab	1 semester plus lab (4-5 semester credit hours)	BIO 208 and 209 (lab) (BIO 308 also acceptable with BIO 209 lab)
Calculus Students can choose to bypass calculus by taking both college algebra and elementary calculus.	1 semester (4 semester credit hours OR 6 semester hours if taking college algebra and elementary calculus)	MA 113 OR both MA 109 (College Algebra) and MA 123 (Elementary Calculus)
Statistics	1 semester (3 semester credit hours)	STA 291
Human anatomy or physiology Non-UK students may take physiology or combined AP courses if anatomy is not offered at your school.	1 semester (3 semester credit hours)	ANA 209 or PGY 206 (anatomy is preferred)
General chemistry and lab(s)	2 semesters plus lab(s) (8-10 semester credit hours)	CHE 105 and CHE 111, CHE 107 and CHE 113
Organic chemistry and labs	2 semesters plus labs (8-10 semester credit hours)	CHE 230 and CHE 231, CHE 232 and CHE 233
Physics and labs (algebra-based physics) If the physics lecture courses are worth a minimum of 8 semester credit hours, then the labs are not needed.	2 semesters plus labs (8-10 semester credit hours)	PHY 211 and PHY 213
Microeconomics	1 semester (3 semester credit hours)	ECO 201
Elective courses	Enough to bring the total to 70 semester credits	Electives to consider: physiology, biochemistry, psychology, public speaking, interpersonal communication, medical terminology, logic, health care ethics, general education courses.

PCAT is developed and administered by Harcourt Assessment, Inc., which currently offers the exam four times per year. Test dates can vary from year to year. For more information about PCAT test dates, registration process and deadlines, contact Harcourt Assessment at: 1 (800) 622-3231 or at: www.pcatweb.info.

Structured Admissions Interview

To be considered for admission, applicants must be selected for and complete a structured interview process. Interview selection is based on information submitted during the application process. The interview itself is structured to assess the applicant's communication skills, confidence, integrity, maturity, commitment to the field of pharmacy, motivation, character and ability to interact with others. Students selected for an interview can expect to spend about two hours interviewing. The interview may include an individual and group session with fellow applicants before a committee of faculty, practitioners and current pharmacy students.

Note: Interview dates for each admission cycle are set in late summer by the College of Pharmacy Admissions Office. Those dates may vary annually. It is strongly suggested that candidates apply at least 6-8 weeks in advance of either the Early Decision or Regular Admission application deadlines and prior to interview dates.

Rolling Admissions Process/ Application Timelines

Rolling Admissions: Please note that the UK College of Pharmacy uses a rolling admissions process. The College screens applications, schedules interviews and makes acceptance decisions on a continual basis, which makes it necessary to complete the application process as early in the admissions cycle as possible. Review of applications specifically begins with Early Decision in late August/early September and runs through the Regular Decision process in January. Interviews and acceptance decisions will be made on a continual basis until the class is filled.

Early Decision (ED): Applicants are strongly encouraged to apply as early as June-August for Early Decision. Many positions in the class will be filled through the ED process, which will greatly limit available seats once the Regular Decision process begins in early January. **Candidates should be advised that an early application receives stronger consideration.**

Required Admission Applications, Documents and Verification Process

Two separate applications and fees are required for admission to the UK College of Pharmacy:

1. PharmCAS Online Application
2. UK Pharm.D. Supplemental Application

1. PharmCAS Online Application – www.pharmcas.org

The College of Pharmacy utilizes a centralized application service called PharmCAS (Pharmacy College Application Service). Through PharmCAS, applicants submit a Web-based application comprised of biographical data, post-secondary institutions attended, academic course history, work experience, extracurricular activities, a personal statement and official transcripts from all accredited U.S./Canadian institutions attended. PharmCAS allows students to submit a single application to apply to multiple Pharm.D. programs. Students planning to apply to enter the UK Pharm.D. program are required to utilize PharmCAS.

College Transcripts: It is the applicant's responsibility to arrange for PharmCAS to receive all official transcripts before application deadlines. Official transcripts must be submitted from every U.S. and English-speaking institution attended by the applicant. If fall term grades are not available until after the time of application, the candidate must arrange for official fall transcripts to be sent directly to PharmCAS as soon as possible. It is the applicant's responsibility to submit fall transcripts, add any new courses completed since first submitting the PharmCAS application and to edit their in-progress and planned courses.

PharmCAS Verification: PharmCAS will not begin to verify transcripts and process the application until the student e-submits their complete PharmCAS application, arranges for sealed official transcripts to be mailed to PharmCAS directly from every U.S. and Canadian postsecondary institution attended, and pays the correct PharmCAS application fee. **It is not necessary to wait for the arrival of references, transcripts, fall grades, or PCAT scores to e-submit your application.**

2. UK Supplemental Application – [http://pharmacy.mc.uky.edu/admissions/ admissions.php](http://pharmacy.mc.uky.edu/admissions/admissions.php)

In addition to applying through PharmCAS, applicants are *required* to submit a UK Pharm.D. Supplemental Application and fee. The Supplemental Application is updated each June and is available at: <http://pharmacy.mc.uky.edu/admissions/admissions.php>

NOTE: Deadlines for application materials vary annually depending upon requirements of the PharmCAS. For the most current listings of application deadlines and procedures, applicants should check both the PharmCAS and UK College of Pharmacy Web sites in early June before the academic year in which they intend to apply to the College.

Admission Committee Decisions/ Conditional Acceptance

The Admissions Committee convenes and admission decisions are made at the conclusion of

each round of interviews. Selected candidates are then "conditionally accepted" based on a holistic review of the PharmCAS and UK supplemental application. The review will include evaluation of GPA (weighing the science GPA most heavily), PCAT scores, interview performance, references, leadership/volunteer/service activities, written essays, character, contribution to diversity and an assessment of other characteristics as described under "Admissions Overview." The total number of students admitted each year will depend upon the availability of resources.

All acceptances remain conditional until final matriculation and fall enrollment in classes.

Final Matriculation/Fall Enrollment Requirements

Before final matriculation and fall enrollment can be approved, all conditionally accepted students must submit a non-refundable tuition deposit, signed copies of specified acceptance forms, pass a criminal background check/drug screen with acceptable results, attend orientation programs and meet other enrollment requirements as set forth by the College prior to the first day of classes.

Criminal Background Check and Drug Screen: Applicants should be aware that both criminal background checks (CBC) and drug screens (DS) are becoming increasingly common requirements for participation in specific course work in the College of Pharmacy and for eventual licensure as a pharmacist. As a result, CBC/DS are now requirements for those students conditionally accepted for admission and must be completed with satisfactory results prior to matriculation to the College. Instructions for completion of CBC/DS requirements will be forwarded immediately following conditional acceptance to the College. The CBC/DS will be annual requirements for all Pharm.D. students enrolled in the College. The types of tests required as well as the cost involved are subject to change and beyond the control of the College of Pharmacy. The expense for background checks and drug screens will be borne by the individual applicant and/or student.

To view the official UK College of Pharmacy Criminal Background Check/Drug Screen Policy, visit: http://pharmacy.mc.uky.edu/admissions/UK_CBC_DS_Policy.pdf.

Dean of the College of Public Health is Stephen W. Wyatt. Linda J. Alexander is Associate Dean for Academic Affairs. Richard R. Clayton is Associate Dean for Research. Robert McKnight is Chair, Preventive Medicine and Environmental Health. Richard Kryscio is Chair, Biostatistics. Julia Costich is Chair, Health Services Management. Glyn Caldwell is Interim Chair, Epidemiology. Pamela B. Teaster is Chair, Gerontology. Richard Crosby is Chair, Health Behavior. Laverne R. Carter is Director of Admissions. Marilyn Underwood is Director of Student Affairs.

The College of Public Health

A defining characteristic of the area of public health is its focus on population groups rather than individuals. Public health professionals are concerned with the health of communities, relying heavily on collaboration with local, state, and national entities to improve the health status of their targeted populations. With the current interest in health care reform, interest in bioterrorism preparedness, concerns over managed care, and other factors impacting the nation's health care system, the need for highly trained public health professionals is increasing. Professionals with the Master of Public Health (M.P.H.) and/or the Doctor of Public Health (Dr.P.H.) hold important roles in a variety of public and private settings, e.g., local and state health departments, health care facilities, universities, state and national agencies, social service agencies, and community-centered health education facilities. In these positions, they can be involved directly with the development, implementation and assessment of health education/disease prevention programs, and in initiatives for improving health care services.

The College of Public Health offers the M.P.H. degree, the Dr.P.H. degree, and the Ph.D. in Epidemiology and Biostatistics. The M.P.H. is an applied professional/graduate degree designed for highly motivated students who either have a professional degree or a substantial interest in public health. Unique sequencing of courses, community-based program activities, and field/laboratory research provide students with multiple opportunities to define their course of study. The M.P.H. also may be part of a combined degree with other professional and graduate programs. The Dr.P.H. is a terminal professional degree that will prepare graduates to assume professional leadership responsibilities in local, state, national, and international public health activities. Course work will emphasize the integration and application of new knowledge

and theory, and analytical, critical thinking, and problem solving skills to address the public health concerns of the Commonwealth and nation.

In addition, the College of Public Health offers one undergraduate course, CPH 201, Introduction to Public Health. The course provides the student with basic knowledge about the discipline of public health. After receiving a philosophical and political orientation to public health, students will begin to acquire functional knowledge of the strategies most often applied in public health practice.

The College also offers a Ph.D. program in Gerontology. For more information, visit the Web site at: www.mc.uky.edu/gerontology.

The Master of Public Health degree requires a minimum of 42 credit hours of study for completion. All students must complete 18 semester hours of required core course work and 15 hours of specialty work in one of the five areas of concentration. The concentrations are biostatistics, epidemiology, health behavior, health services management, and occupational/environmental health. In addition, three credit hours of field practicum, three credit hours of research and three credit hours of a Capstone Project are required.

The M.P.H. core course requirements provide a broad overview of the disciplines of public health and the basic principles of public health practice. Specialty course work develops the skills and knowledge upon which to build or enhance a career in public health. A field practicum in a community, a public health facility, a government agency or related setting will represent the culminating experience that will result in a written Capstone Project paper.

The Dr.P.H. is designed as a college-wide advanced degree and will require a minimum of 63 semester hours of course work beyond the master's degree. The Dr.P.H. candidate must have a Master of Public Health, a Master of Science in Public Health, or an equivalent degree. Examples of equivalent degrees are programs related to public health, such as the Master of Arts in Communications, or the Master of Science in Nursing, along with course work equivalent to the five basic core courses in the M.P.H. curriculum. Those applications not meeting the preparation requirements will be evaluated on an individual basis.

Students will complete a curriculum spanning the five core discipline areas offered by the College of Public Health. Typically, a full-time student will require a minimum of three years beyond the master's degree to complete the program. The program is designed to accommodate non-traditional, working, and part-time students.

The Dr.P.H. curriculum includes:

- Fifteen semester hours of required course work in the core curriculum, which consists of an advanced course in each of the five core public health areas of concentration (epidemiology, biostatistics, health services management, health behavior, and occupational/environmental health).
- A second level advanced course in three of the five concentration areas including the course in your area of concentration.
- Fifteen hours of professional elective course work consistent with your area of concentration.
- A one-hour integrative professional colloquium in six semesters of enrollment.
- Two supervised public health field experiences.
- An integrated capstone option of either a problem-based or research-based project paper demonstrating appropriate discipline understanding.

Applications for admission to the M.P.H. degree will be accepted and considered at any time. There is an application deadline for each program; for current information, consult the College Web site at: www.ukcph.org/. Applicants are responsible for ensuring that their applications are complete, and applications will not be reviewed until all materials have been received.

James P. "Ike" Adams, Jr., Ph.D., is Dean of the College of Social Work; Janet P. Ford, Ph.D., is Director of Graduate Studies; James J. Clark, Ph.D., is Associate Dean for Research; David P. Royle, Ph.D., is Director of the Ph.D. Program; Beth K. Mills, M.S.W., is Director of Field Education; Karen S. Badger, Ph.D., is Director of the Undergraduate Program.

Social work is a profession with a two-fold mission: to help people function as well as they can within their environment and to work for improved social conditions. Social workers are involved in providing services to people in such areas as education, health, mental health, housing, public welfare, counseling, services to the aging, care for the retarded, recreation, corrections and criminal justice, family services, child welfare services, services for the physically and mentally handicapped, vocational rehabilitation and the like. This includes services designed to protect, promote or restore the well-being of people. Both universal services and services for special-needs groups are included.

Social work is not only restorative in nature, responding to human problems after the fact; there is also a strong commitment towards preventive measures. An emphasis upon institutional change within society is predicated upon the principle that society has a responsibility to protect the most vulnerable groups in its midst from falling prey to damage and injury. This expresses itself in the central thrust of the social work profession towards social justice.

The origins of social work are rooted in the ancient human impulse of altruism, the desire to care for one another's needs. Social work became a profession around the beginning of the twentieth century through the efforts of social reformers to meet the needs of the poor, of neglected children and of exploited workers through the better organization of charities and the first "friendly visitors." Social workers led the fight for child labor laws, more humane industrial conditions, voting rights for women and other progressive causes.

Today, professional social work as described in a publication of the National Association of Social Workers, is a "dynamic, growing profession based on knowledge drawn from the social sciences and its own research and practice. It has a code of ethics, standards for practice, and a nationwide system of accredited educational programs designed to merge the impulse to help others with the skill and knowledge needed to provide that help."

Program Accreditation

Both the Bachelor of Arts in Social Work and the Master of Social Work degree programs are fully accredited by the Council on Social Work Education.

Licensing

Social work graduates are eligible for licensing from the State Board of Examiners of Social Work of Kentucky, PO Box 1360, Frankfort, KY 40602, as follows:

- BASW graduates for license as "social workers"
- MSW graduates for license as "certified social workers"

Undergraduate Program in Social Work

The University of Kentucky grants the following degree in the College of Social Work:

- Bachelor of Arts in Social Work

THE UNDERGRADUATE PROGRAM OF EDUCATION FOR SOCIAL WORK

The undergraduate program in social work was inaugurated in 1944. Effective July 1, 1969, its administration was transferred from the College of Arts and Sciences to the newly established College of Social Professions, which is now the College of Social Work. Freshmen and transfer students who elect social work as a major should arrange to register in the College of Social Work. Each student will be assigned a member of the faculty of the college as an advisor who will assist in the selection of appropriate courses and ensure that the requirements for the B.A. degree are met. Students who wish special information or a personal interview prior to registration may make an appointment through the Office of the Director of the Undergraduate Program of the College of Social Work.

The principal objective of the undergraduate program is to prepare students for beginning social work practice. Additionally, it prepares students for graduate professional education.

All social work majors have actual experience in the field under faculty direction. These experiences are provided in teaching-learning centers in a variety of agencies located in or adjacent to Lexington.

Courses in social work contribute to the liberal education of all students and help prepare them to be more effective citizens in a complex society

in which welfare issues and programs are of increasing importance to everyone.

These courses may serve one or more of the following purposes:

1. To enrich and broaden the knowledge of social problems and social issues.
2. To help develop effective interpersonal relations.
3. To provide basic knowledge of social services to students who are preparing for careers in other helping professions (i.e., special education, rehabilitation, nursing, law, medicine).

Advising

Every student is assigned an academic advisor who assists them in preparing for registration each semester. Undergraduate advisors are assigned by the Director of the Undergraduate Program, 625 Patterson Office Tower, (859) 257-2350.

Undergraduate Admission Policy

Admission to the University of Kentucky is sufficient for admission to the College of Social Work as a premajor. Social work students receive academic advising from the College of Social Work faculty and must successfully complete the premajor course requirements before applying to the BASW degree program. The premajor course requirements are: (SW 124 and SW 222) or SW 322; an introductory psychology course; an introductory sociology course; and BIO 102 and BIO 103 or BIO 110.

An application must be filed with the College of Social Work in order for a student to be considered for admission as a major. In general, admission as a major depends upon the qualifications and preparation of the applicant, as well as the availability of resources for maintaining quality instruction.

Admission Criteria to the Bachelor of Arts in Social Work Degree Program

In order to be admitted to the BASW degree program as a major, applicants must fulfill the following requirements:

1. Admission to the University of Kentucky (students are considered for acceptance by the College only after acceptance by the University);
2. A grade of **B** or better in **both** SW 124 and SW 222, or equivalent (or a grade of **B** or better in SW 322);

3. Submission of an application form;
4. Minimum of a 2.5 cumulative grade-point average on all college work attempted as computed by the Registrar's Office;
5. Ability to articulate reasons for choosing social work as a career, as evidenced in an essay;
6. A passing grade in the introductory psychology course, sociology course, and in the required biology courses.

Applications for admission to the College of Social Work must be received by the Records Office of the College of Social Work (613 Patterson Office Tower) no later than May 1 for summer sessions, August 1 for the fall semester, and December 1 for the spring semester.

Individuals who do not meet the admissions criteria may submit additional materials to the College's Admissions Committee. Admission may be granted if there is persuasive evidence of both the capability and motivation to undertake successfully the BASW degree program.

BACHELOR OF ARTS IN SOCIAL WORK

Degree Requirements

The College of Social Work requires students to earn a minimum of 120 hours for the B.A. in Social Work with a minimum grade-point average of 2.5. In addition, students must earn a grade of C or better in all professional social work core classes. Students may take additional hours in accordance with stated University policy.

In addition to fulfilling University Studies requirements, students must complete the program requirements listed below.

College Required Courses Hours

SW 124 Introduction to Social Services and	
SW 222 Development of Social Welfare	6
or	
*SW 322 Social Work and Social Welfare	4

*For junior transfers only; substitutes for SW 124, SW 222.

Subtotal: College Required Hours 4-6

University Studies Requirements

See "University Studies Program" on pages 83-87 for the complete University Studies requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill University Studies areas. Students should work closely with their advisor to complete the University Studies Program requirements.

Inference-Logic

STA 200 Statistics: A Force in Human Judgment	3
plus	
PHI 120 Introductory Logic	
or	
PHI 320 Symbolic Logic I	3

Oral Communication

Social work majors fulfill this requirement using courses in the Major Requirement.

Natural Sciences

BIO 102 Human Ecology	3
BIO 103 Basic Ideas of Biology	3

Graduation Writing Requirement

SW 470, required in the Major Requirements, fulfills the Graduation Writing Requirement.

Graduation Writing Requirement Hours: 3

Premajor Requirements Hours

Anthropology

Three hours, normally chosen from the following:

ANT 220 Introduction to Cultural Anthropology	3
ANT 333 Contemporary Human Variation	3

Biology

Three or six hours:

*BIO 102 Human Ecology and	
*BIO 103 Basic Ideas of Biology	6
or	
BIO 110 Introduction to Human Biology and Health	3

Economics

Three hours, normally:

*ECO 101 Contemporary Economic Issues	3
---	---

Political Science

Three hours, normally chosen from the following:

*PS 101 American Government	3
PS 240 Introduction to Political Theory	3
PS 245 Introduction to Political Analysis	3
PS 458 State Government	3

Psychology

Three or four hours, normally chosen from the following:

*PSY 100 Introduction to Psychology	4
PSY 223 Developmental Psychology	3

Sociology

Three hours:

*SOC 101 Introduction to Sociology	3
--	---

Statistics

Three hours:

STA 292 Descriptive Statistics and	
STA 293 Probability and	
STA 294 Sampling and Inference	3
or	
*STA 200 Statistics: A Force in Human Judgment	3
or	
STA 291 Statistical Method	3

*These courses may also be used to fulfill University Studies requirements.

Subtotal: Premajor Hours 21-25

Major Requirements Hours

SW 300 Social Work Practice I	4
SW 400 Social Work Practice II	4
SW 420 Human Behavior and the Social Environment ...	3
SW 430 Social Welfare Policy:	
Theory and Implementation	3
SW 435 Foundations of Professional	
Ethics in Social Work	2
SW 444 Educational Practicum I	5
SW 445 Educational Practicum II	8
SW 450 Social Work Research	4
SW 470 Senior Seminar	3

NOTE: Students must earn a grade of C or better in all Major Requirements courses.

Subtotal: Major Hours 36

Social and Behavioral Sciences and Social Work Electives

Students must complete 15 hours of upper-division courses from any of the following: anthropology, economics, family studies, political science, psychology, social work, sociology.

Subtotal: Related Electives 15

Electives

Students must complete at least six hours of upper-division free elective courses and enough lower-division elective hours to lead to the minimum total of 120 hours required for graduation.

Subtotal: Free Electives minimum of 6

TOTAL HOURS: 120

Probation, Dismissal and Reinstatement Policy

An undergraduate social work major or graduate student may be dismissed from the College of Social Work for failure to make satisfactory progress. In the Social Work program, the college continuously monitors the progress of all social work students. Consistent with University regulations and the CSWE requirements that social work programs have policies for "terminating a student's enrolment . . . for reasons of academic and professional performance," the following rules apply in the College of Social Work.

Academic Performance

For students accepted to the Bachelor of Arts in Social Work (BASW) program, the rules for academic probation, dismissal and reinstatement are comparable to those established by the University for undergraduate colleges and also include criteria for student performance in required social work courses:

a. A student must earn a C or better in all social work core courses (SW 300, SW 420, SW 400, SW 430, SW 444, SW 445, SW 450, SW 470) in order to complete the major requirements and advance through sequential social work courses. A grade lower than a C will require the student to repeat that course and obtain a C or better to meet major requirements.

b. Any student who fails to maintain a cumulative UK GPA of 2.5 shall be placed on academic probation within the College of Social Work.

c. A student can be removed from academic probation when a cumulative GPA of 2.5 is obtained.

d. A student shall be dismissed from the College who fails to achieve a cumulative GPA of 2.5 or higher within two consecutive semesters of being placed on probation or fails to earn a term GPA of 2.5 or higher for any two consecutive semesters following his/her placement on academic probation.

e. A student who earns a term GPA of 2.5 or higher for each semester following placement on probation will continue in probationary status until a cumulative GPA of 2.5 or higher is obtained.

f. A student may not graduate from the College of Social Work while on academic probation.

g. Students who are on academic probation within the College of Social Work may transfer to other colleges or departments provided the students meet eligibility criteria.

h. A student who has been dismissed from the College for academic reasons and has remained outside the program for at least a semester and a summer session may petition for reinstatement. Petition for reinstatement is to be made in writing to the Dean and shall include a written statement by the student specifying why he/she should be considered for reinstatement. After consultation with the Director of Undergraduate Studies and other faculty as appropriate, the Dean may choose to accept or deny the petition. The Dean may require that the student agree to certain conditions in order to be reinstated (i.e. take additional course work, complete a writing class, obtain tutoring, etc.). The Dean shall inform the student in writing that he/she has been reinstated or reasons for denial of the petition for reinstatement. No student will be readmitted to the College via reinstatement request more than twice.

i. A student who has been dismissed for academic reasons and reinstated shall, upon reinstatement, be placed on academic probation and be subject to the academic performance expectations outlined in this policy.

COURSES FOR NONMAJORS

Students from other departments are eligible to take certain social work courses offered to enrich the content of their basic major and/or to increase their knowledge and understanding of the society of which they are a part. They may take SW 124, Introduction to Social Services; SW 222, Development of Social Welfare; SW 322, Social Work and Social Welfare; and elective social work courses.

GRADUATE PROGRAMS

The College of Social Work offers graduate curricula leading to the Master of Social Work degree and to the Ph.D. in Social Work. The Ph.D. program is offered jointly with the University of Louisville. An MSW is a prerequisite to Ph.D. admission.

Master's applicants holding the baccalaureate degree in social work may be eligible for the 38-credit advanced standing option. Others will be considered for the regular 60-credit MSW program.

For further information, see *The Graduate School Bulletin* or the *College of Social Work Bulletin*.

Additional Learning Opportunities

Jeannine Blackwell, Ph.D., is Interim Associate Provost for Undergraduate Education; Don Witt is Assistant Provost for Enrollment Management.

ADDITIONAL LEARNING OPPORTUNITIES

There are plenty of ways students can earn credit at the University of Kentucky. To learn more, see the information below. Distance Learning Programs are administered by the Office of the Associate Provost for Undergraduate Education; all other programs are administered by the Assistant Provost for Enrollment Management.

DISTANCE LEARNING PROGRAMS

Distance Learning Programs, a unit of the Teaching and Academic Support Center (TASC), provides a wide variety of faculty and student support services to enable development and delivery of credit courses and programs throughout the Commonwealth of Kentucky and around the world, with over 11,000 enrollments annually. Distance Learning students enroll in 15 full degree programs, over 600 courses, 5 certificates and state-mandated training while residing in over 200 cities and towns in more than 100 Kentucky counties. Distance Learning Programs delivers course work in cooperation with Teach-

ing and Academic Support Center staff, UK academic departments and colleges, and other institutions of higher education statewide and nationally. Available advanced delivery modes include online instruction, interactive video, World Wide Web instruction, video-desktop conferencing, videostreaming, CD-ROM/DVD, audio conferencing, and hybrid models.

Specific support includes:

- online and hybrid course development and support;
- technical coordinators at interactive video and videoconferencing sites;
- extensive distance learning faculty and student support services;
- exploration of new technologies for distance learning delivery/modeling;
- strategic planning with academic units;
- support for collaborative distance learning programming;
- marketing for Distance Learning courses and programs; and
- coordination with Distance Learning Library Services.

For more information on Distance Learning Programs, call (859) 257-3377; or go to: www.uky.edu/DistanceLearning.

EVENING AND WEEKEND PROGRAMS

Evening and Weekend Programs is dedicated to offering high quality courses, complete degree programs and student services at convenient times to students of all ages. Of the 11,000 students enrolling in evening and weekend courses every semester, many are busy people pursuing their educational goals while balancing job responsibilities and family commitments. Students wishing to take one or two courses to enhance job skills or learn something new may choose from over 400 courses taught in evenings and on weekends in 70 fields every semester. Those wanting to complete unfinished degrees or begin study may select from eight bachelor, masters and doctoral degree programs.

Individuals desiring to pursue lifelong learning without the structure of seeking a degree may begin their studies as nondegree, undergraduate students or post-baccalaureate, graduate students. College credit earned as a nondegree student may be applied to a degree program at a later date when the student changes admission status to degree-seeking and meets the University's requirements for admission as a degree-seeking student.

Students denied admission as degree-seeking; applicants who are under academic or disciplinary suspension; and applicants currently under suspension at other institutions may not enroll in evening and weekend courses until they have been reinstated.

Contact Evening and Weekend Programs for more information or with questions, comments, or concerns, Monday through Thursday 9 A.M. to 7 P.M.; Friday, 9 A.M. to 6 P.M.; and Saturday by appointment.

INDEPENDENT STUDY PROGRAM

The UK Independent Study Program assists individuals from middle school onward in achieving their educational aspirations. Whether students live nearby or around the world, traditional mail delivery, electronic mail, and online offerings provide vehicles for convenient high-quality middle, high school, and college courses suited to their needs and preferences.

UK Independent Study offers over one hundred UK college credit correspondence courses, over ninety half-unit high school credit courses in subjects such as English, social studies, mathematics, business education, health, foreign languages, and sciences, and a rising number of middle school courses in English, social studies, science, and mathematics.

ISP High School Division

The High School Division offers a complete curriculum of basic courses required for graduation from Kentucky high schools. All courses are taught by certified teachers, and all students are required to pass a proctored, comprehensive final examination. All courses are offered in the correspondence format, but an increasing number include an e-mail option for transmission of assignments.

In addition, the High School Division offers Advanced Placement courses in Calculus, Spanish, English, and an ACT prep course for the English portion of the test. These courses are designed to prepare high school students for Advanced Placement tests.

Also offered by the High School Division are twenty-two half-unit (one semester) Middle School (Grades 6, 7, and 8) courses in basic subjects such as Language Arts/English, Integrated Math, Earth Science, Life Science, and Social Studies.

ISP College Division

Students enrolling for college-level courses must satisfy course prerequisites, but official transcripts are not required. Admission to the University of Kentucky is **not** a requirement for enrollment in ISP college credit course work.

Students pursuing degrees at the University of Kentucky should be aware of the following regulations concerning independent study (correspondence) courses:

1. No more than 30 credit hours of the total required for an undergraduate degree may

be earned through independent study courses. No more than one-third of the requirements for a major may be earned through independent study courses.

2. Students may enroll for an independent study course any time during the calendar year and have one year from the date of enrollment in which to finish the course. Students may obtain a four-month extension.
3. Students in residence at the University must have permission from their dean to register for an independent study course.
4. Any courses enrolled in after the last day of Add/Drop will be posted to the next semester.
5. Hours earned by independent study will be credited in the term in which the student enrolled.
6. Graduate or professional credit is not granted for work taken by independent study. Graduate students, however, may do independent study work, and the credit earned can be applied toward undergraduate major and/or minor fields for certification purposes.

University courses offered by independent study are listed below. Descriptions may be found in the *Course Descriptions* section of this Bulletin.

Accounting: ACC 201, 202

Agriculture: AEC 101

Animal Science: ASC 380

Anthropology: ANT 101, 160, 221

Astronomy: AST 191, 192

Biology: BIO 103, 104, 150, 208, 304, 508

Economics: ECO 101, 201, 202, 412

English: ENG 102, 104, 203, 204, 230, 262

Family Studies: FAM 251, 252, 253

Finance: FIN 300

Forestry: FOR 101

Geography: GEO 130, 152, 160, 172, 230, 322

Hispanic Studies: SPA 141, 142, 241, 242

History: HIS 104, 105, 108, 109, 464, 467, 578

Human Environmental Sciences: HES 100; MAT 120

Management: MGT 301

Marketing: MKT 300, 310, 320, 330

Mathematics: MA 108R, 109, 112, 113, 114, 123, 201

Modern and Classical Languages, Literatures, and Cultures: CLA 101, 102, 131, 201, 202; FR 101, 102, 201, 202

Music: MUS 100, 400

Nutrition and Food Science: NFS 101, 212

Philosophy: PHI 100, 120, 130, 260, 305, 332, 343, 380

Plant and Soil Science: PLS 104, 386

Psychology: PSY 223

Religious Studies: RS 130

Sociology: SOC 101, 235, 335, 342

Statistics: STA 291, 292, 293, 294

UK Independent Study participates in the Southern Regional Education Board's Electronic Campus.

Catalogs and Information

The annual Independent Study Program college, high school, and middle school catalogs list complete course descriptions, program regulations, and tuition amounts. For further information about currently offered college courses, call (859) 257-4002. Send e-mail to: istudy@uky.edu. For information on middle or high school courses, call (859) 257-4001; or send e-mail to:

HIGHSCHOOL-L@LSV.UKY.EDU.

Information on both programs is available on our Web site: www.uky.edu/ISP.

SUMMER SCHOOL

The University offers two summer sessions between the spring and fall semesters: a first (four week) summer session in May followed by a second (eight week) summer session beginning in June. There are also some courses with variable terms available within these two sessions. Summer School courses provide educational enrichment and give students the opportunity to accelerate their academic progress. Information regarding admission procedures and Summer School calendar dates are listed in the *University Calendar* at the front of this Bulletin.

The Summer School *Schedule of Classes* can be viewed online in early December. For information about summer school, contact:

Summer School

 Kenneth F. Haynes, professor, Ph.D., California-Davis, 1982
 Douglas W. Johnson, extension professor, Ph.D., Florida, 1980
 Fred William Knapp, professor emeritus, Ph.D., Kansas State, 1961
 John J. Obrycki, professor, Ph.D., Cornell, 1982
 Subba Reddy Palli, professor, Ph.D., Western Ontario, 1987

Daniel A. Potter, professor, Ph.D., Ohio, 1978
 Michael F. Potter, extension professor, Ph.D., Arizona, 1982
 Lynne K. Rieske-Kinney, professor, Ph.D., Wisconsin, 1995
 Juan Guadalupe Rodriguez, professor emeritus, Ph.D., Ohio State, 1949
 John D. Sedlacek, assistant adjunct professor, Ph.D., Kentucky, 1985
 Michael Sharkey, professor, Ph.D., McGill, 1983
 Lee H. Townsend, Jr., extension professor, Ph.D., Virginia Polytechnic Institute, 1977
 Bruce A. Webb, professor, Ph.D., Washington, 1988
 Thomas C. Webster, assistant adjunct professor, Ph.D., California-Davis, 1986
 Jennifer A. White, assistant professor, Ph.D., Minnesota, 2005
 Kenneth V. Yeargan, professor, Ph.D., California, 1974
 Xuguo Zhou, assistant professor, Ph.D., Nebraska, 2002

FORESTRY

Michael J. Lacki, interim chair

Mary A. Arthur, professor, Ph.D., Cornell, 1990
 Thomas G. Barnes, extension professor, Ph.D., Texas A&M, 1988
 Christopher D. Barton, associate professor, Ph.D., Kentucky, 1999
 Terrance Conners, associate extension professor, Ph.D., Virginia Polytechnic and State University, 1985
 John J. Cox, assistant adjunct professor, Ph.D., Kentucky, 2003
 Songlin Fei, assistant professor, Ph.D., Penn State, 2004
 Jonathan W. Gassett, assistant adjunct professor, Ph.D., Georgia, 1999
 Deborah B. Hill, extension professor, Ph.D., Yale, 1977
 Paul J. Kalisz, associate professor, Ph.D., Florida, 1982
 Michael J. Lacki, professor, Ph.D., North Carolina State, 1984
 John Lohtka, assistant professor, Ph.D., Auburn, 2006
 James M. Ringe, professor, Ph.D., Purdue, 1983
 Dr. G. Andrew Stainback, assistant professor, Ph.D., Florida, 2002
 Jeffrey Stringer, extension professor, Ph.D., Kentucky, 1993
 David B. Wagner, associate professor, Ph.D., California-Davis, 1986

HORTICULTURE

Robert L. Houtz, chair

Robert G. Anderson, extension professor emeritus, Ph.D., Florida, 1976
 George F. Antonious, assistant adjunct professor, Ph.D., Alexandria, 1983
 Douglas D. Archbold, professor, Ph.D., Michigan State, 1982
 Sharon Bale, adjunct instructor, M.S., Kentucky, 1975
 Michael Bomford, assistant adjunct professor, Ph.D., West Virginia University, 2004
 Gerald R. Brown, extension professor emeritus, Ph.D., Arkansas, 1974
 Jack W. Buxton, associate professor, Ph.D., Kentucky, 1973
 Paul E. Cappiello, associate adjunct professor, Ph.D., Illinois, 1988
 Timothy Coolong, assistant extension professor, Ph.D., Georgia, 2007
 Seth DeBolt, assistant professor, Ph.D., University of Adelaide, 2006
 A. Bruce Downie, associate professor, Ph.D., Guelph, 1994
 Winston Dunwell, extension professor, Ph.D., Idaho, 1978
 Richard E. Durham, associate extension professor, Ph.D., Florida, 1990
 William M. Fountain, extension professor, Ph.D., Louisiana, 1979
 Robert L. Geneve, professor, Ph.D., Minnesota, 1985
 Robert L. Houtz, professor, Ph.D., Michigan State, 1984
 Dwayne L. Ingram, extension professor, Ph.D., Tennessee, 1977
 R. Terry Jones, extension professor emeritus, Ph.D., Ohio State, 1974
 Thomas R. Kemp, professor emeritus, Ph.D., Kentucky, 1970
 Dean E. Knavel, professor emeritus, Ph.D., Michigan State, 1959
 Robert E. McNiel, extension professor emeritus, Ph.D., Purdue, 1975
 Kirk W. Pomper, associate adjunct professor, Ph.D., Oregon State, 1995
 C. R. Roberts, extension professor emeritus, Ph.D., Texas A&M, 1964
 A. Brent Rowell, adjunct professor, Ph.D., Cornell, 1984
 Rebecca A. Schnelle, assistant professor, Ph.D., Florida, 2008
 John C. Snyder, associate professor, Ph.D., Minnesota, 1978
 John G. Strang, extension professor, Ph.D., Oregon State, 1978
 Albert S. Williams, extension professor emeritus, Ph.D., North Carolina State, 1954
 Mark A. Williams, associate professor, Ph.D., California-Irvine, 1998
 Mary L. Witt, extension professor emerita, Ph.D., Oregon State, 1976

LANDSCAPE ARCHITECTURE

Horst Schach, chair

Ned M. Crankshaw, professor, M.L.A., Iowa State, 1988
 Laurie Fields, assistant professor, M.L.A., Michigan, 1994
 Ryan Hargrove, assistant professor, Ph.D., North Carolina State, 2007
 Brian D. Lee, associate professor, Ph.D., Pennsylvania State, 2005
 Thomas J. Nieman, professor, Ph.D., Southern Illinois, 1973
 Horst Schach, professor, M.L.A., California, 1966

PLANT AND SOIL SCIENCES

Todd Wayne Pfeiffer, chair

Glen E. Aiken, adjunct professor, Ph.D., Florida, 1989
 William A. Bailey, associate extension professor, Ph.D., Virginia Polytechnic Institute & State University, 2002
 Richard Irven Barnhisel, professor emeritus, Ph.D., Virginia Polytechnic Institute, 1964
 Michael Barrett, professor, Ph.D., California-Davis, 1980
 Carol Baskin, professor, Ph.D., Vanderbilt, 1968
 Paul Bertsch, professor, Ph.D., Kentucky, 1983
 Morris Jay Bitzer, extension professor emeritus, Ph.D., Purdue, 1968
 Robert L. Blevins, professor emeritus, Ph.D., Ohio State, 1967
 Harold Rhodes Burton, associate professor emeritus, Ph.D., Louisville, 1964
 Lowell Palmer Bush, professor emeritus, Ph.D., Iowa State, 1964
 Joseph Chappell, professor, Ph.D., California-Santa Cruz, 1981
 Glenn Burton Collins, professor emeritus, Ph.D., North Carolina State, 1966
 Paul Leroy Cornelius, professor, Ph.D., Illinois, 1972
 Mark S. Coyne, professor, Ph.D., Michigan State, 1989
 Elisa M. D'Angelo, associate professor, Ph.D., Florida, 1998
 H. Maelor Davies, professor, Ph.D., London, 1977
 Randy D. Dinkins, assistant adjunct professor, Ph.D., University of British Columbia, 1992
 David C. Ditsch, professor, Ph.D., Virginia Polytechnic Institute and State University, 1991
 Charles Thomas Dougherty, professor, Ph.D., Purdue, 1966
 Dennis B. Egli, professor, Ph.D., Illinois, 1969
 Wilbur W. Frye, professor emeritus, Ph.D., Virginia Polytechnic Institute, 1969
 Lawrence J. Grabau, professor, Ph.D., Missouri, 1984
 J.D. Green, extension professor, Oklahoma State, 1986
 John Hamman Grove, associate professor, Ph.D., Georgia, 1980
 Jimmy C. Henning, extension professor, Ph.D., Kentucky, 1986
 James Herbek, extension professor, Ph.D., Illinois, 1970
 David Floyd Hildebrand, professor, Ph.D., Illinois, 1982
 Arthur G. Hunt, professor, Ph.D., Brandeis, 1981
 Isabelle A. Kagan, assistant adjunct professor, Ph.D., Michigan State, 1999
 Anastasios D. Karathanasis, professor, Ph.D., Auburn University, 1982
 Garry D. Lacefield, extension professor emeritus, Ph.D., Missouri, 1974
 Brad D. Lee, associate professor, Ph.D., California-Riverside, 1999
 Chad D. Lee, associate extension professor, Ph.D., Michigan State, 2002
 Paul Davis Legg, professor emeritus, Ph.D., North Carolina State, 1964
 James R. Martin, extension professor, Ph.D., Kentucky, 1978
 Christopher J. Matocha, associate professor, Ph.D., Delaware, 2000
 Rebecca McCulley, assistant professor, Ph.D., Colorado, 2002
 David McNear, assistant professor, Ph.D., Delaware, 2005
 Robert D. Miller, professor, Ph.D., Kentucky, 1980
 Thomas G. Mueller, associate professor, Ph.D., Michigan State, 1998
 Michael D. Mullen, professor, Ph.D., North Carolina State, 1987
 Lloyd W. Murdock, Jr., extension professor, Ph.D., Virginia Polytechnic Institute, 1967
 Gary K. Palmer, extension professor, Ph.D., Tennessee, 1984
 Robert C. Pearce, associate extension professor, Ph.D., Georgia, 1994
 Sharyn E. Perry, associate professor, Ph.D., Wisconsin-Madison, 1993
 Todd Wayne Pfeiffer, professor, Ph.D., Wisconsin-Madison, 1982
 Timothy D. Phillips, associate professor, Ph.D., North Carolina State, 1991
 Charles Gustav Poneleit, professor emeritus, Ph.D., Purdue, 1968
 Andrew J. Powell, Jr., extension professor emeritus, Ph.D., Virginia Polytechnic Institute, 1966
 John Leonard Ragland, professor emeritus, Ph.D., North Carolina State, 1959
 Monroe Rasnake, associate extension professor emeritus, Ph.D., Kentucky, 1973
 Harold B. Rice, associate extension professor emeritus, Ph.D., North Carolina State, 1966
 Gregory J. Schwab, associate extension professor, Ph.D., Kansas State, 2000
 Frank J. Sikora, associate adjunct extension professor, Ph.D., Illinois, 1986
 John Leonidas Sims, professor emeritus, Ph.D., Iowa State, 1960
 Jan Smalle, assistant professor, Ph.D., Ghent, 1998
 M. Scott Smith, professor, Ph.D., Michigan State, 1978
 S. Ray Smith Jr., associate extension professor, Ph.D., Georgia, 1991
 Guiliang Tang, assistant professor, Ph.D., Weizmann Institute of Science, 2000
 Norman Linn Taylor, professor emeritus, Ph.D., Cornell, 1953
 Timothy Henry Taylor, professor emeritus, Ph.D., Penn State, 1955
 Dennis M. TeKrony, professor emeritus, Ph.D., Oregon State, 1969
 William Orville Thom, extension professor emeritus, Ph.D., Missouri, 1975
 Jason M. Urnine, assistant research professor, Ph.D., Georgia, 2004
 Saratha Kumudini VanDoren, assistant professor, Ph.D., University of Guelph, 1999
 David Anthony Van Sanford, professor, Ph.D., North Carolina State, 1981
 George Joseph Wagner, professor, Ph.D., SUNY at Buffalo, 1974
 Kenneth Lincoln Wells, extension professor emeritus, Ph.D., Iowa State, 1963

Ole Wendroth, associate professor, Ph.D., Georg-August-University Gottingen, 1990
 David W. Williams, associate professor, Ph.D., Kentucky, 1996
 William W. Witt, professor, Ph.D., North Carolina State, 1974
 Dongmei Xu, assistant adjunct professor, Ph.D., Kentucky, 1996
 Ling Yuan, associate professor, Ph.D., Texas-Austin, 1988
 Hongyan Zhu, associate professor, Ph.D., Texas A&M, 2001

PLANT PATHOLOGY

David A. Smith, chair

Mark L. Farman, professor, Ph.D., East Anglia, 1990
 Said A. Ghabrial, professor, Ph.D., Louisiana State, 1965
 Michael M. Goodin, associate professor, Ph.D., Penn State, 1996
 John R. Hartman, extension professor emeritus, Ph.D., Wisconsin, 1971
 James W. Hendrix, professor emeritus, Ph.D., North Carolina State, 1963
 Donald E. Hershman, extension professor, Ph.D., Rutgers, 1983
 Aarda Kachroo, assistant professor, Ph.D., Maharaja Sayajirao University of Baroda, 1999
 Pradeep Kachroo, associate professor, Ph.D., Maharaja Sayajirao University of Baroda, 1995
 Joseph A. Kuc', professor emeritus, Ph.D., Purdue, 1955
 Peter D. Nagy, professor, Ph.D., Keszthely, 1990
 William C. Nesmith, extension professor emeritus, Ph.D., North Carolina State, 1977
 Thomas P. Pirone, professor emeritus, Ph.D., Wisconsin, 1960
 Christopher L. Scharld, professor, Ph.D., California-Davis, 1983
 Kenneth W. Seebold, Jr., assistant extension professor, Ph.D., Florida, 1998
 Louis Shain, professor emeritus, Ph.D., North Carolina State, 1967
 John G. Shaw, professor emeritus, Ph.D., Wisconsin, 1960
 Shuh J. Sheen, professor emeritus, Ph.D., Minnesota, 1962
 Robert J. Shepherd, professor emeritus, Ph.D., Wisconsin, 1959
 Malcolm R. Siegel, professor emeritus, Ph.D., Maryland, 1962
 David A. Smith, professor, Ph.D., Cornell, 1974
 Lisa J. Vaillancourt, professor, Ph.D., Purdue, 1991
 Paul Vincelli, extension professor, Ph.D., Cornell, 1988
 Walter J. Walla, extension professor emeritus, Ph.D., Texas A&M, 1971

VETERINARY SCIENCE

Mats Troedsson, chair

Sergey C. Artiushin, assistant research professor, Ph.D., Moscow State, 1981

Richard J. Mitchell, associate professor, M.S., Georgia, 1971; Ph.D., Virginia, 1975
Kristy A. Pepper, assistant professor, D.M.D., Kentucky, 2005
Fonda G. Robinson, associate professor, D.M.D., Kentucky, 1992
Carla Rodriguez, assistant professor (part-time), Kentucky, 1981

W. Michael Sadler, assistant professor, D.M.D., Alabama, 1975
Stephen P. Selwitz, assistant professor (part-time), D.M.D., Kentucky, 1975
Charles A. Thomas, associate professor, D.M.D., Kentucky, 1977; Cert., Geriatrics, Duke, 1991
James H. Timmons, associate professor, D.D.S., Detroit, 1969; M.S.Ed., Kentucky, 1983
Sharon P. Turner, professor, D.D.S., North Carolina, 1979; J.D., North Carolina, 1995
Loren Williams, assistant professor (part-time), D.M.D., Kentucky, 1978

Comprehensive Care

Patricia Nihill, division chief

Thomas F. Carroll, assistant professor, D.M.D., Kentucky, 1981
Ershal Harrison, assistant professor, D.M.D., Kentucky, 1981
Thomas A. McConnell, associate professor, D.D.S., University of the Pacific, 1977
Patricia Nihill, associate professor, D.M.D., Southern IL, 1982; M.S., Northwestern, Chicago, 1991
Deborah S. Ray, assistant professor, D.M.D., Kentucky, 1987; G.P.R. Cert., Kentucky, 1988

DEPARTMENT OF ORAL HEALTH SCIENCE

Jeffrey P. Okeson, chair

Chifu B. Huang, assistant professor, M.S., Kentucky, 1990; Ph.D., 1995, Kentucky; MBA Washington, 2002
Mengtao Li, assistant professor, M.D., Beijing, 1989; Ph.D., Louisville, 1995
Helieh S. Oz, assistant professor, D.V.M., University of Tehran, Iran; 1976; M.S., University of Illinois-Urbana, 1980; Ph.D., Minnesota, 1985

Oral and Maxillofacial Surgery

Larry L. Cunningham, division chief

Larry L. Cunningham, Jr., assistant professor, D.D.S., Texas, 1995; M.D., Texas, 1998
Jeffrey B. Dembo, professor, D.D.S., Northwester, 1981; M.S., Oral and Maxillofacial Surgery, Iowa, 1984
Joseph D. Van Sickels, professor, D.D.S., Virginia, 1972

Pediatric Dentistry

John R. Mink, acting division chief

Elizabeth Barr, assistant professor (part-time), D.M.D., Kentucky, 1974
Nelle Barr, assistant professor (part-time), D.M.D., Louisville, 1991; Cert. Pediatric Dentistry, Louisville, 1986
Shellie A. Branson, assistant professor (part-time), D.M.D., Kentucky,
Rodney Jackson, assistant professor (part-time), D.M.D., Kentucky, 2001
Harold D. Lester, **assistant professor, D.M.D., Louisville, 1963
Kavita Mathu-muju, assistant professor, D.M.D., Manitoba, 1993; M.S., Dental Public Health, Cert. Pediatric Dentistry, North Carolina, 2006
John R. Mink, professor, D.D.S., Indiana, 1956; M.S.D., Indiana, 1961
David A. Nash, professor, D.M.D., Kentucky, 1968; M.S., Iowa, 1970; Ed.D., West Virginia, 1984
Hayden Phillips, assistant professor (part-time), D.M.D., Kentucky, 2003
Catherine Robinette, assistant professor (part-time), D.M.D., Kentucky, 2004

General Dentistry

Ted P. Raybould, division chief

John B. Burt, assistant professor, D.M.D., Kentucky, 1996
Eric T. Demann, assistant professor, D.M.D., Kentucky, 2000
Marc D. Dyer, assistant professor (part-time), D.M.D., Louisville, 2004
Christian S. Fraley, assistant professor, D.M.D., Kentucky, 1996; G.P.R. Cert., Kentucky, 1997
Kathryn Haynes, assistant professor, D.M.D., Kentucky, 1984
Ted P. Raybould, professor, D.M.D., Kentucky, 1981; G.P.R. Cert., Kentucky, 1985
Sherry Slone, assistant professor, D.M.D., Louisville, 1997
Daria Stone, assistant professor, D.M.D., Kentucky, 1995
James R. Thompson, assistant professor (part-time), D.M.D., Kentucky, 1978

Oral Pathology

Dean K. White, division chief

Douglas D. Damm, professor, D.D.S., Louisiana State, 1977; Cert. Oral Pathology, Emory, 1979
Yi-Ling Lin, assistant professor, D.D.S., Taipei, Taiwan, 1989; Ph.D., Harvard, 1997
Dean K. White, professor, D.D.S., Missouri, 1970; M.S.D., Indiana, 1972

Orofacial Pain

Reny de Leeuw, division chief

Elizangela Bertoli, assistant professor (part-time), D.D.S., Universidade Federal Do Espirito, Brazil, 1995; Cert. Prosth., Universidade Federal Do Espirito, Brazil, 1998; M.S., Kentucky, 2005; Cert. GPR, Kentucky, 2007

Ronald W. Botto, associate professor, M.S., Pennsylvania State, 1969; Ph.D., Pennsylvania State, 1976

Charles R. Carlson, *associate professor, Ph.D., Vanderbilt, 1983

Lyle W. Carlson, assistant professor (part-time), M.S., University of Southern California, 1977; Ph.D., University of South Dakota, 1992

Reny de Leeuw, associate professor, D.M.D., State Univ Groningen, 1988; Ph.D., State Univ Groningen, 1994

John E. Lindroth, associate professor, D.D.S., West Virginia, 1977; Fellowship, Orofacial Pain, Kentucky, 1992

Jeffrey P. Okeson, professor, D.M.D., Kentucky, 1972

Alan D. Wilkinson, assistant professor (part-time), D.M.D., Louisville, 1973; Fellowship, Orofacial Pain, Kentucky, 1991

Orthodontics

G. Thomas Klumper, division chief

Cynthia S. Beeman, associate professor, D.D.S., Case Western, 1981; Ph.D., Connecticut, 1989; Cert. Orthodontics, Connecticut, 1989

Melvin W. Dean, assistant professor (part-time), D.M.D., Kentucky, 1977, Cert. Orthodontics, Kentucky, 1979

E. Preston Hicks, associate professor, D.D.S., North Carolina, 1966; M.S., Pediatric Dentistry, North Carolina, 1969; M.S.D., Orthodontics, Washington, 1976

G. Thomas Klumper, associate professor, D.M.D., Kentucky, 1983; M.S., Orthodontics, Michigan, 1991

Judson M. Knight, associate professor (part-time), D.M.D., Kentucky, 1967; Cert. Orthodontics, Kentucky, 1972

Charles E. Pritchett, assistant professor (part-time), D.D.S., Indiana, 1967; Cert. Orthodontics, Kentucky, 1970; M.S.D., Kentucky, 1974

C. Michael Stansbury, assistant professor (part-time), D.M.D., Kentucky, 1976; Cert. Orthodontics, Kentucky, 1979

J. Philip Wahle, assistant professor (part-time), D.M.D., Kentucky, 1990; M.S., Kentucky, 1993

Public Health Dentistry

Robert E. Kovarik, acting division chief

Robert G. Henry, associate professor (part-time), D.M.D., Kentucky, 1981

J. David Hardison, professor, D.M.D., Kentucky, 1980

Alan A. Kaplan, **associate professor, Ph.D., Kentucky, 1975

Robert E. Kovarik, associate professor, D.M.D., Kentucky, 1982; M.S., Georgia, 1991

Karl Lange, professor (part-time), D.M.D., Louisville, 1968

M. Raynor Mullins, associate professor (part-time), D.M.D., Kentucky, 1968; M.P.H., North Carolina, 1970

Judith Skelton, associate professor, Ph.D., Florida, 1983

Jenny L. Stigers, associate professor (part-time), D.M.D., Kentucky, 1984; G.P.R. Cert., Kentucky, 1986

John A. Thompson, assistant professor (part-time), D.M.D., Kentucky, 1971

* joint appointment

** adjunct series

COLLEGE OF DESIGN

Michael Speaks, dean

SCHOOL OF ARCHITECTURE

David M. Biagi, director

David M. Biagi, associate professor, M.Arch., Ohio State

Clyde R. Carpenter, professor and chair of Historic Preservation Department, M.Arch., Pennsylvania

Hans Gesund, professor, Department of Civil Engineering, College of Engineering and College of Design, D.Eng., Yale

Melody Farris Jackson, assistant professor, M.Arch., Cornell

Michael W. Jacobs, instructor, B.Arch., Kentucky

Peyman Jahed, instructor, A.B.D., Kentucky

Richard S. Levine, professor, M.Arch., Rensselaer Polytechnic Institute

Gregory Luhan, associate professor, M.Arch., Princeton

Michael McKay, lecturer, M.Arch., Princeton

Wallis Miller, Charles Parker Graves Professor of Architecture, Ph.D., Princeton

David Mohney, professor, M.Arch., Princeton

Mark J. O'Bryan, associate professor, M.Arch., Cornell

Drura Parrish, instructor, Southern California Institute of Architecture, MR+D

Anthony Roccanova, associate professor, M.Arch., Cornell

Jerzy Rozenberg, associate professor, M.F.A., Cinema Studies, New York University

Jason Scroggin, assistant professor, M.S. in Advanced Architectural Design, Columbia

Julia W. Smyth-Pinney, associate professor, M.Arch., Harvard

Elizabeth Swanson, assistant professor, M.Arch., California-Berkeley

Bruce A. Swetnam, Kentuckiana Masonry Institute Associate Professor, B.Arch., Kentucky

Leonard F. Wujcik, professor, M.A., Industrial Education, Eastern Kentucky

SCHOOL OF INTERIOR DESIGN

Ann Whiteside-Dickson, director

Allison Carl White, professor, Ph.D., Tennessee

Sarah McNabb, instructor, M.A., Louisville

Joe Rey-Barreau, associate professor, M.S., Louisville

Terry D. Rothgeb, associate professor, M.A., Missouri

Megan Metcalfe Shaw, instructor, M.A., Kentucky

Ann Whiteside-Dickson, associate professor, M.S., Florida State

DEPARTMENT OF HISTORIC PRESERVATION

Clyde Carpenter, FAIA, chair

Elizabeth Boyer, instructor, M.H.P., Kentucky, 2007

Clyde R. Carpenter, FAIA, chair and Clay Lancaster Professor in Historic Preservation, M.Arch., Pennsylvania

Allison Carl-White, professor, School of Interior Design, Ph.D., Tennessee

Ned M. Crankshaw, ASLA, associate professor, Department of Horticulture and Landscape Architecture, College of Agriculture, M L ARCH, Iowa State

Hans Gesund, professor, Department of Civil Engineering, College of Engineering and College of Design, D.Eng., Yale

Ted Grosshardt, Kentucky Transportation Center, Ph.D., Kentucky

Gregory Luhan, associate professor, College of Design, M.Arch., Princeton

Wallis Miller, Charles Parker Graves Professor of Architecture, Ph.D., Princeton

David Mohney, professor, M.Arch., Princeton

Nancy O'Malley, Assistant Director, William S. Webb Museum of Anthropology, Department of Anthropology, College of Arts and Sciences, M.A., Kansas

Karl B. Raitz, professor, Department of Geography, College of Arts and Sciences Ph.D., Minnesota

Julie Riesenweber, adjunct assistant professor, Department of Historic Preservation, M.A., Delaware

Daniel B. Rowland, associate professor, Department of History, College of Arts and Sciences, Ph.D., Yale

Richard H. Schein, associate professor, Department of Geography, Ph.D., Syracuse

Bruce Swetnam, associate professor, Kentuckiana Masonry Institute, B.Arch., Kentucky

Alice V. Turkington, assistant professor, Department of Geography, Ph.D., Queen's University of Belfast

Jeroen Van den Hurk, lecturer, Ph.D., Delaware

Robert Vice, instructor, J.D., Kentucky, 1978

COLLEGE OF EDUCATION

Mary John O'Hair, dean

CURRICULUM AND INSTRUCTION

Mary C. Shake, interim chair

Janice Almasi, associate professor, Ph.D., Maryland, 1993

Gary Anglin, associate professor, Ed.D., Indiana, 1979

Ronald Atwood, professor emeritus, Ed.D., Florida State, 1966

Virginia Atwood, professor emeritus, Ph.D., Texas, 1969

Harry V. Barnard, professor emeritus, Ed.D., Alabama, 1959

Ollie E. Bissmeyer, Jr., assistant professor emeritus, Ed.D., Indiana, 1964

Jana Bouwma-Gearhart, assistant professor, Ph.D., Wisconsin-Madison, 2008

Sharon Brennan, associate professor, Ed.D., Kentucky, 1987

Elinor Brown, associate professor, Ph.D., Akron, 1998

Les Burns, assistant professor, Ph.D., Michigan State, 2005

Susan Cantrell, assistant professor, Ed.D., Kentucky, 1997

Molly Fisher, assistant professor, Ph.D., North Carolina-Charlotte, 2009

Laurie Henry, assistant professor, Ph.D., Connecticut, 2007

Willis Johnson, professor emeritus, Ed.D., Temple, 1975

Rebecca McNall Krall, assistant professor, Ph.D., Virginia, 2003

Linda Levstik, professor, Ph.D., Ohio State, 1980

Xin Ma, professor, Ph.D., British Columbia, 1997
Christine Mallozzi, assistant professor, Ph.D., Georgia, 2009
Joan Mazur, professor, Ph.D., Cornell, 1993
Nancye McCrary, assistant professor, Ed.D., Kentucky, 2001
Jack McElroy, professor emeritus, Ed.D., Cincinnati, 1974
Phil Nacke, associate professor emeritus, Ed.D., University of British Columbia, Canada, 1970
Kristen Perry, assistant professor, Ph.D., Michigan State, 2007
Opal Reynolds, assistant professor emeritus, M.A., Kentucky, 1952
Rosetta F. Sandidge, associate professor, Ed.D., Kentucky, 1989
Christine Schnittka, assistant professor, Ph.D., Virginia, 2009
Margaret Schroeder, assistant professor, Ph.D., Texas A&M, 2006
Mary C. Shake, associate professor, Ed.D., SUNY at Albany, 1984
Doug Smith, associate professor, Ph.D., Arizona State, 1986
Felicia Cumings Smith, lecturer, M.A., Louisville, 2000
J. Truman Stevens, associate professor emeritus, Ed.D., Virginia, 1972
Gerry Swan*, assistant professor, Ph.D., Virginia, 2004
Kathleen Swan, assistant professor, Ph.D., Virginia, 2004
Robert Tannenbaum,* adjunct professor, Ed.D., Columbia, 1968
Mary Ann Vimont, associate professor, M.A., Kentucky, 1976
Jennifer Wilhelm, associate professor, Ph.D., Texas-Austin, 2002
Angene Wilson, professor emeritus, Ph.D., Ohio State, 1976

*joint appointment

EDUCATIONAL AND COUNSELING PSYCHOLOGY

Fred W. Danner, chair

Charlotte Clark, associate professor emeritus, Ph.D., Minnesota, 1977
Henry P. Cole, professor emeritus, Ed.D., SUNY at Buffalo, 1968
Alicia Crowl, assistant professor, Ph.D., Michigan State, 2009
Fred W. Danner, professor, Ph.D., Minnesota, 1974
Stephen T. DeMers, professor emeritus, Ed.D., Rutgers, 1976
Keisha Love, assistant professor, Missouri-Kansas City, Ph.D., 2005
H. Thompson Prout, professor, Ph.D., Indiana, 1976
Jeff Reese, assistant professor, Ph.D., Texas A&M, 2000
Pam Remer, associate professor, Ph.D., Colorado, 1972
Rory Remer, professor, Ph.D., Colorado, 1972
Sharon S. Rostovsky, professor, Ph.D., Tennessee, 1998
Lisa Ruble, associate professor, Ph.D., Indiana, 1998
William E. Stilwell III, professor emeritus, Ph.D., Stanford, 1969
Michael Toland, assistant professor, Ph.D., Nebraska-Lincoln, 2008
Kenneth M. Tyler, associate professor, Ph.D., Howard, 2002
Ellen Usher, assistant professor, Ph.D., Emory, 2007
Judith Worell, professor emeritus, Ph.D., Ohio State, 1954
Lynda Brown Wright, associate professor, Ph.D., Texas A&M, 1991

EDUCATIONAL LEADERSHIP STUDIES

Lars G. Björk, chair

Justin Bathon, assistant professor, Ph.D., Indiana-Bloomington, 2008
Lars G. Björk, professor, Ph.D., New Mexico, 1983
Rose Boulay, lecturer, Ed.D., Spalding, 2006
Patricia Browne-Ferrigno, associate professor, Ph.D., Colorado at Denver, 2001
Fred Edmonds, professor emeritus, Ed.D., Kentucky, 1961
Charles F. Faber, professor emeritus, Ph.D., Chicago, 1961
J. John Harris III, professor, Ph.D., Michigan, 1972
Wayne Lewis, assistant professor, Ph.D., North Carolina State, 2009
James R. Ogletree, professor emeritus, Ed.D., Columbia, 1956
Mary John O'Hair, professor, Ed.D., New Mexico State, 1987
Kellie Terry, assistant professor, Ph.D., Michigan State, 2007
Eddy J. Van Meter, professor emeritus, Ed.D., New Mexico State, 1971

EDUCATIONAL POLICY STUDIES AND EVALUATION

Alan J. DeYoung, chair

Richard Angelo, associate professor, Ed.D., Temple, 1978
Jeffery P. Bieber, associate professor, Ph.D., Michigan, 1990
Kelly Bradley, associate professor, Ph.D., Ohio State, 2002
Clinton Collins, associate professor emeritus, Ph.D., Indiana, 1970
Alan J. DeYoung, professor, Ph.D., Stanford, 1975
Beth Goldstein, associate professor, Ph.D., Wisconsin, 1985
Neal Hutchens, assistant professor, Ph.D., Maryland, 2007
Jane Jensen, associate professor, Ph.D., Indiana, 1997
Edward Kifer, professor emeritus, Ph.D., Chicago, 1973
Virginia Davis Nordin, associate professor emeritus, J.D., Harvard, 1959

Eric Reed, assistant professor, Ph.D., Iowa, 2006
John Thelin, professor, Ph.D., California at Berkeley, 1973
Karen Tice, associate professor, Ph.D., Kentucky, 1993
Hongwei (Patrick) Yang, assistant professor, Ph.D., Tennessee, 2008

KINESIOLOGY AND HEALTH PROMOTION

Melody Noland, chair

Mark Abel, assistant professor, Ph.D., Utah, 2006
Rayma Beal, associate professor emeritus, Ed.D., Cincinnati, 1985
Aaron Beighle, assistant professor, Ph.D., Arizona State, 2003
T. Jeff Chandler, adjunct professor, Ed.D., Auburn, 1987
Jody L. Clasey, associate professor, Ph.D., Illinois, 1993
Eddie Comeaux, assistant professor, Ph.D., UCLA, 2005
Heather Erwin, assistant professor, Ph.D., Illinois, 2006
John Hall, associate professor, Ph.D., Oregon, 1975
Stanley Labanowich, associate professor emeritus, Ph.D., Illinois, 1975
Kim Miller, associate professor, Ph.D., Southern Illinois, 2000
David Ross Mullineaux, assistant professor, Ph.D., Sheffield Hallam, 2002
James Nance, associate professor emeritus, Ed.S., Eastern Kentucky, 1977
Melody Noland, professor, Ph.D., Maryland, 1981
Steve Parker, associate professor, Ed.D., Kentucky, 1995
Bruce A. Rector, adjunct professor, J.D., Kentucky, 1990
Richard Riggs, associate professor, Ed.D., Tennessee, 1975
Robert Shapiro, professor, Ph.D., Illinois-Urbana, 1979
Lucian Taylor, associate professor, Ph.D., Mississippi, 1995
Dennis Vinton, associate professor emeritus, Re.D., Indiana, 1969
Andrew Weiner, associate professor, Ed.D., Georgia, 1976
James W. Yates, associate professor, Ph.D., Penn State, 1980

SPECIAL EDUCATION AND REHABILITATION COUNSELING

Debra A. Harley, chair

Margaret Bausch, assistant professor, Ed.D., Kentucky, 1999
William H. Berdine, professor emeritus, Ed.D., Penn State, 1972
Malachy Bishop, professor, Ph.D., Wisconsin-Madison, 2000
William Calderhead, assistant professor, Ph.D., Oregon, 2003
Belva Collins, professor, Ed.D., Kentucky, 1990
Ralph M. Crystal, professor, Ph.D., Wisconsin, 1977
Sonja M. Feist-Price, professor, Ph.D., Southern Illinois, 1992
Jennifer Grisham-Brown, professor, Ed.D., Kentucky, 1985
William Gustashaw, assistant professor, Ph.D., Virginia, 2005
Karen Hager, assistant professor, Ph.D., Utah State, 2005
Debra A. Harley, professor, Ph.D., Southern Illinois, 1992
Lee Ann Jung, associate professor, Ph.D., Auburn, 2001
Katherine McCormick, associate professor, Ph.D., Auburn, 1990
Robert McKenzie, professor, Ph.D., Iowa, 1981
C. Michael Nelson, professor emeritus, Ed.D., Kansas, 1969
John W. Schuster, professor, Ed.D., Kentucky, 1987
Deborah Bott Slaton, professor, Ph.D., Florida, 1983
Kim Townley, associate professor, Ph.D., Missouri, 1984

COLLEGE OF ENGINEERING

Thomas W. Lester, dean

BIOMEDICAL ENGINEERING

(see faculty listing under *The Graduate School*)

CHEMICAL AND MATERIALS ENGINEERING

Douglass S. Kalika, chair

Kimberly Ward Anderson, professor, Ph.D., Carnegie-Mellon, 1986
Rodney J. Andrews, associate professor, Ph.D., Kentucky, 1999
Thomas John Balk II, assistant professor, Ph.D., Johns Hopkins, 2000
Matthew Beck, assistant professor, Ph.D., Northwestern, 2005
Dibakar Bhattacharyya, professor, Ph.D., Illinois Institute of Technology, 1966
Yang-Tse Cheng, professor, Ph.D., California Institute of Technology, 1966
Thomas D. Dziubla, assistant professor, Ph.D., Drexel, 2002
Richard E. Eitel, assistant professor, Ph.D., Penn State, 2003
Peter P. Gillis, professor emeritus, Ph.D., Brown, 1964
Eric A. Grulke, professor, Ph.D., Ohio State, 1975
Charles E. Hamrin, Jr., professor emeritus, Ph.D., Northwestern, 1964
Zachary Hilt, assistant professor, Ph.D., Texas at Austin, 2004

Bruce J. Hinds III, associate professor, Ph.D., Northwestern, 1996
Gerald P. Huffman, research professor, Ph.D., West Virginia, 1965
Frank E. Huggins, research professor, Massachusetts Institute of Technology, 1975
Stephen A. Hutcheson, assistant professor STS, Ph.D., Texas Tech, 2008
Douglas S. Kalika, professor, Ph.D., California-Berkeley, 1988
Michael C. Kemp,* assistant professor, Ph.D., Tennessee Technological University, 1995
Richard I. Kermode, professor, Ph.D., Northwestern, 1962
Barbara Knutson, professor, Ph.D., Georgia Institute of Technology, 1994
Hamid R. Kobraei,* associate professor, Ph.D., West Virginia, 1984
Kenji Okazaki, professor emeritus, Dr. Eng. Sci., Kyoto University, 1967
Stephen E. Rankin, associate professor, Ph.D., Minnesota, 1998
Asit K. Ray, professor, Ph.D., Clarkson College of Technology, 1980
Phillip J. Reucroft, professor emeritus, Ph.D., Imperial College, England, 1959
J. Thomas Schrodt, professor emeritus, Ph.D., Louisville, 1966
Jeffrey R. Seay, assistant professor STS, Ph.D., Auburn, 2008
Naresh Shah, associate research professor, Ph.D., Kentucky, 1987
David L. Silverstein, associate professor STS, Ph.D., Vanderbilt, 1998
Jim L. Smart, associate professor STS, Ph.D., Texas at Austin, 1997
Tate T. H. Tsang, professor, Ph.D., Texas at Austin, 1980
Fuqian Yang, associate professor, Ph.D., Rochester, 1994
Tongguang Zhai, associate professor, Ph.D., Oxford, England, 1994
*joint appointment

CIVIL ENGINEERING

George E. Blandford, chair

Staley F. Adams, professor emeritus, Ph.D., Colorado, 1965
James E. Black, adjunct assistant professor, M.S., Kentucky, 1976
George E. Blandford, professor, Ph.D., Cornell, 1981
Gail Brion, professor, Ph.D., Colorado, 1995
L. Sebastian Bryson, assistant professor, Ph.D., Northwestern, 2002
Richard Cheeks, adjunct assistant professor, M.S., Kentucky, 1972
Mei Chen, associate professor, Ph.D., New Jersey Institute of Technology, 1999
Joseph Crabtree, adjunct assistant professor, Ph.D., Kentucky, 2004
Brad Davis, assistant professor, Ph.D., Virginia Tech, 2008
John A. Deacon, professor emeritus, D.Eng., California-Berkeley, 1965
Vincent P. Drnevich, professor emeritus, Ph.D., Michigan, 1967
James Fox, assistant professor, Ph.D., Iowa, 2005
Hans Gesund, professor, D.Eng., Yale, 1958
Paul M. Goodrum, associate professor, Ph.D., Texas-Austin, 2001
Donn E. Hancher, professor emeritus, Ph.D., Purdue, 1972
Bobby O. Hardin, professor emeritus, Ph.D., Florida, 1961
Issam E. Harik, professor, Ph.D., Wayne State, 1982
Yang H. Huang, professor emeritus, D.Sc., Virginia, 1966
John W. Hutchinson, professor emeritus, Ph.D., Illinois, 1961
Michael E. Kalinski, associate professor, Ph.D., Texas-Austin, 1998
Kamyar C. Mahboub, professor, Ph.D., Texas A&M, 1988
William F. Maloney, professor, Ph.D., Michigan, 1976
Lindell E. Ormsbee, professor, Ph.D., Purdue, 1983
Kenneth L. Perry, associate professor, M.S., Murray, 1975
Jerry G. Rose, professor, Ph.D., Texas A&M, 1971
Nikiforos Stamatiadis, professor, Ph.D., Michigan State, 1990
Timothy Taylor, assistant professor, Ph.D., Texas A&M, 2009
Robert A. Walker, associate professor, M.S., Eastern, 1978
Shien T. Wang, professor emeritus, Ph.D., Cornell, 1969
Yi-Tin Wang, professor, Ph.D., Illinois Urbana-Champaign, 1984
Don J. Wood, professor emeritus, Ph.D., Carnegie Institute of Technology, 1961
Scott Yost, associate professor, Ph.D., Michigan, 1995

COMPUTER SCIENCE

Stephen James Vasek, associate professor, LL.M., Harvard, 1969
Harold R. Weinberg, professor, J.D., Case-Western Reserve, 1969
Sarah N. Welling, professor, J.D., Kentucky, 1978
Richard A. Westin, professor, J.D., Pennsylvania, 1972

COLLEGE OF MEDICINE

Jay A. Perman, dean

ANATOMY AND NEUROBIOLOGY

Don M. Gash, chair

Anders H. Andersen, associate professor, Ph.D., Purdue University, 1983
Guoying Bing, associate professor, M.D., Ph.D., University of Rochester, 1988
Luke Harry Bradley, assistant professor, Ph.D., Ohio University, 2001
Jennifer Kurt Brueckner, associate professor, Ph.D., University of Kentucky, 1997
Hansruedi Rudolf Bueler, associate professor, Ph.D., University of Zurich, 1992
Wayne A. Cass, professor, Ph.D., Colorado State University, 1987
Andrew Stewart Deane, assistant professor, Ph.D., University of Toronto, 2007
Marilyn J. Duncan, professor, Ph.D., Worcester Polytechnic Institute, 1984
Samuel Rees Franklin, assistant professor, Ph.D., Wake Forest University, 2006
Don M. Gash, professor, Ph.D., Dartmouth College, 1975
James W. Geddes, professor, Ph.D., University of Saskatchewan, 1984
Greg Allen Gerhardt, professor, Ph.D., University of Kansas, 1983
Marilyn L. Getchell, professor, Ph.D., Northwestern University, 1971
Brian T. Gold, associate professor, Ph.D., York University (Toronto), 1999
Richard Charles Grondin, assistant professor, Ph.D., Laval University, 1997
Edward Dallas Hall, professor, Ph.D., Cornell University, 1976
Peter A. Hardy, assistant professor, Ph.D., University of Toronto, 1991
Lothar H. Jennes, professor, Ph.D., Pars Lodron University, 1978
Jane E. Joseph, associate professor, Ph.D., University of Virginia, 1996
Jonathan Lifshitz, assistant professor, Ph.D., University of Pennsylvania, 2002
Brian R. MacPherson, professor, Ph.D., Memorial University Of Newfoundl, 1978
Bruce Edward Maley, associate professor, Ph.D., Ohio State University, 1979
Stephen Michael John Onifer, assistant professor, Ph.D., Indiana Central University, 1991
David Peck, associate professor emeritus, Ph.D., Johns Hopkins University, 1961
April Richardson, assistant professor, Ph.D., University of Kentucky, 2008
Stephen William Scheff, professor, Ph.D., University of Missouri Columbia Campus, 1974
Indrapal N. Singh, assistant professor, Ph.D., University of Hyderabad, 1985
Stephen Drew Smith, professor emeritus, Ph.D., Tulane University Of Louisiana, 1965
Diane M. Snow, professor, Ph.D., Case Western Reserve University, 1989
Pam Sparks Stein, associate professor, D.M.D., University of Kentucky, 1990
Patrick Giles Sullivan, associate professor, Ph.D., University of Kentucky, 2000
Harold H. Traurig, professor emeritus, Ph.D., University of Minnesota, 1963
Chen-Guang Yu, assistant professor, Ph.D., M.D., Shanghai Second Medical Univ, 1996
Zhiming Zhang, associate professor, M.D., Capital Institute of Medicine, 1983

ANESTHESIOLOGY

Edwin A. Bowe, chair

William C. Allen, associate professor, M.D., University of Tennessee-Medical, 1974
 Peter P. Bosomworth, professor emeritus, M.D., University of Cincinnati, 1955
 Edwin Allen Bowe, professor, M.D., University of Missouri Columbia Campus, 1975
 Raeford E. Brown, professor, M.D., University of North Carolina, 1980
 Destiny Fenger Chau, assistant professor, M.D., University of Kentucky, 2002
 George W. Colclough, associate professor, M.D., University of North Carolina, 1974
 Johannes Dorfling, assistant professor, M.D., University of Stellenbosch, 1979
 Angela Rose Drake, instructor, M.D., Ross University, 2004
 John H. Eichhorn, professor, M.D., Harvard-Radcliffe, 1973
 Mark A. Etscheidt, associate professor, Ph.D., Georgia State University, 1989
 Brenda G. Fahy, professor, M.D., Thomas Jefferson University, 1985
 Regina Y. Fragneto, professor, M.D., University of Pittsburgh, 1985
 Joseph Nanadadzie Ghansah, assistant professor, M.D., University of Leipzig Medical School, 1994
 Daniel Thomas Goulson, professor, M.D., University of North Carolina, 1989
 Jay S. Grider, assistant professor, D.O., Ph.D., Ohio University, 1993
 Scott Rolland Hamann, associate professor, M.D., Ph.D., University of Kentucky, 1995
 Michael Edward Harned, instructor, M.D., University of Kentucky, 2004
 Zaki Udin Hassan, associate professor, M.B.B.S., Charing Cross & Westminster Med, 1989
 Kevin Wayne Hatton, assistant professor, M.D., University of Kentucky, 2002
 Eugene Andrew Hessel, professor, M.D., University of San Francisco, 1960
 Joseph Robert Holtman, professor, M.D., Ph.D., University of Kentucky, 1985
 Ivan Horvath, associate professor, Ph.D., University of Rochester, 1995
 Oksana Klimkina, assistant professor, M.D., First Moscow Medical University, 1984
 Steven C. Lasher, assistant professor, M.D., University of Kentucky, 1995
 Rebecca Lynn Layton, assistant professor, M.D., University of Kentucky, 1988
 Richard Lock, associate professor, M.D., Northeast Ohio University College of Medicine, 1981
 Margaret Faith Lukens, instructor, M.D., University of Kentucky, 2003
 Gregory T. Marta, instructor, M.D., University of Kentucky, 2005
 F. Christopher Massa, assistant professor, M.D., Southern Illinois University, 1993
 Kenneth Todd McCoun, assistant professor, D.O., Pikeville College School of Osteopathic Medicine, 2001
 John T. McLarney, assistant professor, M.D., University of Kentucky, 1994
 Christopher L. Montgomery, professor, M.D., University of Kentucky, 1985
 John Thomas Murphy, professor, M.D., Dalhousie University, 1978
 Ronald L. Newman, assistant professor, D.O., U of Health Sciences C of Osteo, 1990
 Eddie Lee Owens, professor emeritus, M.D., University of Louisville, 1968
 David B. Powell, assistant professor, M.D., University of Colorado-Denver, 1986
 Dinesh Ramaiah, assistant professor, M.D., Bangalore Medical College, 1990
 Annette Rebel, assistant professor, M.D., Univ Heidelberg, 1993
 Arundathi MN Reddy, assistant professor, M.B.B.S., Bangalore University, 1990
 Daniel Paul Reese, assistant professor, M.D., University of Arkansas, 1986
 Michael A. Rie, associate professor, M.D., Harvard-Radcliffe, 1966
 Rosalind Ritchie-Dabney, assistant professor, M.D., Southern Illinois University, 1992
 Zbigniew Stanislaw Rogozinski, assistant professor, M.D., Jagellonian University, 1982
 Gregory L. Rose, assistant professor, M.D., University of Kentucky, 1986
 Randall M. Schell, professor, M.D., Loma Linda University La Sierra, 1987
 Jewell W. Sloan, assistant professor, Ph.D., University of Kentucky, 1984
 Paul A. Sloan, professor, M.D., McGill University, 1980
 Pieter G. Steyn, assistant professor, M.D., University of The Orange Free State, 1979
 Luis A. Vascello, associate professor, M.D., University of Buenos Aires, 1989
 Justin K. Wainscott, instructor, M.D., University of Louisville, 2003
 Elzbieta Wala, associate professor, Ph.D., Academy Of Medicine, Krakow, 1973
 Kimberly S. Winchester, assistant professor, M.D., University of Kentucky, 1985
 William Orin Witt, professor, M.D., University of Minnesota, 1976

BEHAVIORAL SCIENCE

Carl G. Leukefeld, chair

Michael Anthony Andrykowski, professor, Ph.D., University of Illinois - Urbana, 1984
 Lee X. Blonder, professor, Ph.D., University of Pennsylvania, 1986
 Allison Mercedes Caban-Holt, assistant professor, Ph.D., University of Tennessee-Knoxville, 2004
 Cynthia M. Cole, associate professor, Ph.D., University of N Carolina At Greensboro, 1989
 Jennifer Ellen Cole, assistant professor, Ph.D., University of Kentucky, 2007
 Deborah D. Danner, assistant professor, Ph.D., University of Kentucky, 1993
 Carol L. Elam, professor, Ed.D., University of Kentucky, 1990
 Anita F. Fernander, assistant professor, Ph.D., University of Miami, 2000
 Gilbert H. Friedell, professor, M.D., University of Minnesota, 1949
 Eugene B. Gallagher, professor emeritus, Ph.D., Harvard-Radcliffe, 1958
 Thomas F. Garrity, professor, Ph.D., Duke University, 1971

John V Haley, professor emeritus, Ph.D., Loyola University of Chicago, 1964
 Jennifer Rochussen Havens, assistant professor, Ph.D., Johns Hopkins University, 2004
 Yang Jiang, associate professor, Ph.D., Miami University, 1995
 Thomas H. Kelly, professor, Ph.D., University of Minnesota, 1983
 Hannah Kathryn Knudsen, assistant professor, Ph.D., University of Georgia, 2003
 Janice M. Kregor, assistant professor, M.D., University of Kentucky, 1981
 Carl G. Leukefeld, professor, D.S.W., Catholic University of America, 1975
 Joshua Anthony Lile, assistant professor, Ph.D., University of Kentucky, 2002
 Linda H. Linville, assistant professor, Ph.D., University of Kentucky, 1995
 TK Logan, professor, Ph.D., Southern Illinois University, 1994
 Phyllis J. Nash, professor, Ed.D., West Virginia University, 1985
 Garth L Olde, professor emeritus, Ph.D., University of Western Ontario, 1960
 Craig R. Rush, professor, Ph.D., University of Vermont, 1992
 Nancy E. Schoenberg, professor, Ph.D., University of Florida, 1994
 Mitzi Marie Schumacher, professor, Ph.D., Ohio State University, 1986
 Lisa Michele Shannon, assistant professor, Ph.D., University of Kentucky, 2007
 Timothy A. Smith, professor emeritus, Ph.D., University of North Carolina at Asheville, 1963
 William Walton Stoops, assistant professor, Ph.D., University of Kentucky, 2005
 Terry Dean Stratton, associate professor, Ph.D., University of Kentucky, 1999
 Christina Ruth Studts, assistant professor, Ph.D., University of Louisville, 2008
 Jamie Lawrence Studts, associate professor, Ph.D., University of Kentucky, 2001
 Sharon Lynn Walsh, professor, Ph.D., Rutgers State Univ, 1990
 John Matt Webster, assistant professor, Ph.D., University of Kentucky, 2001
 Helen Jean C. Wiese, associate professor, Ph.D., University of North Carolina, 1971
 John F. Wilson, professor, Ph.D., University of Michigan, 1977
 Martha Jane Wunsch, associate professor, M.D., Uniformed Ser University of The Hlt Sc, 1983

EMERGENCY MEDICINE

Roger Loyd Humphries, chair

Brian Wayne Adkins, assistant professor, M.D., University of Kentucky, 2003
 Rebecca Catherine Bowers, assistant professor, M.D., University of Kentucky, 2000
 Craig T. Carter, assistant professor, D.O., Midwestern University Downers, 1998
 Sameer Madhu Desai, assistant professor, M.D., Texas A & M University, 2001
 Scott Larimore Dunavant, assistant professor, M.D., University of Kentucky, 1992
 Charles A. Eckerline, associate professor, M.D., University of Kentucky, 1977
 Thomas Michael Huhn, assistant professor, M.D., University of Kentucky, 2002
 Roger Loyd Humphries, associate professor, M.D., University of Kentucky, 1991
 Leland J. Irwin, assistant professor, M.D., University of Florida, 1979
 Brett Eric Jarrell, assistant professor, M.D., Marshall University, 2001
 Justin L. Knowles, assistant professor, M.D., University of Washington, 2002
 Julia E. Martin, associate professor, M.D., West Virginia University, 1993
 Sonya Cooper Melville, assistant professor, M.D., Louisiana State University, 2004
 Raymond Joseph Orthober, assistant professor, M.D., Ross University, 2000
 Troy C. Rock, assistant professor, M.D., University of Kentucky, 1996
 Jason Patrick Seamon, assistant professor, D.O., U of Health Sciences C of Osteo, 2000
 Alicia Ann Shirakbari, assistant professor, M.D., University of Arkansas For Med Science, 1995
 Ryan Ashley Stanton, assistant professor, M.D., East Tennessee State University, 2003
 Michael W. Stava, assistant professor, M.D., University of Kentucky, 1996
 Seth Tobias Stearley, assistant professor, M.D., Indiana University, 2004
 Maria Stephan, associate professor, M.D., University of Cincinnati, 1981
 William F. Young, associate professor, M.D., Bowman-Gray School of Medicine, 1983

FAMILY AND COMMUNITY MEDICINE

Samuel C. Matheny, chair

Karen Jo Barnes, assistant professor, M.D., University of Kentucky, 1982
 Jennifer Fletcher Beck, assistant professor, M.D., University of Kentucky, 2005
 William Scott Black, associate professor, M.D., University of Kentucky, 1990
 Jennifer A. Carogol, assistant professor, M.D., University of Colorado, 2004
 Baretta R Casey, professor, M.D., University of Kentucky, 1991
 Maria Gabriela Castro, assistant professor, M.D., Medical University of S. Carolina, 2003
 Sylvia L. Cerel, assistant professor, M.D., Stanford University, 1991
 Max A Crocker, professor emeritus, M.D., University of Tennessee-Medical, 1963
 Richard H. Crouch, assistant professor, M.D., University of Kentucky, 1975
 Thomas A. Dale, assistant professor, M.D., University of Kentucky, 1972
 Paul Larry Dassow, associate professor, M.D., MSPH, Washington University, 1990
 William Craig Denham, assistant professor, M.D., University of Kentucky, 2003
 William G. Elder, professor, Ph.D., University of Texas Southwestern Medical Center, 1992
 Jaime Janeille Fields, assistant professor, PharmD, University of Kentucky, 2002
 Maureen A. Flannery, assistant professor, M.D., University of Illinois Rockford, 1976
 Kamara Evette Garner, assistant professor, M.D., University of Kentucky, 2002

Karla Renae Groves, assistant professor, M.D., University of Kentucky, 2005
Michael Dale Hagen, professor, M.D., University of Missouri Columbia Campus, 1975
Mirand Hollen, assistant professor, M.D., University of Kentucky, 2006
Robert G. Hosey, associate professor, M.D., State University of New York, 1993
Carol G. Hustedde, assistant professor, Ph.D., University of Wisconsin-Madison, 1987
Alison Iser, assistant professor, M.D., University of Kentucky, 1998
Stacey Campbell Johnson, assistant professor, M.D., University of Louisville, 2002
Larry D. Jones, assistant professor, M.D., University of Kentucky, 1980

Paul Mandelstam, professor emeritus, M.D., Ph.D., Harvard-Radcliffe, 1950
Ewa Janina Marciniak, professor, M.D., Ph.D., Academy of Medicine, Wroclaw, 1951
Suleiman Alfred Massarweh, assistant professor, M.D., University of Jordan, 1994
Hanna W. Mawad, associate professor, M.D., University of Damascus, 1978
Rick Raymond McClure, associate professor, M.D., University of Kentucky, 1983
James R. McCormick, professor, M.D., University of Connecticut, 1972
Malkanthie I. McCormick, professor, M.B.B.S., Open University Of Sri Lanka, 1967
Kevin Thomas McDonagh, associate professor, M.D., Columbia University-Columbia College, 1984
John Wade McKeown, professor, M.D., University of Tennessee-Medical, 1973
Katherine Marie McKinney, instructor, M.D., Medical College of Ohio, 2005
Robert Taylor Means, professor, M.D., Vanderbilt University, 1983
Beth A. Miller, associate professor, M.D., Medical College of Ohio, 1991
Ralph E. Miller, professor emeritus, M.D., Sc.D., Harvard-Radcliffe, 1961
David Jon Moliterno, professor, M.D., Medical College of Virginia, 1987
Gregory Patrick Monohan, assistant professor, M.D., University of Kentucky, 2000
Erin N. Moore, assistant professor, M.D., University of Kentucky, 2006
Richard Scott Morehead, associate professor, M.D., Oral Roberts University, 1988
James Stanley Morgan, assistant professor, M.D., University of Louisville, 2003
Andrew James Morris, professor, Ph.D., University of Birmingham, 1988
Patrick Mosler, assistant professor, M.D., Justus Liebig University Of Gies, 1997
Debabrata Mukherjee, professor, M.D., Government Medical College, 1988
Nancy Kaufman Mullen, assistant professor, M.D., University of Louisville, 1997
Brian S. Murphy, assistant professor, M.D., University of Louisville, 1999
Nicholas J. Nickl, professor, M.D., University of Tennessee-Medical, 1982
Robert Cutler Noble, professor emeritus, M.D., Duke University, 1964
Manikandan Panchatcharam, assistant professor, Ph.D., University of Madras, 2006
Rishi Pawa, assistant professor, M.D., University of Rajasthan, 1996
Luis Roberto Pena, associate professor, M.D., Francisco Marroquin University, 1991
Barbara Anne Phillips, professor, M.D., University of Kentucky, 1977
Heather Hanson Pierce, assistant professor, Ph.D., University of North Carolina, 1997
Anne Marie Pittman, associate professor, M.D., St. Louis University, 1985
Julia Anne Popham, associate professor, M.D., University of Kentucky, 1990
Lawrence Rajan, assistant professor, M.D., The Royal Col.Of Surgeons, 1986
Gregory Aaron Reynolds, instructor, M.D., University of Kentucky, 2005
L. Raymond Reynolds, professor, M.D., University of Kentucky, 1971
John J. Rinehart, professor, M.D., Ohio State University, 1970
Anna Rogozinska, assistant professor, M.D., Jagellonian University, 1980
Edward H. Romond, professor, M.D., University of Kentucky, 1977
Stephanie Andrea Rose, assistant professor, M.D., MPH, University of Louisville, 2003
Jens Rosenau, assistant professor, M.D., University of Hannover, 1998
M. Sara Rosenthal, associate professor, Ph.D., University of Toronto, 2002
Zackary Van Roy, assistant professor, M.D., University of Kentucky, 2002
David W. Rudy, associate professor, M.D., Medical College of Virginia, 1983
Charles G. Sargent, assistant professor, M.D., University of Kentucky, 2001
Boutros Peter Sawaya, professor, M.D., Tichreen University – Latakia, Syria, 1981
Anne E. Sayers, assistant professor, M.D., University of Kentucky, 2003
Ronald John Saykaly, professor, M.D., University of California, 1969
Takako Sugama Schaninger, assistant professor, M.D., University of The Ryukyus, 1988
Ian Sean Scharer, assistant professor, M.D., University of South Carolina, 2006
James Scherbenke, assistant professor, M.D., University of Oklahoma College of Med, 1982
Samuel R Scott, professor emeritus, M.D., Bowman-Gray School of Medicine, 1969
Lisbeth A.W. Selby, assistant professor, M.D., Texas Tech University, 1997
Jignesh S. Shah, assistant professor, M.D., MPH, Seth GS Medical College, 1995
Steven I. Shedlofsky, professor, M.D., University of Michigan, 1974
Brent J. Shelton, professor, Ph.D., University of North Carolina, 1998
Preetha Shridas, assistant professor, Ph.D., Bharathiar University, 1999
Mikel Dwaine Smith, professor, M.D., University of Kentucky, 1977
Susan S. Smyth, associate professor, M.D., Ph.D., University of North Carolina, 1994
Kristen Robin Stakelin, assistant professor, M.D., University of Louisville, 1997
Athanasios Stoyioglou, assistant professor, M.D., Aristotelian University, 1999
Joey P. Sum, assistant professor, M.D., University of Kentucky, 2004
Gerald Supinski, professor, M.D., University of Pittsburgh, 1977
Mushabbar A. Syed, associate professor, M.D., King Edward Medical College, 1987
Lisa R. Tannock, associate professor, M.D., University of Toronto, 1994
James Temprano, assistant professor, M.D., MHA, University of Kentucky, 2001
Katherine Koungias Temprano, assistant professor, M.D., University of Kentucky, 1999
John Secord Thompson, professor, M.D., University of Chicago, 1953
Alice C. Thornton, associate professor, M.D., Marshall University, 1992
Thomas Ross Tolbert, assistant professor, M.D., Medical College Of Georgia, 1995
Dale E. Toney, associate professor, M.D., University of Kentucky, 1987
Gaurav Trikha, assistant professor, M.D., Kasturba Medical College, 2004
Chung-Jyi Tsai, associate professor, M.D., Sc.D., Taipei Medical Col., 1984
Resat Unal, assistant professor, Ph.D., University of Karlsruhe, 2003
Deneys Rem van der Westhuyzen, professor, Ph.D., University of Cape Town, 1973

Thomas L. Roszman, professor, Ph.D., Michigan State University, 1966
Chongsuk Ryou, assistant professor, Ph.D., Wayne State University, 1998
Anthony Peter Sinai, associate professor, Ph.D., University of Rochester, 1994
Jesse Ernest Sisken, professor emeritus, Ph.D., Columbia University School Of General, 1957
Ernest Charles Snow, professor, Ph.D., University of Iowa, 1978
Brett T. Spear, professor, Ph.D., University of Pennsylvania, 1985
Marion Rothberg Steiner, associate professor emeritus, Ph.D., University of Kentucky, 1968
Brian Stevenson, professor, Ph.D., State University of New York, 1989
Harold Frederick Stills, professor, DVM, Ohio State University, 1975
Susan Calhoun Straley, professor, Ph.D., Cornell University, 1972
Yasuhiro Suzuki, professor, Ph.D., The Uni. of Tokyo, 1982
Glenn Christopher Telling, professor, Ph.D., Carnegie-Mellon University, 1990
Jerold G. Woodward, professor, Ph.D., University of Utah, 1979
John R. Yannelli, associate professor, Ph.D., Virginia Commonwealth Univ-Acade, 1982
Jiayou Zhang, associate professor, Ph.D., University of Texas at Austin, 1989

MOLECULAR AND BIOMEDICAL PHARMACOLOGY

Philip W. Landfield, chair

Eric Michael Blalock, assistant professor, Ph.D., University of Kentucky, 1997
Kuey Chu Chen, associate professor, Ph.D., University of California-Davis, 1983
Rolf Joseph Craven, associate professor, Ph.D., University of North Carolina, 1996
Donald Frank Diedrich, professor emeritus, Ph.D., University of Wisconsin-Madison, 1959
James W. Fleisher, professor, Ph.D., Loyola University of Chicago, 1958
Robert Wayne Hadley, associate professor, Ph.D., Michigan State University, 1987
Elizabeth Head, associate professor, Ph.D., University of Toronto, 1997
Edgar T Iwamoto, professor emeritus, Ph.D., City College of San Francisco, 1973
David M. Kaetzel, professor, Ph.D., University of Maryland, 1981
Michael W. Kilgore, associate professor, Ph.D., Texas Tech University, 1990
Philip W. Landfield, professor, Ph.D., University of California-Irvine, 1971
Christopher M. Norris, assistant professor, Ph.D., University of Virginia, 1998
Norman W. Pedigo, associate professor emeritus, Ph.D., Virginia Commonwealth Univ-Acade, 1977
Michael Thomas Piascik, professor, Ph.D., Ohio State University, 1978
Rina Plattner, associate professor, Ph.D., Indiana University, 1992
Nada M. Porter, associate professor, Ph.D., University of Illinois Medical College, 1987
Hollie I. Swanson, professor, Ph.D., Purdue University, 1991
Olivier H. Thibault, associate professor, Ph.D., Bowman-Gray School of Medicine, 1993
Donna Rose Weber, assistant professor, Ph.D., University of Utah, 1984

MOLECULAR AND CELLULAR BIOCHEMISTRY

Louis B. Hersh, chair

Douglas A. Andres, professor, Ph.D., Purdue University, 1990
Shung Kai Chan, professor emeritus, Ph.D., University of Wisconsin-Madison, 1962
Young-In Chi, assistant professor, Ph.D., Purdue University, 1994
Trevor Paul Creamer, associate professor, Ph.D., University of Western Australia, 1989
Robert C. Dickson, professor, Ph.D., University of California, 1970
Rebecca Lynn Dutch, associate professor, Ph.D., Stanford University, 1994
Michael Gregory Fried, professor, Ph.D., Yale University, 1982
Tianyan Gao, assistant professor, Ph.D., Northwestern Univ Medical School, 1998
Matthew Shawn Gentry, assistant professor, Ph.D., Syracuse University, 2003
Louis B. Hersh, professor, Ph.D., Brandeis University, 1967
Alfred S Hu, professor emeritus, Ph.D., University of Oregon, 1957
Jianhang Jia, associate professor, Ph.D., Chinese Academy of Sciences, 2000
Robert L. Lester, professor, Ph.D., California Institute of Technology, 1956
Harry LeVine, associate professor, Ph.D., Johns Hopkins University, 1975
Chunming Liu, associate professor, Ph.D., Purdue University, 1997
Michael D. Mendenhall, associate professor, Ph.D., University of Wisconsin-Madison, 1985
Michael Paul Murphy, assistant professor, Ph.D., University of Toronto, 1997
Daniel J. Noonan, professor, Ph.D., University of Texas at Austin, 1980

Kathleen Lynn O'Connor, associate professor, Ph.D., Case Western Reserve University, 1996
Sabire Ozcan, associate professor, Ph.D., University of Dusseldorf, 1993
David W. Rodgers, associate professor, Ph.D., Cornell University, 1986
Kevin D. Sarge, professor, Ph.D., North Carolina State University, 1989
Steven Roger Schwarze, assistant professor, Ph.D., University of Wisconsin-Madison, 1998
Geng-Xian Shi, assistant professor, Ph.D., Peking Uni., 2000
Masahito Shimojo, assistant professor, Ph.D., Nagasaki Uni., 1995
H. Peter Spielmann, associate professor, Ph.D., University of California, 1991
Stefan Stamm, associate professor, Ph.D., University of Hannover, 1992
Xiaoqing Tang, assistant professor, Ph.D., Weizmann Institute of Science, 2003
James W. Tracy, professor, Ph.D., Purdue University, 1976
Salvatore J. Turco, professor, Ph.D., University of Pittsburgh, 1976
Thomas Clark Vanaman, professor, Ph.D., Duke University, 1968
Craig William Vander Kooi, assistant professor, Ph.D., Vanderbilt University, 2004
Charles J. Waechter, professor, Ph.D., University of Kentucky, 1971
David S. Watt, professor, Ph.D., Harvard-Radcliffe, 1972
Sidney W. Whiteheart, professor, Ph.D., Johns Hopkins University, 1989
Binhua Zhou, associate professor, M.D., Ph.D., University of Texas at Austin, 1996
Haining Zhu, associate professor, Ph.D., University of California, 2000

NEUROLOGY

Joseph R. Berger, chair

Robert J. Baumann, professor, M.D., Case Western Reserve University, 1965
Meriem K. Bensalem Owen, assistant professor, M.D., University of Algiers, 1996
Joseph R. Berger, professor, M.D., Thomas Jefferson University, 1974
Franca Cambi, professor, M.D., Ph.D., University of Florence, 1979
Gregory E. Cooper, assistant professor, M.D., Ph.D., University of Kentucky, 1994
Michael R. Dobbbs, assistant professor, M.D., University of Kentucky, 1998
Toufic A. Fakhoury, professor, M.D., American University In Beirut, 1985
Farjam Farzam, assistant professor, M.D., Universidad Central Del Caribe, 1996
Dominic B. Fee, assistant professor, M.D., University of Iowa, 1996
Julie A. Gurwell, assistant professor, Ph.D., PA-C, University of Kentucky, 1994
Amy E. Hessler, assistant professor, D.O., Southeastern Col Of Osteophthc Medicine, 2001
Sidney A. Houff, professor, M.D., Ph.D., Medical College of Virginia, 1972
Gregory A. Jicha, assistant professor, M.D., Ph.D., Yeshiva University, 2000
Edward Joseph Kasarskis, professor, M.D., Ph.D., University of Wisconsin-Madison, 1974
Gulam Qutubuddin Khan, assistant professor, M.D., Gandhi Medical College, 1983
William F. Maragos, professor, M.D., Ph.D., University of Michigan, 1987
Ayrton R. Massaro, associate professor, M.D., Fed.Uni.Of Rio De Janeiro, 1983
Michelle Lyn Mattingly, assistant professor, Ph.D., Florida State University, 1999
Avindra Nath, professor, M.D., C.M.C., Ludhiana, India, 1981
Kevin R. Nelson, professor, M.D., University of Michigan, 1979
Luther Creed Pettigrew, professor, M.D., MPH, University of Texas Medical, 1980

Stephen J. Ryan, associate professor, M.D., University of Missouri Columbia Campus, 1990
Frederick Adrian Schmitt, professor, Ph.D., University of Akron, 1982
John T. Slevin, professor, M.D., West Virginia University, 1975
Charles D. Smith, professor, M.D., Tulane University of Louisiana, 1979
David A. Snowdon, professor emeritus, Ph.D., University of Minnesota, 1981
Tarvez Tucker, associate professor, M.D., Case Western Reserve University, 1980
Gloria H. Umberger, assistant professor, Ph.D., University of Kentucky, 2001
Anand Girish Vaishnav, associate professor, M.D., Vadodra Medical School, 1994
Erming Wang, assistant professor, Ph.D., Chinese Academy of Sciences, 1995

NEUROSURGERY

Phillip A. Tibbs, chair

Sung Yong Eum, assistant professor, Ph.D., Yonsei University, 1998
Robert D. Owen, assistant professor, M.D., Indiana University, 1999
Bin-Tao Pan, associate professor, Ph.D., McGill University, 1983
Roy A. Patchell, professor emeritus, M.D., University of Kentucky, 1979
Thomas A. Pittman, professor, M.D., State University of New York At Albany, 1982
Christian Norman Ramsey, assistant professor, M.D., University of Kentucky, 2001
Karin R. Swartz, assistant professor, M.D., Loyola University Of Chicago, 1996
Phillip A. Tibbs, professor, M.D., University of Kentucky, 1973
Michal Toborek, professor, M.D., Ph.D., Medical Academy Of Silesia, 1985
A. Byron Young, professor, M.D., University of Kentucky, 1965
David M. Yurek, professor, Ph.D., University of Southern California, 1987

OBSTETRICS AND GYNECOLOGY

chair to be announced

James W. Akin, assistant professor, M.D., University of Kentucky, 1985
 John R. Barton, associate professor, M.D., University of Kentucky, 1985
 Ann Louise Coker, professor, Ph.D., University of North Carolina, 1989
 Delwood C. Collins, professor, Ph.D., University of Georgia, 1966
 Gordon Johnson Crozier, assistant professor, D.O., U of Osteopathic Med & Health Science, 1994
 Thomas E. Curry, professor, Ph.D., East Carolina University, 1983
 Waller Lisle Dalton, associate professor, M.D., University of Kentucky, 1975
 Paul Duane DePriest, professor, M.D., University of Kentucky, 1985
 Christopher Philip DeSimone, assistant professor, M.D., University of Kentucky, 1997
 Alisa Corley Gambrell, instructor, M.D., University of South Carolina, 2003
 Matthew James Garabedian, instructor, M.D., MPH, Texas A & M University, 2004
 Elisa Adriana Gianferrari, assistant professor, M.D., University of Vermont, 1998
 Scott Thomas Goodrich, instructor, M.D., University of Vermont, 2003
 John W. Greene, professor emeritus, M.D., University of Pennsylvania, 1952
 Wendy Fetterman Hansen, associate professor, M.D., University of Michigan-Ann Arbor, 1986
 Kathryn D. High, assistant professor, M.D., University of Kentucky, 1979
 Wendy Lee Jackson, instructor, M.D., University of Kentucky, 2004
 Misung Jo, assistant professor, Ph.D., Cornell University, 2002
 Robert John Karmy, assistant professor, M.D., Loma Linda University La Sierra, 1973
 Kristine Yoder Lain, associate professor, M.D., University of Chicago, 1994
 Miriam Brown Marcum, instructor, M.D., University of Kentucky, 2003
 Paul H. McBreairty, assistant professor, M.D., University of Vermont, 1976
 Pamela R. Midboe-Penn, assistant professor, M.D., University of North Dakota, 1989
 Frank C. Miller, professor, M.D., University of Louisville, 1962
 Douglas A. Milligan, associate professor, M.D., University of Colorado, 1982
 Stephen B. Mitchell, associate professor, M.D., University of North Carolina, 1985
 Gregory Robert Moore, associate professor, M.D., MPH, Uniformed Ser University of The Hlt Sc, 1983
 Kenneth Newell Muse, associate professor, M.D., University of Kentucky, 1978
 John M. O'Brien, associate professor, M.D., Wayne State University, 1988
 Edward John Pavlik, associate professor, Ph.D., University of Tennessee-Knoxville, 1975
 Christy Friday Pearce, instructor, M.D., University of Alabama, 2005
 Iwona Podzielski, instructor, M.D., Indiana University, 2005
 Patricia L. Ricketts, assistant professor, M.D., University of Miami, 1984
 Bryan Keith Rone, instructor, M.D., University of Kentucky, 2005
 Leigh Glasscock Seamon, assistant professor, D.O., U of Health Sciences C of Osteo, 2000
 Lynne Denise Simms, assistant professor, M.D., University of Louisville, 1995
 Rudolph Michael Tovar, instructor, M.D., University of Texas Hlth Sci Ctr, 2002
 Frederick Rand Ueland, associate professor, M.D., Bowman-Gray School of Medicine, 1990
 John Rensselaer van Nagell, professor, M.D., University of Pennsylvania, 1967
 Rachel Anne Ware, instructor, M.D., University of Kentucky, 2003
 Corrine Marie Williams, assistant professor, Sc.D., Harvard-Radcliffe, 2006
 Emery Allen Wilson, professor, M.D., University of Kentucky, 1968
 Frederick M. Zachman, assistant professor, M.D., Indiana University, 1995

OPHTHALMOLOGY AND VISUAL SCIENCES

P. Andrew Pearson, chair

Jayakrishna Ambati, professor, M.D., State University of New York, 1994
 Michelle Paige Anders, assistant professor, O.D., Indiana University, 2004
 Judit Zsuzsanna Baffi, assistant professor, M.D., Semmelweis Medical Uni., 1992
 Robert Steven Baker, professor emeritus, M.D., McMaster University, 1975
 Peter James Blackburn, assistant professor, M.D., University of Colorado-Denver, 1997
 Seema Capoor, assistant professor, M.D., Charing Cross & Westminster Med, 1990
 Cliff M. Caudill, assistant professor, O.D., University of Alabama-Univ College, 1995
 John D. Conklin, associate professor, M.D., University of Kentucky, 1987
 Barbara K. Crutchfield, assistant professor, O.D., Indiana University, 1990
 Sunil Prakash Deokule, assistant professor, MBBS, Baroda Medical College, 1993
 Michael William Fannon, assistant professor, Ph.D., Boston University, 1998
 John W. Garden, professor, M.D., University of North Carolina, 1961
 Douglas G. Katz, associate professor, M.D., University of Michigan-Ann Arbor, 1994
 Richard A. Kielar, professor, M.D., University of Cincinnati, 1962
 Royce Mohan, associate professor, Ph.D., Ohio State University, 1992
 Sharon M. Napier, assistant professor, M.D., University of Kentucky, 1994
 James Carey Pate, instructor, M.D., Baylor University, 2005
 P. Andrew Pearson, professor, M.D., University of Cincinnati, 1987
 Brian Jeffrey Raisler, assistant professor, Ph.D., University of Florida, 2003
 Sheila P. Sanders, associate professor, M.D., University of Kentucky, 1989
 Drew Nelson Sommerville, instructor, M.D., University of Illinois Hlth Sciences, 2003
 Julia C. Stevens, associate professor, M.D., Duke University, 1983

Woodford Spears VanMeter, professor, M.D., Vanderbilt University, 1979
 Scott James Westhouse, instructor, D.O., Michigan State University, 2004
 Christi Masterson Willen, instructor, M.D., University of Louisville, 2004
 Jacob Jones Yunker, assistant professor, M.D., University of Louisville, 2003

ORTHOPAEDIC SURGERY

Darren L. Johnson, chair

Brandon Thomas Bruce, assistant professor, M.D., Medical College of Georgia, 2003
 Ryan Carter Cassidy, assistant professor, M.D., NE Ohio Univ College of Medicine, 2000
 Christian Christensen, assistant professor, M.D., Vanderbilt University, 1992
 D. Kay Clawson, professor, M.D., Harvard-Radcliffe, 1952
 Mauro Giordani, assistant professor, M.D., University of Southern California, 1984
 Robert Thaddeus Grant, assistant professor, M.D., University of South Florida, 1981
 Mary Lloyd Ireland, associate professor, M.D., University of Tennessee-Medical, 1978
 Henry J. Iwinski, associate professor, M.D., Brown University, 1985
 James Allen Jagger, assistant professor, M.D., University of Cincinnati, 1978
 Darren L. Johnson, professor, M.D., University of California, 1987
 Srinath Kamineni, associate professor, M.D., University of Wales Institute, 1990
 Christian Lattermann, assistant professor, M.D., University of Hannover, 1995
 Steven J. Lawrence, associate professor, M.D., Thomas Jefferson University, 1987
 Scott Douglas Mair, associate professor, M.D., Duke University, 1991
 Todd Alan Milbrandt, assistant professor, M.D., University of Virginia, 1997
 Eric Scott Moghadamian, assistant professor, M.D., University of Kentucky, 2002
 Jeffery Wright Parr, assistant professor, M.D., University of Kentucky, 1982
 Daniel D. Primm, assistant professor, M.D., Medical College of Georgia, 1977
 Scott B. Scutchfield, associate professor, M.D., University of Kentucky, 1975
 Jeffrey Bryan Selby, assistant professor, M.D., Texas Tech University, 1997
 William O. Shaffer, professor, M.D., University of Michigan-Ann Arbor, 1976
 Russell Alexander Shatford, assistant professor, M.D., Tulane University of Louisiana, 1984
 David Bruce Stevens, professor, M.D., Northwestern University, 1955
 Vishwas R. Talwalkar, associate professor, M.D., Washington University, 1993
 Chester M. Tylkowski, professor, M.D., University of Illinois Medical College, 1973
 Janet L. Walker, associate professor, M.D., University of South Florida, 1981
 Raymond Dayne Wright, assistant professor, M.D., Case Western Reserve University, 2002

PATHOLOGY AND LABORATORY MEDICINE

Paul Bachner, chair

Kimberly J. Absher, assistant professor, M.D., East Tennessee State University, 1993
 Paul Bachner, professor, M.D., Columbia University - College of Physicians & Surgeons, 1963
 Michael David Blechner, assistant professor, M.D., Dartmouth College, 1998
 Leonard I. Boral, professor, M.D., MBA, University of Pennsylvania, 1971
 Yolanda Musgrave Brill, associate professor, M.D., University of Kentucky, 1988
 Michael L. Cibull, professor, M.D., University of Illinois-Chicago, 1973
 Laura Marie Crump, assistant professor, M.D., Vanderbilt University, 1995
 Daron G. Davis, associate professor emeritus, M.D., University of Kentucky, 1982
 Gregory J. Davis, professor, M.D., University of Tennessee-Medical, 1985
 Larry Gilroy Dickson, professor emeritus, M.D., Wayne State University, 1959
 Jeffrey L. Ellis, associate professor, M.D., University of Louisville, 1988
 Norman L. Goodman, professor, Ph.D., University of Oklahoma, 1965
 John Claiborne Hunsaker, professor, M.D., J.D., University of Kentucky, 1977
 C. Darrell Jennings, professor, M.D., University of Kentucky, 1977
 James Edward Johnson, associate professor emeritus, Ph.D., University of Oklahoma, 1974
 Rouzan Gourgen Karabakhtsian, assistant professor, M.D., Ph.D., Tbilisi State University, 1991
 Rouzan Gourgen Karabakhtsian, assistant professor, M.D., Ph.D., Yerevan State Medical Institute, 1978
 Melissa VanDyke Kesler, assistant professor, M.D., University of Kentucky, 1999
 Eun Y. Lee, professor, M.D., Kyung Hee University, 1978
 Charles T. Lutz, professor, M.D., Ph.D., University of Chicago, 1982
 Duncan C. MacIvor, assistant professor, M.D., Ohio State University, 1976
 William R. Markesbery, professor, M.D., University of Kentucky, 1964
 Bonnie L. Mitchell, professor, M.D., Washington University, 1976
 Paul J. Murphy, lecturer, M.D., University of Massachusetts, 1982
 Peter Tobias Nelson, associate professor, M.D., Ph.D., University of Chicago, 1998
 William N. O'Connor, professor, M.D., National University Of Ireland, 1972
 Peter R. Oeltgen, professor, Ph.D., Loyola University Of Chicago, 1973
 Timothy L. Overman, associate professor, Ph.D., University of Cincinnati, 1971
 Elpidio deJesus Pena, associate professor, M.D., Univ Catolica 'Madre Y Ma, 1985
 Anjana L. Pettigrew, associate professor, M.D., Baylor University, 1983
 William Hudson Porter, professor, Ph.D., Vanderbilt University, 1970
 Deborah E Powell, professor emeritus, M.D., Tufts University, 1965

Ralph D Powell, professor emeritus, M.D., Boston University, 1958
Joseph Franklin Pulliam, assistant professor, M.D., University of Kentucky, 1994
Julie A. Ribes, professor, M.D., Ph.D., University of Rochester, 1990
Cristin M. Rolf, assistant professor, M.D., Medical College of Ohio, 1991
Luis Mario Samayoa, associate professor, M.D., Universidad Evangelica de El Salvador, 1991
Jennifer Corey Schott, assistant professor, M.D., University of Kentucky, 1999
Robert R. Sloss, associate professor, M.D., University of Louisville, 1974
Susan Elliott Spires, associate professor, M.D., University of Kentucky, 1976
Norbert W. Tietz, professor, Ph.D., Technical University of Stuttgart, 1950
Molly Megan Drehs Tovar, assistant professor, M.D., Columbia Univ-Columbia College, 2001
Ronald Jay Whitley, professor, Ph.D., Georgia Institute of Technology, 1975
Dianne Wilson, associate professor, M.D., University of Kentucky, 1977
Donald B. Witzke, associate professor emeritus, Ph.D., University of Texas at Austin, 1975
Kokichi Yoneda, professor emeritus, M.D., Nara Medical College, 1968

PEDIATRICS

J. Timothy Bricker, chair

Michael I. Anstead, associate professor, M.D., University of Kentucky, 1989
Henrietta S. Bada-Ellzey, professor, M.D., MPH, University of Santo Tomas, 1969
Hubert Otho Ballard, assistant professor, M.D., University of Kentucky, 1996
Carolyn A. Bay, associate professor, M.D., University of Rochester, 1985
Sherry L. Bayliff, assistant professor, M.D., Medical College of Ohio, 1995
Jeffrey S. Bennett, assistant professor, M.D., Texas A & M University, 1994
Philip Alan Bernard, assistant professor, M.D., University of Texas Southwestern, 1993
Louis I. Bezold, associate professor, M.D., University of Maryland, 1989
Christopher A. Boarman, associate professor, M.D., University of Kentucky, 1973
J. Timothy Bricker, professor, M.D., MBA, Ohio State University, 1976
Katherine L. Bright, associate professor, M.D., University of Kentucky, 1976
Robert Allen Broughton, professor, M.D., Bowman-Gray School Of Medicine, 1976
Margaret Casarett Bruce, associate professor, Sc.D., Harvard-Radcliffe, 1978
Lindsay Anne Burns, instructor, M.D., University of Kentucky, 2006
Lynn Renee Campbell, associate professor, M.D., University of Texas Sch Allied Health, 1980
Larry Curtis Cary, instructor, M.D., University of Kentucky, 2004
Aftab Shakir Chishti, assistant professor, MBBS, The Agha Khan University, 1990
Rebecca Lacy Collins, associate professor, M.D., University of Kentucky, 1986
Carol M Cottrill, professor, M.D., University of Cincinnati, 1971
Zoran Danov, assistant professor, M.D., Univ Cyril And Methodius, 1982
Amit Moham Deokar, assistant professor, M.D., MPH, All-India Ins.Of Medical Science, 1997
Nirmala S. Desai, professor, M.D., Baroda Medical College, 1966
Thomas G. Di Sessa, professor, M.D., SUNY of Buffalo, 1971
John August D'Orazio, assistant professor, M.D., Ph.D., University of Miami, 1996
William V. Everson, associate professor, Ph.D., Pennsylvania State University, 1984
Doane Fischer, professor emeritus, M.D., Temple University, 1947
Abe Roger Fosson, professor, M.D., Vanderbilt University, 1964
John Donald Geil, associate professor, M.D., University of Kentucky, 1976
Kenneth L. Gerson, professor, M.D., Ohio State University, 1958
Don Thomas Granger, associate professor, M.D., East Tennessee State University, 1985
Martha F Greenwood, professor, M.D., University of Kentucky, 1968
Michelle Ann Grenier, associate professor, M.D., Eastern Virginia Medical School, 1988
Donna Glandon Grigsby, associate professor, M.D., East Tennessee State University, 1986
Bryan D. Hall, professor, M.D., University of Louisville, 1965
Don Hayes, assistant professor, M.D., University of Kentucky, 1998
Irene Hong-McAtee, assistant professor, M.D., Washington University, 1999
Katrina McMurry Hood, assistant professor, M.D., University of Louisville, 1994
Angela Dee Houchin, assistant professor, M.D., University of Kentucky, 2002
Marlene Belew Huff, associate professor, Ph.D., University of Kentucky, 1999
Gregory L. Johnson, professor emeritus, M.D., Washington University, 1971
Bahram Kakavand, assistant professor, M.D., University of Munich Medical School, 1988
Jamshed Firoze Kanga, professor, M.D., Dow Medical College, 1976
Shibani Kanungo, assistant professor, M.D., MPH, Sechenov Moscow Medical Academy, 1994
Stefan Guenter Kiessling, assistant professor, M.D., Friedrich Alexander University, 1995
D. Corey Lachman, instructor, M.D., Medical College of Georgia, 2006
James Lamont Laham, associate professor, D.O., U of Health Sciences C of Osteo, 1984
Cheri D. Landers, associate professor, M.D., University of Missouri Columbia Campus, 1993
Philip B. Latham, assistant professor, M.D., University of Kentucky, 1981
Carolyn M. Lentzsch-Parcells, assistant professor, M.D., Baylor University, 2005
Xiang-an Li, assistant professor, Ph.D., Osaka Uni., 1994
Jun Liu, assistant professor, Ph.D., University of Virginia, 2000

C. Charlton Mabry, professor, M.D., Emory University, 1954
Grace F. Maguire, professor, M.D., University of Vermont, 1974
Erich C. Maul, assistant professor, D.O., Ohio University, 1999
Kimberly Kay McClanahan, associate professor, Ph.D., University of Maine, 1985
Michael Quinn McCoy, instructor, M.D., University of Kansas Coll Of Health Sc, 2002
Renuka Mehta, assistant professor, MBBS, Ranchi Uni., 1985
Joav Merrick, professor, M.D., University of Copenhagen, 1977
Richard John Mier, professor, M.D., University of Chicago, 1973
Jeffrey A. Moscow, professor, M.D., Dartmouth College, 1982
Christopher T. Nelson, associate professor, M.D., University of Texas Hlth Sci Ctr, 1990
Jacqueline A. Noonan, professor, M.D., University of Vermont, 1954
Kimberly Renee Northrip, assistant professor, M.D., MPH, Medical College of Virginia, 2001
Hatim A. Omar, professor, M.D., Academy of Medicine, 1985
Mark L. Parrott, assistant professor, M.D., University of Kentucky, 1981
Jay A. Perman, professor, M.D., Northwestern Univ Medical School, 1972
Susan H. Pollack, assistant professor, M.D., Eastern Virginia Medical School, 1984
Aurelia Radulescu, assistant professor, M.D., University of Medicine and Pharmacy, 1990
Vlad Calin Radulescu, assistant professor, M.D., University of Medicine & Pharmacy, 1990
Eric William Reynolds, associate professor, M.D., University of Louisville, 1997
Kimberly Renee Ringley, assistant professor, M.D., University of Kentucky, 1993
Susan Narva Robbins, assistant professor, M.D., Medical College of Virginia, 1987
Jenna L. Ross, assistant professor, M.D., University of Louisville, 1999
Kenneth Noel Schikler, professor, M.D., University of Louisville, 1972
Douglas Schneider, associate professor, M.D., University of New Mexico, 1988
Jane Ellen Seyler, assistant professor, M.D., M.S., Washington University, 1973
Harohalli R. Shashidhar, associate professor, M.D., Bangalore University, 1985
Lori A. Shook, professor, M.D., Creighton University, 1983
Thitinarat Sithisarn, assistant professor, M.D., Chulalongkorn University, 1997
Eric J. Smart, professor, Ph.D., University of Wisconsin-Madison, 1992
Shawn Jennifer Smith, assistant professor, M.D., University of Kentucky, 2003
W. Jackson Smith, associate professor, M.D., Duke University, 1982
Neelkamal Sanjiv Soares, assistant professor, M.D., Lokmanya Tilak University, 1995
Laura Patricia Stadler, assistant professor, M.D., University of Louisville, 2000
Donna Deweese Stanton, assistant professor, M.D., East Tennessee State University, 2004
Carol L. Steltenkamp, associate professor, M.D., M.B.A., University of Cincinnati, 1987
Rhya Champion Strifling, assistant professor, M.D., University of South Carolina, 2004
Jacqueline M. Sugarman, assistant professor, M.D., Boston University, 1988
Shawn M. Taylor, assistant professor, M.D., Medical College of Ohio, 1985
Akaluck Thatayatikom, associate professor, M.D., Chiangmai University, 1989
Patricia Ann Treadwell, professor, M.D., Cornell University, 1977
Hugh Michael Tucker, assistant professor, Ph.D., University of Texas Southwestern, 1994
M. Dawn Turner, assistant professor, M.D., University of Louisville, 1997
Deanna Todd Tzanetos, instructor, M.D., University of Kentucky, 2002
William LeWayne Underwood, professor, M.D., Vanderbilt University, 1964
Mark G. Vranicar, assistant professor, M.D., Loyola University Of Chicago, 1992
Carmel Wallace, associate professor, M.D., University of Kentucky, 1975
Linda Rae Walters, associate professor emeritus, M.D., Indiana University, 1962
Paula Heater Wells, assistant professor, M.D., University of Kentucky, 2004
H. David Wilson, professor emeritus, M.D., St Louis University, 1966
Betty I. Wolf, associate professor emeritus, M.D., University of Chicago, 1965
Peter Wong, professor, M.D., Rangoon Ins.Of Technology, 1968
Sheila H. Woods, associate professor, M.D., University of Kentucky, 1979
Mervin C. Yoder, professor, M.D., Indiana University, 1980
Thomas L. Young, professor, M.D., University of Louisville, 1976
John Andrew Yozwiak, assistant professor, Ph.D., University of Kentucky, 2003
Horacio F. Zaglul, associate professor, M.D., National Uni.Of La Plata, 1975

PHYSICAL MEDICINE AND REHABILITATION

Gerald Vincent Klim, chair

Dwight Auvenshine, associate professor emeritus, Ph.D., University of Missouri Columbia Campus, 1962
David Lindsay Cowen, professor emeritus, M.D., University of Colorado-Denver, 1959
Walter M. High, associate professor, Ph.D., University of Houston, 1988
Ninad S. Karandikar, assistant professor, M.D., Seth GS Medical College, 1995
Gerald Vincent Klim, associate professor, D.O., College of Osteopathic Medicine, 1980
Susan M. McDowell, associate professor, M.D., Medical College of Georgia, 1990
Melanie Lynn McEwen, assistant professor, Ph.D., University of Florida, 2000
Robert B. Nickerson, associate professor, M.D., Medical College of Georgia, 1989
Helen M. O'Donnell, assistant professor, M.D., Albert Einstein College Medicine, 1980
Sara Shahid Salles, associate professor, D.O., U of Health Sciences C of Osteo, 1996
Lumy Sawaki, associate professor, M.D., Ph.D., University of Sao Paulo, 1991
Randal E. Schleenbaker, associate professor, M.D., Loma Linda University La Sierra, 1986

Joe E. Springer, professor, Ph.D., State University of New York At Bingha, 1984
Nancy J. Stiles, associate professor, M.D., University of Texas Hlth Sci Ctr, 1986
Chadwick Allen Walters, assistant professor, D.O., West Virginia School of Osteo MD, 2003

PHYSIOLOGY

Michael B. Reid, chair

Francisco Humberto Andrade, associate professor, Ph.D., University of Texas at San Antonio, 1994
C. William Balke, professor, M.D., Temple University, 1981
Charles H. Bennett, professor, Ph.D., University of Kentucky, 1981
Kenneth Scott Campbell, associate professor, Ph.D., University of Birmingham, 1998
Maria C. deBeer, associate professor, Ph.D., University of Stellenbosch, 1992
Brian Patrick Delisle, assistant professor, Ph.D., University of Kentucky, 2001
Scott E. Diamond, assistant professor, Ph.D., University of Colorado, 1995
John Nicholas Diana, professor emeritus, Ph.D., University of Louisville, 1965
Suzanne Thomas Doolen, assistant professor, Ph.D., University of California-Irvine, 1998
Joseph Engelberg, professor emeritus, Ph.D., University of Pennsylvania, 1958
Karyn Ann Esser, professor, Ph.D., University of Michigan-Ann Arbor, 1990
Steven Estus, professor, Ph.D., Case Western Reserve University, 1989
Donald T. Frazier, professor, Ph.D., University of Kentucky, 1964
Gregory I. Frolenkov, assistant professor, Ph.D., Moscow Institute of Physics & Tech & Cardiology Research Center, 1988
Thomas V. Getchell, professor, Ph.D., Northwestern University, 1969
Ming Cui Gong, associate professor, M.D., Ph.D., Peking Medical Col., 1994
Qihai Gu, assistant professor, M.D., Binzhou Medical College, 1993
Karin Westlund High, professor, Ph.D., University of Texas Medical, 1981
Henry R. Hirsch, professor emeritus, Ph.D., Massachusetts Institute of Techn, 1960
Brian A. Jackson, professor, Ph.D., University of Sheffield, 1977
Lu Yuan Lee, professor, Ph.D., University of Mississippi Medical, 1975
Sandra J. Legan, professor, Ph.D., University of Michigan, 1974
John Joseph McCarthy, assistant professor, Ph.D., University of Oregon, 1995
Timothy S. McClintock, professor, Ph.D., University of Florida, 1989
Jennifer S. Moylan, assistant professor, Ph.D., University of Arizona, 1994
Mariana Nikolova-Karakashian, associate professor, Ph.D., Bulgarian Academy of Sciences, Institute of Biophysics, 1992
Ok-Kyong Park-Sarge, associate professor, Ph.D., University of Illinois-Urbana, 1989
Alexander G. Rabchevsky, associate professor, Ph.D., University of Florida, 1995
David C. Randall, professor, Ph.D., University of Washington, 1972

David M. Preston, assistant professor, M.D., Emory University, 1990
Andrew R. Pulito, professor, M.D., Columbia Univ School Of General, 1969
Chand Ramaiah, associate professor, M.D., Bangalore University, 1989
Dinesh Ranjan, professor, M.D., Ranjendra Medical College, 1978
Hassan K. Reda, assistant professor, M.D., American University In Beirut, 1995
Brian D. Rinker, associate professor, M.D., Yale University, 1996

Anna Kure Rockich, assistant professor, Pharm.D., University of Kentucky, 1998
John Scott Roth, associate professor, M.D., Virginia Commonwealth Univ-Acade, 1993
Randall G. Rowland, professor, M.D., Ph.D., Northwestern Univ Medical School, 1972
Sibu P. Saha, professor, M.D., MBA, University of Rajshahi, 1966
Claire Sanger, assistant professor, D.O., West Virginia School of Osteo MD, 1999
Richard W. Schwartz, professor, M.D., University of Virginia, 1979
Jennifer B. Shinn, assistant professor, Ph.D., University of Connecticut, 2005
Sean C. Skinner, assistant professor, M.D., Ross University, 1999
David A. Sloan, associate professor, M.D., McGill University, 1977
Brian J. Sonka, instructor, M.D., University of Kentucky, 1995
Ehab S. Sorial, assistant professor, M.D., University of Minya, 1994
Daniel H. Stewart, associate professor, M.D., West Virginia University, 1980
Stephen F. Strup, professor, M.D., Indiana Central University, 1988
Joseph Valentino, professor, M.D., U of Med&Dent of NJ RW Johnson, 1987
Keith D Vandenbrink, associate professor emeritus, M.D., University of Iowa, 1961
H. David Vargas, associate professor, M.D., University of Virginia, 1988
Henry C. Vasconez, professor, M.D., Central University of Ecuador, 1978
Maria C. Veling, associate professor, M.D., University of Louisville, 1993
Ramakrishna Venkatesh, associate professor, MBBS, Bangalore Medical College, 1988
Dongfang Wang, associate professor, M.D., Ph.D., Tongji Medical University, 1991
Lesley Wong, associate professor, M.D., Cornell University, 1982
Heather R. Wright, assistant professor, M.D., University of Virginia, 1999
Eleftherios S. Xenos, assistant professor, M.D., University of Athens, 1989
Abbas A. Younes, assistant professor, M.D., American University in Beirut, 1995
Hong-Bo Zhao, associate professor, M.D., Ph.D., Yichang Medical College, 1982
Joseph Bertram Zwischenberger, professor, M.D., University of Kentucky, 1977

COLLEGE OF NURSING

Jane Marie Kirschling, dean

Debra G. Anderson, associate professor, Ph.D., Oregon, 1993
Kristin B. Ashford, assistant professor, Ph.D., Kentucky, 2007
Ruth Assell, associate professor emeritus, M.S., Colorado, 1966
Ruth D. Berry, assistant clinical professor emeritus, M.S.N., Wayne State, 1964
Dorothy A. Brockopp, professor, Ph.D., SUNY-Buffalo, 1982
Patricia V. Burkhart, associate professor, Ph.D., Pittsburgh, 1996
Karen M. Butler, assistant professor, D.N.P., Kentucky, 2006
Norma J. Christman, associate professor emeritus, Ph.D., Wayne State, 1980
Misook L. Chung, assistant research professor, Ph.D., Kentucky, 2001
Jennifer B. Cowley, lecturer, M.S.N., Kentucky, 1987
Claudia M. Diebold, senior lecturer, M.S.N., Arkansas, 1993
Juanita Fleming, professor emeritus, Ph.D., Catholic University, 1969
Susan K. Frazier, associate professor, Ph.D., Ohio State, 1996
Teresa A. Free, associate professor, Ph.D., Texas-Austin, 1988
Beatrice Gaunder, associate professor emeritus, M.S.N., SUNY-Buffalo, 1973; M.S.Ed., Niagara, 1973
Evelyn Geller, associate professor emeritus, M.S.N., Catholic University, 1963; M.Ed., Columbia, 1972
Carrie M. Gordy, assistant clinical professor, M.S.N., Kentucky, 1994
Margaret R. Grier, professor emeritus, Ph.D., Texas Woman's University, 1975
Ellen J. Hahn, professor, D.N.S., Indiana, 1991
Julia J. Hall, lecturer, M.S.N., Kentucky, 2004
Lynne A. Hall, professor, Dr.P.H., North Carolina-Chapel Hill, 1983
Frances Hardin-Fanning, lecturer, M.S.N., Kentucky, 2005
Melanie Hardin-Pierce, assistant professor, D.N.P., Kentucky, 2006
Jennifer Hatcher, assistant professor, Ph.D., Kentucky, 2006
Victoria R. Hensley, clinical instructor, M.S.N., Kentucky, 2005
Margaret Hickman, associate professor, Ed.D., Ball State, 1982
Beth Hicks, associate professor emeritus, Ph.D., Texas-Austin, 1987
Patricia B. Howard, associate professor, Ph.D., Kentucky, 1992
Lynne A. Jensen, associate clinical professor, Ph.D., Kentucky, 2007
Mikael Jones,* clinical assistant professor, Pharm.D., Kentucky, 2002
Lynn A. Kelso, assistant clinical professor, M.S.N., Case Western Reserve, 1991
Jane Marie Kirschling, professor, D.N.S., Indiana, 1984
Nancy R. Kloha, clinical instructor, M.S.N., Indiana, 1977
Gretchen LaGodna, professor emeritus, Ph.D., Kentucky, 1975
Gwendolen Lee, professor emeritus, Ed.D., Tennessee-Memphis, 1973
Terry A. Lennie, associate professor, Ph.D., Wisconsin-Madison, 1993
Sharon E. Lock, associate professor, Ph.D., South Carolina-Columbia, 1990
Wanda Lovitz, lecturer, M.S.N., Bellarmine, 1998
Regina C. Lowry, senior lecturer, Ph.D., Kentucky, 2007
Kathryn M. Moore, assistant professor, D.N.P., Case Western Reserve, 2007
Debra K. Moser, professor, D.N.Sc., California-Los Angeles, 1992
Gia T. Mudd, assistant professor, Ph.D., Texas Health Science Center at Houston, 2007
Ann R. Peden, professor emeritus, D.S.N., Alabama-Birmingham, 1991

COLLEGE OF PHARMACY

Patrick J. McNamara, interim dean

PHARMACY PRACTICE AND SCIENCE

Aimee G. Adams, adjunct assistant professor, Pharm.D., Cincinnati, 1994
Val R. Adams, associate professor, Pharm.D., Texas at Austin (jointly w/ UT Health Science Center at San Antonio), 1993
Ann B. Amerson, professor, Pharm.D., Kentucky, 1971
Heidi M. Anderson, professor, Ph.D., Purdue, 1986
John A. Armitstead, clinical associate professor, M.Sc., Ohio State, 1982
Michael C. Berger, clinical professor, Pharm.D., Kentucky, 2003
Karen M. Blumenschein, associate professor, Pharm.D., Kentucky, 1991
Sheila Botts, assistant professor, Pharm.D., Kentucky, 1993
Ralph E. Bouvette, adjunct associate professor, Ph.D., J.D., Kentucky, 1991
Kimberley L. Brantley-Hite, adjunct assistant professor, MH PHAR, Ohio State, 1989
Timothy M. Clifford, adjunct assistant professor, Pharm.D., Kentucky, 1998
Peter P. Cohron, adjunct associate professor, J.D., Kentucky, 1993
Aaron M. Cook, adjunct assistant professor, Pharm.D., Kentucky, 2000
George A. Davis, adjunct associate professor, Pharm.D., Arkansas at Little Rock, 1993
Holly S. Divine, clinical associate professor, Pharm.D., Kentucky, 1998
Steven P. Dunn, adjunct assistant professor, Pharm.D., Virginia Commonwealth, 2004
David J. Feola, assistant professor, Pharm.D., Kentucky, 1997
Joseph L. Fink III, professor, J.D., Georgetown, 1973
Jeremy Flynn, adjunct assistant professor, Pharm.D., Kentucky, 1999
Thomas S. Foster, professor, Pharm.D., Kentucky, 1973
Jimmi C. Hatton, professor, Pharm.D., Kentucky, 1984
Carrie Johnson, clinical assistant professor, Pharm.D., Kentucky, 1997
Jill R. Johnson, assistant professor, Pharm.D., Tennessee-Medical, 1998
Mikael Jones, clinical assistant professor, Pharm.D., Florida, 2002
Shelley M. Jones, clinical assistant professor, Pharm.D., Florida, 2002
Kenneth L. Kirsh, assistant professor, Ph.D., Indiana -Purdue, 2001
Robert J. Kuhn, professor, Pharm.D., Texas at Austin, 1984
Matthew T. Lane, clinical associate professor, Pharm.D., Kentucky, 1993
Daniel A. Lewis, adjunct assistant professor, Pharm.D., Duquesne, 1999
Melanie Mabins, clinical assistant professor, Pharm.D., Kentucky, 2004
Tracy Macaulay, adjunct assistant professor, Pharm.D., South Carolina, 2003
Barbara L. Magnuson, adjunct associate professor, Pharm.D., Kentucky, 1990
Craig A. Martin, adjunct associate professor, Pharm.D., Kentucky, 1999
Bruce A. McIntosh, associate professor, Pharm.D., Kentucky, 1995
Tera McIntosh, clinical assistant professor, Pharm.D., Kentucky, 2001
Christopher M. Miller, clinical assistant professor, Pharm.D., Kentucky, 2003

Trenika R. Mitchell, clinical assistant professor, Pharm.D., Mississippi, 2004
Amy Nicholas, clinical associate professor, Pharm.D., Kentucky, 1997
Margaret Nowak-Rapp, clinical associate professor, Pharm.D., SUNY at Buffalo, 1973
John F. Peppin, clinical associate professor, DO, U of Osteopathic Med & Health Sc, 1992
Mary M. Piascik, associate professor, Ph.D., Ohio State, 1978
John J. Picoro Jr., professor, Pharm.D., Kentucky, 1978
Anne Policastri, clinical assistant professor, Pharm.D., Kentucky, 1982
Robert P. Rapp, professor, Pharm.D., Kentucky, 1970
Kenneth E. Record, associate professor, Pharm.D., Kentucky, 1978
Patricia E. Rippetoe Freeman, clinical associate professor, Ph.D., Kentucky, 1991
Kenneth B. Roberts, professor, Ph.D., Mississippi, 1975
Frank Romanelli, associate professor, Pharm.D., Kentucky, 1996
Melody Ryan, associate professor, Pharm.D., Kentucky, 1993
Kelly M. Smith, associate professor, Pharm.D., Georgia, 1993
Douglas Steinke, assistant professor, Ph.D., Dundee, 2001
Rachel C. Stratman, instructor, Pharm.D., St Louis College of Pharmacy, 2005
Stephanie Sutphin, adjunct assistant professor, Pharm.D., Kentucky, 1995
Jeffery S. Talbert, associate professor, Ph.D., Texas A & M, 1995
Daniel P. Wermeling, associate professor, Pharm.D., Kentucky, 1983
P. S. Winstead, adjunct assistant professor, Pharm.D., Kentucky, 1999

PHARMACEUTICAL SCIENCES

Abeer Al-Ghananeem, adjunct research assistant professor, Ph.D., Kentucky, 1999
Bradley D. Anderson, professor, Ph.D., Kansas, 1978
Younsoo Bae, assistant professor, Ph.D., Tokyo, 2005
Esther P. Black, assistant professor, Ph.D., Florida, 1997
Paul M. Bummer, associate professor, Ph.D., Wisconsin-Madison, 1987
Janice E. Buss, professor, Ph.D., California San Diego, 1983
Lisa Cassis, joint professor, R.Ph, West Virginia; Ph.D., West Virginia, 1984
Peter A. Crooks, professor, Ph.D., Manchester, 1970
Sylvia Daunert, joint professor, Pharm.D., Barcelona, 1982; Ph.D., Barcelona, 1991
Patrick P. Deluca, professor, Ph.D., Temple, 1963
Linda P. Dwsokin, professor, Ph.D., Minnesota, 1983
Gregory Elliott, assistant professor, Ph.D., California, 2001
Gregory A. Graf, assistant professor, Ph.D., Kentucky, 2000
Kyung Bo Kim, associate professor, Ph.D., Ohio State, 1997
Woojin Lee, assistant professor, Ph.D., SUNY at Buffalo, 2002
Markos Leggas, assistant professor, Ph.D., Tennessee-Medical, 2004
Tonglei Li, associate professor, Ph.D., Purdue, 1999
Carrie Lifshitz, instructor, Ph.D., Pennsylvania, 2004
John M. Littleton, professor, M.D., London, 1970
Robert A. Lodder, professor, Ph.D., Indiana, 1988
Charles D. Loftin, assistant professor, Ph.D., North Carolina, 1995
William C. Lubawy, professor, Ph.D., Ohio State, 1972
Heidi Mansour, assistant professor, Ph.D., Wisconsin-Madison, 2003
Patrick J. McNamara, professor, Ph.D., SUNY at Buffalo, 1979
Kimberly Nixon, assistant professor, Ph.D., Texas at Austin, 2000
Kalpana S. Paudel, research assistant professor, Ph.D., Toyama Medical and Pharmaceutical, 1999
James R. Pauly, associate professor, Ph.D., Marquette, 1986
Todd D. Porter, associate professor, Ph.D., Illinois-Chicago, 1981
Jurgen Rohr, professor, Ph.D., University of Gottingen, 1984
Vinod Shah, adjunct professor, Ph.D., California, 1964
Audra L. Stinchcomb, associate professor, Ph.D., Michigan-Ann Arbor, 1995
Terry Stouch, adjunct associate professor, Ph.D., Pennsylvania State, 1985
Hsin-Hsiung Tai, professor, Ph.D., Wisconsin-Madison, 1970
Steven Van Lanen, assistant professor, Ph.D., Portland State, 2003
Dave Watt, joint professor, Ph.D., Harvard, 1972
Peter J. Wedlund, associate professor, Ph.D., Washington, 1981
Joe Wyse, adjunct assistant professor, Ph.D., Kentucky, 1988
John Yannelli, joint associate professor, Ph.D., Virginia Commonwealth, 1982
Robert A. Yokel, professor, Ph.D., Minnesota, 1973
Chang-Guo Zhan, professor, Ph.D., Notre Dame, 1998
Guangrong Zheng, research assistant professor, Ph.D., Chinese Academy of Sciences, 2000

COLLEGE OF PUBLIC HEALTH

Stephen W. Wyatt, dean

Gregory R. Moore, Director of University Health Services
Donald E. Witt, Assistant Provost for Enrollment Management and Director of Undergraduate Admission and University Registrar

Drug-Free Policy

Policy Statement as a Drug-Free Institution

The University of Kentucky is committed to providing a healthy and safe environment for its students, faculty and staff. The University has defined conduct in relation to the unlawful possession, use, dispensation, distribution or manufacture of alcohol or illicit drugs. Conduct which is violative of this definition poses unacceptable risks and disregard for the health, safety, and welfare of members of the University community and shall result in disciplinary action up to and including suspension or termination.

As a recipient of federal grants and contracts, the University of Kentucky gives this notice to students, faculty and staff that it is in compliance with and shall continue to be in compliance with the Drug-Free Workplace Act of 1988 and the Drug-Free Communities Act Amendment of 1989. Students, faculty and staff are herein notified of the standards of conduct which shall be applicable while on University of Kentucky property, on University business, and/or at University sponsored activities.

Standards of Conduct

By University regulations, by federal law, by state law, and, in some instances, by local ordinance, students, faculty and staff are prohibited from the **unlawful** possession, use, dispensation, distribution, or manufacture of illicit drugs on University property, on University business and/or at University sponsored activities.

Under University regulations, students, faculty and staff are required to abide by state laws concerning alcoholic beverages. Basically, Kentucky laws state that if one is under the age of 21, it is unlawful to:

- (1) possess or consume alcoholic beverages,
- (2) misrepresent one's age for the purpose of purchasing alcoholic beverages, or
- (3) use a fake ID in an attempt to purchase alcoholic beverages.

No matter what one's age, Kentucky law states that it is unlawful to:

- (1) procure any alcoholic beverages for anyone under 21 years of age or
- (2) drink or to be drunk in a public place.

University campuses and buildings are considered as public places for purposes of these laws, except for a facility licensed to serve alcoholic beverages, and except for a facility used as a private residence, unless University regulations state otherwise.

Ordinances of the Lexington-Fayette Urban County Government basically parallel the state laws.

Any member of the University student body, faculty, or staff who violates these defined standards of conduct shall be subject to appropriate disciplinary action up to and including suspension and/or termination. The specifically defined standards of conduct, the disciplinary procedures, and the appropriate sanctions are detailed in the codes of student conduct and in the Administrative Regulations (AR II-1.1-4, AR II-1.1-10, AR II-1.1-11 and Human Resource Policy & Procedures Numbers 13.0 and 14.0).

In addition, it is a violation of state law to operate a motor vehicle while under the influence of any substance which may impair one's driving ability (drugs or alcoholic beverages).

Sanctions

Under University regulation, students who violate this standard of conduct are subject to disciplinary action from a minimum of a warning to a maximum of suspension from the University. Students who reside in University Housing are subject to further disciplinary action which may vary from a warning to termination of their housing contract.

Faculty and staff are subject to disciplinary action from a minimum of a warning to a maximum of termination from University employment.

Under state and federal drug laws, the gravity of the sanction depends on the classification of the controlled substance, the particular activity involved (possession or trafficking which includes manufacture, sale and possession with intent to sell), and whether or not multiple convictions are involved.

Under Kentucky law, the most severe penalty for a drug law violation involves trafficking. On a first offense conviction, one may receive a fine of up to \$10,000.00 and/or a sentence of up to ten (10) years in the penitentiary; for subsequent offenses, the penalties may be doubled.

Under federal laws, for simple possession of a controlled substance, one may be imprisoned for up to one (1) year and/or fined up to \$1,000.00. For subsequent offenses, one may be imprisoned for up to three (3) years and/or fined up to \$5,000.00. Under federal law, one may be fined up to \$8,000,000.00 and/or may be sentenced from not less than ten (10) years up to life in prison for trafficking in drugs. For violations of other federal drug laws, one may receive life in prison or the death penalty.

Under both state and federal laws, one may suffer the loss of whatever property (house, farm) or possessions (vehicle) which one may have used in the drug trade.

Specific penalties under federal laws for trafficking in various controlled substances are outlined in Appendix A to this policy.

Sanctions for violation of state alcohol laws vary from a fine of \$10.00 to \$2,000.00, a sentence of forty-eight (48) hours to twelve (12) months in jail, and/or suspension of one's operators license.

Notice of Drug-Related Conviction

In compliance with the Federal Drug-Free Workplace Act of 1988, **any** employee shall notify the immediate supervisor if the employee is convicted of a criminal drug offense occurring in the workplace or while on University business within five (5) days of the conviction. The University shall take appropriate sanction and remedies in accordance within its policies. The provisions of this section are applicable to students who are employees of the University. If the employee is under a federal contract or grant, the University shall notify the contracting or granting agency of the conviction and of its actions. This section of this policy is also applicable to students who receive a Pell grant (federal grant).

Health Risks

The scope and impact of health risks from alcohol and drug abuse are both alarming and well-documented, ranging from mood-altering to life-threatening, with consequences that extend beyond the individual to family, organizations and society at large. The University of Kentucky, therefore, conducts regular programs to educate its students, faculty and staff that consumption and use of drugs may alter behavior, distort perception, impair thinking, impede judgment, and lead to physical or psychological dependence.

Alcohol and/or drugs and/or drug abuse may lead to the deterioration of physical health by causing or contributing to various health conditions including but not limited to fatigue, nausea, personal injury, insomnia, pathological organ damage, some forms of cancer, pancreatitis, heart attack, respiratory depression, birth defects, convulsions, coma, and even death. Alcohol and drug abuse may also result in deterioration of mental health by causing or contributing to various conditions such as increased aggression, hallucinations, depression, disorientation, and psychosis.

A detailed list of the effects and health risks associated with the use of many specific drugs appears as Appendix B to this policy.

Alcohol consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident.

Low to moderate doses of alcohol also increase the incidence of a variety of aggressive acts, including spouse and child abuse.

Moderate to high doses of alcohol cause marked impairments in higher mental functions, severely altering a person's ability to learn and remember information.

Very high doses cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses of alcohol will produce the effects just described.

Repeated use of alcohol can lead to dependence. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations, and convulsions. Alcohol withdrawal can be life-threatening. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs such as the brain and the liver.

Mothers who drink alcohol during pregnancy may give birth to infants with fetal alcohol syndrome. These infants have irreversible physical abnormalities and mental retardation. In addition, research indicates that children of alcoholic parents are at greater risk than other youngsters of becoming alcoholics.

Training and Counseling Resources

Continuous efforts are made to make students, faculty and staff aware of the on-campus and off-campus programs which provide information and professional services on matters related to the abuse of alcohol and drugs.

Lists of sources for information and counseling for students are published in the *Kernel* regularly. Students are encouraged to contact the Dean of Students and/or the Office of Residence Life for information and appropriate referral.

Counseling is provided by such areas as the Testing and Counseling Center, the Department of Counseling and Psychology in the College of Education, the Medical Student Support Services program, and an In-resident counselor in the residence halls system.

For faculty and staff the Employee Assistance Program, REFER, specifically provides information as to resources available to employees.

Other counseling, treatment, and rehabilitation services are available in the Lexington community as well as communities throughout the state in which Lexington Community College and College of Agriculture employees are located.

- Comprehensive Care Centers offer both counseling and treatment.
- In the Lexington area, the number for Alcoholics Anonymous (AA) is 859-276-2917. (Check local telephone directory for listings.)
- The Chrysalis House Inc. (859-225-9912) offers long term, half-way house residential treatment for recovering chemically dependent women.
- University of Kentucky Family Center 859-257-7755.

Policy on Residency

13 KAR 2:045.

DETERMINATION OF RESIDENCY STATUS FOR ADMISSION AND TUITION ASSESSMENT PURPOSES.

RELATES TO: KRS Chapter 13B, 164.020, 164.030, 164A.330(6)

STATUTORY AUTHORITY: KRS 164.020(8)

NECESSITY, FUNCTION, AND CONFORMITY: KRS 164.020(8) requires the Council on Postsecondary Education to determine tuition and approve the minimum qualifications for admission to a state-supported postsecondary education institution and authorizes the Council to set different tuition amounts for residents of Kentucky and for nonresidents. This administrative regulation establishes the procedure and guidelines for determining the residency status of a student who is seeking admission to, or who is enrolled at, a state-supported postsecondary education institution.

Section 1. Definitions.

(1) "Academic term" means a division of the school year during which a course of studies is offered, and includes a semester, quarter, or single consolidated summer term as defined by the institution.

(2) "Continuous enrollment" means enrollment in a state-supported postsecondary education institution at the same degree level for consecutive terms, excluding summer term, since the beginning of the period for which continuous enrollment is claimed unless a sequence of continuous enrollment is broken due to extenuating circumstances beyond the student's control, including serious personal illness or injury, or illness or death of a parent.

(3) "Degree level" means enrollment in a course or program which could result in the award of a:

- Certificate, diploma or other program award at an institution;
- Baccalaureate degree or lower including enrollment in a course by a nondegree-seeking postbaccalaureate student;
- Graduate degree or graduate certification other than a first-professional degree in law, medicine, dentistry or "Pharm. D"; or
- Professional degree in law, medicine, dentistry, or "Pharm. D".

(4) "Demonstration of Kentucky domicile and residency" means the presentation of documented information and evidence sufficient to prove by a preponderance of the evidence that a person is domiciled in Kentucky and is a resident of Kentucky.

(5) "Dependent person" means a person who cannot demonstrate financial independence from parents or persons other than a spouse and who does not meet the criteria established in Section 5 of this administrative regulation.

(6) "Determination of residency status" means the decision of a postsecondary education institution that may include a formal hearing that results in the classification of a person as a Kentucky resident or as a nonresident for admission and tuition assessment purposes.

(7) "Domicile" means a person's true, fixed, and permanent home and is the place where the person intends to remain, and to which the person expects to return if absent without intending to establish a new domicile elsewhere.

(8) "Full-time employment" means continuous employment for at least forty-eight (48) weeks at an average of at least thirty (30) hours per week.

(9) "Independent person" means a person who demonstrates financial independence from parents or persons other than a spouse and who can meet the criteria established in Section 5 of this administrative regulation.

(10) "Institution" means an entity defined in KRS 164.001(11) if the type of institution is not expressly stated and includes the Kentucky Virtual University, the Council on Postsecondary Education, and the Kentucky Higher Education Assistance Authority.

(11) "Kentucky resident" means a determination by an institution that a person is domiciled in and is a resident of Kentucky as determined by this administrative regulation.

(12) "Nonresident" means a person who is domiciled outside of Kentucky or who currently maintains legal residence outside Kentucky or who is not a Kentucky resident within the meaning of this administrative regulation.

(13) "Parent" means one (1) of the following:

- A person's father or mother; or
- A court-appointed legal guardian if:
 - The guardianship is recognized by an appropriate court within the United States;

- There was a relinquishment of the rights of the parents; and
- The guardianship was not established primarily to confer Kentucky residency on the person.

(14) "Preponderance of the evidence" means the greater weight of evidence, or evidence which is more credible and convincing to the mind.

(15) "Residence" means the place of abode of a person and the place where the person is physically present most of the time for a noneducational purpose in accordance with Section 3 of this administrative regulation.

(16) "Student financial aid" means all forms of payments to a student if one (1) condition of receiving the payment is the enrollment of the student at an institution.

(17) "Sustenance" means living expenses including room, board, maintenance, transportation, and also may include educational expenses including tuition, fees, books, and supplies.

Section 2. Scope.

(1) State-supported postsecondary education institutions were established and are maintained by the Commonwealth of Kentucky primarily for the benefit of qualified residents of Kentucky. The substantial commitment of public resources to postsecondary education is predicated on the proposition that the state benefits significantly from the existence of an educated citizenry. As a matter of policy, access to postsecondary education shall be provided so far as feasible at reasonable cost to an individual who is domiciled in Kentucky and who is a resident of Kentucky.

(2) The Council on Postsecondary Education may require a student who is neither domiciled in nor a resident of Kentucky to meet higher admission standards and to pay a higher level of tuition than resident students.

(3) This administrative regulation applies to all student residency determinations regardless of circumstances, including residency determinations made by the state-supported institutions for prospective and currently-enrolled students; the Southern Regional Education Board contract spaces; reciprocity agreements, where appropriate; the Kentucky Virtual University; academic common market programs; the Kentucky Educational Excellence Scholarship Program; and other state student financial aid programs, as appropriate.

Section 3. Determination of Residency Status; General Rules.

(1) A determination of residency shall include:

- An initial determination of residency status by an institution during the admission process or upon enrollment in an institution for a specific academic term or for admission into a specific academic program;
- A reconsideration of a determination of residency status by an institution based upon a changed circumstance; and
- A formal hearing conducted by an institution upon request of a student after other administrative procedures have been completed.

(2) An initial determination of residency status shall be based upon:

- The facts in existence when the credentials established by an institution for admission for a specific academic term have been received and during the period of review by the institution;
- Information derived from admissions materials;
- Other materials required by an institution and which are consistent with this administrative regulation; or
- Other information available to the institution from any source.

(3) An individual seeking a determination of Kentucky residency status shall demonstrate that status by a preponderance of the evidence.

(4) A determination of residency status shall be based upon verifiable circumstances or actions.

(5) Evidence and information cited as the basis for Kentucky domicile and residency shall accompany the application for a determination of residency status.

(6) A student classified as a nonresident shall retain that status until the student is officially reclassified by an institution.

(7) A student may apply for a review of a determination of residency status once for each academic term.

(8) If an institution has information that a student's residency status may be incorrect, the institution shall review and determine the student's correct residency status.

Policy on Residency

(9) If the Council on Postsecondary Education has information that an institution's determination of residency status for a student may be incorrect, it may require the institution to review the circumstances and report the results of that review.

(10) An institution shall impose a penalty or sanction against a student who gives incorrect or misleading information to an institutional official, including payment of nonresident tuition for each academic term for which resident tuition was assessed based on an improper determination of residency status. The penalty may also include:

- (a) Student discipline by the institution through a policy written and disseminated to students; or
- (b) Criminal prosecution.

Section 4. Presumptions Regarding Residency Status.

(1) In making a determination of residency status, it shall be presumed that a person is a nonresident if:

- (a) A person is, or seeks to be, an undergraduate student and admissions records show the student to be a graduate of an out-of-state high school within five (5) years prior to a request for a determination of residency status;
- (b) A person's admissions records indicate the student's residence to be outside of Kentucky at the time of application for admission;
- (c) A person moves to Kentucky primarily for the purpose of enrollment in an institution;
- (d) A person moves to Kentucky and within twelve (12) months enrolls at an institution more than half time; or
- (e) A person has a continuous absence of one (1) year from Kentucky.

(2) A presumption arising from subsection (1) of this section shall be overcome by presentation of evidence that is sufficient to demonstrate that a person is domiciled in and is a resident of Kentucky.

Section 5. Determination of Whether a Student is Dependent or Independent.

(1) In a determination of residency status, an institution shall first determine whether a student is dependent or independent. This provision is predicated on the assumption that a dependent person lacks the financial ability to live independently of the person upon whom the student is dependent and therefore lacks the ability to form the requisite intent to establish domicile.

(2) In determining the dependent or independent status of a person, the following information shall be considered as well as other relevant information available at the time the determination is made:

- (a)
 1. Whether the person has been claimed as a dependent on the federal or state tax returns of a parent or other person for the year preceding the date of application for a determination of residency status; or
 2. Whether the person is no longer claimed by a parent or other person as a dependent or as an exemption for federal and state tax purposes; and
- (b) Whether the person has financial earnings and resources independent of a person other than an independent spouse necessary to provide for the person's own sustenance.

(3) An individual who enrolls at an institution immediately following graduation from high school and remains enrolled shall be presumed to be a dependent person unless the contrary is evident from the information submitted.

(4) Domicile may be inferred from the student's permanent address, parent's mailing address, or location of high school of graduation.

(5) Marriage to an independent person domiciled in and who is a resident of Kentucky shall be a factor considered by an institution in determining whether a student is dependent or independent.

(6) Financial assistance from or a loan made by a parent or family member other than an independent spouse, if used for sustenance of the student:

- (a) Shall not be considered in establishing a student as independent; and
- (b) Shall be a factor in establishing that a student is dependent.

Section 6. Effect of a Determination of Dependent Status on a Determination of Residency Status.

(1) The effect of a determination that a person is dependent shall be:

- (a) The domicile and residency of a dependent person shall be the same as either parent. The domicile and residency of the parent shall be determined in the same manner as the domicile and residency of an independent person.
- (b) The domicile and residency of a dependent person whose parents are divorced, separated, or otherwise living apart shall be Kentucky if either parent is domiciled in and is a resident of Kentucky regardless of which parent has legal custody or is entitled to claim that person as a dependent pursuant to federal or Kentucky income tax provisions.

(2) (a) If the parent or parents of a dependent person are Kentucky residents and are

domiciled in Kentucky but subsequently move from the state, the dependent person shall be considered a resident of Kentucky while in continuous enrollment at the degree level in which currently enrolled.

- (b) If continuous enrollment is broken or the current degree level is completed, the dependent person's residency status shall be reassessed when the circumstances detailed in subparagraph 1 of this paragraph are present.

Section 7. Member of Armed Forces of the United States, Spouse and Dependents; Effect on a Determination of Residency Status.

(1) A member, spouse, or dependent of a member whose domicile and residency was Kentucky at the time of induction into the Armed Forces of the United States, and who maintains Kentucky as home of record and permanent address, shall be entitled to Kentucky residency status:

- (a) During the time of active service; or
 - (b) If the member, spouse, or dependent returns to this state within six (6) months of the date of the member's discharge from active duty.
- (2) (a) A member, spouse or dependent of a member of the Armed Forces of the United States stationed in Kentucky on active military orders shall be considered a Kentucky resident while the member is on active duty in this state pursuant to those orders if the member is not:
1. Stationed in Kentucky for the purpose of enrollment at an institution; or
 2. On temporary assignment of less than one (1) year.
- (b) A member, spouse or dependent of a member, shall not lose Kentucky residency status if the member is thereafter transferred on military orders while the member, spouse or dependent requesting the status is in continuous enrollment at the degree level in which currently enrolled.
- (3) Membership in the National Guard or civilian employment at a military base alone shall not qualify a person for Kentucky residency status under the provisions of subsections (1) and (2) of this section.
- (4) A person's residency status established pursuant to this section shall be reassessed if the qualifying condition is terminated.

Section 8. Status of Nonresident Aliens; Visas and Immigration.

- (1) (a) A person holding a permanent residency visa or classified as a political refugee shall establish domicile and residency in the same manner as another person.
 - (b) Time spent in Kentucky and progress made in fulfilling the conditions of domicile and residency prior to obtaining permanent residency status shall be considered in establishing Kentucky domicile and residency.
- (2) A person holding a nonimmigrant visa with designation A, E, G, H-1, H-4 if accompanying a person with an H-1 visa, I, K, L, N, R, shall establish domicile and residency the same as another person.
- (3) (a) An independent person holding a nonimmigrant visa with designation B, C, D, F, H-2, H-3, H-4 if accompanying a person with an H-2 or H-3 visa, J, M, O, P, Q, S, TD or TN shall not be classified as a Kentucky resident, because that person does not have the capacity to remain in Kentucky indefinitely and therefore cannot form the requisite intent necessary to establish domicile within the meaning of this administrative regulation.
- (b) A dependent person holding a visa as described in paragraph (a) of this subsection, but who is a dependent of a parent holding a visa as described in subsection (2) of this section, shall be considered as holding the visa of the parent.
- (c) A dependent person holding a visa described in subsection (2) of this section or paragraph (a) of this subsection, if a parent is a citizen of the United States and is a resident of and domiciled in Kentucky, shall be a resident of Kentucky for the purposes of this administrative regulation.
- (4) A person shall be a Kentucky resident for the purpose of this administrative regulation if the person graduated from a Kentucky high school and:
- (a) Is an undocumented alien;
 - (b) Holds a visa listed in subsections (2) or (3)(a) of this section; or
 - (c) Is a dependent of a person who holds a visa listed in subsections (2) or (3)(a) of this section.
- (5) (a) Except as provided in paragraph (b) of this subsection, a person who has petitioned the federal government to reclassify visa status shall continue to be ineligible until the petition has been decided by the federal government.
- (b) A person who has petitioned the federal government to reclassify visa status based on a marriage to a Kentucky resident and who can demonstrate that the petition has been filed and acknowledged by the federal government, may establish Kentucky domicile and residency at that time.

Section 9. Beneficiaries of a Kentucky Educational Savings Plan Trust.

A beneficiary of a Kentucky Educational Savings Plan Trust shall be granted residency status if the beneficiary meets the requirements of KRS 164A.330(6).

Section 10. Criteria Used in a Determination of Residency Status.

(1) A determination of Kentucky domicile and residency shall be based upon verifiable circumstances or actions. A single fact shall not be paramount, and each situation shall be evaluated to identify those facts essential to the determination of domicile and residency.

(2) The following facts, although not conclusive, shall have probative value in their entirety and shall be individually weighted, appropriate to the facts and circumstances in each determination of residency:

- (a) Acceptance of an offer of full-time employment or transfer to an employer in Kentucky or contiguous area while maintaining residence and domicile in Kentucky;
- (b) Continuous physical presence in Kentucky while in a nonstudent status for the twelve (12) months immediately preceding the start of the academic term for which a classification of Kentucky residency is sought;
- (c)
 1. Filing of Kentucky resident income tax return for the calendar year preceding the date of application for a change in residency status; or
 2. Payment of Kentucky withholding taxes while employed during the calendar year for which a change in classification is sought;
- (d) Full-time employment of at least one (1) year while living in Kentucky;
- (e) Attendance as a full-time, nonresident student at an out-of-state institution based on a determination by that school that the person is a resident of Kentucky;
- (f) Abandonment of a former domicile or residence and establishing domicile and residency in Kentucky with application to or attendance at an institution following and incidental to the change in domicile and residency;
- (g) Obtaining licensing or certification for a professional and occupational purpose in Kentucky;
- (h) Payment of real property taxes in Kentucky;
- (i) Ownership of real property in Kentucky, if the property was used by the student as a residence preceding the date of application for a determination of residency status;
- (j) Long-term lease of at least twelve (12) consecutive months of noncollegiate housing;
- (k) Marriage of an independent student to a person who was domiciled in and a resident of Kentucky prior to the marriage;
- (l) Continued presence in Kentucky during academic breaks; and
- (m) The extent to which a student is dependent on student financial aid in order to provide basic sustenance.

(3) Except as provided in subsection (4) of this section, the following facts, because of the ease and convenience in completing them, shall have limited probative value in a determination that a person is domiciled in and is a resident of Kentucky:

- (a) Kentucky automobile registration;
- (b) Kentucky driver's license; and
- (c) Registration as a Kentucky voter.

(4) The absence of a fact contained in subsection (3) of this section shall have significant probative value in determining that a student is not domiciled in or is not a resident of Kentucky.

(5) A person shall not be determined to be a Kentucky resident by the performance of an act which is incidental to fulfilling an educational purpose or by an act performed as a matter of convenience. Mere physical presence in Kentucky, including living with a relative or friend, shall not be sufficient evidence of domicile and residency. A person shall respond to all information requested by an institution.

Section 11. Effect of a Change in Circumstances on Residency Status.

(1) If a person becomes independent or if the residency status of a parent or parents of a dependent person changes, an institution shall reassess residency either upon a request by the student or a review initiated by the institution.

(2) Upon transfer to a Kentucky institution, a student's residency status shall be assessed by the receiving institution.

(3) A reconsideration of a determination of residency status for a dependent person shall be subject to the provisions for continuous enrollment, if applicable.

Section 12. Student Responsibilities.

(1) A student shall report under the proper residency classification which includes the following actions:

- (a) Raising a question in a timely manner concerning residency classification;
- (b) Making application for change of residency classification in a timely manner with the designated office or person at the institution; and
- (c) Notifying the designated office or person at the institution immediately upon a change in residency.

(2) If a student fails to notify an institutional official of a change in residency, an institutional official may investigate and evaluate the student's residency status.

(3) (a) If a student fails to provide, by the date specified by the institution, information required by an institution in a determination of residency status, the student shall be notified by the institution that the review has been canceled and that a determination has been made.

- (b) Notification shall be made by registered mail, return receipt requested.
- (c) Notification shall be made within ten (10) calendar days after the deadline for receipt of materials has passed.

(4) A student shall not be entitled to appeal a determination of residency status if the determination made by an institution is because a student has failed to meet published deadlines for the submission of information as set forth in subsection (3) of this section. A student may request a review of a determination of residency status in a subsequent academic term.

Section 13. Institutional Responsibilities.

Each institution shall:

(1) Provide for an administrative appeals process that includes a residency appeals officer to consider student appeals of an initial residency determination and which shall include a provision of fourteen (14) days for the student to appeal the residency appeals officer's determination;

(2) Establish a residency review committee to consider appeals of residency determinations by the residency appeals officer. The residency review committee shall make a determination of student residency status and notify the student in writing within forty-five (45) days after receipt of the student appeal;

(3) Establish a formal hearing process as described in Section 14 of this administrative regulation; and

(4) Establish written policies and procedures for administering the responsibilities established in subsections (1), (2), and (3) of this section and that are:

- (a) Approved by the institution's governing board;
- (b) Made available to all students; and
- (c) Filed with the council.

Section 14. Formal Institutional Hearing.

(1) A student who appeals a determination of residency by a residency review committee shall be granted a formal hearing by an institution if the request is made by a student in writing within fourteen (14) calendar days after notification of a determination by a residency review committee.

(2) If a request for a formal hearing is received, an institution shall appoint a hearing officer to conduct a formal hearing. The hearing officer:

- (a) Shall be a person not involved in determinations of residency at an institution except for formal hearings; and
- (b) Shall not be an employee in the same organizational unit as the residency appeals officer.

(3) An institution shall have written procedures for the conduct of a formal hearing that have been adopted by the board of trustees or regents, as appropriate, and that provide for:

- (a) A hearing officer to make a recommendation on a residency appeal;
- (b) Guarantees of due process to a student that include:
 1. The right of a student to be represented by legal counsel; and
 2. The right of a student to present information and to present testimony and information in support of a claim of Kentucky residency; and
- (c) A recommendation to be issued by the hearing officer.

(4) An institution's formal hearing procedures shall be filed with the Council on Postsecondary Education and shall be available to a student requesting a formal hearing.

Section 15. Cost of Formal Hearings.

(1) An institution shall pay the cost for all residency determinations including the cost of a formal hearing.

(2) A student shall pay for the cost of all legal representation in support of the student's claim of residency. (17 Ky.R. 2557; eff. 4-5-91; Am. 22 Ky.R. 1656; 1988; eff. 5-16-96; 23 Ky.R. 3380; 3797; 4099; eff. 6-16-97; 24 Ky.R. 2136; 2705; 25 Ky.R. 51; eff. 7-13-98; 25 Ky.R. 2177; 2577; 2827; eff. 6-7-99; 749; 1238; eff. 11-12-2002.)

Revised Effective November 12, 2002

For further information about residency, please contact the Office of Undergraduate Admission and University Registrar, Funkhouser Bldg., University of Kentucky, Lexington, KY 40506-0054.

Policy subject to change without notice.

Course Descriptions

A&S Arts & Sciences

A&S 100 SPECIAL INTRODUCTORY COURSE:

Title to be Assigned. (1-6)

This course permits the offering at the introductory level of special courses of an interdisciplinary, topical, or experimental nature. Each proposal must be approved by the Dean of the College of Arts and Sciences. A particular title may be offered at most three times under the A&S 100 number. Students may not repeat under the same title. May be repeated to a maximum of 12 credits. Prereq: Will be set by instructor.

A&S 101 SPECIAL INTRODUCTORY COURSE:

TITLE TO BE ASSIGNED. (1-6)

This course permits the offering at the introductory level of special courses of an interdisciplinary, topical or experimental nature. Each proposal must be approved by the Dean of the College of Arts and Sciences. A particular title may be offered at most twice under the A&S 101 number. Students may not repeat under the same title. Offered pass/fail only. May be repeated to a maximum of 12 credits. Prereq: Will be set by instructor.

A&S 103 BASIC INSTRUCTION IN LESS COMMONLY

TAUGHT LANGUAGES I (Subtitle required). (3-5)

This course provides elementary language instruction with an emphasis upon the spoken language of everyday use where appropriate. Writing and the elements of grammar are gradually introduced. Students may not repeat this course under the same subtitle. Prereq: Will be set by instructor.

A&S 104 BASIC INSTRUCTION IN LESS COMMONLY

TAUGHT LANGUAGES II (Subtitle required). (3-5)

A continuation of A&S 103. Students may not repeat this course under the same subtitle. Prereq: A&S 103.

A&S 203 INTERMEDIATE INSTRUCTION IN LESS COMMONLY

TAUGHT LANGUAGES I (Subtitle required). (3-5)

This course provides intermediate instruction in a less commonly taught language. Development of speaking, listening, reading, and writing skills, as appropriate, will be stressed. Students may not repeat this course under the same subtitle. Prereq: A&S 104 in the same language or permission of instructor.

A&S 300 SPECIAL COURSE (Subtitle required). (1-6)

Interdisciplinary, topical or experimental courses to be approved by the Dean of the College of Arts and Sciences. A particular course may be offered at most three times under the A&S 300 number, and no A&S 300 course may be given for more than six credits per semester. Open to all University students, subject to such limits or prerequisites as set by the instructor. May be repeated to a maximum of 12 credit hours under different subtitles.

A&S 350 A&S CAREER DEVELOPMENT. (1)

This course will explore topics which will assist A&S students become better focused on their career goals. Topics will include self-assessment, resumes, job search letters, informational interviewing, mock interviews, and job forecasts for 2006 graduates. Prereq: Junior or senior status.

A&S 500 SPECIAL COURSE (Subtitle required). (1-6)

Interdisciplinary, topical, or experimental courses to be approved by the Dean of the College of Arts and Sciences and the Dean of the Graduate School. A particular course may be offered at most three times under the A&S 500 number. Open to all university students, subject to such limitations or prerequisites as set by the instructor. May be repeated to a maximum of six credits under different subtitles. Prereq: As specified by the instructor.

A-E Art Education

A-E 200 WORKSHOP IN DESIGN EDUCATION FOR ELEMENTARY TEACHERS. (3)

A lecture-laboratory course that explores and analyzes concepts in the visual arts and examines how these concepts might be used to improve and enhance learning opportunities in the visual arts and in various disciplines for elementary students.

A-E 395 INDEPENDENT WORK: ART EDUCATION. (1-3)

Supervised individual research, practicum, and field experience leading to the development of art education curriculum theory, and teaching techniques appropriate for various populations and conditions. A learning contract will be submitted to both the department

and to the office of the dean at the time of registration. May be repeated to a maximum of six credits. Prereq: Major and consent of instructor.

A-E 399 EXPERIENTIAL EDUCATION. (1-15)

Development of personally motivated and planned projects and internships in art education and interdisciplinary program activities outside the academic classroom experience, encompassing recreation, general education, adult education, special education, state programs, and group field experiences and workshops. May be repeated to a maximum of 15 credits. (Approval of Fine Arts dean required for more than six credits per semester.) Prereq: Recommendation of art faculty member and department chairman; completion of departmental learning agreement.

A-E 515 INTRODUCTION TO ART THERAPY. (3)

An examination of various historical and contemporary conceptions of the therapeutic function and value of art from an art education perspective. The impact of art experience on emotional, intellectual and behavioral development and/or rehabilitation will be explored through readings, discussions, guest lectures, and lab experiences. Lecture, two hours per week; laboratory, two hours per week. Prereq: PSY 331 and major or consent of instructor.

A-E 538 ADVANCED ARTS AND CRAFTS IN THE ELEMENTARY SCHOOL. (3)

Planned to give the elementary teacher an understanding of teaching methods involved in, and construction of, art activities which would enrich the classroom program.

A-E 545 TOPICAL STUDIES IN ART EDUCATION (Subtitle required). (3)

Intensive study and analysis of a designated topic, issue or development in the philosophy, history, or methodology of art education in community and public school settings. May be repeated to a maximum of six credits. Prereq: Art education major or consent of the instructor.

A-E 576 ART IN MIDDLE SCHOOLS. (2)

Study of perceptual and aesthetic awareness in Middle School level children/adolescents. Field and practicum experiences with methods and materials appropriate to the teaching of art in the middle school. Lesson planning, curriculum design, evaluation, teaching skills, classroom safety, and multicultural activities. Included: readings, lecture, discussion, demonstration, micro-teaching laboratory and studio experiences. Prereq: Major in art education, admission to the Teacher Education Program (TEP), or consent of instructor.

A-E 577 ART IN SECONDARY SCHOOLS. (2)

This course provides students with an overview of the secondary school in American education and explores the history, theory, techniques and contemporary issues of teaching art in the secondary schools. Skills in the planning of multicultural activities and the teaching and evaluation of secondary art experiences are stressed. Full class instruction, video, micro-teaching, laboratory and studio experiences are incorporated into class design. Prereq: Major in art education, admission to the Teacher Education Program (TEP), or consent of instructor.

A-E 578 ART IN ELEMENTARY SCHOOLS. (2)

Study of perceptual and aesthetic awareness in children. Field and practicum experiences with methods and materials appropriate to the teaching of art in the elementary school. Multicultural activities stressed. Lesson planning, curriculum design, evaluation, teaching skills, classroom safety, multicultural activities included: lecture, demonstration, micro-teaching laboratory and studio experiences. Prereq: Major in art education, admission to the Teacher Education Program (TEP), or consent of instructor.

A-E 579 ARTS AND HUMANITIES IN ART EDUCATION. (2)

Inquiry into the relationship of current philosophies of art education and aesthetics; a consolidation of art education ideas with a formation of criteria for making value judgments; the development of a personal viewpoint consistent with education and art as humanistic endeavors. Prereq: Major in art education, admission to the Teacher Education Program (TEP), or consent of instructor.

A-E 645 TOPICAL RESEARCH IN ART EDUCATION (Subtitle required). (3)

Advanced study and research of a designated topic, issue, or development in the philosophy, history, or methodology of art education in community and public school settings. May be repeated to a maximum of six credits. Prereq: Graduate standing in art education.

A-E 670 SCHOOL AND COMMUNITY ART. (3)

Analysis of the social function of art; organization of school and community related programs in art; case studies of existing programs. Field experience, educational involvement. Lectures and demonstrations. Prereq: Major in Art Education or consent of instructor.

A-E 675 AESTHETICS AND DESIGN. (3)

Focuses on advancing aesthetic awareness, developing an understanding of the principles of visual design, and the application of aesthetic design to human-computer interaction in order to integrate an artistic approach to the examination of technological innovation.

#A-E 680 HISTORY OF ART EDUCATION. (3)

A-E 680 is a survey of general education practices from classical times to the present. The class will examine the teaching of art in European schools and its influence on American art education. The course will analyze the birth of American art education and significant events related to art in the schools from the 19th to the 21st century.

A-E 695 INDEPENDENT WORK: ART EDUCATION. (1-3)

Supervised individual research, experimental practicum, and the initiation of field programs leading to the discovery and development of new knowledge in art education theory and method. A formal learning contract between student and supervising faculty member is required. May be repeated to a maximum of six credits. Prereq: Graduate standing in the department and consent of instructor.

A-E 748 MASTER'S THESIS RESEARCH. (0)

Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

A-H Art History

#A-H 102 INTRODUCTION TO ASIAN ART. (3)

This course introduces the art of Asia, mainly focusing on China and Japan, but also examining art in other Asian countries. The course syllabus combines chronology with a thematic approach, giving a sense of historical development while examining specific cultural manifestations or media. Students will learn to identify and distinguish between works from different periods and related cultures through methods of visual analysis, as well as gain an understanding of the cultural context of Asian art. No prior experience with art history or Asian culture is expected.

#A-H 103 WORLD ART. (3)

An introduction to the visual arts of civilizations outside the European tradition. Students will become familiar with selected monuments from cultures in Africa, Asia, the Pacific, or the Americas and be able to evaluate the development of artistic practices within a tradition or comparatively between traditions.

A-H 104 INTRODUCTION TO AFRICAN ART. (3)

Study of African art in which sculpture, painting, pottery, textiles, architecture, altar arts, human adornment and performance are approached on the basis of style, iconography and function, and in relation to religious, political, market and daily contexts. This course examines the ways in which "Africa" has been conceived and deconstructs the assumptions shaping each approach. The processes (and problems) of collecting and displaying African art will be addressed throughout the course.

A-H 105 ANCIENT THROUGH MEDIEVAL ART. (3)

Survey of the development of art and architecture with primary emphasis on cultures of Egypt, Western Asia, Greece, Rome, and medieval Europe.

A-H 106 RENAISSANCE THROUGH MODERN ART. (3)

Historical development of Western art and architecture from the fourteenth century through the present.

A-H 307 ANCIENT NEAR EASTERN AND EGYPTIAN ART. (3)

Study of the art, architecture, and material culture of the civilizations in the ancient Near East (Mesopotamia, Assyria, Persia) and of Egypt, from Neolithic origins through the first millennium BCE. Prereq: A-H 105 recommended.

A-H 308 STUDIES IN AFRICAN ART (Subtitle required). (3)

Focus upon a particular medium, region, period or theme within African art studies. Visual materials, research, reading and discussion to address one or more of the following topics: arts by region (central, east, north, south, or west Africa, or the African diaspora), by medium (such as ceramics, performance, or architecture), by time period (such as ancient or "contemporary"), or by theme (such as gender or politics). May be repeated under a different subtitle to a maximum of six credits. Prereq: A-H 104 recommended.

A-H 309 CROSS-CULTURAL STUDIES IN ART (Subtitle required). (3)

This topical study will investigate art originating in at least three of the following regions: Africa, Europe, North America, South America, Central America, Western Asia, East Asia, and the Pacific Islands. At least two thirds of the traditions studied will be non-European. According to the subtitles, the course will focus upon themes, periods, media, or theoretical issues in arts from varied cultures. May be repeated under a different subtitle for a maximum of six credits. Prereq: A-H 105 and A-H 106 recommended.

A-H 310 STUDIES IN EAST ASIAN ART (Subtitle required). (3)

Depending on subtitle, a study of the art production of a particular medium, theme, period, or region in East Asia. May be repeated under a different subtitle to a maximum of six credits. Prereq: A-H 103, 105 or 106 recommended.

A-H 312 STUDIES IN GREEK ART (Subtitle required). (3)

Study of the arts of Greece. According to subtitles, attention may focus on particular periods or media from Bronze Age through Hellenistic Greece in the context of political, social and

intellectual developments. May be repeated under a different subtitle to a maximum of six credits. Prereq: A-H 105 recommended. (Same as CLA 312).

A-H 313 STUDIES IN ROMAN ART (Subtitle required). (3)

Study of the art and architecture of Rome. According to subtitles, attention will focus on various aspects of public or private painting, sculpture and architecture as reflections of political, social and cultural developments in the Roman world from the early Republic through the age of Constantine. May be repeated under a different subtitle to a maximum of six credits. Prereq: A-H 105 recommended. (Same as CLA 313.)

A-H 323 STUDIES IN MEDIEVAL ART (Subtitle required). (3)

Considers the interrelationships of art and architecture with religion, literature, politics, and other expressive forms as they shape and are shaped by medieval patrons and artists between the fourth and fifteenth century C.E., according to subtitle. May be repeated under a different subtitle to a maximum of six credits. Prereq: A-H 105 recommended.

A-H 334 STUDIES IN RENAISSANCE ART (Subtitle required). (3)

According to the subtitle, a study of specific developments, problems and issues pertaining to art production between 1300 and 1550. May be repeated under a different subtitle to a maximum of six credits. Prereq: A-H 106 recommended.

A-H 335 STUDIES IN EARLY MODERN ART, 1500-1700 (Subtitle required). (3)

According to the subtitle, a study of specific developments, problems, and issues pertaining to art production between 1500 and 1700. Prereq: A-H 106 recommended.

A-H 339 STUDIES IN ART 1700-1840 (Subtitle required). (3)

Study of specific developments, problems, and issues pertaining to art, art practice, and art theory between 1700 and 1840. May be repeated under a different subtitle to a maximum of six credits. Prereq: A-H 105 or A-H 106 recommended.

A-H 340 STUDIES IN ART 1840-1914 (Subtitle required). (3)

Study of specific developments, problems, and issues pertaining to art, art practice, and art theory between 1840 and 1914. May be repeated under a different subtitle to a maximum of six credits. Prereq: A-H 105 or A-H 106 recommended.

A-H 341 STUDIES IN 20TH CENTURY ART (Subtitle required). (3)

Depending on subtitle, this course examines aspects of 20th century art in its social, political, and aesthetic contexts. May be repeated under a different subtitle for a maximum of six credits. Prereq: A-H 106 recommended.

A-H 342 STUDIES IN AMERICAN ART (Subtitle required). (3)

Readings, research and discussions in a lecture format on American visual arts in one or more of the following contexts: colonial America, ante-bellum America, the Gilded Age, 20th C. Modernism, the Depression, and America during the Cold War. May be repeated under a different subtitle to a maximum of six credits. Prereq: A-H 106 recommended.

A-H 343 HISTORY OF PHOTOGRAPHY. (3)

Chronological survey of the history of photography from its inception to the present day. Emphasis on fine art photography, the work and contributions of its practitioners, the relationship of photography to other art forms, general issues within the medium. Prereq: A-H 106 recommended.

A-H 350 CONTEMPORARY ART. (3)

Through lectures, readings, discussions, and research, this course examines major issues raised in art and art criticism since 1965. Particular attention is given to the impact of social, intellectual, and technological developments upon art making and concepts of art and the artist. Prereq: A-H 106 recommended.

A-H 399 EXPERIENTIAL EDUCATION IN ART HISTORY. (1-15)

A community-based or field-based experience in Art History. A formal learning contract among student, field supervisor, and supervising faculty member required. May be repeated to a maximum of 15 hours. Prereq: A-H 105 and A-H 106.

A-H 407 ART HISTORY HONORS THESIS. (3)

Faculty-sponsored research projects for art history majors, leading to an Honors Thesis. Topics to be determined. Prereq: A-H major and CFA learning contract approved by faculty member.

A-H 415G TOPICAL STUDIES IN ART HISTORY (Subtitle required). (3)

The study of a single artist or combination of artists in the social, political, and cultural contexts of their day or the study of a particular genre or subject developed over a broader period of history. Classes presented in a lecture format with critical study of texts, research, and discussion components. May be repeated under a different subtitle to a maximum of six credits. Prereq: A-H 105 or A-H 106 recommended.

A-H 501 MUSEUM STUDIES I: INTRODUCTION. (3)

An introduction to museology and the museum profession as related to a particular exhibition project. Intended for advanced students in arts related professions. Seminar format, coordinated with the University of Kentucky Art Museum staff. Prereq: Major in art history or arts administration (with art history emphasis), or consent of instructor.

A-H 502 MUSEUM STUDIES II: INTERNSHIP. (3)

A supervised internship in a professional museum setting that builds upon Museum Studies I. The focus may be on a single aspect or several areas of museum activity: administration, curatorship, education, registration and collection management, design, development,

public relations, etc. Laboratory, 10 hours per week. May be repeated to a maximum of 9 credits within different contexts. Prereq: Completion of A-H 501 with a grade of B or better.

A-H 503 ART HISTORY THROUGH THE ART OBJECT (Subtitle required). (3)

Examination of original works of art on campus or in regional collections within an art historical context. The course may focus on a particular medium, class or objects, period, or artist. May be repeated up to 6 credits with different course subtitles. Prereq: Junior standing.

A-H 525 STUDIES IN GENRES AND MEDIA (Subtitle required). (3)

Study of a particular genre (type of subject, such as still life) or a particular medium (type of object, such as the icon) in the history of art. May be repeated to a maximum of 6 credits when identified by a different subtitle. Prereq: Junior standing.

A-H 526 ART AND THE ARTIST IN SOCIETY (Subtitle required). (3)

Art historical study of a topic or period with particular emphasis on artists and the social and cultural context of their roles in the production of visual art forms. May be repeated to a maximum of 6 credits when identified by a different subtitle. Prereq: Junior standing.

A-H 527 ART WITHIN ITS INTERDISCIPLINARY FRAMEWORK (Subtitle required). (3)

Art historical study of a topic or period with particular emphasis placed on establishing the interdisciplinary connections for visual art forms. Depending on the topic, students might research in a wide variety of areas over the course of the semester, for example, literature, music, theatre, history, political science, philosophy, the classics, anthropology, etc. May be repeated to a maximum of 6 credits when identified by different subtitles. Prereq: Junior standing.

A-H 528 TOPICAL SEMINAR IN ART HISTORY (Subtitle required). (3)

In-depth study of a work of art, a particular artist, an artistic period, or an iconographic or thematic study. May be repeated up to six credits with different subtitles. Prereq: Junior standing.

A-H 529 TOPICAL SEMINAR IN ARCHITECTURAL OR DESIGN HISTORY (Subtitle required). (3)

According to subtitles, seminar will focus on developments, problems, or issues in architectural or design history. Subtitle required. May be repeated to a maximum of six credits when identified by different subtitles. Prereq: Junior standing.

A-H 555 METHODS IN ART HISTORY. (3)

A seminar introduction to the range of approaches scholars have historically used to study art's history (e.g., connoisseurship, formal analysis, iconography, etc.). Exact course content may vary to emphasize historiography, current methods, or the relation of critical theory to art historical practice. Prereq: Junior standing.

A-H 592 AESTHETICS. (3)

Problems of method in aesthetics; major types of aesthetic theory. Aesthetic materials of the arts, in literature, music, and the space arts. Form and types of form. Meaning in the arts. Interrelations of the arts. (Same as PHI 592.)

A-H 598 COORDINATE STUDY. (3)

Course number for those students wishing to do advanced work on a special subject in conjunction with a regularly scheduled 300-level class not previously taken by the student. May be repeated to a maximum of six credits. Prereq: Two art history courses or consent of instructor.

A-H 603 THE ART OBJECT: (Subtitle required). (3)

Examination of original works of art on campus or in regional collections within an art historical context. The course may focus on a particular medium, class of objects, period, or artist. May be repeated up to six credits with different subtitles. Prereq: Graduate status in Art History.

A-H 625 PROBLEMS IN GENRES AND MEDIA: (Subtitle required). (3)

Study of a particular genre (type of subject), such as still life) or a particular medium (type of object, such as the icon) in the history of art. May be repeated to a maximum of six credits when identified by a different subtitle. Prereq: Graduate standing.

A-H 626 THE ARTIST IN SOCIETY: (Subtitle required). (3)

Art historical study of a topic or period with particular emphasis on artists and the social and cultural context of their roles in the production of visual art forms. May be repeated to a maximum of six credits when identified by a different subtitle. Prereq: Graduate standing.

A-H 627 INTERDISCIPLINARY APPROACHES TO ART HISTORY: (Subtitle required). (3)

Art historical study of a topic or period with particular emphasis placed on establishing the interdisciplinary connections for visual art forms. Depending on the topic, students might research in a wide variety of areas over the course of the semester, for example, literature, music, theatre, history, philosophy, classics, political science, anthropology, etc. May be repeated to a maximum of six credits when identified by a different subtitle. Prereq: Graduate standing.

A-H 628 ART HISTORY TOPICAL SEMINAR: (Subtitle required). (3)

In-depth study of a work of art, a particular artist, an artistic period, or an iconographic or

thematic study. May be repeated to a maximum of six credits when identified by a different subtitle. Prereq: Graduate standing.

A-H 629 ART HISTORY TOPICAL SEMINAR IN ARCHITECTURAL OR DESIGN HISTORY (Subtitle required). (3)

According to subtitles, seminar will focus on developments, problems or issues in architectural or design history. May be repeated to a maximum of six credits when identified by different subtitles. Prereq: Graduate standing.

A-H 748 MASTER'S THESIS RESEARCH. (0)

Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

A-H 768 THESIS FORMULATION AND PREPARATION IN ART HISTORY. (3)

Independent study for art history graduate students to formulate and prepare master's thesis under the direction of their thesis advisor. A formal learning contract between student and thesis advisor is required. May be repeated to a maximum of six credits. Prereq: Art history graduate student completing thesis option (Option A).

A-H 780 INDEPENDENT WORK: ART HISTORY. (1-3)

Supervised and sustained individual research and interpretation in the history of art leading to the discovery and demonstration of new knowledge. A formal learning contract between student and supervising faculty member required. May be repeated to a maximum of six credits. Prereq: Graduate standing in the department, 18 credits in art history and consent of instructor.

A-S Art Studio

#A-S 101 ART STUDIO FOUNDATION SEMINAR. (1)

This course is designed to assist incoming premajors in the Art Studio area in adjusting to the academic life in the Department, College, and University. Lectures, discussions, exercises, and out-of-class assignments orient the student within the structure of the Department, introduce students to the arts-related resources at UK, including lectures and exhibitions, and help students establish professional practices in the presentation of their own art studio work.

A-S 102 VISUAL EXPLORATION I. (3)

Introductory studio experience in two-dimensional representation and abstraction using a variety of basic drawing materials and processes. Six studio hours per week.

A-S 103 VISUAL EXPLORATION II. (4)

Introductory studio experience in three dimensional representation and abstraction. A variety of sculptural materials and basic shop processes will be studied. Eight studio hours per week.

A-S 200 STUDIO I. (3)

Fundamental instruction in digital media as a creative tool. Students will learn the basics of digital collage using Adobe Photoshop or like program, flatbed and slide scanners. Basics of digital video editing and sound design. Nine studio hours per week. Prereq: A-S 102 and 103.

#A-S 201 ART STUDIO FOUNDATION SEMINAR. (1)

This course is designed to assist premajor students in developing the practical skills needed to create a successful, professional presentation of their work. The course will prepare students for the portfolio review required for entry into the Department's major programs, emphasizing written, oral, and visual presentation skills. Prereq: A-S 200, A-S 215; prereq or concurrent: A-S 101; or consent of instructor.

A-S 215 STUDIO II. (3)

Continued studio experience emphasizing the descriptive and expressive function of shape and color in visual organization using two dimensional marking and shaping materials and processes. Nine studio hours per week. Prereq: A-S 102.

A-S 255 STUDIO III. (3)

Continued studio experience in three dimensional expression, emphasizing design and technical development, including modeling, mold making, fabrication and assemblage in a variety of materials. Nine studio hours per week. Prereq: A-S 103.

A-S 310 PAINTING I. (3)

Concentrated painting experience stressing enlargement of formal understanding and personal expression. Prereq: A-S 215 or consent of instructor.

A-S 311 PAINTING II. (3)

A continuation of A-S 310. Prereq: A-S 310 and consent of the instructor.

A-S 320 PRINTMAKING I. (3)

Introductory studio experience in printmaking media and procedures relevant to individual development. Nine studio hours per week. Prereq: A-S 102 or consent of instructor.

A-S 321 PRINTMAKING II. (3)

A continuation of A-S 320. Nine studio hours per week. Prereq: A-S 320 or consent of instructor.

A-S 330 INTERMEDIATE DRAWING. (3)

Continued studio experience in two-dimensional representation and abstraction using a variety of drawing materials and processes. When offered in the fall, emphasis will be on the human figure. When offered in the spring, course content will cover a broad range of traditional and experimental subjects including landscape, still lifes, collage, and mixing words with images. May be repeated to a maximum of six credits. Nine studio hours per week. Prereq: A-S 102 or consent of instructor.

A-S 340 GRAPHIC DESIGN: THE FUNDAMENTALS. (3)

Students use the basic principles of design to create thumbnails, roughs, and clear, accurate comprehensives which are essential in the problem solving process. Prereq: A-S 102, A-S 103, and A-S 215.

A-S 341 GRAPHIC DESIGN: LAYOUT. (3)

Students prepare professional quality assignments in lettering, pictogram systems, logos, and corporate identity design, line art, and cartoons for advertising illustration, as well as solutions for posters, billboards, folders, storyboards, and cover illustration. Nine studio hours per week. Prereq: A-S 340 (with a grade of B or better) and Portfolio Review.

A-S 345 WEB DESIGN. (3)

An intermediate level course designed to prepare students to create web pages. Emphasis is on creating functional and aesthetic web content within the current design parameters of the internet. Navigation strategies, directory structures and familiarity with networks is stressed. Nine studio hours per week. Prereq: A-S 200 or consent of instructor.

A-S 346 DIGITAL VIDEO. (3)

An intermediate level course in which students learn advanced video compositing methods, image control and key effects in the digital world specific to the Final Cut Pro or like environments. Basic and advanced titling and graphic animation are explored as well as storyboarding, sound design and title effects. This course explores various video editing styles. Work is collaborative and individual. Nine studio hours per week. Prereq: A-S 200 or consent of instructor.

A-S 347 MULTIMEDIA (Subtitle required). (3)

An intermediate level course that allows students to explore a variety of programming environments. Programming topics may include video, audio and/or still images with net based or physical installation based output. This class builds on students' previous experiences with digital media production and introduces programming to their tool pallet. Fundamentals of computer programming are presented, supplemented by historical readings and discussions of art theory dealing with the use of digital technologies in artistic context. Nine studio hours per week. May be repeated to a maximum of nine hours when identified under a different subtitle. Prereq: A-S 200 or consent of instructor.

A-S 350 FIBER I. (3)

Introductory studio experience to the design and fabrication of woven and non-woven fiber art in two and three dimensions; emphasis on color, structure and related aesthetic values. Nine studio hours per week. Prereq: A-S 102 or A-S 103 or consent of instructor.

A-S 351 FIBER II. (3)

Continuation of A-S 350, emphasis on developing perceptual and technical skills toward increasing aesthetic involvement with woven and nonwoven fiber and fabric. Nine studio hours per week. Prereq: A-S 350 or consent of instructor.

A-S 360 SCULPTURE I. (3)

Concentrated sculptural experience in a variety of media emphasizing expanded understanding of material and methods. Nine studio hours per week. Prereq: A-S 255 or consent of instructor.

A-S 361 SCULPTURE II. (3)

A continuation of A-S 360. Nine studio hours per week. Prereq: A-S 360 or consent of instructor.

A-S 370 CERAMICS I. (3)

Introductory studio experience to a variety of ceramic materials and processes. Nine studio hours per week. Prereq: A-S 103 or consent of instructor.

A-S 371 CERAMICS II. (3)

A continuation of A-S 370. Nine studio hours per week. Prereq: A-S 370 or consent of instructor.

A-S 380 PHOTOGRAPHY I. (3)

A-S 380 is an introductory course in photography. Although it provides a thorough background in basic techniques that students may apply to any discipline, its primary emphasis is upon the practice of the medium as a fine art. Students receive technical instruction in camera and lens construction, exposure controls, processing of black and white negatives and prints, and presentation. Studio, nine hours per week.

A-S 381 PHOTOGRAPHY II. (3)

A-S 381 is a continuation of A-S 380. The emphasis is upon refining visual perception and basic photographic skills with an introduction to some of the more advanced techniques of black and white photography. Students receive technical instruction in the Zone System, archival processing, toning, and presentation. Studio, nine hours per week. Prereq: A-S 380 or consent of instructor.

A-S 384 COLOR PHOTOGRAPHY I. (3)

A-S 384 is an introductory course in color photography. The emphasis is upon the unique qualities of color photography relating to visual perception. Students receive technical instruction in negative and transparency film development and printing. Studio, nine hours per week. Prereq: A-S 380 or consent of instructor.

A-S 385 DIGITAL METHODS FOR PHOTOGRAPHY. (3)

An intermediate level course designed to help students integrate traditional silver-based photography processes with new digital computer imaging tools such as Adobe Photoshop or like program. Students are required to produce original photographic imagery for use in creating digital artwork output to printed material with inkjet printers. Advanced methods of input and output calibration, as well as advanced methods of image manipulation, are covered. Emphasis is placed on the aesthetics and ethics of digital photographic art and creating meaningful and effective images. Nine studio hours per week. Prereq: A-S 200 and A-S 380.

A-S 386 NONSILVER PHOTOGRAPHY I. (3)

A-S 386 is an introductory course in nonsilver photography. The emphasis is upon the unique qualities of nonsilver photography relating to visual perception. Students receive technical instruction in the use of orthochromatic films, half-tone separations, cyanotypes, Van Dyke brown prints, and gum-bichromate prints. Studio, nine hours per week. Prereq: A-S 380 or consent of instructor.

A-S 390 TOPICAL STUDIES (Subtitle required). (3)

Studio investigation of art forms, processes, and topics not specially treated in the regular studio course of study. Topics announced in schedule book for each semester. Nine studio hours per week. May be repeated to a maximum of 12 credits when identified by different course subtitles. Prereq: To be specified as appropriate when topic is identified.

A-S 395 INDEPENDENT WORK: ART STUDIO. (1-3)

Supervised individual work in Art Studio. A learning contract will be submitted both to the department and the office of the dean at the time of registration. May be repeated to a maximum of nine credits. Prereq: Art major, senior standing, grade-point average of 3.0 within the department and consent of instructor.

A-S 396 WORKSHOP (Subtitle required). (1-6)

Workshops in a variety of media dealing with supervised investigation of Art-Studio problems. Studio, 3-18 hours per week. May be repeated to a maximum of nine credits when identified by different subtitles. Prereq: Consent of instructor.

A-S 398 COORDINATED STUDIES IN ART STUDIO. (3)

Supervised independent study in conjunction with regularly scheduled upper-division classes. Coordinate study credits may not be attached to any upper-division course in which the student is concurrently enrolled. Studio, nine hours per week. May be repeated to a maximum of nine credits. Prereq: Art major, junior standing or above, grade-point average of 3.0 in the department.

A-S 399 EXPERIENTIAL EDUCATION. (1-15)

Off-campus studio experience outside the academic environment leading to significant professional growth. A formal learning contract among student, field supervisor and the department. Studio hours per week by arrangement. May be repeated to a maximum of 15 credits. Prereq: Upper division standing; written statement of objective, recommendation of a studio faculty member and the approval of the department chairperson and the Office of Experiential Education.

A-S 490 SENIOR SEMINAR. (1)

Readings and discussions in art. Selection, preparation, and presentation of senior exhibitions and portfolios. To be taken during the student's final semester of study. Two lecture hours per week. Prereq: Senior standing in Department of Art.

A-S 510 PAINTING III. (3)

Supervised individual development in painting. Nine studio hours per week. Prereq: A-S 311 or consent of instructor.

A-S 511 PAINTING IV. (3)

Continuation of A-S 510; emphasis on professional awareness and development. May be repeated to a maximum of six credits. Nine studio hours per week. Prereq: A-S 510 or consent of instructor.

A-S 520 PRINTMAKING III. (3)

Supervised individual development in printmaking. Nine studio hours per week. Prereq: A-S 321 or consent of instructor.

A-S 521 PRINTMAKING IV. (3)

Continuation of A-S 520; emphasis on professional awareness and development. May be repeated to a maximum of six credits. Nine studio hours per week. Prereq: A-S 520 or consent of instructor.

A-S 530 ADVANCED DRAWING. (3)

Supervised individual development in drawing. When offered in the Fall, emphasis will be on the human figure. When offered in the Spring, students may select from a broad range of traditional and experimental subjects. May be repeated to a maximum of six credits. Nine studio hours per week. Prereq: A-S 330 or consent of instructor.

A-S 540 GRAPHIC DESIGN: PUBLICATION DESIGN. (3)

Students develop innovative concepts in advertising layout and design through brochures, direct mailers, magazine and newspaper ads. Contemporary techniques in design and production emphasized. Printing techniques, and paper selection introduced as design elements. Nine studio hours per week. Prereq: A-S 341 (with a grade of B or better) and Portfolio Review.

A-S 541 GRAPHIC DESIGN: ADVANCED DESIGN. (3)

Provides an opportunity for the advanced study of artistic and technical solutions for graphic design problems. Prospecting for employment, working conditions, avenues for advancement, pricing work, and the legal responsibilities of the artist-designer to the client-agency discussed. Students conclude this course with the presentation of a portfolio demonstrating their ability to do quality work which meets the highest professional standards. Nine studio hours per week. Prereq: A-S 540 (with a grade of B or better) and Portfolio Review.

A-S 546 INTERMEDIA STUDIO (Subtitle required). (3)

An advanced course focusing on a specific area of Intermedia art production, i.e. video, installation, robotics, or digital techniques, emphasizing personal development of theoretical and skill-based foundation. May be repeated to a maximum of six credits when identified by the same subtitle and nine credits when identified by different subtitles. Nine studio hours per week. Prereq: A-S 200 and either A-S 346 or A-S 347 or consent of instructor, or graduate enrollment.

A-S 550 FIBER III. (3)

Supervised individual development in fiber. Nine studio hours per week. Prereq: A-S 351 or consent of instructor.

A-S 551 FIBER IV. (3)

Continuation of A-S 550; emphasis on professional awareness and development. May be repeated to a maximum of six credits. Nine studio hours per week. Prereq: A-S 550 or consent of instructor.

A-S 560 SCULPTURE III. (3)

Supervised individual development in sculpture. Nine studio hours per week. Prereq: A-S 361 or consent of instructor.

A-S 561 SCULPTURE IV. (3)

Continuation of A-S 560; emphasis on professional awareness and development. May be repeated to a maximum of six credits. Nine studio hours per week. Prereq: A-S 560 or consent of instructor.

A-S 570 CERAMICS III. (3)

Supervised individual development in ceramics. Nine studio hours per week. Prereq: A-S 371 or consent of instructor.

A-S 571 CERAMICS IV. (3)

Continuation of A-S 570; emphasis on professional awareness and development. May be repeated to a maximum of six credits. Nine studio hours per week. Prereq: A-S 570 or consent of instructor.

A-S 580 PHOTOGRAPHY III. (3)

A-S 580 is a continuation of A-S 381. The emphasis is upon advanced black and white photographic processes and continued acquisition of skills for self-expression through the medium. Students receive technical instruction in the use of different photographic films, papers, and chemicals, as well as master printing processes. Studio, nine hours per week. Prereq: A-S 381 or consent of instructor.

A-S 581 PHOTOGRAPHY IV. (3)

A-S 581 is a continuation of A-S 580. The emphasis is upon advanced black and white photographic processes and continued acquisition of skills for self-expression through the medium. May be repeated to a maximum of six credits. Studio, nine hours per week. Prereq: A-S 580 or consent of instructor.

A-S 584 COLOR PHOTOGRAPHY II. (3)

A-S 584 is a continuation of A-S 384. The emphasis is upon advanced color photographic processes and continued acquisition of skills for self-expression through the medium. May be repeated to a maximum of six credits. Studio, nine hours per week. Prereq: A-S 384 or consent of instructor.

A-S 586 NONSILVER PHOTOGRAPHY II. (3)

A-S 586 is a continuation of A-S 386. The emphasis is upon advanced nonsilver photographic processes and continued acquisition of skills for self-expression through the various media. May be repeated to a maximum of six credits. Studio, nine hours per week. Prereq: A-S 386 or consent of instructor.

A-S 596 WORKSHOP. (1-6)

Workshops in a variety of media dealing with supervised investigation of advanced art studio problems. Prereq: Consent of instructor.

A-S 610 PAINTING V. (3)

Advanced studio investigation of current ideas in painting. Exploration of contemporary and traditional procedures, materials, and issues in a context of a group discussion and review. May be repeated to a maximum of nine credits. Prereq: Graduate standing in the department and approval of the instructor.

A-S 611 PAINTING VI. (3)

Continued studio investigation of current ideas in painting, with increased concentration on critical group discussions of student work and readings in contemporary art. May be repeated to a maximum of nine credits. Studio, nine hours. Prereq: A-S 610 and consent of instructor.

A-S 620 PRINTMAKING V. (3)

Advanced studio investigation of current ideas in printmaking. Exploration of contemporary and traditional procedures, materials, and issues. May be repeated to a maximum of nine credits. Studio, nine hours. Prereq: Graduate standing in the department and consent of the instructor.

A-S 621 PRINTMAKING VI. (3)

Continued advanced studio investigation of current ideas in printmaking. Increased concentration of technical and aesthetic development in preparation for entry into the professional environment. May be repeated to a maximum of nine credits. Studio, nine hours. Prereq: A-S 620.

A-S 630 GRADUATE DRAWING. (3)

Supervised studio course in graduate-level drawing and mixed media works on paper or other two-dimensional surfaces. Emphasis will be placed on personal style, its identification, definition and further development in the context of contemporary drawing. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: Twelve credits in upper division studio work and consent of instructor.

A-S 646 ADVANCED INTERMEDIA STUDIO (Subtitle required). (3)

A studio course specially designed for graduate students emphasizing sustained individual, technical and theoretical work in the area of Intermedia. May be repeated to a maximum of nine credits when identified by the same subtitle. Nine studio hours. Prereq: A-S 200 and either A-S 346 or A-S 347 or consent of instructor, or graduate enrollment.

A-S 650 FIBER V. (3)

In this supervised graduate studio course in fiber, emphasis will be placed on personal style, its identification, definition, and further development in the context of major directions in the fiber arts. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: 12 credits in upper division studio work and consent of instructor.

A-S 651 FIBER VI. (3)

Continued advanced studio investigation of current ideas in the fiber arts. Increased concentration on technical and aesthetic development, professional readings, and group discussion. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: A-S 650.

A-S 660 SCULPTURE V. (3)

In this supervised studio course in graduate sculpture, emphasis will be placed on personal style, its identification, definition, and further development in the context of modern sculpture. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: 12 credits in upper division studio work and consent of instructor.

A-S 661 SCULPTURE VI. (3)

Continued advanced studio investigation of current ideas in sculpture. Increased concentration on technical and aesthetic development, professional readings, and group discussion. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: A-S 660.

A-S 670 CERAMICS V. (3)

In this supervised studio course in graduate ceramics, emphasis will be placed on personal style, its identification, definition, and further development in the context of direction in modern ceramics. Studio, nine hours per week. May be repeated to a maximum of nine credits. Prereq: 12 credits in upper division studio work and consent of instructor.

A-S 671 CERAMICS VI. (3)

Continued advanced studio investigation of current ideas in ceramics, increased concentration on technical and aesthetic development, professional readings, and group discussions. Studio, nine hours per week. May be repeated to a maximum of nine credits. Prereq: A-S 670.

A-S 680 PHOTOGRAPHY V. (3)

A-S 680 is a continuation of A-S 581. In this supervised studio course in graduate photography, emphasis will be placed on personal style, its identification, definition, and further development in the context of major directions in photography. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: A-S 581 and consent of instructor.

A-S 681 PHOTOGRAPHY VI. (3)

A-S 681 is a continuation of A-S 680. The emphasis will be upon continued advanced studio investigation of current ideas in photography with increased concentration on technical and aesthetic development, professional readings, and group discussion. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: A-S 680 and consent of instructor.

A-S 710 PROBLEMS IN PAINTING. (3)

Sustained individual projects focusing on problems and experimental work in the technical and theoretical aspects of painting. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: Twelve credits in upper division studio work and consent of instructor.

A-S 720 PROBLEMS IN PRINTMAKING. (3)

Sustained individual projects focusing on problems and experimental work in the technical and theoretical aspects of printmaking. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: Twelve credits in upper division studio work and consent of instructor.

A-S 730 PROBLEMS IN DRAWING. (3)

Sustained individual projects focusing on problems and experimental work in the technical and theoretical aspects of drawing. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: Twelve credits in upper division studio work and consent of instructor.

A-S 740 PROBLEMS IN FIBER. (3)

Sustained individual problems and experimental work in the technical and theoretical problems of fiber. May be repeated two times to a maximum of nine credits. Nine studio hours per week. Prereq: Twelve credits in upper division studio work and consent of instructor.

A-S 750 PROBLEMS IN SCULPTURE. (3)

Sustained individual problems and experimental work in the technical and theoretical problems of sculpture. May be repeated to a maximum of nine credits. Nine studio hours per week. Prereq: 12 credits in upper division studio work and consent of instructor.

A-S 767 M.F.A. STUDIO THESIS PROJECT. (1-6)

Independent research and preparation for the M.F.A. thesis exhibition. For the student working in a highly technical medium or process, the preparation of a correlated written thesis under close guidance will be the outcome. The student will be expected to know the standard forms for photographic records and the preparation of a professional portfolio. May be repeated to a maximum of six credits. Prereq: Normally taken during final semester for graduate study.

A-S 770 PROBLEMS IN CERAMICS. (3)

Sustained individual problems and experimental work in the technical and theoretical problems of ceramics. May be repeated two times for a maximum of nine credits. Nine studio hours per week. Prereq: 12 credits in upper division studio work and consent of instructor.

A-S 777 PROBLEMS IN INTERMEDIA. (3)

A studio course specially designed for independent graduate research emphasizing individual, technical and theoretical work in the area of Intermedia. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: Twelve credits in upper division studio work and consent of instructor.

A-S 779 PROBLEMS IN PHOTOGRAPHY. (3)

A-S 779 emphasizes sustained individual problems and experimental work in the technical and theoretical problems of photography. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: Twelve credits in upper division studio work and consent of instructor.

A-S 780 PROBLEMS IN DESIGN. (3)

Sustained individual problems and experimental work in the technical and theoretical problems of design. May be repeated two times for a maximum of nine credits. Nine studio hours per week. Prereq: 12 credits in upper division studio work and consent of instructor.

A-S 793 GRADUATE STUDIO SEMINAR. (1)

A seminar especially for graduate students in the studio area, in all areas of concentration. Lectures, discussion and criticism will focus on current formal and aesthetic problems in the arts. Emphasis will be placed on the integration of concepts arising in the different fields in the visual arts. Required of M.F.A. candidates for three semesters. May be repeated to a total of three credits. Prereq: Graduate standing in the department.

A-S 795 INDEPENDENT RESEARCH. (1-3)

Advanced studio investigation of art forms, processes, and topics not specially treated in the regular curriculum. May be repeated to a maximum of nine credits. Studio, three hours per week per credit. Prereq: Twelve credits in upper division studio work and consent of instructor.

AAD Arts Administration

AAD 101 ARTS ADMINISTRATION PROFESSIONS. (1)

The primary intent of this course is to make students aware of the opportunities open to them in the field of Arts Administration, and to network with other students in the program, faculty, program graduates and working arts administrators. Course activities will include program and announcements regarding the availability of grants and awards. Students will also become aware of employment and volunteer opportunities while they are in school, and how to pursue professional positions upon graduation. Pass/fail only. Majors are required to enroll a minimum of 4 semesters.

AAD 200 ARTS ADMINISTRATION COMMUNICATIONS. (3)

The purpose of this course is to introduce students to the primary writing styles that they will be using throughout the remainder of their arts administration courses. For example, business letters, education and program guides, print and electronic advertisements, publicity materials, sales brochures, invitations and advocacy letters, all require mastering a different writing style. Additionally, students will learn how to make effective public

presentations, based upon their writing assignments. Completion of USP English requirements. Prereq: Completion of ENG 104. Enrollment restricted to AAD pre-majors during primary windows.

AAD 202 ARTS ADMINISTRATION TECHNOLOGIES I. (3)

The purpose of this course is for students to gain the basic skills to design and produce materials utilized by arts organizations to communicate with their patrons. Additionally, the course will familiarize students with a number of design-related computer applications. Prereq: AAD 200 or consent of the instructor.

AAD 302 ARTS ADMINISTRATION TECHNOLOGIES II. (3)

The purpose of this course is for students to gain the basic skills that will allow them to design and produce web materials utilized by arts organizations to communicate with their different constituencies. Students will create both a personal web site as well as a multiple-page arts organization web site. Besides covering basic web design concepts, the course will familiarize students with extensible hypertext markup language (XHTML) as well as web design-related computer applications including Dreamweaver and Fireworks. Prereq: AAD 202.

AAD 310 MARKETING THE ARTS. (3)

The course will examine methods used by arts organizations to sell admissions to their events and to sell other arts products. Emphasis is placed on marketing concepts related to product, price, placement and promotion. Prereq: Completion of AAD 200, AAD 202 and one of the following: COM 181, COM 287, TA 225, or consent of the instructor.

AAD 320 FUND RAISING FOR THE ARTS. (3)

An introduction to methods used by nonprofit arts organizations such as arts councils, museums, orchestras and theatres to raise money from sources other than selling art work or admissions to regular season events. Topics covered include raising funds from individuals, foundations, businesses and government, through such activities as annual campaigns, special events, capital campaigns, and planned giving. Prereq: Completion of AAD 200, AAD 202 and one of the following: COM 181, COM 287, TA 225, or consent of the instructor.

AAD 340 ARTS MANAGEMENT ISSUES. (3)

This course examines management issues facing arts organizations in the contemporary environment. Topics covered will include the role of artists and arts organizations in society, the differing motives behind nonprofit and for-profit corporations, freedom of expression and censorship, planning and leadership, intellectual property rights, issues related to race, class, sexuality and gender, plus other topics which may arise based on current events. Prereq: Completion of AAD 200, AAD 202 and one of the following: COM 181, COM 287, TA 225, or consent of the instructor.

AAD 350 FINANCIAL MANAGEMENT OF ARTS ORGANIZATIONS. (3)

This course provides an overview of the financial management practices used primarily by nonprofit arts organizations. It begins by examining the process of contracting an artist and a facility, and then building a budget for the resulting arts event. It then examines how arts organizations establish, track, adjust and evaluate organizational budgets. Additionally it explores governmental financial and reporting requirements unique to nonprofit arts organizations, and the annual audit process. Prereq: Completion of ACC 201, ACC 202, AAD 200, AAD 202 and one of the following: COM 181, COM 287, TA 225, or consent of the instructor.

AAD 399 ARTS ADMINISTRATION PRACTICUM. (1)

Under the supervision of a faculty member, students complete on-campus arts administration service projects. At least one of the two projects must be in service to the student's primary art discipline's department or school. Examples of projects might include conducting a publicity campaign for an event, working on a fundraiser, producing a publication, conducting research, updating a website, etc. Pass/fail option only. Learning contract required. Prereq: Arts Administration major or consent of instructor.

AAD 402 TOPICS IN ARTS ADMINISTRATION (Subtitle required). (3)

A seminar which covers special topics in arts administration. May be repeated to a maximum of 12 credits when identified by different subtitles. Prereq: Completion of AAD 200, AAD 202 and one of the following: COM 181, COM 287, TA 225, or consent of instructor.

AAD 499 INTERNSHIP IN ARTS ADMINISTRATION. (1-12)

An internship with a university, community, state, regional or national arts organization, providing practical work experience related to arts administration. The internship is identified and conducted under the supervision of a faculty member. Students must file a learning contract with the College of Fine Arts. May be repeated to a maximum of twelve credits. Pass/fail only. Prereq: Completion of AAD 200, AAD 202 and one of the following: COM 181, COM 287, TA 225, or consent of instructor.

AAS African American Studies

AAS 200 INTRODUCTION TO AFRICAN-AMERICAN STUDIES. (3)

An interdisciplinary course which establishes the intellectual context for an examination of the African-American experience; it introduces students to the various approaches scholars use to analyze that experience. This course employs a topical framework which permits focus on issues reflecting the diversity and richness of African-American experience across geographic boundaries.

AAS 235 INEQUALITIES IN SOCIETY. (3)

Analysis of the social origins, development, and persistence of inequality in various societies. Prereq: SOC 101 or RSO 102. (Same as SOC 235.)

AAS 254 HISTORY OF SUB-SAHARAN AFRICA. (3)

A survey of the social institutions, value systems and political organization of Sub-Saharan Africa since the 16th century but with particular emphasis on the 19th and 20th centuries. (Same as HIS 254.)

AAS 260 AFRICAN AMERICAN HISTORY TO 1865. (3)

A study of the Black experience in America through the Civil War. An examination of the African heritage, slavery, and the growth of Black institutions. (Same as HIS 260.)

AAS 261 AFRICAN AMERICAN HISTORY 1865-PRESENT. (3)

This course traces the Black experience from Reconstruction to the Civil Rights Movement of the 1960's. The rise of segregation and the ghetto and aspects of race relations are examined. (Same as HIS 261.)

AAS 263 AFRICAN AND CARIBBEAN LITERATURE AND CULTURE OF FRENCH EXPRESSION IN TRANSLATION (Subtitle required). (3)

This course treats major cultural questions concerning the exchange between Africa and the Caribbean in terms of historical, sociological, political, and literary events. No knowledge of French is required. (Same as FR 263.)

AAS 264 MAJOR BLACK WRITERS. (3)

A cross-cultural and historical approach to written and oral works by major Black authors of Africa, the Caribbean and the United States. The course includes writers such as Chinua Achebe (Africa), Wilson Harris (Caribbean), and Toni Morrison (USA). (Same as ENG 264.)

AAS 300 HISTORY OF JAZZ. (3)

A listening survey course covering the chronological evolution of jazz from its West African and European roots, through its germination in America, to the present. Emphasis will be on the various styles and functions of jazz, particularly as they have been affected by changing social-cultural patterns during the twentieth century. (Same as MUS 300.)

AAS 328 GEOGRAPHY OF THE MIDDLE EAST AND NORTH AFRICA. (3)

A comprehensive regional overview, emphasizing cultural adaptation to desert environments. The interrelationships among religions, cultures, and the physical environment will be examined, along with the region's position and influence in the global system. Prereq: GEO 152, GEO 160, GEO 172, or consent of instructor. (Same as GEO 328.)

AAS 336 GEOGRAPHY OF SUB-SAHARAN AFRICA. (3)

This course focuses on the cultural and environmental geographies of the subcontinent, rural landscapes and cultures and environmental problems, the historical geography of precolonial and colonial Africa, and the social geography of contemporary economic development. Prereq: GEO 130 and 152, 160, or 172. (Same as GEO 336.)

AAS 360 RACE AND SPORTS IN AMERICA. (3)

This reading seminar examines the history of race and sport in America. (Same as HIS 360.)

AAS 384 BLACK THEATRE WORKSHOP. (3)

A workshop that explores the history, literature and performance of theater artists of the African diaspora. (Same as TA 384.)

AAS 400 SPECIAL TOPICS IN AFRICAN-AMERICAN STUDIES (Subtitle required). (3)

Detailed investigation of a particular topic in African-American Studies, with emphasis both on content and existing research. Topics will vary from semester to semester and are announced the preceding semester. May be repeated to a maximum of six credits when identified by a different subtitle. Prereq: Twelve hours of African-American Studies minor courses, including AAS 200.

AAS 401 INDEPENDENT READING AND RESEARCH IN AFRICAN-AMERICAN STUDIES. (3)

For African-American Studies minors. The student pursues a course of reading and research under the guidance of a staff member, completes a major research project, and takes an examination. A written contract defining the area of study is negotiated between student and instructor at the beginning of the course. May be repeated to a maximum of six credits. Prereq: African-American Studies minor, 12 hours of African-American Studies minor courses, including AAS 200.

AAS 417G SURVEY OF SUB-SAHARAN POLITICS. (3)

A survey of sub-Saharan government and politics intended to give the student broad knowledge about the setting of African politics, precolonial African political systems, the political legacies of major European colonial powers, and problems of political development. Prereq: PS 210 or 212. (Same as PS 417G.)

AAS 420 AFRICAN-AMERICAN RELIGIOUS EXPERIENCE. (3)

This course explores and examines how African Americans shaped and fashioned their religion to meet their own peculiar needs as they responded to historical occurrences.

AAS 431G CULTURES AND SOCIETIES OF SUB-SAHARAN AFRICA. (3)

A survey of indigenous societies and cultures of Africa south of the Sahara, with special attention to their adaptation of colonialism and post-colonial national development. Prereq: ANT 220, or consent of instructor. (Same as ANT 431G.)

AAS 432 RACE AND ETHNIC RELATIONS. (3)

Analysis of relationships between racial and ethnic groups and the behavioral products thereof. Sources and consequences of prejudice and discrimination. Situation and prospects of minorities. Strategies of change and tension reduction. Prereq: Six hours of social science or consent of instructor.

AAS 433 TOPICS IN SOCIAL INEQUALITIES (Subtitle required). (3)

A sociological study of topics relevant to social inequalities and stratification. May be repeated under different subtitles to a maximum of six credits. Prereq: SOC 101 or RSO 102; SOC 235; and either SOC 302 or 304. (Same as SOC 435.)

AAS 471 RACE, ETHNICITY AND POLITICS. (3)

An examination of the role that race and ethnicity play in the political arena. Students will explore the nature of race, racism, and ethnocentrism, as well as their impact on political institutions and public policy. Particular attention will be given to elections, public opinion, mass media and social movements in the United States. (Same as PS 471.)

AAS 523 SOCIAL PERSPECTIVES ON RACISM AND ETHNIC PREJUDICES IN AMERICA. (2-3)

The course is designed to provide the knowledge needed in understanding the dynamics of institutional racism from a broader perspective of five specific ethnic minorities in rural and urban America. Particular emphasis is placed upon planned community change and strategies pertinent to minority group communities. Students who wish to make a special, in-depth study of one of the specified content areas may take this course for one additional credit. Prereq: Consent of instructor. (Same as SW 523.)

AAS 535 ADVANCED TOPICS IN SOCIAL INEQUALITIES (Subtitle required). (3)

A sociological study of topics relevant to social inequalities and stratification. May be repeated to a maximum of six credits under different subtitles. Prereq: Sociology senior major; Sociology or African American Studies senior minor; graduate student status; or consent of instructor. (Same as SOC 535.)

AAS 550 EDUCATION IN A CULTURALLY DIVERSE SOCIETY. (3)

This course assists future educators in developing strategies to create an equitable teaching/learning environment where all students are validated, stimulated, and nurtured. Course participants explore the rationale for their current belief systems and perceptions of other cultures; investigate how and why their personal attitudes, behaviors, and expectations affect the academic and social development of children and youth, and examine contemporary educational issues. (Same as EDC 550.)

#AAS 587 THE CIVIL RIGHTS MOVEMENT IN THE U.S. SINCE 1930. (3)

This course will focus on the struggle for African American equality in the U.S. during the mid twentieth century. It will examine key civil rights issues, events, strategies, leaders and organizations on both the local and national levels. Using historical documents and documentary film presentations this course will discuss the status of race relations in America over the past fifty years. (Same as HIS 587.)

AAS 601 THEORIES, PERSPECTIVES, TRENDS AND ISSUES IN MULTICULTURAL EDUCATION. (3)

This course provides students with a critical analysis of multicultural education theories, perspectives, current issues, and trends. Students will develop the competencies needed to write scholarly literature reviews, identify areas in multicultural education needing further research studies, and submit papers for review and presentation at professional meetings. Prereq: Graduate standing, EDP 557 or consent of instructor. (Same as EDC 601.)

AAS 616 MULTICULTURAL PSYCHOLOGY. (3)

This course is designed to increase one's sensitivity to and respect for individual differences. Models, frameworks, techniques and experiential exercises are presented to increase one's skill level in working with persons from racially and ethnically diverse backgrounds. Prereq: EDP 600 or equivalent or consent of instructor. (Same as EDP 616.)

AAS 635 SEMINAR IN SOCIAL INEQUALITIES. (3)

This course provides a graduate-level introduction to sociological theory and research on social inequalities and stratification. It includes both classic and contemporary works on topics such as political economy, the state, domination, democracy, work, poverty, welfare, resistance, class, race, ethnicities, and gender. The course serves as a foundational course for graduate students with interests in social inequalities, and is required for Sociology graduate students seeking a specialization in this area. Prereq: SOC 650 or SOC 651 or consent of instructor. (Same as SOC 635.)

AAS 654 READINGS IN MODERN AFRICAN-AMERICAN HISTORY. (3)

Introduces graduate students to the historical literature on 20th century African-American history and major historiographical issues. (Same as HIS 654.)

AAS 656 BLACK AMERICAN LITERATURE. (3)

An in-depth study of black American literature, with concentration on major texts by major black writers. (Same as ENG 656.)

AAS 657 RACE RELATIONS IN THE UNITED STATES. (3)

This seminar focuses on the African American experience in the United States from Reconstruction to the present. Using primary documents and secondary readings, this course will examine the construction of race relations and the individuals, organizations, events, and issues significant to the shaping of the black experience. (Same as HIS 657.)

AAS 720 SOCIAL WORK PERSPECTIVES ON HUMAN AND CULTURAL DIVERSITY. (2)

This second required course in the human behavior and social environment sequence builds upon the foundation course. The focus of this course is upon the effects of discrimination and oppression experienced by diverse population groups with special attention to the effects of racism, sexism, ageism, classism and geography upon vulnerable groups; and upon institutionalized societal and cultural themes in diversity; with implications for social work practice. Prereq: SW 620 or advanced standing in the MSW program. (Same as SW 720.)

ABT Agricultural Biotechnology

ABT 101 INTRODUCTION TO BIOTECHNOLOGY. (1)

An introduction to biotechnology: historical perspectives, current applications and future directions. The course will consist of informal lectures and interactive discussions led by Biotechnology faculty and visiting professionals. The course will also orient students to the educational/career opportunities in Biotechnology and assist them in developing a focus for their individualized degree programs. Lecture, two hours per week. Prereq: First year or first semester transfer students in Agricultural Biotechnology.

ABT 201 SCIENTIFIC METHOD IN BIOTECHNOLOGY. (1)

A course designed to acquaint students with the common experimental methods used in agricultural biotechnology. Students will be presented with several case studies which demonstrate basic scientific reasoning and experimental strategies. The students will then use their understanding of basic scientific methods and agricultural systems to critically evaluate work from the current scientific literature. Each student will be required to provide a written and oral evaluation of a research project in some aspect of agricultural biotechnology. The class will provide the students with the basic skills needed for preparing their own research proposals. Prereq: ABT 101 and enrollment in the Agricultural Biotechnology degree program or consent of instructor.

ABT 301 WRITING AND PRESENTATIONS IN THE LIFE SCIENCES. (2)

The goals of this course are to expose students to current scientific literature in the life sciences, develop skills for the evaluation of primary research literature and presentations, prepare students to write an independent research proposal, and develop oral communication skills. Student participation is a key component of activities, and students are required to provide both oral and written evaluations of research publications, presentations, and proposals. A major part of the course involves students developing, writing, and presenting an independent research proposal in coordination with a research mentor. This course should be taken prior to ABT 395 or ABT 399, and students must identify a research mentor early during the semester. Prereq: Agricultural Biotechnology major or consent of instructor.

ABT 360 GENETICS. (3)

The basic principles of heredity as currently understood from evidence accumulated in classical, cytogenetic, molecular, and quantitative genetic experiments. Emphasis is placed on a thorough understanding of genetic principles and the relationship of genetics to all biological disciplines. Prereq: Six credits in biological sciences and one course in general chemistry. (Same as ASC/ENT 360.)

ABT 361 GENETICS LAB ONLINE. (1)

Analysis and interpretation of genetics problems using interactive computer programs. Prereq: ABT/ASC/ENT 360 (should be taken concurrently).

ABT 395 INDEPENDENT STUDY IN BIOTECHNOLOGY. (1-4)

Independent study in biotechnology under the supervision of a faculty member. Prereq: Agricultural Biotechnology major and consent of appropriate instructor before registration.

ABT 399 EXPERIENTIAL LEARNING IN BIOTECHNOLOGY. (1-6)

An internship in biotechnology under the supervision of a faculty member. May be repeated to a maximum of six credits. Prereq: Consent of the instructor, chairperson for the Agricultural Biotechnology degree program and completion of a learning contract before registration.

ABT 460 INTRODUCTION TO MOLECULAR GENETICS. (3)

Molecular genetics is the study of the biochemical basis of heredity and focuses on the structure and expression of DNA at the molecular and cellular level. The course will provide a detailed understanding of the biochemical events involved in genome replication, prokaryotic and eukaryotic transcription, and translation of DNA, as well as RNA processing, recombination and the theoretical underpinnings of genetic engineering. Prereq: ABT/ASC/ENT 360 or BIO 304 or consent of instructor. (Same as ENT 460.)

ABT 461 INTRODUCTION TO POPULATION GENETICS. (3)

This survey course examines the population dynamics and equilibria of genes in nuclei, chloroplasts and mitochondria. Emphasis will be on biological relevance (in plants, animals, and micro-organisms), but some theoretical derivations will also be introduced. Prereq: ABT 360 (or equivalent) and one course in probability/statistics. (Same as BIO/ENT/FOR 461.)

ABT 495 EXPERIMENTAL METHODS IN BIOTECHNOLOGY. (4)

A laboratory techniques course designed to give students the technical skills and understanding necessary to critically examine biological systems at the molecular level. The course will emphasize the principles of chemistry, biochemistry and molecular biology as applied to a model system for laboratory investigations. Laboratory, nine hours per week. Prereq: BIO 150 and AGR 360, or consent of instructor.

AC American Culture

AC 301 TOPICS IN AMERICAN CULTURE. (3)

A team-taught seminar on a selected topic in American Culture, emphasizing approaches to interdisciplinary study in this field and the ways that different disciplines, when integrated, better complement an understanding of the topic. Possible topics include: slavery, racism, women's rights, Native Americans, the West, the South, the city and industrialization. May be repeated to a maximum of six credits.

AC 401 PERSPECTIVES IN AMERICAN CULTURE. (3)

A team-taught seminar on a selected period in American history, emphasizing how different disciplines complement and illuminate a perspective on that period. Possible periods for study: Colonial America, the Enlightenment Age in America, the Age of Jackson, Antebellum America, Civil War and Reconstruction, the Gilded Age, America between the Two Wars, and Contemporary America. May be repeated to a maximum of six credits. Prereq: AC 301.

ACC Accounting

ACC 201 FINANCIAL ACCOUNTING I. (3)

This course is designed to provide an introduction to financial accounting from the users' perspectives. Its primary purposes are to promote understanding of financial accounting information for decision making purposes and to focus on financial accounting's role in communicating business results. Prereq: Sophomore standing.

ACC 202 MANAGERIAL USES OF ACCOUNTING INFORMATION. (3)

An introduction to the use of accounting data within an organization to analyze and solve problems and to make planning and control decisions. Prereq: ACC 201 or BE 161 and BE 162.

ACC 211 FINANCIAL ACCOUNTING LAB. (1)

A laboratory-based approach to introductory financial accounting applications, with the primary focus on the accounting cycle. The primary objective is to promote an understanding of how accounting information is identified, recorded, and processed for financial reporting. Prereq: ACC 201. Enrollment priority will be given to accounting and finance majors.

ACC 300 FINANCIAL ACCOUNTING II. (3)

This course is designed for non-accounting majors to provide expanded study of the impact of relevant financial accounting issues on the users of financial reporting. Topics may include financial statements; income recognition; cash and receivables; inventories; operational assets; investments; intangible assets; current liabilities; long-term liabilities emphasizing leases, pensions, postretirement benefits, and bonds; financial instruments; accounting for income taxes; and owner's equity. Not open to Accounting majors. Prereq: ACC 201 and ACC 202.

ACC 301 INTERMEDIATE ACCOUNTING I. (3)

This course is the first of a two-course financial accounting series, providing in-depth study of the accounting cycle, conceptual framework of financial accounting, valuation of balance sheet accounts, recognition of revenues, matching of expenses, and the reporting of the financial condition, operating results, and cash flows of an entity. Prereq: A grade of C or better in ACC 201 and ACC 202 or consent of the Director of the School of Accountancy.

ACC 302 INTERMEDIATE ACCOUNTING II. (3)

This course is the second of a two-course financial accounting series, providing an in-depth study of the accounting cycle, conceptual framework of financial accounting, valuation of balance sheet accounts, recognition of revenues, matching of expenses, and the reporting of the financial condition, operating results, and cash flows of an entity. Prereq: ACC 301 or consent of the Director of the School of Accountancy.

ACC 324 ACCOUNTING INFORMATION SYSTEMS. (3)

This course focuses on two major components of accounting information systems: conceptual models and physical implementation. Accounting systems are studied from an accounting cycles perspective, emphasizing the nature and relevance of accounting internal controls and the relationship of accounting systems to the functional areas of accounting. Using contemporary information technology, students analyze, design, and implement accounting systems along with relevant internal control structures. Prereq: A grade of C or better in ACC 201 and ACC 202 or consent of the Director of the School of Accountancy.

ACC 395 INDIVIDUAL WORK IN ACCOUNTING. (1-6)

Students confer individually with the instructor. Written paper usually expected and filed in chairperson's office. May be repeated to a maximum of six credits. Prereq: GPA of 3.0 in major, approval of instructor and chairperson.

ACC 399 INTERNSHIP IN ACCOUNTING. (1)

A course designed for undergraduate accounting students who, through the Accounting Internship Director, have secured full-time, salaried, career-related positions under the supervision of a sponsoring employer. Enrollment in the course constitutes full-time status. Course may be taken on a pass-fail basis only and for no more than two consecutive semesters, repeated to a maximum of three credits. Prereq: Junior standing in accounting and approval of the Accounting Internship Director.

ACC 403 AUDITING. (3)

This course examines the attest function in accounting. Emphasis is placed on audit standards and objectives, including the evaluation of internal control structures for the purpose of determining relevant auditing procedures. Prereq: ACC 301 and ACC 324 or consent of the Director of the School of Accountancy.

ACC 407 CONCEPTS OF INCOME TAXATION. (3)

A study of the federal income tax structure with emphasis upon the conceptual foundations of taxation relating to the three types of taxpayers: businesses, individuals, and estates and trusts. Prereq: Junior standing and ACC 202 or consent of the Director of the School of Accountancy.

ACC 410 NOT-FOR-PROFIT AND REGULATORY ACCOUNTING. (3)

The requirements of adequate accounting systems for various governmental units, including the recording of usual transactions and the form and content of reports. Prereq: ACC 301 or consent of the Director of the School of Accountancy.

ACC 418 COST MANAGEMENT. (3)

Traditional and contemporary concepts and techniques that provide accounting information for management decision making at both strategic and operational levels. Topics include the costing of products and services; project and activity analysis; planning and control methods; and performance measurement. Prereq: A grade of C or better in ACC 201 and ACC 202 or consent of the Director of the School of Accountancy.

ACC 490 SPECIAL TOPICS IN ACCOUNTING: (Subtitle required). (3)

Readings, projects, lecture, and/or discussion to illuminate current topics of special interest or concern in accounting. May be repeated to a maximum of six credits. May not be repeated under the same title. A particular topic may be offered at most three times under the ACC 490 number. Prereq: Consent of instructor.

ACC 507 ADVANCED TOPICS IN TAXATION. (3)

A study of advanced topics in taxation, including corporate taxation, accounting for income taxes, and international tax. Prereq: ACC 302 and ACC 407 or consent of the Director of the School of Accountancy.

ACC 508 CONTROLLERSHIP. (3)

A comprehensive study of the controller's objectives, responsibilities, functions, organizational roles, etc. Prereq: ACC 418.

ACC 516 ADVANCED TOPICS IN FINANCIAL REPORTING. (3)

A comprehensive study of financial accounting and reporting issues involving business combinations, partnerships, foreign currency transactions, not-for-profit accounting and other current accounting issues. Prereq: ACC 302 or consent of the Director of the School of Accountancy.

ACC 600 INQUIRY, COMMUNICATION, AND LEADERSHIP IN ACCOUNTING. (3)

This course is designed to develop the inquiry, communication, and leadership skills that are key determinants of success for many not-for-profit, business, and accounting professionals. The course uses readings, in-class exercises, case analyses, small group work, and oral presentations as vehicles for developing these skills. Class modules focus on accounting relevant professional inquiry, oral persuasion, communication, leadership, and teambuilding skills. Class sessions will include participation by and leadership from business, not-for-profit, and accounting professionals. Prereq: Admission to MSACC program, or consent of the Director of Graduate Studies.

ACC 601 RESEARCH IN ACCOUNTING THEORY. (3)

Critical examination of accounting concepts and standards. Study of current problems and contemporary developments reflected in accounting literature and reports. Prereq: Admission to MSACC program, or consent of the Director of Graduate Studies.

ACC 603 ATTEST FUNCTION. (3)

A critical examination of contemporary professional attestation theory and practice including a comprehensive review of AICPA audit case studies, statements on audit procedure, and their application in simulated business situations. Prereq: ACC 403 and admission to MSACC program, or consent of the Director of Graduate Studies.

ACC 610 NOT-FOR-PROFIT AND REGULATORY ACCOUNTING. (3)

A study of the contemporary issues in the area of not-for-profit and regulatory accounting. Prereq: ACC 410G or consent of instructor.

ACC 617 SELECTED TOPICS IN TAXATION. (3)

A study of selected topics in taxation, including partnership taxation, tax research, and other tax topics. Prereq: ACC 507 and admission to MSACC program, or consent of the Director of Graduate Studies.

ACC 619 INDEPENDENT STUDY IN ACCOUNTING. (1-3)

Designed for students undertaking special studies to be conducted in regular consultation with the instructor. Prereq: Consent of instructor.

ACC 621 UNDERSTANDING FINANCIAL STATEMENTS. (3)

Financial statements communicate information about a business and its operations. Students will gain an understanding of the information being communicated (or not communicated) by the business entity. Emphasis is on the uses of information, rather than its preparation. Prereq: Admission to MSACC program or consent of DGS.

ACC 624 ENTERPRISE INFORMATION AND CONTROL SYSTEMS. (3)

The course simultaneously examines two issues related to enterprise information systems development: 1) methodologies for designing and implementing information systems, and 2) assessment of enterprise risk and internal control systems. Case analyses and "real world" projects are used to accomplish the course objectives. Current computer technologies, including relational database systems and internet data processing, are integrated into the course content. Prereq: ACC 324, ACC 403 and admission to MSACC program, or consent of the Director of Graduate Studies.

ACC 627 CORPORATE TAXATION. (3)

A detailed study of income taxation of corporations and shareholders. Prereq: ACC 507 and admission to MSACC program, or consent of the Director of Graduate Studies.

ACC 628 FINANCIAL/MANAGERIAL ACCOUNTING. (3)

A study of the application of accounting information and services in the recognition or solution of management problems in business. Prereq: Graduate standing in the MBA program, ACC 202 or its equivalent and MA 123 or its equivalent. Course credit will not be given to students in the MSACC program.

ACC 637 TAXATION OF FLOW-THROUGH ENTITIES. (3)

A detailed study of the income taxation of flow-through entities, including Partnerships, S corporations, and limited liability companies. Prereq: ACC 507 and admission to MSACC program, or consent of the Director of Graduate Studies.

ACC 647 MULTIJURISDICTIONAL TAXATION. (3)

A study of the taxation of taxpayers located in two or more tax jurisdictions. The course involves two major categories, international taxation and state and local taxation. Prereq: ACC 507 and admission to MSACC program, or consent of the Director of Graduate Studies.

ACC 691 ADVANCED TOPICS IN ACCOUNTING (Subtitle required). (3)

Readings, projects, lecture, and/or discussion to illuminate current topics of special interest or concern in accounting. May not be repeated under the same title. A particular topic may be offered at most three times under the ACC 691 number. Prereq: Admission to MSACC program or consent of DGS.

ACC 700 TOPICAL SEMINAR IN ACCOUNTING RESEARCH (Subtitle required). (1-3)

An advanced seminar on selected topics such as cross-disciplinary research on behavioral decision-making, research using archival data, and analytical models in accounting. May be repeated to a maximum of eighteen credits. Prereq: Doctoral student status in business administration.

ACC 795 INDEPENDENT STUDY IN ACCOUNTING. (1-6)

Designed for students undertaking special studies to be conducted in regular consultation with instructor. Class hours by appointment. Prereq: Consent of instructor.

AEC Agricultural Economics

AEC 101 THE ECONOMICS OF FOOD AND AGRICULTURE. (3)

An introduction to the field of agricultural economics and some of the basic tools and concepts of decision making. Concepts are illustrated in terms of selected current social and economic issues including the role of agriculture in both a national and international dimension. Students who have completed ECO 201 are not eligible to take AEC 101 without the consent of the instructor.

AEC 201 INTRODUCTION TO FARM AND NATURAL RESOURCE FINANCE. (3)

This course provides an introduction to basic concepts used in financial analysis that can be applied to farms and small agriculturally-related businesses. It provides an overview of basic financial statements and their role in business planning. These tools will be applied to case studies of farms, agribusiness, and forestry firms. Prereq: MA 123 and ECO 201 or ECO 202 or AEC 101.

AEC 300 TOPICS IN AGRICULTURAL ECONOMICS (Subtitle required). (1-3)

Study in special topics in agricultural economics. May be repeated under a different subtitle to a maximum of 6 credits. A course may be offered twice under a given subtitle. Lecture, 1-3 hours; laboratory, 0-6 hours per week. Prereq: AEC 101, ECO 201.

AEC 302 AGRICULTURAL MANAGEMENT PRINCIPLES. (4)

A comprehensive study of economic principles and management tools useful in farm and agribusiness decision making. Utilizes a systems approach to the planning, implementation and control of the agricultural business. Specific attention to application of management and decision theory, economic principles used in decision making, and risk management strategies. Emphasis on planning the future course of the business, acquiring and managing the necessary resources, and establishing physical and financial control over the business. Lab incorporates microeconomic applications of management principles developed in lectures. Prereq: ECO 201.

AEC 303 MICROECONOMIC CONCEPTS IN AGRICULTURAL ECONOMICS. (3)

Emphasis on the development of theoretical models of production and consumption economics and application of these models to problems. The importance of concepts of marginality to managers and consumers is emphasized. Role of risk and uncertainty in resource allocation is outlined. Prereq: ECO 201 and MA 113 or 123.

AEC 304 MACROECONOMIC CONCEPTS IN AGRICULTURAL ECONOMICS. (3)

This course addresses the concern that U.S. farmers and the food industry are increasingly affected by macroeconomic forces and general conditions in the national economy. Interdependencies between agriculture, farm size, rural economic well-being and key macroeconomic variables including interest rates, foreign exchange rates and the rate of inflation will be examined. Prereq: AEC 101, ECO 202.

AEC 305 FOOD AND AGRICULTURAL MARKETING PRINCIPLES. (3)

Analysis of the market's role in determining prices and coordinating productive activities in the food and agricultural systems. Prereq: ECO 201.

AEC 309 INTERNATIONAL AGRICULTURE, WORLD FOOD NEEDS AND U.S. TRADE IN AGRICULTURAL PRODUCTS. (3)

Present and projected world food/population balance by geographic regions; food production and world trade in agricultural products with an emphasis upon the implications for U.S. agriculture; an introduction to agricultural development problems of the less developed nations of Latin America, Africa, and Asia. Prereq: AEC 101 or equivalent.

AEC 311 LIVESTOCK AND MEAT MARKETING. (1)

Provides students with a comprehensive look at the unique characteristics of the marketing system for livestock. Problems in both the feeder animal sector and the fed animal sector will be considered. Lecture, three hours per week for one-third of the semester. Prereq: AEC 305.

AEC 313 TOBACCO MARKETING. (1)

Analysis of the structure of the production and marketing system for tobacco including institutions and public regulation. Application of marketing methods and principles to tobacco. Lecture, three hours per week for one-third of the semester. Prereq: AEC 305.

AEC 314 GRAIN MARKETING. (1)

Study of production and utilization of grain by areas of the world, the marketing systems for grain, and the application of economic and marketing principles to the pricing and movement of grain. Prereq: AEC 305, AEC 321.

AEC 316 COOPERATIVE MANAGEMENT AND MARKETING. (1)

This course provides knowledge about the unique features of cooperatives and their role in a market economy and examines the structure organization, finance, management, and operations of cooperative organizations. Prereq: AEC 305.

AEC 317 MARKETING HORTICULTURAL PRODUCTS. (1)

This course examines the market structure and institutions associated with horticultural and nursery product markets within the context of formulating and evaluating alternative, firm-specific marketing strategies. Prereq: AEC 305.

AEC 320 AGRICULTURE PRODUCT MARKETING AND SALES. (3)

This course examines marketing activities within the U.S. food system. Sector performance is considered as well as the competitive behavior of firms within various agricultural market channels. Firm level marketing principles, methods, and strategies are considered, with a special focus on developing effective sales programs for agricultural products. Prereq: AEC 305.

AEC 321 AGRICULTURAL FUTURES MARKETS. (3)

The mechanics, theory, and practical application of hedging as related to agricultural commodities. The historical development of futures markets, functions of the futures markets, and the role of the speculator will also be explored. Prereq: AEC 305.

AEC 324 AGRICULTURAL LAW. (3)

A study of legislation, administrative regulations, constitutions and court cases that have economic ramifications on agricultural and rural life. Prereq: AEC 101.

AEC 399 EXPERIENTIAL LEARNING IN AGRICULTURAL ECONOMICS. (1-6)

A field or community-based experience in the application of economics to agricultural or rural problems. May be repeated; a maximum of six credits allowed. Pass-fail only. Credit not available for the Agricultural Economics Major Requirements. Prereq: AEC 101, nine hours in agricultural economics or economics, and permission of instructor, department chairperson, and completion of learning agreement prior to registration.

AEC 422 AGRIBUSINESS MANAGEMENT. (3)

Examines and analyzes decision-making tools and problem-solving techniques available to agribusiness managers. Provides learning experience in addressing contemporary economic, marketing and management issues through case study analyses, selected readings and computerized business simulations. Prereq: AEC 305, FIN 300, MGT 301, MKT 300, and senior standing in Agricultural Economics.

AEC 424 PRINCIPLES OF ENVIRONMENTAL LAW. (3)

Provides a basic knowledge of the principles of United States environmental law. Addresses the framework of the American Legal system as it applies to environmental regulation.

Covers the sources of environmental law and reviews major federal environmental statutes and judicial decisions addressing specific issues. Prereq: AEC 101 or ECO 201.

AEC 425 TIMBER MANAGEMENT. (4)

The principles of sustained yield timber management, organization of the forest area, management objectives, timber valuation, regulation of the cut, and timber management plans. Lecture, three hours; laboratory, two hours. Prereq: MA 162, FOR 201, and Summer Camp (FOR 375, 376, 377, 378, and 379), or consent of instructor. (Same as FOR 425.)

AEC 441G AGRICULTURAL FINANCIAL MANAGEMENT. (3)

Applies micro agricultural finance to farm and other agricultural business firms. Reviews elementary mathematics of finance and the objectives of financial management. Uses financial statements, cash flow analysis, financial leverage and other elements in applying the theory of capital investment for making management decisions. Prereq: FIN 300.

AEC 445G INTRODUCTION TO RESOURCE AND ENVIRONMENTAL ECONOMICS. (3)

Economic analysis of the problems of assuring resource availability and environmental quality. Theoretical concepts and empirical tools for evaluating resource and environmental policy. Prereq: ECO 201, or consent of instructor.

AEC 471 INTERNATIONAL TRADE. (3)

This is advanced economic course in international trade. The first part of the course covers the basics of why countries trade, what explains the pattern of trade that we observe and what are the effects of trade on welfare and the distribution of income. The second part of the course covers issues concerning trade policy and looks at the positive and normative effects of trade policy and trade agreements as well as investigating topics of current interest. While the focus of the course is on theory, students will also be exposed to many applications of the theory as a means of both explaining the economic intuition and encouraging students to analyze the world around them from an economic perspective. Prereq: ECO 401 or equivalent. (Same as ECO 471.)

AEC 479 PUBLIC ECONOMICS. (3)

An application of economic analysis to the study of the role of government. Emphasis is on the reasons for and the effects of government intervention in the economy. Topics covered include: market failure, public goods and externalities, welfare policy, voting and public choice, taxation, public debt and cost-benefit analysis. Prereq: ECO 401 or equivalent. Agricultural Economics majors may substitute AEC 303 for this prerequisite. (Same as ECO 479.)

AEC 483 REGIONAL ECONOMICS. (3)

This course presents an economic approach to the study of regions. The emphasis is on the role of spatial relationships in economic activity. Topics considered include market area analysis, location theory, economic base and input-output analysis as well as regional economic development. Prereq: ECO 202.

AEC 490 QUANTITATIVE METHODS AND PRICE ANALYSIS. (3)

An integration of current issues in Agricultural Economics with oral and written communications, problem solving, and research. Major emphasis is on a senior paper and oral presentation. Prereq: AEC 302, 303, 305, ECO 391 and senior standing in Agricultural Economics.

AEC 503 PRICE THEORY AND APPLICATIONS. (3)

This course uses calculus to develop core concepts in microeconomics and show how they can be applied to agricultural and natural resource issues. A central objective of this course is to link mathematical techniques with economic analysis to show students that calculus provides an efficient way to study producer and consumer behavior. Prereq: ECO 201 and MA 113.

AEC 510 INTERNATIONAL TRADE AND AGRICULTURAL MARKETING. (3)

A study of institutional, economic and cultural factors that influence aggregate agricultural trade and exports of individual agribusinesses. Macro issues of agricultural trade policies are examined along with elements of international marketing for agricultural products. Prereq: AEC 305 and ECO 401.

AEC 532 AGRICULTURAL AND FOOD POLICY. (3)

This course surveys a variety of current public policies that influence the agricultural and rural economies. Students are exposed to the conflicting views of those concerned with food and agricultural policy issues in an international economy. Economic principles are used to evaluate alternatives in terms of the general welfare of society. Prereq: AEC 305.

AEC 545 RESOURCE AND ENVIRONMENTAL ECONOMICS. (3)

This course builds on the principles of economics to analyze the problems in achieving an efficient allocation of resources. It provides the theoretical concepts for evaluating environmental policies and the tools necessary in the application of benefit/cost analysis. Prereq: ECO 201. (Same as NRC 545.)

AEC 580 SPECIAL PROBLEMS IN AGRICULTURAL ECONOMICS. (1-3)

Directed independent study of a selected problem. May be repeated to a maximum of six credits. Prereq: Consent of instructor, director of undergraduate or graduate studies and completion of a proposed plan of learning objectives and outcomes prior to registration.

AEC 590 INTRODUCTION TO QUANTITATIVE ECONOMICS I. (3)

An introduction to mathematical approaches to economic theory. Emphasis on linear models, constrained optimization, and techniques used in comparative statics. Prereq: ECO 401 and MA 113, or consent of instructor. (Same as ECO 590.)

AEC 606 ADVANCED AGRICULTURAL MARKETING. (3)

A critical examination of objectives and results of various types of research in market organization, marketing functions, price analysis, markets over time, space and form, market information, commodity promotion programs, quality standards, and macroeconomic linkages to marketing. Prereq: AEC 624 and ECO 601 (may be concurrent).

AEC 610 INTERNATIONAL TRADE IN AGRICULTURAL PRODUCTS. (3)

This course analytically examines current empirical research in the area of agricultural trade. Prereq: ECO 601, AEC 624 and ECO 671.

AEC 620 ADVANCED PRODUCTION ECONOMICS I. (3)

An advanced treatment of production economics with emphasis on flexible product and factor price situations, factor demand functions, multiple product production, and poly-periodic production theory. Prereq: ECO 601.

#AEC 622 ADVANCED AGRIBUSINESS MANAGEMENT STRATEGIES.(3)

This course integrates knowledge of economics, econometrics, business administration, finance, accounting, marketing, decision making, and research methodology. The focus is on analytical skills and scholarly academic research. Prereq: AEC 422, ECO 601 or AEC 603, an introductory course in econometrics, or consent of instructor.

AEC 624 ADVANCED QUANTITATIVE METHODS IN AGRICULTURAL ECONOMICS. (3)

This course uses statistical tools to model agricultural and economic systems. Subjects covered include: (1) the classical linear regression model, (2) statistical hypotheses tests, and (3) estimation techniques for single and simultaneous equation models. Prereq: ECO 391 and STA 291.

AEC 626 AGRICULTURE AND ECONOMIC DEVELOPMENT. (3)

Analytical consideration of the role of agriculture in economic development in relation to overall development strategy at various stages of growth. Theoretical and policy issues of particular relevance to the agricultural development in underdeveloped agrarian economies with various resource, social, political and economic systems. Prereq: ECO 473G or consent of instructor. (Same as ECO 674.)

AEC 640 ADVANCED AGRICULTURAL POLICY. (3)

This course focuses on development of a framework to analyze alternate paradigms of the political economy. The framework focuses on the role of institutions that modify behavior of decision makers. Agricultural and food policies are evaluated in terms of the efficient use of resources and the general welfare of society. Prereq: ECO 601 or AEC 503.

AEC 645 NATURAL RESOURCE ECONOMICS. (3)

Economic analysis of natural resource use and environmental issues. Discussion of criteria for public decision making, welfare economics, market failure, benefit-cost analysis, and benefit estimation, as applied to natural resources and the environment. Prereq: ECO 590 and ECO 601.

AEC 646 INTERTEMPORAL ALLOCATION OF NATURAL RESOURCES.(3)

This course teaches the application of economic theory to the analysis of solutions for current and prospective natural resource problems. Such understanding will be geared toward fashioning, selecting and implementing planning associated with land, water, air, biological and other natural resources and conservation of the natural environment in serving the needs and desires of citizens. Prereq: ECO 660 and AEC 590.

AEC 653 LOCAL ECONOMIC DEVELOPMENT. (3)

The course develops the capacity to employ the theories, practices and philosophies of economic development as applied to local areas. The primary geographic focus of the course is the rural south-east of the United States, but examples will be drawn from rural areas in other developed countries. Prereq: Graduate status in agricultural economics, public administration, economics, or consent of instructor. (Same as PA 653.)

AEC 661 PROGRAMMING MODELS IN AGRICULTURAL ECONOMICS. (3)

A study of some programming models useful in agricultural economics; includes an examination of the structure of the models themselves, economic interpretation of their components and their use in research in agricultural economics. Prereq: MA 416G and either AEC 620 or ECO 601.

AEC 662 QUANTITATIVE METHODS IN RENEWABLE AND NONRENEWABLE RESOURCE MANAGEMENT. (3)

Application of dynamic optimization methods to renewable and nonrenewable resource management. Includes problem formulation, mathematical problem solving, Matlab programming, simulations and optimal policies analysis. Case examples are used to demonstrate applicability and problem formulation in finance and general and partial equilibrium. Prereq: MA 113 and MA 162 or equivalent, and AEC 661 or equivalent. (Same as FOR 662.)

***AEC 691 STRUCTURE OF U.S. AGRICULTURE. (3)**

This seminar will analyze the structural transformation of U.S. agriculture in the 19th and 20th centuries in the context of sociological theory. Emphasis is given to key historical transitions, changing social relations of production and state policy. Such emphases provide a framework for understanding the historical roots and future prospects for the socioeconomic problems confronting contemporary U.S. agriculture. Prereq: Graduate standing in sociology, agricultural economics or CLD or consent of instructor. (Same as CLD/SOC 691.)

AEC 748 MASTER'S THESIS RESEARCH. (0)

Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

AEC 749 DISSERTATION RESEARCH. (0)

Half-time to full-time work on dissertation. May be repeated to a maximum of six semesters. Prereq: Registration for two full-time semesters of 769 residence credit following the successful completion of the qualifying exams.

AEC 767 DISSERTATION RESIDENCY CREDIT. (2)

Residency credit for dissertation research after the qualifying examination. Students may register for this course in the semester of the qualifying examination. A minimum of two semesters are required as well as continuous enrollment (Fall and Spring) until the dissertation is completed and defended.

AEC 768 RESIDENCE CREDIT FOR MASTER'S DEGREE. (1-6)

May be repeated to a maximum of 12 hours. Prereq: Consent of adviser and chairperson of department.

AEC 769 RESIDENCE CREDIT FOR DOCTOR'S DEGREE. (0-12)

May be repeated indefinitely. Prereq: Consent of adviser and chairperson of department.

AEC 780 SPECIAL PROBLEMS IN AGRICULTURAL ECONOMICS. (1-3)

Open to graduate students who have the necessary training and ability to conduct research on a selected problem. May be repeated three times for a total of nine credits. Prereq: Consent of instructor and departmental chairperson.

AEC 790 RESEARCH WORK IN AGRICULTURE ECONOMICS. (3-9)

Independent research under the direction of a faculty members and the Director of Graduate Studies. Prereq: Successful completion of written portion of AEC qualifying exam and permission of Director of Graduate Studies.

AEC 796 SEMINAR (Subtitle required). (3)

An extended original investigation of a specific topic designed to give students experience in methods of research and an intensive study of a particular subject in the field of agricultural economics. May be repeated to a maximum of six credits under different subtitles. Prereq: Ph.D. applicant or candidate.

AED Agricultural Education

AED 110 INTRODUCTION TO CAREER AND TECHNICAL EDUCATION. (3)

The history, status, philosophy, and objectives of career and technical education in relation to general education. (Same as FCS 110.)

AED 362 FIELD EXPERIENCES IN CAREER AND TECHNICAL EDUCATION. (3)

Supervised experiences in schools and other agencies. Required of all Career and Technical Education majors. Includes observation, participation, experience, field trips, inspection of programs, and professional organizations. Prereq: Majors only. (Same as FCS 362.)

AED 371 ADVISING A CAREER AND TECHNICAL STUDENT ORGANIZATION. (3)

This course is designed to assist students in developing skills and competencies needed to plan, implement, advise, and evaluate a Career and Technical Student Organization as part of the total CTE program. (Same as FCS 371.)

#AED 395 SPECIAL PROBLEMS IN CAREER AND TECHNICAL EDUCATION. (1-3)

Directed independent study of a selected problem in the field of career and technical education under the supervision of a faculty member. Prereq: Consent of appropriate instructor. (Same as FCS 395.)

#AED 399 EXPERIENTIAL LEARNING IN CAREER AND TECHNICAL EDUCATION. (1-3)

A field based learning experience in career and technical education under the supervision of a faculty member. Student must complete a learning contract which outlines the requirements agreed to by the student for successful completion of the course. Prereq: Consent of appropriate instructor. (Same as FCS 399.)

AED 535 PRINCIPLES AND PHILOSOPHY OF CAREER AND TECHNICAL EDUCATION. (3)

Study is made of philosophy, accepted principles, and legislation affecting programs in vocational education. (Same as FCS 535.)

AED 580 FOUNDATIONS OF TEACHING CAREER AND TECHNICAL EDUCATION. (3)

Course focuses on the foundation of teacher development including: effective teacher characteristics, principles of teaching and learning, and preparation of lesson plans. Prereq: Admission into the Teacher Education Program. (Same as FCS 580.)

***AED 583 DESIGNING CURRICULUM AND ASSESSMENT IN CAREER AND TECHNICAL EDUCATION. (3)**

Instructional methodology course focused on analyzing the principles of teaching and learning to design curriculum, instruction, and assessment for formal and non-formal educational settings. (Same as FCS 583.)

AED 586 METHODS OF TEACHING CAREER AND TECHNICAL EDUCATION. (3)
 Development of teaching competencies with emphasis on: discussion, demonstration, problem-solving, cooperative learning, service learning methods. Prereq: Admission into the Teacher Education Program and AED/FCS 580. (Same as FCS 586.)

***AED 592 TEACHING EXPERIENCE IN CAREER AND TECHNICAL EDUCATION. (12)**
 Supervised experience in teaching Career and Technical Education. Requires observation, lesson plan development, and incorporation of effective teaching methods and strategies. Regularly scheduled seminars included as an integral part of course. Prereq: Admission into the Teacher Education Program and successful completion of AED/FCS 580 and AED/FCS 586. (Same as FCS 590.)

AED 670 ADVANCED METHODS IN TEACHING CAREER AND TECHNICAL EDUCATION. (3)
 The principles of method applied to teaching in the field of career and technical education. Prereq: Experience in teaching vocational education. (Same as FCS 670.)

AED 671 YOUTH ORGANIZATIONS IN CAREER AND TECHNICAL EDUCATION. (3)
 A study of the underlying philosophy and principles for organizing and advising youth organizations in career and technical education. Emphasis on activities that will enrich and motivate the instructional programs, and develop leadership, cooperation and citizenship. (Same as FCS 671.)

AED 679 ADULT EDUCATION IN CAREER AND TECHNICAL EDUCATION. (3)
 Preparation for teaching adult classes in career and technical education including organization of classes, development of curriculum, and methods of teaching. (Same as FCS 679.)

AED 682 RESEARCH METHODS. (4)
 Research methods and skills for communicators, educators, and leadership development programs. Topics include design and analysis, data gathering techniques, assessment tools, and issues such as the politics of information. (Same as CLD/FCS 682.)

AED 684 CURRENT TRENDS IN CAREER AND TECHNICAL EDUCATION. (3)
 Class work in current trends and significant developments in career and technical education. May be repeated to a maximum of nine credits. (Same as FCS 684.)

***AED 686 INSTRUCTIONAL ASSESSMENT IN CAREER AND TECHNICAL EDUCATION. (3)**
 Instructional assessment of learning and achievement in Career and Technical Education middle and high school classrooms is addressed. Focus is placed on test writing, measurement and student achievement. (Same as FCS 686.)

AED 693 SUPERVISION IN CAREER AND TECHNICAL EDUCATION. (3)
 This course includes practice in teaching for observation by others, student teaching, and school visiting. (Same as FCS 693.)

AED 694 THE ADMINISTRATION OF CAREER AND TECHNICAL EDUCATION. (3)
 A course designed for superintendents, high school principals, and other administrators. Its purpose is to prepare administrators and supervisors for leadership in career and technical education. (Same as FCS 694/EDA 694.)

AED 695 SPECIAL PROBLEMS IN CAREER AND TECHNICAL EDUCATION. (3)
 An independent work course for students interested in career and technical education. Students make individual investigations and report on special problems. (Same as FCS 695.)

#AED 710 COLLEGE TEACHING OF AGRICULTURE, NATURAL RESOURCES AND HUMAN SCIENCES. (3)
 A course designed to assist current or future college faculty in agriculture, natural resources or human science disciplines seeking to enhance the teaching skills. Topics include theories, principles and practices associated with effective teaching and learning in higher education. Prereq: Graduate Standing in the College of Agriculture. (Same as FCS 710.)

AED 748 MASTER'S THESIS RESEARCH. (0)
 Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed. (Same as FCS 748.)

AED 768 RESIDENCE CREDIT FOR THE MASTER'S DEGREE. (1-6)
 May be repeated to a maximum of 12 hours. (Same as FCS 768.)

AED 779 SEMINAR IN CAREER AND TECHNICAL EDUCATION. (1-3)
 A critical study of selected problems in career and technical education. May be repeated to a maximum of nine credits. (Same as FCS 779.)

AED 789 INDEPENDENT WORK IN CAREER AND TECHNICAL EDUCATION. (1-3)
 An independent work course for students who have completed a minimum of 12 semester hours of graduate work, one-half of which must have been in career and technical education. May be repeated to a maximum of nine credits. (Same as FCS 789.)

AED 799 RESEARCH IN CAREER AND TECHNICAL EDUCATION. (1-3)
 Individual research of importance to career and technical education. May be repeated to a maximum of nine credits. (Same as FCS 799.)

AEN Agricultural Engineering

AEN 103 BASIC PRINCIPLES OF SURVEYING. (2)
 General use of surveying equipment, development of topographic maps, layout of engineering systems, earthwork computations, and introduction to boundary surveys for Agriculture students. This course is not available for credit to persons who have received credit in another introductory surveying course. Lecture, one hour; laboratory, three hours. Prereq: A course in trigonometry, enrollment in the College of Agriculture and/or consent of instructor.

AEN 220 FARM TRACTORS AND ENGINES. (3)
 Principles of selection and application of farm tractors and engines. Operating principles of internal combustion engines including carburetion, fuel injection, ignition, and lubrication. Power transmission application and efficiency are considered. Lecture, two hours per week; laboratory, two hours per week.

AEN 252 FARM SHOP. (3)
 Wood and metal work, including blueprint reading, oxyacetylene and arc welding, power woodworking tools, soldering and pipe work. Lecture, one hour; laboratory, four hours. Prereq: Major in agricultural education or consent of instructor.

AEN 340 PRINCIPLES OF FOOD ENGINEERING. (4)
 The functional requirements and principles of operation of systems for the handling and processing of food and agricultural products. Lecture, three hours; laboratory, two hours per week. Prereq: Junior standing and completion of physics and mathematics requirement in Food Science curriculum.

AEN 461G BIOMETEOROLOGY. (3)
 An introduction to the impact and relationship of the atmosphere on living organisms. Emphasis on the practical application of meteorology to everyday problems within the biosphere. Weather analysis, interpretation, psychometrics of the atmosphere, and the impact of weather and climate on animals, plants and man are discussed. Lecture, two hours; laboratory, two hours per week. Prereq: BIO 150 and STA 291 or consent of instructor.

AEN 462 RESIDENTIAL AND COMMERCIAL IRRIGATION DESIGN. (3)
 The utilization of hydraulic principles in the design, assimilation, installation and operation of residential and commercial irrigation systems in applications which emphasize water conservation, nutrient management and environmental protection. Lecture, two hours; laboratory, two hours per week. Prereq: Consent of instructor.

AEN 463G AGRICULTURAL SAFETY AND HEALTH. (3)
 The course provides a comprehensive overview of major safety and health hazards in agricultural production and an overview of the basic approaches for the prevention and control of agricultural injuries and illnesses. The course is oriented toward upper class and graduate students. Prereq: AEN 220, AEN 252, and junior standing or consent of instructor.

AEN 767 DISSERTATION RESIDENCY CREDIT. (2)
 Residency credit for dissertation research after the qualifying examination. Students may register for this course in the semester of the qualifying examination. A minimum of two semesters are required as well as continuous enrollment (Fall and Spring) until the dissertation is completed and defended.

AFS Air Force Studies

AFS 111 AEROSPACE STUDIES I. (1)
 A course designed to provide the student with a basic understanding of the nature and principles of war, national power, and the Department of Defense role in the organization of national security. The student also develops leadership abilities by participating in a military organization, the cadet corps, which offers a wide variety of situations demanding effective leadership.

AFS 112 LEADERSHIP LABORATORY I. (1)
 A course designed for development of basic skills required to be a manager, including communications, human relations, and administration of equal opportunity. Credit will not be granted toward the hours requirements for the degree. Pass/fail only. Coreq: AFS 111.

AFS 113 AEROSPACE STUDIES I. (1)
 A course designed to provide the student with a basic understanding of the contribution of aerospace power to the total U.S. strategic offensive and defensive military posture. The student also develops leadership abilities by participating in a military organization, the cadet corps, which offers a wide variety of situations demanding effective leadership. Prereq: AFS 111.

AFS 114 LEADERSHIP LABORATORY I. (1)
 A continuation of AFS 113. A course designed to develop managerial skills including superior/subordinate relationships, communications, customs and courtesies, basic drill

movements and career progression requirements. Credit will not be granted toward the hours requirements for the degree. Pass/fail only. Coreq: AFS 113.

AFS 211 AEROSPACE STUDIES II. (1)
 Introduces the study of air power from a historical perspective; focuses on the development of air power into a primary element of national security. Leadership experience is continued through active participation in the cadet corps. Lecture, one hour; leadership laboratory, one hour. Prereq: AFS 111, 113 or PAS approval.

AFS 212 LEADERSHIP LABORATORY II. (1)
 A course designed for development of advanced skills required to be a manager/leader, including leadership styles, public speaking, group dynamics, motivation and preparation for field training. Credit will not be granted toward the hours requirements for the degree. Pass/fail only. Coreq: AFS 211.

AFS 213 AEROSPACE STUDIES II. (1)
 Provides a foundation for understanding how air power has been employed in military and non-military operations to support national objectives. Examines the changing mission of the defense establishment, with particular emphasis on the United States Air Force. Leadership experience is continued through participation in the cadet corps. Lecture, one hour; leadership laboratory, one hour per week. Prereq: AFS 111, 113 or PAS approval.

AFS 214 LEADERSHIP LABORATORY II. (1)
 A continuation of AFS 213. A course designed to develop supervisory management skills to include communications, techniques of critique, social actions, personnel evaluation procedures, problem solving, role playing and field training preparation. Credit will not be granted toward the hours requirements for the degree. Pass/fail only. Coreq: AFS 213.

AFS 311 AEROSPACE STUDIES III. (3)
 A study of management functions with emphasis on the individual as a manager in an Air Force environment. Individual motivational and behavioral process, communication, and group dynamics are included to provide a foundation for the development of professional skills as an Air Force Officer. Students refine their leadership and managerial abilities by organizing and managing a quasi-military unit. Prereq: Acceptance into POC or approval of PAS.

AFS 312 LEADERSHIP LABORATORY IIIA. (1)
 A course designed and focused on developing advanced leadership skills. Students fill the mid-level management function within the cadet corps. The course involves the planning and controlling of military activities of the cadet corps, and the preparation and presentation of briefings and other written and oral communications. Pass/Fail only. Coreq: AFS 311.

AFS 313 AEROSPACE STUDIES III. (3)
 A study of leadership with specific emphasis on the Air Force leader. Includes theoretical, professional and communicative aspects. In addition, military justice and administrative law are discussed within the context of the military organization. Students continue to develop and refine their leadership abilities by organizing and managing a military unit, the cadet corps, which offers a wide variety of situations requiring effective leadership. Prereq: AFS 311.

AFS 314 LEADERSHIP LABORATORY III. (1)
 Laboratory to accompany AFS 313. Pass/fail only. Coreq: AFS 313.

AFS 395 INDEPENDENT AEROSPACE STUDIES. (2-6)
 A study of an advanced problem on a subject area in aeronautical science under the guidance of a departmental staff member. One discussion per week; term paper is required. May not be repeated. Prereq: Senior standing in the AFROTC Program, and 3.0 standing in Aerospace Studies.

AFS 411 AEROSPACE STUDIES IVA. (3)
 A study of the military profession, civil-military interaction, communicative skills, framework of defense policy, and formulation of defense strategy. Students refine their leadership abilities by organizing and managing a military unit, the cadet corps, which offers a wide variety of situations requiring effective leadership. Prereq: AFS 313, or approval of PAS.

AFS 412 LEADERSHIP LABORATORY IVA. (1)
 A course designed and focused on developing advanced leadership skills. Students fill the top level management function within the cadet corps. The course involves the planning and controlling of military activities of the cadet corps, and the preparation and presentation of briefings and other written and oral communications. The lab also includes practice of leadership techniques aimed at motivating and instructing cadets in the lower three levels. Pass/Fail only. Laboratory, two hours per week. Coreq: AFS 411.

AFS 413 AEROSPACE STUDIES IVB. (3)
 Continues the study of strategy and the management of conflict, formulation and implementation of U.S. defense policy, defense organization, and case studies in defense policy making. Students also refine their leadership abilities by organizing and managing a military unit, the cadet corps, which offers a wide variety of situations requiring effective leadership. Prereq: AFS 411 or approval of PAS.

AFS 414 LEADERSHIP LABORATORY IVB. (1)
 A continuation of AFS 412. A course designed and focused on developing advanced leadership skills. Students fill the top level management function within the cadet corps. The course involves the planning and controlling of military activities of the cadet corps,

and the preparation and presentation of briefings and other written and oral communications. The lab also includes practice of leadership techniques aimed at motivating and instructing cadets in the lower three levels. Pass/Fail only. Laboratory, two hours per week. Coreq: AFS 413.

AIS Arabic and Islamic Studies

AIS 101 ELEMENTARY MODERN STANDARD ARABIC. (4)
 An introduction to the standard written language of the Arab World. Initial emphasis upon the phonology and script, followed by gradual coverage of the grammar, with exercises in reading, writing, pronunciation, and vocabulary building.

AIS 102 ELEMENTARY MODERN STANDARD ARABIC. (4)
 Continuation of AIS 101. Prereq: AIS 101.

AIS 201 INTERMEDIATE MODERN STANDARD ARABIC. (3)
 A continuation of AIS 102, stressing comprehension of written and oral material, the ability to read Arabic aloud and to compose written material, and the ability to speak. Prereq: AIS 102.

AIS 202 INTERMEDIATE MODERN STANDARD ARABIC. (3)
 A continuation of AIS 201, stressing comprehension of written and oral material, the ability to read Arabic aloud and to compose written material, and the ability to speak. Prereq: AIS 201.

AIS 301 COLLOQUIAL ARABIC I. (3)
 Provides advanced skills in developing linguistic and communicative skills in colloquial Arabic based on Egyptian Arabic that is widely understood throughout the Arab world. Introduces aspects of Egyptian cultural life. Designed for those who have some experience with Standard Arabic. Prereq: AIS 202 or consent of instructor.

AIS 302 COLLOQUIAL ARABIC II. (3)
 A continuation of AIS 301. Prereq: AIS 301 or consent of instructor.

AIS 328 ISLAMIC CIVILIZATION I. (3)
 The rise of Islam and its classical development.

AIS 330 ISLAMIC CIVILIZATION II. (3)
 The Islamic world's response to westernization and the resultant reassertion of its cultural role in the modern world.

AIS 331 CLASSICAL ARABIC LITERATURE (in English). (3)
 Reading from some of the major works of Arabic literature (poetry and prose) of the 6th-14th centuries which are an integral part of the Arab cultural heritage, e.g., the Mu'allaqat, Koran, Ibn Ishaq's Sirah; al-Tabari's Ta'rikh; Abu'l Faraj's Kitab al-Aghani; al-Ghazzali's Ihya; al-Hariri's Maqamat; and Ibn Khaldun's Muqaddimah.

AIS 338 WOMEN AND ISLAM. (3)
 A survey of women's issues related to Islam and contemporary Muslim culture including the perception of women in Islam, the role and rights of women in Islam, female circumcision, honor killing women's dress. The course will discuss the viewpoints of the Muslim traditionalists, modernists, western feminists and the emerging Islamic feminists.

AIS 340 FUNDAMENTALISM AND REFORM IN ISLAM. (3)
 This course focuses on the revival of Islam in the 20th century and the various responses of Islam to modernism and western political and intellectual domination. Particular attention will be given to the rise of militant Islam and the terrorist attacks of 9/11. The original writings of major thinkers will be read and discussed.

AIS 395 INDEPENDENT WORK IN ARABIC/ISLAMIC STUDIES. (1-3)
 Students who have the proper qualifications may undertake a special problem in reading and research. May be repeated to a maximum of six credits. (Recommended.)

AIS 435 TOPICS IN ISLAMIC STUDIES (Subtitle required). (3)
 Variable in content, this course focuses on important texts and issues in Islamic history, religion, literature, and philosophy. May be repeated to a maximum of six credits under different subtitles.

AIS 440 INTRODUCTION TO THE QURAN. (3)
 An introduction to the disciplines of knowledge related to the Quran, its major themes, style of presentation, and relevance to contemporary societies and issues.

AIS 442 ARABIC READING I. (3)
 Advanced skills in speaking, reading, and analyzing selected texts from traditional and modern Arabic literature using formal spoken and written Arabic. Introduction to the use of Arabic computer software. Prereq: AIS 202 or equivalent.

AIS 443 ARABIC READING II. (3)
 Continuation of AIS 442 with emphasis on Modern Arabic Short Stories. Prereq: AIS 442 or equivalent.

AIS 495G ADVANCED INDEPENDENT WORK IN ARABIC/ISLAMIC STUDIES. (1-3)
 Independent research in Russian and Eastern Studies on an advanced level for undergraduate and graduate students. Students will be required to establish a written contract with the relevant faculty member describing the tasks to be completed in the course. May be repeated to a maximum of six credits, or a total of six credits of AIS 395 and 495G.

AMS American Military Studies

BASIC COURSES

- AMS 101 INTRODUCTION TO THE ARMY.** (2)
This introductory level course is designed to give students an appreciation for the role the Army currently plays in our society. The course covers the history of the Army and the roles and relationships of the Army within our society. The course also covers some of the basic skills necessary for today's leaders to include oral presentation, time management, map reading, basic rifle marksmanship and squad tactics.
- AMS 102 INTRODUCTION TO LEADERSHIP.** (2)
This course is designed to acquaint the student with the fundamental skills necessary to be a leader, both in military and civilian context. Course also covers basic military map reading skills.
- AMS 201 AMERICAN MILITARY HISTORY.** (2)
Study of the development of the U.S. from a military perspective. Pre-parallel development of technology and warfare; and emphasis on the evaluation of military leadership from the historically tested principles of warfare from the Civil War to the present.
- AMS 202 EFFECTIVE MILITARY COMMUNICATIONS.** (2)
This course provides instruction and practical experience in the art of speaking and writing in the Army style. Students will demonstrate competency through a series of oral presentations and writing assignments. Small unit tactics and map reading skills will also be used in the implementation of the oral presentations.
- AMS 211 ADVANCED LEADERSHIP I.** (2)
This course focuses on both theoretical and practical aspects of leadership. Students will examine topics such as written and oral communication, effective listening, assertiveness, personality, adult development, motivation, and organizational culture and change. Prereq: AMS 101 and 102, or consent of instructor.
- AMS 212 ADVANCED LEADERSHIP II.** (2)
This course focuses principally on officership, providing an extensive examination of the unique purpose, roles, and obligations of commissioned officers. It includes a detailed investigation of the origin or our institutional values and their practical application in decision making and leadership. Prereq: AMS 101, 102 and 211, or consent of the instructor.
- AMS 250 BASIC MILITARY SCIENCE LAB.** (1)
A hands-on practicum which exposes the student to the military skills required for basic technical and tactical competence to enter the Advanced Course. Laboratory, two hours per week and two week-end exercises. May be repeated to a maximum of four credits.

ADVANCED COURSES

- AMS 301 LEADERSHIP AND MANAGEMENT I.** (3)
Course of study in development of basic skills required to function as a manager; study of leadership styles, group dynamics, communications, motivation and military instruction methods; and school of the soldier and exercise of command. Prereq: AMS 101, 102 graduate or undergraduate student (male or female), successful completion of basic course or basic camp, physically fit to pursue program; consent of PMS.
- AMS 302 ADVANCED TACTICS.** (3)
Small unit tactics and communications, organization and mission of combat arms units; leadership and the exercise of command. Prereq: AMS 101, 102, graduate or undergraduate student (male or female), successful completion of basic course or basic camp, physically fit to pursue program; consent of PMS.
- AMS 320 ADVANCED STUDIES IN AMERICAN MILITARY HISTORY.** (3)
This course will furnish upper level UK ROTC Cadets, and qualified History majors or minors with the methodological tools and materials needed to gain a more detailed understanding of American Military History and to put together a major research paper. AMS/HIS 320 will emphasize basic research skills: understanding historiographical debates within a military framework, developing effective note taking, outlining techniques, picking a feasible research topic, finding useful primary sources and drawing inferences from them, examining American military campaigns and leaders in order to complete a battle analysis, and short research assignments. Prereq: Consent of instructor (Same as HIS 320.)
- AMS 341 LEADERSHIP AND MANAGEMENT II.** (3)
An advanced study of logistics, operations, military administrations, personnel management, military justice, world change and military implications, service orientation and leadership training. Prereq: AMS 301, 302.
- AMS 342 COMMAND MANAGEMENT.** (3)
An advanced study of logistics, operations, military administration, personnel management, military justice, world change and military implications, service orientation and leadership training. Prereq: AMS 301, 302.
- AMS 350 ADVANCED MILITARY SCIENCE LAB.** (1)
A hands-on practicum which exposes the student to the military skills required for advanced technical and tactical competence as an Army officer. The course affords junior and senior cadets opportunities to develop and refine their leadership style and abilities under differing

constraints and environments. Laboratory, two hours per week and two weekend exercises. May be repeated to a maximum of four credits. Prereq: AMS 250, AMS 101, AMS 201 and AMS 202. Concurrent: AMS 301, 302, 341 or 342.

- AMS 395 INDEPENDENT STUDY IN LEADERSHIP.** (1-2)
Advanced study in leadership. Students are under guidance and confer individually with faculty on approved topic(s). A written report or paper is expected and will be filed in the chairperson's office. May be repeated to a maximum of four credits. Prereq: Completion of AMS 302 and approval of PMS.

ANA Anatomy and Neurobiology

- ANA 109 ANATOMY AND PHYSIOLOGY FOR NURSING I.** (3)
Basic anatomy and physiology integrated to prepare freshman students for nursing.
- ANA 110 ANATOMY AND PHYSIOLOGY FOR NURSING II.** (3)
Basic anatomy and physiology integrated to prepare freshman students for nursing. Prereq: Successful completion of ANA 109.
- ANA 209 PRINCIPLES OF HUMAN ANATOMY.** (3)
The structure of the human body will be examined at various levels: cellular, tissues and organ systems. The gross anatomical arrangement of the body will be studied in a system-by-system format relating structure to function and the fundamentals of human embryology/malformation with adult anatomy. The central nervous system will be emphasized. Prereq: Introductory biology or zoology.
- ANA 395 INDEPENDENT RESEARCH IN ANATOMY AND NEUROBIOLOGY.** (1-3)
Independent research with faculty members. May be repeated to a maximum of 12 credits. Laboratory, three to nine hours per week. Prereq: Biology or psychology majors with sophomore, junior, or senior standing and consent of a faculty member.
- ANA 503 INDEPENDENT WORK IN ANATOMY.** (3)
Reading and laboratory work in a defined area of anatomy are carried out under the direct supervision of one staff member. Hours of discussion and laboratory work by individual arrangement. May be repeated to a maximum of 12 credits. Prereq: An introductory course in biology, zoology, or botany and consent of instructor.
- ANA 511 INTRODUCTION TO HUMAN ANATOMY.** (5)
The principles of organization of the human body are presented. Gross anatomy lectures initially follow a systemic plan. This is succeeded by a regional presentation. Several methods of studying anatomy are utilized. These include radiology, palpation of living structures, and the demonstration of prosected fresh and fixed materials. Prereq: Some background in biology, including one or more such courses as biology, zoology, botany, comparative anatomy or embryology, and enrollment in the College of Medicine or a graduate program in the biomedical sciences. In addition, students from graduate programs outside of anatomy must obtain the consent of the course director before registration.
- ANA 512 MICROSCOPY AND ULTRASTRUCTURE.** (4)
The organization of cells, tissues and organs are presented through lectures and in the laboratory, through the microscopic study of histological sections and illustrations. Prereq: Some background in biology, including one or more such courses as biology, zoology, botany, histological techniques, comparative anatomy or embryology and enrollment in the College of Medicine or a graduate program in the biomedical sciences. In addition, students from graduate programs outside of anatomy must obtain the consent of the course director before registration.
- ANA 516 SELECTED TOPICS IN ADVANCED NEUROSCIENCE.** (3)
ANA 516 will cover advanced topics in neuroscience. Topics include: neural pathways, development, neuroanatomy, neurobiochemistry, neuropharmacology, neural imaging and molecular neuroscience. Laboratory experiences will be used to complement lectures. Prereq: ANA 511, 512, 513; PGY 511; and enrollment in the College of Medicine or a graduate program in the bio-medical sciences. In addition, students from graduate programs outside of anatomy must obtain the consent of the course director before registration.
- ANA 530 COMBINED HISTOLOGY AND SPECIAL ORAL MICROANATOMY.** (5)
An analysis of the histological structure and organization of the human body, including an especially detailed treatment of the tissues and organs related to the oral cavity. Prereq: Admission to the College of Dentistry or some background in biology and consent of instructor.
- ANA 532 SYSTEMIC HUMAN ANATOMY.** (2)
A presentation at the gross-anatomical level of the structure and organization of the several organ systems that constitute the human body. Prereq: Admission to the College of Dentistry.
- ANA 534 DENTAL GROSS ANATOMY.** (5)
Study of human gross anatomy with a particular emphasis on functional anatomy of the head and neck. Lecture/laboratory course, with dissection being an essential component of the laboratory portion. 140 hours. Prereq: Admission to the College of Dentistry. (Same as OBI 815.)

ANA 536 HUMAN EMBRYOLOGY, AN ABBREVIATED COURSE. (2)

A concise presentation of developmental mechanisms, early development of the embryo, and subsequent development of selected systems and regions of the body. Lecture, one hour. Prereq: Admission to the College of Dentistry.

ANA 538 DENTAL NEUROANATOMY. (2)

Study of human dental neuroanatomy with emphasis on functional neuroanatomy of central nervous system, especially related to cranial nerves 5, 7, 9, and 10, pain, and long tracts. Lecture, one hour per week. Prereq: Admission to the College of Dentistry. (Same as OBI 817.)

ANA 600 SEMINAR IN ANATOMY. (1)

A weekly seminar devoted to presentation and discussion of classic and new research in the field. May be repeated to a maximum of four credits. Prereq: Admission to the anatomy graduate program or permission of the course director.

ANA 605 NEUROBIOLOGY OF CNS INJURY AND REPAIR. (3)

The objective of the course will be to provide a general overview of the current state of knowledge concerning the pathophysiology and therapeutic approaches to central nervous system injury. The course will provide a strong working background concerning the issues, techniques and frontiers of neurotrauma therapeutic discovery research aimed at reducing acute post-traumatic neurodegeneration in the injured brain or spinal cord or enabling regeneration and repair. This course is a graduate level course intended for students who are in their second or subsequent years of graduate study and who are pursuing focused research training in neurotrauma research. No special prerequisites, other than graduate standing, are necessary. However, a background in neuroanatomy and neurophysiology is highly recommended. Prereq: Permission of instructor. (Same as PGY 605.)

ANA 609 EDUCATIONAL STRATEGIES IN THE ANATOMICAL SCIENCES. (3)

This course informs on and examines multiple aspects of teaching the Anatomical Sciences. Classroom and laboratory issues, teaching theory, portfolio development and presentation strategies are among the topics covered. Prereq: Admission to the graduate certificate program in the Anatomical Sciences or the permission of the course director.

ANA 611 REGIONAL HUMAN ANATOMY. (5)

Functional human anatomy covering all regions of the body utilizing dissection techniques with an emphasis on cross-sectional anatomy and normal morphology. Lecture, four hours; laboratory, four hours per week. Prereq: Enrollment in the PAS Program of the College of Allied Health or a graduate program in the biomedical sciences (by consent of course director only).

ANA 612 BIOLOGY OF AGING. (3)

A multidisciplinary discussion of how the process of aging affects biological systems. Coverage will be quite broad and includes topics such as subcellular and cellular aging, genetics, immunology, anatomy and physiology, animal model of aging, etc. Prereq: Enrollment in the doctoral program in Gerontology or a biomedical science department or consent of instructor. (Same as BIO/GRN/PGY 612.)

ANA 618 MOLECULAR NEUROBIOLOGY. (4)

This course provides knowledge base and analytical skills in the field of molecular neurobiology. An in-depth introduction to current technologies, their rationale and limitations, will be the focus to address normal brain function and neuropathological conditions. Prereq: BCH 501, 502, NEU 605, or consent of instructor. (Same as BIO/MI/PGY 618.)

ANA 625 INTRODUCTION TO FUNCTIONAL MRI. (1)

Hands-on course for practitioners interested in acquiring functional MRI technique(s) as a research tool. Prereq: (1) Introductory statistics (e.g. PSY 610, STA 503, STA 570). (2) Permission of instructor.

ANA 629 TECHNIQUES OF ANATOMICAL RESEARCH. (2)

The objective of this course is the familiarization of students with research techniques in anatomy. The relationship will be tutorial. Students will work under the direction of given staff members for determined periods of time, usually on a problem. The exact length of time will depend upon the student's purposes, progress and the techniques. The problem may be new research or a repetition of previous work. May be repeated to a maximum of four hours. Prereq: Previous senior college or graduate level work in biology and consent of instructor.

ANA 631 ADVANCED HUMAN ANATOMY. (3-5)

The objective of this course is to meet individual student needs for increased knowledge in particular areas of gross human morphology. Investigations of problems involving gross morphology will be carried out. One or several defined areas of the body will be studied in considerable detail by dissection, by intensive use of the pertinent literature, by the use of visual aids, prosected materials and other appropriate learning aids. Prereq: A background in gross human anatomy equivalent to a medical school course in regional anatomy and consent of course director and/or Director of Graduate Studies in Anatomy and Neurobiology.

ANA 633 ADVANCED DEVELOPMENTAL ANATOMY. (2-5)

This is a detailed study of intra-uterine development, both normal and abnormal, usually arranged as a tutorial or small seminar series. Enrollment limited to 10 students. Prereq: ANA 511 or 811 and ANA 513 or their equivalents; or consent of instructor.

ANA 636 ADVANCED NEUROANATOMY. (3-5)

The objectives include specific and detailed correlation of microscopic and ultrastructural morphology of structures in the nervous system with function of these structures. Emphasis will be placed on structure-function relationships, neurotransmitters, chemical constituents of the nervous system, neuronal as well as non-neuronal cells, plasticity of the nervous system and developmental biology. The detailed content and emphasis will depend on both the background and goals of the students. Depending on number of credits a student registers for, and the topic and course orientation, laboratory work, library work, written and/or oral presentations may be a course requirement. Prereq: ANA 511, 512, 513, 516, or equivalents, or consent of instructor.

ANA 638 DEVELOPMENTAL NEUROBIOLOGY. (3)

An explanation of the processes which contribute to the development of the nervous system. Neurophysiological, cell biological and molecular approaches to cell differentiation, neuronal pathfinding and synapse formation and stabilization will be explored and discussed. Examples will be drawn from both vertebrate and invertebrate preparations. Prereq: BIO 535 or consent of instructor. (Same as BIO/PGY/PSY 638.)

ANA 660 BIOLOGY OF REPRODUCTION. (3)

Advanced study of current topics in reproductive biology. The course is comprised equally of student-led discussions and lectures given by faculty with research expertise in selected topics. Readings will be taken from current and classic literature. Topics covered include (but are not limited to) molecular and cellular endocrinology, hormone receptors and mechanism of action, reproductive neuroendocrinology, reproductive behavior, gametogenesis, fertilization, sexual differentiation, puberty, menopause and environmental effects on reproduction. Emphasis will be placed on the analysis and understanding of the experimental basis for current concepts in reproductive biology. Prereq: ASC/PGY 601 and ASC 364 or BIO/PGY 502 or consent of instructor. (Same as ASC 660 and PGY 660.)

ANA 662 ULTRASTRUCTURAL ANATOMY. (2-5)

The objectives of this course are to advance the students' knowledge of the submicroscopic structure of cells and tissues. Correlation of intra- and extracellular morphology and function will be emphasized. Students will do detailed laboratory work in the techniques of electron microscopy. Depending on the number of credits a student registers for, and the topic and course orientation, laboratory work, library work, written and/or oral presentations may be a course requirement. Prereq: ANA 512, previous work in microscopy including histology or cytology, or equivalents, and consent of instructor.

ANA 710 AGING OF THE NERVOUS SYSTEM. (3)

This course will examine the alterations in the brain that occur with aging and in neurodegenerative disorders such as Alzheimer's disease. The emphasis will be on human aging although the relevance of animal models to studies of human aging will be a recurrent theme. The course will examine aging at several levels, including molecular, cellular, organismic, and behavioral. A strong background in the basic sciences is encouraged. (Same as GRN/PGY/PHA 710.)

ANA 748 MASTER'S THESIS RESEARCH. (0)

Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

ANA 749 DISSERTATION RESEARCH. (0)

Half-time to full-time work on dissertation. May be repeated to a maximum of six semesters. Prereq: Registration for two full-time semesters of 769 residence credit following the successful completion of the qualifying exams.

ANA 767 DISSERTATION RESIDENCY CREDIT. (2)

Residency credit for dissertation research after the qualifying examination. Students may register for this course in the semester of the qualifying examination. A minimum of two semesters are required as well as continuous enrollment (Fall and Spring) until the dissertation is completed and defended.

ANA 768 RESIDENCE CREDIT FOR THE MASTER'S DEGREE. (1-6)

May be repeated to a maximum of 12 hours.

ANA 769 RESIDENCE CREDIT FOR THE DOCTOR'S DEGREE. (0-12)

May be repeated indefinitely.

ANA 780 SPECIAL TOPICS IN NEUROBIOLOGY. (1-3)

A lecture/seminar course offered based on contemporary topics in neurobiology. Course is designed to offer different emphasis in a given year and to cover timely topics. Prereq: Consent of the course director.

ANA 790 RESEARCH IN ANATOMY. (1-12)

Individualized laboratory and research experience under the supervision of a faculty member. May be repeated to a maximum of 12 credits. Prereq: Consent of the instructor.

ANA 801 HISTOLOGY FOR PHYSICAL THERAPY STUDENTS. (1)

A survey of selected basic and specialized mammalian tissues most commonly involved in diseases treated by physical therapists. The course provides information required for understanding the cellular mechanisms behind the various diseases and the rationale for subsequent treatment. Prereq: Admission to the College of Allied Health.

ANA 802 NEUROANATOMY FOR PHYSICAL THERAPY STUDENTS. (2)

A concise account of the functional anatomy of the central nervous system. The anatomical organization is correlated with physiological activity. Emphasis is placed upon the morphological basis for progressively higher levels of control of activity from the simple

reflex to voluntary motor activities controlled by the cerebral cortex. This type of knowledge is required for proper understanding and performance of physical therapy technicians in the treatment of medical and surgical disease.

ANA 811 HUMAN ANATOMY FOR ALLIED HEALTH PROFESSIONS. (5)
A dissection-based gross anatomy course designed to present the principles of the human body in a regional format with special emphasis on functional/clinical anatomical relationships. Prereq: Enrollment in the PT program of the College of Allied Health Professions.

ANA 812 HUMAN STRUCTURE/CELL AND TISSUE BIOLOGY. (4)
The organization of cells, tissues and organs is presented in lectures and in the laboratory through the study of in vivo materials, histological sections and electron microscopic illustrations with focus on the correlation of structure and function. Small group discussions on select topics supplement full classroom work. Lecture, 20 hours per week. Prereq: Admission to Medical School (first year). (Same as MD 812.)

ANA 814 HUMAN STRUCTURE/GROSS ANATOMY. (6)
The course consists of lecture, small group, laboratory, and palpation exercises that provide a basic understanding of anatomical principles, organization and development. Anatomical structures are introduced as a basis for future functional correlates and principles are taught via laboratory discussions, prosections, dissections, films and skeletal materials. Lecture, 20 hours per week. Prereq: Admission to Medical School (first year). (Same as MD 814.)

ANA 815 FIRST-YEAR ELECTIVE, ANATOMY. (1-3)
With the advice and approval of his or her faculty adviser, the first-year student may choose approved electives offered by the Department of Anatomy and Neurobiology. The intent is to provide the student an opportunity for exploration and study in an area which supplements and/or complements required course work in the first-year curriculum. Pass-fail only. Prereq: Admission to first year, College of Medicine.

ANA 825 SECOND-YEAR ELECTIVE, ANATOMY. (1-4)
With the advice and approval of his or her faculty adviser, the second-year student may choose approved electives offered by the Department of Anatomy and Neurobiology. The intent is to provide the student an opportunity for exploration and study in an area which supplements and/or complements required course work in the second-year curriculum. Pass-fail only. Prereq: Admission to second-year medical curriculum and approval of adviser.

ANA 850-899 FOURTH-YEAR ELECTIVE FOR MEDICAL STUDENTS. (1-6)
With the advice and approval of the faculty adviser and the Student Progress and Promotions Committee, the fourth-year student may choose approved electives offered by the various departments in the College of Medicine. The intent is to provide the student an opportunity to develop his/her fund of knowledge and clinical competence. Prereq: Admission to the fourth year, College of Medicine and/or by the permission of the Student Progress and Promotions Committee.

Approved elective:
ANA 850 APPLIED HUMAN ANATOMY

ANS Anesthesiology

ANS 815 FIRST-YEAR ELECTIVE, ANESTHESIOLOGY. (1-3)
With the advice and approval of his or her faculty adviser, the first-year student may choose approved electives offered by the Department of Anesthesiology. The intent is to provide the student an opportunity for exploration and study in an area which supplements and/or complements required course work in the first-year curriculum. Pass-fail only. Prereq: Admission to first year, College of Medicine.

ANS 825 SECOND-YEAR ELECTIVE, ANESTHESIOLOGY. (1-4)
With the advice and approval of his or her faculty adviser, the second-year student may choose approved electives offered by the Department of Anesthesiology. The intent is to provide the student an opportunity for exploration and study in an area which supplements and/or complements required course work in the second-year curriculum. Pass-fail only. Prereq: Admission to second-year medical curriculum and approval of adviser.

ANS 850-899 FOURTH-YEAR ELECTIVE FOR MEDICAL STUDENTS. (1-6)
With the advice and approval of the faculty adviser and the Student Progress and Promotions Committee, the fourth-year student may choose approved electives offered by the various departments in the College of Medicine. The intent is to provide the student an opportunity to develop his fund of knowledge and clinical competence. Prereq: Admission to the fourth year, College of Medicine and/or permission of the Student Progress and Promotions Committee.

Approved electives:
ANS 850 CLINICAL CLERKSHIP IN ANESTHESIOLOGY
ANS 851 CRITICAL CARE UNIT
ANS 852 RESEARCH IN ANESTHESIOLOGY
ANS 853 CLINICAL CLERKSHIP IN PAIN MANAGEMENT
ANS 890 ANESTHESIOLOGY OFF-SITE

ANT Anthropology

ANT 101 INTRODUCTION TO ANTHROPOLOGY. (3)
This course introduces the student to the study of human cultures, past and present. It offers a comprehensive introduction to anthropology, emphasizing the concepts and methods of the major sub-fields, i.e., cultural, biological, archaeology, and linguistics.

ANT 130 INTRODUCTION TO COMPARATIVE RELIGION. (3)
Comparative study of major world and selected regional religions with emphasis on analysis of belief, ritual, artistic expression and social organization. Eastern and Western religions are considered. (Same as RS 130.)

ANT 160 CULTURAL DIVERSITY IN THE MODERN WORLD. (3)
Directed at non-majors, this course is intended to introduce the student to the diversity of human cultural experience in the contemporary world. Goals of the course include gaining an appreciation for the common humanity and uniqueness of all cultures; to gain a sensitivity toward stereotypes and ethnocentrism, and to understand the distinctions between "race," ethnicity and racism. The course features extended descriptions of the cultural dynamics of the culture(s) with which the instructor has worked.

ANT 220 INTRODUCTION TO CULTURAL ANTHROPOLOGY. (3)
The study of the lifeways and beliefs of different peoples. The objectives of the course are to foster an appreciation for the variety of cultural traditions found throughout the world, and to introduce students to anthropological concepts and methods of inquiry.

ANT 221 NATIVE PEOPLE OF NORTH AMERICA. (3)
A survey of the aboriginal Indian cultures of North America, and of the impact of four centuries of British, French, Spanish, and Russian contact on the Indian communities. The course will include consideration of the status of Indians in present-day North America.

ANT 230 INTRODUCTION TO PHYSICAL ANTHROPOLOGY. (3)
This course explores the ways in which biology, the environment and culture come together to form the human condition. Topics include human genetics, human evolution, primate behavior, contemporary human variation and applied biological anthropology, including forensics, child growth and human nutrition. This course includes a laboratory component.

ANT 240 INTRODUCTION TO ARCHAEOLOGY. (3)
Introduces the theories, techniques, and strategies used by archaeologists to recover and interpret information about past cultures.

ANT 241 ORIGINS OF OLD WORLD CIVILIZATION. (3)
A survey of cultural developments in the Old World from the earliest times to the beginning stages of civilization.

ANT 242 ORIGINS OF NEW WORLD CIVILIZATION. (3)
Survey of the origins and growth of ancient peoples of the Americas as revealed by archaeological data.

ANT 245 FOOD CULTURE AND SOCIETY. (3)
This course is designed for students in anthropology, food and nutrition, agriculture and environmental studies. It explores food in terms of human food systems. Human food systems include the knowledge, values, and practices used to produce, distribute, process, exchange and consume food. These are embedded in culture and operate within societies. Thus, why we eat, what we eat, when, where and with whom we eat, how and where we obtain our food, how we prepare it, and distribute it in specific ways may vary as a function of the culture in which we live, our place of residence and our location within society. We will explore these issues through the lectures, readings, videos and discussions to gain a better understanding of the complexity of food-related behaviors among people around the world.

ANT 301 HISTORY OF ANTHROPOLOGICAL THEORY. (3)
The purpose of this course is to acquaint the undergraduate student with the history of the development of anthropological ideas from their precursors in thought about human nature and behavior beginning with ethnographic and philosophical literature from Greek and Roman civilization, and ending with discussion of current emphases in anthropological theory. The course will provide anthropology majors with the foundations they need to master this area of disciplinary knowledge. Prereq: ANT 220.

#ANT 303 TOPICS IN THE ANTHROPOLOGY OF FOOD AND NUTRITION: (Subtitle required). (3)
